Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We were engaged to perform audits of the financial statements of Dominican University Retirement Plan, an employee benefit plan subject to the *Employee Retirement Income Security Act of 1974* (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Dominican University Retirement Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Disclaimer of Opinion

We do not express an opinion on the accompanying financial statements of Dominican University Retirement Plan. Because of the significance of the matter described in the Basis for Disclaimer of Opinion section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements.

Basis for Disclaimer of Opinion

As described in Note 7 to the financial statements, Dominican University Retirement Plan has excluded from investments in the accompanying statements of net assets available for benefits certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009, as permitted by the Department of Labor's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. The investment income and distributions related to such accounts have also been excluded in the accompanying statement of changes in net assets available for benefits. The amount of these excluded annuity contracts and custodial accounts and the related income and

distributions are not reasonably determinable. Accounting principles generally accepted in the United States of America require that these accounts and the related income and distributions be included in the accompanying financial statements.

Responsibilities of Management

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Dominican University Retirement Plan's ability to continue as a going concern within one year after the date that these financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities

Our responsibility is to conduct an audit of Dominican University Retirement Plan's financial statements in accordance with auditing standards generally accepted in the United States of America and to issue an auditor's report. However, because of the matter described in the Basis for Disclaimer of Opinion section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

We are required to be independent of Dominican University Retirement Plan, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits.

Other Matter – Supplemental Schedules Required by ERISA

The supplemental schedules listed in the table of contents are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion section, it is inappropriate to and we do not express an opinion on these supplemental schedules.

Dominican University Retirement Plan
Notes to Financial Statements
December 31, 2024 and 2023

Note 1. Description of the Plan

The following description of the Dominican University Retirement Plan (Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions. The Plan utilizes Teachers Insurance and Annuity Association of America (TIAA) and College Retirement Equities Fund (CREF) (together, TIAA-CREF) as its trustee. Dominican University (University) is the plan sponsor.

General

The Plan offers two options (accounts) for employees to participate in: a) a defined contribution account and b) a tax-deferred annuity account. All employees are immediately eligible to participate in both options without restrictions, except for students enrolled and attending classes. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended by subsequent legislation.

Contributions

Participants may make pretax or Roth contributions to the Plan subject to certain Internal Revenue Service (IRS) limitations. Age 50 and over participants can contribute an additional \$7,500 in both 2024 and 2023. Participants whose base hours are at least 30 hours per week become eligible for the University match upon attaining the age of 21 and completing one year of service. Effective November 1, 2016, the University match was 80% of the first 10% of eligible participant contributions. Effective June 15, 2020, the matching contribution is discretionary and, each year, the University will determine the formula for the discretionary matching contribution. For the year ended December 31, 2024, the University made a discretionary matching contribution equal to 100% of eligible participant contributions up to a maximum of 8%. Participants may terminate their salary reduction agreement at any time. Participants may also contribute amounts representing distributions from other qualified plans. Effective January 1, 2021, participants become eligible for the University match upon attaining the age of 21 with no service hour requirement.

Investment Options

Participants direct the investment of their account balance into various investment options offered by the Plan and may change their investment options at any time, subject to the terms of the funding vehicles.

Participant Accounts

Individual accounts are maintained for each plan participant. Each participant's account is credited with the participant's contributions, University's contributions and plan earnings. Earnings are allocated by fund based on the ratio of a participant's account invested in a particular fund to all participants' investments in that fund. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Plan earnings are credited to a participant's account according to the type of funding vehicle in which balances are invested. Fund managers' fees are charged to participants' accounts as a reduction of the return earned on each investment option.

Payment of Benefits

On termination of service due to death, retirement or other termination, a participant may elect to receive a distribution of his or her entire accumulated plan balance, subject to the terms of the funding vehicles and the plan documents. Distribution options include lump-sum payments, partial payments, fixed annuities, variable annuities or installments. In addition, participants may elect in-service withdrawals of their elective deferral account balances after reaching age 59½ or for hardship purposes, subject to a

**Dominican University Retirement Plan
Notes to Financial Statements

minimum of \$1,000. Rollover account balances and certain employee deferrals made prior to 1989 may be withdrawn at any time. Minimum required distributions for participants, as defined by the Plan, also apply per IRS regulations.

Plan Loans

Effective January 1, 2022, the Plan discontinued the availability of plan loans and only offers notes receivable from participants allowing participants to borrow from their eligible fund accounts.

Prior to January 1, 2022, plan loans were available to participants through TIAA, subject to certain limitations. Plan loans were issued directly from the funds owned by TIAA and loan proceeds were not removed from a participant's account balance. Adequate security was required, and a portion of the participant's account was reserved or held in collateral to cover 110% of the outstanding loan in case of default. The collateral is held in the TIAA Traditional Annuity as either a Group Supplemental Retirement Annuity contract or as a separate Retirement Loan contract.

