Independent Auditor's Report

To the Trustees
Cook, Flatt, & Strobel Engineers, P.A.

Opinion

We have audited the accompanying financial statements of Cook, Flatt, & Strobel Engineers, P.A. Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Cook, Flatt, & Strobel Engineers, P.A. Employee Stock Ownership Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Cook, Flatt, & Strobel Engineers, P.A. Employee Stock Ownership Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Cook, Flatt, & Strobel Engineers, P.A. Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will

always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Cook, Flatt, & Strobel Engineers, P.A. Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Cook, Flatt, & Strobel Engineers, P.A. Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule of Assets (Held at End of Year) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 1 – PLAN DESCRIPTION AND BASIS OF PRESENTATION

The following description of the Cook, Flatt, & Strobel Engineers, P.A. Employee Stock Ownership Plan provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

Cook, Flatt & Strobel, Engineers, P.A. (the "Company") established the Cook, Flatt & Strobel, Engineers, P.A. Employees Savings Trust (the "Plan") effective as of January 1, 2002. The Plan is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. Trustees have been designated to hold and invest Plan assets for the plan, trustees of the plan are Kevin Holland, Lance Scott, and Thera Boyles.

Eligibility

One year of service and 1,000 hours of service beginning with Employment Commencement Date and ending with the Anniversary Date (December 31st of each year). An eligible employee must be employed on the Anniversary Date to receive an allocation of the Company contribution in that Plan Year.

Contributions

The Company makes contributions to the Plan on a discretionary basis each year.

Payment of benefits

Generally, no distributions from the Plan will be made until a participant retires, dies (in which case, payment shall be made to his or her beneficiary or, if none, his or her legal representatives), permanent disability, or otherwise terminate employment with the Company. Participants who continue to be employed by the Company and have attained age 65 shall be entitled to receive all or any portion of their vested balance as in-service distributions.

Participant accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of the Company contribution. For the plan year ended December 31, 2024, the hours of service required to receive an allocation of the Company's contribution was 1,000 hours. A participant must also be employed on the last day of the plan year to receive a contribution for that plan year. These allocation requirements are waived in the event that the participant incurs a separation of service because of death or disability or incurs a separation of service after attainment of normal retirement age in the current plan year or prior plan year.

Voting rights

All Company Stock which is not a registration type class of securities, as defined in IRC Sec. 409(e)(4), held in the Trust shall generally be voted by the Trustee only in accordance with instructions from the Committee. Each participant is entitled to direct the Trustee with respect to the voting of Company Stock which is a registration type class of securities as defined in IRC409(e)(4) and which is allocated to the participant's account.

Vesting

When a participant's employment with the Company ends for any reason other than retirement, permanent disability or death, he or she will vest in the balances in his or her account based on total vested years of service with the Company, according to the following schedule:

NOTES TO FINANCIAL STATEMENTS

Years of Service	Vesting Percentage
0-1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Plan termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the Internal Revenue Code. After termination of the Plan, the Committee and the Trust will continue until the Plan Benefits of each participant have been distributed.

Diversification

Each Qualified Participant shall be permitted to direct the Plan as to the distribution of 25% of the value of the Employee’s account balance less any prior portion diversified, for the first five Plan Years in the Qualified Participant’s Qualified Election Period and up to 50% of the value of such account. The time period in which the Qualified Participant may make a diversification election will begin on the first day of the Plan Year that follows each Plan Year in the Qualified Election Period and end of the date designated by the Plan Administrator, which shall be no earlier than 30 days after the date on which the value of shares of Employer stock that are subject to diversification is provided to the Qualified Participant.

Forfeitures

Forfeitures are allocated in the same manner as employer contributions. Forfeitures of terminated non-vested account balances allocated to remaining participants at December 31, 2024 totaled \$9,264.

Put option

Under Federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Operating expenses

All expenses of administration may be paid out of the Plan unless paid by the Employer. Such expenses shall include any expenses incident to the function of the Plan Sponsor, including, but not limited to, fees of accountants, counsel and other specialists and their agents, and other costs of administering the Plan. Until paid, the expenses shall constitute a liability of the Plan. However, the Employer may reimburse the Plan for any administration expense incurred. Any administration expense paid to the Plan as a reimbursement shall not be considered an Employer contribution.

