## INDEPENDENT AUDITOR'S REPORT

To the Plan Participants and Plan Administrator of the  
**Infineum Pension Plan:**

### Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the Financial Statements

We have performed audits of the accompanying financial statements of **Infineum Pension Plan** (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the statement of accumulated plan benefits as of January 1, 2025, and the statement of changes in accumulated plan benefits for the year ended January 1, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of December 31, 2024 and 2023 and for the year ended December 31, 2024, stating that the certified investment information, as described in Note C to the financial statements, is complete and accurate.

### Opinion on the Financial Statements

In our opinion, based on our audits and on the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America ("GAAP").
- the certified information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

### Basis for Opinion on the Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

## Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all Plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

## Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the Financial Statements* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### **Other Matter – Supplemental Schedules Required by ERISA**

The 2023 supplemental schedules are presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the certified investment information in the supplemental schedules agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

## **Notes to Financial Statements**

### **December 31, 2024 and 2023**

---

#### **Note A – Description of Plan**

The following description of the Infineum Pension Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

#### **General**

The Plan, which provides retirement, disability, and death benefits, is a noncontributory, defined benefit pension plan sponsored by Infineum USA Inc. (the “Company”). The Plan was established effective as of January 1, 1999. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

On October 1, 2013 (the “Transition Date”), the Plan Sponsor decided to freeze entry to the Plan. As a result, any employee hired on or after the Transition Date is not allowed to enter the Plan. As of the Transition Date, active participation in the Plan is restricted to eligible employees, as defined by the amended Plan document. Employees hired prior to the Transition Date will become eligible, vest, and accrue benefits according to the original plan provisions stated below.

#### **Administration of the Plan**

The Plan is administered by the Infineum USA Benefits Committee (the “Committee”), which is appointed by the Board of Directors of the Company. The Committee is made up of members of the management of the Company and the Plan Administrator. The Committee has overall responsibility for the operation and administration of the Plan. The Committee determines the appropriateness of the Plan’s investment offerings, monitors investment performance and reports to the Company’s Board of Directors. The Plan’s assets are maintained by Northern Trust Corporation. (the “Trustee”).

#### **Pension Benefits**

Employees with five or more years of employment service are entitled to annual pension benefits beginning at their normal retirement age of sixty-five equal to 1.6% of their final average compensation, as defined by the Plan, for each year of pension service, as defined by the Plan, less 1.5% of their social security benefit for each year of pension service up to 33-1/3 years. This amount may be reduced for benefits received from a related plan. The Plan permits early retirement at age fifty-five if the employee has completed fifteen years of employment service. If an employee terminates before completing five years of employment service, they forfeit the right to receive their accumulated plan benefits attributable to the Company’s contributions. Employees may elect to receive the value of their accumulated plan benefits as a lump-sum distribution upon retirement, if eligible for early retirement as described above, or as either a single life annuity or a joint and survivor annuity, payable in monthly installments from retirement.

Any participant who has attained fifty years of age and accrued ten years or more of employment service as of December 31, 2007 is considered a “Grandfathered Participant” under the Plan. For purposes of the determination of the lump-sum present value of the accrued benefit, the Grandfathered Participants are provided the greater of (1) the lump-sum determined based on the required statutory minimum using the applicable mortality table and applicable interest rate and (2) the lump-sum determined based on an average of the thirty-year Treasury rates and mortality table. For a participant that does not meet the above criteria, the lump-sum present value of the accrued benefit is determined based on the required statutory minimum using the applicable mortality table and an average of the applicable interest rates.

## **Notes to Financial Statements**

### **December 31, 2024 and 2023**

---

#### **Note A – Description of Plan (continued)**

##### **Death and Survivorship Benefits**

If a participant is not married and dies before they are eligible for an early or normal retirement benefit, the entire benefit from the Plan will be forfeited. If a participant is not married and dies while eligible for an early or normal retirement benefit, but before they begin receiving payments, their beneficiary will receive the 5-year guaranteed portion of the 5-year certain and continuous benefit or the actuarially equivalent single lump-sum benefit.

