Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) ☒ Unmodified (2) ☐ Qualified (3) ☐ Disclaimer (4) ☐ Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) ☒ DOL Regulation 2520.103-8 (2) ☐ DOL Regulation 2520.103-12(d) (3) ☐ neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: **CROWE LLP**

(2) EIN: **35-0921680**

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) ☐ This form is filed for a CCT, PSA, DCG or MTIA. (2) ☐ It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		☒	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		☒	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		☒	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		☒	
e Was this plan covered by a fidelity bond?	☒		1500000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		☒	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)	☒		
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)	☒		
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		☒	
l Has the plan failed to provide any benefit when due under the plan?		☒	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)		☒	
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.			

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year?..... ☒ Yes ☐ No
If "Yes," enter the amount of any plan assets that reverted to the employer this year 0.

INDEPENDENT AUDITOR'S REPORT

To the JBS Investment Committee of
Pilgrim's Pride Pension Plan for Legacy Gold Kist Employees
Greeley, Colorado

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Pilgrim's Pride Pension Plan for Legacy Gold Kist Employees (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets in liquidation as of December 31, 2024, the statement of net assets available for benefits (modified cash basis) as of December 31, 2023 (ongoing), and the related statement of changes in net assets in liquidation for the year ended December 31, 2024, and the related statement of changes in net assets available for benefits (modified cash basis) for the year ended December 31, 2023 (ongoing), and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America for 2024 and in accordance with the modified cash basis of accounting for 2023 as described in Note 2.
- the information in the accompanying financial statements related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

(Continued)

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matters

Plan Termination and Liquidation Basis of Accounting

As further discussed in Note 1 to the financial statements, the JBS Investment Committee of the Plan approved a plan of liquidation on July 31, 2024, and management determined liquidation is imminent. As a result, the Plan changed its basis of accounting from the modified cash basis of accounting used in presenting the 2023 financial statements to the liquidation basis of accounting used in presenting the 2024 financial statements. Our opinion is not modified with respect to this matter.

Basis of Accounting – 2023 Financial Statements

We draw attention to Note 2 to the financial statements which describes the basis of accounting. The 2023 financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the 2024 financial statements in accordance with accounting principles generally accepted in the United States of America, and of the 2023 financial statements in accordance with the modified cash basis of accounting described in Note 2, and for determining that the modified cash basis of accounting is an acceptable basis for the preparation of the 2023 financial statement in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

(Continued)

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America for 2024 and modified cash basis of accounting for 2023 as described in Note 2.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America for 2024 and modified cash basis of accounting for 2023 as described in Note 2.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2024 and Schedule H, Line 4j – Schedule of Reportable Transactions for the year then ended, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

(Continued)

In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

PILGRIM'S PRIDE PENSION PLAN FOR LEGACY GOLD KIST EMPLOYEES
NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

NOTE 1 – DESCRIPTION OF PLAN

Gold Kist Inc. established the Plan effective as of July 1, 1970. Effective January 8, 2007, Gold Kist Inc., the former Plan Sponsor, became Pilgrim's Pride Corporation of Georgia, Inc. (Prior Company) pursuant to an agreement and plan of merger among Pilgrim's Pride Corporation, Protein Acquisition Corporation and Gold Kist Inc. Effective August 30, 2007, Pilgrim's Pride Corporation of Georgia, Inc. merged with Pilgrim's Pride Corporation (the Company or Sponsor). The Company is majority owned by JBS USA Food Company Holdings. The Plan, as amended, is a defined benefit plan covering all eligible salaried and hourly employees of the Prior Company. Effective February 8, 2007 (Plan Freeze Date), the Plan was amended to cease the future rate of benefit accruals and to close the Plan to new participants. All eligible employees must be at least age 21 as of the Plan Freeze Date to be a Plan participant. Additionally, employees who were not already participants are no longer eligible employees. However, employees who were prior Plan participants and are subsequently rehired after the Plan Freeze Date, may reenter the Plan as participants subject to the Employee Retirement Income Security Act of 1974 (ERISA) Break-in-Service rules for the purposes of vesting and attaining 90 points (salaried employees) and 91 points (hourly employees). The Plan is subject to the provisions of ERISA, as amended. The Plan was amended and restated effective January 1, 2017.

The following description of the Plan provides only general information. Participants should refer to the terms of the plan document for a more complete description of the Plan's provisions.

Administration: The Plan is administered by the JBS Investment Committee (the Committee) which is composed of employees of the Company and JBS USA Food Company Holdings. The Board of Directors of JBS USA Food Company Holdings, has granted the power and authority to the Committee to manage the affairs and supervise the administrations of the Plan.

Plan Termination: On June 27, 2024, the Committee of the Company executed a Unanimous Written Consent to terminate the Plan and approved a plan of liquidation effective July 31, 2024 (Termination Date). Due to the Company electing to terminate the Plan during 2024; it was determined by Plan management that liquidation was imminent and therefore, the financial statements were prepared on the liquidation basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

To liquidate assets of the Plan, the Plan opened a lump sum window during 2024 in which approximately \$46.6 million in lump sum distributions were made by the Plan. The Company submitted a Form 5310 to the Internal Revenue Service (IRS) in July 2024. The Plan Sponsor received a favorable determination letter of termination for the Plan from the IRS with respect to the Plan's tax qualified status dated September 8, 2025.

The Plan entered into a commitment agreement dated November 12, 2024, to purchase an annuity contract in the amount of \$36,415,250 from Principal Life Insurance Company (Principal) for all participants with a benefit obligation remaining in the Plan after the Plan Termination Lump Sum Window.

Estimable income and expenses through the liquidation date have been recorded as of December 31, 2024. All assets were distributed by the end of June 2025.

Funding Policy: The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum requirement. The Company pays the entire cost of the Plan and provides the Plan with assets with which to pay pension benefits to participants. Plan participants do not contribute. Each year the Company contributes to the trust fund based on information supplied by an independent actuary. During 2024 and 2023, the Company made employer contributions of \$1,000,000 and \$4,000,000, respectively. All funding requirements of ERISA have been met for 2024 and 2023.

NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

NOTE 1 – DESCRIPTION OF PLAN (Continued)

Pension Benefits: The Plan has separate benefit formulas for salaried and hourly employees, including those employees subject to the collective bargaining agreements, who have a vested interest in the Plan. At normal retirement age (65) a salaried employee is entitled to a pension benefit as determined by a formula based on final average earnings and the participant's years of credited service with a social security offset, as defined by the Plan. Hourly employees who work until retirement age (65) and terminate employment subsequent to January 1, 2000, are entitled to monthly pension benefits equal to \$11 for each year of credited service but not less than \$36, payable at the age of 65. Pension benefits for hourly employees who terminated employment prior to January 1, 2000, will be based on a different per year dollar amount per year of credited service, as defined by the Plan. Effective on the Plan Freeze Date, the Plan was amended to cease the future rate of benefit accruals. Participants of the Plan will no longer receive service credit after this date, except for vesting service credit and to determine a participant's age and service for purposes of attaining 90-point service (salaried employees) or 91-point service (hourly employees).

Upon retirement or employment termination, participants may elect to receive the value of their accumulated Plan benefits as one of various forms of annuities or as a lump-sum in the form of a cash payment, rollover to an IRA or other qualified plan. The lump-sum and level income annuity options as a form of payment are subject to the Plan's funded status in accordance with the Pension Protection Act of 2006. The Plan permits early retirement from age 55 through 64 (up to normal retirement age, age 65).

The Plan allows for automatic distributions (small cash-outs) on behalf of terminated participants without their consent, if the value of their vested benefit is \$7,000 or less. If the value of the participant's vested benefit is less than or equal to \$7,000, the participant must make an affirmative election for payment within 30 days of prior notification from the Plan. After sending all required notices from the Plan, to the last known address, if the participant does not make their own election within the required notification period, for a benefit value of: (1) \$1,000 or less, the Plan will automatically cash out and issue payment directly to the participant and send payment to the participant's last known address; or (2) more than \$1,000 but less than or equal to \$5,000, the Plan will automatically rollover and issue payment to an individual retirement account with Prudential. An account will be opened in the participant's name and the payment will be invested in a Federal Deposit Insurance Corporation insured qualified savings account.

Vesting: All employees with one year of service who were at least age 21 as of the Plan Freeze Date became Plan participants and are vested after five years of service. All employees with at least one year of service and who are at least age 55 as of the Plan Freeze Date and are Plan participants become 100% vested. Participants who were employed by Gold Kist Inc. on December 26, 2006, became 100% vested in the Plan due to a change in control as of December 27, 2006. Effective July 16, 2024, each person who on July 16, 2024, is a participant shall become 100% immediately and fully vested in their Plan benefit.

Death and Disability benefits: If a participant dies with a vested retirement income (as defined) while actively employed by the Company, a death benefit equal to 50% of the deceased participant's unreduced accumulated pension benefits is paid to the participant's surviving spouse, if any; otherwise, no benefit is payable. If a participant with a vested retirement income dies after his severance from service (as defined) with the Company, but prior to his annuity benefit start date, the participant's surviving spouse, if any, is entitled to 50% of the deceased participant's reduced monthly retirement income that starts on the later of the participant's early retirement date or the first day of the month following his death. If a participant with a vested retirement income dies after his severance from service (as defined) with the Company and after his annuity start date, the participant's surviving spouse, if any, entitled benefit, if any, is based on the participant's election made as of the annuity start date. Active employees with at least five years of vesting service who become totally disabled are entitled to receive credited service while disabled until the age of 65. Effective on the Plan Freeze Date, the Plan was amended to cease benefit accruals for terminated vested participants who are or may become totally and permanently disabled.

NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

NOTE 1 – DESCRIPTION OF PLAN (Continued)

Additionally, effective March 31, 2007, no additional service accruals will be credited for any period of total and permanent disability after this date.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting: Due to the Company electing to terminate the Plan during 2024; it was determined by Plan management that liquidation was imminent and therefore, the financial statements were prepared on the liquidation basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP) for the year ended December 31, 2024.

For the year ended December 31, 2023, the financial statements of the Plan were prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than GAAP. The modified cash basis of accounting is the cash basis of accounting, with the exception of investments, which are valued at fair value, and investment transactions and the related accrued investment income and accrued expenses, which are recorded on the accrual basis. Receivables arising from employer contributions and other transactions, which would be recognized under GAAP, and which may be material in amount, are not recognized in the accompanying financial statements. There was no material effect on the net assets as a result of the change in basis of accounting from modified cash basis to liquidation basis. The fair values of the Plan's investments have been determined to approximate liquidation values. The effect on the accumulated plan benefits is described in Note 5.

In 2024, \$277,564 was accrued for fees to be incurred through liquidation and \$58,699 was accrued for investment income to be earned in the Plan. During 2025, refunds totaling \$1,399,433 were paid back to the Plan from Principal Life Insurance Company. This amount was accrued as other income as of December 31, 2024.

Use of Estimates: The preparation of financial statements in accordance with the liquidation basis of accounting and the modified cash basis of accounting requires management to make estimates and assumptions that affect the reported amounts of Plan assets available for benefits and the actuarial present value of accumulated plan benefits as the date of the financial statements. Actual results could differ from those estimates. The Plan uses an actuary to determine the actuarial present value of accumulated plan benefits. A change in the actuarial assumptions used could significantly change the amount of the actuarial present value of accumulated plan benefits reported in the accompanying financial statements.

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the custodian. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Payment of Benefits: Benefits are recorded when paid.

(Continued)

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES (Continued)

Administrative Expenses: The Plan's expenses are paid either by the Plan or the Company. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets in liquidation for the year ending December 31, 2024, and the statement of changes in net assets available for benefits on a modified cash basis for the year ended December 31, 2023. In addition, certain investment related expenses are included in net appreciation in fair value of investments presented in the accompanying statement of changes in net assets in liquidation for the year ending December 31, 2024, and the statement of changes in net assets available for benefits on a modified cash basis for the year ended December 31, 2023.

Risks and Uncertainties: The Plan holds various investments. Investments are exposed to various risks such as interest rate, market, liquidity, credit and risks related to global events. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the fair values of investments will occur in the near term and that such changes could materially affect participant's account balances, and the amounts reported in the statement of net assets in liquidation as of December 31, 2024, and the statement of net assets available for benefits on a modified cash basis as of December 31, 2023.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

NOTE 3 – CERTIFIED INVESTMENTS

Except for the fair value of the Plan's investment in PRISA PF LP of \$4,750,721 as of December 31, 2023, and the related net depreciation in the fair value of this investment of \$640,938, for the year ended December 31, 2023, substantially all information related to the investments disclosed in the accompanying financial statements and ERISA-required supplemental schedules, including investments held at December 31, 2024 and 2023, and net appreciation (depreciation) in fair value of investments, interest and dividends, for the years then ended, was obtained by management and agreed to or derived from information certified as complete and accurate by Empower Annuity Insurance Company (EAIC) (formerly, Prudential Retirement Insurance and Annuity Company) and Empower Trust Company, LLC.

NOTE 4 – FAIR VALUE MEASUREMENTS

Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

- *Level 1* – Quoted prices (adjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.
- *Level 2* - Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.
- *Level 3* - Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

NOTE 4 – FAIR VALUE MEASUREMENTS (Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Mutual Funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges.

Limited Partnership: The fair value of the limited partnership is estimated utilizing the net asset valuations provided by the fund and their administrator. The Plan holds an interest in PRISA LP (Partnership). The Company substantiates the fair value at year-end through a comparison of the Partnerships capital as reported on the K-1 to that reported in the audited financial statements of the Partnership. The Plan records its proportionate share of the Partnerships income, expense, and realized and unrealized gains and losses. The Partnerships investment is redeemable on a quarterly basis, with a 90-day redemption notification requirement, and is subject to certain restrictions and priorities imposed by the fund managers. At December 31, 2024 and 2023, there were no unfunded commitments of capital.

Pooled Separate Accounts: The fair values of participation units held in pooled separate accounts are based on the net asset values reported by the fund managers as of the financial statement dates and recent transaction prices. Each pooled separate account provides for daily redemptions by the Plan with no advance notice requirements and has redemption prices that are determined by the fund's net asset value per unit.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	2024			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ -	\$ -	\$ -	\$ -
Investments measured at NAV as a practical expedient *				3,155,201
Total investments at fair value				\$ 3,155,201
	2023			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 22,670,933	\$ -	\$ -	\$ 22,670,933
Investments measured at NAV as a practical expedient *				73,167,569
Total investments at fair value				\$ 95,838,502

* Investments measured at fair value using net asset value per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in the hierarchy tables for such investments are intended to permit reconciliation of the fair value hierarchy to the investments at fair value line item presented in the statement of net assets in liquidation as of December 31, 2024, and the statement of net assets available for benefits – modified cash basis as of December 31, 2023.

NOTE 5 – ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries.

The accumulated plan benefits for active salaried employees are based on the monthly average compensation for the highest five complete calendar years during the last 10 complete calendar years of employment. Employee earnings after February 8, 2007, are not considered. The accumulated plan benefits for active hourly employees are based on established dollar amounts as defined by the Plan times the number of years of credited service. Benefits payable under all circumstances—retirement, death, disability and termination of employment—are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment. The computations of the actuarial present value of accumulated plan benefits were made of January 1, 2024. Had the valuation been performed as of December 31, there would be no material differences. The December 31, 2024, actuarial valuation, reflecting the liquidation basis of accounting, is not yet available.

The significant actuarial assumptions used in the valuation as of December 31, 2023, were:

Mortality rates for healthy and disabled participants	Pri-2012 total dataset employee/retiree with Scale MP-2021. Pri-2012 total dataset disabled with Scale MP-2021.
Retirement age	Rates of retirement are according to a table ranging from 9% for age 55 up to 100% at age 71 and above.
Termination	Probabilities that active participants will terminate are according to a table ranging from 35% for age 25 or less to 0% at age 55 and above.
Spouse's benefit	Husbands are assumed to be three years older than their wives. 80% of the eligible male participants and 80% of the eligible female participants who are or will become eligible for coverage under the Spouse's Benefit will be survived by an eligible
Expected return on plan assets	3.50%
Discount Effective Rate	5.32%

As discussed in Note 1, the Company terminated the Plan effective July 31, 2024. Due to the timing of the termination amendment's adoption and effective date, the actuarial assumptions above as of December 31, 2024, are based on the presumption that the Plan will continue.

NOTE 5 – ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (Continued)

A summary of the actuarial present value of accumulated plan benefits as determined by the Plan's actuary is as follows:

	<u>December 31, 2023</u>
Actuarial present value of accumulated plan benefits	
Vested benefits:	
Participants receiving benefits	\$ 48,437,063
Participants with deferred benefits	34,478,005
Other participants	<u>16,807,311</u>
Total vested accumulated benefits	99,722,379
Nonvested benefits	<u>57,109</u>
Total actuarial present value of accumulated plan benefits (ongoing)	<u>\$ 99,779,488</u>

The actuarial present value of changes in accumulated plan benefits is as follows:

	<u>December 31, 2023</u>
Actuarial present value of accumulated plan benefits at beginning of year (ongoing)	\$ 101,514,885
Increase (decrease) during the year attributable to:	
Increase for interest	5,174,433
Benefits paid	(8,612,697)
Changes in actuarial assumptions	2,189,745
Other changes	<u>(486,878)</u>
Net decrease	<u>(1,735,397)</u>
Actuarial present value of accumulated plan benefits at end of year (ongoing)	<u>\$ 99,779,488</u>

The \$2,189,745 increase in the present value of accumulated plan benefits is primarily due to actuarial assumption changes attributable to the change in the discount effective interest rate from 5.32% to 5.10%.

NOTE 6 – PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor's regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Certain administrative functions are performed by officers or employees of the Sponsor. No such officer or employee receives compensation from the Plan. Some administrative expenses of the Plan are paid directly by the Sponsor. Certain investments are managed by EAIC and, therefore, these transactions and the Plan's payment of fees to EAIC qualify as party-in-interest transactions.

NOTE 7 – TAX STATUS

The Plan has received a determination letter from the Internal Revenue Service dated December 27, 2017, stating that the Plan and related trust are designed in accordance with the applicable sections of the IRC, and therefore, the related trust is exempt from taxation. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and related trust is tax-exempt.

As described further in Note 1, in July 2024, the Plan Sponsor filed an application for Determination for Terminating Plan and the Plan Sponsor received a favorable determination letter of termination for the Plan from the IRS with respect to the Plan's tax qualified status dated September 8, 2025.

GAAP requires plan management to evaluate tax positions taken by the Plan. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024 and 2023, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2021.

NOTE 8 – RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets in liquidation per the financial statements at December 31, 2024, and the statement of net assets available for benefits (modified cash basis) as of December 31, 2023, (ongoing) to the Form 5500:

NOTE 9 – SUBSEQUENT EVENTS

Following the settlement of all participant benefit obligations through lump-sum distributions and the purchase of annuity contracts, the Plan had excess assets available for distribution. On March 26, 2025, the Committee approved to deposit 70% of the reversion assets into the Pilgrim's Pride Retirement Savings Plan and the remaining reversion assets would be distributed to the Plan Sponsor. On June 10, 2025, the Plan held approximately \$4,386,640 of excess assets. Of this amount, \$3,070,648 was transferred to Pilgrim's Pride Retirement Savings Plan and \$1,315,992 was reverted to the Plan Sponsor. These distributions reduced the Plan's net assets available for benefits in the period the distributions were made.

