## INDEPENDENT AUDITOR'S REPORT

To the Participants and Plan Administrator of  
Landis+Gyr Pension Plan  
Alpharetta, Georgia

### **Scope and Nature of the ERISA Section 103(a)(3)(C) Audit**

We have performed audits of the financial statements of Landis+Gyr Pension Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, the related statement of changes in net assets available for benefits for the years then ended and the related notes to the financial statements (Financial Statements).

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's Financial Statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023 and for the years then ended, stating that the certified investment information, as described in Note 3 to the Financial Statements, is complete and accurate.

### **Opinion**

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying Financial Statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying Financial Statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

## **Basis for Opinion**

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

## **Emphasis of Matter - Change in Accounting Policy**

As further discussed in Note 2 to the financial statements, Plan Management has elected to change the presentation of the accumulated plan benefits from an end-of-year presentation to a beginning-of-year presentation effective in the 2024 Financial Statements. As a result, the presentation of amounts reported in Note 5 have been revised to conform to a beginning-of-year presentation. Our opinion is not modified with respect to this matter.

## **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of these Financial Statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

## **Auditor's Responsibilities for the Audit of the Financial Statements**

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the Financial Statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the

effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the Financial Statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### **Supplemental Schedules Required by ERISA**

The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2024, and Schedule of Reportable Transactions for the Plan year ended December 31, 2024 are presented for purposes of additional analysis and are not a required part of the Financial Statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the Financial Statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the Financial Statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the Financial Statements or to the Financial Statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Respectfully submitted,

## NOTES TO FINANCIAL STATEMENTS

December 31, 2024 and 2023

### NOTE 1 - DESCRIPTION OF PLAN

The following brief description of the Landis+Gyr Pension Plan (the "Plan") is provided for general information purposes only. Participants should refer to the plan agreement for a more complete description of the Plan's provisions. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

#### GENERAL

The Plan was established December 2, 2005 as a noncontributory defined benefit plan sponsored by Landis+Gyr Technology, Inc. (the Company), covering non-union employees, as defined by the Plan. Certain non-union employees who were participants in the Siemens Pension Plan and the frozen Retirement Plan for Non-Bargaining Unit Employees of Landis+Gyr Technology Inc. and its Participating Subsidiaries were transferred to the Plan on December 2, 2005.

Effective December 31, 2006, the Plan was amended to freeze the future accrual of Plan benefits. No other employee may become a Plan participant after this date. As of December 31, 2006, all service and pay credited benefits accrued became 100% vested by all participants. Interest credits continue to vest.

Effective June 30, 2020, the Plan was amended. Included in the amendment was a plan name change to Landis+Gyr Pension Plan; the Sponsor name changed to Landis+Gyr Technology Inc. All other material terms and conditions remained the same.

#### PENSION BENEFITS

Participants with five years of continuous service, as defined by the Plan, are entitled to pension benefits upon retirement. The Plan permits early retirement for those employees who have attained the age of 55 and have completed at least ten years of service. Pension benefits are provided to participants under several types of retirement options based on years of continuous service and age. Retirement benefits are paid to pensioners or beneficiaries in various forms of joint and survivor annuities, including a lump-sum payment option.

For participants who had a cash balance account transferred from the Siemens Pension Plan, the cash balance benefit is based on accumulated amounts in a hypothetical account maintained for each participant. Amounts accumulate based on pay credits and interest credits. Effective December 31, 2006, pay credits are no longer accumulated. Interest is credited monthly to the account balance based on the 30-year U.S. Treasury Security rate for the month of August from the preceding calendar year, but not less than an annual rate of 4.00%. Employees vest in the interest balances after five years of credited service. No further interest is credited after benefit payments start. Upon termination of employment, the vested account balance can be paid out in the form of a lump sum or as a monthly annuity.

## NOTES TO FINANCIAL STATEMENTS

December 31, 2024 and 2023

### DEATH BENEFITS

The Plan provides for pre-retirement and post-retirement death benefits, as follows:

**Pre-Retirement** - If a prior Plan member dies before their annuity starting date, the surviving spouse is eligible to receive a qualified pre-retirement survivor annuity if the prior Plan member has a vested accrued benefit and has been married throughout the one-year period immediately preceding the death. If a cash balance member dies while employed, after retirement, or other termination of employment but prior to their annuity starting date, the vested accrued benefit shall be payable to the cash balance member's beneficiary, commencing on the annuity starting date elected by the beneficiary.

