Independent Auditors' Report

Participants and Administrator Hubbell Incorporated Pension Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Hubbell Incorporated Pension Plan (the "Plan") an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023 and for the years then ended, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

Participants and Administrator
Hubbell Incorporated Pension Plan

Page 3

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Hubbell Incorporated Pension Plan

Notes to Financial Statements
December 31, 2024 and 2023

1. Description of the Plan

The following description of the Hubbell Incorporated Pension Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of Plan provisions.

General

The Plan is a defined benefit (non-contributory) pension plan which covers each employee of Hubbell Incorporated (the “Company”) whose benefits are subject to collective bargaining, provided the employee is a member of a group to which the Plan has been extended by resolution of the Company’s Board of Directors. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

The assets of the Plan are held in the Hubbell Incorporated Master Pension Trust (the “Master Trust”) which contains the assets of two pension plans of the Company. The Northern Trust Company (the “Trustee”) serves as trustee for the Plan and as custodian of the investments.

Administration

A Retirement Committee appointed by the Company and who serve without compensation is responsible for the general administration of the Plan and makes the final determination on all questions arising in connection with the interpretation, application, and administration of the Plan.

Funding Policy

All contributions to provide benefits under the Plan are made by the Company. The amount of the annual contribution is determined by the Company based on a computation made by an independent actuary. The Company’s contributions have equaled or exceeded the minimum funding requirement of ERISA for the years ended December 31, 2024 and 2023.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Retirement Benefits

Monthly normal retirement benefits, which are payable at age 65, are determined by multiplying a participant’s years of credited service by the applicable monthly benefit rate, dependent on the location. The Plan has been frozen to new participants effective at various dates per individual union negotiations. In addition, for the majority of union divisions, benefit and credited service accruals were frozen at various dates per individual union negotiations.

1. Description of the Plan *(continued)*

Retirement Benefits (continued)

The Plan also provides for the payment of lesser benefits if an employee elects early retirement after attaining a stated age and number of years of benefit service. In addition, certain optional forms of benefit payments are available.

Death and Disability Benefits

If an active married employee dies after being vested, a pre-retirement survivor annuity would be paid to the employee's surviving spouse. Active employees who become totally disabled receive annual disability benefits that are computed the same as normal retirement, with benefits based on either service accrued as of the date of disability, or projected to age 65, depending on the group of which the participant is a member, provided they have the required years of credited service. Disability payments are paid until normal retirement age, at which time disabled participants begin receiving normal retirement benefits computed as though they had been employed to normal retirement age with their annual compensation remaining the same as at the time they became disabled.

Investment and Other Expenses

Investment, actuarial, professional, Pension Benefit Guaranty Corporation fees and other allowable Plan expenses are paid out of the Master Trust. Other unallowable expenses are paid by the Plan sponsor. Direct expenses are directly allocated to the Plan. Indirect expenses have been allocated to the participating plans on a percentage basis. The allocation is based on the preceding quarterly market value of the Plan's assets, net of actual contributions and benefit payments relating to the Plan for the subsequent quarter.

2. Summary of Significant Accounting Policies

Basis of Accounting and Use of Estimates

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"), which requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

2. Summary of Significant Accounting Policies (*continued*)

Fair Value Measurements

The Plan follows U.S. GAAP guidance on *Fair Value Measurements* which defines fair value and establishes a fair value hierarchy organized into three levels based upon the input assumptions used in pricing assets. Level 1 inputs have the highest reliability and are related to assets with unadjusted quoted prices in active markets. Level 2 inputs relate to assets with other than quoted prices in active markets which may include quoted prices for similar assets or liabilities or other inputs which can be corroborated by observable market data. Level 3 inputs are unobservable and are used to the extent that observable inputs do not exist.

Pursuant to U.S. GAAP guidance, alternative investments where fair value is measured using the Net Asset Value (“NAV”) per share as a practical expedient is not categorized within the fair value hierarchy.

Investment Valuation and Income Recognition

The Plan’s interest in the Master Trust investments are stated at fair value.

