RSR North America Retirement Income Pension Plan

### ***Scope and Nature of the ERISA Section 103(a)(3)(C) Audit***

We have performed an audit of the financial statements of the RSR North America Retirement Income Pension Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (“ERISA”), as permitted by ERISA Section 103(a)(3)(C) (“ERISA Section 103(a)(3)(C) audit”). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the RSR North America Retirement Income Pension Plan’s financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA (“qualified institution”).

Management has obtained a certification from a qualified institution as of and for the years ended December 31, 2024 and 2023, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

### ***Opinion***

In our opinion, based on our audit and on the procedures performed as described in the Auditors’ Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

### ***Basis for Opinion***

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (“GAAS”). Our responsibilities under those standards are further described in the Auditors’ Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the RSR North America Retirement Income Pension Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the RSR North America Retirement Income Pension Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### ***Auditors' Responsibilities for the Audit of the Financial Statements***

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we—

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the RSR North America Retirement Income Pension Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the RSR North America Retirement Income Pension Plan's ability to continue as a going concern for a reasonable period of time.

***Auditors' Responsibilities for the Audit of the Financial Statements (continued)***

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

***Other Matter—Supplemental Schedules Required by ERISA***

The supplemental schedules, including the Schedule H, Line 4i— Schedule of Assets (Held at End of Year) as of December 31, 2024 and the Schedule H, Line 4j - Schedule of Reportable Transactions for the year ended December 31, 2024, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

***Other Matter—Supplemental Schedules Required by ERISA (continued)***

In our opinion—

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

**1. Description of Plan**

As a result of legal reorganization of RSR North America Corp., formerly RSR Corporation, the RSR North America Retirement Income Pension Plan (the “Plan”) was formed January 1, 2019. The Plan can be adopted by any corporation owned or controlled by RSR North America Corp. (“RSR NA”). Employees, excluding those covered by a collective bargaining agreement, of the following companies (the “Employers”) are presently covered under the Plan:

- RSR North America Corp.
- Revere Smelting and Refining Corporation
- Quemetco Metals Limited, Inc. (formerly Murph Metals Incorporated)
- Quemetco, Inc.

The Plan is designed to comply with the Employee Retirement Income Security Act of 1974, as amended (“ERISA”). The following brief description of the Plan is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

*SECURE 2.0 Act*

On December 23, 2022, Congress passed the Consolidated Appropriations Act of 2023, which included the Setting Every Community Up Retirement Act (“SECURE”) 2.0 Act. SECURE Act 2.0 contains over 90 new retirement provisions, with varying effective dates through 2033. Since the provisions of SECURE Act 2.0 include both required and optional elements, applicable provisions will be evaluated and implemented in accordance with accompanying regulations and guidance prior to the deadline, December 31, 2026. Effective January 1, 2023, the age requirement for minimum distributions was raised to 73 from 72 for any participant who turns 72 on or after January 1, 2023. Certain provisions became effective for 2024, including changes to long-term part-time eligibility. These changes had no material impact on the Plan’s 2024 financial statements.

The Plan was frozen effective July 1, 2022. July 1, 2022, is the final entry date under the Plan and any eligible employee who was not a participant on December 31, 2022, is not permitted to become a participant. Compensation earned after December 31, 2022, is excluded from the calculation of a participants’ average monthly compensation and accrued benefit. Service earned after December 31, 2022, is excluded from the determination of years of benefit under the Plan.

*Plan Amendment*

Effective July 31, 2023, the Plan was amended to add a lump sum window option for the period August 10, 2023, through September 29, 2023, in lieu of any future payments from the Plan. A formal notice describing the lump sum window and all related election rights was distributed to eligible participants who terminated on or before December 31, 2022. All lump sums commence on November 1, 2023. In addition, the Plan was amended to increase the mandatory lump sum payment limit from accounts equal to or less than \$5,000, to \$7,000 for distributions made on and after January 1, 2024.

During March 2024, the Plan Administrator resolved to terminate the Plan, with an anticipated plan termination date of December 31, 2024. The Plan has since executed a participant notice of termination. As part of the termination, participants shall retain all benefits they would have been entitled to receive prior to the termination.