The Plan has evaluated subsequent events through October 9, 2025, the date the financial statements were available to be issued.

Actuarial methods

Under the actuarial methods described below, if all current assumptions remain constant and are realized, funding at least the minimum required contribution each year will eventually accumulate sufficient plan assets to cover the funding target. Future widening of the interest rate stabilization corridor may extend the time period for the plan to become fully funded.

Cost method

Costs have been computed in accordance with the unit credit actuarial cost method and reflect the actuarial assumptions described under “Actuarial assumptions” of this report as provided under the applicable regulations of the Pension Protection Act of 2006.

Target normal cost

The target normal cost is the present value of benefits expected to accrue during the plan year plus an estimate of the expenses to be paid from plan assets during the plan year.

Funding target and funding shortfall

The funding target is the present value of benefits accrued as of the beginning of the plan year and the funding shortfall is the excess of the funding target over the actuarial value of assets (reduced by the credit balance). The initial funding shortfall is amortized over 15 years.

In subsequent years, the funding shortfall less the present value of prior year amortization installments is amortized over 15 years, and added to any prior year amortization installments.

Segment rates are adjusted as necessary to fall within the specified corridor of the corresponding 25-year average of segment rates for the period ending September 30 of the calendar year preceding the first day of the plan year. The specified corridor is:

<u>Plan year</u>	<u>Corridor</u>
Through 2030	95% - 105%
2031	90% - 110%
2032	85% - 115%
2033	80% - 120%
2034	75% - 125%
2035 and later	70% - 130%

In the event the 25-year average of either the first, second, or third segment rate falls below 5%, the 25-year average of such rate will be deemed to be 5%.

The adjustments to fall within the specified corridor of the 25-year average of segment rates apply for determining the minimum required contribution and related funded percentages. They do not apply for determining the maximum tax deductible contribution or certain other situations.

Sponsor elections

Discount rate: Segment rates, with a 4-month lookback

Mortality table: Prescribed IRS generational mortality table – separate

At-risk determination

The at-risk funding target is determined by assuming that participants eligible to retire in the current plan year and next 10 plan years retire at the earliest possible date, but not before the end of the plan year. All participants are assumed to elect the optional form resulting in the highest possible present value.

A load is added to the at-risk funding target and at-risk target normal cost when a plan is at-risk in at least two years during the preceding four years. The load increases the at-risk funding target by 4% of the not at-risk funding target plus \$700 per participant, and increases the at-risk target normal cost by 4% of the not at-risk target normal cost.

The funding target and target normal cost are calculated by multiplying the not at-risk values by 100% minus the phase-in percentage, plus the at-risk values multiplied by the phase-in percentage.

Credit balance

The credit balance consists of the carryover balance from excess contributions prior to the Pension Protection Act (PPA) of 2006, plus the prefunding balance from elected excess contributions after the PPA. Balances accumulate with interest and are reduced for amounts applied towards the minimum required contribution, voluntary waivers by the plan sponsor, and compelled waivers to avoid benefit restrictions. The actuarial value of assets is reduced by the credit balance to determine certain funded percentages and to determine the funding shortfall.

Asset valuation method

The actuarial value of assets is determined using a smoothed fair market value of assets over the current and prior two quarters, adjusted for contributions, benefit payments, administrative expenses, and expected earnings.

The actuarial value of assets is adjusted to be no less than 90% or no more than 110% of the fair market value of assets, as required by IRC Section 430(g)(3)(B)(iii).

Since the expected earnings assumption cannot exceed the third segment rate, over time, the method may produce an actuarial value of assets slightly below the fair market value of assets.

The actuarial value of assets for determining the maximum tax deductible contribution reflects interest rate stabilization rates for discounting contributions and limiting expected earnings.

Actuarial assumptions

Funding assumptions:

The discount rate and mortality assumptions are prescribed assumptions set by law. All other assumptions are non-prescribed assumptions set by the actuary which reflect estimates of future experience, are appropriate for the purpose of the measurement, consider relevant plan characteristics, and contain no significant bias unless otherwise noted. Relevant historical information, such as credible plan experience and experience from representative populations, was considered in the selection of the non-prescribed assumptions with a significant effect on the measurement. Factors that may affect future experience and the views of experts were also considered.

An annual review of actuarial assumptions is completed and there has been no consistent pattern of material gains or losses occurring for any non-prescribed assumptions.

The investment return assumption reflects the expected return on plan assets and it considers the investment policy of Pilgrim's Pride including the asset allocation of the plan.

ASC 960 assumptions:

All assumptions are set by the plan sponsor and they align with the Funding Assumptions except for the mortality assumption and discount rate assumptions.

The mortality assumption reflects experience from representative populations, based on the Pri-2012 Private Retirement Plans Mortality Table Report issued by the Society of Actuaries (SOA) in October 2019 and the Mortality Improvement Scale MP-2021 Report issued by the SOA in October 2021.

The discount rate was compared to the effective discount rate determined by discounting plan cashflows using the 12/31/2023 Empower Above Mean Curve.

INDEPENDENT AUDITOR'S REPORT

To the JBS Investment Committee of
Pilgrim's Pride Pension Plan for Legacy Gold Kist Employees
Greeley, Colorado

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Pilgrim's Pride Pension Plan for Legacy Gold Kist Employees (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets in liquidation as of December 31, 2024, the statement of net assets available for benefits (modified cash basis) as of December 31, 2023 (ongoing), and the related statement of changes in net assets in liquidation for the year ended December 31, 2024, and the related statement of changes in net assets available for benefits (modified cash basis) for the year ended December 31, 2023 (ongoing), and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America for 2024 and in accordance with the modified cash basis of accounting for 2023 as described in Note 2.
- the information in the accompanying financial statements related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

(Continued)

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matters

Plan Termination and Liquidation Basis of Accounting

As further discussed in Note 1 to the financial statements, the JBS Investment Committee of the Plan approved a plan of liquidation on July 31, 2024, and management determined liquidation is imminent. As a result, the Plan changed its basis of accounting from the modified cash basis of accounting used in presenting the 2023 financial statements to the liquidation basis of accounting used in presenting the 2024 financial statements. Our opinion is not modified with respect to this matter.

Basis of Accounting – 2023 Financial Statements

We draw attention to Note 2 to the financial statements which describes the basis of accounting. The 2023 financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the 2024 financial statements in accordance with accounting principles generally accepted in the United States of America, and of the 2023 financial statements in accordance with the modified cash basis of accounting described in Note 2, and for determining that the modified cash basis of accounting is an acceptable basis for the preparation of the 2023 financial statement in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

(Continued)

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America for 2024 and modified cash basis of accounting for 2023 as described in Note 2.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America for 2024 and modified cash basis of accounting for 2023 as described in Note 2.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2024 and Schedule H, Line 4j – Schedule of Reportable Transactions for the year then ended, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

(Continued)

In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

PILGRIM'S PRIDE PENSION PLAN FOR LEGACY GOLD KIST EMPLOYEES
NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

NOTE 1 – DESCRIPTION OF PLAN

Gold Kist Inc. established the Plan effective as of July 1, 1970. Effective January 8, 2007, Gold Kist Inc., the former Plan Sponsor, became Pilgrim's Pride Corporation of Georgia, Inc. (Prior Company) pursuant to an agreement and plan of merger among Pilgrim's Pride Corporation, Protein Acquisition Corporation and Gold Kist Inc. Effective August 30, 2007, Pilgrim's Pride Corporation of Georgia, Inc. merged with Pilgrim's Pride Corporation (the Company or Sponsor). The Company is majority owned by JBS USA Food Company Holdings. The Plan, as amended, is a defined benefit plan covering all eligible salaried and hourly employees of the Prior Company. Effective February 8, 2007 (Plan Freeze Date), the Plan was amended to cease the future rate of benefit accruals and to close the Plan to new participants. All eligible employees must be at least age 21 as of the Plan Freeze Date to be a Plan participant. Additionally, employees who were not already participants are no longer eligible employees. However, employees who were prior Plan participants and are subsequently rehired after the Plan Freeze Date, may reenter the Plan as participants subject to the Employee Retirement Income Security Act of 1974 (ERISA) Break-in-Service rules for the purposes of vesting and attaining 90 points (salaried employees) and 91 points (hourly employees). The Plan is subject to the provisions of ERISA, as amended. The Plan was amended and restated effective January 1, 2017.

The following description of the Plan provides only general information. Participants should refer to the terms of the plan document for a more complete description of the Plan's provisions.

Administration: The Plan is administered by the JBS Investment Committee (the Committee) which is composed of employees of the Company and JBS USA Food Company Holdings. The Board of Directors of JBS USA Food Company Holdings, has granted the power and authority to the Committee to manage the affairs and supervise the administrations of the Plan.

Plan Termination: On June 27, 2024, the Committee of the Company executed a Unanimous Written Consent to terminate the Plan and approved a plan of liquidation effective July 31, 2024 (Termination Date). Due to the Company electing to terminate the Plan during 2024; it was determined by Plan management that liquidation was imminent and therefore, the financial statements were prepared on the liquidation basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

To liquidate assets of the Plan, the Plan opened a lump sum window during 2024 in which approximately \$46.6 million in lump sum distributions were made by the Plan. The Company submitted a Form 5310 to the Internal Revenue Service (IRS) in July 2024. The Plan Sponsor received a favorable determination letter of termination for the Plan from the IRS with respect to the Plan's tax qualified status dated September 8, 2025.