The Plan administrator determines the fair value measurement policies and procedures, subject to oversight by the Company’s employee benefit committee. Those policies and procedures are reassessed at least annually to determine if the current valuation techniques are still appropriate. At that time, the unobservable inputs used in the fair value measurements are evaluated and adjusted, as necessary, based on current market conditions and other third-party information.

The income (reported on the accrual basis) and asset appreciation (depreciation) of the Master Trust have been allocated to the participating plans on a percentage basis. The allocation is based on the preceding quarterly market value of the Plan’s assets, net of actual contributions and benefit payments relating to the Plan for the subsequent quarter. Refer to Note 6 for additional information about the Master Trust.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Participants whose retirement benefit has an Actuarial Equivalent Value of less than \$5,000 will have their balance paid out in a lump sum installment or automatically rolled over into an individual retirement account.

Effective July 1, 2022, the Plan was amended to allow for certain participants (as defined in the Plan documents) to elect to be paid out in a lump sum installment or in an immediate annuity option.

2. Summary of Significant Accounting Policies (*continued*)

Recent Accounting Pronouncements

The Plan's management continuously monitors and reviews all current accounting pronouncements and standards from the Financial Accounting Standards Board ("FASB") and other authoritative sources of U.S. GAAP for applicability to the Plan's operations. As of December 31, 2024, there were no new pronouncements, interpretations or staff positions that had or were expected to have, including those not yet adopted, a significant impact on the financial statements of the Plan.

Subsequent Events Evaluation by Management

Management has evaluated subsequent events for disclosure and/or recognition in the financial statements through the date that the financial statements were available to be issued, which date is September 29, 2025.

3. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Accumulated plan benefits for active employees are based on their years of service and monthly benefit rate on the date the benefit information is presented ("valuation date"). Benefits payable under all circumstances – retirement, disability, death and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

3. Actuarial Present Value of Accumulated Plan Benefits *(continued)*

The significant actuarial assumptions used in the December 31, 2024 and 2023 valuations were (a) life expectancy of participants (2024: Sex distinct Pri-2012 mortality tables (adjusted by a 113.3% multiplier) for annuitants, non-annuitants, and contingent survivors with blue color adjustment and no amounts adjustments, with generational projection from 2012 using Scale MP-2021; and 2023: Sex distinct Pri-2012 mortality tables for annuitants, non-annuitants, and contingent survivors with blue collar adjustment and no amounts adjustments, with generational projection from 2012 using Scale MP-2021), (b) retirement age assumptions (2024: 4% between ages 55 and 61, 9% between ages 62 and 64, 20% at age 65, 30% between ages 66 and 69, and 100% at age 70; and 2023: for certain divisions, age 62 if age plus years of service equals 90 or more, for others 3% of employees will retire between ages of 55 and 59, 4% between ages 60 and 61, 9% at age 62, 12% between ages of 63 and 64, 18% at age 65, 18% at age 66, 30% between ages of 67 and 69, and 100% at age 70), and (c) discount rate of 5.60% for 2024 and 5.20% for 2023.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2025 and 2024. Had the valuation been performed as of December 31, 2024 and 2023, there would be no material differences. The actuarial present value of accumulated plan benefits, as presented below, is as of December 31:

	2024	2023

Participants currently receiving payments	\$ 74,162,166	\$ 80,345,753

4. Certified Investments

Certain information related to investments disclosed in the accompanying financial statements, including investments held at December 31, 2024 and 2023, and the change in Plan interest in the Hubbell Incorporated Master Pension Trust for the years ended December 31, 2024 and 2023, was obtained by management and agreed to or derived from information certified as complete and accurate by the Trustee.

5. Plan Termination Priorities

In the event of discontinuance of the Plan, the assets then remaining shall be allocated as prescribed by ERISA and its related regulations, to the extent they will be sufficient after making provision for all administrative expenses, in the following order of preference:

- A. To provide for the payment of pensions to participants in the following two subcategories:
 1. Retired pensioners who were receiving benefits three years prior to termination.
 2. Participants who would have been receiving benefits three years prior to termination had they been retired.
- B. To provide for the payment required by the termination insurance provisions of ERISA.