NOTES TO FINANCIAL STATEMENTS

*As of December 31, 2024 and 2023, and for the Year Ended December 31, 2024*

**1. Description of Plan (continued)**

*Plan Merger*

In conjunction with the resolution made above, on October 8, 2024, assets from affiliate pension plans of the sponsor, RSR Hourly Pension Plan – New York, RSR Hourly Pension Plan – California, RSR Hourly Pension Plan – Indiana, and Indianapolis Pension Plan for Production Employees totaling approximately \$38,900,000 were transferred into the Plan.

**Prior Plan**

The financial statements of the Plan include the net assets available for benefits and changes in net assets available for benefits related to the Murph Metals Profit Sharing Plan (“Prior Plan”), which was merged into the RSR North America Retirement Income Pension Plan effective January 1, 1976. In conjunction with the legal reorganization, the assets of the Prior Plan were transferred into the Plan during 2019. The Plan contains the following provisions related to the Prior Plan only:

- Effective January 1, 1976, a Prior Plan participant’s interest in his/her Prior Plan account became fully vested and nonforfeitable.
- A Prior Plan participant’s interest is to be distributed upon the participant’s death, attainment of retirement age, or termination, subject to certain restrictions.
- RSR NA guarantees that the amount distributed to a Prior Plan participant will not be less than the participant’s interest in his/her Prior Plan account at December 31, 1975.
- The current value of assets attributable to the Prior Plan was \$112,268 at December 31, 2023.
- In conjunction with the resolution made above, on October 8, 2024, assets totaling \$123,436 from the Prior Plan were transferred to the Plan and is included in transfers in, net, on the statement of changes in net assets available for benefits.

**Eligibility**

Prior to the Plan freeze, each employee, who was not covered by a collective bargaining agreement, entered the Plan on January 1<sup>st</sup> or July 1<sup>st</sup> following the completion of one year of service. Effective August 27, 2020, no new participants were allowed to enter the Plan.

**Contributions and Funding**

Actuarial valuations of the Plan, made as of January 1, 2024 by Aon, were the basis for determining the Company’s contributions to the Plan for the years ended December 31, 2024 and 2023, respectively. The Company contributes to the Plan the actuarially determined amount necessary to fund the Plan’s current service cost on a current basis and to fund the prior service cost plus interest thereon over the periods prescribed for ERISA minimum funding purposes. The Plan has met the ERISA minimum funding requirements for the years ended December 31, 2024 and 2023. Participants are neither required nor permitted to make contributions to the Plan.

**1. Description of Plan (continued)**

**Benefits and Vesting**

At age 65, a participant is eligible to receive a monthly pension calculated as follows:

The greater of (a) 0.75% of average monthly compensation multiplied by years of credited service less Prior Plan Offset, or (b) \$12.50 multiplied by years of credited service less Prior Plan Benefit, if any. Average monthly compensation is determined by dividing the total compensation (as defined in the plan document) earned by a participant during the five consecutive calendar years that produce the highest average earnings by 60, less Prior Plan Offset, if any.

Prior Plan Benefit is defined as the amount of the lifetime monthly benefit payable at the age of 65 that is actuarially equivalent to the value of the participant's account under the Prior Plan as of December 31, 1975. Actuarial equivalence is determined by dividing the participant's account by 120, discounted from age 65 to the participant's nearest age as of December 31, 1975, at a rate of 5% per annum.

Prior Plan Offset is defined as the amount of the lifetime benefit payable at the age of 65 that is actuarially equivalent to the value of the participant's account under the Prior Plan as of December 31, 1989. Actuarial equivalence is determined by using the same assumptions described in Note 4, with the exception of the rate of interest used of 8% per annum.

A participant of both the Prior Plan and newly formed Plan includes Prior Plan Benefits as determined from his/her December 31, 1988, theoretical account balance, provided, however, that in no event shall a participant receive benefits which are less than the benefits that would have accrued if the Plan in effect prior to 1989 had continued without change, assuming a continuation of the participant's 1988 compensation.