The amount pledged as collateral at December 31, 2024 and 2023, was \$13,089 and \$12,394, respectively. Plan loan interest rates ranged from 4.00% to 4.22% as of December 31, 2024.

At December 31, 2024 and 2023, defaulted loans of \$13,089 and \$12,394, respectively, are included as part of the TIAA Traditional fixed annuity contract and are owed directly to TIAA-CREF upon a participant distributable event.

Notes Receivable From Participants

Beginning in 2021, participants may borrow from their fund accounts with TIAA a minimum of \$1,000 up to a maximum equal to the lesser of a) \$50,000 reduced by the highest outstanding notes receivable balance in the participant's account during the prior 12-month period or b) 50% of their vested account balance. Notes receivable terms cannot exceed five years or up to ten for the purchase of a primary residence. The notes receivable are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as defined by the Plan. At December 31, 2024, the interest rates ranged from 4.25% to 9.50%. Loan repayments can be made through payroll withholdings or directly to TIAA. No more than three outstanding loans per participant are allowed at any time.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. The University contributions plus actual earnings thereon are fully vested after two years of vesting service.

Forfeitures

Forfeitures may be used to pay plan expenses or reduce future University contributions to the Plan. There were \$14,391 and \$54,367 of forfeiture balances available for future use at December 31, 2024 and 2023, respectively. During 2024, \$103,869 of forfeitures were used to reduce University contributions.

Revenue Sharing

The Plan has entered into an agreement with TIAA under which TIAA will share any revenue collected for recordkeeping and administrative services that is in excess of what TIAA has agreed to charge for recordkeeping and administrative services. Amounts deposited in the "revenue credit" account may be used to pay reasonable and necessary plan expenses, and/or to provide participants with a benefit in the form of "revenue credit allocation" to their accounts. The amounts deposited may vary over time, and may, in fact, be zero.

Dominican University Retirement Plan
Notes to Financial Statements
December 31, 2024 and 2023

During 2024, these revenue credits totaled \$58,514 and were offset against administrative expenses of \$62,448 for a net amount of \$3,934 which is included in deductions on the statement of changes in net assets available for benefits. The balance of unused credits from this account at December 31, 2024 and 2023, was \$20,203 and \$40,080, respectively. Credits of \$40,000 were reallocated to eligible participant accounts during 2024.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investments held by a defined-contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. Certain TIAA Traditional Annuity contract types are considered fully benefit-responsive and contract value approximates fair value as of December 31, 2024 and 2023.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets, changes in net assets and the disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

The Plan is funded by individually controlled TIAA and CREF investments. Contributions are allocated to the TIAA Traditional Annuity contract, TIAA and CREF Variable Annuity accounts, TIAA-CREF registered investment companies, and the TIAA Real Estate pooled separate account. See Note 4 for discussion of fair value measurements.

The TIAA Real Estate pooled separate account is valued at the net asset value (NAV) of units held. The NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liability. The underlying real estate holdings or other real estate related investments are valued principally utilizing external appraisals. Transfers out of the pooled separate account are limited to one per quarter. There are no participant redemption restrictions for these investments, and participant redemptions are allowed daily. There are no unfunded commitments at December 31, 2024 and 2023.

The TIAA Traditional Annuity is a fixed rate annuity contract that is fully and unconditionally guaranteed and backed by TIAA. See Note 3.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Dominican University Retirement Plan
Notes to Financial Statements
December 31, 2024 and 2023

Notes Receivable From Participants

Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document. No allowance for credit losses has been recorded as of December 31, 2024 and 2023.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Administrative expenses of the Plan are paid by the University, the Plan or the participants. Additionally, certain employees of the University provide administrative and trustee services to the Plan and the University is not reimbursed by the Plan for such services.

Note 3. TIAA Traditional Annuity Contract

The TIAA Traditional Annuity is an unallocated fixed-dollar annuity and investment product offered by TIAA, an insurance company that is fully and unconditionally guaranteed by TIAA. The TIAA Traditional Annuity is maintained in the TIAA general account. Contributions to the TIAA Traditional Annuity purchase a contractual or guaranteed amount of future benefits for the participants and are secured by the general assets of TIAA.

The TIAA Traditional Annuity fully benefit-responsive account is recorded at contract value. Contract value, as reported to the Plan by TIAA, represents contributions made under the contract, plus interest at the contract rate, less funds to pay withdrawal benefits and administrative expenses. The investment contract with TIAA contains liquidity restrictions that require withdrawals and transfers from the investment contract to other investment options available to the Plan to be spread over a period of ten annual installments or five annual installments for withdrawals after a participant's termination of employment.

