INDEPENDENT AUDITORS' REPORT

To the Plan Administrator, Participants and Beneficiaries
of the Robert Wood Johnson Foundation Qualified Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Robert Wood Johnson Foundation Qualified Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter

Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at year end) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including the form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note 1 - Description of the Plan

The following brief description of Robert Wood Johnson Foundation Qualified Retirement Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of the Robert Wood Johnson Foundation (the "Foundation") who are age 21 or older. Effective January 1, 2023, the age requirement has been removed. Participants enter the Plan on their hire date, or the first of the month following their hire date if the date of hire is during the month. The Plan recordkeeper is TIAA. TIAA and CREF are the insurance companies for the Plan's non-mutual fund investments and TIAA Trust, N.A. is the custodian of the remaining portion of the Plan's investments (mutual funds). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

The Foundation contributes a basic contribution equal to 3% of each employee's compensation, as defined in the Plan. In addition to the basic 3% contribution made for all participants, the Foundation makes supplemental contributions on behalf of each participant who is at least age 25. The supplemental contribution is an amount equal to a percentage of the compensation paid to each eligible participant, based on the following schedule:

<u>Age</u>	<u>Supplemental Contribution</u>
25-27	1%
28-34	5%
35-40	9%
41-49	13%
50+	17%

For purposes of determining the Foundation's contributions, the maximum amount of compensation eligible for Foundation contributions is \$345,000 for the year ended December 31, 2024. Participants may also contribute amounts representing distributions from other qualified plans but may not contribute any after-tax employee contributions from other plans.

QUALIFIED RETIREMENT PLAN

Note 1 - Description of the Plan (continued)

Participant Accounts

The Foundation's and participant's rollover contributions are credited to each participant's account to purchase TIAA Traditional annuity benefits, CREF variable annuity units, TIAA Real Estate fund units and mutual funds, based on the participant's self-directed investment choices. Each participant's account is also credited with Plan earnings and charged with an allocation of expenses. Allocations are based on participant earnings or account balances or specific transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Plan Servicing Credit

A Plan servicing credit account was established on January 1, 2015. Fees earned by TIAA in excess of the amount necessary to administer and cover retirement plan services and expenses are credited to this account. The excess fees can be used to cover expenses of the Plan and/or be returned to the participants of the Plan. A plan servicing credit of \$119,020 for 2024 was received and included as investment income to the Plan. At December 31, 2024 and 2023 the Plan Servicing account balance was \$9,156 and \$150,506, respectively. This amount was included in the plan assets. In 2024, \$110,000 was allocated to participants' accounts and \$66,757 was used for plan expenses.

Vesting

Participants are immediately vested in contributions plus actual earnings thereon.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance, plus any accrued but unpaid interest. Participants may borrow from their fund accounts a minimum of \$1,000, up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from one to five years; however, terms may exceed five years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate of prime plus 1%, as defined by Wall Street Journal. Interest rates on outstanding loan balances were 4.25% to 9.50% at December 31, 2024. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document. Related fees are recorded as administrative expenses and are expensed when they are incurred.

Plan Loans

Participants could have borrowed from TIAA, the insurance company, a minimum of \$1,000 up to a maximum equal to the lesser of: (a) \$50,000; or (b) 45% of the participant's total account balance; or (c) 90% of the participant's total balance in the TIAA Traditional Annuity.

ROBERT WOOD JOHNSON FOUNDATION
QUALIFIED RETIREMENT PLAN
Notes to Financial Statements

Note 1 - Description of the Plan (continued)

Plan Loans (continued)

Effective April 1, 2021, these loans are no longer provided by the Plan. All loans as of April 1, 2021, will remain and will be paid back accordingly. The Plan now provides for notes receivable from participants as noted above. Loan terms could not exceed five years; except for loans used to acquire a principal residence.

The loans are not Plan assets but are secured with collateral held in a TIAA Traditional annuity account for their benefit in an amount equaling 110% of the loan principal balance. Principal and interest repayment terms require loan repayments to be made at least quarterly. Such loans bear interest at a variable rate determined by TIAA and can increase or decrease once a year. Delinquent loans are reclassified as distributions based upon the terms of the Plan document. As of December 31, 2024 and 2023, \$138,665 and \$193,485, respectively, in outstanding loans were collateralized by Plan assets.

During 2024, there were no plan assets, representing payout of collateral for defaulted loans to participants, distributed from the Plan and included in benefit payments and withdrawals on the statement of changes in net assets available for benefits.

