INDEPENDENT AUDITORS' REPORT

Rochester, New York

INDEPENDENT AUDITORS' REPORT

To the Plan Administrator
of the George Eastman Museum Retirement Plan:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We were engaged to perform audits of the financial statements of George Eastman Museum Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Disclaimer of Opinion

We do not express an opinion on the accompanying financial statements of the Plan. Because of the significance of the matters described in the Basis for Disclaimer of Opinion section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements.

Basis for Disclaimer of Opinion

The Plan does not have sufficient accounting records and supporting documents relating to certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the accompanying financial statements may have been affected by these conditions.

Further, as described in Note 2 to the financial statements, the Plan has excluded from investments in the accompanying statements of net assets available for benefits certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009, as permitted by the Department of Labor's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. The investment income and distributions related to such accounts have also been excluded in the accompanying statement of changes in net assets available for benefits. The amount of these excluded annuity contracts and custodial accounts and the related income and distributions are not determinable. Accounting principles generally accepted in the United States of America require that these accounts and the related income and distributions be included in the accompanying financial statements.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our responsibility is to conduct an audit of the Plan's financial statements in accordance with auditing standards generally accepted in the United States of America and to issue an auditors' report. However, because of the matters described in the Basis for Disclaimer of Opinion section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Because of the significance of the matters described in the Basis for Disclaimer of Opinion section of our report it is inappropriate to and we do not express an opinion on the supplemental schedule referred to above.

GEORGE EASTMAN MUSEUM RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023

1. DESCRIPTION OF PLAN

The following description of the George Eastman Museum Retirement Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General -

The Plan is a defined contribution plan under Section 403(b) of the Internal Revenue Code (the “Code”) and covers substantially all employees of the George Eastman Museum (the “Museum”). Employees are eligible to become participants in the Plan upon hire and may enter the Plan on commencement of employment. The Plan was initially effective January 1, 1976 and restated as of January 1, 2019. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended.

Administration -

The Museum serves as Plan administrator (the “Administrator”) and is solely responsible for the general administration of the Plan and carrying out Plan provisions. Teachers Insurance and Annuity Association (“TIAA”) and College Retirement Equity Fund (“CREF”) (collectively “TIAA and CREF”) serve as custodians of the Plan’s assets and also provide the Plan’s recordkeeping services.

Contributions -

Participants may elect to contribute a percentage of their eligible compensation up to the maximum amount allowed under the Code. Deferral limits under the Code were \$23,000 for the year ended December 31, 2024. In addition, participants age fifty and over at the end of the Plan year could elect to contribute a “catch-up” contribution of \$7,500 during the year ended December 31, 2024.

Participants are allowed to make rollover contributions from other qualified plans into the Plan in accordance with regulations under the Code.

The Museum may make a discretionary nonelective contribution to the Plan for employees over the age of 21 and who have completed 1,000 hours of service during the Plan year and are employed as of the last day of the Plan year. The discretionary nonelective contribution may be made to former employees as a result of death, disability, retirement, or other conditions during the Plan year. For the year ended December 31, 2024, the Museum made a discretionary nonelective contribution of \$85,170.

Administrative expenses and Plan servicing credits -

Under the terms of the recordkeeping service agreement, TIAA and CREF has an annual revenue requirement ranging from 15 to 70 basis points of Plan assets. Revenue generated by the Plan that is considered by the annual revenue requirements is generated from certain proprietary and non-proprietary mutual fund investments that make Revenue Sharing Payments to TIAA and CREF as the recordkeeper. Plan expense offsets are also considered which are provided by TIAA for proprietary TIAA and/or CREF annuity products.

The Revenue Credit Account is a suspense account held under the terms of the Plan which is funded with excess revenue over \$625 that is generated from the Plan that is beyond the basis point annual revenue requirement. At December 31, 2024, there were \$977 of remaining Plan Servicing Credits available to offset Plan administrative expenses.

Participant accounts -

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited with the participant's contributions and allocations of the Museum's discretionary nonelective contributions and Plan earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting -

Participants are immediately vested in their elective deferrals, rollover contributions plus actual earnings thereon. Vesting in the Museum's discretionary nonelective contribution portion of their account plus earnings is based on years of continuous service as follows:

<u>Years of service</u>	<u>Percentage</u>
Less than one	0.0%
At least one but less than two	33.3%
At least two but less than three	66.6%
Three or more	100.0%

Investment options -

Participants direct the investment of their account into various investment options offered by the Plan. The Plan offers a number of investment options through a group annuity contract. The investment options include fixed annuity contracts, registered investments, and a variable annuity separate account managed by TIAA and CREF, as selected by the Administrator.