The Plan entered into a commitment agreement dated November 12, 2024, to purchase an annuity contract in the amount of \$36,415,250 from Principal Life Insurance Company (Principal) for all participants with a benefit obligation remaining in the Plan after the Plan Termination Lump Sum Window.

Estimable income and expenses through the liquidation date have been recorded as of December 31, 2024. All assets were distributed by the end of June 2025.

Funding Policy: The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum requirement. The Company pays the entire cost of the Plan and provides the Plan with assets with which to pay pension benefits to participants. Plan participants do not contribute. Each year the Company contributes to the trust fund based on information supplied by an independent actuary. During 2024 and 2023, the Company made employer contributions of \$1,000,000 and \$4,000,000, respectively. All funding requirements of ERISA have been met for 2024 and 2023.

NOTE 1 – DESCRIPTION OF PLAN (Continued)

Pension Benefits: The Plan has separate benefit formulas for salaried and hourly employees, including those employees subject to the collective bargaining agreements, who have a vested interest in the Plan. At normal retirement age (65) a salaried employee is entitled to a pension benefit as determined by a formula based on final average earnings and the participant's years of credited service with a social security offset, as defined by the Plan. Hourly employees who work until retirement age (65) and terminate employment subsequent to January 1, 2000, are entitled to monthly pension benefits equal to \$11 for each year of credited service but not less than \$36, payable at the age of 65. Pension benefits for hourly employees who terminated employment prior to January 1, 2000, will be based on a different per year dollar amount per year of credited service, as defined by the Plan. Effective on the Plan Freeze Date, the Plan was amended to cease the future rate of benefit accruals. Participants of the Plan will no longer receive service credit after this date, except for vesting service credit and to determine a participant's age and service for purposes of attaining 90-point service (salaried employees) or 91-point service (hourly employees).

Upon retirement or employment termination, participants may elect to receive the value of their accumulated Plan benefits as one of various forms of annuities or as a lump-sum in the form of a cash payment, rollover to an IRA or other qualified plan. The lump-sum and level income annuity options as a form of payment are subject to the Plan's funded status in accordance with the Pension Protection Act of 2006. The Plan permits early retirement from age 55 through 64 (up to normal retirement age, age 65).

The Plan allows for automatic distributions (small cash-outs) on behalf of terminated participants without their consent, if the value of their vested benefit is \$7,000 or less. If the value of the participant's vested benefit is less than or equal to \$7,000, the participant must make an affirmative election for payment within 30 days of prior notification from the Plan. After sending all required notices from the Plan, to the last known address, if the participant does not make their own election within the required notification period, for a benefit value of: (1) \$1,000 or less, the Plan will automatically cash out and issue payment directly to the participant and send payment to the participant's last known address; or (2) more than \$1,000 but less than or equal to \$5,000, the Plan will automatically rollover and issue payment to an individual retirement account with Prudential. An account will be opened in the participant's name and the payment will be invested in a Federal Deposit Insurance Corporation insured qualified savings account.

Vesting: All employees with one year of service who were at least age 21 as of the Plan Freeze Date became Plan participants and are vested after five years of service. All employees with at least one year of service and who are at least age 55 as of the Plan Freeze Date and are Plan participants become 100% vested. Participants who were employed by Gold Kist Inc. on December 26, 2006, became 100% vested in the Plan due to a change in control as of December 27, 2006. Effective July 16, 2024, each person who on July 16, 2024, is a participant shall become 100% immediately and fully vested in their Plan benefit.

Death and Disability benefits: If a participant dies with a vested retirement income (as defined) while actively employed by the Company, a death benefit equal to 50% of the deceased participant's unreduced accumulated pension benefits is paid to the participant's surviving spouse, if any; otherwise, no benefit is payable. If a participant with a vested retirement income dies after his severance from service (as defined) with the Company, but prior to his annuity benefit start date, the participant's surviving spouse, if any, is entitled to 50% of the deceased participant's reduced monthly retirement income that starts on the later of the participant's early retirement date or the first day of the month following his death. If a participant with a vested retirement income dies after his severance from service (as defined) with the Company and after his annuity start date, the participant's surviving spouse, if any, entitled benefit, if any, is based on the participant's election made as of the annuity start date. Active employees with at least five years of vesting service who become totally disabled are entitled to receive credited service while disabled until the age of 65. Effective on the Plan Freeze Date, the Plan was amended to cease benefit accruals for terminated vested participants who are or may become totally and permanently disabled.

PILGRIM'S PRIDE PENSION PLAN FOR LEGACY GOLD KIST EMPLOYEES
NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

NOTE 1 – DESCRIPTION OF PLAN (Continued)

Additionally, effective March 31, 2007, no additional service accruals will be credited for any period of total and permanent disability after this date.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting: Due to the Company electing to terminate the Plan during 2024; it was determined by Plan management that liquidation was imminent and therefore, the financial statements were prepared on the liquidation basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP) for the year ended December 31, 2024.

For the year ended December 31, 2023, the financial statements of the Plan were prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than GAAP. The modified cash basis of accounting is the cash basis of accounting, with the exception of investments, which are valued at fair value, and investment transactions and the related accrued investment income and accrued expenses, which are recorded on the accrual basis. Receivables arising from employer contributions and other transactions, which would be recognized under GAAP, and which may be material in amount, are not recognized in the accompanying financial statements. There was no material effect on the net assets as a result of the change in basis of accounting from modified cash basis to liquidation basis. The fair values of the Plan's investments have been determined to approximate liquidation values. The effect on the accumulated plan benefits is described in Note 5.

In 2024, \$277,564 was accrued for fees to be incurred through liquidation and \$58,699 was accrued for investment income to be earned in the Plan. During 2025, refunds totaling \$1,399,433 were paid back to the Plan from Principal Life Insurance Company. This amount was accrued as other income as of December 31, 2024.

Use of Estimates: The preparation of financial statements in accordance with the liquidation basis of accounting and the modified cash basis of accounting requires management to make estimates and assumptions that affect the reported amounts of Plan assets available for benefits and the actuarial present value of accumulated plan benefits as the date of the financial statements. Actual results could differ from those estimates. The Plan uses an actuary to determine the actuarial present value of accumulated plan benefits. A change in the actuarial assumptions used could significantly change the amount of the actuarial present value of accumulated plan benefits reported in the accompanying financial statements.

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the custodian. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Payment of Benefits: Benefits are recorded when paid.

(Continued)

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES (Continued)

Administrative Expenses: The Plan's expenses are paid either by the Plan or the Company. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets in liquidation for the year ending December 31, 2024, and the statement of changes in net assets available for benefits on a modified cash basis for the year ended December 31, 2023. In addition, certain investment related expenses are included in net appreciation in fair value of investments presented in the accompanying statement of changes in net assets in liquidation for the year ending December 31, 2024, and the statement of changes in net assets available for benefits on a modified cash basis for the year ended December 31, 2023.

Risks and Uncertainties: The Plan holds various investments. Investments are exposed to various risks such as interest rate, market, liquidity, credit and risks related to global events. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the fair values of investments will occur in the near term and that such changes could materially affect participant's account balances, and the amounts reported in the statement of net assets in liquidation as of December 31, 2024, and the statement of net assets available for benefits on a modified cash basis as of December 31, 2023.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

NOTE 3 – CERTIFIED INVESTMENTS

Except for the fair value of the Plan's investment in PRISA PF LP of \$4,750,721 as of December 31, 2023, and the related net depreciation in the fair value of this investment of \$640,938, for the year ended December 31, 2023, substantially all information related to the investments disclosed in the accompanying financial statements and ERISA-required supplemental schedules, including investments held at December 31, 2024 and 2023, and net appreciation (depreciation) in fair value of investments, interest and dividends, for the years then ended, was obtained by management and agreed to or derived from information certified as complete and accurate by Empower Annuity Insurance Company (EAIC) (formerly, Prudential Retirement Insurance and Annuity Company) and Empower Trust Company, LLC.

NOTE 4 – FAIR VALUE MEASUREMENTS

Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

- *Level 1* – Quoted prices (adjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.
- *Level 2* - Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.
- *Level 3* - Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

NOTE 4 – FAIR VALUE MEASUREMENTS (Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Mutual Funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges.

Limited Partnership: The fair value of the limited partnership is estimated utilizing the net asset valuations provided by the fund and their administrator. The Plan holds an interest in PRISA LP (Partnership). The Company substantiates the fair value at year-end through a comparison of the Partnerships capital as reported on the K-1 to that reported in the audited financial statements of the Partnership. The Plan records its proportionate share of the Partnerships income, expense, and realized and unrealized gains and losses. The Partnerships investment is redeemable on a quarterly basis, with a 90-day redemption notification requirement, and is subject to certain restrictions and priorities imposed by the fund managers. At December 31, 2024 and 2023, there were no unfunded commitments of capital.

Pooled Separate Accounts: The fair values of participation units held in pooled separate accounts are based on the net asset values reported by the fund managers as of the financial statement dates and recent transaction prices. Each pooled separate account provides for daily redemptions by the Plan with no advance notice requirements and has redemption prices that are determined by the fund's net asset value per unit.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	2024			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ -	\$ -	\$ -	\$ -
Investments measured at NAV as a practical expedient *				3,155,201
Total investments at fair value				\$ 3,155,201
	2023			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 22,670,933	\$ -	\$ -	\$ 22,670,933
Investments measured at NAV as a practical expedient *				73,167,569
Total investments at fair value				\$ 95,838,502

* Investments measured at fair value using net asset value per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in the hierarchy tables for such investments are intended to permit reconciliation of the fair value hierarchy to the investments at fair value line item presented in the statement of net assets in liquidation as of December 31, 2024, and the statement of net assets available for benefits – modified cash basis as of December 31, 2023.

