To the Administrative Committee  
and Management  
Jones Day Pension Plan

We have audited the financial statements of Jones Day Pension Plan (the "Plan") as of and for the year ended December 31, 2024 and have issued our report thereon dated October 9, 2025. Professional standards require that we provide you with the following information related to our audit.

### **Our Responsibility Under U.S. Generally Accepted Auditing Standards**

As stated in our engagement letter dated May 27, 2025, our responsibility, as described by professional standards, is to express an opinion about whether the financial statements prepared by management with your oversight are fairly presented, in all material respects, in conformity with U.S. generally accepted accounting principles. Our audit of the financial statements does not relieve you or management of your responsibilities. Our responsibility is to plan and perform the audit to obtain reasonable, but not absolute, assurance that the financial statements are free of material misstatement. As part of our audit, we considered the internal controls of the Plan. Such considerations were solely for the purpose of determining our audit procedures and not to provide any assurance concerning such internal control.

We are responsible for communicating significant matters related to the audit that are, in our professional judgment, relevant to your responsibilities in overseeing the financial reporting process. However, we are not required to design procedures specifically to identify such matters.

### **Planned Scope and Timing of the Audit**

We performed the audit according to the planned scope and timing previously communicated to you in our meeting about planning matters on July 24, 2025.

### **Significant Audit Findings**

#### ***Qualitative Aspects of Accounting Practices***

Management is responsible for the selection and use of appropriate accounting policies. In accordance with the terms of our engagement letter, we will advise management about the appropriateness of accounting policies and their application. The significant accounting policies used by the Plan are described in Note 2 to the financial statements. No significant new accounting policies were adopted, and the application of existing policies was not changed during 2024.

We noted no transactions entered into by the Plan during the year for which there is a lack of authoritative guidance or consensus.

We noted no significant transactions that have been recognized in the financial statements in a different period than when the transaction occurred.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimates affecting the financial statements were the Plan's valuation of investments and actuarial present value of accumulated plan benefits.

Management has informed us that, in determining the appropriateness of the estimate of investment values, they have recorded the fair values based on market values provided by the investment custodian, plus any applicable valuation adjustments. We have performed tests of the estimate to satisfy ourselves as to its reasonableness in relation to the financial statements taken as a whole.

Management's estimate of actuarial present value of the accumulated plans benefits is based on certain assumptions pertaining to interest rates, inflation rates, and demographics. We evaluated the key factors and assumptions used to develop the estimate in determining that it is reasonable in relation to the financial statements taken as a whole.

The disclosures in the financial statements are neutral, consistent, and clear.

***Difficulties Encountered in Performing the Audit***

We encountered no significant difficulties in performing and completing our audit.

***Disagreements with Management***

For the purpose of this letter, professional standards define a disagreement with management as a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report.

We are pleased to report that no such disagreements arose during the course of our audit.

***Corrected and Uncorrected Misstatements***

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management.

We did not detect any misstatements as a result of audit procedures.

***Significant Findings or Issues***

We generally discuss a variety of matters, including the application of accounting principles and auditing standards and plans and strategies that may affect the risks of material misstatement, with management each year prior to our retention as the Plan's auditors. However, these discussions occurred in the normal course of our professional relationship, and our responses were not a condition of our retention.

***Management Representations***

We have requested certain representations from management that are included in the management representation letter dated October 9, 2025.

**Form 5500 - Annual Return/Report of Employee Benefit Plan**

Our responsibility for Form 5500 does not extend beyond the financial statements, and we do not express an opinion or any form of assurance on Form 5500. However, we read the Plan's Form 5500 filing, and nothing came to our attention that caused us to believe that such information, or its manner of presentation, is materially inconsistent with the information or manner of its presentation appearing in the financial statements.

**Schedule SB, Part V — Statement of Actuarial Assumptions/Methods****Rationale for Economic Assumptions**

- **Discount rate** – Prescribed by the IRS and based on the company's current elections.
- **Cash balance interest accumulation** – The plan's interest crediting rate is the yield on ten-year Treasury bonds. We have assumed that the average yield on the ten-year Treasury bonds over the typical accumulation period will be 3.00% based on Mercer's model of Treasury yields and consistent with the inflation assumption.
- **Cash balance annuity conversion** – Based on the plan's actuarial equivalence definition.
- **Salary increases** – Based on Mercer's July 15, 2020 experience study presentation to Jones Day which provided historical data used as the rationale for this assumption selection. The experience study covered the period from 2015 to 2019. Jones Day and Mercer discussed and agreed that a historical basis for setting this assumption was the best estimate of future experience.
- **Social Security taxable wage base increases** – Consists of inflation plus average real wage increases for the U.S. economy as a whole; current assumption equals the inflation assumption plus 75 basis points.
- **Inflation** – Based on the long-term expected inflation rate included in January 2024 Mercer Investment Consulting's Capital Market Outlook.
- **Expected investment return** – Based on a blend of the hypothetical past performance of the plan's target asset mix and the median simulated investment return using capital market assumptions published in Mercer Investment Consulting's Capital Markets Outlook for the plan's target asset mix. The expected return on assets assumption is net of an adjustment of 10 bps for expenses assumed to be paid from plan assets.
- **Expenses** – Based on the average of three prior year's expenses rounded to the nearest \$1,000, adjusted by known significant events.

