**REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS**

To the Participants and Plan Administrator of  
Hunterdon Medical Center Employees' Pension Plan

**Scope and nature of the ERISA Section 103(a)(3)(C) audit**

We have performed audits of the financial statements of Hunterdon Medical Center Employees' Pension Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years ended December 31, 2024 and 2023, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the years ended December 31, 2024 and 2023, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

**Opinion**

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

**Basis for opinion**

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

**Responsibilities of management for the financial statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

**Auditor's responsibilities for the audit of the financial statements**

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

**Other matter – supplemental schedules required by ERISA**

The supplemental schedules of assets (held at end of year) as of December 31, 2024 and reportable transactions for the year ended December 31, 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures. These additional procedures included comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with US GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

## Hunterdon Medical Center Employees' Pension Plan

### NOTES TO FINANCIAL STATEMENTS

December 31, 2024 and 2023

#### NOTE 1 - DESCRIPTION OF THE PLAN

The following description of Hunterdon Medical Center Employees' Pension Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

##### **General**

The Plan is a defined benefit pension plan covering all employees who are not physicians and are not covered by a collective bargaining agreement. Eligible employees participate after completion of one year of service and attaining age 21. Faculty physicians, hospice employees, psychiatrists, and pediatricians are also eligible to participate in the Plan. The Plan became effective July 1, 1966 and is sponsored by Hunterdon Medical Center (the Medical Center). The Plan is subject to the provisions of the Employee Retirement Income Securities Act of 1974 (ERISA), as amended.

The Medical Center's Finance and Investment Committee is responsible for oversight of the Plan. This Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Board of Directors.

Effective January 1, 2011, the Medical Center implemented a soft freeze to the Plan. Active employees remained eligible to continue accruing benefits in the Plan. Employees hired after January 1, 2011 were not eligible for participation in the Plan and were eligible to participate in the Medical Center's sponsored 403(b) plan.

On November 21, 2013, the Board of Directors of Hunterdon Health System adopted an amendment to the Plan, freezing the Plan effective January 15, 2014 (the Plan Freeze Date). Effective with the Plan Freeze Date: (a) there will be no new enrollments in the Plan, (b) there will be no further benefit accruals and (c) compensation received on or after the Plan Freeze Date shall not be recognized for any purpose under the Plan.

##### **Pension Benefits**

The normal retirement benefit is equal to 0.75% of average monthly compensation plus 0.75% of average monthly compensation in excess of \$400, multiplied by the number of benefit years of service. Average monthly compensation is based on earnings of the five consecutive years of service preceding retirement or termination, if earlier, which will produce the highest average.

The Plan was amended effective October 1, 2024, to provide for the early commencement of benefits to active participants who have attained age 59½ and deferred termination vested participants regardless of whether or not otherwise eligible for early or normal retirement under the plan, provided the value of such benefit does not exceed \$70,000 and to allow for such benefits to be paid in the form of an actuarially equivalent lump sum.

##### **Death and Disability Benefits**

###### Death Benefit

If a participant dies after he or she is eligible for a vested benefit, the eligible spouse shall receive the retirement benefit. Such retirement benefit, a qualified joint and 50% survivor annuity subsidized by the Plan, would be payable at the participant's earliest retirement date or at the date of death, if later.

Furthermore, any participant who entered the Plan before September 1, 1985 and who continues in uninterrupted service until death (before commencement of retirement benefits) is provided group life insurance protection in an amount equal to 100 times the expected normal retirement benefit. However,

**Hunterdon Medical Center Employees' Pension Plan**

**NOTES TO FINANCIAL STATEMENTS - CONTINUED**

**December 31, 2024 and 2023**

this benefit may not exceed \$65,000 and will be used to provide the above-mentioned qualified joint survivor annuity so that the death benefits are coordinated, not added together.

Disability Benefit

If an employee who is a participant is permanently disabled, as defined by the Social Security Act or Veterans Disability Act, and has completed five vesting years of service, he or she shall receive the actuarial equivalent of the accrued benefit at the date of disability, payable until retirement, death or recovery.

