REPORT OF
WESTMINSTER COLLEGE
403(b) RETIREMENT ACCOUNT
DECEMBER 31, 2024 AND 2023

INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator of the
Westminster College 403(b) Retirement Account
Fulton, Missouri

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We were engaged to perform audits of the financial statements of the Westminster College 403(b) Retirement Account (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Disclaimer of Opinion

We do not express an opinion on the accompanying financial statements of the Plan. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements.

Basis for Disclaimer of Opinion

The Plan has not maintained sufficient accounting records and supporting documents relating to certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2008. As further discussed in Note 3, because of inadequacies in the Plan's records prior to 2008, we were unable to perform sufficient auditing procedures with respect to participants' individual account balances totaling approximately \$27,338,000 accumulated from the inception of the Plan through December 31, 2007, or to satisfy ourselves as to the basis on which participants' equity was stated as of December 31, 2007, or the propriety of the distributions to participants who terminated during the years then ended. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the accompanying financial statements may have been affected by these conditions. The estimated remaining unaudited balance of participants' individual accounts prior to 2008 was approximately \$5,011,000 as of December 31, 2024.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our responsibility is to conduct an audit of the Plan's financial statements in accordance with auditing standards generally accepted in the United States of America and to issue an auditor's report. However, because of the matters described in the *Basis for Disclaimer of Opinion* section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

We are required to be independent of the Plan, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental schedule of assets held at year end as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Because of the significance of the matters described in the *Basis for Disclaimer of Opinion* section of our report, it is inappropriate to, and we do not, express an opinion on the supplemental schedule referred to above.

NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN

The following description of the Westminster College 403(b) Retirement Account (the Plan) provides only general information. Participants should refer to the Plan agreement for a more comprehensive description of the Plan's provisions.

General: The Plan is a 403(b) defined contribution plan covering employees of Westminster College (the College). The Plan was established January 1, 1977, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility: All employees are immediately eligible to participate in the Plan except for independent contractors, students, and employees who normally work fewer than 20 hours per week. Employees must complete twelve months of service to be eligible to receive the College's employer contributions.

Contributions: Participants may contribute a portion of pretax compensation, as defined in the Plan, not to exceed 100% of compensation or maximum amounts specified by the Internal Revenue Service (IRS), in accordance with a participant salary deferral agreement. Participants who are at least 50 years of age may make an additional contribution to the Plan not to exceed \$7,500 in 2024 and 2023, under certain conditions. Participants may also contribute amounts representing rollover distributions from other qualified plans. The College may elect to make a discretionary contribution. The College made \$246,550 and \$196,313 in discretionary contributions in 2024 and 2023, respectively. Participants direct the investment of contributions into the various investment options offered by the Plan. The Plan currently offers mutual funds, insurance company general accounts, and pooled separate accounts as investment options for participants.

Under a previous contract with The Standard Insurance Company (the Standard), participants were eligible to elect an annuity benefit upon disability. Contributions are made by The Standard to TIAA-CREF. Contributions made by The Standard on behalf of these participants were \$2,997 and \$2,910 in 2024 and 2023, respectively.

Participant accounts: Each participant's account is credited with the participant's contributions and allocations of (a) the College's contributions, if any, and (b) Plan earnings, and charged with an allocation of Plan expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are automatically 100% vested in the portion of their accounts resulting from participant salary deferrals. Participants are also automatically 100% vested in the portion of their accounts resulting from College contributions made through September 30, 2012. Participants vest in College contributions made after September 30, 2012, at a rate of 20% after one year of service and in 20% increments each subsequent year with full vesting in College contributions after five years of service.

Forfeitures: If a participant's employment is terminated prior to normal retirement, the unvested portion of their account balance is forfeited. Forfeitures can be used to pay the Plan's administrative expenses or used to reduce the College's contributions to the Plan. During the years ended December 31, 2024 and 2023, \$11,145 and \$52,350, respectively, in forfeitures were used to reduce the College's contributions. Remaining forfeitures to be used to pay future plan expenses or reduce the College's contributions totaled \$51,907 and \$50,399 at December 31, 2024 and 2023, respectively.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loans are only granted in the event of a participant's hardship or for certain specified financial situations. The loans are secured by the balance in the participant's account and bear interest at a rate that is commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are payable ratably through payroll deductions.

Distributions of benefits: Distributions to plan participants are generally made to a participant after the participant's termination of employment. A participant may receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, a partial payment, an annuity, or installment payments.