**Rationale for Significant Demographic Assumptions**

- **Mortality** – Prescribed by the IRS.
- **Withdrawal rates** – Based on Mercer's July 15, 2020 plan experience study.
- **Retirement rates** – Based on Mercer's July 15, 2020 plan experience study.
- **Disability rates** – Based on Mercer's July 15, 2014 plan experience study.
- **Form of payment** – Based on Mercer's July 15, 2020 plan experience study.

## Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

### Actuarial Methods

#### Asset methods

The asset valuation method is an average of the adjusted market value for each year during the last two years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

#### Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

#### Minimum funding methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

**Summary of Major Plan Provisions**

Plan Name	Jones Day Pension Plan
Effective date and plan year	Restated as of April 1, 2020 Plan year: January 1 to December 31
Status of the plan	The plan has ongoing benefit accruals but new employees are not eligible to participate in the plan.
Significant events that occurred during the year	None

**Definitions**

- Covered employees

Employees who are not employed to engage in the practice of law. Law students and employees that are excluded from participation are not covered employees.
- Participation

No employee shall be able to become a participant after December 31, 2007.

Employees who work in an office outside of the United States and covered under a certificate of coverage with respect to Social Security shall be able to participate in the plan.

In order to satisfy nondiscrimination testing requirements, the plan was amended during 2021 to retroactively recognize a specified group of 29 non-highly compensated employees as plan participants for the 2020 plan year. These participants received a one-time benefit accrual and will not receive future accruals. Since the amendment was signed in October 2021, the liability associated with these participants was first recognized in the January 1, 2022 funding valuation.

In order to satisfy nondiscrimination testing requirements, the plan was amended during 2022 to retroactively recognize a specified group of 16 non-highly compensated employees as plan participants for the 2021 plan year. These participants received a one-time benefit accrual and will not receive future accruals. Since the amendment was signed in October 2022, the liability associated with these participants was first recognized in the January 1, 2023 funding valuation.
- Employee contributions

None.
- Vesting service

Elapsed time from date of hire.
- Benefit service

Elapsed time from date of participation in plan
- Compensation covered

W-2 pay including elective deferrals but excluding overtime and other miscellaneous earnings and reimbursements.

Compensation is limited each year according to the annual limit set by IRC Section 401(a) (17). For the period between January 1, 1993 and December 31, 2001, compensation is limited to \$150,000 (as adjusted annually for inflation by Section 401(a) (17)). For periods after January 1, 2002 compensation shall not exceed \$200,000 (as adjusted annually for inflation by Section 401(a) (17)).

**Schedule SB, Part V — Summary of Plan Provisions**

• Final average compensation	<p>Final average pay is the average annual limited Compensation of the highest consecutive five years in the ten years immediately preceding termination or retirement.</p> <p>If participant leaves on the last day of the calendar year, the final average pay is the average annual limited Compensation of the highest consecutive five years in the nine years immediately preceding year of termination or retirement plus the calendar year in which such termination or retirement occurs.</p>
• Annual cash balance credit	Effective January 1, 2010, the plan does not provide Annual Cash Balance Credits.
• Interest credit	As of the last day of each month, each cash balance account will be credited with interest based on the 10-Year Treasury rate in effect for that year. No interest is credited for periods after a participant’s normal retirement date, or start of pension payment – whichever is later.

**Normal retirement**

• Eligibility	Later of age 65 or completion of three years of service.
• Benefit	<p>1. accrued benefit on December 31, 1993. In addition, each new employee who becomes a participant of the plan after December 31, 1993 also has a Cash Balance Account established on their behalf. The Cash Balance Account is increased each year with Interest Credit and Pay Credit. A schedule of pay credits is shown in Exhibit I. Effective January 1, 2010, the plan does not provide Annual Cash Balance Credits.

- In no event will a participant’s retirement benefit exceed the limits set forth in Section 415, as revised by the Tax Reform Act of 1986 (effective January 1, 1987) and further revised by the Economic Growth and Tax Relief Act of 2001 (effective January 1, 2002).

