Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Report of Independent Auditors

To the Administrator of Philip Morris International Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the accompanying financial statements of Philip Morris International Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, including the related notes (collectively referred to as the "financial statements").

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024, and 2023 and for the years then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

PricewaterhouseCoopers LLP, PricewaterhouseCoopers Center, 300 Madison Avenue, New York, NY 10017
T: (646) 471 3000, www.pwc.com/us

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedules Required by ERISA

The supplemental schedules Schedule H, line 4i - Schedule of Assets (Held at End of Year) as of, December 31, 2024 and Schedule H, line 4j - Schedule of Reportable Transactions for the year ended, December 31, 2024 ("supplemental schedules"), are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with US GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NOTES to FINANCIAL STATEMENTS

1. General Description of the Plan:

The following description of the Philip Morris International Retirement Plan (the “Plan”) is provided for general information purposes only. The provisions of the Plan are detailed in the official Plan document, which legally governs the operations of the Plan. Participants should refer to the Plan document for more complete information.

The Plan is a non-contributory defined benefit pension plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). The Plan covers eligible U.S. employees of Philip Morris International Inc. and certain of its current and former subsidiaries, including Philip Morris International Management LLC, PMI Global Services Inc., Philip Morris Global Brands Inc., Triaga Inc., Philip Morris U.S. Corporate Services Inc. and Vectura Inc. (collectively, the “Participating Companies”).

The administration of the Plan has been delegated to the Administrator, as defined in the Plan document. The Administration Committee, the Investment Committee and the Benefits Control Committee (hereinafter collectively referred to as “the Committees”) are responsible for the operation and management of the investment of the Plan assets.

The Plan’s normal retirement date is defined as the first day of the month following the employee’s 65th birthday or, if later, the date the employee completes 5 years of accredited service. Annual pension benefits, beginning at normal retirement date, are calculated based on employees’ compensation during the highest sixty (60) consecutive months during the last hundred twenty (120) months of accredited service and Social Security Covered Compensation. In addition, after completing 5 years of accredited service, employees may retire early, with reduced benefits, on or after age 55, or with full, unreduced early retirement benefits if they have completed 30 years or more of accredited service or attained age 60. Eligible employees are 100% vested in their accrued benefit after 5 years of accredited service.

Employees hired by a Participating Company on or after January 1, 2009 are not eligible to participate in the Plan. Employees rehired by a Participating Company on or after January 1, 2009 are not eligible to continue to participate in the Plan but will be credited with vesting service for the Plan benefit earned during their previous employment with the Participating Company. Employees who are transferred to a Participating Company on or after January 1, 2009 from another Philip Morris International affiliate that is not a Participating Company are not eligible to participate in the Plan.

2. Summary of Significant Accounting Policies:

Basis of Presentation:

The financial statements are prepared using the accrual basis of accounting.

Use of Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to use estimates and assumptions that affect the reported amounts in the financial statements and related disclosures. Actual results could differ from those estimates.

Valuation of Investments:

The Plan's investments are composed of the following:

- Commingled funds consisting of investments in U.S. and international equities, U.S. government bonds and non-U.S. bonds are valued at the net asset value of the commingled funds. The net asset values of the commingled funds are generally valued using a market approach which incorporates using a third-party pricing service to determine valuations by using methods based on market transactions and prices for comparable securities.
- The short-term investment fund ("STIF Account") is a U.S. government money market fund that is valued at amortized cost, which approximates fair value. This fund is comprised of cash and cash equivalents.

Investment Transactions and Investment Income:

An investment transaction is accounted for on the date the purchase or sale is executed. Dividend income is recorded on the ex-dividend date; interest income is recorded as earned on an accrual basis.

In accordance with the policy of stating investments at fair value, the net appreciation (depreciation) in the fair value of investments reflects both the realized gain (loss) and the change in the unrealized appreciation (depreciation) of investments.

Risks and Uncertainties:

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

NOTES to FINANCIAL STATEMENTS, Continued

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported, based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change.

Due to uncertainties inherent in the estimation and assumption setting process, it is reasonably possible that changes in these estimates and assumptions could be material to the financial statements.

Factors beyond our control, such as, without limitation, natural disasters, extreme weather events, pandemics (including COVID-19), economic, political, regulatory, acts of war or threats of war, or other developments may adversely impact global financial markets.

Actuarial Valuation Method and Assumptions:

The present value of accumulated plan benefits is based on the accrued benefit cost method.