NOTE 5 – ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries.

The accumulated plan benefits for active salaried employees are based on the monthly average compensation for the highest five complete calendar years during the last 10 complete calendar years of employment. Employee earnings after February 8, 2007, are not considered. The accumulated plan benefits for active hourly employees are based on established dollar amounts as defined by the Plan times the number of years of credited service. Benefits payable under all circumstances—retirement, death, disability and termination of employment—are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment. The computations of the actuarial present value of accumulated plan benefits were made of January 1, 2024. Had the valuation been performed as of December 31, there would be no material differences. The December 31, 2024, actuarial valuation, reflecting the liquidation basis of accounting, is not yet available.

The significant actuarial assumptions used in the valuation as of December 31, 2023, were:

Mortality rates for healthy and disabled participants	Pri-2012 total dataset employee/retiree with Scale MP-2021. Pri-2012 total dataset disabled with Scale MP-2021.
Retirement age	Rates of retirement are according to a table ranging from 9% for age 55 up to 100% at age 71 and above.
Termination	Probabilities that active participants will terminate are according to a table ranging from 35% for age 25 or less to 0% at age 55 and above.
Spouse's benefit	Husbands are assumed to be three years older than their wives. 80% of the eligible male participants and 80% of the eligible female participants who are or will become eligible for coverage under the Spouse's Benefit will be survived by an eligible
Expected return on plan assets	3.50%
Discount Effective Rate	5.32%

As discussed in Note 1, the Company terminated the Plan effective July 31, 2024. Due to the timing of the termination amendment's adoption and effective date, the actuarial assumptions above as of December 31, 2024, are based on the presumption that the Plan will continue.

NOTE 5 – ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (Continued)

A summary of the actuarial present value of accumulated plan benefits as determined by the Plan's actuary is as follows:

	<u>December 31, 2023</u>
Actuarial present value of accumulated plan benefits	
Vested benefits:	
Participants receiving benefits	\$ 48,437,063
Participants with deferred benefits	34,478,005
Other participants	<u>16,807,311</u>
Total vested accumulated benefits	99,722,379
Nonvested benefits	<u>57,109</u>
Total actuarial present value of accumulated plan benefits (ongoing)	<u>\$ 99,779,488</u>

The actuarial present value of changes in accumulated plan benefits is as follows:

	<u>December 31, 2023</u>
Actuarial present value of accumulated plan benefits at beginning of year (ongoing)	\$ 101,514,885
Increase (decrease) during the year attributable to:	
Increase for interest	5,174,433
Benefits paid	(8,612,697)
Changes in actuarial assumptions	2,189,745
Other changes	<u>(486,878)</u>
Net decrease	<u>(1,735,397)</u>
Actuarial present value of accumulated plan benefits at end of year (ongoing)	<u>\$ 99,779,488</u>

The \$2,189,745 increase in the present value of accumulated plan benefits is primarily due to actuarial assumption changes attributable to the change in the discount effective interest rate from 5.32% to 5.10%.

NOTE 6 – PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor's regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Certain administrative functions are performed by officers or employees of the Sponsor. No such officer or employee receives compensation from the Plan. Some administrative expenses of the Plan are paid directly by the Sponsor. Certain investments are managed by EAIC and, therefore, these transactions and the Plan's payment of fees to EAIC qualify as party-in-interest transactions.

NOTE 7 – TAX STATUS

The Plan has received a determination letter from the Internal Revenue Service dated December 27, 2017, stating that the Plan and related trust are designed in accordance with the applicable sections of the IRC, and therefore, the related trust is exempt from taxation. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and related trust is tax-exempt.

As described further in Note 1, in July 2024, the Plan Sponsor filed an application for Determination for Terminating Plan and the Plan Sponsor received a favorable determination letter of termination for the Plan from the IRS with respect to the Plan's tax qualified status dated September 8, 2025.

GAAP requires plan management to evaluate tax positions taken by the Plan. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024 and 2023, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2021.

NOTE 8 – RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets in liquidation per the financial statements at December 31, 2024, and the statement of net assets available for benefits (modified cash basis) as of December 31, 2023, (ongoing) to the Form 5500:

NOTE 9 – SUBSEQUENT EVENTS

Following the settlement of all participant benefit obligations through lump-sum distributions and the purchase of annuity contracts, the Plan had excess assets available for distribution. On March 26, 2025, the Committee approved to deposit 70% of the reversion assets into the Pilgrim's Pride Retirement Savings Plan and the remaining reversion assets would be distributed to the Plan Sponsor. On June 10, 2025, the Plan held approximately \$4,386,640 of excess assets. Of this amount, \$3,070,648 was transferred to Pilgrim's Pride Retirement Savings Plan and \$1,315,992 was reverted to the Plan Sponsor. These distributions reduced the Plan's net assets available for benefits in the period the distributions were made.

The Plan has evaluated subsequent events through October 9, 2025, the date the financial statements were available to be issued.

Changes since last year's valuation

Changes in pension plan provisions

The plan sponsor has terminated the plan effective July 31, 2024. Therefore, 2024 constitutes a short plan year that spans from January 1, 2024 through July 31, 2024.

Legislated changes

There were no legislative changes recognized with this actuarial valuation.

Changes in actuarial assumptions

Effective with the January 1, 2024 actuarial valuation, the following changes in the non-prescribed actuarial assumptions were recognized:

	<u>January 1, 2024</u>	<u>January 1, 2023</u>
Expense Load	\$430,000	\$1,940,000
ASC 960 Discount Rate	5.10%	5.32%
Expected Return on Plan Assets	3.75%	3.50%

No other changes in the non-prescribed actuarial assumptions were recognized with this actuarial valuation.

Changes in actuarial methods

No changes in actuarial methods were recognized with this actuarial valuation.

Plan provisions

Plan termination	The plan sponsor has terminated the plan effective July 31, 2024.
Effective date	July 1, 1970. Plan was amended and restated January 1, 2017. The most recent amendment was January 1, 2021.
Eligibility	Age 21 and one year of service. Participation is closed as of February 8, 2007.
Eligibility and vesting service	Elapsed time.
Benefit accrual service	For hourly employees, elapsed time from date of participation. For salaried employees, elapsed time from date of hire. Benefit service accruals ceased February 8, 2007.
Earnings	Box 1, W-2 pay, including compensation not included due to Code sections 125, 132(f), 401(k), 402(g), or 457 plans, or primary contributions to the Enhanced Defined Contribution Plan of Gold Kist, Inc. Earnings exclude nonqualified deferred compensation distributions, change-in-control compensation, and severance pay. Earnings after February 8, 2007 are not considered.
Final average earnings (FAE)	The monthly average of a participant's compensation for the highest five complete calendar years in the last 10 years. If the employee has been a participant fewer than five years as of the determination date, then the compensation shall be averaged over such shorter period.

**Primary social
security benefit (PSSB)**

The estimated monthly primary insurance amount that is or will become payable to a participant at his Social Security retirement age (or postponed retirement date, if later).

For participants that terminate before age 55, level earnings are projected to Social Security retirement age. Earnings are not projected for participants that terminate on or after age 55.

Normal retirement date

First of the month coincident with or next following attainment of age 65.

**Normal retirement benefit /
accrued benefit**

A monthly benefit equal to the greatest of (a), (b), and (c), below:

- (a) For salaried participants:
 $(45\% \times \text{FAE} - 50\% \times \text{PSSB}) \times (\text{benefit accrual service} / 30, \text{ not more than one}), \text{ but not less than } \$15 \times \text{benefit accrual service};$
- (b) For hourly participants:
 $\$11 \times \text{benefit accrual service}, \text{ but not less than } \$36;$
and
- (c) The accrued benefit as of December 31, 2003.

Benefit accruals ceased February 8, 2007.

Disability benefit

Upon qualification for Social Security disability benefits and after five years of service, participants get continued accrual of service through normal retirement age or retirement date, if earlier.

Service accruals for this benefit ceased March 31, 2007.

Preretirement death benefit

For participants age 55 or with five years of service, 50% of the accrued benefit as of December 31, 2003 without reduction for early commencement, plus 50% of the accrued benefit earned after December 31, 2003, actuarially reduced for spouse's coverage and without reduction for early commencement.

Postretirement death benefit

For benefits accrued as of December 31, 2003, 50% of the accrued benefit. For benefits accrued after December 31, 2003, the death benefit provided by the optional form elected.

Early retirement benefit

Eligibility

Age 55.

Benefit formula

The accrued benefit is actuarially reduced for benefits earned after December 31, 2003.

The accrued benefit as of December 31, 2003 is reduced 5% per annum for salaried participants and by 4% per annum for hourly participants. Participants with 90 points have unreduced benefits, with a reduction in the PSSB offset.

Late retirement benefit

Eligibility

Eligible on the first day of the month next following the date on which a participant actually retires after their normal retirement date. The required beginning date being April 1 of the calendar year following the later of (a) the calendar year in which the participant attains age 70½, or (b) the calendar year in which severance from service occurs.

