Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) ☒ Unmodified (2) ☐ Qualified (3) ☐ Disclaimer (4) ☐ Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) ☐ DOL Regulation 2520.103-8 (2) ☐ DOL Regulation 2520.103-12(d) (3) ☒ neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: **CROWE LLP**

(2) EIN: **35-0921680**

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) ☐ This form is filed for a CCT, PSA, DCG or MTIA. (2) ☐ It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		☒	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		☒	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		☒	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		☒	
e Was this plan covered by a fidelity bond?	☒		20000000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		☒	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)	☒		
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)	☒		
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		☒	
l Has the plan failed to provide any benefit when due under the plan?		☒	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)			
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.			

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year? ☐ Yes ☒ No
If "Yes," enter the amount of any plan assets that reverted to the employer this year _____.

INDEPENDENT AUDITOR'S REPORT

The Compensation Committee of First Financial Bancorp
First Financial Bancorp Employees' Pension Plan and Trust
Cincinnati, Ohio

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2024 Financial Statements

We have performed an audit of the financial statements of First Financial Bancorp Employees' Pension Plan and Trust (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements including the accumulated plan benefits as of and for the year ended December 31, 2023 (2024 Financial Statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2024 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of December 31, 2024, and for the year then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion on the 2024 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the 2024 Financial Statements section

- the amounts and disclosures in the accompanying 2024 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying 2024 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

(Continued)

Basis for Opinion on the 2024 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2024 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion on the 2024 financial statements.

Responsibilities of Management for the 2024 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year from the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2024 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2024 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

(Continued)

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2024 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the 2024 financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

2024 Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) and Schedule H, Line 4j – Schedule of Reportable Transactions as of and for the year ended December 31, 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditor's Report on the 2023 Financial Statements

We have audited the 2023 financial statements, and in our report dated October 10, 2024, we expressed an unmodified opinion on those 2023 financial statements.

Notes to Financial Statements

December 31, 2024 and 2023

NOTE 1: DESCRIPTION OF THE PLAN

The following description of the First Financial Bancorp Employees' Pension Plan and Trust (the Plan) is provided for general information purposes only. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

General. The Plan is a defined benefit pension plan covering substantially all associates of First Financial Bancorp (the Bancorp or the Company) and subsidiaries that meet certain age and service requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Company contributes amounts sufficient to annually fund the Plan's current service cost and prior service cost, plus interest. The Plan has met the ERISA minimum funding requirements. No contributions were required during the years ended December 31, 2024 and 2023 since the Plan was sufficiently funded.

SEI Private Trust Company (SEI) (the Trustee), a wholly owned subsidiary of SEI Investments, holds the Plan's investments and executes investment transactions.

Participating Corporation. The terms of the Plan provide that any corporation which is, or becomes, a subsidiary of the Bancorp may adopt this Plan for those associates which the subsidiary determines to be eligible, with consent of the Bancorp.

Vesting. All benefits immediately vest for active plan participants.

Pension Benefits. The Plan permits early retirement for associates ages 50 to 64 with ten years of vested service, provided the sum of the associate's age and vesting service is at least 65. Participants may elect to receive pension benefits in the form of lump-sum distributions or monthly annuity payments for specified periods or for life. Participants may elect to receive their annuity payments in the form of a joint and 50%, 66.67%, 75% or 100% survivor annuity or an annuity guaranteed payable for 60, 120, 180 or 240 months.

As of January 1, 2008, Plan benefits are based on a hypothetical individual account known as a Cash Balance Account. During each year of employment, each participant's account is credited with regular and interest credits. Regular credits for participants, who have a full year of benefit service, are based on the participant's covered compensation at the end of each year. Prior to January 1, 2014, the annual service credit was equal to 5% of total compensation plus 4% of excess compensation for that year of benefit service. For Plan years beginning on and after January 1, 2014, the annual service credit is equal to 5% of total compensation. Interest credits

First Financial Bancorp Employees' Pension Plan and Trust

Notes to Financial Statements (continued)

December 31, 2024 and 2023

are added to the account at the end of each Plan year and can vary from year to year. The annual interest credit rate equals: (a) the interest rate on 5-year Treasury securities as of the second full calendar month preceding the Plan Year with respect to service credits earned prior to January 1, 2014, and (b) the annual return on a portfolio invested 40% in the Vanguard Institutional Index Fund and 60% in the Vanguard Total Bond Market Index Fund with respect to service credits earned on and after January 1, 2014. While the returns in the stock market and bond market can vary over time and can result in either a positive or negative interest credit in any single plan year, the sum of the interest credits on service credits earned on and after January 1, 2014 can never be below zero.