A participant may elect early retirement (with reduced benefits) at age 55 or over if the participant has completed at least 15 years of vesting service.

Participants are 100% vested upon completion of five years of vesting service.

**2. Summary of Significant Accounting Policies**

**Basis of Accounting**

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

**Use of Estimates**

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

NOTES TO FINANCIAL STATEMENTS

*As of December 31, 2024 and 2023, and for the Year Ended December 31, 2024*

---

**2. Summary of Significant Accounting Policies (continued)**

**Master Trust**

The investments of the Plan, along with investments of other plans of Ecobat Resources US, LLC (the “Plan Sponsor”) and its subsidiaries, are pooled for investment purposes in a master trust pursuant to an agreement dated November 1, 2022, between Delaware Charter Guarantee & Trust Company, a Delaware corporation conducting business under the trade name Principal Trust Company (“Principal”), the trustee of the Master Trust, and the Company – The Ecobat Resources US, LLC Defined Benefit Plans Master Trust (the “Master Trust”).

**Investment Valuation and Income Recognition**

The Plan’s investments within the Master Trust and directly in a collective investment fund are stated at net asset value (“NAV”) as determined by the trustee at the end of the plan year. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value investments.

Purchases and sales of securities are recorded on a trade-date basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded on an accrual basis.

The Plan invests in various investment securities through the Master Trust and directly through collective investment funds. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and those changes could materially affect the amounts reported in the statements of net assets available for benefits.

**Payment of Benefits**

Benefits are recorded when paid.

**Expenses**

Certain administrative expenses of the Plan are paid directly by the Company and are excluded from these financial statements. The portion of plan administrative expenses paid by the Company totaled approximately \$243,000 for the year December 31, 2024. Investment related expenses are included in net appreciation (depreciation) in fair value of investments.

**Recently Adopted and New Accounting Principles**

In June 2016, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2016-13, *Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments*, and subsequent amendments to the initial guidance, ASU 2019-10. This accounting standard changes the methodology for measuring credit losses on financial instruments and the timing of when such losses are recorded. ASU No. 2016-13 is effective for fiscal years, and interim periods within those years, beginning after December 15, 2022. The Plan adopted the provisions of ASU 2016-13 for the year ended December 31, 2023. The adoption of this standard did not have a material impact on the Plan's financial statements.

NOTES TO FINANCIAL STATEMENTS

*As of December 31, 2024 and 2023, and for the Year Ended December 31, 2024*

**2. Summary of Significant Accounting Policies (continued)**

**Subsequent Events**

Subsequent events have been evaluated through the date of the report of independent auditors, which is the date the financial statements were available to be issued. Other than the matter disclosed in Note 12, there were no material subsequent events that required recognition or disclosure in the financial statements.

**3. Information Prepared and Certified by the Custodian and Trustee (unaudited)**

Certain information related to investments disclosed in the accompanying financial statements and ERISA-required supplementary information, including investments held at December 31, 2024 and 2023, and net appreciation (depreciation) in fair value of investments and interest and dividends for the year ended December 31, 2024, was obtained by management and agreed to or derived from information certified as complete and accurate by Principal Bank, the custodian and trustee.

**4. Ecobat Resources US, LLC Defined Benefit Pension Plans Master Trust**

Certain Plan assets are held in the Ecobat Resources US, LLC Defined Benefit Pension Plans Master Trust as of December 31, 2024 and 2023. The assets of the Master Trust are comprised of different investments in collective investment funds and venture capital funds.

The amount of Master Trust's assets, income and change in value which is allocated to the Plan is determined by the ratio of account balances in the Plan to the total account balances of all participating plans. As of December 31, 2024 and 2023, the Plan's ownership interest in the net assets of the Master Trust was approximately 100% and 36%, respectively.