<i>Benefit formula</i>	Prior to the required beginning date, the benefit is the accrued benefit as of the postponed retirement date. After the required beginning date, the accrued benefit is actuarially increased as of the postponed retirement date.
Vesting	100% at five years of vesting service, or attainment of age 55. Participants in the plan as of December 26, 2006 are vested.
Severance	A vested participant not yet eligible for early retirement is eligible for a benefit at his normal retirement date. The participant may receive an actuarially reduced benefit as early as age 55.
Normal form of payment	For married participants, the normal form of payment is a 50% joint and survivor annuity. For single participants, the normal form of payment is a life annuity.
Optional forms of payment	Level income option for those who have not attained age 62 by their benefit start date, 10-year certain and life, 75% qualified joint and survivor annuity, Lump sums – participants may elect to receive a lump sum of their accrued benefit. A participant may elect to receive the pre-2004 portion of his benefit as a lump sum, and the benefit earned after December 31, 2003 as a single life annuity. If the present value of the benefit earned after December 31, 2003 is less than \$10,000, the participant may elect to take the post-2003 portion of his benefit as a lump sum payment as well.

Actuarial methods

Under the actuarial methods described below, if all current assumptions remain constant and are realized, funding at least the minimum required contribution each year will eventually accumulate sufficient plan assets to cover the funding target. Future widening of the interest rate stabilization corridor may extend the time period for the plan to become fully funded.

Cost method

Costs have been computed in accordance with the unit credit actuarial cost method and reflect the actuarial assumptions described under “Actuarial assumptions” of this report as provided under the applicable regulations of the Pension Protection Act of 2006.

Target normal cost

The target normal cost is the present value of benefits expected to accrue during the plan year plus an estimate of the expenses to be paid from plan assets during the plan year.

Funding target and funding shortfall

The funding target is the present value of benefits accrued as of the beginning of the plan year and the funding shortfall is the excess of the funding target over the actuarial value of assets (reduced by the credit balance). The initial funding shortfall is amortized over 15 years.

In subsequent years, the funding shortfall less the present value of prior year amortization installments is amortized over 15 years, and added to any prior year amortization installments.

Segment rates are adjusted as necessary to fall within the specified corridor of the corresponding 25-year average of segment rates for the period ending September 30 of the calendar year preceding the first day of the plan year. The specified corridor is:

<u>Plan year</u>	<u>Corridor</u>
Through 2030	95% - 105%
2031	90% - 110%
2032	85% - 115%
2033	80% - 120%
2034	75% - 125%
2035 and later	70% - 130%

In the event the 25-year average of either the first, second, or third segment rate falls below 5%, the 25-year average of such rate will be deemed to be 5%.

The adjustments to fall within the specified corridor of the 25-year average of segment rates apply for determining the minimum required contribution and related funded percentages. They do not apply for determining the maximum tax deductible contribution or certain other situations.

Sponsor elections

Discount rate: Segment rates, with a 4-month lookback

Mortality table: Prescribed IRS generational mortality table – separate

At-risk determination

The at-risk funding target is determined by assuming that participants eligible to retire in the current plan year and next 10 plan years retire at the earliest possible date, but not before the end of the plan year. All participants are assumed to elect the optional form resulting in the highest possible present value.

A load is added to the at-risk funding target and at-risk target normal cost when a plan is at-risk in at least two years during the preceding four years. The load increases the at-risk funding target by 4% of the not at-risk funding target plus \$700 per participant, and increases the at-risk target normal cost by 4% of the not at-risk target normal cost.

The funding target and target normal cost are calculated by multiplying the not at-risk values by 100% minus the phase-in percentage, plus the at-risk values multiplied by the phase-in percentage.

Credit balance

The credit balance consists of the carryover balance from excess contributions prior to the Pension Protection Act (PPA) of 2006, plus the prefunding balance from elected excess contributions after the PPA. Balances accumulate with interest and are reduced for amounts applied towards the minimum required contribution, voluntary waivers by the plan sponsor, and compelled waivers to avoid benefit restrictions. The actuarial value of assets is reduced by the credit balance to determine certain funded percentages and to determine the funding shortfall.

Asset valuation method

The actuarial value of assets is determined using a smoothed fair market value of assets over the current and prior two quarters, adjusted for contributions, benefit payments, administrative expenses, and expected earnings.

The actuarial value of assets is adjusted to be no less than 90% or no more than 110% of the fair market value of assets, as required by IRC Section 430(g)(3)(B)(iii).

Since the expected earnings assumption cannot exceed the third segment rate, over time, the method may produce an actuarial value of assets slightly below the fair market value of assets.

The actuarial value of assets for determining the maximum tax deductible contribution reflects interest rate stabilization rates for discounting contributions and limiting expected earnings.

Actuarial assumptions

Funding assumptions:

The discount rate and mortality assumptions are prescribed assumptions set by law. All other assumptions are non-prescribed assumptions set by the actuary which reflect estimates of future experience, are appropriate for the purpose of the measurement, consider relevant plan characteristics, and contain no significant bias unless otherwise noted. Relevant historical information, such as credible plan experience and experience from representative populations, was considered in the selection of the non-prescribed assumptions with a significant effect on the measurement. Factors that may affect future experience and the views of experts were also considered.

An annual review of actuarial assumptions is completed and there has been no consistent pattern of material gains or losses occurring for any non-prescribed assumptions.

The investment return assumption reflects the expected return on plan assets and it considers the investment policy of Pilgrim's Pride including the asset allocation of the plan.

ASC 960 assumptions:

All assumptions are set by the plan sponsor and they align with the Funding Assumptions except for the mortality assumption and discount rate assumptions.

The mortality assumption reflects experience from representative populations, based on the Pri-2012 Private Retirement Plans Mortality Table Report issued by the Society of Actuaries (SOA) in October 2019 and the Mortality Improvement Scale MP-2021 Report issued by the SOA in October 2021.

The discount rate was compared to the effective discount rate determined by discounting plan cashflows using the 12/31/2023 Empower Above Mean Curve.

Plan provisions

Plan termination	The plan sponsor has terminated the plan effective July 31, 2024.
Effective date	July 1, 1970. Plan was amended and restated January 1, 2017. The most recent amendment was January 1, 2021.
Eligibility	Age 21 and one year of service. Participation is closed as of February 8, 2007.
Eligibility and vesting service	Elapsed time.
Benefit accrual service	For hourly employees, elapsed time from date of participation. For salaried employees, elapsed time from date of hire. Benefit service accruals ceased February 8, 2007.
Earnings	Box 1, W-2 pay, including compensation not included due to Code sections 125, 132(f), 401(k), 402(g), or 457 plans, or primary contributions to the Enhanced Defined Contribution Plan of Gold Kist, Inc. Earnings exclude nonqualified deferred compensation distributions, change-in-control compensation, and severance pay. Earnings after February 8, 2007 are not considered.
Final average earnings (FAE)	The monthly average of a participant's compensation for the highest five complete calendar years in the last 10 years. If the employee has been a participant fewer than five years as of the determination date, then the compensation shall be averaged over such shorter period.

**Primary social
security benefit (PSSB)**

The estimated monthly primary insurance amount that is or will become payable to a participant at his Social Security retirement age (or postponed retirement date, if later).

For participants that terminate before age 55, level earnings are projected to Social Security retirement age. Earnings are not projected for participants that terminate on or after age 55.

Normal retirement date

First of the month coincident with or next following attainment of age 65.

**Normal retirement benefit /
accrued benefit**

A monthly benefit equal to the greatest of (a), (b), and (c), below:

- (a) For salaried participants:
 $(45\% \times \text{FAE} - 50\% \times \text{PSSB}) \times (\text{benefit accrual service} / 30, \text{ not more than one}), \text{ but not less than } \$15 \times \text{benefit accrual service};$
- (b) For hourly participants:
 $\$11 \times \text{benefit accrual service}, \text{ but not less than } \$36;$
and
- (c) The accrued benefit as of December 31, 2003.

Benefit accruals ceased February 8, 2007.

Disability benefit

Upon qualification for Social Security disability benefits and after five years of service, participants get continued accrual of service through normal retirement age or retirement date, if earlier.

Service accruals for this benefit ceased March 31, 2007.

Preretirement death benefit

For participants age 55 or with five years of service, 50% of the accrued benefit as of December 31, 2003 without reduction for early commencement, plus 50% of the accrued benefit earned after December 31, 2003, actuarially reduced for spouse's coverage and without reduction for early commencement.

Postretirement death benefit

For benefits accrued as of December 31, 2003, 50% of the accrued benefit. For benefits accrued after December 31, 2003, the death benefit provided by the optional form elected.

Early retirement benefit

Eligibility

Age 55.

Benefit formula

The accrued benefit is actuarially reduced for benefits earned after December 31, 2003.

The accrued benefit as of December 31, 2003 is reduced 5% per annum for salaried participants and by 4% per annum for hourly participants. Participants with 90 points have unreduced benefits, with a reduction in the PSSB offset.

Late retirement benefit

Eligibility

Eligible on the first day of the month next following the date on which a participant actually retires after their normal retirement date. The required beginning date being April 1 of the calendar year following the later of (a) the calendar year in which the participant attains age 70½, or (b) the calendar year in which severance from service occurs.

<i>Benefit formula</i>	Prior to the required beginning date, the benefit is the accrued benefit as of the postponed retirement date. After the required beginning date, the accrued benefit is actuarially increased as of the postponed retirement date.
Vesting	100% at five years of vesting service, or attainment of age 55. Participants in the plan as of December 26, 2006 are vested.
Severance	A vested participant not yet eligible for early retirement is eligible for a benefit at his normal retirement date. The participant may receive an actuarially reduced benefit as early as age 55.
Normal form of payment	For married participants, the normal form of payment is a 50% joint and survivor annuity. For single participants, the normal form of payment is a life annuity.
Optional forms of payment	Level income option for those who have not attained age 62 by their benefit start date, 10-year certain and life, 75% qualified joint and survivor annuity, Lump sums – participants may elect to receive a lump sum of their accrued benefit. A participant may elect to receive the pre-2004 portion of his benefit as a lump sum, and the benefit earned after December 31, 2003 as a single life annuity. If the present value of the benefit earned after December 31, 2003 is less than \$10,000, the participant may elect to take the post-2003 portion of his benefit as a lump sum payment as well.