Under other supplements of the Plan, certain participants accrued benefits as “grandfathered” employees based on hire date and participation in the Plan under a covered group. Grandfathered participant benefits were calculated based upon the participant’s average compensation, the participant’s years of service, and other factors, as defined in the Plan document.

Death and Disability Benefits. For the cash balance benefit, if a vested terminated participant dies before retirement, a designated beneficiary will receive 100% of the benefit. For a married participant, 100% of the cash balance benefit is payable to the participant’s spouse as a life annuity or lump sum. For an unmarried participant, 100% of the cash balance benefit is payable to the beneficiary only as an immediate lump sum.

For the traditional benefit, if the vested terminated participant dies and is married, the surviving spouse is eligible to receive the survivor portion of the 50% joint and survivor annuity option of the participant’s traditional benefit as a lump sum or life annuity. If the participant dies and is not married, none of the traditional benefit is payable to the beneficiary.

Participants with at least 15 years of vested service who are no longer able to work for First Financial because of total and permanent disability are entitled to receive their normal retirement benefit under the terms of the Plan beginning on the first date of the month following their normal retirement date.

Subsequent Events. Management evaluated subsequent events for the Plan for recognition and disclosure through October 2, 2025, the date the financial statements were available to be issued.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation. The accompanying financial statements have been prepared on the accrual basis of accounting and in conformity with accounting principles generally accepted in the United States of America (GAAP).

Estimates. The preparation of financial statements in conformity with GAAP requires management to make estimates, assumptions and judgments that affect the amounts reported in the financial statements, accompanying notes and supplemental schedules. Actual realized amounts could differ materially from those estimates.

Risks and Uncertainties. The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate risk, market risk and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that those changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported, based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

Valuation of Investments and Income Recognition. Investments are stated at fair value, which is defined as the price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date (an exit price). See Note 4 – Fair Value Measurements for further discussion and disclosures related to fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net realized and unrealized appreciation (depreciation) includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

Payment of Benefits. Benefits are recorded when paid.

First Financial Bancorp Employees' Pension Plan and Trust

Notes to Financial Statements (continued)

December 31, 2024 and 2023

Actuarial Present Value of Accumulated Plan Benefits. Accumulated plan benefits are future periodic payments that are attributable under the Plan's provisions for the service participants have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated participants or their beneficiaries, (b) beneficiaries of participants who have died, and (c) present participants or their beneficiaries. Prior to January 1, 2008, benefits under the Plan were based on participants' compensation during their highest consecutive five years of vested service. Effective January 1, 2008, the Plan was amended to convert to a cash balance pension plan. Participants with vested benefits prior to this transition date continue to have a frozen benefit as calculated under the traditional formula, in addition to benefits accrued under the cash balance formula after the transition date.

Benefits payable under all circumstances (retirement, death, disability and termination of employment) are included, to the extent they are deemed attributable to participant service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

NOTE 3: CERTIFIED INFORMATION

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and ERISA-required supplemental schedules, including investments and notes receivable from participants held at December 31, 2024, and net appreciation in fair value of investments and interest and dividends for the year ended December 31, 2024, was obtained by management and agreed to or derived from information certified as complete and accurate by the Trustee of the Plan.

NOTE 4: FAIR VALUE MEASUREMENTS

The fair value framework as disclosed in the Fair Value Measurements and Disclosure Topic of FASB ASC Topic 820, (Fair Value Topic) includes a hierarchy which focuses on prioritizing the inputs used in valuation techniques. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1), a lower priority to observable inputs other than quoted prices in active markets for identical assets and liabilities (Level 2) and

First Financial Bancorp Employees' Pension Plan and Trust

Notes to Financial Statements (continued)

December 31, 2024 and 2023

the lowest priority to unobservable inputs (Level 3). When determining the fair value measurements for assets and liabilities, the Plan looks to active markets to price identical assets or liabilities whenever possible and classifies such items in Level 1. When identical assets and liabilities are not traded in active markets, the Plan looks to observable market data for similar assets and liabilities and classifies such items as Level 2. Certain assets and liabilities are not actively traded in observable markets and the Plan must use alternative techniques, based on unobservable inputs, to determine the fair value and classifies such items as Level 3. The level within the fair value hierarchy is based on the lowest level of input that is significant in the fair value measurement.