Hubbell Incorporated Pension Plan

Notes to Financial Statements
December 31, 2024 and 2023

5. Plan Termination Priorities *(continued)*

- C. To provide for the payment of pensions to vested participants, whose vested pensions have not commenced.
- D. To provide for the payment of pensions to the remaining participants.

To the extent unfunded vested benefits exist, ERISA provides that such benefits are payable by the Pension Benefit Guaranty Corporation to participants up to specified limitations.

6. Interest in Hubbell Incorporated Master Pension Trust

The Plan's investments are in the Master Trust, which was established for the investment of assets of the Plan and one other Hubbell Incorporated sponsored retirement plan. Each participating retirement plan has an undivided interest in the Master Trust. The assets of the Master Trust are held by the Trustee.

The value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. At December 31, 2024 and 2023, the Plan's interest in the net assets of the Master Trust was approximately 30.4% and 29.6%, respectively. Investment income and administrative expenses (except for expenses directly related to a specific plan) relating to the Master Trust are allocated to the individual plans based upon average monthly balances invested by each Plan.

The following table presents the assets, including investments, of the Master Trust as of December 31, 2024:

7. Risks and Uncertainties

The Master Trust invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Hubbell Incorporated Pension Plan

Notes to Financial Statements

8. Income Tax Status

The Plan obtained its latest determination letter on January 31, 2018, in which the Internal Revenue Service (the "IRS") states that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (the "IRC"). The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan and the related trust are currently designed and being operated in compliance with the applicable requirements of the IRC.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine examinations by taxing jurisdictions; however, there are currently no examinations for any tax periods in progress.

9. Amendments

Effective January 1, 2025, all benefits and benefit service for the Killark division will be frozen. No Killark division participants shall accrue additional benefit service after December 31, 2024.

Effective January 1, 2026, all benefits and benefit service for the PCORE Electric division will be frozen. No PCORE Electric division participants shall accrue additional benefits service after December 31, 2025.

10. Party In Interest Transactions

Fees paid by the Plan to the Trustee of the Plan, for services provided were approximately \$251,700 and \$245,100 in 2024 and 2023, respectively.

Early, Continued

- Anderson Leeds Molders, Pattern Makers, and Clanton Molders
The reduction is 6.0% per year, or, for employees with 30 years of service and whose age plus service equals 90 or more, an unreduced benefit based on 30 years of service.
In no event will the reduction be greater than actuarial equivalent.

Late Computed as in "Normal" above, but based on service to actual retirement date for all Divisions.

Disability Computed as in "Normal" above, based on projected service to normal retirement date for Christiansburg, Ohio Brass Aiken, Ontario, and Spaulding Lighting Divisions, and accrued service for all other Divisions. Benefits are payable at age 65 for Prescolite-Moldcast El Dorado IAM and IBEW, and Prescolite-Moldcast San Leandro IBEW Divisions. Benefits are payable immediately for all other locations.

Pre 65 benefits are doubled for disabled employees for Anderson Leeds Molders, Pattern Makers, and Clanton Molders for any month in which they are ineligible for Social Security disability benefits. Centralia employees receive \$100 per month, payable until age 65. At which time a normal retirement benefit based on service to date of disability will be payable. Parkersburg employees, disabled post October 6, 1988, receive the greater of \$100 or the monthly normal retirement benefit computed under "Normal" above, based on service at the date of disability.

Death Benefits

Pre-Retirement In the event of death of a vested employee prior to retirement, his surviving spouse will be entitled to 50% of the benefit payable to the participant if he had terminated employment on the day before death if active, retired at the earliest possible date under a 50% Joint and Survivor Option, and then died on the following day.

In addition, spouses of Progress Production and Maintenance participants who die after attaining age 45 are eligible to receive his or her benefit immediately.

In addition, for participants of Spaulding Lighting, a lump sum death benefit in the amount of \$52.50 for each full year of Credited Service is payable to the deceased member's beneficiary if there is no spouse eligible to receive benefits.