**5. Fair Value Measurements**

The fair value hierarchy prioritizes the inputs used to measure fair value, giving the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under the accounting guidance are described below:

- |         |  |
|---------|--|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.  |
| Level 2 | Inputs to the valuation methodology include: <ul style="list-style-type: none"> <li>• Quoted prices for similar assets or liabilities in active markets;</li> <li>• Quoted prices for identical or similar assets or liabilities in inactive markets;</li> <li>• Inputs other than quoted prices that are observable for the asset or liability;</li> <li>• Inputs that are derived principally from or corroborated by observable market data by correlation or other means.</li> </ul> |

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

NOTES TO FINANCIAL STATEMENTS

*As of December 31, 2024 and 2023, and for the Year Ended December 31, 2024*

**5. Fair Value Measurements (continued)**

Level 3            Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability’s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value.

*Collective investment funds:* The collective investment funds are public investment vehicles valued using a NAV as a practical expedient provided by the manager of each fund. The NAV is based on the underlying net assets owned by the fund, divided by the number of shares outstanding. The NAV’s unit price is quoted on a private market that is not active. However, the NAV is based on the fair value of the underlying securities within the fund, which are traded on an active market, and valued at the closing price reported on the active market on which those individual securities are traded. The significant investment strategies of the funds are as described in the financial statements provided by each fund. There are no restrictions on redemptions from these funds.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table summarizes investments for which fair value is measured using the NAV per share practical expedient. There are no redemption restrictions for these investments.

As of December 31, 2024:

<u>Investment</u>	<u>Fair Value</u>	<u>Unfunded Commitments</u>	<u>Redemption Frequency (If Currently Eligible)</u>	<u>Redemption Notice Period</u>
Collective investment fund	\$506,324	N/A	Daily	N/A
Plan’s interest in master trust	\$54,764,660	N/A	Daily	N/A

**6. Actuarial Present Value of Accumulated Plan Benefits**

Accumulated plan benefits are future periodic payments, including lump sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are accumulated based on employees' compensation during each year of credited service. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances—retirement, death, disability, and termination of employment—are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits.

The actuarial present value of accumulated plan benefits as of December 31, 2024 and 2023 was determined by an actuary from Aon, and is the amount which results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The present values of accumulated plan benefits as of December 31, 2024 and 2023 have been projected from the January 1, 2024 and 2024 valuations, respectively, in accordance with the actuarial assumptions and based on actual contributions and benefit payments for 2024 and 2023.

Significant assumptions underlying the actuarial computations are as follows as of December 31, 2024:

Interest rates used to discount the obligation:	5.34% per annum
Mortality:	Mortality is based on the PRI-2012 White Collar Tables, projected generationally using improvement scale MP-2021.
Assumed average retirement age:	Retirement rate based on January 2017 Experience Study.

Significant assumptions underlying the actuarial computations are as follows as of December 31, 2023:

Interest rates used to discount the obligation:	6.50% per annum
Mortality:	Mortality is based on the PRI-2012 White Collar Tables, projected generationally using improvement scale MP-2021.
Assumed average retirement age:	Retirement rate based on January 2017 Experience Study.

NOTES TO FINANCIAL STATEMENTS

*As of December 31, 2024 and 2023, and for the Year Ended December 31, 2024*

**6. Actuarial Present Value of Accumulated Plan Benefits (continued)**

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits. Plan contributions are made, and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

The table below reflects the actuarial present values of accumulated plan benefits:

<b>As of December 31,</b>	<b>2024</b>	<b>2023</b>
Actuarial present value of accumulated plan benefits:		
Vested benefits		
Participants currently receiving payments	\$ 20,172,107	\$ 6,300,851
Participants with deferred benefits	10,418,136	5,832,483
Other participants	33,013,691	12,394,096
Total bested plan benefits	63,603,934	24,527,430
Nonvested benefits	-	50,574
Actuarial present value of accumulated plan benefits	\$ 63,603,934	\$ 24,578,004

The table below reflects the changes in the actuarial present value of accumulated plan benefits:

<b>For the Year Ended December 31,</b>	<b>2024</b>
Actuarial present value of accumulated plan benefits at beginning of year	\$ 24,578,004
Change attributable to:	
Interest accumulation	2,011,401
Benefits paid	(3,708,603)
Plan merge	32,883,711
Change in actuarial assumptions (Note 7)	7,839,420
Net change	39,025,929
Actuarial present value of accumulated plan benefits at end of year	\$ 63,603,933

(b) Consists primarily of the increase due to ongoing benefit accruals (if any) and those items of plan experience that are not associated with plan asset performance.

