## INDEPENDENT AUDITORS' REPORT

Plan Fiduciaries and Plan Participants  
Virginia Credit Union, Inc. Defined Benefit Plan  
Richmond, Virginia

### **Report on the Audit of the Financial Statements**

#### ***Scope and Nature of the ERISA Section 103(a)(3)(C) Audit***

We have performed audits of the accompanying financial statements of Virginia Credit Union, Inc. Defined Benefit Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the years ended December 31, 2024 and 2023, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

#### ***Opinion on the Financial Statements***

In our opinion, based on our audit and on the procedures performed as described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

***Basis for Opinion on the Financial Statements***

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of Virginia Credit Union, Inc. Defined Benefit Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Virginia Credit Union, Inc. Defined Benefit Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

***Auditors' Responsibilities for the Audit of the Financial Statements***

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the Financial Statements* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

Plan Fiduciaries and Plan Participants  
Virginia Credit Union, Inc. Defined Benefit Plan

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Virginia Credit Union, Inc. Defined Benefit Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Virginia Credit Union, Inc. Defined Benefit Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

***Other Matters***

***Supplemental Schedules Required by ERISA***

The supplemental schedule of assets (held at end of year) as of December 31, 2024 and schedule of reportable transactions for the year ended December 31, 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or are derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including its form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Plan Fiduciaries and Plan Participants  
Virginia Credit Union, Inc. Defined Benefit Plan

In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedule that agreed to or are derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

**VIRGINIA CREDIT UNION, INC. DEFINED BENEFIT PLAN**  
**NOTES TO FINANCIAL STATEMENTS**  
**DECEMBER 31, 2024 AND 2023**

**NOTE 1 DESCRIPTION OF THE PLAN**

The following description of the Virginia Credit Union, Inc. Defined Benefit Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

**General**

The Plan is a noncontributory defined benefit pension plan established by Virginia Credit Union, Inc. (the Employer) effective January 1, 1972 to provide retirement benefits. The Plan has been restated throughout the years to comply with tax legislation and was most recently restated effective January 1, 2019. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Plan is administered by the Plan Fiduciaries. The Plan Fiduciaries have overall responsibility for the operation and administration of the Plan. The Plan Fiduciaries determine the appropriateness of the Plan's investment offerings and monitor investment performance.

**Eligibility and Vesting**

Substantially all employees, with the exception of leased employees and independent contractors, are eligible to participate in the Plan effective on the January 1st following the date they have reached age 18 and completed six months of service. Participants become 100% vested upon reaching five years of service.

**Pension Benefits**

The Plan provides for pension benefits under the categories noted below:

**Normal Retirement**

Participants who have attained normal retirement age (65) are entitled to a lump sum payment or monthly pension benefits beginning on the first day of the month coincident with or next following the date on which the employee attains age 65. Participants who have attained age 65 are entitled to a benefit based upon the employee's length of service and level of earnings.

**Early Retirement**

A participant's early retirement date shall be the first day of any month after the participant has attained age 55 and completed 5 years of vesting service. There is no reduction of benefits at or after age 62 with 25 years of service.

**Late Retirement**

A participant's late retirement date shall be the first day of the month coincident with or next following the date on which the employee, who has attained age 65, elects to retire.

**Disability Benefit**

A participant who terminates employment with the Employer due to disability and remains disabled until his or her retirement date is eligible for disability retirement benefits. The disability retirement benefit will commence at the normal retirement date, or the early retirement date, if elected.

**VIRGINIA CREDIT UNION, INC. DEFINED BENEFIT PLAN**  
**NOTES TO FINANCIAL STATEMENTS**  
**DECEMBER 31, 2024 AND 2023**

**NOTE 1 DESCRIPTION OF THE PLAN (CONTINUED)**

**Pension Benefits (Continued)**

Death Benefit

A married participant who has completed five or more years of vesting service who dies prior to his or her normal retirement date is eligible to receive a death benefit. The death benefit is actuarially determined and is payable to the surviving spouse.

Small Benefit Amounts

If employment terminates for any reason other than death, disability, or early or normal retirement, participants are entitled to receive their vested balance. If the vested balance does not exceed \$5,000, then a distribution will be made without the participant's consent.