If a participant is married and is not yet eligible for an early or normal retirement benefit at the time of their death, their spouse will receive 50% of the benefit they would have received had they elected to retire with a joint and 50% survivor option or the actuarially equivalent single lump-sum benefit. If a participant is married and is eligible for an early or normal retirement benefit at the time of their death, their spouse will receive 50% of the benefit they would have received had they elected to retire with a joint and 50% survivor option or a single lump-sum benefit that is actuarially equivalent to the greater of the survivor portion of the joint and 50% survivor option or the 5-year guaranteed portion of the 5-year certain and continuous benefit. Payments to the spouse may commence on the first day of the month following the participant's death.

##### **Disability Benefits**

Active employees who become totally disabled will receive annual disability benefits that are equal to the greater of (a) the normal retirement benefits they have accumulated as of the time they become disabled or (b) the lesser of (i) or (ii) where (i) is 50% of the participant's monthly base pay less any monthly amounts payable from social security, workers' compensation, a prior plan, and/or any other offsets defined in the Company's LTD plan and (ii) is the normal retirement benefit computed in accordance with the Plan. Disability benefits are paid until normal retirement age, at which time disabled participants begin receiving normal retirement benefits computed as though they had been employed to normal retirement age with their annual compensation remaining the same as at the time they became disabled.

#### **Note B – Summary of Significant Accounting Policies**

##### **Basis of Presentation**

The accompanying financial statements are presented on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

##### **Use of Estimates**

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of changes in net assets during the reporting period. Such estimates include those regarding fair value. Actual results could differ from those estimates.

##### **Valuation of Investments**

The Plan's investments are stated at fair value, which is based on quoted market prices at year-end as reported by the Trustee. The Committee determines the Plan's valuation policies utilizing information provided by its Trustee and investment advisors.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

##### **Payment of Benefits**

Benefits are recorded when paid.

## Notes to Financial Statements

### December 31, 2024 and 2023

---

#### Note B – Summary of Significant Accounting Policies (continued)

##### Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Plan Sponsor and are excluded from these financial statements. Investment related expenses are included in net appreciation (depreciation) of fair value of investments.

##### Fair Value Measurements

The FASB has established a framework for measuring fair value in ASC 820, *Fair Value Measurements*. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

- Level 1*                    Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2*                    Inputs to the valuation methodology include:  
Quoted prices for similar assets or liabilities in active markets;  
Quoted prices for identical or similar assets or liabilities in inactive markets;  
Inputs other than quoted prices that are observable for the asset or liability;  
Inputs that are derived principally from or corroborated by observable market data by correlation or other means.  
If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3*                    Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

*Common/collective trusts:* Valued at the NAV of units of a bank collective trust. The NAV, as provided by the Trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

**Actuarial Present Value of Accumulated Plan Benefits**

Accumulated plan benefits are those future periodic payments, including lump sum distributions that are attributable under the Plan's provisions to the service participants have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated participants or their beneficiaries, (b) beneficiaries of participants who have died, and (c) present participants or their beneficiaries. Benefits under the Plan are accumulated based on the participants' compensation during each year of credited service. The accumulated plan benefits for active participants will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances - retirement, death, disability, and termination of employment - are included, to the extent they are deemed attributable to participant service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from Plan assets are excluded from accumulated plan benefits.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and the probability of payment between the valuation date and the expected date of payment.

Significant actuarial assumptions and methods used were as follows as of January 1, 2025:

- The assumed rate of return on investments was 5.40% and 6.00%, respectively, for 2024 and 2023.
- The IRS Prescribed 2023 Mortality Table for 417(e)(unisex) assumption is used for post-retirement participants.
- A retirement age 65 is assumed.
- The foregoing actuarial assumptions are based on the presumption that the Plan will continue existence until all accrued benefits are paid. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulates benefits.

## **Notes to Financial Statements**

### **December 31, 2024 and 2023**

---

#### **Note C - Funding Policy**

The Company's policy is to make annual contributions to provide the benefits under the Plan and is subject to the provisions of ERISA. Contributions by the Company are based upon actuarial computations of the present value of future benefits to be paid to participants as of the beginning of the Plan year. The actuarial cost method used to determine employer contributions to the Plan is the traditional unit credit method. In accordance with the Company's funding policy, contributions for 2024 and 2023 were within the minimum and maximum funding requirements of ERISA.