Payment of Benefits

Upon the participant's death, total and permanent disability, early retirement, or normal retirement, including in-service eligibility, the participant or participant's beneficiary is entitled to make certain elections, including lump-sum amount, partial payments, installment payments or the purchase of an annuity contract from an insurance company, and begin receiving distributions based on the value of the participant's account. If a participant separates from the Foundation with a participant balance of less than \$1,000, the balance may be paid out at the discretion of the Foundation. Hardship withdrawals are permitted under certain circumstances and require the approval of the Foundation as Plan sponsor.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting, in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Investments held by a defined-contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the term of the Plan.

ROBERT WOOD JOHNSON FOUNDATION
QUALIFIED RETIREMENT PLAN
Notes to Financial Statements

Subsequent Events

Management has performed an evaluation of subsequent events through October 9, 2025, the date the financial statements were available to be issued. Management has determined that there are no events which warrant disclosure in the Plan's financial statements through October 9, 2025.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in the value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Investment-related expenses are incurred by the investment fund as a whole and are one of the factors in determining the unit values of the funds. Substantially all Plan expenses incurred in connection with the administration of the Plan are paid by the Foundation.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and when applicable, disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Note 3 - Investment Certification

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the U.S. Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, TIAA and/or CREF and TIAA on behalf of TIAA Trust, NA with respect to the Plan's other investments held as directed trustee or custodian that were recordkept by TIAA have certified the completeness and accuracy of all investments and related investment activity and notes receivable from participants and related activities in the accompanying statements of net assets available for benefits as of December 31, 2024 and 2023, the statement of changes in net assets available for benefits for the year ended December 31, 2024, and the accompanying supplemental schedule of assets (held at end of year) as of December 31, 2024.

ROBERT WOOD JOHNSON FOUNDATION
QUALIFIED RETIREMENT PLAN
Notes to Financial Statements

Note 4 – Investments at Contract Value

TIAA Traditional Annuity – The TIAA Traditional Annuity is a fixed-rate annuity contract that is fully and unconditionally guaranteed by TIAA. The guarantees and returns of the TIAA Traditional Annuity are backed by TIAA's claims-paying ability. Liquidity restrictions apply to the TIAA Traditional Annuity under certain types of annuity contracts. The TIAA Traditional Annuity provides a guarantee of principal, a guaranteed minimum rate of interest (generally 3%) and the potential for additional interest if declared by TIAA.

Additional interest, when declared, remains in effect for the "declaration year," which begins each March 1st. Additional interest is not guaranteed for future years. Contributions to a participant's account purchase a guaranteed amount of lifetime annuity income.

When a participant's account in the TIAA Traditional is annuitized based on available options, the present value of the stream of payments is equal to the account balance. The subsequent stream of annuity payments occurs outside of the Plan and does not represent an obligation of the Plan. The TIAA Traditional Annuity is fully benefit responsive and is reported at contract value. The contract value equals the accumulated cash contributions, interest credited to the contracts, and transfers, if any, less any withdrawals and transfers. The TIAA Traditional Annuity is not available for sale or transfer on any securities exchange.

The TIAA Traditional Annuity holdings within the Group Retirement Annuity (“GRA”) have liquidity restrictions. With the GRA contract, lump sum withdrawals are available only within 120 days after termination of employment and are subject to a 2.5% surrender charge. All other withdrawals and transfers from the GRA must be spread over a period of ten annual installments (or five installments for withdrawals after termination).

The Plan’s ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer’s ability to meet its financial obligations. The issuer’s ability to meet its contractual obligations may be affected by future economic and regulatory development.

Note 5 – Fair Value Measurements

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

The Financial Accounting Standards Board Accounting Standards Codification 820, *Fair Value Measurement and Disclosures*, provides the framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements), and the lowest priority to unobservable inputs (Level 3 measurements.) The three levels of the fair value hierarchy are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

ROBERT WOOD JOHNSON FOUNDATION
QUALIFIED RETIREMENT PLAN
Notes to Financial Statements

Note 5 – Fair Value Measurements (continued)

- Level 2: Inputs to the valuation methodology include: (1) quoted prices for similar assets or liabilities in active markets; (2) quoted prices for identical or similar assets or liabilities in inactive markets; (3) inputs other than quoted markets prices that are observable for the asset or liability; or (4) inputs that are derived principally from or corroborated by observable market data by correlation, or other means. If the asset or liability has a specified (contractual) term; the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Mutual funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission (“SEC”). These funds are required to publish daily net asset value (“NAV”) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

TIAA Real Estate Account – The TIAA Real Estate Account is a pooled separate account/insurance company separate account. This is a variable annuity product valued at NAV per accumulation unit, as a practical expedient to measure fair value, based on the market value of the underlying real estate holdings or other real estate-related investments.

