Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) Unmodified (2) Qualified (3) Disclaimer (4) Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) DOL Regulation 2520.103-8 (2) DOL Regulation 2520.103-12(d) (3) neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: CROWE LLP

(2) EIN: 35-0921680

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) This form is filed for a CCT, PSA, DCG or MTIA. (2) It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		X	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		X	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		X	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		X	
e Was this plan covered by a fidelity bond?	X		500000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		X	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		X	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		X	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)		X	
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)		X	
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		X	
l Has the plan failed to provide any benefit when due under the plan?		X	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)			
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.			

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year? Yes No
If "Yes," enter the amount of any plan assets that reverted to the employer this year _____.

5b If, during this plan year, any assets or liabilities were transferred from this plan to another plan(s), identify the plan(s) to which assets or liabilities were transferred. (See instructions.)

INDEPENDENT AUDITOR'S REPORT

To the Participants and Plan Administrator of
Bacardi U.S.A., Inc. Pension Plan
Coral Gables, Florida

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Bacardi U.S.A., Inc. Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

(Continued)

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year from the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

(Continued)

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

NOTE 1 - DESCRIPTION OF PLAN

The following brief description of the Bacardi U.S.A., Inc. Pension Plan (the "Plan"), is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General: The Plan is a noncontributory defined benefit retirement plan covering substantially all eligible employees of Bacardi U.S.A., Inc., Bacardi-Martini, Inc., Bacardi Global Brands, Inc., Bacardi Global Brand Promotions, Inc., Bacardi Brands Management, Inc. and Bacardi-Martini Product Development, Inc. (collectively, the "Company"). Each employee is eligible if he or she has completed 1,000 hours of service during any twelve-month period of employment and has attained twenty one years of age. Employees become eligible on the first day of the month on which these eligibility requirements are met, unless such employee is covered by any other non-governmental pension plan to which the employer is contributing.

Participation to the Plan is closed to employees hired on or after October 1, 2004. Participants not active as of December 31, 2013 may not re-enter the Plan after that date.

Pension Benefits: Participants are eligible for pension benefits upon normal retirement age of 65, or early retirement upon attainment of 55 years of age and completion of 15 years of service. Benefits are eligible for lump sum payments or various life annuity payment options.

Effective January 1, 2014, the Plan implemented a "soft" freeze whereby service after December 31, 2013 will not be taken into account under the benefits formula to determine accrued benefits, but increases in compensation after such date will be taken into account. The Plan also expanded the optional payment forms by generally permitting participants to elect to receive their benefits in the form of a lump sum distribution.

Death and Disability Benefits: If a participant dies prior to his or her retirement benefit commencing, a death benefit equal to the value of the employee's accumulated pension benefits will be paid to the employee's beneficiary. Active employees who become totally disabled receive annual disability benefits that are equal to the normal retirement benefits they have accumulated as of the time they become disabled. Disability benefits are paid until retirement age at which time disabled participants begin receiving retirement benefits computed as though they had been employed to retirement age with their annual compensation remaining the same as at the time they became disabled.

Funding Policy: The amount of the Company's contributions is based on determinations made by an independent actuary. In 2024 and 2023, the Company satisfied its minimum funding requirement as determined in accordance with the provisions of the Employee Retirement Income Security Act ("ERISA"). The Company did not make a contribution to the Plan for the years ended December 31, 2024 and 2023.

Vesting: Participants become 100% vested in their accrued benefits after completing five years of service. If participants terminate before rendering five years of service, they forfeit the rights to receive any accumulated benefits under the Plan.

Administrative Expenses: Administrative expenses consisting of trustee, investment and actuarial fees of the Plan are paid from the Plan's assets. Other expenses, such as audit and legal fees, are paid by the Company.

Subsequent Events: Plan management has evaluated subsequent events for recognition and disclosure through October 13, 2025, which is the date the financial statements were available to be issued.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from those estimates. It is at least reasonably possible that a significant change may occur in the near term for the estimates of the actuarial present value of accumulated plan benefits.

Investment Valuation and Income Recognition: The Plan participates in the Bacardi USA Master Trust (the "Master Trust"). The Plan's interest in the Master Trust is reported at estimated fair value based upon the fair values of the underlying investments held in the Master Trust. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Master Trust's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits: Benefit payments to participants are recorded when paid.