Benefit Calculation

The normal retirement benefit is determined as 55% of the average compensation times years of service as of January 1, 2006, divided by potential years of service not less than 25, plus 1.25% of average compensation times years of service after January 1, 2006. Participants age 50 or more with more than 10 years of service as of January 1, 2006, can receive 55% of average compensation assuming no increases in pay after January 1, 2006, times total service divided by potential service not less than 25 years. Potential years of service represents the years of service that would accumulate if the participant continued employment until age 65. Participants have three forms of distributions including lump sum, straight life annuity, 50%, 66 2/3%, 75% or 100% joint and survivor, or life annuity and 5, 10, 15 or 20 years certain. If the participant selects an annuity distribution, the Plan purchases an annuity contract and transfers the related obligation to the trustee.

Effective January 1, 2019, a participant who is rehired on or after January 1, 2019 will have their accrued benefit calculated based on the sum of their accrued benefit as of their original date of severance prior to such rehire date plus their accrued benefit determined based on their accrued service earned after rehire and their average compensation earned after January 1, 2019. Employees hired on or after January 1, 2019 will receive a benefit of 1.25% of plan compensation for each year of service.

**Funding Policy**

The Plan's funding policy is for the Employer to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. During 2024 and 2023, the Employer made contributions of \$5,860,000 and \$8,250,000, respectively. The Employer's contributions for 2024 and 2023 exceeded the minimum funding requirements of ERISA.

Although it has not expressed an intention to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to provisions set forth in ERISA.

**VIRGINIA CREDIT UNION, INC. DEFINED BENEFIT PLAN**  
**NOTES TO FINANCIAL STATEMENTS**  
**DECEMBER 31, 2024 AND 2023**

**NOTE 2 SIGNIFICANT ACCOUNTING POLICIES**

**Basis of Accounting**

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

**Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

**Investment Valuation and Income Recognition**

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Fiduciaries determine the Plan's valuation policies utilizing information provided by the investment advisers and trustee. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

**Payment of Benefits**

Benefit payments are recorded when paid.

**Administrative Fees**

The Plan's expenses are paid either by the Plan or the Employer as provided by the Plan document. Expenses that are paid directly by the Employer are excluded from these financial statements. Plan administration related expenses paid by the Plan are recorded as administrative expenses in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation of fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

**Subsequent Events**

The Plan has evaluated subsequent events through September 29, 2025, the date the financial statements were available to be issued.

**VIRGINIA CREDIT UNION, INC. DEFINED BENEFIT PLAN**  
**NOTES TO FINANCIAL STATEMENTS**  
**DECEMBER 31, 2024 AND 2023**

**NOTE 3 ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS**

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to:

- a) retired or terminated employees or their beneficiaries,
- b) beneficiaries of employees who have died, and
- c) present employees or their beneficiaries.

Benefits under the Plan are accumulated based on the employees' highest five consecutive complete credited years of compensation out of the last ten years prior to the normal retirement date. The accumulated plan benefits for active employees are based on their highest five consecutive complete credited years of compensation ending on the date as of which the benefit information is presented (the valuation date). Benefits payable under all circumstances - retirement, death, and termination of employment - are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided through annuity contracts are excluded from plan assets and are also excluded from accumulated plan benefits. The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation as of December 31, 2024 and 2023 were:

- a. Life expectancy of participants – For December 31, 2024 and 2023, the mortality rates based on the Pri-2012 total dataset base rate mortality table projected using the Principal Mortality Improvement Scale (PFG2017-10)
- b. Retirement age assumption – Normal retirement age of 65 years; other active participants will elect early retirement based on the following schedule: 20% at age 62; 10% at age 63; 10% at age 64; and 100% at age 65.
- c. Investment return - 6.00%

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

**NOTE 3 ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (CONTINUED)**

The following is a summary of actuarial present value of accumulated plan benefits as of December 31:

	<u>2024</u>	<u>2023</u>
Actuarial Present Value of Accumulated Plan Benefits		
Vested Benefits:		
Participants Currently Receiving Payments	\$ 37,262	\$ 1,557,813
Other Participants	64,094,211	56,916,895
Total Vested Benefits	<u>64,131,473</u>	<u>58,474,708</u>
Nonvested Benefits	<u>2,357,613</u>	<u>1,586,555</u>
Total Actuarial Present Value of Accumulated Plan Benefits	<u>\$ 66,489,086</u>	<u>\$ 60,061,263</u>

The changes in the actuarial present value of accumulated Plan benefits are summarized as follows for the years ended December 31:

