To the Plan Administrator, Board of Managers and Participants of the
Anywhere Real Estate Group LLC Employee Savings Plan
Madison, New Jersey

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Anywhere Real Estate Group LLC Employee Savings Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plans financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2024 and 2023, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Anywhere Real Estate Group LLC Employee Savings Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to

our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Anywhere Real Estate Group LLC Employee Savings Plan's ability to continue as a going concern for one year after the date the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they could reasonably be expected to influence the judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Anywhere Real Estate Group LLC Employee Savings Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Anywhere Real Estate Group LLC Employee Savings Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter

Supplemental Schedule Required by ERISA

The supplemental schedule, Schedule H, Line 4i – Schedule of Assets (held at end of year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. ANYWHERE REAL ESTATE GROUP LLC EMPLOYEE SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN

The following description of the Anywhere Real Estate Group LLC Employee Savings Plan (the “Plan”) provides only general information. Participants should refer to the Summary Plan Description or the Plan document, which are available from Anywhere Real Estate Group LLC (“the Company” or “Anywhere”), for a more complete description of the Plan’s provisions.

The Plan is a defined contribution plan that provides Internal Revenue Code (“IRC”) Section 401(k) employee salary deferral benefits and additional employer contributions for the Company’s eligible employees. The Plan is subject to the provisions of Employee Retirement Income Security Act of 1974 (“ERISA”). Merrill Lynch Bank & Trust Co. FSB is the Plan’s trustee (the “Trustee”). The Board of Managers is responsible for oversight of the Plan.

Effective January 1, 2024, Title Resources Guarantee Company (“TRGC”) was removed from the Anywhere Real Estate Group LLC Employee Saving Plan. The total assets transferred out were \$11,745,047 and presented in assets transferred to other plans on the statement of changes in net assets available for benefits for the year ended December 31, 2024.

The following is a summary of certain Plan provisions:

Eligibility – Each regular employee of the Company (as defined in the Plan document) is eligible to participate in the Plan following the later of commencement of employment or the attainment of age eighteen. Each part-time employee of the Company (as defined in the Plan document) is eligible to participate in the Plan following the later of one Year of Eligibility Service (as defined by the Plan document) or the attainment of age eighteen. All eligible employees are automatically enrolled into the Plan at a 3% contribution rate. On each anniversary date of automatic enrollment, the participants contribution rate will increase 1% up to a maximum of 6%.

Participant Contributions – Participants may elect to make pre-tax and Roth contributions up to 50% and not less than 1% of pre-tax annual compensation up to the statutory maximum of \$23,000 for 2024 and \$22,500 for 2023. Certain eligible participants (age 50 and over) are permitted to contribute an additional \$7,500 in both 2024 and 2023 as a catch up contribution.

Employer Contributions – Employer contributions to the Plan are equal to 60% of each eligible participant’s salary deferral up to 6% of such participants’ eligible compensation per pay period. The Company may, in its sole discretion provide an additional percentage or multiple of participant’s base employer contribution matching contribution. Employer contributions are subject to certain IRS limitations.

Rollovers – All employees, upon commencement of employment, or any time thereafter, are provided the option of making pre-tax and Roth rollover contribution into the Plan in accordance with Internal Revenue Service (“IRS”) regulations. Designated Roth rollover contributions are segregated under a separate rollover account.

Investments – Participants direct the investment of contributions to various investment options and may reallocate investments among the various funds or trusts or change future contributions on a daily basis. The fund reallocation must be in 1% increments and include both employee and employer contributions. Participants should refer to each fund prospectus for a more complete description of the risks associated with each fund.