INDEPENDENT AUDITOR'S REPORT

To the JBS Investment Committee of
Pilgrim's Pride Pension Plan for Legacy Gold Kist Employees
Greeley, Colorado

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Pilgrim's Pride Pension Plan for Legacy Gold Kist Employees (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets in liquidation as of December 31, 2024, the statement of net assets available for benefits (modified cash basis) as of December 31, 2023 (ongoing), and the related statement of changes in net assets in liquidation for the year ended December 31, 2024, and the related statement of changes in net assets available for benefits (modified cash basis) for the year ended December 31, 2023 (ongoing), and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America for 2024 and in accordance with the modified cash basis of accounting for 2023 as described in Note 2.
- the information in the accompanying financial statements related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

(Continued)

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matters

Plan Termination and Liquidation Basis of Accounting

As further discussed in Note 1 to the financial statements, the JBS Investment Committee of the Plan approved a plan of liquidation on July 31, 2024, and management determined liquidation is imminent. As a result, the Plan changed its basis of accounting from the modified cash basis of accounting used in presenting the 2023 financial statements to the liquidation basis of accounting used in presenting the 2024 financial statements. Our opinion is not modified with respect to this matter.

Basis of Accounting – 2023 Financial Statements

We draw attention to Note 2 to the financial statements which describes the basis of accounting. The 2023 financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the 2024 financial statements in accordance with accounting principles generally accepted in the United States of America, and of the 2023 financial statements in accordance with the modified cash basis of accounting described in Note 2, and for determining that the modified cash basis of accounting is an acceptable basis for the preparation of the 2023 financial statement in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

(Continued)

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America for 2024 and modified cash basis of accounting for 2023 as described in Note 2.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America for 2024 and modified cash basis of accounting for 2023 as described in Note 2.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2024 and Schedule H, Line 4j – Schedule of Reportable Transactions for the year then ended, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

(Continued)

In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

PILGRIM'S PRIDE PENSION PLAN FOR LEGACY GOLD KIST EMPLOYEES
NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

NOTE 1 – DESCRIPTION OF PLAN

Gold Kist Inc. established the Plan effective as of July 1, 1970. Effective January 8, 2007, Gold Kist Inc., the former Plan Sponsor, became Pilgrim's Pride Corporation of Georgia, Inc. (Prior Company) pursuant to an agreement and plan of merger among Pilgrim's Pride Corporation, Protein Acquisition Corporation and Gold Kist Inc. Effective August 30, 2007, Pilgrim's Pride Corporation of Georgia, Inc. merged with Pilgrim's Pride Corporation (the Company or Sponsor). The Company is majority owned by JBS USA Food Company Holdings. The Plan, as amended, is a defined benefit plan covering all eligible salaried and hourly employees of the Prior Company. Effective February 8, 2007 (Plan Freeze Date), the Plan was amended to cease the future rate of benefit accruals and to close the Plan to new participants. All eligible employees must be at least age 21 as of the Plan Freeze Date to be a Plan participant. Additionally, employees who were not already participants are no longer eligible employees. However, employees who were prior Plan participants and are subsequently rehired after the Plan Freeze Date, may reenter the Plan as participants subject to the Employee Retirement Income Security Act of 1974 (ERISA) Break-in-Service rules for the purposes of vesting and attaining 90 points (salaried employees) and 91 points (hourly employees). The Plan is subject to the provisions of ERISA, as amended. The Plan was amended and restated effective January 1, 2017.

The following description of the Plan provides only general information. Participants should refer to the terms of the plan document for a more complete description of the Plan's provisions.

Administration: The Plan is administered by the JBS Investment Committee (the Committee) which is composed of employees of the Company and JBS USA Food Company Holdings. The Board of Directors of JBS USA Food Company Holdings, has granted the power and authority to the Committee to manage the affairs and supervise the administrations of the Plan.

Plan Termination: On June 27, 2024, the Committee of the Company executed a Unanimous Written Consent to terminate the Plan and approved a plan of liquidation effective July 31, 2024 (Termination Date). Due to the Company electing to terminate the Plan during 2024; it was determined by Plan management that liquidation was imminent and therefore, the financial statements were prepared on the liquidation basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

To liquidate assets of the Plan, the Plan opened a lump sum window during 2024 in which approximately \$46.6 million in lump sum distributions were made by the Plan. The Company submitted a Form 5310 to the Internal Revenue Service (IRS) in July 2024. The Plan Sponsor received a favorable determination letter of termination for the Plan from the IRS with respect to the Plan's tax qualified status dated September 8, 2025.

The Plan entered into a commitment agreement dated November 12, 2024, to purchase an annuity contract in the amount of \$36,415,250 from Principal Life Insurance Company (Principal) for all participants with a benefit obligation remaining in the Plan after the Plan Termination Lump Sum Window.

Estimable income and expenses through the liquidation date have been recorded as of December 31, 2024. All assets were distributed by the end of June 2025.

Funding Policy: The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum requirement. The Company pays the entire cost of the Plan and provides the Plan with assets with which to pay pension benefits to participants. Plan participants do not contribute. Each year the Company contributes to the trust fund based on information supplied by an independent actuary. During 2024 and 2023, the Company made employer contributions of \$1,000,000 and \$4,000,000, respectively. All funding requirements of ERISA have been met for 2024 and 2023.

PILGRIM'S PRIDE PENSION PLAN FOR LEGACY GOLD KIST EMPLOYEES
NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

NOTE 1 – DESCRIPTION OF PLAN (Continued)

Pension Benefits: The Plan has separate benefit formulas for salaried and hourly employees, including those employees subject to the collective bargaining agreements, who have a vested interest in the Plan. At normal retirement age (65) a salaried employee is entitled to a pension benefit as determined by a formula based on final average earnings and the participant's years of credited service with a social security offset, as defined by the Plan. Hourly employees who work until retirement age (65) and terminate employment subsequent to January 1, 2000, are entitled to monthly pension benefits equal to \$11 for each year of credited service but not less than \$36, payable at the age of 65. Pension benefits for hourly employees who terminated employment prior to January 1, 2000, will be based on a different per year dollar amount per year of credited service, as defined by the Plan. Effective on the Plan Freeze Date, the Plan was amended to cease the future rate of benefit accruals. Participants of the Plan will no longer receive service credit after this date, except for vesting service credit and to determine a participant's age and service for purposes of attaining 90-point service (salaried employees) or 91-point service (hourly employees).

Upon retirement or employment termination, participants may elect to receive the value of their accumulated Plan benefits as one of various forms of annuities or as a lump-sum in the form of a cash payment, rollover to an IRA or other qualified plan. The lump-sum and level income annuity options as a form of payment are subject to the Plan's funded status in accordance with the Pension Protection Act of 2006. The Plan permits early retirement from age 55 through 64 (up to normal retirement age, age 65).

The Plan allows for automatic distributions (small cash-outs) on behalf of terminated participants without their consent, if the value of their vested benefit is \$7,000 or less. If the value of the participant's vested benefit is less than or equal to \$7,000, the participant must make an affirmative election for payment within 30 days of prior notification from the Plan. After sending all required notices from the Plan, to the last known address, if the participant does not make their own election within the required notification period, for a benefit value of: (1) \$1,000 or less, the Plan will automatically cash out and issue payment directly to the participant and send payment to the participant's last known address; or (2) more than \$1,000 but less than or equal to \$5,000, the Plan will automatically rollover and issue payment to an individual retirement account with Prudential. An account will be opened in the participant's name and the payment will be invested in a Federal Deposit Insurance Corporation insured qualified savings account.

Vesting: All employees with one year of service who were at least age 21 as of the Plan Freeze Date became Plan participants and are vested after five years of service. All employees with at least one year of service and who are at least age 55 as of the Plan Freeze Date and are Plan participants become 100% vested. Participants who were employed by Gold Kist Inc. on December 26, 2006, became 100% vested in the Plan due to a change in control as of December 27, 2006. Effective July 16, 2024, each person who on July 16, 2024, is a participant shall become 100% immediately and fully vested in their Plan benefit.

Death and Disability benefits: If a participant dies with a vested retirement income (as defined) while actively employed by the Company, a death benefit equal to 50% of the deceased participant's unreduced accumulated pension benefits is paid to the participant's surviving spouse, if any; otherwise, no benefit is payable. If a participant with a vested retirement income dies after his severance from service (as defined) with the Company, but prior to his annuity benefit start date, the participant's surviving spouse, if any, is entitled to 50% of the deceased participant's reduced monthly retirement income that starts on the later of the participant's early retirement date or the first day of the month following his death. If a participant with a vested retirement income dies after his severance from service (as defined) with the Company and after his annuity start date, the participant's surviving spouse, if any, entitled benefit, if any, is based on the participant's election made as of the annuity start date. Active employees with at least five years of vesting service who become totally disabled are entitled to receive credited service while disabled until the age of 65. Effective on the Plan Freeze Date, the Plan was amended to cease benefit accruals for terminated vested participants who are or may become totally and permanently disabled.

NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

NOTE 1 – DESCRIPTION OF PLAN (Continued)

Additionally, effective March 31, 2007, no additional service accruals will be credited for any period of total and permanent disability after this date.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting: Due to the Company electing to terminate the Plan during 2024; it was determined by Plan management that liquidation was imminent and therefore, the financial statements were prepared on the liquidation basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP) for the year ended December 31, 2024.

