Independent Auditor's Report

RSM US LLP

Plan Administrator
Syensqo USA 401(k) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Syensqo USA 401(k) Plan (formerly Solvay USA LLC Savings Plus Plan) (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter—Supplemental Schedule Required by ERISA

The supplemental schedule of Schedule H, line 4i—schedule of assets (held at end of year), as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL’s Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL’s Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL’s Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Notes to Financial Statements

Note 1. Description of the Plan

Effective January 1, 2024, Solvay USA LLC Savings Plus Plan changed its name to Syensqo USA 401(k) Plan. The following description of the Syensqo USA 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provision.

General: The Plan is a defined contribution plan established for eligible employees of Syensqo USA LLC (the Company or the Plan Sponsor) and eligible employees of various participating subsidiaries. The Plan, which is sponsored by the Company, was designed to enhance the existing retirement program for employees of Syensqo USA LLC. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility: Participants are automatically enrolled into the Plan if the participant is a full-time or part-time non-union employee or if the participant is covered by a collective bargaining agreement (CBA) that specifically provides for participation in the Plan. A full-time employee is eligible to participate in the Plan as of the participant's date of hire. A part-time employee—defined as someone scheduled to work fewer than 20 hours per week, or who is a student or intern—can participate in the Plan after the end of the first 12-month period in which the participant has worked at least 1,000 hours of service. The 12-month period is measured using the 12-month period beginning on the participant's date of hire or from the beginning of any Plan year after the date of hire.

Contributions: Contributions are made to the Plan by participants through payroll deductions and by the Company on behalf of participants. Such contributions are invested in any of the investment funds offered, at the discretion of the participating employees. Participants can contribute from 1% to 50% of their base compensation on a before-tax or after-tax basis. However, the sum of before-tax and after-tax contributions may not exceed 50% of the participant's base compensation. Before-tax and Roth after-tax contributions may not exceed \$23,000 in 2024. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Catch-up contributions may not exceed \$7,500 in 2024.

With the exception of some unions, all participants hired on or after January 1, 2016, are eligible to receive an employer matching contribution up to 6%. In addition to the employer matching contribution, these participants will receive an employer contribution of 3% of their eligible pay. Members of the prior Cytec Savings Plan are also covered under these formulas. A participant will automatically be enrolled in the Plan if he or she meets the Plan's eligibility requirements of being a full-time or part-time employee unless their union has another bargained benefit (Vernon Union and Orange, California Union). Contributions will begin as of their date of hire (or as of their date of eligibility, if later). Participants are not eligible for the above matching and non-elective contribution, if they are covered under the following Pension Plan Formulas: cash balance, traditional plan, Pension Equity Plan (PEP), or the Solvay USA Hourly Pension (Hourly). They are also ineligible if they are a union employee at the Vernon location or Orange, California.

Cash balance participants: Participants of the Syensqo USA 401(k) Plan hired before January 1, 2016, or prior to the applicable Union harmonization dates for certain collective bargaining locations specified below and remained employed receive an employer matching contribution of 9% if:

- (1) They were either active participants of PEP or Hourly and elected through a choice window to participate in the cash balance formula, or

**Syensqo USA 401(k) Plan
(formerly Solvay USA LLC Savings Plus Plan)**

Notes to Financial Statements

Note 1. Description of the Plan (Continued)

(2) Were non-union employees at one of the following collective bargaining locations and were either hired before January 1, 2016, or, if later, per applicable harmonization date listed below:

Collective Bargaining Location Covered Under the Plan	Union Harmonization Date
Baton Rouge, LA	January 1, 2016
Cincinnati, OH	January 1, 2016
Baltimore, MD	June 1, 2016
University Park, IL	November 7, 2016
Charleston, SC	January 1, 2017
Chicago Heights, IL	January 1, 2017
Blue Island, IL	April 1, 2017

Traditional formula plan participants: Participants of the Syensqo USA 401(k) Plan who elected, as of January 1, 2005, to remain covered under the traditional formula and remained employed since that date receive an employer matching contribution of 7%.

Transition contribution participants: Participants of the Syensqo USA 401(k) Plan on December 31, 2004, other than traditional formula plan participants who have remained employed by Syensqo since that date, receive an employer matching contribution of 9% and are also eligible for the 1.25% transition company contribution.

Participants of the Syensqo Consolidated Pension Plan who previously participated in the PEP or Hourly plan who elected to remain covered by either plans through a choice window or union employees of the Vernon, Texas location will receive an employer matching contribution of 4%.

