## INDEPENDENT AUDITORS' REPORT

To the Plan Administrator of  
Rhode Island Medical Imaging, Inc. Profit Sharing Plan  
Warwick, Rhode Island

### ***Scope and Nature of the ERISA Section 103(a)(3)(C) Audit***

We have performed audits of the financial statements of the Rhode Island Medical Imaging, Inc. Profit Sharing Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Rhode Island Medical Imaging, Inc. Profit Sharing Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2024 and 2023, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

### ***Opinion***

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

### ***Basis for Opinion***

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Rhode Island Medical Imaging, Inc. Profit Sharing Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Rhode Island Medical Imaging, Inc. Profit Sharing Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### ***Auditors' Responsibilities for the Audit of the Financial Statements***

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may

involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Rhode Island Medical Imaging, Inc. Profit Sharing Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Rhode Island Medical Imaging, Inc. Profit Sharing Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

***Other Matter - Supplemental Schedule Required by ERISA***

The supplemental schedule, Schedule H, Line 4i – Schedule of Assets (Held at End of Year), is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other

additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

**PROFIT SHARING PLAN**  
**NOTES TO FINANCIAL STATEMENTS**  
**DECEMBER 31, 2024 AND 2023**

**1. Description of Plan**

The following description of the Rhode Island Medical Imaging, Inc. (the “Company”) Profit Sharing Plan (the “Plan”) is intended to provide only general information regarding the Plan. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

**General**

The Plan is a defined contribution plan covering all employees of the Company who are twenty-one years or older. Entry dates are the first day of the month following satisfaction of eligibility requirements. Per diem and leased employees are ineligible for participation. The Plan is subject to the provisions of ERISA.

The Company is also the administrator of the Plan. As administrator, the Company has exclusive authority and responsibility for all matters in conjunction with the operations and administration of the Plan. T. Rowe Price Trust Company (“T. Rowe Price”) is the appointed trustee of the Plan and acts at the direction of the Plan Administrator.

**Contributions**

Eligible active participants may elect, but shall not be required, to contribute a percentage of their pre-tax and/or post-tax annual eligible compensation, as defined in the Plan, up to the maximum amount allowable under federal regulations. An active participant may, at the discretion of the Plan Administrator, contribute to the Plan, distributions from other qualified plans or individual retirement accounts, if the contributions satisfy the tax law requirements for a qualified rollover. The Plan also provides for participant catch-up contributions. The Plan offers an annual automatic enrollment feature to eligible participants each June 1<sup>st</sup> unless they opt out annually. Participants are automatically enrolled in the Plan after meeting eligibility requirements and re-employed former participants are automatically enrolled after re-employment at a contribution percentage of 3% of eligible compensation. The Plan also provides for an automatic contribution increase that will automatically increase the rate by 1% each June 1, up to a maximum of 10%.

Participants must submit an election each year, either by telephone or the internet, to opt out of the Plan. There is a default investment election of a target date fund based on birth date criteria in the event that a participant does not make an election to allocate contributions.

During 2024, the Company made employer contributions equal to \$69,000 for stockholders, \$25,000-\$34,500 for radiologists meeting certain criteria, and 6% of the participants’ compensation for other eligible employees. During 2023, the Company made employer profit-sharing contributions equal to \$66,000 for stockholders, \$30,000 for radiologists meeting certain criteria, and 6% of the participants’ compensation for other eligible employees. To be eligible for employer profit-sharing contributions, an employee must have been credited with at least one year of service and 1,000 hours of service in the respective Plan year.

**1. Description of Plan (continued)**

**Contributions (continued)**

The Plan also allows for top-heavy minimum allocations to employees that do not meet eligibility requirements for the profit-sharing contribution to comply with the requirements of a top-heavy plan. During 2024 and 2023, the Company made employer profit-sharing contributions of 5% to those employees that met eligibility requirements apart from completing 1,000 hours of service in the Plan year, and 3% to those employees with less than 1,000 hours of service in any Plan year.