#### **Note D – Party-In-Interest Transactions**

Section 3(14) of ERISA defines a party-in-interest to include, among others, fiduciaries or participants of the Plan, any person who provides services to the Plan, or an employer whose employees are covered by the Plan. Certain Plan investments and the related transactions were in investment funds managed by the Trustee; therefore, these investments and transactions qualify as party-in-interest transactions. Fees paid to parties-in-interest by the Plan for services amounted to approximately \$35,000 during the Plan years ended December 31, 2024.

#### **Note E – Plan Termination**

Although it has not expressed any intention to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated.

- a. Benefits attributable to Employer contributions, taking into account those paid out before termination.
- b. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- c. Other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC") (a U.S. government agency) up to the applicable limitations (discussed below).
- d. All other vested benefits (that is, vested benefits not insured by the PBGC).
- e. All non-vested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal retirement age benefits, early retirement benefits, and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees.

#### **Note F – Income Tax Status**

The IRS has informed the Employer by determination letter dated September 25, 2014, that the Plan adopted by the Employer, as then designed, was in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

**Infineum Pension Plan**  
**Notes to Financial Statements**  
**December 31, 2024 and 2023**

---

**Note F – Income Tax Status (continued)**

The Plan Administrator evaluated the Plan’s tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustments to the financial statements. Therefore, no provision or liability for income taxes has been included in the accompanying financial statements. The Plan is no longer subject to examination by taxing authorities for years prior to 2021.

**Note G – Risks and Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Plan contributions are made, and the actuarial present value of the accumulated benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and participant demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would-be material to the financial statements.

**Note H – Reconciliation of Financial Statements to Form 5500**

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31:

	<u>2024</u>	<u>2023</u>
Net assets available for benefits per the financial statements	\$ 128,837,098	\$ 121,198,260
Less: Contributions receivable	<u>113,932</u>	<u>–</u>
Net assets available for benefits per the Form 5500	<u>\$ 128,723,166</u>	<u>\$ 121,198,260</u>

The following is a reconciliation of total additions per the financial statements to the Form 5500 for the year ended December 31:

	<u>2024</u>
Total additions per financial statements	\$ 8,725,329
Less: Change in Contributions receivable	<u>(113,932)</u>
Total additions per the Form 5500	<u>\$ 8,611,397</u>

**Note H – Subsequent Events**

Subsequent events have been evaluated through October 9, 2025, which is the date the financial statements were available to be issued.

## Actuarial Assumptions and Methods

The valuation of a defined benefit pension plan involves estimates and assumptions about the probability of events occurring far into the future. Examples include assumptions about future employment, mortality, and retirement. **Below is a description of the actuarial assumptions and methods used in the valuation.**

### Funding Target Liability

**Valuation Date:** January 1, 2024

**Demographic Information:** The demographic information was provided as of January 1, 2024 by Infineum USA, L.P.. Although we did not audit the data, we did review the data for reasonableness.

**Actuarial Cost Method:** As required by PPA, the Traditional Unit Credit Cost Method was used.

**Asset Valuation Method:** Market Value of Assets

**Anticipated Rate of Return on Plan Assets:** 6.00%, based on a review of the Plan’s asset allocation, investment policy (as shown in the annual funding notice), and expected returns using recent capital market assumptions published by leading financial organizations.

**Actuarial Valuation Software:** For purposes of developing the projected future benefit payments as well as determining attributed liabilities and normal costs as of the valuation date, we utilized the ProVal software platform developed by Winklevoss Technologies. We believe this externally developed valuation system is appropriate, was used for its intended purpose, and did not produce unreasonable results.

**Interest Rates for Minimum Required Contribution:** The January 2024 funding segment rates were utilized as prescribed by IRC Section 430(h) and elected by Infineum USA, L.P.. Below, please find the segment rates after reflection of the segment rate stabilization provisions of IRC Section 430(h)(2)(C)(iv).

Segment	Interest Rate
Segment 1	4.75%
Segment 2	4.96%
Segment 3	5.59%

Effective Interest Rate
5.24%

Segment 1 is applied to benefit payments expected to be made in the first 5 years, segment 2 is applied to benefit payments expected to be made in the next 15 years and segment 3 is applied thereafter.

