Part I	Asset and Liability Statement
---------------	--------------------------------------

1 Current value of plan assets and liabilities at the beginning and end of the plan year. Combine the value of plan assets held in more than one trust. Report the value of the plan's interest in a commingled fund containing the assets of more than one plan on a line-by-line basis unless the value is reportable on lines 1c(9) through 1c(14). Do not enter the value of that portion of an insurance contract which guarantees, during this plan year, to pay a specific dollar benefit at a future date. **Round off amounts to the nearest dollar.** MTIAs, CCTs, PSAs, and 103-12 IEs do not complete lines 1b(1), 1b(2), 1c(8), 1g, 1h, and 1i. CCTs, PSAs, and 103-12 IEs also do not complete lines 1d and 1e. See instructions.

Report of Independent Auditors

To the Administrator of Cerberus Capital Management, L.P. Profit Sharing 401(k) Plan,

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the accompanying financial statements of Cerberus Capital Management, L.P. Profit Sharing 401(k) Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, including the related notes (collectively referred to as the "financial statements").

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023 and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with US GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. In our opinion

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Cerberus Capital Management, L.P. Profit Sharing 401(k) Plan

Notes to Financial Statements

December 31, 2024 and 2023

1. Description of Plan

The following description of the Cerberus Capital Management, L.P. (the “Company” or the “Plan Administrator”) Profit Sharing 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

The Plan is a defined contribution profit sharing and 401(k) plan covering employees of the Company who are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Cerberus International, Ltd. (“Cerberus” or “Investment Fund”) was previously the Plan’s sole nonparticipant-directed investment and available as an investment to eligible participants from Plan inception to December 31, 2008. Effective May 29, 2009, the Company authorized John Hancock New York Retirement Plan Services (“John Hancock”) to be the sole recipient of any contributions made on January 1, 2009 and thereafter.

Participants’ contributions may be made into the default investment option, the Vanguard Target Retirement Funds. At the participants’ discretion, contributions may be allocated to 43 other John Hancock Funds in lieu of the default investment option. Additionally, John Hancock serves as the record-keeper of the Plan. John Hancock Life Insurance Company of New York (“John Hancock Life Insurance”) serves as the custodian of the participants’ investment accounts in the John Hancock portion of the Plan.

a. Eligibility

Employees are eligible to participate in the Plan at the initial date of employment and attainment of age twenty-one (21) as stated in the Plan agreement.

b. Contributions and Funding Policy

Each year, participants may contribute up to 75% of pre-tax and post-tax annual compensation as defined in the Plan agreement, which is not to exceed the Internal Revenue Service (“IRS”) pre-tax limit of \$23,000 for the year ended December 31, 2024. Participants who have attained the age of fifty (50) before the end of the plan year are eligible to make catch-up contributions, which is limited to an additional IRS deferral limit increase of \$7,500 for the year ended December 31, 2024. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

Each year, the Company contributes to the Plan from its current profits before pension and profit-sharing costs and income taxes. The amount of the Company’s contribution is discretionary and is allocated based on relative levels of compensation and is considered a “Nonelective Contribution”. A “Nonelective Contribution” is defined as any employer contribution (including a contribution made at the employer’s discretion) to the Plan, other than a participant’s elective deferrals, qualified matching contributions and qualified nonelective contributions. The Plan Administrator establishes and maintains a “Nonelective Contribution Account” for each participant with respect to the participant’s total interest in the Plan resulting from Nonelective Contributions. These profit sharing contributions were \$18,297,783 and \$18,754,401 for the years ended December 31, 2024 and 2023, respectively.

Notes to Financial Statements

c. Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contribution and (b) Plan profit and loss. Allocations are based on participant earnings or account balances, as defined in the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

d. Vesting

Participants are immediately vested in their allocated employer and participant contributions plus actual earnings thereon.

e. Payment of Benefits

On termination of service due to death, disability or retirement, or other reasons, a participant or the designated beneficiary may choose to receive an amount equal to the value of the participant's vested interest in his or her account in a lump sum amount or may elect to maintain his or her account in the Plan. If any of the assets of a Nonelective Contribution Account are invested in securities whose sale or redemption is restricted, the distribution to the beneficiary will be limited to the unrestricted assets of the Nonelective Contribution Account. As further payments are received from Cerberus with respect to the restricted securities, the beneficiary will receive additional amounts equal to the proportionate share of the cash received from Cerberus. Alternatively, the beneficiary may be able to receive a distribution in-kind of the securities whose sale or redemption is restricted.

A participant's vested interest is determined as of the Plan's valuation date coincident with or preceding the date of determination. For a participant's balance in Cerberus, the determination dates are March 31, June 30, September 30, and December 31, while the determination date for a participant's balance in John Hancock is daily. For participants with John Hancock account balances in excess of \$1,000, an election is available to defer the distribution until the participant is required by law to receive minimum required distributions. If the participant in John Hancock or Cerberus has not attained the Plan's normal retirement age, 59 ½, they are not eligible to request a distribution of their vested account balance.