Payment of benefits -

A participant's vested account balance is distributed in a single life annuity, joint or survivor annuity, lump sum payment, fixed periodic annuity, or installment payments, based on his or her election under the Plan document, upon retirement, death, disability, or termination of employment. The Plan allows hardship distributions, as defined, from their deferral contribution and discretionary nonelective contribution accounts.

Plan loans -

Prior to November 11, 2021, participants were able to borrow directly from TIAA and CREF a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of the value of the vested accrued benefit in the participant's account balance. The participant was required to pledge sufficient collateral which varied depending on the investments held by the participant.

Plan loans are not reported in the Plan's statements of net assets available for benefits as the loans were not made from Plan assets and are, therefore, not considered assets of the Plan.

The interest rate is fixed for the duration of the loan unless the investments are held with TIAA annuities. Applicable plan loan interest rates are set at prevailing interest rates and can be increased or decreased by TIAA. A default charge will be assessed against the portion of the loan collateral used to foreclose on all or any part of the loan.

Plan loan balances outstanding from TIAA and CREF to Plan participants were \$0 and \$437 at December 31, 2024 and 2023, respectively.

Notes receivable from participants -

Effective November 11, 2021, the Plan loans referenced above are no longer available to be issued to participants. Participants may borrow up to a maximum of 50% of their vested account balance or \$50,000, whichever is less. Note repayment terms range up to a maximum of five years, unless used for the purpose of purchasing a participant's principal residence, with interest at the prime rate plus 1% at the date of the loan and are collateralized by the individual participant's account. Principal and interest is paid ratably through payroll deductions.

There were no notes receivable from participants outstanding at December 31, 2024 and 2023.

Forfeitures -

Participants whose employment with the Museum has been terminated and who receive a distribution of the vested percentage of their account shall forfeit any amounts which are in excess of their vested interest as of the date of distribution. Participants whose employment with the Museum has been terminated and who do not receive a distribution of the vested percentage of their account before incurring five consecutive one-year breaks in service shall forfeit any amounts which are in excess of their vested interest as of the last date of the plan year in which the participant incurs five consecutive one-year breaks in service. The non-vested portion will be restored to the participant's account in the event the employee returns to employment before five consecutive one-year breaks in service and pays back the distribution received from the Plan. After restoration of any of these benefits, the remaining forfeitures may be used to reduce the Museum's discretionary nonelective contributions. Forfeiture balances restored to participant accounts totaled \$1,362 during the year ended December 31, 2024.

The cumulative balance of forfeitures available to offset future Museum discretionary nonelective contributions totaled approximately \$17,500 as of December 31, 2024. This balance of forfeitures was used to reduce the Museum's 2024 discretionary nonelective contribution paid subsequent to December 31, 2024.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting -

The accompanying financial statements of the Plan have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of estimates -

The preparation of financial statements in conformity with GAAP requires the Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Significant estimates include, but are not limited to, the valuation of investments and the fixed annuity contracts. Actual results may differ from those estimates.

Annual reporting requirements -

Prior to July 1, 2009, TIAA and CREF maintained records at contract level and not Plan level. TIAA and CREF administratively decided not to provide accounting records and supporting documentation at the participant or plan level relating to certain annuity and custodian accounts issued to former employees prior to July 1, 2009. As such, neither the Museum nor TIAA and CREF have been able to produce sufficient records and supporting documents relating to certain annuity and custodial accounts issued to current and former employees prior to July 1, 2009. As a result, the completeness and the accuracy of the annuity and custodial accounts, related investment income, and distributions related to these accounts, if any, could not be determined.

Investment valuation and income recognition -

The investments of the Plan, with the exception of fully benefit-responsive ("FBR") investment contracts, are reported at fair value. The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an ordinary transaction between market participants at the measurement date. The Administrator determines the Plan's valuation policies utilizing information provided by the investment advisers and TIAA and CREF.