	<u>2024</u>	<u>2023</u>
Increase (Decrease) in Actuarial Present Value of Accumulated Plan Benefits Attributed to:		
Benefits Accumulated	\$ 8,198,495	\$ 6,283,959
Change in Actuarial Assumptions	-	(4,591,666)
Increase for Interest Due to Decrease in Discount Period	3,449,356	3,354,227
Benefits Paid	(5,220,028)	(2,524,779)
Plan Amendment	-	(2,039,606)
Net Increase	<u>6,427,823</u>	<u>482,135</u>

Actuarial Present Value of Accumulated Plan Benefits:

Beginning of Year	<u>60,061,263</u>	<u>59,579,128</u>
End of Year	<u>\$ 66,489,086</u>	<u>\$ 60,061,263</u>

The computations of the actuarial present value of the accumulated plan benefits were made as of January 1. Had the valuations been performed as of December 31, there would be no material differences.

**VIRGINIA CREDIT UNION, INC. DEFINED BENEFIT PLAN**  
**NOTES TO FINANCIAL STATEMENTS**  
**DECEMBER 31, 2024 AND 2023**

**NOTE 4 CERTIFICATION OF INVESTMENT INFORMATION**

Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company, the trustee of the Plan, has supplied the Plan administrator with a certification as to the completeness and accuracy of all investment information reflected on the accompanying statements of net assets available for benefits as of December 31, 2024 and 2023, the statements of changes in net assets available for benefits for the years then ended, the supplemental schedule of assets (held at end of year) as of December 31, 2024, and the supplemental schedule of reportable transactions for the year ended December 31, 2024.

**NOTE 5 FAIR VALUE OF INVESTMENTS**

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

*Level 1* – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

*Level 2* – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability; either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

*Level 3* – Inputs to the valuation methodology are unobservable and significant to the fair market value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

**DECEMBER 31, 2024 AND 2023**

**NOTE 5 FAIR VALUE OF INVESTMENTS (CONTINUED)**

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the valuation methodologies used at December 31, 2024 and 2023.

*Mutual Funds:* Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

*Pooled Separate Accounts:* Valued using the NAV of units, which are based on observable market prices for the underlying assets, held by the Plan at year-end. NAV is readily determinable fair value and is the basis for current transactions.

The following tables set forth by level within the fair value hierarchy the Plan's assets at fair value as of December 31:

	2024			Total

**NOTES TO FINANCIAL STATEMENTS**  
**DECEMBER 31, 2024 AND 2023**

**NOTE 6 PLAN TERMINATION**

Although it has not expressed any intention to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding plan termination.
2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. governmental agency) up to the applicable limitations.
3. All other vested benefits (that is, vested benefits not insured by the PBGC).
4. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

**VIRGINIA CREDIT UNION, INC. DEFINED BENEFIT PLAN**  
**NOTES TO FINANCIAL STATEMENTS**  
**DECEMBER 31, 2024 AND 2023**

**NOTE 7 PLAN TAX STATUS**

The Plan obtained its latest opinion letter on March 30, 2018, in which the Internal Revenue Service (IRS) states that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the opinion letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

**NOTE 8 RISKS AND UNCERTAINTIES**

The Plan invests in a variety of investment securities which are exposed to various risks, such as interest rate, credit and overall market volatility risk. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the estimates and assumptions in the near term would be material to the financial statements.

**NOTE 9 PARTY-IN-INTEREST TRANSACTIONS**

The Plan's investments are managed by Delaware Charter Guarantee and Trust Company dba: Principal Trust Company (Principal). Principal is the trustee as defined by the Plan and, therefore, the investment transactions qualify as party-in-interest transactions. As described in Note 2, the Plan paid certain expenses related to Plan operations and investment activity to various service providers. These transactions qualify as party in interest transactions, which are exempt from the prohibited transaction rules of ERISA.

Assumptions prescribed by law

**Mortality**

**Before benefit payment period**  
 IRS Prescribed Mortality - Generational Non-annuitant, male and female.

**During benefit payment period**  
 IRS Prescribed Mortality - Generational Annuitant, male and female.

Assumptions selected by actuary

**Inflation** 2.40% increase per year.  
 Our long-term inflation assumption considered the current economic environment, recent and historical data, and forecasts from Federal Reserve Bank FOMC, Congressional Budget Office, and Survey of Professional Forecasters. See Long-Term Capital Market Assumptions link.