**Post-Retirement** - The benefit payable is equal to the annuity payment option provided under the Plan, as elected by the participant at the time of retirement.

### DISABILITY BENEFITS

If a participant becomes disabled, they may continue to earn credit toward retirement benefits, as long as they remain disabled or upon the expiration of 12 months from the date of disability for a prior Plan member, which is defined as any participant who:

- Was old enough that their age plus years of employment credited under the Siemens Pension Plan equaled 55 or more on January 1, 2001.
- Was a member in the Siemens Pension Plan on January 1, 2000.
- Was employed by a predecessor of the Company on December 31, 2000.
- Either irrevocably elected or failed to file prior to December 16, 2000, any election to remain covered under the average final compensation benefit formula.

Pension benefits are available at age 65. The benefits are based on average annual earnings as of the date of disability and years of service as if the employee had continued to work until his or her normal retirement date.

### ADMINISTRATIVE EXPENSES

All applicable administrative expenses, including trustee, actuary, and audit fees, may be paid by the Plan and are excluded from the Financial Statements. The Plan is not charged for administrative services performed on behalf of employees of the Company.

### FUNDING POLICY

Contributions by the Company are determined annually by actuarial valuations of the Plan by an independent actuary. The actuary determines the maximum amount permitted by law or regulation as a federal income tax deduction, and the minimum amount necessary during any Plan year to avoid an accumulated funding deficiency, as defined by ERISA. Company contributions were required for the year ending December 31, 2024 and December 31, 2023. The minimum funding requirements of ERISA were met for 2024 and 2023.

## NOTES TO FINANCIAL STATEMENTS

December 31, 2024 and 2023

### NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

#### BASIS OF ACCOUNTING

The financial statements of the Plan are prepared under the accrual method of accounting.

#### CHANGE IN ACCOUNTING POLICY

Management has elected to change the presentation of the accumulated plan benefits from an end of year presentation to a beginning of year presentation effective with the December 31, 2024 financial statements. This change has no impact on the calculation of the accumulated plan benefits or changes therein and represents only a change in the timing of the financial statement presentation of these amounts.

#### ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Accordingly, actual results could differ from those estimates. The actuarial present value of accumulated plan benefits is particularly subject to change in the near term.

#### INVESTMENT VALUATION AND INCOME RECOGNITION

The investments of the Plan are reported at fair value. The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

#### PAYMENT OF BENEFITS

Benefits are recorded when paid.

### NOTE 3 - CERTIFIED INVESTMENT INFORMATION

Certain information related to investments disclosed in the accompanying financial statements and ERISA-required supplemental schedules, including investments held at December 31, 2024 and 2023, and investment income for the years then ended, was obtained by management and agreed to or derived from information certified as complete and accurate by Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company ("Principal"), a qualified institution. The Plan's independent auditors did not perform auditing procedures with respect to this certified information, except for comparing such certified information to the related information included in the financial statements and ERISA-required supplemental schedules.

## NOTES TO FINANCIAL STATEMENTS

December 31, 2024 and 2023

### NOTE 4 - FAIR VALUE MEASUREMENT

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 inputs to the valuation methodology include the following:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

- *Mutual funds.* Valued at the published daily net asset value ("NAV") as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.
- *Pooled separate account.* Valued at the net asset value ("NAV") of units of participation held in the pooled separate account, as reported by the issuer insurance company, based on the value of underlying investments in the pooled separate account. The NAV is used as a practical expedient to estimate fair value. This practical expedient is not used when it is determined to be probable that the pooled separate account will sell the investments at an amount different than the reported NAV. The investment strategy is to maintain liquid short term assets in the pooled separate account. The pooled separate account provides for daily redemptions by the Plan with no advance notice requirements and has redemption prices that are determined by the account's net asset value per unit.

### NOTES TO FINANCIAL STATEMENTS

December 31, 2024 and 2023

- *Collective trusts:* Valued at the net asset value ("NAV") of units of a bank collective trust. The NAV, as provided by the trustee or custodian of the collective trust, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. The collective trust invests in mutual funds with investment-grade bonds. Participant transactions (purchases and sales) may occur daily.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level within the fair value hierarchy the Plan's assets at fair value as of December 31, 2024 and 2023.