Participant loans

Loans are not permitted within this plan.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Investment valuation and recognition

Investments are comprised of Company stock which is valued annually by an independent party. See Note 7 for discussion of fair value measurements and valuation assumptions.

Payment of benefits

Benefits are recorded when paid.

Use of estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 3 – TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated July 26, 2017, that the Plan, as amended, is qualified and the Plan established under the Plan is tax-exempt, under the appropriate sections of the Internal Revenue Code (IRC). The Plan administrator and the Plan's ERISA counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified and related Plan was tax-exempt as of the financial statement date, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 4 – RELATED PARTY TRANSACTIONS

The Plan's assets, which consist principally of Cook, Flatt, & Strobel Engineers, P.A. common stock, are held by the Trustees of the Plan.

The Plan has a number of service providers. Such providers are parties in interest under ERISA.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

NOTE 5 – RISKS AND UNCERTAINTIES

The Plan investments consist primarily of the Company’s common stock, which is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of common stock will occur in the near term and that such changes could materially affect amounts reported in the statement of net assets available for benefits.

NOTE 6 – INVESTMENTS

The Plan’s investments, at December 31, are presented in the following table:

	2024	2023
Plan sponsor's company stock	\$ 6,752,521	\$ 6,433,684
	\$ 6,752,521	\$ 6,433,684

There are 854.425 shares in the Plan, which represents a 79.26% interest. The Plan’s investments (Plan sponsor’s company stock) held within the ESOP increased \$318,837 for year ended December 31, 2024.

NOTE 7 – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 — Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from, or corroborated by, observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability’s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following table sets forth, within the fair value hierarchy, the Plan’s assets measured at fair value on a recurring basis as of December 31:

Description			
Plan sponsor's company stock	\$ -	\$ -	\$ 6,433,684
	\$ -	\$ -	\$ 6,433,684

The following is a reconciliation of assets measured using significant Level 3 inputs as of December 31:

	2024	2023
Plan Sponsor's Company Stock		
Beginning balance, January 1,	\$ 6,433,684	\$ 5,567,801
Unrealized gains (losses) relating to Instruments still held at the reporting date	318,837	865,883
Ending balance, December 31,	\$ 6,752,521	\$ 6,433,684

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no significant changes in methodologies used for December 31, 2024 and December 31, 2023.

Plan sponsor common stock held by the Plan: Valued at the fair market value of a controlling, non-marketable interest based upon an independent valuation report. For 2024 and 2023, the valuation was based upon the discounted cash flow valuation method. The valuation considered historical and projected cash flow and net income, return on assets, return on equity, comparable markets and estimated fair value of Company assets and liabilities. The valuation has concluded that a market participant would also recognize a discount for lack of marketability.

The valuation process involves plan trustee selection of an independent firm annually. Plan management accumulates the data for the valuation from the reviewed financial statements of the Company. The valuation firm prepares a preliminary report which plan management, along with the ESOP trustees, review in detail, discuss and approve. The results of this process are documented in minutes of the Plan fiduciary.

The preceding methods described may produce a fair market value that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair market value at the reporting date.

Unrealized gains from the plan sponsor's common stock are included in the net appreciation in fair value of investments in the statements of changes in net assets available for benefits. The unrealized gains were calculated based on the change in stock value from the prior year end.

NOTE 8 – SECURE ACT 2.0

On December 23, 2022, Congress passed the Consolidated Appropriations Act of 2023 which included SECURE Act 2.0. SECURE Act 2.0 contains over 90 new retirement provisions, with varying effective dates through 2027. The most significant changes impact existing plan provisions included updates to required minimum distributions, hardship distributions rules, expanded eligibility of part-time employees, and modifications to catchup contribution rules. SECURE Act 2.0 amendments must be adopted by December 31, 2026 for calendar year plans. Since the provisions include both required and optional elements, the Plan administrator will determine the optional provisions to elect.

NOTE 9 – PLAN AMENDMENTS

The Plan was amended on May 16, 2024, to increase the Plan's distribution-consent limit from \$5,000 to \$7,000 and incorporate changes related to required minimum distributions and allow in-service distributions under certain conditions, effective January 1, 2024.

NOTE 10 – SUBSEQUENT EVENTS

Management has evaluated subsequent events through October 1, 2025, the date which the financial statements were available to be issued.