Liquidity risk arises when the Plan is not able to redeem its investments or raise other cash resources to settle the benefit payment obligations. The Plan may make distributions in-kind and may cause any distribution to be composed of cash, property or undivided fractional shares in property, provided, however, that no participant or beneficiary shall be required to accept more than his pro rata share of any in-kind distribution. See Note 3 for restrictions on redeeming from Cerberus.

f. Notes Receivable from Participants

Participants may borrow from their accounts at a minimum of \$1,000 and a maximum of the lesser of one-half of the vested account balance or \$50,000 reduced by the highest outstanding loan balance in the account during the prior twelve-month period. A participant may only have one loan outstanding at any given time and the participant may not refinance an existing loan or obtain a second loan for the purpose of paying off the existing loan.

All loans bear interest at the Prime Rate + 1% as determined by the Plan Administrator based on the prevailing interest rates charged by persons in the business of lending money for loans which would be made under similar circumstances. The interest rate remains fixed throughout the duration of the loan.

Cerberus Capital Management, L.P. Profit Sharing 401(k) Plan

Notes to Financial Statements

December 31, 2024 and 2023

Notes receivable from participants must be repaid over a period not to exceed five years unless for the purchase of a principal residence.

2. Summary of Accounting Policies

a. Basis of Accounting

The accompanying financial statements of the Plan are prepared in compliance with the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA and the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

b. Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

c. Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Net appreciation / (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

d. Payment of Benefits

Benefits are recorded when paid. Outstanding benefit payments at year end are treated as a reduction of benefits paid to participants in the Statement of Changes in Net Assets Available for Benefits. These amounts are reflected in Noninterest-bearing cash on the Statement of Net Assets Available for Benefits.

e. Excess Contributions

The excess contributions were \$51 and \$36 for the years ended December 31, 2024 and 2023, respectively. The balance included in other liabilities for the years ended 2024 and 2023 is comprised of participant contributions and catch-up contributions in excess of IRS pre-tax limits.

f. Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest.

The Plan Administrator will treat a loan in default if any scheduled payment remains unpaid beyond the last day of the calendar quarter following the calendar quarter in which the participant missed the scheduled payment or if the participant makes or furnishes any false representation or statement to the Plan. The participant will have the opportunity to repay the loan and resume current status of the loan by paying any missed payment plus interest. If the loan remains in default, the Plan Administrator will offset the participants vested account balances by the outstanding balance of the loan to the extent permitted by law. The Plan Administrator will treat the note as repaid to the extent

Cerberus Capital Management, L.P. Profit Sharing 401(k) Plan

Notes to Financial Statements

December 31, 2024 and 2023

of any permissible offset. Pending final disposition of the note, the participant remains obligated for any unpaid principal and accrued interest.

If the participant is unable to repay the loan, or if the participant's employment is terminated without having paid back the loan in full, the outstanding (unpaid) amount is considered to be a withdrawal. In effect, the participant would owe state and federal taxes on the amount of the withdrawal, as well as a 10% penalty if under the age of 59 ½.

3. Fair Value Measurement

The Plan reports investments at fair value.

In accordance with the authoritative guidance on fair value measurements and disclosures under GAAP, the Plan discloses the fair value of its financial instruments in a hierarchy that prioritizes the inputs to valuation techniques used to measure the fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy are as follows:

Level 1 – Inputs that reflect unadjusted quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date;

Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly, including inputs in markets that are not considered to be active; and

Level 3 – Inputs that are significant and unobservable.

Inputs are used in applying the various valuation techniques and broadly refer to the assumptions that market participants use to make valuation decisions, including assumptions about risk. Inputs may include price information, volatility statistics, specific and broad credit data, liquidity statistics, and other factors.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. However, the determination of what constitutes "observable" requires significant judgment by the Plan Administrator. The Plan Administrator considers observable data to be that market data which is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market. The categorization of a financial instrument within the hierarchy is based upon the pricing transparency of the instrument and does not necessarily correspond to the Plan Administrator's perceived risk of that instrument.

If the Plan Administrator determines that either the volume and/or level of activity for an asset or liability has significantly decreased (from normal conditions for that asset or liability) or price quotations or observable inputs are not associated with orderly transactions, increased analysis and management judgment will be required to estimate fair value. Valuation techniques such as an income approach might be appropriate to supplement or replace a market approach in those circumstances. The guidance also provides a list of factors to determine whether there has been a significant decrease in relation to normal market activity. Regardless of the valuation technique and

Cerberus Capital Management, L.P. Profit Sharing 401(k) Plan

Notes to Financial Statements

December 31, 2024 and 2023

inputs used, the objective for the fair value measurement in those circumstances is unchanged from what it would be if markets were operating at normal activity levels and/or transactions were orderly; that is, to determine the current exit price.

Nonparticipant-directed Investment in Investment Fund. The Plan's investment in the Investment Fund is reported at fair value based on the Plan's share in the net assets of the Investment Fund. This investment does not have readily ascertainable market values and is subject to certain withdrawal restrictions. The value of the Plan's investment in the Investment Fund represents the amount the Plan would expect to receive at December 31, 2024 and December 31, 2023, respectively, if it were to liquidate its investment. The Investment Fund is valued at its net asset value adjusted for expenses.

