INDEPENDENT AUDITOR'S REPORT

The Plan Administrator of GE Retiree Medical Plan

Opinion

We have audited the financial statements of GE Retiree Medical Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for plan benefits and benefit obligations as of December 31, 2024 and 2023, and the related statements of changes in net assets available for plan benefits and of changes in benefit obligations for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for plan benefits and benefit obligations of the Plan as of December 31, 2024 and 2023, and the changes in its net assets available for plan benefits and changes in its benefit obligations for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

GE RETIREE MEDICAL PLAN
Notes to Financial Statements
December 31, 2024 and 2022

(1) Description of the Plan

The GE Retiree Medical Plan (the "Plan") is a health and welfare plan sponsored by General Electric Company, operating as GE Aerospace (the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Effective January 1, 2015, the Plan was established for certain retirees and eligible dependents of the Company and its participating subsidiary companies in the United States, as defined by the Plan document. In accordance with its terms, the Plan provides benefits to pay certain medical expenses. Also, the Plan provides retiree reimbursement accounts that eligible participants may use to help pay premiums for certain Medicare prescription drug and/or Medicare supplemental plans and for certain other eligible out-of-pocket medical expenses and a pharmacy assistance fund to reimburse for eligible out-of-pocket prescription drug expenses incurred in excess of the Medicare Part D catastrophic threshold in a given plan year.

The Company contributes amounts to provide benefits under the Plan, and participants make contributions for medical benefits.

Medical benefits provided under the Plan are processed by various insurance companies, health administrators or other suppliers, but the responsibility for payments to participants and providers is retained by the Plan. .

The above description of the Plan is provided for general information purposes only. The complete terms of the Plan are provided in the Plan document.

On January 3, 2023, the Company completed the separation of its HealthCare business, into a separate independent publicly traded company, now known as GE HealthCare Technologies, Inc. (GEHC). GEHC continued to participate in the Plan during 2023 and ceased participation during 2024. As a result of the separation of its HealthCare business, the postretirement benefit obligation decreased by \$292,771.

On April 2, 2024, the Company completed the separation of its Energy business, into a separate independent publicly traded company, now known as GE Vernova Inc. (GEV). GEV continued to participate in the Plan during 2024 and ceased participating during 2025.

The Company has the right to discontinue its contributions at any time and to modify or terminate the Plan in accordance with plan provisions and applicable legal requirements. In the event of termination, the Plan's assets are first applied to benefits payable under the Plan.

The Plan invests its funds in the GE Insurance Plan Trust (the "Trust"). Company personnel are Trustees of the Trust. State Street Bank & Trust Company is the custodian for Trust assets.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

(b) Investments

Plan investment assets are held in the Trust. The Trust's investments are reported at fair value. See notes 4 and 5 for additional information.

Investment transactions are recorded by the Trust on a trade date basis. Interest income is recorded on an

accrual basis. Dividend income is recorded on the ex-dividend date.

Securities for which exchange quotations are readily available are valued at the last sale price, or if no sales occurred on that day, at the quoted bid price. Non-publicly traded investments are principally investments in private equity funds.

The Plan has a divided interest in the Trust. Non-cash investments and related gains and losses are allocated entirely to another specific plan in the Trust while cash and cash investment funds and related interest income are allocated to all plans participating in the Trust.

(c) Fair Value Measurements

For financial assets and liabilities, fair value is the price the Trust would receive to sell an asset or pay to transfer a liability in an orderly transaction with a market participant at the measurement date. In the absence of active markets for the identical assets or liabilities, such measurements involve developing assumptions based on market observable data and, in the absence of such data, internal information that is consistent with what market participants would use in a hypothetical transaction that occurs at the measurement date.

Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect management's market assumptions. Preference is given to observable inputs. These two types of inputs create the following fair value hierarchy:

Level 1 - Quoted prices for identical investments in active markets.

Level 2 - Quoted prices for similar investments in active markets; quoted prices for identical or similar investments in markets that are not active; and model-derived valuations whose significant value drivers are observable.