The following methods, assumptions and valuation techniques were used by the Plan to measure assets and liabilities at fair value:

U.S. Government and Government Agency Securities. These securities are valued using matrix pricing models developed by a third party and consider standard input factors such as observable market data, benchmark yields, interest rate volatilities, broker/dealer quotes, credit spreads and new issue data. Matrix pricing is widely used to value securities without solely relying on quoted market prices for specific securities (Level 2).

Mutual funds. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission and are valued at the daily closing price as reported by the fund. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded (Level 1).

Collective trusts. The Core Property Collective Investment Trust and Special Situations Collective Trust are alternative investments valued at the net asset value of units of the collective trusts. The net asset value is used as a practical expedient to estimate fair value and is priced quarterly on a month lag. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value.

Following an initial 24-month lock-up period, for each subscription, participating plans will generally be permitted to redeem from the Special Situations Collective Trust those units as to which the lock-up period has expired as of the last business day of June and December of each calendar year, upon 95 calendar days prior written notice.

First Financial Bancorp Employees' Pension Plan and Trust

Notes to Financial Statements (continued)

December 31, 2024 and 2023

Redemptions may be made from the Core Property Collective Trust as of the last business day of each quarter (March 31, June 30, September 30, December 31) provided written notice is given 105 days prior to the date of redemption.

The Plan utilizes values provided by third-party pricing vendors to price investment securities in accordance with the fair value hierarchy of the Fair Value Topic and reviews the pricing methodologies utilized by the pricing vendors to ensure that the fair value determination is consistent with the applicable accounting guidance. The Plan's pricing process includes a series of quality assurance activities where prices are compared to recent market conditions, historical prices and other independent pricing services. Further, the Plan periodically validates the fair values of a sample of securities in the portfolio by comparing the fair values to prices from other independent sources for the same or similar securities. The Plan analyzes unusual or significant variances, conducts additional research with the pricing vendor, and if necessary, takes appropriate action based on its findings. The results of the quality assurance process are incorporated into the selection of pricing providers by the portfolio manager.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023:

Assets at Fair Value as of December 31, 2024				
	Level 1	Level 2	Level 3	Total

*Investments measured at fair value using net asset value per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in the hierarchy tables for such investments are intended to permit reconciliation of the fair value hierarchy to the investments at fair value line item presented in the statement of net assets available for benefits.

Notes to Financial Statements (continued)

December 31, 2024 and 2023

The significant actuarial assumptions used in the valuations as of December 31, 2023 were as follows:

Mortality: Pri-2012 tables for males and females (separate rates for annuitants and non-annuitants) projected forward generationally with scale MP-2021.

Retirement age: Graded from age 55 to 65

Discount rate: The 2023 valuation included assumed an average rate of return of 7.25%.

Cash balance interest rate: pre-2014 cash balances: 4.37%; post-2013 cash balances: Cash balance accruals after 2013 are credited with interest at the annual rate of return for a hypothetical investment portfolio that is invested 40% in Vanguard Institutional Index Institutional Shares (VINIX) and 60% in Vanguard Total Bond Market Index Fund Institutional Shares (VBTIX). As an approximation of this rate, the applicable Effective Interest Rate was used.

PPA Optional Combined Unisex Mortality table is used to determine lump sum values.

The assumption changes presented in the previous table are mainly attributed to changes in the interest crediting rates.