A portion of the TIAA Traditional Annuity has been determined to be fully benefit-responsive. Among other requirements, fully benefit-responsive contracts require all permitted participant-initiated transactions with the Plan to occur at contract value with no restrictions. At December 31, 2024, the value of the nonbenefit-responsive contracts totaled \$23,862,388 and the benefit-responsive contracts totaled \$3,621,338. At December 31, 2023, the value of the nonbenefit-responsive contracts totaled \$23,461,092 and the benefit-responsive contracts totaled \$3,933,217.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause significant withdrawal from the Plan or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

Dominican University Retirement Plan
Notes to Financial Statements
December 31, 2024 and 2023

Note 4. Fair Value Measurements

Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets
- Level 3** Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. There have been no changes in the methodologies used at December 31, 2024 and 2023.

The fair value of shares of registered investment companies is determined by obtaining quoted market prices on nationally recognized securities exchanges (Level 1 inputs).

The variable annuity accounts are recorded at their estimated fair value which is based upon the underlying value of the assets. Participants purchase accumulation units in the variable annuity contracts, and their value is calculated daily. The money market account is recorded at amortized cost, which approximates fair value. The amortized cost of an instrument is determined by valuing it at its original cost and thereafter amortizing any discount or premium from its face value at a contact rate until maturity. Unit prices are published daily (Level 1 inputs).

The TIAA Traditional Annuity account is valued at the accumulated cash contributions, interest credited and transfers, if any, less any withdrawals and transfers (Level 3 inputs). This nonbenefit-responsive investment contract contains certain liquidity restrictions on the redemption of accumulations, which could impact the value realized upon exiting the contract.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Dominican University Retirement Plan
Notes to Financial Statements
December 31, 2024 and 2023

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023:

(A) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

Note 5. Certification of Plan Trustee

The plan administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, TIAA-CREF, a qualified institution, has certified the following information included in the accompanying financial statements and ERISA-required supplemental schedules are complete and accurate:

- Investments and notes receivables from participants as shown in the statements of net assets available for benefits as of December 31, 2024 and 2023
- Investment income components and interest income from notes receivables from participants as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2024
- Investment information and notes receivables from participants included in the accompanying schedule of assets (held at end of year) as of December 31, 2024

The Plan's independent auditors did not perform auditing procedures with respect to this certified information, except for comparing such certified information to the related information included in the financial statements and ERISA-required supplemental schedules.

Note 6. Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association, or relatives of such persons.

Certain plan investments are units in variable annuity accounts, a pooled separate account, registered investment companies and fixed annuity contracts managed by TIAA-CREF. TIAA-CREF is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Investment-related expenses are included in net appreciation in fair value of investments. The Plan paid professional fees of \$62,448 during 2024.

Note 7. Investments Excluded From Plan

The Plan has excluded from investments in the statements of net assets available for benefits certain annuities and custodial accounts, of an undetermined amount, issued to current and former employees prior to January 1, 2009, as permitted by the Department of Labor's Field Assistance Bulletin No. 2009-02, Annual Reporting Requirements for 403(b) Plans. Accounting principles generally accepted in the United States of America require that these accounts and the related income and distributions be included in the accompanying financial statements. The effects on the financial statements from the exclusion of these investments are not readily determinable.

Dominican University Retirement Plan
Notes to Financial Statements
December 31, 2024 and 2023

Note 8. Plan Termination

Although it has not expressed any intent to do so, the University has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, all participants would become 100% vested in the University's contributions.

Note 9. Income Tax Status

The Plan operates under an adoption agreement in connection with a volume submitter 403(b) plan sponsored by TIAA. This volume submitter 403(b) plan has been filed with the appropriate agency and the sponsor has obtained an opinion letter dated August 7, 2017, from the IRS stating that the volume submitter 403(b) plan constitutes a qualified plan under Section 403(b) of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the opinion letter, the plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax exempt as of the financial statement date.

Note 10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 11. Nonexempt Transactions

During the plan year ended December 31, 2022, the Plan engaged in prohibited transactions related to late deposits of employee contributions totaling \$4,363. Plan management has corrected the 2022 late deposits in 2024. During the plan year ended December 31, 2024, the Plan engaged in prohibited transactions related to late deposits of employee contributions totaling \$10,582. Plan management has corrected \$5,753 of the 2024 late deposits in 2024. Plan management is in the process of correcting the remaining 2024 late deposits of \$4,829.

Note 12. Subsequent Events

Subsequent events have been evaluated through October 13, 2025, which is the date the financial statements were available to be issued.