Risks and Uncertainties: The Plan's investments are exposed to various risks, such as interest rate, market, liquidity and credit risks as well as the risks associated with global events. Due to the level of risk associated with the Plan's interest in the Master Trust and certain underlying investments of the Master Trust as well as the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that the changes in the values of these investments will occur in the near term and that such risks could materially affect the amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, investment returns, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE 3 - RIGHTS UPON PLAN TERMINATION

The Plan may be terminated at any time by the Company; however, upon termination of the Plan, the rights of all participants regardless of whether their interest was otherwise vested would be fully vested and non-forfeitable to the extent that the Plan has been funded. Benefits under the Plan are insured, in whole or in part, by the Pension Benefit Guaranty Corporation ("PBGC"), an agency of the federal government, in the event the Plan terminates. The PBGC generally guarantees most vested normal retirement benefits, early retirement benefits, and certain disability and survivors' pension benefits. However, the PBGC does not guarantee all types of benefits which may be provided by various plans. Moreover, the amount of benefit protection provided by the PBGC is subject to certain limitations.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

NOTE 4 - CERTIFIED INVESTMENTS

Certain information related to investments disclosed in the accompanying financial statements, including investments held at December 31, 2024 and 2023, and investment income and (loss), for the years then ended, was obtained by management and agreed to or derived from information certified as complete and accurate by The Northern Trust Company (the trustee of the Plan).

NOTE 5 - MASTER TRUST (UNAUDITED)

As of December 31, 2024 and 2023, the Plan's sole investment was in the Master Trust, which was established for the investment of assets of the Plan and several other Bacardi U.S.A., Inc. affiliates' sponsored retirement plans. Each participating retirement plan has an undivided interest in the Master Trust. The assets of the Master Trust are held in one master trust account, for which The Northern Trust Company serves as trustee. At December 31, 2024 and 2023, the Plan's interest in the net assets of the Master Trust was approximately 51% and 50%, respectively. Investment income and losses and administrative expenses relating to the Master Trust are allocated to the individual plans based upon average monthly balances invested by each plan.

The following table presents the investments of the Master Trust.

	2024		2023	
	Master Trust	Plan's Interest in Master Trust	Master Trust	Plan's Interest in Master Trust
Investments at estimated fair value:

NOTE 6 - FAIR VALUE MEASUREMENTS

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held as underlying investments of the Master Trust.

Collective trusts: The fair values of participation units held in collective trusts are based on the net asset values reported by the fund managers as of the financial statement dates and recent transaction prices. Each collective trust provides for daily redemptions by the Plan at reported net asset values per share, with no advance notice requirements.

Short-term investment fund: Valued at cost which approximates fair value because of the short maturity of this investment (Level 2 inputs).

Plan Interest in Master Trust: The value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income, less actual distributions and allocated administrative expenses. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based upon average monthly balances invested by each plan.

NOTE 6 - FAIR VALUE MEASUREMENTS (Continued)

Hedge funds: The fair values of the Master Trust's investments in hedge funds have been estimated using the net asset value per share of the investments, as reported by the fund managers.

Investment Strategy	2024 Fair Value	2023 Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Equities (a)	\$ 19,011,079	\$ 18,112,077	-	(c)	(c)
Debt (b)	\$ 208,551	\$ 286,096	-	suspended	suspended

- a. This class includes an investment in limited partnerships that seek above-average long-term capital appreciation with below-average stock market risk through investments primarily in equity securities.
- b. This class includes an investment in a limited partnership with an investment objective is to produce a risk adjusted return from investments in distressed debt and special situations using primarily an active long and short basis.
- c. The 2024 redemptions on these investments were quarterly with a 100 days redemption notice period and for one of the underlying investments in 2024 redemptions were suspended and in 2023 the redemption frequency was quarterly with a 100 day redemption notice period.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments of the Master Trust as of December 31, 2024 that are measured at fair value on a recurring basis are summarized below:

	(Unaudited) Fair Value Measurements at December 31, 2024, Using

* Investments measured at fair value using net asset value per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in the hierarchy tables for such investments are intended to permit reconciliation of the fair value hierarchy to the total investments of the Master Trust presented in Note 5.

NOTE 7 - TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated June 23, 2014 that the Plan, as restated January 1, 2012 and currently being operated, is designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter; however, Plan management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024 and 2023, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2021.

