Independent Auditors' Report

To the Administrative Committee of
Brooks Armored Car Service, Inc. Pension Plan:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the accompanying financial statements of Brooks Armored Car Service, Inc. Pension Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, the related statements of changes in net assets available for benefits for the years then ended, the statement of accumulated plan benefits as of December 31, 2024, the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of Brooks Armored Car Service, Inc. Pension Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certification from a qualified institution as of and for the years ended December 31, 2024 and 2023, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section –

- the amounts and disclosures in the accompanying financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements referred to above, related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Brooks Armored Car Service, Inc. Pension Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Brooks Armored Car Service, Inc. Pension Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Brooks Armored Car Service, Inc. Pension Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Brooks Armored Car Service, Inc. Pension Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

The supplemental schedules of assets held at end of year as of December 31, 2024 and reportable transactions for the year ended December 31, 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion –

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

December 31, 2024 and 2023

1. Description of Plan

The following description of the Brooks Armored Car Service, Inc. Pension Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a non-contributory defined benefit plan providing retirement, disability, and death benefits to all eligible employees of Garda CL Atlantic, Inc. and related group members, at the time the Plan was frozen (effective March 31, 1996). The Plan sponsor is Garda CL Atlantic, Inc. (the "Company") and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

The Company is the designated administrator of the Plan. Company management is responsible for oversight of the Plan and determines the appropriateness of the Plan's investment offerings and monitors investment performance.

The Company has entered into an agreement whereby, Principal Trust Company (the "Trustee") has been appointed the Trustee of the Plan's assets. Under the terms of the agreement, the Trustee holds and invests the funds of the Plan.

Funding policy:

The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. No Company contributions were required for the plan years ended December 31, 2024 or 2023.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provision set forth in ERISA.

Pension benefits:

Employees with five or more years of service are entitled to a monthly pension beginning at normal retirement age equal to 1.2% of their average monthly compensation received while a participant, for the highest five consecutive years out of the last 10 years, for each completed year of service, up to a maximum of 40 years. The Plan was amended effective January 1, 1996 such that no benefits will accrue for periods of service completed after March 31, 1996. Employees who work ten or more years may elect early retirement from ages 55 to 64. Employees may elect to receive their pension benefits in the form of a joint and survivor annuity, a life annuity with 5 or 10 years guaranteed or a single life annuity. Several elections are available to employees for the distribution of pension benefits.

Vesting:

If employees terminate before rendering five years of service, they forfeit the right to receive the portion of their accumulated plan benefits attributable to the Company's contributions.

Death and disability benefits:

Pre-retirement death benefits are equal to the actuarial value of the deceased participant's vested pension. Active employees who become totally disabled receive annual disability benefits that are equal to the normal retirement benefits they have accumulated as of the time they became disabled. Disability benefits are paid until normal retirement age, at which time disabled participants begin receiving normal retirement benefits computed as though they had been employed to normal retirement age with their annual compensation remaining the same as at the time they became disabled.

Notes to Financial Statements

December 31, 2024 and 2023

1. Description of Plan (continued)

SECURE Act 2.0:

On December 29, 2022, the Setting Every Community Up for Retirement Act ("SECURE") 2.0 Act of 2022 was signed into law as part of the Consolidated Appropriations Act, 2023. The SECURE 2.0 Act includes numerous reforms to retirement law intended to increase retirement savings, facilitate access to retirement savings, encourage employees to save for retirement, and simplify and clarify retirement plan rules. As of December 31, 2024, and through October 9, 2025, the date the financial statements were available to be issued, Plan management believes Plan provisions conform with required SECURE 2.0 regulations, and it is the intent of Plan management to amend Plan provisions in the future, as needed.

2. Summary of Accounting Policies

Basis of accounting:

The Plan's financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of estimates:

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities, and changes therein and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein, and disclosures. Actual results may differ from those estimates.

Investment valuation and income recognition:

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the Plan's valuation policies. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits:

Benefit payments to participants are recorded upon distribution.

Expenses:

The Plan's expenses are paid either by the Plan or the Company, as provided by the Plan document. Expenses that are paid by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying Statement of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation of fair value of investments.

Subsequent events:

The Plan's management has evaluated subsequent events through October 9, 2025, the date the financial statements were available to be issued.

3. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries.

The accumulated plan benefits are based on the employee's average compensation during the highest five consecutive years out of the last 10 on the date the Plan was frozen (March 31, 1996). Benefits payable under all circumstances – retirement, death, disability and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent actuarial firm and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The census data used in the valuations was as of January 1, 2025 and 2024. The significant assumptions used in the valuations as of January 1, 2025 and 2024 are as follows:

- Mortality rates – January 1, 2025: IRS 2025 Small Plan Combined Mortality Table. January 1, 2024: IRS 2024 Small Plan Combined Mortality Table.
- Minimum funding target segment rates – January 1, 2025: three segment yield curve (5.07%, 5.31% & 5.50%); January 1, 2024: three segment yield curve (4.75%, 4.87% & 5.59%).
- Interest rate assumption - 6.0% pre- and post-retirement (used in January 1, 2025 and January 1, 2024 valuations).
- Retirement rates – 100% at age 65.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

4. Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Benefits attributable to employee contributions, taking into account those paid out before termination.
2. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under the Plan provisions in effect at any time during the five years preceding Plan termination.

