Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

The Warrell Corporation Defined Benefit Plan
Actuarial Valuation as of December 31, 2023
Summary of Plan Provisions

The Warrell Corporation Defined Benefit Plan is a defined benefit pension plan that was established December 31, 1972, and was last amended and restated effective as of December 31, 2011. The plan year begins December 31 and ends December 30.

Eligibility To Participate

Participation under this Plan was frozen effective December 31, 2005, with respect to employees scheduled to participate on or after that date.

An employee became a participant in the Plan on the December 31 or June 30 after the date he met the following requirements:

- Completed 6 months of employment.
- Attained age 21.
- Completed the mandatory employee contribution consent form.

Provided he was a member of the following eligible class of employees:

- Not an independent contract employee.
- Not an independent contractor.

Normal Retirement Benefit

Normal Retirement Date

A participant is eligible for his normal retirement pension as of the first day of the month on or after the participant satisfies the following condition:

- Attainment of age 65.

Normal Retirement Benefit

The normal retirement pension is payable monthly as long as the participant lives, with payments continuing to the beneficiary for the remainder of the guaranteed period if the participant dies before at least 120 monthly payments have been made.

Normal Retirement Pension Formula

Benefit accruals under this Plan were frozen effective May 31, 2009.

If the participant retires as of his normal retirement date, his monthly pension will equal 1/12 of 2% of average annual compensation (as of May 31, 2009) multiplied by years of benefit service (as of May 31, 2009) up to a maximum of 30 years of benefit service.

Average Annual Compensation

"Average annual compensation" means the participant's annual compensation averaged over all of the participant's years of benefit service.

Actuarial Valuation as of December 31, 2023
Summary of Plan Provisions

Compensation

For the purposes of the Plan, "compensation" means the participant's earnings for the plan year. The Plan takes into account W-2 wages for federal income tax withholding purposes including 401(k) and similar contributions, but subject to the Code section 401(a)(17) dollar limitation. Compensation excludes wages payable after employment termination under a severance agreement and wages earned after May 31, 2009.

Accrued Benefit

The accrued benefit on any date other than the normal retirement date is determined according to the normal retirement pension formula multiplied by the ratio of years of benefit service to date (maximum of 30 years) to the projected years of benefit service at normal retirement (maximum of 30 years).

Benefit accruals were frozen as of May 31, 2009.

Retirement Payment Options

A participant may elect to receive his monthly pension in one of these optional forms of payment:

- **Lifetime Pension**
- **Lifetime Pension with Guaranteed Period** with guaranteed payments for 60 or 120 months.
- **Joint and Survivor Pension** with 100%, 75% or 50% survivor pension.
- **Installment payments** payable monthly, quarterly, semiannually, or annually.
- **Lump Sum Payment** – If the present value of the vested pension does not exceed \$5,000, this is the only payment option. This payment option is not available if the Plan does not meet certain Internal Revenue Code funding requirements.

If the participant is married at the time payments are to begin, the automatic form of payment will be a Joint and 50% Survivor Pension with the spouse named as survivor annuitant. If the participant is not married at the time payments are to begin, the automatic form of payment will be a Lifetime Pension with 120-Month Guaranteed Period.

Employment after Retirement. If a participant in pay status returns to employment, retirement benefits will be suspended for each calendar month during which the employee completes at least 40 hours of service.

Late Retirement

If a participant continues working after his normal retirement date, his pension will not commence until he actually retires. The late retirement benefit is the greater of:

- The retirement benefit accrued as of the end of the preceding plan year, as actuarially increased; or
- The normal retirement benefit determined under the pension formula using compensation and benefit service as of May 31, 2009.

Actuarial Valuation as of December 31, 2023
Summary of Plan Provisions

Early Retirement

A participant is eligible for early retirement after attainment of age 60 and completion of 20 years of vesting service. The early retirement pension is the actuarial equivalent of the pension accrued to the date of early retirement.

Effective December 31, 2002, a participant is eligible for early retirement after he has attained age 55, completed 25 years of vesting service, and the attained age plus years of vesting service equal at least 90. The early retirement pension is the pension accrued to the date of early retirement.

Disability Benefit

The participant is entitled to receive a disability benefit if he meets all of the following requirements as of the date he becomes disabled:

- Is actively employed
- Becomes disabled

A participant is disabled if he is eligible for Social Security disability benefits. The benefit will be payable in the form of a Lifetime Pension until the earliest of: recovery, death, or normal retirement date. The participant's monthly disability benefit will be equal to the early retirement actuarial equivalent of his accrued pension to the date of disability.

Death Benefit

Preretirement Survivor Benefit

If a participant dies after he has become vested under the Plan but before he begins to receive a retirement pension benefit, his surviving spouse will receive a 50% survivor benefit. Payment will begin on the date on which he first would have been eligible for retirement. The amount of his surviving spouse's benefit is equal to the 50% survivor benefit payable under the joint and 50% survivor pension option, based upon his vested accrued pension at the date of death and reduced for early commencement of benefits, if applicable. If the participant is not married at the time of death, this survivor death benefit will not be paid by the Plan. The participant may designate a beneficiary to receive his accumulated employee contributions.