NOTE 6: PLAN TERMINATION

Although it has not expressed intentions to do so, the Bancorp has the right under the Plan to discontinue the contributions of any participating Bancorp subsidiary at any time and to amend or terminate the Plan subject to the provisions set forth in ERISA. Should the Plan terminate at some future time, whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

NOTE 7: INCOME TAX STATUS

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated May 3, 2013 stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code

First Financial Bancorp Employees' Pension Plan and Trust

Notes to Financial Statements (continued)

December 31, 2024 and 2023

(the Code) and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The plan administrator believes the Plan is in compliance with the applicable requirements of the Code and that the Plan, as amended, is qualified and the related trust is tax-exempt.

GAAP requires plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024 and 2023, there are no uncertain positions taken or expected to be taken.

The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2021.

NOTE 8: ADMINISTRATIVE EXPENSES

The Plan incurs administrative expenses directly related to the Plan which consist primarily of actuarial fees, PBGC fees and miscellaneous professional fees. These expenses are reported on the statements of changes in net assets available for benefits as administrative expenses. Expenses relating to purchases, sales or transfers of the Plan's investments are charged to the particular investment fund to which the expenses relate. All other expenses are paid by the Company on behalf of the Plan.

NOTE 9: PARTY-IN-INTEREST TRANSACTIONS

Certain Plan assets are invested in funds managed by an affiliate of the trustee of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transaction rules under ERISA. The Plan is not charged for administrative services performed on its behalf by the Bancorp.

Demographic Assumptions

Inclusion date The valuation date coincident with or next following the date on which the employee becomes a participant.

New or rehired employees It was assumed there will be no new or rehired employees.

Mortality Separate rates for non-annuitants and annuitants based on Pri-2012 "Employees" and "Healthy Annuitants" (participants and beneficiaries combined) tables, respectively, without collar or amount adjustments and then projected forward with a generational projection as specified in the regulations under §1.430(h)(3)-1 using the IRS adjusted Scale MP-2021 (i.e., MP-2021 with no mortality improvement for 2020-2023 and future mortality improvement capped at 0.78% for years after 2024).

Termination rates (not due to disability, retirement, or mortality) The rates are which participants withdraw by age and gender are given below:

Attained Age	Males (%)	Females (%)
20	12.5	15.0
25	9.0	11.0
30	6.5	8.0
35	4.5	5.5

65	100	100

Percent married

For purposes of valuing the pre-retirement surviving spouse's benefit, 80% of eligible participants are assumed to be married.

Spouse age

Male spouses are assumed to be 3 years older than female spouses.

Covered pay

Plan Compensation is W-2 earnings provided by the employer for the prior year adjusted by the compensation increase rate.

Administrative expenses

\$1,215,249. Administrative expenses are accounted for as an addition to Target Normal Cost. Investment management expenses are included as an administrative expense.

Administrative expenses for the coming year are estimated by using the actual administrative expenses for the prior year.

Form of payment

95% of active participants are assumed to receive an immediate lump sum and 5% of active participants are assumed to elect life annuity when they retire. 100% of terminated vested participants are assumed to receive an immediate lump sum upon withdrawal. Current terminated vested participants are assumed to receive a lump sum upon attaining normal retirement age.

Calculation of lump sum	Lump sums were valued using the general rule under Proposed IRC §1.430(d)-1(f)(4) without application of generational mortality and without recognition of the phase-in of IRC §417(e)(3) assumptions. The PPA optional combined unisex table for the valuation year and January segment rates are used to determine lump sums based on the traditional formula.
Participant data	Participant data was supplied by Milliman as of the valuation date.
Tax policy	The actuarial valuation performed for the plan year ending December 31, 2024 is used to determine the maximum deductible contribution for the tax year ending December 31, 2024.
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.

Actuarial value of assets

Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year).

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued based on discussions with First Financial Bancorp regarding the likelihood that these benefits will be paid. WTW has reviewed the plan provisions with First Financial Bancorp and, based on that review, is not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

The plan sponsor furnished participant data as of January 1, 2024 via Milliman. Information on plan provisions was supplied by the plan sponsor. Assets were provided by SEI. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate

The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.

SCHEDULE SB ATTACHMENTS

Cash Balance Interest crediting rate

Pre-2014 Cash Balance Interest crediting rate:

Cash balance accruals prior to 2014 are credited with interest at the rate of 5-year Treasuries. As an approximation of this rate, the first segment rate from the average segment rates for January disregarding the interest rate corridors has been selected.