(continued)

BROOKS ARMORED CAR SERVICE, INC.
PENSION PLAN

Notes to Financial Statements

December 31, 2024 and 2023

4. Plan Termination (continued)

3. Other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC"), a U.S. government agency, up to the applicable limitations, as discussed below.
4. All other vested benefits, that is, vested benefits not insured by the PBGC.
5. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under Accounting Standards Codification 820, "Fair Value Measurements", are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

5. Fair Value Measurements (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Mutual funds – Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Money market funds – Money market funds are valued at the closing price as reported by the fund sponsor from an actively traded exchange. The money market funds are open-end mutual funds that invest in short-term debt securities and cash equivalents. These funds are required to publish their daily net asset value and to transact at that price. The money market funds held by the Plan are deemed to be actively traded.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2024 and 2023, for investments measured at fair value on a recurring basis.

December 31, 2024	Fair Value Measurements			
	Total	Level 1	Level 2	Level 3
Mutual funds	\$ 7,774,429	\$ 7,774,429	\$ -	\$ -
Money market funds	36,787	36,787	-	-
Investments, at fair value	<u>\$ 7,811,216</u>	<u>\$ 7,811,216</u>	<u>\$ -</u>	<u>\$ -</u>
December 31, 2023	Fair Value Measurements			
	Total	Level 1	Level 2	Level 3
Mutual funds	\$ 7,186,789	\$ 7,186,789	\$ -	\$ -
Money market funds	45,982	45,982	-	-
Investments, at fair value	<u>\$ 7,232,771</u>	<u>\$ 7,232,771</u>	<u>\$ -</u>	<u>\$ -</u>

6. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be significant to the financial statements.

7. Financial Data Certified by Trustee

Certain information related to investments disclosed in the accompanying financial statements and ERISA-required supplemental Schedule of assets held at end of year and Schedule of reportable transactions for the year ended December 31, 2024, including investments held at December 31, 2024 and 2023, and net appreciation and depreciation in fair value of investments, and investment income for the years then ended was obtained or derived from information supplied to the Plan and certified as complete and accurate by the Trustee.

8. Tax Status

The prototype plan received a favorable tax determination letter dated February 28, 2023 from the IRS. Although the Plan itself has not received a determination letter and the prototype plan has been amended since receiving that determination letter, Company management believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the Internal Revenue Code and, therefore, believes that the Plan is qualified and is tax-exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Related Party Transactions

Certain Plan investments and related transactions were in investment funds managed by the Plan's Trustee; therefore, these investments and transactions qualify as party-in-interest transactions. The Plan's transactions with its third-party administrator and recordkeeper also qualify as party-in-interest transactions. These transactions are not considered prohibited by statutory exemptions under ERISA.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

v. 240311**

This summary is not a Summary Plan Description or a plan document. You should not rely solely on this summary in making a determination of eligibility for the plan or its benefits.

Summary of Provisions of the Plan

Effective Date and Plan Year

The plan was established effective August 1, 1966 with the latest plan restatement effective January 1, 2020. The plan year ends on each December 31.

Eligibility

Each employee other than a collective bargaining employee, a non-resident alien, and a leased employee, is eligible to become a participant in the plan on the first day of the plan year in which one year of service and attainment of age 21 completed. No new participants shall commence participation in the plan after March 31, 1996.

Service

Service credited for benefit and vesting purposes means the number of plan years in which the employee completes at least 1,000 hours of service, subject to certain break in service rules. No service for benefit purposes will be credited under the plan after March 31, 1996.

Compensation

Compensation for plan purposes means W-2 compensation earned while a participant, plus pre-tax salary deferrals but excluding certain expense reimbursements, fringe benefits, moving expenses, other deferred compensation and welfare benefits. A participant's annual compensation for plan purposes is limited as required under Code §401(a)(17).

Normal Retirement

Condition

The normal retirement date is the first day of the calendar month coincident with or next following the later of the participant's 65th birthday and the 5th anniversary of the first day of the plan year of participation.

Benefit

The normal retirement benefit, 1/12th of which is payable monthly for the life of the participant, with 10 years guaranteed, is equal to 1.20% of average earnings multiplied by the participant's years of benefit service, limited to 40 years.

"Average earnings" is the average annual compensation of a participant for the five consecutive plan years which produce the highest average out of the final ten plan years of service.

No further benefits will accrue under the plan after March 31, 1996.