Vesting – At any time, participants are 100% vested in their pre-tax and Roth contributions and related earnings. Company matching contributions and discretionary additional matching contributions are subject to a 3 year vesting period and is dependent upon the years of credited service as follows:

<u>Years of service</u>	<u>Percentage vested</u>
1	33%
2	66%
3	100%

Notes receivable from participants – Participants may borrow from their fund accounts up to the lesser of \$50,000 or 50% of their vested account balance, provided the balance is at least \$1,000. See Note 9 CARES ACT for increase in maximum borrowings. The loans are secured by the participant’s account balance and bear interest at a rate equal to the prime rate plus one percent. Loan repayments are made through payroll deductions over a term not to exceed five years, unless the proceeds of the loan are used to purchase the principal residence of the participant, in which case the term is not to exceed 15 years. There were no loans to be distributed from the Plan at December 31, 2024 and 2023.

Participant Accounts – A separate account is maintained for each participant. Each participant’s account is credited with the participant’s contributions, company matching contributions, as well as allocations of plan earnings. Each participant’s account is also charged for loan withdrawals, an allocation of net realized and unrealized appreciation or depreciation in fair value of investments and certain administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Payment of Benefits to Participants – Participants are entitled to withdraw all or any portion of their vested accounts in accordance with the terms of the Plan and applicable law. Participants may make full or partial withdrawals of funds in any of their Before-Tax, Roth or Rollover accounts upon attaining age 59 ½ or for hardship in certain circumstances, as defined in the Plan document, before that age. A terminated participant with an account balance of more than \$7,000 may elect to remain in the Plan and continue to be credited with fund earnings, or receive a lump-sum amount equal to the value of the participant’s vested interest in his or her account. In the event a terminated participant's account balance is \$1,000 or less, the account balance will be distributed in a lump sum payment without the participant's consent. If the account balance is more than \$1,000 but does not exceed \$7,000, the account balance will automatically be rolled over into an Individual Retirement Rollover Account. Amounts payable to participants who have elected to withdraw from the Plan, but did not yet receive distributions from the Plan totaled \$1,969,591 and \$614,203 at December 31, 2024 and 2023, respectively.

Administrative Expenses – Generally, operating expenses related to maintaining the Plan are paid by the Company and administrative expenses for participant-directed transactions are paid by the Plan. Expenses that are paid by the Company are excluded from these financial statements. Fees for administration of notes receivable from participants are included in administrative expenses and charged directly to the participant’s account. Certain investment related expenses are included in net appreciation of fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The accompanying financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates – The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions. Such estimates and assumptions affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties – The Plan invests in various securities including mutual funds and common/collective trusts. Investment securities, in general, are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect participants’ account balances and the amounts reported in the statements of net assets available for benefits.

Notes receivable from participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the Plan document.

Benefit Payments – Benefits to participants are recorded upon distribution.

Forfeited accounts – When certain terminations of participation in the Plan occur, the non-vested portion of the participant's account, as defined by the Plan, represents forfeiture. Forfeitures are used to reduce future employer contributions. At December 31, 2024 and 2023, forfeited non-vested accounts totaled \$171,653 and \$893,686, respectively. These accounts will be used to reduce future employer contributions. Also, in 2024 and 2023, employer contributions were reduced by \$700,000 and \$1,419,991, respectively, from forfeited non-vested accounts.

Valuation of Investments and Income Recognition – The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Investment Committee determines the Plan's valuation policies. See below for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date and interest is recorded when earned on the accrual basis. The accompanying statements of changes in net assets available for benefits presents net appreciation in fair value of investments, which includes unrealized gains and losses on investments held at year end and realized gains and losses on investments sold during the year then ended.

Contributions – Contributions from Plan participants and the matching contributions from the Employer are recorded in the year in which the employee contributions are withheld from compensation.

Fair Value Measurements – The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under Financial Accounting Standard Board (FASB) ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access;

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specific (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Mutual Funds – Mutual fund investments are public investment vehicles valued using the net asset value (NAV) provided by the administrator of the fund. These mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with

the Securities and Exchange Commission. These funds are required to publish their NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective Funds – These investments are valued using the NAV provided by the administrator of the fund. The NAV is used as a practical expedient to estimate fair value. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. This practical expedient is not used when it is determined that the fund will sell the investment for an amount different than the NAV. Participant transactions (purchases and sales) may occur daily. The NAV’s unit price is quoted on a private market that is not active; however, the unit price is based on underlying investments which are traded on an active market.