Post-2013 Cash Balance Interest crediting rate:

Cash balance accruals after 2013 are credited with interest at the annual rate of return for a hypothetical investment portfolio that is invested 40% in Vanguard Institutional Index Institutional Shares (VINIX) and 60% in Vanguard Total Bond Market Index Fund Institutional Shares (VBTIX). As an approximation of this rate, the applicable Effective Interest Rate was used.

Lump sum conversion rate

As required by IRC 430, lump sum benefits are valued using “annuity substitution”, so that the interest rates assumed are effectively the same as described above for the discount rate.

Annuity conversion rate for hybrid plans

As required by IRC 430, annuity benefits are valued by converting accounts to annuities using the current IRC 430 interest rates, so that the interest rates assumed are effectively the same as described above for the discount rate.

Rates of increase in compensation

Assumed compensation increases are based on plan sponsor expectations, including general pay practices and targets, for near-term years and the effect that the assumed long-term CPI and NAW will have on compensation increases over the longer term.

Plan-related expenses

As required by regulation, plan-related expenses are calculated by estimating the expenses to be paid from the trust during the coming year (including, for example, expected PBGC premiums and actuarial, accounting, legal, administration and trustee fees to be paid from the trust).

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality

Assumptions used for funding purposes are as prescribed by IRC §430(h).

Plan Name: First Financial Bancorp Employees' Pension Plan

SCHEDULE SB ATTACHMENTS

Termination	Termination rates are based on plan sponsor expectations. Assumed termination rates differ by age, sex, and service because of expected differences in termination rates.
Retirement	Retirement rates are based on plan sponsor expectations. Assumed retirement rates vary by age, because of expected differences in retirement rates as participants age.
Benefit commencement date for deferred vested benefits	Deferred vested participants are assumed to begin benefits at age 65 (or current age if later) because the plan's experience is not considered to be credible, but deferred vested early commencement factors are not subsidized so that the difference between this approach and using assumed commencement rates at earlier ages is not expected to be significant.
Form of payment	The form of payment assumption is based on recent experience showing a small number of annuity commencements with all remaining participants electing a lump sum upon retirement, and is believed to be a best estimate of future experience.

Source of Prescribed Methods

Funding methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions and methods since prior valuation

The following changes in assumptions and methods were made as part of this valuation:

- The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC 430.
- The interest crediting rate used to project pre-2014 cash balances was updated to the current first segment rate of the 24-month average from January, disregarding interest rate corridors. The basis for the assumption remains unchanged.
- The interest crediting rate used to project post-2013 cash balances was updated to the applicable effective interest rate. The basis for the assumption remains unchanged.
- The mortality table used to calculate the funding target and target normal cost was updated, reflects the latest mortality improvement scale and was changed from using a static projection of mortality improvement to a generational projection as required by guidance issued by the IRS under IRC §430
- The assumed plan expenses changed from \$1,255,848 for the 2023 plan year to \$1,215,249 for the 2024 plan year. The basis for the assumption remains unchanged.

Statement by Enrolled Actuary
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

The actuarial assumptions that are not mandated by IRC § 430 and regulations, represent the enrolled actuary's best estimate of anticipated experience under the plan, subject to the following conditions:

The actuarial valuation, on which the information in this Schedule SB is based, has been prepared in reliance upon the employee and financial data furnished by the plan administrator and the trustee. The enrolled actuary has not made a rigorous check of the accuracy of this information but has accepted it after reviewing it and concluding it is reasonable in relation to similar information furnished in previous years. The amounts of contributions and dates paid shown in Item 18 of Schedule SB were listed in reliance on information provided by the plan administrator and/or trustee.

Demographic Assumptions

Inclusion date The valuation date coincident with or next following the date on which the employee becomes a participant.

New or rehired employees It was assumed there will be no new or rehired employees.

Mortality Separate rates for non-annuitants and annuitants based on Pri-2012 "Employees" and "Healthy Annuitants" (participants and beneficiaries combined) tables, respectively, without collar or amount adjustments and then projected forward with a generational projection as specified in the regulations under §1.430(h)(3)-1 using the IRS adjusted Scale MP-2021 (i.e., MP-2021 with no mortality improvement for 2020-2023 and future mortality improvement capped at 0.78% for years after 2024).