Accrued Benefit

The accrued benefit is the monthly benefit with payments beginning at normal retirement that has been earned due to compensation and benefit service as of any determination date. The accrued benefit is payable for the life of the participant, with 10 years guaranteed, and is computed in the same manner as

for normal retirement, using the participant's average earnings and benefit service projected to the participant's normal retirement date. This benefit is then multiplied by a fraction, the numerator of which is the participant's years of benefit service at the date of determination and the denominator of which is the participant's years of projected benefit service at normal retirement. No further benefits will accrue under the plan after March 31, 1996.

Early Retirement

Condition

A participant may retire early after he has attained age 55 and completed 10 years of service with the employer.

Benefit

The deferred benefit, to commence at the participant's normal retirement date, is equal to the participant's accrued benefit determined as of his early retirement date.

Upon making a written request, the participant's benefit may commence at any time after his termination of employment. If the benefit is to commence immediately, the deferred benefit is reduced using the plan's definition of actuarial equivalence to the participant's date of benefit commencement.

Late Retirement

Condition

A participant may choose to postpone his retirement beyond his normal retirement date, in which event no benefit shall be payable until actual retirement.

Benefit

The benefit, payment of which commences the first day of the month following the participant's actual date of retirement, is computed in the same manner as the normal retirement benefit based upon service accrued and compensation earned through the date of retirement, or March 31, 1996 if earlier. This benefit shall not be less than the actuarially equivalent of the benefit the participant would have received at his normal retirement date.

Disability Retirement

Condition

If a participant becomes totally and permanently disabled, as determined by a licensed physician and the condition continues for a period of 6 months, he will be entitled to retire and receive a disability retirement benefit commencing on his normal retirement date.

Benefit

Actuarial equivalent of the vested accrued benefit.

Death Before Retirement

Condition

In the event of the death of a participant after becoming eligible for a vested benefit under the plan, and while either (i) actively employed by the employer, or (ii) on deferred vested status but prior to receiving any retirement benefits, a survivorship benefit shall be payable.

Benefit

The monthly benefit is payable on the first day of the calendar month following the participant's date of death or the earliest date the participant could have elected benefit payments to commence, whichever is later, and continuing for the lifetime of the surviving spouse. The benefit is determined as 50% of the benefit the beneficiary would have received if the participant had terminated employment the day before his death (or on his actual date of termination if earlier), had lived to the benefit commencement date, and elected an immediate joint and 50% to survivor benefit.

Additional death benefit

An additional death benefit, equal to the excess of 100% of the participant's accrued benefit determined as of the participant's date of death over the qualified pre-retirement survivor annuity as described above, shall be payable to the participant's named beneficiary.

Termination of Employment After 5 or More Years of Vesting Service

If a participant terminates employment after completion of five or more years of vesting service, the participant is entitled to a deferred vested retirement benefit commencing at normal retirement. The amount of the benefit is computed in the same manner as the accrued benefit based upon service accrued and compensation earned through the date of termination. A participant shall be 100% vested when he attains early or normal retirement age, becomes disabled or upon death.

Top-Heavy Status

If in any year the plan is determined to be top heavy, the following provisions will take effect:

- > A minimum accrued benefit will be determined for each participant equal to 2% of the average earnings, multiplied by the participant's years of service during which the plan is top heavy, limited to 10 such years.
- > Participants will become vested in their accrued benefits according to the following schedule:

Years of Vesting <u>Service</u>	Vesting <u>Percentage</u>
less than 2	0%
2	20
3	40
4	60
5	80
6 or more	100

Optional Modes of Benefit Payments

Subject to the applicable plan conditions, a participant may select an optional method of benefit payment, in lieu of the prescribed life income with 10 years guaranteed, which is actuarially equivalent thereto. The purpose of the optional method is to permit the guarantee of retirement income payments for a minimum period of time (i.e., 5, or 10 years) or to provide a continued life income to a surviving beneficiary after the death of a participant (i.e., 50%, 75% or 100% joint and survivor). A lump sum option is also available if the present value of the accrued benefit is \$5,000 or less or in the case of death, the full present value is payable. However, if no option is elected and the participant is married at

the date the benefit commences, the monthly benefit will automatically be paid in the form of a 50% joint and survivor annuity.

If the actuarial equivalent single sum amount due a terminated participant is less than \$1,000, such amount shall be distributed to the participant in lieu of any other benefits under the plan.

Actuarial Equivalence

Actuarial equivalent values shall be computed based on the UP-1984 Table, and an interest rate of 6.00%. Single sum calculations shall be determined using the mortality table described under Code §417(e)(3). This table uses a fixed blend of 50% of the male and 50% of the female mortality rates. The interest rates used for single sum calculations shall be the three “segment-rates” derived from the corporate yield curves which Treasury develops, in effect as of the second calendar month preceding the plan year in which payment is made.

Contributions to the Plan

The employer contributes actuarially determined amounts to finance the plan benefits. No contributions by participating employees are required.

Investment of Plan Funds

The assets of the pension plan will be invested by the trustee in accordance with the terms of the trust agreement.