## ACTUARIAL ASSUMPTIONS AND METHODS

**Interest Rates used to determine Maximum Recommended Contribution:** Below, please find the segment rates without reflection of the segment rate stabilization provisions of IRC Section 430(h)(2)(C)(iv). These rates were utilized to determine the low-default risk obligation measurement (“LDROM”) of the accrued benefits as of the Valuation Date.

Segment	Interest Rate
Segment 1	4.37%
Segment 2	4.96%
Segment 3	4.95%

Effective Interest Rate
4.93%

Segment 1 is applied to benefit payments expected to be made in the first 5 years, segment 2 is applied to benefit payments expected to be made in the next 15 years and segment 3 is applied thereafter.

**Rate of Compensation Increase:** Salaries are assumed to increase at 4.00% per year, based the Plan Sponsor’s review of historical experience as well as future expectations.

### **Mortality for Healthy Lives:**

*Base mortality table:* The blended sex distinct Amount-Weighted Pri-2012 mortality tables for employees and healthy annuitants.

*Mortality improvements:* The base mortality table is adjusted by projecting mortality improvements using the IRS 2024 Adjusted Scale MP-2021 from the year 2012 through 2024, with an additional projection period of 8 years for males and 9 years for females. For ages below 80, the additional projection period is increased by 1 year for each year below age 80. For ages above 80, the additional projection period is reduced (but not below zero) by 1/3 year for each year above 80.

## ACTUARIAL ASSUMPTIONS AND METHODS

**Retirement Incidence:** Employees were assumed to retire in accordance with the rates shown below. The rates are based on Infineum Pension Plan experience from 2006-2016. Future experience is not expected to deviate significantly from these results.

<u>Age</u>	<u>Probability of Retirement</u>
55	0.1500
56	0.0800
57	0.1000
58	0.1500
59	0.2000
60	0.2500
61	0.2000
62	0.2000
63	0.1500
64	0.3000
65	0.3000
66	0.3000
67	0.1500
68	0.3000
69	0.4000
70	1.0000

Current and future vested terminated participants are assumed to retire at age 65.

**Turnover:** The turnover assumption for all participants with less than 10 years of service is 7% per year. The following table illustrates the termination rates used for employees with more than 10 years of service:

Age	Males	Females
30	0.0385	0.0642
35	0.0280	0.0387
40	0.0196	0.0232
45	0.0226	0.0463
50	0.0144	0.0284
55	0.0069	0.0138

For participants with less than 10 years of service, the rates of turnover are based on total Infineum experience from 2015-2019. For participants with 10 or more years of service, the rates of turnover are based on an Exxon Mobil study prior to 2004. The rates of turnover for participants with 10 or more years of service are not unreasonable based on experience from the December 2020 experience study using data from 2015 through 2019. Future experience is not expected to deviate significantly from these results.

**Disability:** Rates of disability were not assumed in the valuation.

**Infineum Pension Plan**

EIN/PN: 74-2890923/001

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

## ACTUARIAL ASSUMPTIONS AND METHODS

**Administrative Expenses:** Actual plan expenses, not including investment advisory fees, paid out of the trust during the previous plan year rounded to the nearest thousand.

**Spouse Assumptions:** 80% of participants not currently collecting benefits are assumed to be married, with spouse assumed to be the same age as the participant. This assumption was based on Infineum's review of historical percent married data and future expectations.

**Compensation and Benefit Limitation:** The IRC Section 401(a)(17) compensation limit and the IRC Section 415 benefit limitation for years following the plan year end were assumed to increase annually by 2.50%.

**Social Security Wage Base:** The Social Security Wage Base is assumed to increase 3.00% per year.

**Form of Benefit:** 65% of participants are assumed to elect a lump sum upon retirement or death prior to retirement. Lump sums are not payable at termination prior to early retirement eligibility and therefore are not assumed for termination. This assumption is based on Infineum's review of historical form of payment election and future expectations.

*Non-Grandfathered Participants:* Lump sums were calculated using the applicable mortality table under IRC 417(e)(3)(B) for 2024 and the January 2024 funding segment rates.

*Grandfathered Participants:* For those participants who have attained age 50 and have 10 years or more of Employment Service as of December 31, 2007, lump sums were calculated using the alternative mortality table used by Exxon and a 4.00% interest rate. This interest rate is based on the lump sum interest rate in effect for grandfathered participants for the first quarter of 2024.