The Company may also make a discretionary matching contribution which, if made, is calculated using an allocation formula as determined by the Company in its sole discretion. The Company did not make any discretionary matching contributions during 2024 or 2023.

**Participant accounts**

Each participant's account is credited with the participant's contributions, rollover contributions, allocations of the Company's contribution, as well as Plan earnings. Participant accounts are charged a set-up and maintenance fee for participant notes receivable and fees for distributions. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

**Vesting**

Participants are immediately vested in their voluntary contributions and related investment earnings. Vesting in the Company's matching and profit-sharing contributions plus actual earnings is based on the number of years of continuous service. A participant is 100% vested after six years of credited service. Service is credited from the date of employment.

**Notes receivable from participants**

Participants may borrow from their account a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. A participant may only have one loan outstanding at a time. Loan terms range from one to five years, or up to thirty years for the purchase of a primary residence. The loans are secured by the vested balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest is paid ratably through payroll deductions.

**Payment of benefits**

If a participant terminates employment with the Company prior to normal retirement, they will be entitled to receive the vested percentage of their account balance. In the event of retirement, disability, or death, the participant shall immediately become 100% vested in their account.

**PROFIT SHARING PLAN**  
**NOTES TO FINANCIAL STATEMENTS**  
**DECEMBER 31, 2024 AND 2023**

**1. Description of Plan (continued)**

**Payment of benefits (continued)**

Upon termination of service, a participant may receive a lump-sum amount equal to the value of his or her account, partial distributions at such times elected, or more frequent installments over a period not to exceed the joint life expectancy of the participant and their beneficiary(ies). Alternatively, the participant may elect to defer the distribution if the vested balance is greater than \$5,000 through December 31, 2023 or greater than \$7,000 beginning January 1, 2024. Participants may also elect to make an in-service withdrawal if they have reached normal retirement age. Hardship withdrawals from the Plan are permitted.

**Forfeitures**

Participants in the Plan who leave the employment of the Company before completing six years of service forfeit the non-vested portion of their accounts. At December 31, 2024 and 2023, forfeited non-vested accounts totaled approximately \$23,000 and \$89,000, respectively.

Forfeitures may be used to pay administrative expenses and reduce Company contributions for the Plan. For the years ended December 31, 2024 and 2023, forfeitures in the amount of approximately \$272,000 and \$268,000, respectively, were used to reduce Company contributions.

**Investment options**

Upon enrollment in the Plan, a participant may direct how their salary deferral contributions, Company employer contributions, and rollover contributions will be invested. Such investment directives may be changed in accordance with the procedures established by the Plan Administrator. A participant may choose from the various investments offered through T. Rowe Price.

**2. Summary of significant accounting policies**

**Basis of accounting**

The financial statements of the Plan are prepared on the accrual basis of accounting.

**Use of estimates**

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, the reported amount of changes in net assets available for benefits during the reporting period, and disclosure of contingent assets and liabilities. Estimates are principally used in the determination of the fair value of investments. Actual results could differ from those estimates.

**PROFIT SHARING PLAN**  
**NOTES TO FINANCIAL STATEMENTS**  
**DECEMBER 31, 2024 AND 2023**

**2. Summary of significant accounting policies (continued)**

**Investment valuation and income recognition**

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment adviser and trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

**Contributions**

Contributions from Plan participants are recorded in the year in which employee contributions are withheld from their compensation. Employer profit-sharing and discretionary matching contributions are recorded in the year to which they relate, based on the Company's funding policy and the Plan's provisions.

**Notes receivable from participants**

Notes receivable from participant are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. Interest income is recorded on the accrual basis. A note receivable is considered past due if payment has not been received within stated terms. Delinquent notes receivable from participants are reclassified as distributions based on terms of the Plan agreement. No allowance for credit losses has been recorded as of December 31, 2024 and 2023.

**Payment of benefits**

Benefits are recorded when paid.