Stable value collective trust fund – A stable value collective trust fund that is composed primarily of fully benefit-responsive investment contracts that is valued at the NAV of units of the collective trust. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require notification in order to ensure that securities liquidations will be carried out in an orderly business manner. There are no unfunded commitments.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Below are the Plan’s financial instruments carried at fair value on a recurring basis classified using the FASB’s fair value hierarchy levels:

The Plan's policy is to recognize transfers of investments into or out of level 3 as of the date of the event or change in circumstances that caused the transfer. For the years ended December 31, 2024 and 2023, there were no transfers of investments into or out of level 3. There are no plan assets requiring the use of level 3 inputs for the periods presented.

3. INVESTMENTS

4. INFORMATION CERTIFIED BY TRUSTEE

Certain information related to cash, investments and notes receivable from participants disclosed in the accompanying financial statements and ERISA-required supplemental schedule, including cash, investments and notes receivable from participants held at December 31, 2024 and 2023, and net appreciation in fair value of investment, interest and dividends, and interest income on notes receivable from participants for the years ended December 31, 2024 and 2023, was obtained by management and agreed to or derived from information certified as complete and accurate by Merrill Lynch Bank & Trust Co., FSB (the Trustee of the Plan).

5. TAX STATUS

The Plan received a favorable determination letter from the Internal Revenue Service, dated March 2017, indicating that the Plan and related trust are designed and qualified under section 401(a) of the Internal Revenue Code (IRC), and therefore, the Plan and related trust are exempt from taxation. The determination letter is applicable for amendments executed through 2016. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. RELATED-PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS

Certain Plan investments are managed by Merrill Lynch. Merrill Lynch is trustee for the Plan, and therefore, these transactions qualify as party in interest transactions.

Merrill Lynch provides certain administrative services to the Plan pursuant to a Service Agreement between the Company and Merrill Lynch. Merrill Lynch receives revenue from certain service providers for services Merrill Lynch provides to the funds. This revenue is used to offset certain amounts that would be owed to Merrill Lynch from the Plan for its administrative services to the Plan had the arrangements with the service providers not been in place.

These party-in-interest transactions are exempt from the prohibited transaction rule of ERISA.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company reserves the right to discontinue its contributions and modify, suspend, amend or terminate the Plan in whole or in part at any time subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

8. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500.

	As of December 31, 2024	As of December 31, 2023

Net income per the Form 5500	<u>\$ 100,734,887</u>	<u>\$ 104,797,885</u>

9. CARES ACT

On March 27, 2020, President Trump signed into law the “Coronavirus Aid, Relief, and Economic Securities (CARES) Act”. The CARES Act, among other things, included several relief provisions available to tax-qualified retirement plans and their participants. Plan management has evaluated the relief provisions available to plan participants under the CARES Act and has implemented the following provisions:

- Special coronavirus distributions up to \$100,000
- Increase the available loan amount to the lesser of \$100,000 or 100% of the participant’s vested account balance.
- Defer the loan repayment, if applicable, up to one year.

10. SECURE 2.0 ACT

President Biden signed the Consolidated Appropriations Act (CAA), including the SECURE 2.0 Act, into law on December 29, 2022. SECURE 2.0 builds on changes made by the SECURE Act of 2019 and the Plan document will be amended for provisions required to be effective in 2024 and will be amended in accordance with the required timeline of the act to the applicable provisions.

11. SUBSEQUENT EVENTS

Effective March 3, 2025, RealSafe Title LLC, formerly a participating company under the Anywhere Real Estate Group LLC Employee Saving Plan, adopted a separate retirement plan and transferred out the assets of active RealSafe employees who were participants in Anywhere Real Estate Group LLC Employee Saving Plan.