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation during the highest sixty (60) consecutive months during the last hundred twenty (120) months of accredited service. The accumulated plan benefits for active employees are based on their average compensation during the five years ending on the date of which the benefit information is presented (the valuation date). Benefits payable under all circumstances—retirement, death, disability, and termination of employment—are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

NOTES to FINANCIAL STATEMENTS, Continued

The more significant assumptions underlying the actuarial computations at January 1, 2024 and 2023 are as follows:

Interest Rate	2024 – 5.40%
	2023 – 5.00%
Mortality basis	2024 and 2023 – Pri-2012 tables (with no collar adjustment) for employees, annuitants and contingent spouses projected generationally using Scale MP-2021
Retirement age	Based on varying percentages by age from 55 to 70 plus.

The foregoing assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Payment of Benefits:

Benefit payments to participants are recorded when paid.

3. Trustee Certification:

JPMorgan Chase Bank N.A., the “Trustee”, has certified that the Plan’s investment balances and transactions at fair value and cost, and all investment related accounts provided to the Plan Administrator at December 31, 2024 and 2023 and for the years then ended, are complete and accurate, as follows (in thousands):

	<u>2024</u>	<u>2023</u>
Investments, at fair value	\$266,703	\$275,724
Investment income:		
Net appreciation (depreciation)		
in fair value of investments	\$12,227	\$31,258

NOTES to FINANCIAL STATEMENTS, Continued

4. Funding Policy:

The Participating Companies make contributions to the Plan each year in an aggregate amount that is not less than the amount that is required under the minimum funding standards of ERISA, as amended by the American Rescue Plan Act of 2021 (the “ARPA”), the Pension Protection Act (the “PPA”) of 2006, and the Internal Revenue Code of 1986, as amended (the “Code”).

The amount of contributions required (and permitted) each year is determined by Willis Towers Watson (the “Actuary”). Effective January 1, 2021 the required contribution is determined using the funding target approach as defined by the ARPA which requires a minimum contribution equal to the Plan’s target normal cost plus an amount to amortize the funding shortfall over a period of fifteen years when the Plan’s assets are less than the funding target. The Plan’s target normal cost is the present value of benefit liabilities expected to accrue during the plan year, including increases in past service benefits attributable to current year salary increases plus assumed plan expenses. The Plan’s funding shortfall is the excess of the Plan’s target liability over the Plan’s assets and the Plan’s surplus is when the Plan’s assets are higher than the target liability. The actuarial determination of the minimum required contribution and maximum tax deductible contribution assumes payment of the contributions by the Participating Companies as of the beginning of the year. However, the Participating Companies may defer payment until the filing date of the consolidated federal income tax return of Philip Morris International Inc. The contribution amounts are adjusted for interest accrued to the payment date. The actuarial determination of quarterly contributions assumes payment on the due dates of the payments.

As a result of the Plan’s funded status, the Actuary has determined that no cash contributions by the Participating Companies were required for the years ended December 31, 2024 and 2023. The Participating Companies have complied with the minimum funding requirements of ERISA, the Code and the PPA.

NOTES to FINANCIAL STATEMENTS, Continued

5. Accumulated Plan Benefits:

The actuarial present value of accumulated plan benefits at January 1, 2024 and the changes in the actuarial present value of accumulated plan benefits for the year then ended were calculated by the Actuary (in thousands of dollars).

Vested benefits	
Participants currently receiving benefit payments	\$209,627
Other participants	<u>74,941</u>
Total vested benefits	284,568
Non-vested benefits	
Total actuarial present value of accumulated plan benefits	<u>\$286,152</u>
Actuarial present value of accumulated plan benefits at January 1, 2023	\$300,760
Net increase/(decrease) during the year attributable to:	
Assumption changes	(11,128)
Decrease in discount period	14,648
Additional benefits accumulated	1,770
Benefits paid	(19,379)
Actuarial (gains)/losses	<u>(519)</u>
Actuarial present value of accumulated plan benefits at January 1, 2024	<u>\$286,152</u>

6. Termination Priorities:

In the event of a termination of the Plan in accordance with the provisions of ERISA, the Plan provides that its net assets shall be allocated among participants and beneficiaries in the order and manner provided for by ERISA. In the event Plan assets are insufficient to discharge all liabilities required to be discharged by ERISA, ERISA requires that such liabilities shall be the responsibility of the Participating Companies and their “ERISA affiliates” (as defined by ERISA) up to a designated percentage of their collective net worth. If the Participating Companies and their ERISA affiliate are unable to satisfy such liabilities, the satisfaction of such liabilities is the responsibility of the Pension Benefit Guaranty Corporation, up to specified dollar and other limitations.

NOTES to FINANCIAL STATEMENTS, Continued

7. Tax Status:

By letter dated March 20, 2014 the Internal Revenue Service has determined that the Plan constitutes a qualified plan under Section 401 (a) of the Code and the related Trust is, therefore, exempt from federal income taxes under the provisions of Section 501 (a) of the Code. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC; therefore, no provision for income taxes has been included in the Plan's financial statements.