**Early retirement**

- Eligibility Early retirement is permitted after age 62 and 5 years of service
- Benefit The early retirement benefit is equal to the accrued benefit commencing at normal retirement date and reduced by early retirement factors. The early retirement factors are based on the current provisions of the plan, i.e. a 6.75% compound annual interest rate and the applicable mortality table specified by the Secretary of the Treasury pursuant to section 417(e) of the Code.

The early retirement benefit is determined as the greater of (1) the accrued benefit as of December 31, 2014 reduced under the provisions in effect on that date (a 7.50% compound annual interest rate and the 1983 Individual Annuity Mortality Table adjusted to a unisex basis for a population deemed to be 100% female for participants and 100% male for beneficiaries) or (2) the total accrued benefit reduced under the current provisions (noted above)

**Deferred vested**

- Eligibility Upon termination after 3 years, a participant is fully vested in his accrued benefit
- Benefit The accrued benefit is equal to the benefit developed under the normal retirement formula based on service to date.

The accrued benefit will be payable in full at normal retirement or an actuarially reduced benefit commencing at any age after vested termination may be elected by participant.

The benefit payable is determined as the greater of (1) the accrued benefit as of December 31, 2014 reduced under the provisions in effect on that date (a 7.50% compound annual interest rate and the 1983 Individual Annuity Mortality Table adjusted to a unisex basis for a population deemed to be 100% female for participants and 100% male for beneficiaries) or (2) the total accrued benefit reduced under the current provisions (a 6.75% compound annual interest rate and the applicable mortality table specified by the Secretary of the Treasury pursuant to section 417(e) of the Code).

**Schedule SB, Part V — Summary of Plan Provisions**

<b>Disability</b>	
• Eligibility	A participating employee who is credited with at least 10 years of vesting service and whose employment is terminated due to a total and permanent disability after reaching age 40.
• Benefit	The disability retirement benefit shall be determined and payable in the same manner as the normal retirement benefit but based on the participant’s years of benefit service and Final Average Compensation as of the date of his retirement due to total and permanent disability.
<b>Pre-retirement death</b>	
• Benefit prior to early retirement	Upon the death of a vested active participant or vested terminated participant who is not yet receiving benefits, the surviving spouse or “domestic partner” will receive benefits equal to amount that would have been payable had the participant terminated employment (if not already terminated) during the month before his death, had elected a 50% joint and survivor option, and had elected to have benefits commence on the last day of the month following the month in which he died.
<b>Form of benefits</b>	
• Automatic form for unmarried participants	A monthly life annuity
• Automatic form for married participants	Joint and 50% Survivor annuity
• Optional forms	<ul style="list-style-type: none"> <li>• Single life annuity</li> <li>• Certain and continuous (5 or 10 year)</li> <li>• Joint and survivor (50%, 66 2/3%, 75%, or 100%)</li> <li>• Lump Sum (mandatory for lump sums less than \$1,000. Lump sum amount greater than \$1,000 and less than \$7,500 may be elected unless participant goes into government service, in which case full lump sum amount can be elected)</li> <li>• 3% Annual increase (a reduced single life annuity payable monthly for employee’s life which shall increase 3% each January after participant has been receiving benefits for at least 12 calendar months)</li> </ul>
<b>Actuarial Equivalence</b>	
• Actuarial Equivalence for Alternative Forms of Payment	<p>Amount of an alternative form of benefit (other than a lump sum cash out) which has a value equivalent to the benefit or benefits otherwise payable under the plan, computed on the basis of a 6.75% compound annual interest rate and the applicable mortality table specified by the Secretary of the Treasury pursuant to section 417(e) of the Code (current provisions of the plan).</p> <p>The amount shall be determined as the greater of (1) the actuarial equivalent of the accrued benefit as of December 31, 2014 computed under the provisions in effect on that date (a 7.50% compound annual interest rate and the 1983 Individual Annuity Mortality Table adjusted to a unisex basis for a population deemed to be 100% female for participants and 100% male</p>

**Schedule SB, Part V — Summary of Plan Provisions**

	for beneficiaries) or (2) the actuarial equivalent of the total accrued benefit computed under the current provisions.
• Actuarial Equivalence for Lump Sums	The lump sum value of the greater of (a) the Cash Balance annuity and (b) the accrued benefit, calculated using the mortality table and interest rate mandated by IRS under PPA and 417(e)(3) for the third calendar month preceding the calendar quarter in which the distribution is made.
<b>Miscellaneous</b>	
• Funding Medium	Master Trust administered by Northern Trust
• Maximum compensation	Compensation for any 12-month period used to determine accrued benefits may not exceed the limits in IRC Section 401(a)(17) for the calendar year in which the 12-month period begins. This limit is indexed annually. For 2024, the limit is \$345,000.
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2024, the limit is \$275,000.