The Plan has evaluated subsequent events through September 12, 2025 which is the date these financial statements were available to be issued.

Anywhere Real Estate Group LLC Employee Savings Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Anywhere Real Estate Group LLC Employee Savings Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plans financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2024 and 2023, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Anywhere Real Estate Group LLC Employee Savings Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to

our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Anywhere Real Estate Group LLC Employee Savings Plan's ability to continue as a going concern for one year after the date the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they could reasonably be expected to influence the judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Anywhere Real Estate Group LLC Employee Savings Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Anywhere Real Estate Group LLC Employee Savings Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter

Supplemental Schedule Required by ERISA

The supplemental schedule, Schedule H, Line 4i – Schedule of Assets (held at end of year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

ANYWHERE REAL ESTATE GROUP LLC EMPLOYEE SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN

The following description of the Anywhere Real Estate Group LLC Employee Savings Plan (the “Plan”) provides only general information. Participants should refer to the Summary Plan Description or the Plan document, which are available from Anywhere Real Estate Group LLC (“the Company” or “Anywhere”), for a more complete description of the Plan’s provisions.

The Plan is a defined contribution plan that provides Internal Revenue Code (“IRC”) Section 401(k) employee salary deferral benefits and additional employer contributions for the Company’s eligible employees. The Plan is subject to the provisions of Employee Retirement Income Security Act of 1974 (“ERISA”). Merrill Lynch Bank & Trust Co. FSB is the Plan’s trustee (the “Trustee”). The Board of Managers is responsible for oversight of the Plan.

Effective January 1, 2024, Title Resources Guarantee Company (“TRGC”) was removed from the Anywhere Real Estate Group LLC Employee Saving Plan. The total assets transferred out were \$11,745,047 and presented in assets transferred to other plans on the statement of changes in net assets available for benefits for the year ended December 31, 2024.

The following is a summary of certain Plan provisions:

Eligibility – Each regular employee of the Company (as defined in the Plan document) is eligible to participate in the Plan following the later of commencement of employment or the attainment of age eighteen. Each part-time employee of the Company (as defined in the Plan document) is eligible to participate in the Plan following the later of one Year of Eligibility Service (as defined by the Plan document) or the attainment of age eighteen. All eligible employees are automatically enrolled into the Plan at a 3% contribution rate. On each anniversary date of automatic enrollment, the participants contribution rate will increase 1% up to a maximum of 6%.

Participant Contributions – Participants may elect to make pre-tax and Roth contributions up to 50% and not less than 1% of pre-tax annual compensation up to the statutory maximum of \$23,000 for 2024 and \$22,500 for 2023. Certain eligible participants (age 50 and over) are permitted to contribute an additional \$7,500 in both 2024 and 2023 as a catch up contribution.

Employer Contributions – Employer contributions to the Plan are equal to 60% of each eligible participant’s salary deferral up to 6% of such participants’ eligible compensation per pay period. The Company may, in its sole discretion provide an additional percentage or multiple of participant’s base employer contribution matching contribution. Employer contributions are subject to certain IRS limitations.

Rollovers – All employees, upon commencement of employment, or any time thereafter, are provided the option of making pre-tax and Roth rollover contribution into the Plan in accordance with Internal Revenue Service (“IRS”) regulations. Designated Roth rollover contributions are segregated under a separate rollover account.

Investments – Participants direct the investment of contributions to various investment options and may reallocate investments among the various funds or trusts or change future contributions on a daily basis. The fund reallocation must be in 1% increments and include both employee and employer contributions. Participants should refer to each fund prospectus for a more complete description of the risks associated with each fund.