#### Investment Assets at Fair Value as of December 31, 2024

	Level 1	Level 2	Level 3	Total
Mutual funds	8,655,392	0	0	8,655,392
Total assets in the fair value hierarchy	8,655,392	0	0	8,655,392
Investments measured at net asset value *	0	0	0	2,749,260
Total investment assets at fair value	8,655,392	0	0	11,404,652

#### Investment Assets at Fair Value as of December 31, 2023

	Level 1	Level 2	Level 3	Total
Mutual funds	8,977,697	0	0	8,977,697
Total assets in the fair value hierarchy	8,977,697	0	0	8,977,697
Investments measured at net asset value *	0	0	0	2,431,202
Total investment assets at fair value	8,977,697	0	0	11,408,899

\* Certain investments that were measured at net asset value per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

### NOTES TO FINANCIAL STATEMENTS

December 31, 2024 and 2023

#### Fair Value of Investments that Calculate Net Asset Value

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2024 and 2023, respectively. There are no participant redemption restrictions for these investments. The redemption notice period is applicable only to the Plan.

	<u>Fair Value</u>	<u>Unfunded Commitments</u>	<u>Redemption Frequency (If Currently Eligible)</u>	<u>Redemption Notice Period</u>
December 31, 2024:				
Collective trust fund	2,357,181	N/A	Daily	None
Pooled Separate Account	392,079	N/A	Daily	None
December 31, 2023:				
Collective trust fund	1,872,818	N/A	Daily	None
Pooled Separate Account	558,384	N/A	Daily	None

#### NOTE 5 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries, and (b) present employees or their beneficiaries. Benefits for retired or terminated employees or their beneficiaries are based on average compensation, as defined, and years of credited service as of the date of retirement or termination. The accumulated plan benefits for active employees are based on average compensation, as defined, and years of credited service as of the valuation date. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date.

An actuary estimates the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The following significant actuarial assumptions were used in the December 31, 2023 actuarial valuation:

---

Interest rate	5.50%
Normal retirement age	Age 65
Mortality basis	The Pri-2012 mortality tables for annuitants, projected fully generationally using Scale MP-2021
Cash balance assumption	Future interest credits - 5.0%

---

---

# LANDIS+GYR PENSION PLAN

Alpharetta, Georgia

---

## NOTES TO FINANCIAL STATEMENTS

December 31, 2024 and 2023

The foregoing actuarial assumptions are based on the assumption that the plan will continue. Were the plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits at December 31, 2023:

### Vested benefits

Participants and beneficiaries currently receiving payments	9,986,997
Terminated vested participants	2,741,009
Other vested participants	688,658
<b>Total Actuarial Present Value of Accumulated Plan Benefits</b>	<b>13,416,664</b>

The change in the actuarial present value of accumulated plan benefits for the year ended December 31, 2023 is as follows:

Actuarial Present Value of Accumulated Plan Benefits, beginning of the year	14,962,697
Increase (decrease) during the year due to:	
Benefits paid	(1,327,799)
Increase for interest due to decrease in discount period	786,923
Benefits accumulated and Plan experience	(1,005,157)
<b>Actuarial Present Value of Accumulated Plan Benefits, end of year</b>	<b>13,416,664</b>

### NOTE 6 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, liquidity, political uncertainty, pandemic environmental risks, cybersecurity and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

### NOTE 7 - TRANSACTIONS WITH PARTIES-IN-INTEREST

Parties-in-interest are defined under DOL regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. The Plan held investments managed by Principal, which qualify as party-in-interest transactions. Some fees paid by the Plan for the investment management services are included in net appreciation in fair value of investments. During 2024 and 2023, the Plan paid administrative fees to Principal which also qualify as party-in-interest transactions.

## NOTES TO FINANCIAL STATEMENTS

December 31, 2024 and 2023

### NOTE 8 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, the net assets of the Plan will be allocated for payment of Plan benefits to the participants in order of priority determined in accordance with ERISA, applicable regulations thereunder, and the Plan document.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's benefit.