NOTE 8 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees based on their highest average compensation for a period of five years preceding the date as of which the benefit information is presented (the valuation date). Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

NOTE 8 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (Continued)

The actuarial present value of accumulated plan benefits is determined by the Plan's actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement between the valuation date and the expected date of payment). The significant actuarial assumptions used in the valuation as of December 31, 2023, included (a) life expectancy of participants based on the Pri-2012 employee (pre-retirement) and MILES (Mercer Industry Longevity Experience Studies) Consumer Goods and Food and Drink (post-retirement) mortality tables with the MP-2021 projection scale, (b) retirement age graded from 55-70, and (c) an investment return of 5.25%. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The total actuarial present value of accumulated plan benefits as of December 31, 2023 is as follows:

Actuarial present value of accumulated vested plan benefits	
Participants currently receiving benefits	\$ 39,729,296
Other participants	<u>45,833,395</u>
Total vested benefits	
 Total actuarial present value of accumulated plan benefits	 <u>\$ 85,562,691</u>

The change in actuarial present value of accumulated plan benefits for the year ended December 31, 2023 is as follows:

Actuarial present value of accumulated plan benefits at beginning of Plan year	\$ 82,578,223
 Benefits accumulated and (gains)/losses	 1,408,703
Increase for interest due to decrease in discount period	4,413,024
Change in actuarial assumptions ⁽¹⁾	1,845,573

Net increase	<u>2,984,468</u>
 Actuarial present value of accumulated plan benefits at end of Plan year	 <u>\$ 85,562,691</u>

⁽¹⁾ – The discount rate was updated from 5.50% to 5.25% and the lump sum mortality table was updated to the generational equivalent of the 2023 417(e) unisex table.

The total actuarial present value of accumulated plan benefits as of December 31, 2024 (Unaudited) is as follows:

Actuarial present value of accumulated vested plan benefits

NOTE 9 - TRANSACTIONS WITH PARTIES-IN-INTEREST

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. The Master Trust invests in collective trusts managed by The Northern Trust Company, who are also the trustee of the Plan and Master Trust; therefore, these transactions and fees paid out of the Master Trust to The Northern Trust Company qualify as party-in-interest transactions. The Master Trust invests in funds managed by Mercer, who are the Plan's actuary and investment advisor, therefore, these transactions and fees paid out of the Master Trust to Mercer qualify as party-in-interest transactions. Some administrative expenses of the Plan are paid directly by the Company.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Actuarial assumptions**

Discount rate sponsor elections		
• Segment rates or full yield curve	Segment	
• Look-back months	3	
	Stabilized	Nonstabilized
• First 5 years	4.75%	3.82%
• Next 15 years	4.87%	4.59%
• Over 20 years	5.59%	4.63%
Rationale: This assumption is prescribed by the IRS.		
Mortality sponsor elections		
• Healthy participants	Section 430(h)(3) prescribed separate generational annuitant and nonannuitant mortality tables for 2024 plan year funding valuations, in accordance with IRS regulation 1.430(h)(3)-1.	
• Pre-1995 disabilities	Revenue Ruling 96-7 table for participants who became disabled before 1995	
• Post-1994 disabilities	Revenue Ruling 96-7 table for participants who became disabled after 1994 and are eligible for Social Security disability benefits	
Rationale: This assumption is prescribed by the IRS.		
417(e) lump sums	Liabilities are determined based on the underlying annuity used by the plan to determine the lump sum amount, rather than valuing the lump sum payment. This annuity is valued based on funding interest rates rather than 417(e) rates and current year 417(e) unisex mortality.	
Other economic assumptions		
• Salary increases	3.75% per year	Rationale: This assumption was developed based on an experience study undertaken in 2017 using data from 2009 - 2015. The Company believes that the results from the experience study are consistent with its expectation of future salary increases. The assumption is reviewed annually for reasonability.
• Social Security taxable wage base increases	3.40% for 2024 grading down to 3.00% per year in 2026 and beyond	Rationale: This assumption is based on the building block approach; which is equal to the current inflation assumption reflecting historical spreads between inflation and the increase in national average wages.
• Inflation	2.60% for 2024 grading down to 2.20% per year in 2026 and beyond	Rationale: This assumption is based on the inflation assumption published by Mercer Investment Consulting in their Capital Markets Outlook.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Actuarial methods for funding

Asset Methods

The asset valuation method is an average of the adjusted market value for each year during the last 2 years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant Methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for non vested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum Funding Methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual are the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V — Summary of Plan Provisions**Summary of major plan provisions**