**Asset return** 6.50% for the current plan year.  
 The asset return is developed as a weighted average rate based on the target asset allocation of the plan and the long-term capital market assumptions. The calculated return is on an arithmetic mean basis. For details, see the Long-Term Capital Market Assumptions link.

**Expected expense** The expected expense included in target normal cost is an estimate based on prior year expenses paid from plan assets, with an updated estimate of PBGC premiums. This is the best estimate available of upcoming year's expenses.

**Retirement** Participants are assumed to retire at the following rates:

Probability of retirement		
Age	Active	Inactive
60	10%	20%
61	10%	20%
62	20%	20%
63	10%	20%
64	10%	20%
65	75%	50%
66	75%	50%
67	75%	50%
68	75%	50%
69	75%	50%
70	remaining participants	remaining participants

This assumption is based on the results of recent experience analysis and anticipated future experience. Some participants retire early since the plan provides an early retirement subsidy beginning at age 60.

**Upcoming year salary increase**

The preceding year's salary is increased using the S-5 Table from The Actuary's Pension Handbook, increased by 2.25% at each age. This table provides a rate of increase that declines as participants age.

Note: not used for Plan accounting calculations.

Age	Upcoming increase
25	6.43%
40	4.97%
55	4.13%

Expected salary increase is composed of salary inflation, a real wage growth and a merit increase. This reflects company salary increase philosophies along with more recent experience of the plan participants.

**Disability**

None. This plan does not offer a subsidized disability benefit therefore the disability assumption is built into the withdrawal assumption.

**Marriage**

100% married; husbands are 0 years older than wives.

This assumption does not have material impact on the results of this report and has been selected based on our best estimate of active workforce.

**Withdrawal**

2003 Society of Actuaries Basic Age Tabel, multiplied by 1.50 to age 30; 2003 Society of Actuaries Basic Age Table, multiplied by 1.20 over age 30.

Selected rates of withdrawal are shown below:

Age	Rate of withdrawal	Age	Rate of withdrawal
20	31.85%	40	8.40%
25	27.77%	45	7.45%
30	18.29%	50	6.76%
35	10.54%	55	3.50%

We rely on a publicly published table due to the limited size of the plan. The SOA Basic Age Table is the most recent withdrawal experience table published by the Society of Actuaries. A multiplier of 1.50 to age 30 and 1.20 over age 30 is applied to this table to reflect the results of the most recent experience analysis and anticipated future experience.

**Compensation limit increase**

2.40% increase per year used in the calculation of the IRC 404 maximum deduction cushion. See [Calculated deduction](#) in Rules and regulations.

Compensation limit increase is consistent with the inflation assumption.

Form of benefit and basis	<p>80% of active participants will elect a benefit paid in a lump sum at the assumed retirement ages. The remaining active participants will elect a monthly annuity on the normal form at the assumed retirement age.</p> <p>95% of active participants who terminate before the earliest assumed retirement age are assumed to receive a single sum paid immediately. 95% of participants who are already terminated on the valuation date are assumed to elect a single sum on this basis payable at the assumed retirement age.</p> <p>This assumption is based on the results of recent experience analysis and anticipated future experience.</p> <p>The single sum benefit is based on the Applicable Mortality projected to decrement and the plan's funding target interest rates, as prescribed.</p>
Methods prescribed by law	
Liability measure	<p>Funding target is the present value of the benefits accrued on the valuation date.</p> <p>Target normal cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year.</p>
Benefit accrual	<p>All benefits paid at decrement are considered in total and then split to determine how much is included in funding target. The following pieces are included in the funding target.</p> <ul style="list-style-type: none"><li>The portion based on the plan's definition of accrued benefit.</li><li>The benefit portion in excess of the accrued benefit based on the ratio of the participant's years of service on the valuation date to the years of service the participant will have at the time of decrement.</li></ul> <p>The benefits included in target normal cost are calculated similarly, by splitting the benefits. The target normal cost is based on the difference between the amount included in Funding Target and an amount calculated assuming the participant accrues service through the end of the plan year.</p>
Lump sum payments	<p>Lump sum payments are valued using the plan's funding target interest rates as required, per IRS guidance. These rates are currently higher than the actual rates used to determine lump sum distributions. Therefore, plan liabilities do not currently recognize this additional cost and this may result in the plan not accumulating adequate assets. You may wish to consider additional contributions.</p>
Methods selected by plan sponsor	
Asset method	Market value
Segment rates	24-month average with no weighting to prior law basis. Use rates where December is the last month included in the average.