Administration: The Plan's custodians, Talcott Resolution Life Insurance Company (TRLIC), Empower Annuity Insurance Company of America, Empower Trust Company, and TIAA-CREF, hold the Plan's assets, administer investment activity, and invest contributions in funds designated by participants. TRLIC was formerly Hartford Life Insurance Company, whose retirement plans business was acquired by Massachusetts Mutual Life Insurance Company in 2013 and later by Empower Retirement, LLC (Empower) in 2020. Empower and TIAA-CREF maintain participant accounts, process transactions, and provide account records to the Plan administrator and participants. Certain administrative and record-keeping costs are absorbed by the College. The College's Board of Trustees provides overall oversight of the Plan, with the Retirement Oversight Committee responsible for investment selection, performance monitoring, and reporting to the Board as needed.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Valuation of investments: Investments are reported at fair value, except for fully benefit-responsive contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would normally receive if they were to initiate permitted transactions under the terms of the Plan. Purchases and sales of securities are recorded on a trade date basis. Realized investment gains and losses are determined on the specific identification basis. Dividends are recorded on the declaration date. Interest is recorded when earned. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment securities of the Plan are exposed to various risks, such as interest rates, market, and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Contributions: Contributions from plan participants and the contributions from the College are recorded in the year which the employee contributions are withheld from compensation.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Expenses: Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the College. Expenses that are paid by the College are excluded from these financial statements. Certain administrative functions are performed by officers and employees of the College. No officer or employee receives compensation from the Plan for these services. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

Payment of benefits: Benefits are recorded when paid.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Subsequent events: Events that have occurred subsequent to December 31, 2024, have been evaluated through October 13, 2025, which represents the date the Plan's financial statements were approved by management and, therefore, available to be issued.

3. TAX STATUS

Effective January 1, 2019, the Plan adopted a volume submitter 403(b) plan sponsored by MassMutual. Sponsorship of this pre-approved volume submitter 403(b) plan was subsequently transferred to Empower Retirement LLC. The IRS has determined and informed Empower Retirement LLC by a letter dated April 7, 2021 that the volume submitter 403(b) plan sponsored by Empower Retirement LLC as amended through April 2, 2015, is in a form acceptable under section 403(b) of the Internal Revenue Code (IRC). An adopting sponsor may rely on the opinion letter issued by the IRS as evidence that the Plan is qualified under the applicable sections of the IRC. The Plan is relying on the opinion letter. Although the Plan has been amended since receiving the opinion letter, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan administrator believes that the Plan is qualified as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

In 2007, the DOL, the IRS and the Pension Benefit Guaranty Corporation published final regulations significantly changing rules and regulations governing 403(b) plans. One of the key changes eliminated the limited reporting previously allowed. Prior to 2009, plan level records were not required to be maintained. Effective in 2009, 403(b) plans are required to submit plan level financial information and are subject to audit. As a result of the regulations in effect prior to 2009, the Plan did not maintain sufficient records to provide evidence to support its balances as of December 31, 2007.

4. PLAN TERMINATION

Although it has not expressed any intent to do so, the College has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

5. TERMINATED PARTICIPANTS

Net assets available for benefits at December 31, 2024 and 2023 included \$22,827,141 and \$21,144,048, respectively, allocated to the accounts of individuals who, as of or prior to that date, had withdrawn from actively participating in the operations of the Plan, generally as a result of terminating employment. These amounts may be paid within the next year, at the request of the participants. These participants receive no further contributions but do receive allocations of investment income and Plan expenses.

6. CERTIFICATION OF INVESTMENT INFORMATION

Certain information in the accompanying financial statements and the ERISA-required supplemental schedule of assets held at year-end related to investments and notes receivable from participants held as of December 31, 2024 and 2023, and net appreciation in fair value of investments, interest and dividend income, and interest income on notes receivable from participants for the years then ended, was obtained by management and agreed to or derived from information certified as complete and accurate by TIAA-CREF, Empower Annuity Insurance Company of America (EAICA) on behalf of TRLIC, and Empower Trust Company, qualified institutions.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

7. FAIR VALUE OF INVESTMENTS

Plan investments are held in custodial accounts managed by TIAA-CREF, EAICA on behalf of TRLIC, and Empower Trust Company, and are unsecured. Therefore, these transactions qualify as party-in-interest transactions.

A fair value hierarchy is used that prioritizes the inputs to valuation techniques used to measure fair value of balances that are required or permitted to be measured at fair value for reporting in financial statements. The hierarchy gives the highest priority to the unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to the unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

- | | |
|---------|---|
| Level 1 | Valuation is based upon quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan has the ability to access. |
| Level 2 | Valuation is based upon quoted prices for similar assets or liabilities in active markets, quoted market prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, or inputs that are derived principally from or corroborated by observable market data by correlation or other means. Observable inputs may include interest rates, foreign exchange rates, and yield curves that are observable at commonly quoted intervals. |
| Level 3 | Valuation is based on methodologies that are unobservable and significant to the fair value measure. These may be generated from model-based techniques that use at least one significant assumption based on unobservable inputs for the asset or liability, which are typically based on an entity's own assumptions, as there is little, if any, related market activity. |