***Vesting***

A year of service is credited to a participant in any Plan year during which an employee completes 1,000 hours of service. An employee is fully vested after completing five years of service.

If a participant terminates service before he or she has completed at least five years of services with the Medical Center, the participant will not receive any benefit from the Plan. If he or she terminates after completing five years of service with the Medical Center, the participant will receive the vested accrued benefit, payable at the normal retirement date or the actuarial equivalent of the vested accrued benefit payable when the participant has met the age and service requirement for payment of an early retirement benefit.

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

***Basis of Accounting***

The financial statements of the Plan are prepared on the accrual basis of accounting.

***Use of Estimates***

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosures of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements and changes therein. Actual results could differ from those estimates.

***Payment of Benefits***

Benefit payments to participants are recorded upon distribution.

***Investment Valuation and Income Recognition***

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Finance and Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and trustee. See Note 5 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the gains and losses on investments bought and sold as well as held during the year.

***Actuarial Present Value of Accumulated Plan Benefits***

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits

Hunterdon Medical Center Employees' Pension Plan

NOTES TO FINANCIAL STATEMENTS - CONTINUED

December 31, 2024 and 2023

include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation and years of credited service. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances such as retirement, death, disability and termination of employment are included, to the extent they are attributable to employee service rendered to the valuation date.

**Administrative Expenses**

The Plan's expenses are paid either by the Plan or the Medical Center, as provided by the Plan document. Expenses that are paid directly by the Medical Center are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are presented in the accompanying statements of changes in net assets available for benefits.

**NOTE 3 - ACCUMULATED PLAN BENEFITS**

The actuarial present value of accumulated plan benefits is determined by a third-party actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payments (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

Significant assumptions underlying the actuarial computations as of December 31, 2023 and 2022 are as follows:

Discount rate	6% as of December 31, 2023 and 2022
Mortality	PRI-2012 Mortality Table with scale MP-2021 as of December 31, 2023 and 2022
Retirement age	Normal retirement is at age 65 as of December 31, 2023 and 2022

The accumulated plan benefit information is estimated as of the beginning of the Plan year and is as follows as of December 31, 2023:

Vested benefits:	
Participants and beneficiaries currently receiving payments	\$ 118,993,141
Other participants	<u>72,305,769</u>
Total vested benefits	<u>191,298,910</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 191,298,910</u>

Hunterdon Medical Center Employees' Pension Plan

NOTES TO FINANCIAL STATEMENTS - CONTINUED

December 31, 2024 and 2023

The changes in the actuarial present value of the accumulated plan benefits for the year ended December 31, 2023 are summarized as follows:

Actuarial present value of accumulated plan benefits, at beginning of year	\$ 190,729,505
Increase (decrease) during the year attributable to:	
Benefits accumulated	1,012,084
Interest	11,097,563
Benefits paid	<u>(11,540,242)</u>
Net increase	<u>569,405</u>
Actuarial present value of accumulated plan benefits, at end of year	<u>\$ 191,298,910</u>

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

**NOTE 4 - INVESTMENTS AND INFORMATION CERTIFIED BY TRUSTEE**

The Plan sponsor has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, SEI Private Trust Company, the trustee of the Plan, has certified that the following information included in the accompanying financial statements and supplemental schedules is complete and accurate:

- Investments, at fair value, cash and accrued interest and dividends as shown in the statements of net assets available for benefits as of December 31, 2024 and 2023.
- Net investment income, as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2024, and 2023.
- Schedule H, Line 4i - schedule of assets (held at end of year) as of December 31, 2024.
- Schedule H, Line 4j - schedule of reportable transactions for the year ended December 31, 2024.

The Plan's independent accountants did not perform auditing procedures with respect to information certified by the trustee except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

**NOTE 5 - FAIR VALUE MEASUREMENTS**

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

- Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

**Hunterdon Medical Center Employees' Pension Plan**

**NOTES TO FINANCIAL STATEMENTS - CONTINUED**

**December 31, 2024 and 2023**

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observables and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2024 and 2023.

Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

U.S. government agencies are U.S. Treasury STRIPS with various maturities. Treasury STRIPS are fixed-income securities (they pay fixed-income on maturity) which are purchased below their face value and offer no interest in the form of coupon payments before maturity. These are otherwise known as zero-coupon based treasuries as investors are not paid semiannually. STRIPS are formed when the coupon payments on bonds and notes are separated from the principal investments. Yields on this investment are received from the difference between the face value of the bonds or notes and the discounted prices at which they were bought. Yields are usually received if held till the original security matures.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023:

	Assets at Fair Value as of December 31, 2024			
	Level 1	Level 2	Level 3	Total

**NOTE 6 - FUNDING POLICY**

The Plan's funding policy is for the Medical Center to make annual contributions to the Plan as determined by the Plan's independent actuary in amounts necessary to meet or exceed the annual ERISA minimum funding requirement. No participant contributions are permitted. The minimum funding requirements of ERISA were met for 2024 and 2023.

Although it has not expressed any intention to do so, the Medical Center has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

**NOTE 7 - PLAN TERMINATION**

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a) Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan.
- b) The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.
- c) Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations.
- d) All other vested benefits (that is, vested benefits not insured by PBGC).
- e) All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Medical Center and the level of benefits guaranteed by the PBGC.

**Hunterdon Medical Center Employees' Pension Plan**

**NOTES TO FINANCIAL STATEMENTS - CONTINUED**

**December 31, 2024 and 2023**

**NOTE 8 - RELATED-PARTY AND PARTY-IN-INTEREST TRANSACTIONS**

The Plan's investments are administered under a contract with SEI Private Trust Company, the trustee of the Plan. Contributions are held and managed by the trustee, who invests cash received, interest and dividend income and makes distributions to participants. These transactions qualify as party-in-interest transactions which are exempt from the prohibited transactions rules of ERISA.

Certain expenses for the trustee are paid by the Plan related to plan operations and investment activity are described in Note 2. Additionally, certain administrative functions of the Plan are performed by officers or employees of the Medical Center. No such officer or employee receives compensation from the Plan.

**NOTE 9 - TAX STATUS**

The Internal Revenue Service (IRS) has determined and informed the Medical Center by a letter dated October 10, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024 and 2023, there are no uncertain positions taken or expected to be taken that would require recognition or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

**NOTE 10 - RISKS AND UNCERTAINTIES**

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

**NOTE 11 - SUBSEQUENT EVENTS**

The Plan evaluated its December 31, 2024 financial statements for subsequent events through September 30, 2025, the date the financial statements were available to be issued. The Plan is not aware of any subsequent events which would require recognition or disclosure in the financial statements.

## ACTUARIAL ASSUMPTIONS AND METHODS

The valuation of a defined benefit pension plan involves estimates and assumptions about the probability of events occurring far into the future. Examples include assumptions about future employment, mortality, and retirement. Below is a description of the actuarial assumptions and methods used in the valuation.

### Funding Target Liability

**Valuation Date:** January 1, 2024

**Demographic Information:** The demographic information was provided as of January 1, 2024 by Hunterdon Health. Although we did not audit the data, we did review the data for reasonableness.

**Actuarial Cost Method:** As required by PPA, the Traditional Unit Credit Cost Method was used.

**Asset Valuation Method:** The actuarial value of assets is determined by averaging the fair market value of assets as of the valuation date and the adjusted fair market values as of the preceding two valuation dates. This methodology is consistent with that provided in IRS Notice 2009-22.

**Anticipated Rate of Return on Plan Assets:** 6.00%, based on a review of the Plan's asset allocation, the current investment policy, and expected returns using recent capital market assumptions published by leading financial organizations.

**Actuarial Valuation Software:** For purposes of developing the projected future benefit payments as well as determining attributed liabilities and normal costs as of the valuation date, we utilized the ProVal software platform developed by Winklevoss Technologies. We believe this externally developed valuation system is appropriate, was used for its intended purpose, and did not produce unreasonable results.