Due to the inherent uncertainty of the valuation of the Plan's investment and certain underlying investments held by the Investment Fund (which are valued by the Company in the absence of readily ascertainable market values), the estimated fair value of the Investment Fund may differ from the value that would have been used had a ready market existed for this investment, and the difference could be material.

The Investment Fund is a corporation organized in the Bahamas. The investment objective is to maximize total return on capital by seeking capital appreciation and, from time to time, current income, through the development and management of a diversified portfolio of distressed investments. The Company seeks to achieve this objective primarily through investment in securities and assets of companies: (i) facing operating difficulties; (ii) undergoing, or considered likely to undergo, reorganization under U.S. bankruptcy law or similar laws in other countries; (iii) which are or have been engaged in other transactions, such as debt restructuring, reorganization and liquidation outside of bankruptcy; and (iv) facing a broad range of liquidity issues.

There are restrictions on redemptions from the Investment Fund. Redemption proceeds may be in the form of cash or securities or a combination of the two, as determined by the Investment Fund's Board of Directors. A portion of such proceeds may be withheld on the redemption date and paid upon completion of its annual financial statement audit.

Partridge Hill Overseas Management, L.L.C., an affiliate of the Company, serves as the Investment Manager (the "Investment Manager") of the Investment Fund.

On September 30, 2009, the Investment Manager lifted the suspension of redemptions previously implemented and offered all shareholders the following choice: (i) have all or a portion of the shareholder's shares from the Investment Fund compulsorily redeemed as of September 30, 2009, and receive in connection with such redemptions, participating, vesting shares in a special purpose vehicle, Cerberus International SPV, Ltd. (the "SPV") that holds a pro-rata share of all the cash, securities, assets and liabilities of the Investment Fund attributable to the percentage of the shareholders seeking to redeem or; (ii) remain fully or partially invested in the Investment Fund under new terms that include reinvesting proceeds from the sale of the Investment Fund's securities and assets into Cerberus International II, Ltd., a newly formed Cayman Islands exempted company ("Cerberus International II") and/or receive distributions in cash. At that time, the Company chose election (ii) on behalf of the participants in the Plan.

The Investment Fund will be managed to optimize the realized value of its existing portfolio and will have the ability to make follow-on investments, engage in hedging transactions and enter into repurchase agreements or other leverage arrangements. Proceeds from the realization of the

Investment Fund's investments (after deduction for actual or anticipated expenses and such reserves as may be determined by the Investment Manager are needed for hedging transactions, repurchase agreements and follow-on investments) (such amounts "Available Cash") are either invested in Cerberus International II or distributed directly to continuing shareholders. Each remaining shareholder received new shares in Cerberus International II corresponding to its pro rata amount of the Available Cash contributed to Cerberus International II.

For the years ended December 31, 2024 and 2023, the Plan elected to receive all distributions from the Investment Fund in cash and reinvest such distributions in John Hancock. Distributions of \$3,745 and \$114 were received for the years ended December 31, 2024 and 2023, respectively.

The amount of investments in the Investment Fund related to participants who have terminated services due to death, disability, retirement or other qualifying events and who have also requested to receive an amount equal to the value of their respective vested interest in his or her account in a lump sum amount at the time of termination of services as of December 31, 2024 and 2023 is \$108,756 and \$100,461, respectively. These amounts are pending distribution to these participants in accordance with the terms detailed above and as required by applicable laws or regulations.

Pooled Separate Accounts. Investments in pooled separate accounts are valued at the unit value of units held by the Plan at year end as determined by John Hancock and are reviewed by the Plan Administrator. These securities generally may be redeemed daily.

The following table set forth by level presents, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2024.

Interest on notes receivable from participants	58,212

5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

6. Tax Status

The Internal Revenue Service has determined and informed the Company by letter dated September 19, 2011, that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code (“IRC”). Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan’s tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2024, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) for disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however there are currently no audits for any periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2021.

7. Risks and Uncertainties

The Plan provides for various investment options. Pooled Separate Accounts invest in funds holding a combination of stocks, bonds, fixed income securities and other investments securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants’ account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

The Plan is also exposed to liquidity risk. Note 1 to the financial statements further explains liquidity risk.

In the normal course of operations, the Investment Fund makes investments in both long and short securities, and other financial instruments, including derivatives, where the risk of potential loss due

to changes in the market (market risk) or failure of the other party to the transaction to perform (credit risk) exceeds the related amounts recorded. The Investment Fund also utilizes various degrees of leverage. However, due to the nature of the Plan's interest, such risks are limited to the Plan's investment in the Investment Fund.

8. Related Parties

The Investment Fund is managed by the Company and its affiliates. Certain Plan investments are units of pooled separate accounts managed by John Hancock, the record-keeper and custodian of the Plan. Additionally, the Plan trustees, who are principals of the Company, are participants in the Plan. Therefore, these transactions qualify as party-in-interest transactions. The Company pays for certain administrative costs on the Plan's behalf.

9. Subsequent Events

The Plan Administrator has evaluated subsequent events through October 10, 2025, the date the financial statements were available to be issued, and except as already included in the notes to these financial statements, has determined that no additional items require disclosure.
