INDEPENDENT AUDITOR'S REPORT

To the Participants and Administrative Committee
Gate Energy, Inc. Employee Stock Ownership Plan
Houston, Texas

Opinion

We have audited the accompanying financial statements of Gate Energy, Inc. Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for plan benefits as of December 31, 2024 and 2023 and the related statement of changes in net assets available for plan benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for plan benefits of the Plan as of December 31, 2024 and 2023, and the changes in net assets available for plan benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements, including omissions, are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) for the year ended December 31, 2024 is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

GATE ENERGY, INC. EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023

NOTE A BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

General - Gate Energy, Inc. Employee Stock Ownership Plan (the Plan) was adopted effective January 1, 2022 to establish an employee stock ownership plan for the exclusive benefit of the employees of Gate Energy, Inc. (the Company, Employer, and Plan Sponsor) and their beneficiaries. The Plan is a defined contribution stock ownership plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan purchased Company common stock using employer cash contributions and the proceeds from a loan by the Company and holds the common stock in a trust established under the Plan. The borrowing is to be repaid over a period of seventy years by fully deductible Company contributions to the trust fund. As the Plan makes each payment of principal and interest, an appropriate percentage of stock will be allocated to eligible employees' accounts.

Formation - On June 2, 2023, the Company conveyed 10,408,054 shares of Company common stock to the Employee Stock Ownership Plan (ESOP) Trust for the benefit of the participants in the Plan in exchange for \$4,718,315 and a \$49,410,574 note receivable from the ESOP. A representative of Apex Fiduciary Services, LLC, is the Trustee of the Plan.

Basis of Presentation - The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with generally accepted accounting principles in the United States (GAAP).

Estimates - The preparation of financial statements in conformity with GAAP requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Allocations - The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock ("allocated") and (b) stock not yet allocated to employees ("unallocated"), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Risks and Uncertainties - The Plan invests solely in the stock of the Company which is exposed to various risks, such as interest rate, market and credit as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the stock of the Company and the level of uncertainty related to changes in the value of the stock, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits and the statement of changes in net assets available for plan benefits.

Valuation of Investments and Income Recognition - The common stock of the Company, which is the only investment of the Plan, is stated at fair value based upon an independent third party appraisal. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In accordance with the policy of stating investments at fair value, net appreciation (depreciation) is included in the carrying value of the Company's common stock in the statements of net assets available for plan benefits and the changes in the net appreciation (depreciation) of the Company's common stock is reflected in the statement of changes in net assets available for plan benefits. (See Note D for fair value disclosures.)

GATE ENERGY, INC. EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023

NOTE A BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
(CONTINUED)

Federal Income Tax - The Plan is a qualified plan under Section 401(a) of the Internal Revenue Code (IRC). The Plan has received a favorable opinion letter from the Internal Revenue Service dated June 3, 2024, which stated that the Plan constitutes a qualified plan under Section 4975(e)(7) of the Internal Revenue Code and is therefore, exempt from federal income taxes.

The Plan has been amended since receiving the favorable opinion letter. However, the Plan Administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Accordingly, the Plan Administrator believes the Plan was qualified and the related trust was tax-exempt as of December 31, 2024 and 2023.

The Plan believes that all significant tax positions utilized by the Plan will more likely than not be sustained upon examination. Fiscal 2024, 2023, and 2022 are subject to examination by the major tax jurisdictions. Tax penalties and interest, if any, would be accrued as incurred and would be classified as tax expense in the statement of changes in net assets available for plan benefits.

Subsequent Events - The Plan has evaluated subsequent events through October 13, 2025, the date the financial statements were available to be issued. No subsequent events occurred which require adjustment or disclosure to the financial statements at December 31, 2024.

NOTE B PLAN DESCRIPTION

The following description of the Plan provides only general information about the Plan. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

Participation - To participate in the Plan, an employee must be employed by the Plan Sponsor. An eligible employee cannot be a nonresident alien, a leased employee, or be represented by a collective bargaining agreement. An employee is eligible to become a participant in the Plan on the entry date coincident with or next following the completion of one year of service, accumulation of at least 1,000 hours of service, and attaining at least 21 years of age. The entry date is the first day of January, April, July, and October of each plan year. Employees who met this criteria on January 1, 2022 were considered Eligible Employees as of that date.

Voting Rights - All Company stock held by the Trust (allocated and unallocated) is voted by the Trustee in its discretion with the following exception. In the case of any corporate matter that involves approval or disapproval of any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolutions, sale of substantially all assets, or similar transaction, each participant may direct the Trustee how to vote the shares of stock allocated to such participant's account. Employer will provide materials to the participants in a timely manner that will allow them to instruct Trustee how to vote their shares. Trustee will not vote any Directed Allocated Shares in a manner that will result in a violation of ERISA or would not be in the best interests of the participants.

GATE ENERGY, INC. EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023

NOTE B PLAN DESCRIPTION (CONTINUED)

Contributions - Participants are not allowed to make contributions to the Plan. The Plan is funded solely by the Company's contribution of Company common stock or cash. An employee must be employed by the Company at December 31st of the Plan year and complete 1,000 or more hours of service to be eligible for contribution, unless terminated during the Plan year because of death, disability or retirement.

For each Plan year, the Company may elect at its discretion to make a contribution to the Plan subject to certain limitations per participant. The Company funded a \$1,982,916 discretionary contribution for the year ended December 31, 2024. Company contributions are allocated to participant accounts pro rata based on the participant's eligible compensation in proportion to total eligible compensation of all participants.