Effective April 1, 2017, these participants became cash balance participants and received employer matching contributions equal to 100% of the amount of the Participant's Basic Savings Contributions for that payroll period, which are not in excess of 9% of the participant's eligible compensation.

Participant accounts: Each participant's account is credited with the participant's contributions and an allocation of the Company's contribution and Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or participant account balances, as defined. The benefit to which a participant is entitled is the vested benefit that can be provided from the participant's account.

Participants: A participant may invest in one or more of the investment funds, in increments of 1%. The investment mix chosen by the participant will apply to the employee portion, the participant-directed portion of the Company match and any rollover contributions made.

**Syensqo USA 401(k) Plan
(formerly Solvay USA LLC Savings Plus Plan)**

Notes to Financial Statements

Note 1. Description of the Plan (Continued)

Vesting: Participants are vested immediately in their contributions plus actual earnings thereon. Participants vest in Company contributions at the following rates:

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than one year	0%
1 year (but less than 2)	25%
2 years (but less than 3)	50%
3 years (but less than 4)	75%
4 years or more	100%

A participant shall also be 100% vested either upon reaching age 55, termination of employment by reason of death or becoming totally disabled.

Payment of benefits: Participants are eligible to receive benefit payments upon termination of employment, disability or retirement. Participants can elect to defer payment until age 72 if the account balance is greater than \$1,000 and the participant is 70 ½ after December 31, 2019. Distributions will be paid either in a lump-sum payment, or installment payments made on a monthly, quarterly or annual basis. Installment payments will be made over at least two years, but not more than 10 years.

If a participant dies or becomes totally disabled while an active employee, the participant's entire account balance will become 100% vested and will be paid to the beneficiary. If a participant dies after leaving, but before receiving the entire vested account balance, the remaining account balance will be paid to the beneficiary.

Withdrawals: Participants are allowed to withdraw their after-tax contributions and earnings thereon, at any time. Participants may withdraw before-tax contributions only upon meeting certain hardship conditions, or after reaching age 59 ½. Any withdrawal other than loans would be subject to ordinary income tax withholding and, in addition, if the participant is under age 59 ½, it may be subject to a 10% withholding for penalty tax. In accordance with the vesting table above, the benefit to which a participant is entitled is the amount provided by contributions (Company and participant) and investment earnings thereon, including net realized and unrealized investment gains and losses that have been allocated to the participant's account balance.

The Company's additional retirement contribution and any earnings attributed are not available for in-service withdrawals.

Administrative expenses: Recordkeeping, investment management, accounting and miscellaneous fees are expenses incurred in the administration of the Plan.

Forfeitures: At December 31, 2024 and 2023, forfeited nonvested accounts totaled approximately \$1,560,000 and \$133,000, respectively. During the year ended December 31, 2024, approximately \$98 of the forfeited nonvested accounts were used to reduce employer contributions, and approximately \$392,000 were used to reduce administrative expenses.

(formerly Solvay USA LLC Savings Plus Plan)**

Notes to Financial Statements

Note 1. Description of the Plan (Continued)

Notes receivable from participants: Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the Plan document. Participants may borrow up to a maximum of 50% of their vested account balance, excluding the Company's additional retirement contribution. The minimum loan amount is \$1,000 and the maximum loan amount cannot exceed \$50,000. Loans bear interest at a rate of prime plus 1% and are repayable within five years except for loans used to acquire a principal residence, which are repayable for terms up to 15 years. Interest rates on outstanding participant loans ranged from 4.25% to 10.50% at December 31, 2024 and 2023.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Investment valuation and income recognition: The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on the trade-date basis. Interest income is recorded as earned on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefit payments: Benefits are recorded when paid.

Use of estimates: The preparation of the Plan's financial statements in conformity with generally accepted accounting principles requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Contributions: Contributions from Plan participants and the matching contributions from the employer are recorded in the year in which the employee contributions are withheld from compensation.

Note 3. Information Certified by Bank of America, N.A. (Trustee)

The following is a summary of the Plan's asset information as of December 31, 2024 and 2023, and for the year ended December 31, 2024, included throughout the Plan's financial statements and ERISA-required supplemental schedule that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that the information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and ERISA-required supplemental schedule related to the following assets at December 31, 2024 and 2023.

The Plan's trustee certified to the completeness and accuracy of the investments of \$1,704,159,111 and \$1,573,877,342, due from broker of \$517,811 and \$750,595, and notes receivable from participants of \$23,865,596 and \$22,008,079 as of December 31, 2024 and 2023, respectively.