Accumulated plan benefits as of December 31, 2023, exclude the actuarial present value of accumulated plan benefits attributable to the Prior Plan. Those benefits are fully funded by the \$112,268 included in interest in master trust on the statement of net assets available for benefits. During the year ended December 31, 2024, in conjunction with the plan merger, assets totaling \$123,436 were transferred from the Prior Plan into the Plan, and is included in plan merge in the table above.

**7. Changes in Actuarial Assumptions**

The actuarial services for the years ended December 31, 2024 and 2023 were provided by Aon. The following methods and assumptions have changed and have impacted the valuation result of 2024:

The interest rate assumption changed from 6.50% to 5.34%.

**8. Related Party and Party-in-Interest Transactions**

Certain Plan investments in collective investment funds, both directly and through the Master Trust, are managed by Principal. Principal is the custodian and trustee of the Plan and, therefore, these transactions qualify as party-in-interest transactions. All of these transactions are exempt from the prohibited transaction rules.

Fees incurred by the Plan for the investment management services are included in net appreciation (depreciation) in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. The Plan also made direct payments to the trustee and third party administrator totaling \$19,348 for the year ended December 31, 2024. These costs incurred by the Plan are included in administrative expenses on the statement of changes in net assets available for benefits. The plan sponsor pays directly any other fees related to the Plan's operations.

**9. Plan Termination**

The Plan Administrator resolved to terminate the Plan. As such, net assets of the Plan were allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Benefits attributable to employee contributions, taking into account those paid out before termination.
2. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
3. Other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC") (a U.S. government agency) up to the applicable limitations.
4. All other vested benefits (that is, vested benefits not insured by the PBGC).
5. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

NOTES TO FINANCIAL STATEMENTS

*As of December 31, 2024 and 2023, and for the Year Ended December 31, 2024*

**10. Income Tax Status**

The Internal Revenue Service (“IRS”) has determined and informed the Company by letter dated May 18, 2021, stating that the RSR Corporation Retirement Income Pension Plan and Trust, the Plan of which the RSR North America Retirement Income Pension Plan was spun off from, is designed in accordance with the applicable sections of the Internal Revenue Code (“IRC”). An application for a determination of the new Plan has been filed with the IRC, however, as of the date of the audit report, a final determination has not been made. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRS.

U.S. GAAP require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits taken by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2021.

**11. Risk and Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported, based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

**12. Subsequent Events**

Effective August 15, 2025, in conjunction with the resolution to terminate the Plan, assets totaling approximately \$28,700,000 were transferred out of the Plan. As of the date of the transfer, assets totaling approximately \$1,400,000 remained in the plan to pay benefits through October 2025 and remaining expenses to PBGC, at which point the plan will be deemed effectively terminated.

## Schedule SB, Part V – Summary of Plan Provisions

Effective Date January 1, 2019. The latest amendment dated October 1, 2024.

Effective October 1, 2024, the RSR Hourly Pension Plan – California, RSR Hourly Pension Plan – Indiana, RSR Hourly Pension Plan – New York, and Indianapolis Pension Plan for Production Employees were merged into the RSR North America Corp. Retirement Income Pension Plan. Effective December 31, 2024, the plan was terminated.

### Eligibility for Participation

A full-time employee not covered by a collective bargained agreement shall become participants in this plan on the January 1 or July 1 coincident with or next following completion of one year of employment where at least 1,000 hours were worked.

Employees hired on or after September 1, 2020 are not eligible to participate in the plan.

Individual who is reemployed by the Employer after December 31, 2022 shall not be an Eligible Employee following such reemployment. July 1, 2022 is the final Entry Date under the Plan.

### Normal Retirement

#### Eligibility

Age 65.