Whether all participants receive their benefits, should the plan be terminated at some future time, will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

### NOTE 9 - TAX STATUS

The IRS has determined and informed the Company by a letter dated June 24, 2014, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (IC) and, therefore, the related trust is exempt from taxation. Although the Plan has been amended since receiving the determination letter, the plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IC and, therefore, believe that the Plan is qualified and the related trust is tax-exempt

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that no uncertain positions are taken or are expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

### NOTE 10 - SUBSEQUENT EVENTS

The Company has evaluated subsequent events through the date the financial statements were available to be issued, no events or transactions occurred through October 8, 2025 requiring recognition or disclosure in the financial statements.

Assumptions prescribed by law

**Mortality**

**Before benefit payment period**  
 IRS Prescribed Mortality - Optional Combined Table for Small Plans, male and female.

**During benefit payment period**  
 IRS Prescribed Mortality - Optional Combined Table for Small Plans, male and female.

Assumptions selected by actuary

**Inflation** 2.40% increase per year.  
 Our long-term inflation assumption considered the current economic environment, recent and historical data, and forecasts from Federal Reserve Bank FOMC, Congressional Budget Office, and Survey of Professional Forecasters. See Long-Term Capital Market Assumptions link.

**Asset return** 6.00% for the current plan year.  
 The asset return is developed as a weighted average rate based on the target asset allocation of the plan and the long-term capital market assumptions. The calculated return is on an arithmetic mean basis. For details, see the Long-Term Capital Market Assumptions link.

**Expected expense** The expected expense included in target normal cost is an estimate based on prior year expenses paid from plan assets, with an updated estimate of PBGC premiums. This is the best estimate available of upcoming year's expenses.

**Retirement** Active participants

Age	Probability of retirement
55-59	2.00%
60	5.00%
61	5.00%
62	30.00%
63	25.00%
64	25.00%
65	100.00%

Inactive participants are assumed to retire at age 65.

We don't have the plan experience necessary to directly set this assumption; therefore, we are relying on the assumption set by the prior actuary. This assumption is reasonable with the plan's design. As we gain plan experience, we will monitor and make appropriate adjustments in the future.

**Disability** None.

**Marriage** 100% married; husbands are 3 years older than wives.  
 This assumption does not have material impact on the results of this report. We are relying on the assumption set by the prior actuary.

**Withdrawal** Actuarial Pension Handbook T-7 and T-8 Tables for males and females respectively. Selected rates of withdrawal are shown below:

Age	Male rate of withdrawal	Age	Female rate of withdrawal
25	9.75%	25	11.70%
40	7.95%	40	9.60%
55	2.59%	55	2.77%

We don't have the plan experience necessary to directly set this assumption; therefore, we are relying on the assumption set by the prior actuary. This assumption is reasonable with the plan's design. As we gain plan experience, we will monitor and make appropriate adjustments in the future.

**Form of benefit** Participants are assumed to receive their benefits on the normal form at the assumed retirement age.

We don't have the plan experience necessary to directly set this assumption; therefore, we are relying on the assumption set by the prior actuary. This assumption is reasonable with the plan's design. As we gain plan experience, we will monitor and make appropriate adjustments in the future.

**Cash balance interest crediting rate** 5.00% compounded annually  
 The interest credit is defined as the third segment rate defined under Code Section 417(e)(3)(D) with an annual floor of 4.00%. This segment rate is determined as of the fifth calendar month preceding the first day of the plan year. Using capital market modeling assumptioning based on research of historical and current economic and capital market data with relevant forecasting models for the next 20-30 years along with the 4.00% floor, the long-term assumed cash balance interest crediting rate was set to 5.00%.

**Methods prescribed by law**

**Lump sum payments** Lump sum payments are valued using the plan's funding target interest rates as required, per IRS guidance. These rates are currently higher than the actual rates used to determine lump sum distributions. Therefore, plan liabilities do not currently recognize this additional cost and this may result in the plan not accumulating adequate assets. You may wish to consider additional contributions.

**Liability measure** Funding target is the present value of the benefits accrued on the valuation date. Target Normal Cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year.