Post-Retirement

Unless a married participant elects otherwise, the normal form of benefit is a joint and 50% survivor annuity, actuarially reduced. Other benefits are based on elected options at retirement.

In addition, the following lump sum benefits are payable upon the death of a retiree whose benefits commenced immediately after termination of employment.

Division	Lump Sum Benefit
Bell	\$5,000
Christiansburg	\$1,000
Industrial Controls	\$4,000
Martin	\$2,000
Progress Production & Maintenance	\$6,000 (effective 10/01/1991)
Raco	\$50.00 for each full year of credited service, up to \$1,000

In addition, for participants of Spaulding Lighting receiving a single life annuity, a lump sum death benefit in the amount of \$52.50 for each full year of Credited Service is payable to the designated beneficiary.

Employee Contributions

None.

Credited Service

All service, except for the first year of service and service prior to age 21 for Killark employees hired prior to January 1, 1983. Prior to 1995, Wiegmann employees began accruing credited service on the January 1st or July 1st following one year of service and age 21.

Lump Sum Provision

A lump sum option was added for Pension plan participants who terminate on or after July 1, 2022, to elect an immediate lump sum distribution from the Plan with a commencement date of July 1, 2022 onwards. The option is generally available for 12 months after termination of employment. The lump sum amount is equal to the present value of accrued benefit payable at age 65 (Normal Retirement Date) and is based on the IRC 417(e) assumptions.

Changes in Plan Provisions from the Prior Valuation

There have been no changes in benefits valued since the prior year.

Forfeiture assumption	For terminated vested participants currently age 65 or older who cannot be located, benefits are assumed to be 100% forfeited.
Percent Married	For purposes of valuing the pre-retirement death benefit, 80% of participants are assumed to be married.
Spouse Age	Wives are assumed to be three years younger than their husbands.
Timing of Benefit	Annuity payments are payable monthly at the beginning of the month.

Methods

Valuation Date	First day of plan year.
Funding Target	Present value of accrued benefits as required by regulations under IRC §430.
Target Normal Cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year, as required by regulations under IRC §430.
Decrement timing	The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.
Actuarial Value of Assets	Average of the fair market value of assets on the valuation date and the dates 12 and 24 months before the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year.)

Benefits Not Valued

All benefits described in the Plan Provisions section of this report were valued. WTW is not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

WTW pension administration group, on behalf of Hubbell Incorporated, furnished participant data as of January 1, 2024. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale – Significant Economic Assumptions

Interest Rate

The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.

Plan-related expenses

As required by regulations, plan-related expenses are calculated by estimating the expenses to be paid from the trust during the coming year (including, for example, expected PBGC premiums and actuarial, accounting, legal, administration and trustee fees to be paid from the trust).

Assumed Return for Asset Smoothing

The assumed return is chosen by the plan sponsor under U.S. GAAP but is no more than 50 basis points above the median 20-year return based upon WTW's Expected Return Estimator model and the plan's target asset allocation and does not significantly conflict with what would be reasonable. These rates are limited to the applicable third segment rate as per IRS Notice 2009-22.

Assumptions Rationale – Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	This assumption was selected based on the results of an assumption study completed during 2019.
Disability	The disability rates are based on plan sponsor expectations for the future. Valuation results are reviewed annually with respect to gains and losses caused by disability patterns different than assumed, as well as annual consideration of whether conditions have changed that would be expected to produce different results in the future.
Retirement	This assumption was selected based on the results of an assumption study completed during 2019.

Source of Prescribed Methods

Funding Methods	The methods used for funding purposes as described herein, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in Assumptions and Methods since Prior Valuation

- The assumed plan-related expenses added to the target normal cost were changed from \$1,580,000 for 2023 to \$730,000 for 2024.
- The base mortality tables used to calculate the funding target and target normal cost were updated to the Pri-2012 tables, and the improvement scale was changed from using a static projection of mortality improvement to a generational projection, as required by guidance issued by IRS under IRC §430.
- The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC 430.

Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions in combination offer my best estimate of anticipated experience under the plan.