Level 3 - Significant inputs to the valuation model are unobservable.

The Company maintains policies and procedures to value investments using the best and most relevant data available. Independent pricing vendors are used to assist in valuing certain investments.

The following section describes the valuation methodologies used to measure investments at fair value.

The cash investment fund is valued at the net asset value of units of the fund. The net asset value per unit is published and is the basis for current transactions. The cash investment fund is a Level 1 investment.

Investments in private equity and other investments held by the Trust, are generally valued using the net asset value ("NAV") per share as a practical expedient for fair value provided certain criteria are met. The NAVs are determined based on the fair values of the underlying investments in the funds. Investments that are measured at fair value using the NAV as a practical expedient are not classified in the fair value hierarchy.

(d) Postretirement Benefit Obligation

The postretirement benefit obligation represents the actuarial present value of those estimated future benefits that are attributed to employee service rendered through December 31, 2024 and 2023. Postretirement benefits include future benefits expected to be paid to or for certain retirees and their eligible beneficiaries and dependents. The net benefit cost on the statement of changes in benefit obligations represents benefits paid and participant contributions related to this obligation.

GE RETIREE MEDICAL PLAN

Notes to Financial Statements

December 31, 2024 and 2022

The present value of the expected postretirement benefit obligation is determined by independent actuaries and is the amount that results from applying actuarial assumptions to historical claims data to estimate future annual incurred claims costs per participant and to adjust such estimates for the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as those for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The statements of accumulated plan benefits are measured as of January 1, 2025 and 2024, respectively. The more significant actuarial assumptions used in the valuations were:

- Discount rate - 5.51% and 5.09%, respectively.
- Rate of future increases in per capita costs for healthcare benefits - initial rate for the obligations reported is 7.0% and 6.5% respectively, ultimately declining to 5.0% for 2033 and thereafter. The healthcare trend assumptions apply to our pre-65 retiree medical plans. Our post-65 retiree plan has a fixed subsidy and therefore is not subject to healthcare inflation. Increasing the healthcare cost trend rates by one percentage point would increase the accumulated postretirement benefit obligation by approximately \$7.4 million as of December 31, 2024 and \$10.3 million as of December 31, 2023.
- Mortality - January 1, 2025 and 2024 measurement: Pri-2012 Healthy Retiree and Contingent Survivor tables, projected with Scale MP-2018 from 2012 to 2016, and thereafter with Scale MP-2021 modified to converge to Social Security Administration proxy rates over 20 years, adjusted for the demographic characteristics of the participants.

The actuarial gain for the year ended December 31, 2024 is driven by an increase in the discount rate and a decrease in expected benefit payments, offset by an increase per capita trend and admin rates.

The effect of plan amendments on accumulated plan benefits are recognized during the year in which such amendments are adopted. There were no amendments effective January 1, 2025 or January 1, 2024 that were not appropriately recognized in the actuarial present value of accumulated plan benefits as of December 31, 2024 and 2023, respectively. Had the January 1 valuations been performed as of December 31, there would be no material differences.

The foregoing assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of the postretirement benefit obligation. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that certain changes in these estimates and assumptions could be material to the financial statements.

The cost of postretirement healthcare benefits is shared by the Plan's sponsor and participating retirees, as noted in the Plan documents. The Plan includes multiple benefit design options. The approximate weighted blend of retired participant premium contributions was 5.0% and 7.7% of Plan cost for 2024 and 2023, respectively.

(e) Insurance

Disbursements made to insurance companies under contract to provide certain medical benefits are shown as insurance premiums.

(f) Benefits Paid

Claims are recorded as paid by the claims administrator.

(g) Management Estimates and Assumptions

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, benefit obligations and changes therein, incurred but not reported, claims payable, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(3) Benefit Obligations

The Plan's excess of benefit obligations over net assets at December 31, 2024 and 2023 relates primarily to postretirement health benefit obligations. It is expected that these obligations will be funded primarily through future employer contributions.