Vesting – At any time, participants are 100% vested in their pre-tax and Roth contributions and related earnings. Company matching contributions and discretionary additional matching contributions are subject to a 3 year vesting period and is dependent upon the years of credited service as follows:

<u>Years of service</u>	<u>Percentage vested</u>
1	33%
2	66%
3	100%

Notes receivable from participants – Participants may borrow from their fund accounts up to the lesser of \$50,000 or 50% of their vested account balance, provided the balance is at least \$1,000. See Note 9 CARES ACT for increase in maximum borrowings. The loans are secured by the participant’s account balance and bear interest at a rate equal to the prime rate plus one percent. Loan repayments are made through payroll deductions over a term not to exceed five years, unless the proceeds of the loan are used to purchase the principal residence of the participant, in which case the term is not to exceed 15 years. There were no loans to be distributed from the Plan at December 31, 2024 and 2023.

Participant Accounts – A separate account is maintained for each participant. Each participant’s account is credited with the participant’s contributions, company matching contributions, as well as allocations of plan earnings. Each participant’s account is also charged for loan withdrawals, an allocation of net realized and unrealized appreciation or depreciation in fair value of investments and certain administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Payment of Benefits to Participants – Participants are entitled to withdraw all or any portion of their vested accounts in accordance with the terms of the Plan and applicable law. Participants may make full or partial withdrawals of funds in any of their Before-Tax, Roth or Rollover accounts upon attaining age 59 ½ or for hardship in certain circumstances, as defined in the Plan document, before that age. A terminated participant with an account balance of more than \$7,000 may elect to remain in the Plan and continue to be credited with fund earnings, or receive a lump-sum amount equal to the value of the participant’s vested interest in his or her account. In the event a terminated participant's account balance is \$1,000 or less, the account balance will be distributed in a lump sum payment without the participant's consent. If the account balance is more than \$1,000 but does not exceed \$7,000, the account balance will automatically be rolled over into an Individual Retirement Rollover Account. Amounts payable to participants who have elected to withdraw from the Plan, but did not yet receive distributions from the Plan totaled \$1,969,591 and \$614,203 at December 31, 2024 and 2023, respectively.

Administrative Expenses – Generally, operating expenses related to maintaining the Plan are paid by the Company and administrative expenses for participant-directed transactions are paid by the Plan. Expenses that are paid by the Company are excluded from these financial statements. Fees for administration of notes receivable from participants are included in administrative expenses and charged directly to the participant’s account. Certain investment related expenses are included in net appreciation of fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The accompanying financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates – The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions. Such estimates and assumptions affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties – The Plan invests in various securities including mutual funds and common/collective trusts. Investment securities, in general, are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect participants’ account balances and the amounts reported in the statements of net assets available for benefits.

Notes receivable from participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the Plan document.

Benefit Payments – Benefits to participants are recorded upon distribution.

Forfeited accounts – When certain terminations of participation in the Plan occur, the non-vested portion of the participant's account, as defined by the Plan, represents forfeiture. Forfeitures are used to reduce future employer contributions. At December 31, 2024 and 2023, forfeited non-vested accounts totaled \$171,653 and \$893,686, respectively. These accounts will be used to reduce future employer contributions. Also, in 2024 and 2023, employer contributions were reduced by \$700,000 and \$1,419,991, respectively, from forfeited non-vested accounts.

Valuation of Investments and Income Recognition – The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Investment Committee determines the Plan's valuation policies. See below for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date and interest is recorded when earned on the accrual basis. The accompanying statements of changes in net assets available for benefits presents net appreciation in fair value of investments, which includes unrealized gains and losses on investments held at year end and realized gains and losses on investments sold during the year then ended.

Contributions – Contributions from Plan participants and the matching contributions from the Employer are recorded in the year in which the employee contributions are withheld from compensation.

Fair Value Measurements – The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under Financial Accounting Standard Board (FASB) ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access;

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specific (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Mutual Funds – Mutual fund investments are public investment vehicles valued using the net asset value (NAV) provided by the administrator of the fund. These mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with

the Securities and Exchange Commission. These funds are required to publish their NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective Funds – These investments are valued using the NAV provided by the administrator of the fund. The NAV is used as a practical expedient to estimate fair value. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. This practical expedient is not used when it is determined that the fund will sell the investment for an amount different than the NAV. Participant transactions (purchases and sales) may occur daily. The NAV’s unit price is quoted on a private market that is not active; however, the unit price is based on underlying investments which are traded on an active market.