Termination rates (not due to disability, retirement, or mortality) The rates are which participants withdraw by age and gender are given below:

Attained Age	Males (%)	Females (%)
20	12.5	15.0
25	9.0	11.0
30	6.5	8.0
35	4.5	5.5
40	2.6	3.5
45	1.3	1.7
50	0.3	0.7
55	0.0	0.0

Participants are assumed to terminate in the first 3 years at the following rates:

Retirement

For purposes of determining the Funding Target and Target Normal Cost (both disregarding at-risk assumptions), the rates at which participants retire by age and gender are shown below.

Age	Males (%)	Females (%)
55	5	5
56	5	5
57	5	5
58	5	5
59	5	5
60	10	10
61	10	10
62	10	10
63	10	10
64	10	10
65	100	100

Percent married

For purposes of valuing the pre-retirement surviving spouse's benefit, 80% of eligible participants are assumed to be married.

Spouse age

Male spouses are assumed to be 3 years older than female spouses.

Covered pay

Plan Compensation is W-2 earnings provided by the employer for the prior year adjusted by the compensation increase rate.

Administrative expenses

\$1,215,249. Administrative expenses are accounted for as an addition to Target Normal Cost. Investment management expenses are included as an administrative expense.

Administrative expenses for the coming year are estimated by using the actual administrative expenses for the prior year.

Form of payment

95% of active participants are assumed to receive an immediate lump sum and 5% of active participants are assumed to elect life annuity when they retire. 100% of terminated vested participants are assumed to receive an immediate lump sum upon withdrawal. Current terminated vested participants are assumed to receive a lump sum upon attaining normal retirement age.

Calculation of lump sum	Lump sums were valued using the general rule under Proposed IRC §1.430(d)-1(f)(4) without application of generational mortality and without recognition of the phase-in of IRC §417(e)(3) assumptions. The PPA optional combined unisex table for the valuation year and January segment rates are used to determine lump sums based on the traditional formula.
Participant data	Participant data was supplied by Milliman as of the valuation date.
Tax policy	The actuarial valuation performed for the plan year ending December 31, 2024 is used to determine the maximum deductible contribution for the tax year ending December 31, 2024.
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.

Actuarial value of assets

Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year).

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued based on discussions with First Financial Bancorp regarding the likelihood that these benefits will be paid. WTW has reviewed the plan provisions with First Financial Bancorp and, based on that review, is not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

The plan sponsor furnished participant data as of January 1, 2024 via Milliman. Information on plan provisions was supplied by the plan sponsor. Assets were provided by SEI. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate

The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.

SCHEDULE SB ATTACHMENTS

Cash Balance Interest crediting rate

Pre-2014 Cash Balance Interest crediting rate:

Cash balance accruals prior to 2014 are credited with interest at the rate of 5-year Treasuries. As an approximation of this rate, the first segment rate from the average segment rates for January disregarding the interest rate corridors has been selected.

Post-2013 Cash Balance Interest crediting rate:

Cash balance accruals after 2013 are credited with interest at the annual rate of return for a hypothetical investment portfolio that is invested 40% in Vanguard Institutional Index Institutional Shares (VINIX) and 60% in Vanguard Total Bond Market Index Fund Institutional Shares (VBTIX). As an approximation of this rate, the applicable Effective Interest Rate was used.

Lump sum conversion rate

As required by IRC 430, lump sum benefits are valued using “annuity substitution”, so that the interest rates assumed are effectively the same as described above for the discount rate.

Annuity conversion rate for hybrid plans

As required by IRC 430, annuity benefits are valued by converting accounts to annuities using the current IRC 430 interest rates, so that the interest rates assumed are effectively the same as described above for the discount rate.

Rates of increase in compensation

Assumed compensation increases are based on plan sponsor expectations, including general pay practices and targets, for near-term years and the effect that the assumed long-term CPI and NAW will have on compensation increases over the longer term.

Plan-related expenses

As required by regulation, plan-related expenses are calculated by estimating the expenses to be paid from the trust during the coming year (including, for example, expected PBGC premiums and actuarial, accounting, legal, administration and trustee fees to be paid from the trust).

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality

Assumptions used for funding purposes are as prescribed by IRC §430(h).