The Plan's management has reviewed the Plan's tax-exempt status and analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024 and 2023, there are no uncertain tax positions taken or expected to be taken that would require recognition or disclosure in the financial statements during the years then ended. There are currently no audits for any tax periods in progress from any taxing authorities.

8. Transactions with Parties-in-Interest:

The applicable fiduciaries are not aware of any transaction between the Plan and a party-in-interest (as defined by ERISA) or disqualified person (as defined in the Code) to the Plan (1) which is prohibited under the fiduciary responsibility provisions of ERISA or the prohibited transaction provisions of the Code, or (2) which has not been exempted from such prohibitions pursuant to a class exemption issued by the Department of Labor. The Trust invests in a short-term investment fund managed by JPMorgan Investment Management Inc., which is an affiliate of the Trustee. This transaction qualifies as an exempt party-in-interest transaction under ERISA.

NOTES to FINANCIAL STATEMENTS, Continued

9. Fair Value Measurements:

Fair Value Measurement Accounting Standards Codification (“ASC 820”) establishes a framework for measuring fair value and expands disclosures about fair value measurements. ASC 820 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. ASC 820 also establishes a fair value hierarchy that requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1 - Quoted prices in active markets for identical assets or liabilities.

Level 2 - Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 - Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

There have been no changes in the methodologies used at December 31, 2024 and 2023. There were no transfers between Level 1, 2 or 3 during the years ended December 31, 2024 and 2023. There have been no purchases or settlements of Level 3 securities during the years ended December 31, 2024 and 2023.

Plan Assets

STIF Account:

The short-term investment fund is a U.S. government money market fund that is valued at amortized cost, which approximates fair value. This fund is comprised of cash and cash equivalents and is classified within Level 1. At December 31, 2024 and December 31, 2023, the balances were \$639,678 and \$30,652,715, respectively. The short-term investment fund can be redeemed on a daily basis.

Commingled Funds:

Commingled Funds consisting of investments in US and international equities, U.S. government bonds and non-U.S. bonds have not been classified within the fair value hierarchy in accordance with Financial Accounting Standards Board Accounting Standard Codification “FASB ASC Subtopic 820-10” as they are valued using the net asset value per share practical expedient. At December 31, 2024 and December 31, 2023, the balances were \$266,060,986 and \$245,069,951, respectively. The State Street Intermediate U.S. Gov’t Index Non-Lending Fund, the State Street Long U.S. Gov’t. Index Non-Lending Fund, the State Street Russell 3000 Index Non-Lending Fund, the State Street MSCI ACWI Ex U.S Non-Lending Fund, the BlackRock Intermediate Term Credit Bond Index

Non Lendable Fund, and the BlackRock Long Term Credit Bond Index Non Lendable Fund can be redeemed on a daily basis with 2 days advance notice.

10. Subsequent Events:

Subsequent events have been evaluated through September 25, 2025, the date the financial statements were available to be issued and determined that no additional disclosures are required.

Statement of Actuarial Assumptions/Methods

Economic Assumptions

Interest rate basis

Applicable month	January
Interest rate basis	Segment Rates

Interest rates	Reflecting Stabilization	Not Reflecting Stabilization
First segment rate	4.75%	4.37%
Second segment rate	4.96%	4.96%
Third segment rate	5.59%	4.95%
Effective interest rate	5.14%	4.91%

Annual rates of increase

Compensation:	3.00%
Future Social Security wage bases	2.50%

Statutory limits on compensation N/A

As permitted by law, rates reflecting stabilization are used to determine the funding target and target normal cost, and thus the minimum required contribution under IRC §430 for the plan. Because these assumptions are subject to a corridor based on average interest rates over a 25-year period, they may differ from (and currently are higher than) current market interest rates, and may be inconsistent with other economic assumptions used in the valuation.

Participant Data

Philip Morris International Inc., through its third part administrator, supplied a census of all participants as of January 1, 2024. Data was reviewed for reasonableness and consistency, but not audit was performed.

Assumptions or estimates were made by Willis Towers Watson with concurrence of Philip Morris International Inc. when data were not available. Willis Towers Watson is not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Actuarial value of assets for determining minimum required contributions	Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year.) The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.
Benefits not valued	All benefits described in the Plan Provisions section of this report were valued. WTW has reviewed the plan provisions with PMI Global Services Inc. and, based on

Plan Name: Philip Morris International Retirement Plan

that review, is not aware of any other significant benefits required to be valued that were not.