PBGC premium basis

Variable rate premiums are calculated using census, market value of assets and interest rates in effect on the current valuation date. Interest rates are the 24-month average rates used for annual cost but without the interest rate corridor defined in IRC §430(h)(2)(C)(iv). You elected this Alternative interest method for the 01/01/2008 plan year and this method must be used for five years before a change can be made.

Methods elected by actuary

Retirees

Assets and liabilities for current and future retirees are included.

Vested benefits

A benefit is included in vested benefits if it meets the requirements under PBGC. The benefit is multiplied by the participant's vesting percentage applicable to each benefit on the valuation date.

The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, pre-retirement death benefits in excess of the survivor annuity death benefit and post retirement death benefits for non-retired participants except as noted in the Plan provisions.

Assumptions and methods elected by actuary - plan accounting (ASC 960)

With the exceptions below, all assumptions and methods are the same as those used in determining your plan's regular funding target and target normal cost.

**Mortality** Based on Pri-2012 Total dataset base rate mortality table projected generationally using the using the Principal Mortality Improvement Scale (Principal 2023).

**Mortality base rates**

**Before benefit payment period**

Employee amount-weighted, male and female

**During benefit payment period**

Retiree amount-weighted, male and female

The Society of Actuaries (SOA) is an actuarial organization that periodically reviews mortality data and publishes mortality tables and improvement scales. In October 2019, the SOA released the Pri-2012 Mortality Tables for private-sector retirement plans in the U.S. The Pri-2012 report contains different sets of mortality tables based on complete dataset or various subsets. The Total dataset base rate table was selected based on information provided by the plan sponsor.

Pri-2012 section 12.4. provided three approaches for designated beneficiaries in the calculation of joint-and-survivor annuities. We believe "Approach 1" is reasonable for this plan.

**Mortality improvement**

Principal 2023 MI scale is based on MIM-2021-v4 application tool issued by SOA in October 2023 with the following parameters:

Parameter	Principal 2023
Historical dataset	SSA
Whittaker-Henderson Graduation	Order 3
Interpolation Structure	Basic
Graduated MI data last year ("jumping off" point)	2017
H/D transition ultimate year by age/cohort	2029/2029
Weight placed on interpolation by cohort	50%
Initial Slope periods (constraint)	2016-2017 (0.000)
LTR	SSA LTR 2023
COVID-19 or Excess load	None <sup>1</sup>

<sup>1</sup>Based on the sponsor's input, plan experience does not show a need for long-term excess death or Covid death load adjustments. See [Mortality documentation](#) for rationale and additional information.

Interest rate used to value liabilities	6.00% The interest rate used to value ASC 960 liabilities is developed as long-term expected geometric return on plan assets. Arithmetic expected return is calculated as the weighted average of broad asset classes' arithmetic returns of the plan's target asset allocation, and then converted to the geometric under lognormal distribution assumption. For details, see Long-Term Capital Market Assumptions link.
Treatment of administrative expenses	No adjustments are made for administrative expenses, either through a reduction in the discount rate or by calculating a present value of future expenses.  Plan sponsors may change their administrative expense handling at any time. Our approach provides consistent handling of ASC 960 liabilities from year to year, whether expenses are paid with plan assets or directly by the employer.  Note - expenses paid with plan assets are required to be included in funding normal cost. As a result, the plan is reimbursed annually through required funding. Exception – contributions are not required due to assets sufficiently in excess of liabilities to fund both expenses and normal cost. In this case, administrative expenses are taken from the excess assets.
Basis for lump sums	Interest rate Based on the three segment yield curve: 3.55%/3.95%/4.95% The plan document defines the lump sum interest rate based on IRC §417(e) rates which closely tie to the high quality corporate bond yields. According to our most recent study, the long-term expected yields for short/intermediate/long corporate bonds are 3.55%/3.95%/4.95%. For details, see Corporate AA yield in Table 3 of Long-Term Capital Market Assumptions link.  Mortality We have selected the same mortality assumption for lump sum payments, but with a 50/50 blend of male and female total dataset base rates and mortality improvement scales. This reflects the IRS practice of defining lump sum mortality on a unisex basis.