Eligible employee compensation is limited by federal income tax laws to \$345,000 in 2024. The annual addition that may be contributed to a participant's account in 2024 is the lesser of \$69,000 or the participant's total compensation. For participants age 50 or older, this limit is increased to the lesser of \$76,500 or the participant's total compensation. Contributions to the Company's 401(k) plan may limit these amounts. Where the combined limit for 401(k) contributions and ESOP contributions is exceeded for any employee in a particular year, the funds from the 401(k) are the first to be refunded. These limitations are adjusted periodically to reflect cost-of-living increases.

Each participant account is credited with the Company's contributions and a pro rata share of the earnings of the Company's stock in which the participant is invested.

Vesting - If a participant's employment with the Company ends for any reason other than retirement (upon attaining 65 years of age and 5 years of participation in the Plan), permanent disability or death, the participant will vest in the balances of their account based on total years of service with the Company subsequent to January 1, 2022 (the Effective Date). Employees with two to five years of services with the Company prior to the Effective Date were credited with one year of vesting service upon eligibility, plus one additional year of vesting service if employed with the Company for more than five years prior to the Effective Date. One year of service is defined as being credited with at least 1,000 hours of service during the plan year.

Company discretionary contributions and related earnings vest as follows:

<u>Full Years of Vesting Service</u>	<u>Vested Interest</u>
Under 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

NOTE B PLAN DESCRIPTION (CONTINUED)

Put Option - Under federal income tax regulations, the Company common stock that is held by the Plan and its participants, which is not readily tradable on an established market, includes a put option. The put option is a right to demand that the Company buy any vested shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Right of First Refusal - The Plan document provides the Employer and the Plan right of first refusal relating to distributed shares. The Employer and the Plan have the right to purchase distributed shares at the same price and same terms offered to a third party.

Form of Benefits - Benefit payments are recorded when paid. Distributions relating to terminations of service that are not in the event of death, disability or retirement, will be made in a lump sum payment in the plan year subsequent to the event if the participant's vested balance does not exceed \$7,000. If the participant's balance exceeds \$7,000 and the Participant was terminated for an event not due to a death, disability or retirement, substantially equal annual installments over a period not to exceed five years will be made within six years following the termination of service.

Amounts in the Plan corresponding to participants terminated in 2024 or prior totaled approximately \$415,000 as of December 31, 2024. Shares held by these participants remain subject to annual fair value adjustments. The distribution of these amounts is subject to the aforementioned Vesting and Forms of Benefits provisions.

Diversification - Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments that are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six year period. In each of the first 5 years, a participant may diversify up to 25 percent of the number of shares allocated to their account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify will be offered at least three investment options or receive a cash distribution if directed by the Plan Committee.

Forfeitures - Plan forfeitures may be used to reinstate previously forfeited account balances or may be allocated to each participant's account based upon the relation of the participant's compensation to total compensation for the Plan year. For the year ended December 31, 2024, 16,510 forfeited shares were used to reinstate previously forfeited account balances for rehired participants and 37,304 forfeited shares were reallocated to eligible participants.

Administration - The Company may, at its discretion, pay the Plan's administrative expenses. Any Plan expenses not paid by the Company will be paid by the Plan. Substantially all Plan expenses were paid by the Company for 2024.

NOTE D FAIR VALUE DISCLOSURES

GAAP provides a framework for measuring fair value using a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value based upon whether the inputs to those valuation techniques are observable or unobservable. This hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical financial instruments and the lowest priority to unobservable inputs. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs. The financial instrument's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. These inputs are summarized in the three broad levels listed below:

Level 1 - Unadjusted quoted prices for identical financial instruments in active markets that the Plan has the ability to access.

Level 2 - Other significant observable inputs (including quoted prices in active or inactive markets for similar financial instruments), or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the financial instruments.

Level 3 - Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the financial instruments. The fair value of Level 3 financial instruments is determined using pricing models or similar techniques, which require significant management judgment or estimation. The fair value of Company common stock is determined on a recurring basis using valuation techniques that meet the definition of Level 3 under the fair value hierarchy.

GATE ENERGY, INC. EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023

NOTE D FAIR VALUE DISCLOSURES (CONTINUED)

Following is a description of the valuation technique used for investments measured at fair value. There have been no changes in the technique used during 2024 or 2023.

The fair value of the Company common stock is based on an annual independent appraisal. This appraisal is based on a combination of the market, income, and asset-based valuation approaches. The appraiser took into account historical and projected cash flows and net earnings, weighted average cost of capital, market comparables, and applicable discounts and premiums.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation technique is appropriate and consistent with other market participants, the use of different techniques or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

There were no significant transfers in and/or out of the fair value categories during 2024 or 2023.

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 investment for the years ended December 31, 2023 and December 31, 2024:

Balance, as of December 31, 2022	\$ -
Purchase of Company common stock	54,128,889
Net unrealized depreciation of Company common stock	<u>(45,906,526)</u>
Balance, as of December 31, 2023	8,222,363
Net unrealized appreciation of Company common stock	<u>25,395,651</u>
Balance, as of December 31, 2024	<u>\$ 33,618,014</u>

NOTE E NOTE PAYABLE

Note payable consists of the following at December 31, 2024 and 2023:

	<u>2024</u>	<u>2023</u>
Note payable to Company, original borrowing of \$49,410,574 - Annual principal and interest installments of \$1,962,659 beginning December 31, 2023; interest accrues at 3.72% per annum, final payment due December 31, 2092; secured by 9,229,351 and 9,365,077 shares of common stock of the Company held by the ESOP at December 31, 2024 and 2023, respectively.	<u>\$ 48,357,625</u>	<u>\$ 48,515,509</u>

NOTE F PARTY-IN-INTEREST

The Plan invests in employer common stock offered by the Company and has a debt obligation to the Company. The investment and the debt obligation are considered party-in-interest transactions because the Company is the Plan sponsor and serves as administrator of the Plan. The Plan Trustee has approved of the investment and the debt obligation.