All assumptions used in determining the low-default risk obligation measurement were consistent with those used in determining the Funding Target Liability, except the interest rates which were disclosed above.

### Actuarial Present Value of Accumulated Plan Benefits (ASC 960)

**Interest Rate:** 6.00%, based on a review of the Plan's asset allocation, investment policy (as shown in the annual funding notice), and expected returns using recent capital market assumptions published by leading financial organizations.

**Mortality:** The sex-distinct Amount-Weighted Pri-2012 Mortality Tables for employees, healthy annuitants, and contingent survivors with mortality improvements projected using Scale MP-2021 on a generational basis. This assumption was based on a review of published mortality tables and the demographics and industry of the Plan.

**Form of Benefit:** 65% of participants are assumed to elect a lump sum upon retirement or death prior to retirement. Lump sums are not payable at termination prior to early retirement eligibility and therefore are not assumed for termination. This assumption is based on Infineum's review of historical form of payment election and future expectations.

*Non-Grandfathered Participants:* Lump sums were calculated using the applicable mortality under IRC 417(e)(3)(B) for 2024 and interest rates of 5.52% for payments expected to be made in the first 5 years, 5.59% for payments expected to be made in the next 15 years, and 5.50% for payments expected to be made after 20 years. These interest rates are based on the lump sum interest rates in effect for non-grandfathered participants for the first quarter of 2024.

*Grandfathered Participants:* For those participants who have attained age 50 and have 10 years or more of Employment Service as of December 31, 2007, lump sums were calculated using the alternative mortality table used by Exxon and a 4.00% interest rate. This interest rate is based on the lump sum interest rate in effect for grandfathered participants for the first quarter of 2024.

Unless specifically mentioned, all remaining assumptions for the Actuarial Present Value of Accumulated Plan Benefits remain the same as described for the Funding Target Liability above.

**Statement by Enrolled Actuary**  
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Infineum Pension Plan  
 Schedule SB, line 22 – Description of Weighted Average Retirement Age  
 EIN/PN: 74-2890923/001

Retirement Rates – The annual number of retirements expected per 1,000 active employees eligible to retire at each age is as follows:

Age	Unisex Rates
55	150.0
56	80.0
57	100.0
58	150.0
59	200.0
60	250.0
61	200.0
62	200.0
63	150.0
64	300.0
65	300.0
66	300.0
67	150.0
68	300.0
69	400.0
70	1000.0

The weighted average retirement age is:

$$55 \cdot 150 + 56 \cdot (1 - 150) \cdot 0.080 + 57 \cdot (1 - 150) \cdot (1 - 0.080) \cdot 1000 + \dots + 70 \cdot (1 - 150) \cdot \dots \cdot (1 - 400) = 59.90371$$

## Plan Provisions

This summary is intended as an outline of plan provisions and does not alter the intent or meaning of the provisions contained in the plan document.

**Plan Sponsor:** Infineum USA, L.P.  
**EIN/PN:** 74-2890923/001

**Eligibility** All employees who are employed on U.S. dollar payroll, including those who work outside the United States, other than:

- (1) nonresident aliens with no income from sources within the United States; and
- (2) any employee who is a leased employee within the meaning of Internal Revenue Code section 414(n)(2).

Effective October 1, 2013, participation in the Plan is restricted to those who are Eligible Employees prior to October 1, 2013.

**Compensation** Compensation means a participant's base earnings, regularly scheduled overtime pay, and shift differential pay, but excluding management incentive compensation, unscheduled overtime pay and any irregular or extraordinary forms of compensation, increased by any salary reduction amounts made pursuant to section 125 and section 401(k) of the Code.

**Final Average Compensation** Average of the highest 36 consecutive months of compensation out of the 10 consecutive years of employment.

**Retirement Benefit** The monthly amount of a participant's normal retirement benefit shall be payable as a single life annuity with a 5-year certain period for an unmarried participant and as an automatic joint & 50% surviving spouse annuity for a married participant. The retirement benefit shall be equal to (1) minus (2) as follows:

- (1) 1.6% of final average compensation times years of pension service; and
- (2) 1.5% of primary Social Security benefit times years of pension service up to 33 1/3 years.