Plan Name: First Financial Bancorp Employees' Pension Plan
EIN / PN: 31-1042001/001
Plan Sponsor: First Financial Bancorp

SCHEDULE SB ATTACHMENTS

Termination	Termination rates are based on plan sponsor expectations. Assumed termination rates differ by age, sex, and service because of expected differences in termination rates.
Retirement	Retirement rates are based on plan sponsor expectations. Assumed retirement rates vary by age, because of expected differences in retirement rates as participants age.
Benefit commencement date for deferred vested benefits	Deferred vested participants are assumed to begin benefits at age 65 (or current age if later) because the plan's experience is not considered to be credible, but deferred vested early commencement factors are not subsidized so that the difference between this approach and using assumed commencement rates at earlier ages is not expected to be significant.
Form of payment	The form of payment assumption is based on recent experience showing a small number of annuity commencements with all remaining participants electing a lump sum upon retirement, and is believed to be a best estimate of future experience.

Source of Prescribed Methods

Funding methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions and methods since prior valuation

The following changes in assumptions and methods were made as part of this valuation:

- The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC 430.
- The interest crediting rate used to project pre-2014 cash balances was updated to the current first segment rate of the 24-month average from January, disregarding interest rate corridors. The basis for the assumption remains unchanged.
- The interest crediting rate used to project post-2013 cash balances was updated to the applicable effective interest rate. The basis for the assumption remains unchanged.
- The mortality table used to calculate the funding target and target normal cost was updated, reflects the latest mortality improvement scale and was changed from using a static projection of mortality improvement to a generational projection as required by guidance issued by the IRS under IRC §430
- The assumed plan expenses changed from \$1,255,848 for the 2023 plan year to \$1,215,249 for the 2024 plan year. The basis for the assumption remains unchanged.

Schedule SB, Part V Summary of Plan Provisions

Plan Provisions

The plan was most recently amended with Amendment 4, effective January 1, 2021.

Coverage and participation Employees become participants on the date on which 1 hour of service is completed after attainment of age 18.

Definitions

Vesting service A full year is earned for each plan year the employee completes 1,000 hours of service.

Credited service A full year is credited for each plan year the employee completes 1,000 hours of service.

Covered compensation Attained age 50 and 10 years of Service as of December 31, 2007: The 35-year average of Social Security Wage Bases, ending in the year Social Security Normal Retirement Age (SSNRA) is attained. The Wage Base is assumed to be constant from the year of termination to the SSNRA.

For those not meeting the age and service requirement, covered compensation is frozen as of December 31, 2007.

Excess compensation The total cash amount paid to a participant in a particular Plan Year in excess of 50% of the contribution and benefits base under section 230 of the Social Security Act as of the first day of that Plan Year.

Excess compensation is not applicable beginning January 1, 2014.

Compensation The total cash amount paid to a participant for services rendered to the employer that is not in excess of the applicable amount, adjusted for cost-of-living increases, in accordance with Section 401(a)(17) of the Internal Revenue Code of 1986, as amended from time to time.

Final average monthly compensation

Attained age 50 and 10 years of service as of December 31, 2007:
The monthly average of the highest five consecutive years of compensation.

For those not meeting the age and service requirement, final average monthly compensation is frozen as of December 31, 2007.

Normal retirement date (NRD)

Later of Age 65 or fifth anniversary of plan participation.

Interest credit

- Pre-2014

Interest is credited as of the end of each Plan Year and applied as of the first day of each Plan Year. Terminating participants will receive partial year interest credits. The rate is 5% for any Plan Year ending before January 1, 2008 and the interest rate on 5-year Treasury securities as of the second full calendar month preceding the Plan Year for plan years ending after December 31, 2008.

- Post-2013

Interest is credited as of the end of each Plan Year and applied as of the first day of each Plan Year. Terminating participants will receive partial year interest credits. The rate is the annual rate of return for a hypothetical investment portfolio that is invested 40% in Vanguard Institutional Index Institutional Shares (VINIX) and 60% in Vanguard Total Bond Market Index Fund Institutional Shares (VBTIX).

Service credit

- Pre-2014

5% of Compensation for the plan year plus four 4% of Excess Compensation for the Plan Year.