For the year ended December 31, 2023, the financial statements of the Plan were prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than GAAP. The modified cash basis of accounting is the cash basis of accounting, with the exception of investments, which are valued at fair value, and investment transactions and the related accrued investment income and accrued expenses, which are recorded on the accrual basis. Receivables arising from employer contributions and other transactions, which would be recognized under GAAP, and which may be material in amount, are not recognized in the accompanying financial statements. There was no material effect on the net assets as a result of the change in basis of accounting from modified cash basis to liquidation basis. The fair values of the Plan's investments have been determined to approximate liquidation values. The effect on the accumulated plan benefits is described in Note 5.

In 2024, \$277,564 was accrued for fees to be incurred through liquidation and \$58,699 was accrued for investment income to be earned in the Plan. During 2025, refunds totaling \$1,399,433 were paid back to the Plan from Principal Life Insurance Company. This amount was accrued as other income as of December 31, 2024.

Use of Estimates: The preparation of financial statements in accordance with the liquidation basis of accounting and the modified cash basis of accounting requires management to make estimates and assumptions that affect the reported amounts of Plan assets available for benefits and the actuarial present value of accumulated plan benefits as the date of the financial statements. Actual results could differ from those estimates. The Plan uses an actuary to determine the actuarial present value of accumulated plan benefits. A change in the actuarial assumptions used could significantly change the amount of the actuarial present value of accumulated plan benefits reported in the accompanying financial statements.

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the custodian. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Payment of Benefits: Benefits are recorded when paid.

(Continued)

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES (Continued)

Administrative Expenses: The Plan's expenses are paid either by the Plan or the Company. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets in liquidation for the year ending December 31, 2024, and the statement of changes in net assets available for benefits on a modified cash basis for the year ended December 31, 2023. In addition, certain investment related expenses are included in net appreciation in fair value of investments presented in the accompanying statement of changes in net assets in liquidation for the year ending December 31, 2024, and the statement of changes in net assets available for benefits on a modified cash basis for the year ended December 31, 2023.

Risks and Uncertainties: The Plan holds various investments. Investments are exposed to various risks such as interest rate, market, liquidity, credit and risks related to global events. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the fair values of investments will occur in the near term and that such changes could materially affect participant's account balances, and the amounts reported in the statement of net assets in liquidation as of December 31, 2024, and the statement of net assets available for benefits on a modified cash basis as of December 31, 2023.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

NOTE 3 – CERTIFIED INVESTMENTS

Except for the fair value of the Plan's investment in PRISA PF LP of \$4,750,721 as of December 31, 2023, and the related net depreciation in the fair value of this investment of \$640,938, for the year ended December 31, 2023, substantially all information related to the investments disclosed in the accompanying financial statements and ERISA-required supplemental schedules, including investments held at December 31, 2024 and 2023, and net appreciation (depreciation) in fair value of investments, interest and dividends, for the years then ended, was obtained by management and agreed to or derived from information certified as complete and accurate by Empower Annuity Insurance Company (EAIC) (formerly, Prudential Retirement Insurance and Annuity Company) and Empower Trust Company, LLC.

NOTE 4 – FAIR VALUE MEASUREMENTS

Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

- *Level 1* – Quoted prices (adjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.
- *Level 2* - Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.
- *Level 3* - Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

NOTE 4 – FAIR VALUE MEASUREMENTS (Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Mutual Funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges.

Limited Partnership: The fair value of the limited partnership is estimated utilizing the net asset valuations provided by the fund and their administrator. The Plan holds an interest in PRISA LP (Partnership). The Company substantiates the fair value at year-end through a comparison of the Partnerships capital as reported on the K-1 to that reported in the audited financial statements of the Partnership. The Plan records its proportionate share of the Partnerships income, expense, and realized and unrealized gains and losses. The Partnerships investment is redeemable on a quarterly basis, with a 90-day redemption notification requirement, and is subject to certain restrictions and priorities imposed by the fund managers. At December 31, 2024 and 2023, there were no unfunded commitments of capital.

Pooled Separate Accounts: The fair values of participation units held in pooled separate accounts are based on the net asset values reported by the fund managers as of the financial statement dates and recent transaction prices. Each pooled separate account provides for daily redemptions by the Plan with no advance notice requirements and has redemption prices that are determined by the fund's net asset value per unit.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	2024			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ -	\$ -	\$ -	\$ -
Investments measured at NAV as a practical expedient *				3,155,201
Total investments at fair value				\$ 3,155,201
	2023			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 22,670,933	\$ -	\$ -	\$ 22,670,933
Investments measured at NAV as a practical expedient *				73,167,569
Total investments at fair value				\$ 95,838,502

* Investments measured at fair value using net asset value per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in the hierarchy tables for such investments are intended to permit reconciliation of the fair value hierarchy to the investments at fair value line item presented in the statement of net assets in liquidation as of December 31, 2024, and the statement of net assets available for benefits – modified cash basis as of December 31, 2023.

NOTE 5 – ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries.

The accumulated plan benefits for active salaried employees are based on the monthly average compensation for the highest five complete calendar years during the last 10 complete calendar years of employment. Employee earnings after February 8, 2007, are not considered. The accumulated plan benefits for active hourly employees are based on established dollar amounts as defined by the Plan times the number of years of credited service. Benefits payable under all circumstances—retirement, death, disability and termination of employment—are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment. The computations of the actuarial present value of accumulated plan benefits were made of January 1, 2024. Had the valuation been performed as of December 31, there would be no material differences. The December 31, 2024, actuarial valuation, reflecting the liquidation basis of accounting, is not yet available.

The significant actuarial assumptions used in the valuation as of December 31, 2023, were:

Mortality rates for healthy and disabled participants	Pri-2012 total dataset employee/retiree with Scale MP-2021. Pri-2012 total dataset disabled with Scale MP-2021.
Retirement age	Rates of retirement are according to a table ranging from 9% for age 55 up to 100% at age 71 and above.
Termination	Probabilities that active participants will terminate are according to a table ranging from 35% for age 25 or less to 0% at age 55 and above.
Spouse's benefit	Husbands are assumed to be three years older than their wives. 80% of the eligible male participants and 80% of the eligible female participants who are or will become eligible for coverage under the Spouse's Benefit will be survived by an eligible
Expected return on plan assets	3.50%
Discount Effective Rate	5.32%

As discussed in Note 1, the Company terminated the Plan effective July 31, 2024. Due to the timing of the termination amendment's adoption and effective date, the actuarial assumptions above as of December 31, 2024, are based on the presumption that the Plan will continue.

NOTE 5 – ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (Continued)

A summary of the actuarial present value of accumulated plan benefits as determined by the Plan's actuary is as follows:

	<u>December 31, 2023</u>
Actuarial present value of accumulated plan benefits	
Vested benefits:	
Participants receiving benefits	\$ 48,437,063
Participants with deferred benefits	34,478,005
Other participants	<u>16,807,311</u>
Total vested accumulated benefits	99,722,379
Nonvested benefits	<u>57,109</u>
Total actuarial present value of accumulated plan benefits (ongoing)	<u>\$ 99,779,488</u>

The actuarial present value of changes in accumulated plan benefits is as follows:

	<u>December 31, 2023</u>
Actuarial present value of accumulated plan benefits at beginning of year (ongoing)	\$ 101,514,885
Increase (decrease) during the year attributable to:	
Increase for interest	5,174,433
Benefits paid	(8,612,697)
Changes in actuarial assumptions	2,189,745
Other changes	<u>(486,878)</u>
Net decrease	<u>(1,735,397)</u>
Actuarial present value of accumulated plan benefits at end of year (ongoing)	<u>\$ 99,779,488</u>

The \$2,189,745 increase in the present value of accumulated plan benefits is primarily due to actuarial assumption changes attributable to the change in the discount effective interest rate from 5.32% to 5.10%.

NOTE 6 – PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor's regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Certain administrative functions are performed by officers or employees of the Sponsor. No such officer or employee receives compensation from the Plan. Some administrative expenses of the Plan are paid directly by the Sponsor. Certain investments are managed by EAIC and, therefore, these transactions and the Plan's payment of fees to EAIC qualify as party-in-interest transactions.

NOTE 7 – TAX STATUS

The Plan has received a determination letter from the Internal Revenue Service dated December 27, 2017, stating that the Plan and related trust are designed in accordance with the applicable sections of the IRC, and therefore, the related trust is exempt from taxation. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and related trust is tax-exempt.

As described further in Note 1, in July 2024, the Plan Sponsor filed an application for Determination for Terminating Plan and the Plan Sponsor received a favorable determination letter of termination for the Plan from the IRS with respect to the Plan's tax qualified status dated September 8, 2025.

GAAP requires plan management to evaluate tax positions taken by the Plan. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024 and 2023, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2021.

NOTE 8 – RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets in liquidation per the financial statements at December 31, 2024, and the statement of net assets available for benefits (modified cash basis) as of December 31, 2023, (ongoing) to the Form 5500:

	<u>2024</u> (In Liquidation)	<u>2023</u> (Ongoing)

NOTE 9 – SUBSEQUENT EVENTS

Following the settlement of all participant benefit obligations through lump-sum distributions and the purchase of annuity contracts, the Plan had excess assets available for distribution. On March 26, 2025, the Committee approved to deposit 70% of the reversion assets into the Pilgrim's Pride Retirement Savings Plan and the remaining reversion assets would be distributed to the Plan Sponsor. On June 10, 2025, the Plan held approximately \$4,386,640 of excess assets. Of this amount, \$3,070,648 was transferred to Pilgrim's Pride Retirement Savings Plan and \$1,315,992 was reverted to the Plan Sponsor. These distributions reduced the Plan's net assets available for benefits in the period the distributions were made.

The Plan has evaluated subsequent events through October 9, 2025, the date the financial statements were available to be issued.