#### Methods selected by plan sponsor

<a href="#">Asset method</a>	<p>The asset valuation method is prescribed by law for plans that elect to use a value other than market value.</p> <p>For each of the preceding two years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain or loss is recognized evenly over three plan years.</p> <p>The expected value includes contributions, distributions, any deducted administrative expenses, and expected earnings (based on the lesser of the assumed interest rate or the maximum allowable rate). The deferred gains and losses are added to the current market value and then restricted to no more than 110% and no less than 90% of that market value.</p> <p>When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10% of market value.</p>
<a href="#">Segment rates</a>	<p>24-month average with no weighting to prior law basis. Use rates where December is the last month included in the average.</p>
<a href="#">PBGC premium basis</a>	<p>Variable rate premiums are calculated using census, market value of assets and interest rates in effect on the current valuation date. Interest rates are the 24-month average rates used for annual cost but without the interest rate corridor defined in IRC §430(h)(2)(C)(iv). You elected this Alternative interest method for the 01/01/2020 plan year and this method must be used for five years before a change can be made.</p>

#### Methods elected by actuary

<a href="#">Retirees</a>	<p>Assets and liabilities for current and future retirees are included.</p>
<a href="#">Vested benefits</a>	<p>A benefit is included in vested benefits if it meets the requirements under PBGC. The benefit is multiplied by the participant's vesting percentage applicable to each benefit on the valuation date.</p> <p>The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, pre-retirement death benefits in excess of the survivor annuity death benefit and post retirement death benefits for non-retired participants except as noted in the Plan provisions.</p>

### Assumptions and methods elected by actuary - plan accounting (ASC 960)

With the exceptions below, all assumptions and methods are the same as those used in determining your plan's regular funding target and target normal cost.

**Mortality** Based on Pri-2012 Total dataset base rate mortality table projected generationally using MP-2021.

**Mortality base rates**

**Before benefit payment period**  
Employee amount-weighted, male and female

**During benefit payment period**  
Retiree amount-weighted, male and female

The Society of Actuaries (SOA) is an actuarial organization that periodically reviews mortality data and publishes mortality tables and improvement scales. In October 2019, the SOA released the Pri-2012 Mortality Tables for private-sector retirement plans in the U.S. The Pri-2012 report contains different sets of mortality tables based on complete dataset or various subsets. The Total dataset base rate table was selected based on information provided by the plan sponsor.

Pri-2012 section 12.4. provided three approaches for designated beneficiaries in the calculation of joint-and-survivor annuities. We believe "Approach 1" is reasonable for this plan.

**Mortality improvement** MP-2021 is the most recent improvement scale published by the SOA in October 2021.

In selecting this assumption, we considered the other parameters available in the MIM-2021-v4 application tool issued by the SOA in October 2023 and consider the selections in MP-2021 reasonable. Based on the sponsor's input, plan experience does not show a need for long-term excess death or Covid death load adjustments.

**Interest rate used to value liabilities** 5.50%

The interest rate used to value ASC 960 liabilities is developed as long-term expected geometric return on plan assets. Arithmetic expected return is calculated as the weighted average of broad asset classes' arithmetic returns of the plan's target asset allocation, and then converted to the geometric under lognormal distribution assumption. For details, see Long-Term Capital Market Assumptions link.

Treatment of administrative expenses

No adjustments are made for administrative expenses, either through a reduction in the discount rate or by calculating a present value of future expenses.

Plan sponsors may change their administrative expense handling at any time. Our approach provides consistent handling of ASC 960 liabilities from year to year, whether expenses are paid with plan assets or directly by the employer.

Note - expenses paid with plan assets are required to be included in funding normal cost. As a result, the plan is reimbursed annually through required funding. Exception – contributions are not required due to assets sufficiently in excess of liabilities to fund both expenses and normal cost. In this case, administrative expenses are taken from the excess assets.

Schedule SB, Line 2a - Explanation of Assets

Landis+Gyr Pension Plan

EIN 20-1399908 Plan No. 010

The market value of assets on line 2a does not equal assets shown on Schedule H, Schedule I or Form 5500-SF. Schedule H, Schedule I and Form 5500-SF use the full value of contributions received after plan year end. Line 2a includes the value of \$532,860 contributions received after the plan year end with a discounted value of \$514,400.

Schedule SB, Line 22 - Description Of Weighted Average Retirement Age  
 Landis+Gyr Pension Plan  
 EIN 20-1399908 Plan No. 010

The weighted average retirement age is weighted by the expected percentage of active participants retiring at each age. The retirement rate reflects only those participants who meet retirement eligibility. An active participant working past assumed retirement age is expected to retire at current age.