#### Benefit

A monthly amount equal to the greater of (1) or (2):

(1) 0.75% of Average Monthly Compensation multiplied by years of Benefit Service minus the Prior Plan Offset (if any)

(2) \$12.50 multiplied by years of Benefit Service less the Prior Plan Benefit (if any)

Benefit Accruals are frozen as of December 31, 2022.

### Early Retirement

#### Eligibility

Age 55 and fifteen years of vesting service.

#### Benefit

A monthly benefit equal to the normal retirement benefit reduced by 5/9 of 1% for each month of the first 60 months and 5/18 of 1% for each additional month that the early retirement precedes the normal retirement.

### Late Retirement

Eligibility	Retirement after normal retirement age.
Benefit	The greater of the accrued benefit as of the late retirement date and the accrued benefit as of the normal retirement date actuarially increased to the late retirement date.
Vested Termination	
Eligibility	Five years of vesting service.
Benefit	The accrued benefit at the date of termination. Reduced payments may begin any time after eligibility for early retirement based on the same reductions as early retirement from active status.
Surviving Spouse	
Eligibility	Married and five years of vesting service.
Benefit	<p>For deaths that occur during active employment, a monthly benefit payable to the surviving spouse beginning at the employee's earliest retirement age equal to 100% of the amount payable if the participant had retired early with a 100% joint and survivor benefit.</p> <p>For deaths that occur when the employee is no longer actively employed, a monthly benefit payable to the surviving spouse beginning at the employee's earliest retirement age equal to 50% of the amount payable if the participant had retired early with a 50% joint and survivor benefit.</p>
Normal Form of Annuity	
Without Spouse	Single life annuity.
With Spouse	50% Joint and survivor annuity reduced to be equivalent to the retirement benefit payable for employee's lifetime. Participant receives reduced lifetime benefit and, in event of participant's death, 50% of reduced benefit continues to surviving spouse.

The funding valuation reflects the following assumption change:

- A change in the unlimited expected rate of return on assets from 6.75% for 2023 to 6.50% for 2024, as limited by the third segment rate.

This change was made to better reflect the anticipated plan experience. This assumption change did not reduce the funding shortfall; as such, approval of the Commissioner is not required.

## Schedule SB, Part V – Summary of Plan Provisions

Effective Date January 1, 2019. The latest amendment dated October 1, 2024.

Effective October 1, 2024, the RSR Hourly Pension Plan – California, RSR Hourly Pension Plan – Indiana, RSR Hourly Pension Plan – New York, and Indianapolis Pension Plan for Production Employees were merged into the RSR North America Corp. Retirement Income Pension Plan. Effective December 31, 2024, the plan was terminated.

Eligibility for Participation

A full-time employee not covered by a collective bargained agreement shall become participants in this plan on the January 1 or July 1 coincident with or next following completion of one year of employment where at least 1,000 hours were worked.

Employees hired on or after September 1, 2020 are not eligible to participate in the plan.

Individual who is reemployed by the Employer after December 31, 2022 shall not be an Eligible Employee following such reemployment. July 1, 2022 is the final Entry Date under the Plan.

Normal Retirement

Eligibility

Age 65.

Benefit

A monthly amount equal to the greater of (1) or (2):

(1) 0.75% of Average Monthly Compensation multiplied by years of Benefit Service minus the Prior Plan Offset (if any)

(2) \$12.50 multiplied by years of Benefit Service less the Prior Plan Benefit (if any)

Benefit Accruals are frozen as of December 31, 2022.

Early Retirement

Eligibility

Age 55 and fifteen years of vesting service.

Benefit

A monthly benefit equal to the normal retirement benefit reduced by 5/9 of 1% for each month of the first 60 months and 5/18 of 1% for each additional month that the early retirement precedes the normal retirement.

## Schedule SB, line 24 — Change in Actuarial Assumptions

The funding valuation reflects the following assumption change:

- A change in the unlimited expected rate of return on assets from 6.75% for 2023 to 6.50% for 2024, as limited by the third segment rate.

This change was made to better reflect the anticipated plan experience. This assumption change did not reduce the funding shortfall; as such, approval of the Commissioner is not required.