**Expenses**

Expenses incurred in the administration of the Plan are paid by the Company, unless the Company directs that such expenses shall be paid by the Plan. Expenses that are paid by the Company are excluded from these financial statements. Participant notes receivable set-up and maintenance fees and distribution fees are paid directly by the participants through a reduction in their account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

**NOTES TO FINANCIAL STATEMENTS**  
**DECEMBER 31, 2024 AND 2023**

**2. Summary of significant accounting policies (continued)**

**Subsequent events**

The Plan did not have any subsequent events through October 10, 2025, which is the date the financial statements were available to be issued, for events requiring recording or disclosure in the financial statements for the year ended December 31, 2024.

**3. Information prepared and certified by the trustee**

Certain information presented in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2024 and 2023, and net appreciation in fair value of investments, interest, dividends, and interest income on notes receivable from participants for the years ended December 31, 2024 and 2023 was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by T. Rowe Price (the trustee of the Plan).

**4. Fair value measurements**

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board ("FASB") *Accounting Standards Codification* ("ASC") 820, *Fair Value Measurements and Disclosures* are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

**RHODE ISLAND MEDICAL IMAGING, INC.  
PROFIT SHARING PLAN  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2024 AND 2023**

**4. Fair value measurements (continued)**

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

**Mutual funds:** Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

**Money market fund:** Valued at amortized cost.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2024 and 2023:

**Assets at Fair Value as of December 31, 2024**

**5. Nonparticipant-directed investments**

The nonparticipant-directed investments at December 31, 2024 and 2023, consisting of a money market account, amounted to \$28,419 and \$90,995, respectively.

The changes in the nonparticipant-directed investments consisted of the following:

	2024	2023
Transfers to nonparticipant-directed investments due to fee recapture	\$ 204,940	\$ 194,626
Transfers to nonparticipant-directed investments due to forfeitures	199,195	244,407

**6. Related party transactions and party-in-interest transactions**

Plan investments are held and managed by T. Rowe Price, the trustee of the Plan. Therefore, these transactions qualify as party-in-interest transactions. The Plan made direct payment to T. Rowe Price for administrative services of \$5,845 and \$4,780 for each of the years ended December 31, 2024 and 2023, respectively. The Plan also issues loans to participants which

are secured by the balances in their accounts. Fees for investment management services are paid by the Plan Sponsor.

The Plan is administered by a directed trustee appointed by the Board of Directors of Rhode Island Medical Imaging, Inc. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

**7. Plan termination**

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

**8. Tax status**

The Company has adopted a non-standardized pre-approved profit sharing plan document sponsored by The Angell Pension Group, Inc. (“Angell”). Angell has an opinion letter, dated June 30, 2020, on the Plan stating that the form of the Plan is acceptable under Section 401 of the Internal Revenue Code (“IRC”). Generally, the Plan Administrator and the Plan may rely on the opinion letter received by Angell as to the form of the Plan qualifying under the IRC. The Plan has been amended since the letter was obtained. However, the Plan Administrator believes that the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan Administrator believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024 and 2023, there are no uncertain tax positions taken, or expected to be taken, that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

**9. Risks and uncertainties**

The Plan provides for and invests in various investment options with various investment objectives. Investment securities are exposed to various risks such as interest rate, market risk, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants’ account balances and the amounts reported in the statements of net assets available for benefits.

**RHODE ISLAND MEDICAL IMAGING, INC.**  
**PROFIT SHARING PLAN**  
**NOTES TO FINANCIAL STATEMENTS**  
**DECEMBER 31, 2024 AND 2023**

**9. Risks and uncertainties (continued)**

The Plan's investments are held by a single trustee. The Plan's exposure to credit risk is associated with the outside entity's non-performance of their fiduciary responsibilities relating to these amounts as specified in the agreement. Benefits provided by the Plan are not insured or guaranteed by the Pension Benefit Guaranty Corporation.