**Syensqo USA 401(k) Plan
(formerly Solvay USA LLC Savings Plus Plan)**

Notes to Financial Statements

Note 3. Information Certified by Bank of America, N.A. (Trustee) (Continued)

The trustee also certified to the completeness and accuracy of \$164,693,079 of net appreciation in fair value of investments, \$31,740,277 of interest, dividends and other income, and \$1,729,631 of interest income on notes receivable from participants for the year ended December 31, 2024.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Accounting Standards Codification (ASC) 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Investments that use the practical expedient are not classified within the fair value hierarchy.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Registered investment companies (mutual funds): Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common stock: Fair value is based on the last reported closing price of the active market on which the individual security trades.

**Syensqo USA 401(k) Plan
(formerly Solvay USA LLC Savings Plus Plan)**

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

Collective trusts: Valued based on the NAV of units of the collective trusts. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based upon the fair value of the underlying investments comprising the trust, less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Self-directed brokerage accounts: Self-directed brokerage accounts are primarily comprised of publicly traded common stock. The fair value of common stocks included in brokerage accounts is valued at the closing price reported on the active market on which the individual securities are traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes that its valuation methods are appropriate and consistent with those of other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023:

Description	Assets at Fair Value as of December 31, 2024

- (a) The fund invests in benefit-responsive investment contracts issued by insurance companies and other financial institutions (Contracts), fixed income securities, and money market funds. Under the terms of the Contracts, the assets of the fund are invested in fixed income securities (which may include, but are not limited to, U.S. Treasury and agency bonds, corporate bonds, mortgage-backed securities, commercial mortgage-backed securities, asset-backed securities, and collective investment vehicles and shares of investment companies that invest primarily in fixed income securities) and shares of money market funds. The fund may also invest in futures contracts, option contracts and swap agreements.
- (b) The fund seeks to track the investment performance of the S&P Completion Index, an unmanaged benchmark representing mid- and small capitalization U.S. stocks.
- (c) The fund seeks to track the investment performance of the Standard & Poor's 500 Index, an unmanaged benchmark representing U.S. large-capitalization stocks. Using full replication, the portfolio holds all stocks in the same capitalization weighting as the index.
- (d) The fund seeks to track the investment performance of the FTSE Global All Cap ex US Index, an index designed to measure equity market performance in developed and emerging markets, excluding the United States
- (e) This is an index fund that seeks to match the performance of the Barclays Capital Aggregate Bond Index by investing in a diversified sample of the bonds that make up the index.
- (f) The fund holds securities and other assets with the objective of providing for retirement outcomes consistent with investor preferences throughout the savings and drawdown phase based on quantitatively measured risk that investors, on average, may be willing to accept.
- (g) This fund seeks total return as is consistent with preservation of capital by investing in a portfolio predominantly consisting of fixed income securities. The fund may engage in short sales for hedging purposes and may invest significantly in non-investment grade fixed income securities.

Notes to Financial Statements

Note 5. Tax Status

The Plan Sponsor intends to file with the Internal Revenue Service (IRS) a request for a determination letter as to the tax qualified status of the Plan and related trust under Internal Revenue Code (IRC) section 401(a). The Plan Administrator believes that the Plan is currently designed and being operated in all material respects in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Plan Sponsor's management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustments to the financial statements as of December 31, 2024, and for the year ended December 31, 2024. Therefore, no provision or liability for income taxes has been included in the financial statements.

Note 6. Related Party and Party-in-Interest Transactions

Participants have the option to invest in the Solvay SA Stock Fund, which holds shares of Solvay SA Common Stock, the parent holding company of the Plan Sponsor. As of December 31, 2024, the Plan held 57,917 shares of Solvay SA Common Stock, which was valued at \$2,650,151. At December 31, 2024, the Plan held 55,740 shares of Syensqo SA Common Stock, which was valued at \$5,147,365. These transactions qualify as exempt party-in-interest transactions.

Certain employees and officers of the Company, who may also be participants in the Plan, perform administrative services to the Plan at no cost.

Note 7. Plan Termination

Although the Company has not expressed any intent to discontinue its contributions or terminate the Plan, it is free to do so at any time subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note 8. Risks and Uncertainties

The Plan provides for various investment options in funds that can invest in a combination of stocks, bonds, fixed income securities, mutual funds and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Note 9. Subsequent Events

The Plan Administrator has evaluated subsequent events for potential recognition and or disclosure through October 8, 2025, the date the financial statements were available to be issued.

The Plan Sponsor's ultimate parent company, Syensqo SA, has made public its intention to liquidate its stock funds, Solvay Unitized Stock Fund and Syensqo Unitized Stock Fund. Participants were notified and the stocks were fully liquidated in March 2025.