Sources of Data and Other Information

PMI Global Services Inc. furnished participant data as of January 1, 2023 and January 1, 2024. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data was not available, and data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. A summary of assumptions that were made to the data was provided to PMI Global Services Inc. in September 2024. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Rates of increase in compensation, National Average Wages (NAW) and CPI:	Assumed increases were chosen by the plan sponsor and they represent an estimate of future experience.

Plan Sponsor: PMI Global Services Inc.
Valuation Date: January 1, 2024

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Assumed termination rates are based on plan sponsor expectation for the future with periodic monitoring of patterns different than assumed.
Disability	Assumed termination rates are based on plan sponsor expectation for the future with periodic monitoring of patterns different than assumed.
Retirement	Assumed termination rates are based on plan sponsor expectation for the future with periodic monitoring of patterns different than assumed.
Benefit commencement date for deferred benefits:	
Preretirement death benefit	Surviving spouses are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start then unless the spouse elects to defer. If the participant was eligible for subsidized benefits at death, it is expected the spouse will elect commencement to use the value of the subsidy. If the participant was not eligible for subsidized benefits and the spouse elects to defer, actuarial increases from the earliest commencement date must be given, so that a later commencement date is expected to be of approximately equal value.

Plan Name: Philip Morris International Retirement Plan
EIN / PN: 03-0494952 / 001
Plan Sponsor: PMI Global Services Inc.
Valuation Date: January 1, 2024

Deferred vested benefit	Deferred vested participants are assumed to begin benefits at age 61 (or current age if later).
Form of payment	The percentage of retiring participants assumed to take joint and survivor annuities, and the assumed survivor percentages, are based on plan sponsor expectation with periodic monitoring of patterns different than assumed.
Percent married	The assumed percentage married is based on plan sponsor expectation with periodic monitoring of patterns different than assumed.
Spouse age	The assumed age difference for spouses is based on plan sponsor expectation with periodic monitoring of patterns different than assumed.

Prescribed Methods

Funding methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Summary of Plan Provisions**

Philip Morris International Salaried Retirement Plan

Plan Provisions

Effective Date	The plan was adopted effective January 1, 2008.
Covered employees	Any non-union employee who receives a regular and stated compensation (other than a retainer) directly from Philip Morris International.
Participation date	Date of becoming a covered employee. Employees hired or transferred after January 1, 2009 are not eligible to participate.

Definitions

Vesting service	All periods of service commencing on the employee's date of employment and ending on the employee's date of termination. Service accrued under another Philip Morris International or former Altria plan is counted as vesting service.
Pension service	Vesting service excluding service considered pension service under another Philip Morris International or former Altria plan. Pension service for Philip Morris Products Salaried employees is not credited prior to July 1, 1997.
Pensionable pay	Actual wage or salary including overtime and awards under the company's Incentive Compensation Plan or similar plans.
Average earnings	The average of the highest five (three for Philip Morris Products Salaried employees) consecutive calendar years of pensionable pay during the ten-year period ending on the earlier of the participant's termination date or retirement date.
Covered Compensation	The average of the Social Security Taxable Wage Bases over the 35-year period ending in the year of attainment of Social Security Retirement Age. For employees who terminate prior to Social Security Retirement Age, the Social Security Taxable Wage Base used for the current and subsequent plan years shall be assumed

Plan Name: Philip Morris International Retirement Plan

to be the same as the Social Security Taxable Wage Base in effect in the year of termination.

Normal retirement date (NRD)

First of month following the attainment of age 65 with five years of pension service.

Monthly pension benefit

For eligible salaried employees at Participating Companies, the greater of (a), (b), and (c):

- a. the sum of 1.45% of five-year average earnings up to covered compensation and 1.75% of such compensation in excess of covered compensation, multiplied by years of pension service with a maximum of 35 years;
- b. 1.50% of five-year average earnings not exceeding \$17,000 multiplied by the years of pension service with a maximum of 30 years;
- c. the sum of 1.45% of five-year average earnings (excluding awards under the company's Incentive Compensation Plan) up to covered compensation and 1.75% of such compensation in excess of covered compensation, multiplied by years of pension service with a maximum of 35 years, plus 1.45% of such compensation multiplied by years of pension service in excess of 35 years;

For Philip Morris Products Salaried Employees:

- a. for those born prior to January 1, 1938, the sum of 1% of three-year average earnings multiplied by all years of pension service and 0.75% of three year average earnings in excess of covered compensation multiplied by years of pension service with a maximum of 35 years;
- b. for those born on or after January 1, 1938 and on or before December 31, 1954, the sum of 1.05% of three-year average earnings multiplied by all years of pension service and 0.70% of three-year average earnings in excess of covered compensation level multiplied by years of pension service with a maximum of 35 years;
- c. for those born on or after January 1, 1955 the sum of 1.1% of three-year average earnings multiplied by all years of pension service and 0.65% of three-year average