**Benefits included or excluded**

- Unless noted below, all benefits provided by the plan, as restated and amended effective April 1, 2020 reflecting amendments through August 4, 2023 are included in this valuation:
  - Most recent plan amendments included: All amendments are included.
  - Plan amendments excluded: None
  - **Late retirement increases:**
    - *Active participants:* The plan provides benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases only apply to participants who defer retirement beyond age 70½. This valuation includes increases for current participants over age 70.
    - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
  - **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Sections 415(b) and 401(a)(17) have been incorporated into our calculations.
  - **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

**Additional benefits included or excluded**

- **IRC Section 436 benefit restrictions:**
  - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits for events that occurred before the valuation date but includes contingent event

**Schedule SB, Part V — Summary of Plan Provisions**

benefits for events that are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.

- *Plan amendments:* See above.
- *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
- *Benefit accruals:* The plan’s funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

**Plan provision changes since prior valuation**

Maximum compensation amounts and maximum benefit amounts under IRS rules were updated from 2022 to 2023.

## *Schedule SB, Part V — Statement of Actuarial Assumptions/Methods*

### **Rationale for Economic Assumptions**

- **Discount rate** – Prescribed by the IRS and based on the company's current elections.
- **Cash balance interest accumulation** – The plan's interest crediting rate is the yield on ten-year Treasury bonds. We have assumed that the average yield on the ten-year Treasury bonds over the typical accumulation period will be 3.00% based on Mercer's model of Treasury yields and consistent with the inflation assumption.
- **Cash balance annuity conversion** – Based on the plan's actuarial equivalence definition.
- **Salary increases** – Based on Mercer's July 15, 2020 experience study presentation to Jones Day which provided historical data used as the rationale for this assumption selection. The experience study covered the period from 2015 to 2019. Jones Day and Mercer discussed and agreed that a historical basis for setting this assumption was the best estimate of future experience.
- **Social Security taxable wage base increases** – Consists of inflation plus average real wage increases for the U.S. economy as a whole; current assumption equals the inflation assumption plus 75 basis points.
- **Inflation** – Based on the long-term expected inflation rate included in January 2024 Mercer Investment Consulting's Capital Market Outlook.
- **Expected investment return** – Based on a blend of the hypothetical past performance of the plan's target asset mix and the median simulated investment return using capital market assumptions published in Mercer Investment Consulting's Capital Markets Outlook for the plan's target asset mix. The expected return on assets assumption is net of an adjustment of 10 bps for expenses assumed to be paid from plan assets.
- **Expenses** – Based on the average of three prior year's expenses rounded to the nearest \$1,000, adjusted by known significant events.

### **Rationale for Significant Demographic Assumptions**

- **Mortality** – Prescribed by the IRS.
- **Withdrawal rates** – Based on Mercer's July 15, 2020 plan experience study.
- **Retirement rates** – Based on Mercer's July 15, 2020 plan experience study.
- **Disability rates** – Based on Mercer's July 15, 2014 plan experience study.
- **Form of payment** – Based on Mercer's July 15, 2020 plan experience study.

## Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

### Actuarial Methods

#### Asset methods

The asset valuation method is an average of the adjusted market value for each year during the last two years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

#### Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

#### Minimum funding methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Status of the plan	The plan has ongoing benefit accruals but new employees are not eligible to participate in the plan.
Significant events that occurred during the year	None

**Definitions**

- Covered employees Employees who are not employed to engage in the practice of law. Law students and employees that are excluded from participation are not covered employees.
- Participation No employee shall be able to become a participant after December 31, 2007.  
 Employees who work in an office outside of the United States and covered under a certificate of coverage with respect to Social Security shall be able to participate in the plan.  
 In order to satisfy nondiscrimination testing requirements, the plan was amended during 2021 to retroactively recognize a specified group of 29 non-highly compensated employees as plan participants for the 2020 plan year. These participants received a one-time benefit accrual and will not receive future accruals. Since the amendment was signed in October 2021, the liability associated with these participants was first recognized in the January 1, 2022 funding valuation.  
  
 In order to satisfy nondiscrimination testing requirements, the plan was amended during 2022 to retroactively recognize a specified group of 16 non-highly compensated employees as plan participants for the 2021 plan year. These participants received a one-time benefit accrual and will not receive future accruals. Since the amendment was signed in October 2022, the liability associated with these participants was first recognized in the January 1, 2023 funding valuation.
- Employee contributions None.
- Vesting service Elapsed time from date of hire.
- Benefit service Elapsed time from date of participation in plan
- Compensation covered W-2 pay including elective deferrals but excluding overtime and other miscellaneous earnings and reimbursements.  
 Compensation is limited each year according to the annual limit set by IRC Section 401(a) (17). For the period between January 1, 1993 and December 31, 2001, compensation is limited to \$150,000 (as adjusted annually for inflation by Section 401(a) (17)). For periods after January 1, 2002 compensation shall not exceed \$200,000 (as adjusted annually for inflation by Section 401(a) (17)).