(1) Age	(2) Expected Active Headcount	(3) Retirement Rate	(4) Expected Retirements (2)*(3)	(5) Weighted Age (1)*(4)

This report reflects the maximum benefit limits under Internal Revenue Code (IRC) Section 415 and maximum compensation limits under IRC Section 401 in effect on the first day of each plan year.

The following is a summary of plan provisions and does not alter the intent or meanings of the provisions contained in the contract or plan document. This report reflects the provisions of the plan signed 12/14/2012 including amendments signed 03/21/2024.

#### Plan eligibility

<b>Service</b>	One year of service in which at least 1,000 hours worked.
<b>Class</b>	Any employee of the employer excluding bargaining and leased employees, independent contractors later determined to be an employee, and any hourly-paid or salary-paid employee in a group specifically excluded from coverage by the employer.  No Employee will become a participant after December 31, 2006.

#### Normal retirement benefit

<b>Age</b>	The older of age 65 or age on the date 5 years after the first day of the plan year in which his/her entry date occurred
<b>Form</b>	Monthly annuity payable for life (optional forms may be elected in advance of retirement).
<b>Amount (Traditional)</b>	Total accrued benefit equals the sum of (a) Accrued retirement income under the Retirement Plan for Non-Bargaining Unit Employees of Landis & Gyr, Inc. as in effect on 12/31/2002. (b) (1) for any Cash balance participant, the greater of the Cash balance benefit or the Actuarial Equivalent of the prior Cash balance accrued benefit payable as a straight life annuity, or (2) for any Prior plan member, the Average annual compensation Accrued benefit, plus  Accrual service ceased effective December 31, 2006.
<b>Account balance (Cash balance)</b>	Equals the sum of the sum of the participant's Prior Account Balance, if any, Principal credits, and Interest credits
<b>Account balance accrued benefit</b>	Actuarial equivalent of the participant's account balance

#### Early retirement benefit

Age	Attained age 55.
Service	Completed 10 years of service.
Form	Same as normal retirement benefit.
Amount	Traditional benefit: Prior plan member's Average annual compensation Accrued benefit shall be reduced by 5/12% for each of the first 24 months and by 0.5% for each additional month precedes the first day of the month coinciding with or immediately following the date the Prior plan member attains age 62 and the amount of his Accrued retirement income (benefit accrued as of 12/31/1998) shall be reduced by 5/12% for each of the first 60 months and by 1/3 of 1% for each additional month before Normal Retirement Date.

#### Late retirement benefit

Age	No maximum age.
Form	Same as normal retirement benefit.
Amount	Participants who continue to work past normal retirement date are required to receive notification that retirement benefits are suspended and the benefit payable is the accrued benefit on late retirement date. For employees who terminate employment prior to normal retirement date or after normal retirement date and elect to defer their benefit, the benefit payable on his late retirement date shall be the actuarial equivalent of the benefit that would have been payable on normal retirement date. For cash balance participants this would be the greater of the account balance accrued to the late retirement date or the balance as of the normal retirement date actuarially increased to late retirement date.

#### Termination benefit

Vesting percentage	100%
Form	Same as normal retirement benefit with income deferred until normal retirement date.
Amount	Accrued benefit on date of termination

#### Disability benefit

Eligibility	No disability benefits payable or accrue after 12/31/2006. Interest credits continue to accrue for Cash balance members.
Form	Monthly income payable until normal retirement, death, or recovery and a deferred annuity payable at the normal retirement date.
Amount	Accrued retirement income benefit

## Death benefit

### Survivor annuity death benefit (a vested benefit)

Eligibility	Qualified married participant fully or partially vested in an accrued benefit.
Form	Monthly annuity payable to spouse, deferred to participant's earliest retirement date if later than the date of death.
Amount	If death occurs, the amount paid to the surviving spouse is equal to the amount that would have been paid had the participant terminated employment on the date of death and survived to his/her earliest retirement age, retired with a qualified joint and 50% survivor annuity in effect, then died the next day.

### Cash balance lump sum death benefit (a vested benefit)

Eligibility	Qualified married participant fully or partially vested Cash balance plan member.