Real estate holdings are valued principally utilizing external appraisals, which are estimates of property values based on the assessment of specialists and reported by TIAA. The TIAA Real Estate Account sometimes holds securities as well, and these are generally priced using values obtained from independent sources. Transactions out are limited to one per calendar quarter. The TIAA General Account provides the Real Estate Account with the liquidity guarantee.

CREF Accounts – CREF accounts are variable annuity contracts. Each CREF Account is a separate portfolio with its own investment objective and strategies. Investments in a CREF Account enable a unit holder to acquire units whose accumulation unit value, or NAV used as a practical expedient to measure fair value, is calculated each business day. The value of a unit holder's investment rises and falls with the returns on the underlying assets. The Accounts invest principally in equity securities, fixed income instruments and short-term investments in accordance with each portfolio's investment objectives.

Account investments are primarily valued using market quotations or prices obtained from independent pricing sources that may employ pricing methods to value the investments including matrix pricing.

ROBERT WOOD JOHNSON FOUNDATION
 QUALIFIED RETIREMENT PLAN
 Notes to Financial Statements

Note 5 – Fair Value Measurements (continued)

CREF Money Market Account – The CREF Money Market Account’s portfolio securities are valued using their amortized cost. The valuation method does not factor in unrealized gains or losses on the account’s portfolio securities. Amortized cost valuation involves first valuing a security at its costs, and thereafter assuming a constant amortization to maturity of any discount or premium, regardless of the impact of fluctuating interest rates on the security’s market value.

Accumulation units in CREF accounts are transacted at the accumulation unit value. Participants will be locked out of a CREF Account for 90 days if a purchase, sale, and repurchase within that account is made within a 60-day period, other than for the CREF Money Market Account.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth, by level, within the fair value hierarchy, the Plan’s investment assets at fair value as of December 31, 2024:

	Unadjusted Quoted Market Prices (Level 1)	Significant Other Observable Inputs (Level 2)	Investments measured at NAV (A)	Total

Note 5 – Fair Value Measurements (continued)

(A) Certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statement of net assets available for benefits.

The following table sets forth, by level, within the fair value hierarchy, the Plan’s investment assets at fair value as of December 31, 2023:

The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statement of net assets available for benefits.

Change in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments with the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value to another.

ROBERT WOOD JOHNSON FOUNDATION
QUALIFIED RETIREMENT PLAN
Notes to Financial Statements

Note 6 – Tax Status

The Internal Revenue Service (“IRS”) has determined and informed the Foundation by a letter dated March 20, 2013, stating that the Plan is qualified under the Internal Revenue Code (“IRC”) and therefore the related trust is exempt from taxation. The plan has been amended since receiving the tax determination letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes the Plan is qualified and the related trust is tax-exempt.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by a government authority. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine examinations by taxing jurisdictions; however, there are currently no examinations for any tax periods in progress.

Note 7 – Related-Party Transactions and Party-in-Interest Transactions

A substantial portion of the investments are fixed and variable annuities, a pooled separate account, and mutual funds sponsored by TIAA, CREF, and TIAA Trust, N.A. TIAA is the Plan's record-keeper, TIAA and CREF are the Plan's insurance companies and TIAA Trust, N.A. is the custodian of certain Plan investments; therefore, transactions related to these investments qualify as party-in-interest transactions. For the year ended December 31, 2024, the Plan paid \$111,198 for administrative fees.

Note 8 - Risks and Uncertainties

The Plan provides for investments in various investment securities, which in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks, as well as risk related to the financial strength of TIAA and CREF. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and participant account balances.

Volatility in the financial markets may significantly impact the subsequent valuation of the Plan's investments. Accordingly, the valuation of investments at December 31, 2024 may not necessarily be indicative of amounts that could be realized in a current market exchange.

Note 9 - Plan Termination

Although no intent has been expressed to do so, the Plan may be terminated at any time at the Foundation's sole discretion, subject to the provisions of ERISA. In the event of Plan termination, all interests of participants in the Plan will remain fully vested and will be distributed as provided in the Plan.

ROBERT WOOD JOHNSON FOUNDATION
QUALIFIED RETIREMENT PLAN
Notes to Financial Statements

Note 10 - Mutual Fund Fees

Investments in mutual funds are subject to sales charges in the form of front-end loads, back-end loads or 12b-1 fees. 12b-1 fees, which are ongoing fees allowable under Section 12b-1 of the Investment Company Act of 1940, are annual fees deducted to pay for marketing and distribution costs of the funds. These fees are deducted prior to the allocation of the Plan's investment earnings activity, and thus not separately identifiable as an expense.