(4) Summary of Trust Financial Information

The Plan's net assets are primarily invested in the Trust which has been established to receive Company and participant contributions, invest or reinvest such sums, enter into contracts with insurance companies with respect to benefits, and pay benefits and administrative fees in accordance with specific provisions for participating plans.

The Plan's net assets in the Trust represented 5.2% and 6.9% of Trust net assets as of December 31, 2024 and 2023, respectively. The net assets and investment income of the Trust follows:

(c) Risk and Uncertainties

The Trust invests in a cash investment fund, private equity funds, and certain other investments. Market risks include global events which could impact the value of the investment securities, such as a pandemic or international conflict. Due to level of risks associated with certain investments, it is reasonable to expect that changes in the value of investments will occur (including in the near term) and that such changes could materially affect the Trust investments.

As of December 31, 2024 and 2023, the Trust has two assets and three assets, respectively, individually greater than 10% of total assets.

(5) Fair Value Measurements

The Trust's investments measured at fair value on a recurring basis at December 31, 2024 follow.

The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented as total investments in the statement of net assets available for plan benefits.

Investments in private equity and other investments held by the master trust are generally valued using the NAV per share as a practical expedient for fair value provided certain criteria are met. The NAV of the funds are determined based on the fair values of the underlying investments in the funds. Investments that are measured at fair value using the NAV as a practical expedient are not classified in the fair value hierarchy, and are described further below.

Private Equity Funds and Other Investment Funds

This asset class consists primarily of closed-end private equity funds, which invest across various fund types,

including venture capital, buyouts, growth and debt strategies. The term of each fund is typically 10 or more years and the fund's investors do not have an option to redeem their interest in the fund. The assets in this class have been diversified across vintage years, industry sectors and geographic regions. Also included are investments in fund of funds which invest across a diversified array of strategies. Generally, redemptions are not available or allowable for these funds. As of December 31, 2024 and 2023, there are certain unfunded commitments for these funds. Unfunded commitments were \$6.1 million as of December 31, 2024. There has not been significant funding (administrative expenses only) relating to the commitments during the years ended December 31, 2024 and 2023. The Plan does not expect there to be significant funding related to those in the future.

(6) Tax Status

Pursuant to a letter issued by Internal Revenue Service ("IRS") on June 24, 1987, the Trust utilized in conjunction with the Plan is intended to be a tax exempt Voluntary Employee Benefit Association (VEBA) under Internal Revenue Code section 501(c)(9). However, to the extent the Trust recognizes any "unrelated business taxable income" as defined in Section 512 of the Code, the Trust is required to pay tax on any such income. The Trust incurred no significant unrelated business income tax for the tax year 2024.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. For the year ended December 31, 2024, the Plan has not recognized a tax liability (or asset) related to uncertain tax positions. As of December 31, 2024 and 2023, the Trust has recognized an income tax receivable of \$0.3 million and \$0.2 million, respectively. The Plan administrator has concluded that as of December 31, 2024 and 2023, there are no uncertain tax positions taken or expected to be taken.

(7) Expenses

Pursuant to the Plan document, the Plan incurs certain administrative expenses. Administrative expenses consist primarily of direct recordkeeping and claims processing costs and are reflected in 'Administrative expenses' in the Statement of Changes in Net Assets Available for Plan Benefits.

(8) Exempt Parties-in-Interest Transactions

As described in Note 7, the Plan paid certain expenses related to Plan operations and investment activity to various service providers who are parties in interest under ERISA. The Trust utilizes various investment managers to manage its net assets. These net assets may be invested into funds or separate accounts managed by the investment manager. Therefore, these transactions qualify as exempt party-in-interest transactions. In Plan management's opinion, fees paid during the year ended December 31, 2024, for services rendered by parties in interest were based upon customary and reasonable rates for such services.

(9) Reconciliation of Financial Statements to Form 5500

Amounts currently payable to or for participants are recorded on the Form 5500 for benefits claims that have been processed and approved for payment prior to December 31, but not yet paid as of that date.

A reconciliation of net assets available for plan benefits per the financial statements to the annual report filed on Form 5500, Schedule H as required by the Department of Labor follows.