<ul style="list-style-type: none"> <li>Final average compensation</li> </ul>	<p>Final average pay is the average annual limited Compensation of the highest consecutive five years in the ten years immediately preceding termination or retirement.</p> <p>If participant leaves on the last day of the calendar year, the final average pay is the average annual limited Compensation of the highest consecutive five years in the nine years immediately preceding year of termination or retirement plus the calendar year in which such termination or retirement occurs.</p>
<ul style="list-style-type: none"> <li>Annual cash balance credit</li> </ul>	<p>Effective January 1, 2010, the plan does not provide Annual Cash Balance Credits.</p>
<ul style="list-style-type: none"> <li>Interest credit</li> </ul>	<p>As of the last day of each month, each cash balance account will be credited with interest based on the 10-Year Treasury rate in effect for that year. No interest is credited for periods after a participant’s normal retirement date, or start of pension payment – whichever is later.</p>

**Normal retirement**

<ul style="list-style-type: none"> <li>Eligibility</li> </ul>	<p>Later of age 65 or completion of three years of service.</p>
<ul style="list-style-type: none"> <li>Benefit</li> </ul>	<p>1. The monthly accrued benefit is also subject to the following minimum benefits:

- 1980 minimum benefit** – If an employee was a participant in the pension plan on December 31, 1979, the Normal Retirement Benefit will not be less than the amount as calculated under the terms of the plan in effect as of December 31, 1979.
- 1985 minimum benefit** – If an employee was a participant in the pension plan between January 1, 1985 and December 31, 1993, the Normal Retirement Benefit will not be less than 1/12 of 1.5% of compensation for each of the calendar years during which an employee was a plan participant from January 1, 1985 through December 31, 1993.
- 1994 Cash Balance Minimum** – On January 1, 1994, the minimum benefit was revised in order to increase benefits for short-service employees by increasing benefit accruals during the first several years of employment. In order to do this, the plan was amended to establish a Cash Balance Account on behalf of each employee who was a participant of the plan on December 31, 1993 with five or less plan years of participation. The Cash Balance Account of each eligible participant was credited with a start-up balance as of January 1, 1994 equal to the actuarial equivalent of their

accrued benefit on December 31, 1993. In addition, each new employee who becomes a participant of the plan after December 31, 1993 also has a Cash Balance Account established on their behalf. The Cash Balance Account is increased each year with Interest Credit and Pay Credit. A schedule of pay credits is shown in Exhibit I. Effective January 1, 2010, the plan does not provide Annual Cash Balance Credits.

- In no event will a participant’s retirement benefit exceed the limits set forth in Section 415, as revised by the Tax Reform Act of 1986 (effective January 1, 1987) and further revised by the Economic Growth and Tax Relief Act of 2001 (effective January 1, 2002).

**Early retirement**

- Eligibility Early retirement is permitted after age 62 and 5 years of service
- Benefit The early retirement benefit is equal to the accrued benefit commencing at normal retirement date and reduced by early retirement factors. The early retirement factors are based on the current provisions of the plan, i.e. a 6.75% compound annual interest rate and the applicable mortality table specified by the Secretary of the Treasury pursuant to section 417(e) of the Code.

The early retirement benefit is determined as the greater of (1) the accrued benefit as of December 31, 2014 reduced under the provisions in effect on that date (a 7.50% compound annual interest rate and the 1983 Individual Annuity Mortality Table adjusted to a unisex basis for a population deemed to be 100% female for participants and 100% male for beneficiaries) or (2) the total accrued benefit reduced under the current provisions (noted above)

**Deferred vested**

- Eligibility Upon termination after 3 years, a participant is fully vested in his accrued benefit
- Benefit The accrued benefit is equal to the benefit developed under the normal retirement formula based on service to date.

The accrued benefit will be payable in full at normal retirement or an actuarially reduced benefit commencing at any age after vested termination may be elected by participant.

The benefit payable is determined as the greater of (1) the accrued benefit as of December 31, 2014 reduced under the provisions in effect on that date (a 7.50% compound annual interest rate and the 1983 Individual Annuity Mortality Table adjusted to a unisex basis for a population deemed to be 100% female for participants and 100% male for beneficiaries) or (2) the total accrued benefit reduced under the current provisions (a 6.75% compound annual interest rate and the applicable mortality table specified by the Secretary of the Treasury pursuant to section 417(e) of the Code).