Stable value collective trust fund – A stable value collective trust fund that is composed primarily of fully benefit-responsive investment contracts that is valued at the NAV of units of the collective trust. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require notification in order to ensure that securities liquidations will be carried out in an orderly business manner. There are no unfunded commitments.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Below are the Plan’s financial instruments carried at fair value on a recurring basis classified using the FASB’s fair value hierarchy levels:

Assets at fair value as of December 31, 2024

The Plan's policy is to recognize transfers of investments into or out of level 3 as of the date of the event or change in circumstances that caused the transfer. For the years ended December 31, 2024 and 2023, there were no transfers of investments into or out of level 3. There are no plan assets requiring the use of level 3 inputs for the periods presented.

3. INVESTMENTS

The following table presents investments that represent 10 percent or more of the Plan's net assets available for benefits in either 2024 or 2023.

4. INFORMATION CERTIFIED BY TRUSTEE

Certain information related to cash, investments and notes receivable from participants disclosed in the accompanying financial statements and ERISA-required supplemental schedule, including cash, investments and notes receivable from participants held at December 31, 2024 and 2023, and net appreciation in fair value of investment, interest and dividends, and interest income on notes receivable from participants for the years ended December 31, 2024 and 2023, was obtained by management and agreed to or derived from information certified as complete and accurate by Merrill Lynch Bank & Trust Co., FSB (the Trustee of the Plan).

5. TAX STATUS

The Plan received a favorable determination letter from the Internal Revenue Service, dated March 2017, indicating that the Plan and related trust are designed and qualified under section 401(a) of the Internal Revenue Code (IRC), and therefore, the Plan and related trust are exempt from taxation. The determination letter is applicable for amendments executed through 2016. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. RELATED-PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS

Certain Plan investments are managed by Merrill Lynch. Merrill Lynch is trustee for the Plan, and therefore, these transactions qualify as party in interest transactions.

Merrill Lynch provides certain administrative services to the Plan pursuant to a Service Agreement between the Company and Merrill Lynch. Merrill Lynch receives revenue from certain service providers for services Merrill Lynch provides to the funds. This revenue is used to offset certain amounts that would be owed to Merrill Lynch from the Plan for its administrative services to the Plan had the arrangements with the service providers not been in place.

These party-in-interest transactions are exempt from the prohibited transaction rule of ERISA.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company reserves the right to discontinue its contributions and modify, suspend, amend or terminate the Plan in whole or in part at any time subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

9. CARES ACT

On March 27, 2020, President Trump signed into law the “Coronavirus Aid, Relief, and Economic Securities (CARES) Act”. The CARES Act, among other things, included several relief provisions available to tax-qualified retirement plans and their participants. Plan management has evaluated the relief provisions available to plan participants under the CARES Act and has implemented the following provisions:

- Special coronavirus distributions up to \$100,000
- Increase the available loan amount to the lesser of \$100,000 or 100% of the participant’s vested account balance.
- Defer the loan repayment, if applicable, up to one year.

10. SECURE 2.0 ACT

President Biden signed the Consolidated Appropriations Act (CAA), including the SECURE 2.0 Act, into law on December 29, 2022. SECURE 2.0 builds on changes made by the SECURE Act of 2019 and the Plan document will be amended for provisions required to be effective in 2024 and will be amended in accordance with the required timeline of the act to the applicable provisions.

11. SUBSEQUENT EVENTS

Effective March 3, 2025, RealSafe Title LLC, formerly a participating company under the Anywhere Real Estate Group LLC Employee Saving Plan, adopted a separate retirement plan and transferred out the assets of active RealSafe employees who were participants in Anywhere Real Estate Group LLC Employee Saving Plan.

The Plan has evaluated subsequent events through September 12, 2025 which is the date these financial statements were available to be issued.