If the participant's surviving spouse or other beneficiary dies before the Plan has distributed payments equal to the participant's accumulated employee contributions, the excess over the payments made will be paid to such beneficiary's beneficiary (or estate, if no beneficiary is named).

The surviving spouse or other beneficiary may elect to receive the death benefit as an immediate lump sum payment.

Postretirement Death Benefit

If the participant dies on or after his normal retirement date but before his annuity starting date, his surviving spouse will receive a 100% survivor benefit equal to the survivor benefit payable under the joint and 100% survivor pension option. If the participant is unmarried (or if his spouse elects to receive this instead), the beneficiary will receive monthly payments for 180 months as if the participant had elected a lifetime pension with 180-month guaranteed period.

Actuarial Valuation as of December 31, 2023
Summary of Plan Provisions

Termination Of Employment Benefits

Vesting in Accrued Pension

If employment terminates other than by retirement or disability, the amount payable from the Plan is based upon the following vesting schedule:

Years of Vesting Service	Vesting Percentage
0–2 Years	0%
3	20%
4	40%
5	60%
6	80%
7 or More Years	100%

Time of Payment

The participant may elect payment after his early retirement date, reduced to reflect the early commencement of benefits.

After termination of employment, a participant may elect to receive his vested accrued pension as soon as administratively possible after the date of severance. The forms of payment available before the participant meets the requirements for early retirement are: Lump Sum Payment, Lifetime Pension with 120-Month Guaranteed Period, and Joint and 75% or 50% Survivor Pension.

Forfeitures and Restoration

If a participant terminates employment before being vested, forfeiture occurs upon the earlier of the distribution of the vested accrued pension or the completion of one break in service in accordance with the vesting service rules.

The cashout restoration rule applies if a participant terminates employment and receives a full distribution of the vested portion of his accrued pension. However, before repayment, the Plan will not count service credited prior to the participant's termination when determining his new accrued benefit. If a participant terminates employment after he is 100% vested and receives a distribution of his accrued pension, he cannot return his distribution to the Plan.

Employee Contributions

Mandatory Employee Contributions

Effective for plan years beginning after December 31, 2008, mandatory employee contributions are no longer required under the Plan. Prior to January 1, 2009, as a condition of participation in this plan, each active participant was required to contribute 2% of compensation each year until the earlier of the date he ceases to be an employee or attains his normal retirement date.

Employee contributions are credited with interest equal to 120% of the federal mid-term rate. A participant's benefit can never be less than his accumulated employee contributions.

The participant may withdraw his accumulated employee contributions after he terminates employment.

The Warrell Corporation Defined Benefit Plan
Actuarial Valuation as of December 31, 2023
Summary of Plan Provisions

Service Rules

Eligibility Service Rules

Eligibility service is determined using the elapsed time method.

Vesting Service Rules

An employee is credited with a year of vesting service when he completes at least 1,000 hours of service in a plan year. For the purpose of determining years of vesting service, the Plan excludes the following service:

- Years of service before April 1, 1965, for employees of Pennsylvania Dutch Co., Inc. or years of service before July 23, 1974, for employees of Katherine Beecher Candies.
- Years of service during which the participant did not make the mandatory employee contribution.

Benefit Service Rules

A participant is credited with a year of benefit service for each benefit period he completes at least 1,000 hours of service. The benefit period is the 12-month period coinciding with the plan year.

For the purpose of determining years of benefit service, the Plan excludes the following service:

- Hours of service when the employee is not a member of the eligible class of employees.
- Years of service before April 1, 1965, for employees of Pennsylvania Dutch Co., Inc. or years of service before July 23, 1974, for employees of Katherine Beecher Candies.
- Hours of service before participation in the Plan.
- Years of service during which the participant did not make the mandatory employee contribution.
- Hours of service after May 31, 2009.

Actuarial Equivalence

Actuarial equivalence is determined based on the following mortality and interest rate assumptions:

Mortality table:	Preretirement	–	UP1984
	Postretirement	–	UP1984
Interest rate:	Preretirement	–	8%
	Postretirement	–	5%

For the purpose of determining the amount of a lump sum or installment payment, the actuarial equivalence determination will include the use of the Code section 417 mortality table and the Code section 417 interest rates, if such use produces a greater benefit.

Early Retirement – The benefit is reduced by 1/180th for each month that benefit commencement precedes Normal Retirement Age.

The lump sum payment option will be equal to the greater of the present value of the early retirement benefit or the present value of the normal retirement benefit, in each instance subject to the Code section 417 mortality table and the Code section 417 interest rates requirements.

The Warrell Corporation Defined Benefit Plan
Actuarial Valuation as of December 31, 2023
Summary of Plan Provisions

Disability Benefit – The benefit is reduced $1/180^{\text{th}}$ for each of the first 60 months and $1/360^{\text{th}}$ for each of the next 60 months by which the date of disability commencement precedes Normal Retirement Date and shall be actuarially reduced for each additional month based on the following mortality and interest assumptions:

Mortality Table:	UP1984
Interest Rate:	8%

Code Section 417 Mortality Table

The Code section 417 mortality table is the Applicable Mortality Table released annually by the Internal Revenue Service.

Code Section 417 Interest Rates

The Code section 417 interest rates are the Transitional Segment Rates for the month before the month containing the annuity starting date.