**Schedule SB, Part V — Summary of Plan Provisions**

<b>Disability</b>	
• Eligibility	A participating employee who is credited with at least 10 years of vesting service and whose employment is terminated due to a total and permanent disability after reaching age 40.
• Benefit	The disability retirement benefit shall be determined and payable in the same manner as the normal retirement benefit but based on the participant’s years of benefit service and Final Average Compensation as of the date of his retirement due to total and permanent disability.
<b>Pre-retirement death</b>	
• Benefit prior to early retirement	Upon the death of a vested active participant or vested terminated participant who is not yet receiving benefits, the surviving spouse or “domestic partner” will receive benefits equal to amount that would have been payable had the participant terminated employment (if not already terminated) during the month before his death, had elected a 50% joint and survivor option, and had elected to have benefits commence on the last day of the month following the month in which he died.
<b>Form of benefits</b>	
• Automatic form for unmarried participants	A monthly life annuity
• Automatic form for married participants	Joint and 50% Survivor annuity
• Optional forms	<ul style="list-style-type: none"> <li>• Single life annuity</li> <li>• Certain and continuous (5 or 10 year)</li> <li>• Joint and survivor (50%, 66 2/3%, 75%, or 100%)</li> <li>• Lump Sum (mandatory for lump sums less than \$1,000. Lump sum amount greater than \$1,000 and less than \$7,500 may be elected unless participant goes into government service, in which case full lump sum amount can be elected)</li> <li>• 3% Annual increase (a reduced single life annuity payable monthly for employee’s life which shall increase 3% each January after participant has been receiving benefits for at least 12 calendar months)</li> </ul>
<b>Actuarial Equivalence</b>	
• Actuarial Equivalence for Alternative Forms of Payment	<p>Amount of an alternative form of benefit (other than a lump sum cash out) which has a value equivalent to the benefit or benefits otherwise payable under the plan, computed on the basis of a 6.75% compound annual interest rate and the applicable mortality table specified by the Secretary of the Treasury pursuant to section 417(e) of the Code (current provisions of the plan).</p> <p>The amount shall be determined as the greater of (1) the actuarial equivalent of the accrued benefit as of December 31, 2014 computed under the provisions in effect on that date (a 7.50% compound annual interest rate and the 1983 Individual Annuity Mortality Table adjusted to a unisex basis for a population deemed to be 100% female for participants and 100% male</p>

	for beneficiaries) or (2) the actuarial equivalent of the total accrued benefit computed under the current provisions.
• Actuarial Equivalence for Lump Sums	The lump sum value of the greater of (a) the Cash Balance annuity and (b) the accrued benefit, calculated using the mortality table and interest rate mandated by IRS under PPA and 417(e)(3) for the third calendar month preceding the calendar quarter in which the distribution is made.
<b>Miscellaneous</b>	
• Funding Medium	Master Trust administered by Northern Trust
• Maximum compensation	Compensation for any 12-month period used to determine accrued benefits may not exceed the limits in IRC Section 401(a)(17) for the calendar year in which the 12-month period begins. This limit is indexed annually. For 2024, the limit is \$345,000.
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2024, the limit is \$275,000.

**Benefits included or excluded**

- Unless noted below, all benefits provided by the plan, as restated and amended effective April 1, 2020 reflecting amendments through August 4, 2023 are included in this valuation:
  - Most recent plan amendments included: All amendments are included.
  - Plan amendments excluded: None
  - **Late retirement increases:**
    - *Active participants:* The plan provides benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases only apply to participants who defer retirement beyond age 70½. This valuation includes increases for current participants over age 70.
    - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
  - **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Sections 415(b) and 401(a)(17) have been incorporated into our calculations.
  - **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

**Additional benefits included or excluded**

- **IRC Section 436 benefit restrictions:**
  - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits for events that occurred before the valuation date but includes contingent event

**Schedule SB, Part V — Summary of Plan Provisions**

benefits for events that are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.

- *Plan amendments:* See above.
- *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
- *Benefit accruals:* The plan’s funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

**Plan provision changes since prior valuation**

Maximum compensation amounts and maximum benefit amounts under IRS rules were updated from 2022 to 2023.

## Independent Auditor's Report

To the Plan Administrator  
Jones Day Pension Plan

### **Opinion**

We have audited the financial statements of Jones Day Pension Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets available for benefits as of December 31, 2024 and 2023 and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023 and the changes in net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

### **Basis for Opinion**

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audits of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### **Emphasis of Matter**

As explained in Note 4, the financial statements include investments, including partnerships, hedge funds, and real estate funds, valued at approximately \$131,400,000 (36.2 percent of net assets) at December 31, 2024 and \$115,500,000 (34.9 percent of net assets) at December 31, 2023, whose fair values have been estimated by management in the absence of readily determinable market values. Our opinion is not modified with respect to this matter.

### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or that may become due to such participants.

To the Plan Administrator  
Jones Day Pension Plan

***Auditor's Responsibilities for the Audits of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that audits conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing audits in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

### Note 1 - Plan Description

The following description of Jones Day Pension Plan (the "Plan") provides only general information. Jones Day (the "Firm") is the plan sponsor and plan administrator. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

#### **General**

The Plan is a defined benefit plan that covers all employees who were participants in the Plan on December 31, 2007. The Plan was frozen to new entrants as of December 31, 2007. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

#### **Pension Benefits**

The individual pension benefit is generally equal to credited service, as defined by the plan agreement, multiplied by final average compensation and reduced for a Social Security benefit, subject to other minimum benefit formulas, including a cash balance component. Special provisions for retirement at other than the normal retirement age are described in the plan agreement, if applicable. Employees may elect early retirement and receive a reduced monthly retirement benefit payable immediately in accordance with the plan agreement.

Participants will not be vested until they attain three years of service, at which time the normal retirement pension will become 100 percent vested and nonforfeitable. If a participant attains the normal retirement age or dies while employed by the plan sponsor, the participant will have a 100 percent vested and nonforfeitable interest in the normal retirement pension, regardless of years of service.

During 2023, certain plan participants were eligible for a special window to receive their benefits under the Plan as a lump-sum payment. Lump-sum payments totaling approximately \$14,700,000 were paid to eligible participants pursuant to this special window.

#### **Funding**

The Firm maintains a funding standard account with annual contributions to the Plan determined on an actuarial basis but in no instance below the minimum required by Section 412 of the Internal Revenue Code. All contributions to the Plan are made by the Firm. No voluntary employee contributions are allowed. The Plan has met the ERISA minimum funding requirements for 2024 and 2023.

#### **Party-in-interest Transactions**

Certain plan assets consisted of investment funds managed by BMO Harris Bank, N.A. and The Northern Trust Company or their affiliates. The Northern Trust Company is the trustee of the Plan as of November 1, 2023, and BMO Harris Bank, N.A. was the trustee through October 31, 2023; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines. However, they are exempt from the prohibited transaction rules under ERISA.

### Note 2 - Summary of Significant Accounting Policies

#### **Investment Valuation and Income Recognition**

The fair value of the plan interest in Jones Day Defined Benefit Master Trust (the "DB Master Trust") is based on the beginning of the year value of the Plan's interest in the DB Master Trust, plus actual contributions and allocated investment income (loss), less actual distributions and allocated administrative expenses. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. The DB Master Trust's investments are stated at fair value.

See Note 4 for further discussion of fair value measurements.

December 31, 2024 and 2023

**Note 2 - Summary of Significant Accounting Policies (Continued)**

***Actuarial Present Value of Accumulated Plan Benefits***

Accumulated plan benefits are those future periodic payments that are attributable, under the Plan's provisions, to the service that employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. The present value of accumulated plan benefits is actuarially determined and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment due to death, disability, or retirement between the valuation date and the expected date of payment.

***Actuarial Assumptions***

The actuarial present value of accumulated plan benefits is determined by an actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and probability of payment between the valuation date and the expected date of payment. The determination was made as of January 1, 2024.

The significant actuarial assumptions used in the valuation of the Plan at January 1, 2024 are summarized as follows:

Actuarial cost method	Traditional unit credit
Assumed rate of return	6.75 percent per annum
Cash balance interest rate	3.00 percent
Mortality basis	Pri-2012 separate employee, annuitant, and contingent survivor healthy table(s) for male and female with no collar adjustment and projected generationally using the MMP-2021 projection scale, which is based on SSA mortality data through 2018 and graduated using the same approach used to develop historical rates that were inputs for the MP-2020 tables
Retirement rate	Various rates ranging from 10 percent at age 62 to 100 percent at age 70

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

***Benefit Payments***

Benefits are recorded when paid.

***Administrative Expenses***

Various administrative costs can be paid by the Firm. These transactions qualify as party-in-interest transactions.

***Use of Estimates***

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

***Risks and Uncertainties***

Contributions to the Plan and the accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. It is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the financial statements.

***Subsequent Events***

The financial statements and related disclosures include evaluation of events up through and including October 9, 2025, which is the date the financial statements were available to be issued.