**Interest Rates for Minimum Required Contribution:** The January 2024 funding segment rates were utilized as prescribed by IRC Section 430(h) and elected by Hunterdon Health. Below, please find the segment rates after reflection of the segment rate stabilization provisions of IRC Section 430(h)(2)(C)(iv).

Segment	Interest Rate
Segment 1	4.75%
Segment 2	4.96%
Segment 3	5.59%

Effective Interest Rate
5.15%

Segment 1 is applied to benefit payments expected to be made in the first 5 years, segment 2 is applied to benefit payments expected to be made in the next 15 years and segment 3 is applied thereafter.

## ACTUARIAL ASSUMPTIONS AND METHODS

**Interest Rates without reflection of the segment rate stabilization provisions of IRC Section 430(h)(2)(C)(iv):** Below, please find the segment rates without reflection of the segment rate stabilization provisions of IRC Section 430(h)(2)(C)(iv). These rates were utilized to determine the low-default risk obligation measurement (“LDRM”) of the accrued benefits as of the Valuation Date.

Segment	Interest Rate
Segment 1	4.37%
Segment 2	4.96%
Segment 3	4.95%

Effective Interest Rate
4.92%

Segment 1 is applied to benefit payments expected to be made in the first 5 years, segment 2 is applied to benefit payments expected to be made in the next 15 years and segment 3 is applied thereafter.

**Rate of Compensation Increase:** Not applicable because the Plan is frozen.

**Mortality for Healthy Lives:** The sex-distinct Amount-Weighted Pri-2012 Mortality Tables for employees and healthy annuitants with mortality improvements projected using IRS 2024 Adjusted Scale MP-2021 on a generational basis.

**Mortality for Disabled Lives:** The sex-distinct mortality tables prescribed under IRS Notice 2008-29 and IRS Revenue Ruling 96-7. These mortality tables have no projection for future mortality improvements.

**Retirement Incidence:** Rates of retirement were based on a review of plan experience for census data collected for the January 1, 2017 – January 1, 2022 actuarial valuations. Future experience is not expected to deviate significantly from these results. Active participants were assumed to retire in accordance with the following rates:

Age	Percentage	Age	Percentage
55	0.00%	63	2.00%
56	0.00%	64	25.00%
57	0.00%	65	60.00%
58	0.00%	66	50.00%
59	0.00%	67	50.00%
60	2.00%	68	50.00%
61	2.00%	69	50.00%
62	2.00%	70	100.00%

## ACTUARIAL ASSUMPTIONS AND METHODS

Current and future vested terminated participants are assumed to retire at age 65 based on the Plan's normal retirement age.

**Turnover:** Rates of termination are based on the 2003 SOA Pension Plan Turnover Study Basic Age Table, an industry standard turnover table. Illustrative rates are shown below:

Ultimate Period	
Age	Percentage
20	17.46%
25	18.51%
30	12.19%
35	8.78%
40	7.00%
45	6.21%
50	5.63%
55	2.92%
60	2.20%

**Disability:** Rates of disability were deemed to be immaterial and therefore were not assumed.

**Administrative Expenses:** Actual plan expenses, not including investment advisory fees and PBGC premiums paid out of the trust during the previous plan year, plus the expected PBGC premium for the current plan year, rounded to the nearest thousand.

**Spouse Assumptions:** 67% of participants not currently collecting benefits are assumed to be married, with male spouses assumed to be three years older and female spouses assumed to be three years younger than the participant.

**Form of Benefit:** The assumed form of benefit was based on the Plan provisions.

Death: Beneficiaries are assumed to elect a life annuity deferred to age 55.

Termination: All participants are assumed to elect a monthly life annuity deferred to age 65.

Retirement: All participants are assumed to elect an immediate monthly life annuity.

All assumptions used in determining the low-default risk obligation measurement were consistent with those used in determining the Funding Target Liability, except the interest rates which were disclosed above.