• Effective date and plan year	Amended and restated effective January 1, 2014 Plan year: January 1 – December 31 (calendar year)
• Most recent amendment	Amendment effective January 1, 2023 and January 1, 2024 covering various items
• Status of the plan	Credited service is frozen December 31, 2013. Future accruals are due to salary increases only. Participation is closed to employees hired or rehired on or after October 1, 2004.
• Significant events that occurred during the year	None.
• Definitions	
– Covered employees	Any employee of the company.
– Participation	An employee becomes a participant on the first day of the month coincident with or following the day he attains age 21 and has completed at least 1,000 hours of service in the twelve month period from his date of hire. Participation is closed to employees hired or rehired on or after October 1, 2004.
– Employee contributions	None required or permitted.
– Vesting service	Number of plan years in which a participant completes 1,000 or more hours of service.
– Credited service	Number of plan years from date of hire to date of retirement or termination in which a participant completes 1,000 or more hours of service. For the plan year in which he first or last performs an hour of service, he shall be credited a fractional year of credited service equal to the ratio of actual hours worked to 1,000 hours. Credited service was frozen December 31, 2013.
– Anticipated credited service to normal retirement date	The sum of: a) Actual years of credited service as of December 31, 2013. b) The number of plan years beginning with the 2014 plan year and ending with the plan year immediately preceding the plan year in which normal retirement date would occur. c) A fraction (not greater than one) the numerator of which is 173 and 1/3 hours multiplied by the number of months from January 1 st of the plan year in which normal retirement date would occur to their normal retirement date, and the denominator which is 1,000. For a determination date before January 1, 2014, a) above should be the years of credited service as of the end of the plan year immediately preceding the year of determination, and b) above should begin with the plan year in which determination date occurs.
– Compensation	Base pay plus all overtime pay, bonuses, commissions and shift differentials.

Schedule SB, Part V — Summary of Plan Provisions

— Average monthly compensation	Average compensation during the best five successive calendar years out of the 10 consecutive calendar years ending with the calendar year in which normal retirement date (or date of determination) occurs, divided by 12. Each year of compensation is subject to IRC Section 401(a)(17) limitations.
— Average monthly earnings	Average base pay during the 60 successive months out of the 180 consecutive months immediately preceding normal retirement date (or date of determination) for which the participant has the highest average earnings, divided by 12. Each month of earnings is subject to IRC Section 401(a)(17) limitations.
— Monthly covered compensation	Average (without indexing) of the 35 annual Social Security Taxable Wage Bases ending with the year in which a participant attains his social security retirement age, divided by 12. For years prior to attainment of social security retirement age, Covered Compensation is computed assuming the current wage base remains constant into the future. For years after the attainment of social security retirement age, Covered Compensation remains equal to the amount so calculated in the year of attainment of social security retirement age.

Schedule SB, Part V — Summary of Plan Provisions

– Benefit	The accrued benefit determined as of the normal retirement age.
Early Retirement	
– Eligibility	The first day of the month coincident with or following termination of employment after attaining age 55 and completing 15 years of service.
– Benefit	Accrued benefit as of early retirement date reduced by 1/15th for each of the first five years and 1/30th for each of the next five years (and proportionately for fractional years) by which early retirement date precedes normal retirement date.
Late retirement	
– Eligibility	The first date of the month coincident with or following termination of employment after normal retirement date.
– Benefit	The benefit calculated applying the procedure described for normal retirement assuming normal retirement date is equal to late retirement date
Deferred Vested	
– Eligibility	Completion of 5 years of Vesting Service.
– Benefit	100% of accrued benefit as of date of termination. Payments commence at normal retirement date. Participants who completed 15 years of service may elect benefit commencement under early retirement provisions.
Disability	
– Eligibility	Eligible to receive benefits under the Social Security Act, subject to final approval by the Retirement Committee.
– Benefit	Normal retirement benefit calculated using credited service as of December 31, 2013, and assuming the participant's compensation remains constant from date of disability to normal retirement date. Payments commence at normal retirement date. Disabled participants who attain age 55 and complete 15 years of service (including service while disabled) may elect an early retirement benefit. This benefit is calculated using credited service as of December 31, 2013, and assuming the participant's compensation and earnings remain constant from date of disability to early retirement date.
Pre-Retirement Death	
– Eligibility	Completion of 5 years of Vesting Service.
– Benefit prior to early retirement	Married: The lifetime annuity survivor portion of the 50% Joint and Survivor Annuity payable at the participant's normal retirement date. For participants who had completed 15 years of service, the spouse can elect to have payments begin when the participant would have been age 55 or immediately, if later. Such benefit shall be reduced for early retirement. Single: The beneficiary receives a lump sum which is the actuarial equivalent of the survivor portion of the 50% Joint and Survivor Annuity, determined as though the beneficiary is the same age as the participant.