**Note 3 - Accumulated Plan Benefits**

The actuarial present value of accumulated plan benefits is determined by an independent actuary. The calculation of the actuarial present value of accumulated plan benefits attributable to participants in the Plan, which was made as of January 1, 2024, the most recent actuarial valuation, is as follows:

Actuarial present value of accumulated plan benefits - Vested benefits:	
Participants currently receiving benefit payments	\$ 137,005,871
Other vested participants	<u>123,316,970</u>
Total actuarial present value of accumulated plan benefits	<u><u>\$ 260,322,841</u></u>

A summary of significant changes in the actuarial present value of accumulated plan benefits during the year ended January 1, 2024 is as follows:

Actuarial present value of accumulated plan benefits - January 1, 2023	\$ 263,537,887
Increase (decrease) during the year attributable to:	
Benefits accumulated	8,133,844
Interest due to the decrease in the discount period	16,760,590
Benefits paid	<u>(28,109,480)</u>
Net decrease	<u>(3,215,046)</u>
Actuarial present value of accumulated plan benefits - January 1, 2024	<u><u>\$ 260,322,841</u></u>

**Note 4 - Interest in Jones Day Defined Benefit Master Trust**

The Plan's investments are held in the DB Master Trust, which was established for the investment of assets of the Plan and one other Jones Day-sponsored benefit plan. Each participating benefit plan has a divided interest in the DB Master Trust. The assets of the DB Master Trust were held by BMO Harris Bank, N.A. until October 31, 2023 and were then transferred to The Northern Trust Company. Investment income (loss) and administrative expenses relating to the DB Master Trust are allocated to the individual plans based upon average monthly balances invested by each plan.

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

**December 31, 2024 and 2023**

**Note 4 - Interest in Jones Day Defined Benefit Master Trust (Continued)**

***Level 1***

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the DB Master Trust has the ability to access.

***Level 2***

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

***Level 3***

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset.

In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The DB Master Trust's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following valuation methodologies have been used to value the DB Master Trust's investments:

***Cash***

Cash is reported at amortized cost, which approximates fair value.

***Mutual Funds***

Mutual funds are valued at quoted prices reported in active markets.

***Money Market Fund***

Money market fund are valued at quoted prices reported in active markets.

***Common/Collective Trust Funds***

Common/collective trust funds are valued at net asset value per share (NAV) or its equivalent of the funds, which is based on the fair value of the funds' underlying assets. The common/collective trust funds valued at NAV have no unfunded commitments.

***Real Estate Funds***

The real estate funds are valued at NAV of shares held by the DB Master Trust at year end, determined by the fund manager. Real estate funds valued at NAV have no unfunded commitments.

***Hedge Funds***

Hedge funds are valued at NAV determined by the fund management and as reported in their respective audited financial statements. The hedge funds valued at NAV have no unfunded commitments.

***Corporate Obligations and U.S. Government Obligations***

The U.S. government obligations and corporate obligations are valued using quoted market prices in active markets or quoted market prices and/or other market data for the same or comparable instruments and transactions in establishing the prices, discounted cash flow models, and other pricing models. These models are primarily industry-standard models that consider various assumptions, including time value and yield curve, as well as other relevant economic measures.

(1) This class includes funds that seek to achieve an unconstrained, non-benchmark-oriented investment approach and to provide a competitive rate of return and a high level of stability of principal and liquidity. For employer-initiated withdrawals, the redemption restrictions range from 0-30 days.

**December 31, 2024 and 2023**

**Note 4 - Interest in Jones Day Defined Benefit Master Trust (Continued)**

- (2) This class includes funds that seek to achieve long-term capital appreciation by engaging in a variety of investment strategies and techniques. Notification of any redemptions in the various funds range from 45 days to 90 days in advance.
- (3) This class represents funds that invest in various asset classes, such as real estate, private companies, traditional assets, and hedge fund strategies, in order to add diversification to the DB Master Trust. Of the funds in this category, 19 have uncalled capital commitments amounting to \$77,234,728 and \$32,716,526 at December 31, 2024 and 2023, respectively. These funds are illiquid and will be distributed when the funds close.
- (4) This category includes a separate pooled account that seeks to achieve superior returns over a full market cycle versus the NCREIF Property Index. For liquidity purposes, the fund holds a 2 percent cash position and reserves the right to hold redemptions for up to three years.

The net investment income for the DB Master Trust for the years ended December 31, 2024 and 2023 is as follows:

	2024	2023
Net realized and unrealized gains on investments	\$ 102,859,513	\$ 107,790,423

Net investment income	\$ 114,831,734	\$ 123,052,517

**Note 5 - Tax Status**

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

**Note 6 - Plan Termination**

Should the Plan terminate at some future time, its net assets generally will not be available on a pro rata basis to provide participant benefits. Whether a particular participant’s accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guarantee, while other benefits may not be provided for at all.