Early retirement

Frozen formula pension accrued benefit as of the date of early retirement reduced by $\frac{1}{3}$ of 1% for each of the first 60 months and $\frac{1}{2}$ of 1% for each of the next 60 months and actuarially for each additional month benefits commence prior to Normal Retirement Date.

Postponed retirement

Monthly benefit calculated as of Late Retirement Date.

Vested termination:

- Frozen formula pension
Accrued benefit payable at Normal Retirement Date. A reduced benefit (described above) may be paid upon meeting early retirement eligibility. In addition, terminated vested participants may elect an immediate lump sum payment.
- Pre-2014 and Post-2013 Cash Balance pensions
The equivalent actuarial value of the participant's Pre-2014 and Post-2013 Cash Balance pensions paid as a lump sum.

Disablement:

- Frozen formula pension
Benefit Before Normal Retirement: None.

Benefit After Normal Retirement: Accrued benefit calculated as if the participant had remained in service until Normal Retirement. For this purpose, pay immediately before disability is projected to remain level until Normal Retirement.
- Pre-2014 and Post-2013 Cash Balance pensions
Continued accrual of Pre-2014 and Post-2013 Interest Credits and Pre-2014 and Post-2013 Service Credits, calculated at the rate of compensation in effect immediately preceding the disability, until Normal Retirement or distribution date, if earlier.

Preretirement death:

- Frozen formula pension
For married participants eligible for early retirement, a lump sum equal to the present value of the accrued benefit. For married participants not eligible for early retirement, a life annuity equal to half of the 50% joint and survivor annuity commencing at the participant's earliest retirement date.

- Pre-2014 and Post-2013 Cash Balance pensions For married participants, the spouse may elect to commence receiving payment of the participant's Pre-2014 and Post-2013 Cash Balance pensions in the form of level monthly annuity for life or receive a single lump sum of the balance of the participant's Pre-2014 and Post-2013 Cash Balance pensions.

Other Plan Provisions

Forms of payment:

- Normal form Life annuity for single participants and 50% Joint and Survivor Annuity for married participants which is actuarially equivalent to the life annuity.
- Optional forms Life annuity, 50%, 66 2/3%, 75% or 100% joint and survivor annuity, life annuity with 5, 10, 15, or 20 years certain, lump sum.

Preretirement death benefits are payable only as described above. Monthly pension benefits are paid as described above as a life annuity, if the participant has no spouse as of the date payments begin, or if the participant so elects. Otherwise, benefits are paid in the form of 50% joint and survivor annuity option or, if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the plan. Optional forms are a 100% joint and survivor annuity, a ten-year certain and life annuity, or (for married participants) a life annuity. Actuarial equivalence is based on the Revenue Ruling 2001-62 mortality table and 8.00% interest.

Pension Increases

None.

Plan participants' contributions

They are not required or permitted.

Maximum on benefits and pay

All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are not assumed for determining contributions.

- Pre-2014 and Post-2013 Cash Balance pensions For married participants, the spouse may elect to commence receiving payment of the participant's Pre-2014 and Post-2013 Cash Balance pensions in the form of level monthly annuity for life or receive a single lump sum of the balance of the participant's Pre-2014 and Post-2013 Cash Balance pensions.

Other Plan Provisions

Forms of payment:

- Normal form Life annuity for single participants and 50% Joint and Survivor Annuity for married participants which is actuarially equivalent to the life annuity.
- Optional forms Life annuity, 50%, 66 2/3%, 75% or 100% joint and survivor annuity, life annuity with 5, 10, 15, or 20 years certain, lump sum.

Preretirement death benefits are payable only as described above. Monthly pension benefits are paid as described above as a life annuity, if the participant has no spouse as of the date payments begin, or if the participant so elects. Otherwise, benefits are paid in the form of 50% joint and survivor annuity option or, if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the plan. Optional forms are a 100% joint and survivor annuity, a ten-year certain and life annuity, or (for married participants) a life annuity. Actuarial equivalence is based on the Revenue Ruling 2001-62 mortality table and 8.00% interest.

Pension Increases

None.

Plan participants' contributions

They are not required or permitted.

Maximum on benefits and pay

All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are not assumed for determining contributions.