### Actuarial Present Value of Accumulated Plan Benefits (ASC 960)

**Interest Rate:** 6.00%, based on a review of the Plan's asset allocation, investment policy (as shown in the annual funding notice), and expected returns using recent capital market assumptions published by leading financial organizations.

**Mortality:** The sex-distinct Amount-Weighted Pri-2012 Mortality Tables for employees, healthy annuitants, and contingent survivors with mortality improvements projected using Scale MP-2021 on a generational basis. This assumption was based on a review of newly published mortality tables and the Plan's demographics and industry.

**Post-Disablement Mortality:** The sex-distinct Amount-Weighted Pri-2012 Disability Mortality Tables with mortality improvements projected using Scale MP-2021 on a generational basis. This assumption was based on a review of newly published mortality tables.

Unless specifically mentioned, all remaining assumptions for the Actuarial Present Value of Accumulated Plan Benefits remain the same as described for the Funding Target Liability above.

**Statement by Enrolled Actuary**  
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

This summary is intended as an outline of plan provisions and does not alter the intent or meaning of the provisions contained in the plan document.

**Effective Date:**

July 1, 1966; revised and restated January 1, 2014.

The latest amendment reflected in this report was effective October 1, 2020. The Plan was amended to provide a one-time lump sum option during a limited time period of October 1, 2020 through November 30, 2020 for participants who had terminated employment on or before July 31, 2020 and had lump sum values not greater than \$75,000 as of December 1, 2020.

**Eligibility:**

Eligible employees may participate after the attainment of age 21 and the completion of one year of eligibility service. A year of eligibility service is the first twelve months of employment or any subsequent year of employment in which an employee works 1,000 hours.

Eligible employees include individuals who hold the titles of Vice President of Medical Affairs or Chief Medical Officer. Hospice employees and Faculty Physicians first became eligible for the plan as of January 1, 1994. Salaried Psychiatrists first became eligible as of January 1, 1996. The physician holding the title of Director of Family Practice first became eligible on January 1, 1994. Physicians of Hunterdon Pediatric Associates are eligible for the plan effective January 1, 1998. Effective January 1, 2003, Visiting Health and Supportive Services employees are eligible to become participants under the plan. All other physicians are excluded from participation in the plan.

Effective January 1, 2011, the plan was closed to new entrants. Eligible Employees hired before January 1, 2011 that were not participants as of January 1, 2011, can still become participants.

**Benefit Service:**

A year of Benefit Service shall be counted for each Plan Year during which an Employee completes at least 1,000 Hours of Service. Partial years of benefit service are not credited.

Benefit service for Faculty Physicians, Salaried Psychiatrists, and the Director of the Family Practice Residency Program will include only years subsequent to January 1, 1993. Benefit service for Physicians of Hunterdon Pediatric Associates will include only service after January 1, 1998. Benefit service for VHSS will include only service after January 1, 1996.

Benefit service was frozen as of January 15, 2014.

**Participation Service:**

A year of Participation Service is earned each Plan Year during which a participant completes at least 1,000 Hours of Service. Partial years of participation service are not credited. Participation service was frozen as of January 15, 2014.

**Vesting Service:**

100% vested after completion of five vesting years of service with no vesting prior to that time. Vesting years of service exclude years during which the participant is credited with fewer than 1,000 hours of service.

**Employee Contributions:**

None.

**Average Monthly Compensation:**

Average monthly compensation is based on earnings of five consecutive years of service preceding retirement or termination which will produce the highest average. Average monthly compensation was frozen as of January 15, 2014.

**Normal Retirement Date:**

Normal retirement date is the first day of the calendar month coincident with or next following the participant's Normal Retirement Age.

**Normal Retirement Age:**

The Normal retirement age is the participant's 65<sup>th</sup> birthday or the fifth anniversary of the year of participation in the Plan.