Schedule SB, Part V — Summary of Plan Provisions

– Benefit after early but before normal retirement	<p>Married: The lifetime annuity survivor portion of the 50% Joint and Survivor Annuity payable immediately with 120 (spouse’s life expectancy if less) payments guaranteed.</p> <p>Single: The beneficiary receives a lump sum which is the actuarial equivalent of a 10 year Certain and Life Annuity in the same amount of the survivor portion of the 50% Joint and Survivor Annuity, determined as though the beneficiary is the same age as the participant, payable immediately.</p>
– Benefit after normal retirement	<p>Married: The lifetime annuity survivor portion of the 50% Joint and Survivor Annuity payable immediately with 120 (spouse’s life expectancy if less) payments guaranteed.</p> <p>Single: The beneficiary receives a lump sum which is the actuarial equivalent of a 10 year Certain and Life Annuity in the same amount of the survivor portion of the 50% Joint and Survivor Annuity, determined as though the beneficiary is the same age as the participant, payable immediately.</p>
Form of benefits	
– Automatic form for unmarried participants	10-year certain and life annuity.
– Automatic form for married participants	Actuarially reduced 50% joint and survivor annuity.
– Optional forms	<ul style="list-style-type: none"> • 50%, 75%, or 100% joint and survivor option. • 10-year certain and life option. • One-time lump sum option following termination for participants terminating on or after January 1, 2014 (lump sums are not available to Highly Compensated Employees (HCEs) if the amount of the lump sum is equal or greater than 1% of the current liabilities of the Plan before the distribution). • Level income option. • Open option (single life annuity or a life annuity combined with a certain period and/or a contingent annuity feature; certain period must be less than joint life expectancy).
– Optional form conversion factors	<p>Actuarial equivalence based on 1983 Group Annuity Mortality table, set back two years for the participant and three years for the beneficiary, and an interest rate of 7%.</p> <p>For any lump sum distribution, actuarial equivalence is determined using the applicable mortality table specified in Section 417(e)(3)(B) of the Code and the applicable interest rate specified in Section 417(e)(3)(C) of the Code (as required by the Pension Protection Act of 2006).</p>
– 2015 Lump Sum Window	<p>In 2015, a Lump Sum Window was offered to terminated vested participants who terminated employment prior to January 1, 2004 (Window #3) or between January 1, 2012 and December 31, 2013 (Window #4), and who had not started to receive benefits and were under Normal Retirement Date as of March 1, 2015 (May 1, 2015 for those in Window #4). The participants who elected the window received their benefit as a lump sum or as an annuity starting in 2015 according to their election.</p>

Schedule SB, Part V — Summary of Plan Provisions**Miscellaneous**

– Maximum compensation	Compensation for any 12-month period used to determine accrued benefits may not exceed the limits in IRC Section 401(a)(17) for the calendar year in which the 12-month period begins. This limit is indexed annually. For 2024, the limit is \$345,000.
– Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2024, the limit is \$275,000.
– Administration	Administered by Bacardi U.S.A., Inc.
– Funding Medium	Trust

Benefits included or excluded

Unless noted below, all benefits provided by the plan, as restated effective January 1, 2014 and amended through January 1, 2024, are included in this valuation:

- **Most recent plan amendments included:** Amendment effective January 1, 2023 and January 1, 2024 covering various items.
- **Plan amendments excluded:** None
- **Late retirement increases:**
 - *Active participants:* The valuation does not include late retirement actuarial increases for participants who defer retirement beyond their normal retirement date. Suspension of benefits notices are provided to actives working past their normal retirement date.
 - *Deferred vested participants:* The valuation does not include late retirement actuarial increases for participants who defer retirement beyond their normal retirement date.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Additional Benefits Included or Excluded

- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits for events that occurred before the valuation date but includes contingent event benefits for events that are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - *Plan amendments:* See above.

Schedule SB, Part V — Summary of Plan Provisions

- *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
- *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits

Plan provision changes since prior valuation

Maximum compensation amounts and maximum benefit amounts under IRS rules were updated from 2023 to 2024.

Schedule SB, line 32 — Schedule of Amortization Bases

The total shortfall amortization charge is the sum of the individual shortfall amortization installment for each plan year since the IRC Section 430 changes made by ARPA took effect for the plan. Although an individual shortfall amortization installment can be negative, the combined shortfall amortization charge cannot be less than \$0.