The benefit calculated above will be offset by the benefit, if any, payable under the Shell Pension Plan or the Exxon Annuity Plan for individuals who participated in either plan as of December 31, 1998.

**Pre-Retirement  
Death Benefit**

If a participant is not married and dies before he/she attains eligibility for Early or Normal Retirement benefits, the participant’s entire benefit from the Pension Plan will be forfeited. If a participant is not married and dies while eligible for an Early or Normal Retirement benefit but before commencing payments, their beneficiary will receive the 5-Year Guaranteed Portion of the 5-Year Certain and Continuous benefit or the actuarially equivalent single lump-sum benefit.

If a participant is married and is not yet eligible for an Early or Normal Retirement at the time of death, their spouse will receive 50% of the benefit the participant would have received had they elected to retire with a Joint and 50% Survivor Option or the actuarially equivalent single lump-sum benefit. If a participant is married and is eligible for an Early or Normal Retirement at the time of death, the participant’s spouse will receive 50% of the benefit they would have received had they elected to retire with a Joint and 50% Survivor Option or a single lump-sum benefit that is actuarially equivalent to the greater of the survivor portion of the Joint and 50% Survivor Option or the 5-Year Guaranteed Portion of the 5-Year Certain and Continuous benefit.

**Vesting**

Participants become vested in their accrued benefits in accordance with the following schedule:

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than 5	0%
5 or more	100%

**Early Retirement**

A participant who is age 55 or older and has completed 15 years of service may retire and receive his/her accrued benefit immediately as follows:

The amount calculated will be reduced by 5/12 of one percent (.4166%) for each month by which the commencement date of the Participant’s early retirement benefit precedes his/her attainment of age 60.

The early retirement benefit calculated above will be offset by the benefit, if any, payable at the same time under the Shell Pension Plan or the Exxon Annuity Plan for individuals who participated in either plan as of December 31, 1998.

**Accrued Benefit** A Participant who terminates employment and has satisfied the vesting requirements shall receive a benefit determined in accordance to their “Retirement Benefit” as described above based on years of Pension Service, Final Average Compensation and the applicable provisions of the Plan in effect as of their termination date. The amount under (2) shall be calculated using years of Pension Service the Participant would have accrued as of their Normal Retirement Age if they continued employment as an active Participant until their Normal Retirement Age, and then multiplied by a fraction. The numerator of such fraction is the Participant’s years of Pension Service as of their date of termination of employment and the denominator is the years of Pension Service the Participant would have accrued as of their Normal Retirement Age had they continued employment as an active Participant until their Normal Retirement Age.

**Disability Benefits** *Eligibility:* A Participant who is actively employed as an Employee and who incurs a Disability while employed but prior to attaining Normal Retirement Age and terminates employment because of such Disability is eligible for a Disability Retirement Benefit in the form of an annuity. The benefit is payable beginning at age 65 until the earlier of death or ceasing to qualify for long term disability benefits.

*Amount:* The amount of a Disability Retirement Benefit shall be the greater of (1) and (2) below.

- (1) A Participant’s “Retirement Benefit” as described above, based on Years of Pension Service, Final Average Compensation, Primary Social Security Benefit, and the applicable provisions of the Plan in effect at termination.
- (2) The lesser of (I) and (II), where
  - I. 50% of the Participant’s monthly base pay less any monthly amounts payable from Social Security, Workers’ Compensation, a Prior Plan, and/or any other offsets defined in the Employer’s LTD Plan, and
  - II. The “Retirement Benefit” as described above, except Years of Pension Service shall include the Participant’s period of Disability prior to their Normal Retirement Age.

**Actuarial Equivalent Benefits** *Mortality:* Exxon 2000 Mortality Table  
*Interest:* 8% per year, compounded annually

Infineum Pension Plan  
Schedule SB, Line 24 – Change in Actuarial Assumptions  
EIN/PN: 74-2890923/001

For benefits that were assumed to be paid in the form of a lump sum, the interest rate for grandfathered participants was updated from 3.00% to 4.00% as of January 1, 2024. This assumption is based on the lump sum interest rate in effect for grandfathered participants for the first quarter of 2024. This change in assumption resulted in a decrease in liabilities and normal costs.