**Normal Retirement Benefit:**

- (1) Eligibility requirements - must be a participant at normal retirement date and retire on or after that date.
- (2) Pension amount – the annual normal retirement benefit (*payable monthly*) is calculated as follows:
  - (a) 0.75% of average monthly compensation plus 0.75% of average monthly compensation in excess of \$400, multiplied by the number of years of benefit service the participant earned, or would have been expected to earn absent the Plan freeze. See accrued benefit below for the adjustment to the normal retirement benefit for participants after the Plan freeze.

**Accrued Benefit:**

The normal retirement benefit multiplied by a fraction. The numerator is the total number of years of participation as of any given date and the denominator is the potential number of years of participation at normal retirement age.

**Early Retirement Benefit:**

- (1) Eligibility requirements - Attained age 55 and five years of vesting service.
- (2) Pension amount - the actuarial equivalent of a participant's vested accrued benefit.

**Postponed Retirement Benefit:**

The greater of the actuarial equivalent of the benefit payable at the normal retirement date using Average Monthly Compensation as of postponed retirement date, or the benefit determined using both Average Monthly Compensation and years of Benefit Service completed as of postponed retirement date.

**Death Benefit:**

Qualified joint and 50% survivor annuity payable to the surviving spouse at the participant's earliest retirement date or the date of death, if later. No death benefit is provided for single participants except as may be applicable below.

In addition, any participant who entered the Plan before January 1, 1985 and continues in uninterrupted service until death (before commencement of retirement benefits) is provided group life insurance protection in an amount equal to 100 times the expected normal retirement benefit. However, this benefit may not exceed \$65,000 and will be used to provide the above mentioned Qualified Preretirement Survivor Annuity. Therefore, the death benefits are coordinated and not added together. The amount of projected monthly pension is frozen as of December 31, 1994.

**Disability Retirement Benefit:**

- (1) Eligibility requirements - Five years of vesting service and termination of employment as a result of total and permanent disability as defined by the Social Security Act or Veterans Disability Act.
- (2) Pension amount – the actuarial equivalent of a participant's vested accrued benefit.

**Optional Forms of Payment:**

- (1) Normal form
  - (a) Married participants - automatic surviving spouse annuity providing a reduced pension payable to the retired participant during his lifetime with 50% continuing monthly for life to his surviving spouse at his death.
  - (b) Single participants - single life annuity.
- (2) Joint and Survivor Annuitant Option - a reduced amount of pension is payable to the retired participant during his lifetime, with the provision that after his death either (i) 100%, (ii) 75%, (iii) 66 2/3%, or (iv) 50% of such reduced pension shall continue to and for the lifetime of his designated joint annuitant.
- (3) Five or Ten Year Certain and Life Annuity Option - a reduced pension is payable to the retired participant during his lifetime, with the provision that, if his death occurs before he has received 60 or 120 monthly payments, such payments will continue to his designated beneficiary until a total of 60 or 120 monthly payment have been made.
- (4) Lump Sum Option
  - (a) An automatic lump sum if the benefit is \$7,000 or less.
  - (b) A lump sum is available for the accrued benefit earned as of December 31, 1985. If the remaining benefit is \$7,000 or less, then the entire benefit can be taken as a life annuity or lump sum. The remaining benefit is paid as an annuity if it is greater than \$5,000.

The Plan was amended effective October 1, 2017 to provide a one-time lump sum option for terminated participants with a lump sum value not greater than \$40,000, effective September 15, 2019 to provide a temporary special early retirement window, and effective October 1, 2020 to provide a one-time lump sum option for terminated participants with a lump sum value not greater than \$75,000.

**Actuarial Equivalent:**

The determination of actuarially equivalent benefits is based on mortality rates in accordance with the “applicable mortality table” as defined under IRC Section 417(e)(3)(B), and an interest rate of 8.00%. For determination of single sum payments, available for benefits accrued by December 31, 1985, the UP-1984 Mortality Table will be used and the interest rate is 8.75%. For all other single sum payments, the “applicable mortality table” as defined under IRC Section 417(e)(3)(B) and the “applicable interest rate” as defined under IRC Section 417(e)(3)(C) in effect for the lookback month of September preceding the first day of the plan year in which the Participant’s annuity starting date occurs will be used.