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the asset or liability. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of valuation methodologies used for assets recorded at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Mutual funds: Valued at the daily closing price as reported by the fund on an active market which is based on the underlying net asset value (NAV) of shares held by the Plan at year-end. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission (SEC). These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Pooled separate accounts - mutual funds: Valued at the NAV of shares held by the Plan at year-end. The Plan's shares are held in a pooled separate account maintained by TRLIC, and the Plan owns units in this pooled separate account. However, TRLIC does not file the account directly with the Department of Labor. Therefore, the Plan reports its allocable ownership interest in the underlying mutual funds in the table below. The account owns shares of mutual funds which are valued at the daily closing price as reported by the fund on an active market adjusted by the daily equivalent of any fee charged pursuant to the contract. As a result, these are reported as level 2 investments.

Pooled separate accounts – other: The unit value of the TIAA Real Estate pooled separate account is calculated daily and is derived from the market value of the underlying real estate holdings or other real estate-related investments. The TIAA Real Estate pooled separate account is registered with the SEC.

The TIAA Real Estate pooled separate account invests in real estate and real estate related investments. Its investments are valued at NAV. Although the underlying investments of the pooled separate account cannot be quickly sold and converted to liquid asset, the TIAA general account provides a liquidity guarantee to meet participant redemption, transfer or cash withdrawal requests varying from one to three days. Redemptions out of the investment are limited to once per quarter.

Insurance company general accounts: The TIAA Traditional Non-Benefit Responsive Annuity is valued at contract value, which approximates fair value based on analysis performed by the insurance company. Contract value equals the amounts contributed or transferred, less any withdrawals or transfers out, plus accrued interest. Liquidity restrictions apply to the TIAA Traditional Non-Benefit Responsive Annuity account such that transfers and distributions must be made over a period of up to 10 annual installments.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The tables below present the Plan's assets measured at fair value on a recurring basis as of December 31, aggregated by the level in the fair value hierarchy within which those measurements fall:

	Level 1	Level 2	Level 3	Total
2024				
Mutual funds	\$ 10,689,762	\$ -	\$ -	\$ 10,689,762
Pooled separate accounts - mutual funds	-	12,738,593	-	12,738,593
Pooled separate accounts - other	545,316	-	-	545,316
Insurance company general accounts	-	-	5,415,346	5,415,346

The table below sets forth a summary of changes in the fair value of the Plan's level 3 assets for the years ended December 31, 2024 and 2023:

	Insurance Company General Accounts	
	2024	2023
Balance, January 1	\$ 5,384,249	\$ 5,448,841
Interest income	241,050	257,050
Purchases	267,328	212,496
Sales	<u>(477,281)</u>	<u>(534,138)</u>
Balance, December 31	<u>\$ 5,415,346</u>	<u>\$ 5,384,249</u>

Level 3 Quantitative Information – The following table represents the Plan's level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs:

Instrument	Fair Value	Valuation Technique	Significant Unobservable Inputs	Range
December 31, 2024 TIAA Traditional Annuity	<u>\$ 5,415,346</u>	Discounted cash flow Theoretical transfer (exit value)	Risk-adjusted discount rate applied	3.00% - 6.50%
December 31, 2023 TIAA Traditional Annuity	<u>\$ 5,384,249</u>	Discounted cash flow Theoretical transfer (exit value)	Risk-adjusted discount rate applied	3.25% - 6.75%

Level 3 Qualitative Information – The Plan has processes and controls in place to ensure that fair value is reasonably estimated. TIAA-CREF provides a fair value estimate for these investments as described above. Valuation approaches are reviewed on an ongoing basis and revised as necessary based on changing market conditions to ensure values represent a reasonable exit price.

8. INVESTMENT CONTRACTS WITH INSURANCE COMPANIES

The Plan holds traditional investment contracts with insurance companies through the TIAA Traditional Benefit Responsive Account, the Talcott Resolution Life Insurance Company General Account, and the EAICA Fixed Account. These contracts meet the fully benefit-responsive investment contract criteria and, therefore, are reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following: the Plan's failure to qualify under Section 401(a) of the Internal Revenue Code or the failure of the trust to be tax-exempt under Section 501(a) of the Internal Revenue Code; premature termination of the contracts; Plan termination or merger; changes to the Plan's prohibition on competing investment options; and bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuers to terminate the contracts with the Plan and settle at an amount different from contract value. Examples of such events include the following: an uncured violation of the Plan's investment guidelines; a breach of material obligation under the contract; a material misrepresentation; and a material amendment to the agreement without the consent of the issuer.

9. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Party-in-interest transactions include transactions with fiduciaries or employees of the Plan, any person providing services to the Plan, an employer whose employees are covered by the Plan, a person who owns 50% or more of such an employer, and relatives of parties-in-interest. The Plan has various parties-in-interest. Investments are held with parties-in-interest and certain fees are paid to parties-in-interest.