In estimating fair value of certain investments, Plan management may use third-party pricing sources or appraisers. In substantiating the reasonableness of the pricing data provided by third-parties, the Administrator evaluates a variety of factors, including review of methods and assumptions used by external sources, recently executed transactions, existing contracts, economic conditions, industry and market developments, and overall credit ratings. See Note 4 for a discussion of fair value measurements.

The Plan's fully-benefit responsive investment contracts with TIAA (see Note 5) are valued at contract value. Contract value equals the accumulated cash contributions and interest credited to the Plan's contracts, less withdrawals.

Contributions are recorded by the Plan when withheld from participants. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Purchases and sales of securities are recorded on a trade date basis. Net appreciation in fair value of investments in the accompanying statement of changes in net assets available for benefits includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits -

Benefits paid to participants are recorded when paid.

Expenses -

Certain expenses of maintaining the Plan, including third-party investment advisory fees, custodian fees, and audit fees are paid directly by the Museum and are excluded from these financial statements. Participants are also charged administrative expenses for specific transactions within the Plan. Administrative expenses charged to the Plan totaled \$24 for the year ended December 31, 2024.

Investment related expenses are included in net appreciation in fair value of investments in the accompanying statement of changes in net assets available for benefits.

Subsequent events -

The Administrator has evaluated subsequent events through October 13, 2025, which is the date the accompanying financial statements were available to be issued.

3. FINANCIAL INFORMATION PREPARED AND CERTIFIED BY TIAA AND CREF

The Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the investment information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared by, or derived from, information provided by the TIAA and CREF and furnished to the Administrator.

The Administrator has obtained certification from TIAA and CREF that the information below is complete and accurate as of December 31, 2024 and 2023, and for the year ended December 31, 2024:

	<u>2024</u>	<u>2023</u>
Registered investments	\$11,964,233	\$10,949,090
Fixed annuity contracts, non-fully benefit-responsive	4,494,862	4,425,095
Variable annuity separate account	647,769	616,085
Fixed annuity contracts, fully benefit-responsive	1,122,040	2,078,207
Net appreciation in fair value of investments	1,401,326	
Interest and dividend income	310,250	

4. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology that are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Fixed annuity contracts:

The non-fully benefit-responsive ("NFBR") fixed annuity contracts, composed entirely of TIAA Traditional Annuity Contracts, are reported at fair value, which is approximated by contract value. Fair value is determined using a discounted cash flow model. The contract value equals the accumulated cash contributions and interest credited to the Plan's contracts, less withdrawals. The TIAA Traditional Annuity Contracts are not available for sale or transfer on any securities exchange. The fixed annuity contracts are subject to various restrictions (see Note 5).

Variable annuity separate account:

Units held in the variable annuity separate account are valued at the net asset value ("NAV") based on the fair market value of the underlying investments of the account less its liabilities. The NAV, as provided by TIAA and CREF, is used as a practical expedient to estimate fair value. The NAV of the variable annuity separate account is published on NASDAQ; however the variable annuity separate account is not publicly traded.

The variable annuity separate account holds between 15% and 25% of its net assets in investments other than real estate and real estate related investments, comprised of publicly traded liquid investments. Determination of fair value of the real estate assets, involves significant judgment.

Valuation of the variable annuity separate account's real estate properties are based on real estate appraisals, which are estimates of property values based on a professional's opinion and may not be accurate predictors of the amount the variable annuity separate account would actually receive if it sold a property.

Appraisals can be subjective in certain respects and rely on a variety of assumptions (including comparable property sales and historical pricing) and conditions at that property or in the market in which the property is located, which may change materially after the appraisal is conducted. Among other things, market prices for comparable real estate may be volatile, in particular, if there has been a lack of recent transaction activity in such market.

Further, as the variable annuity separate account generally obtains appraisals on a quarterly basis, there may be circumstances in the period between appraisals or interim valuation adjustments in which the true realizable value of a property is not reflected in the variable annuity separate account's daily net asset calculation in the variable annuity separate account's periodic financial statements.

The variable annuity separate account provides participants with a liquidity guarantee enabling the account to have funds available to meet participant redemption, transfer, or cash withdrawals. TIAA guarantees that participants can redeem their accumulation unit value determined after their transfer or cash withdrawal request is received in good order.

TIAA and CREF limits the ability of participants to transfer funds into the variable annuity separate account. Specifically, individual participants are limited from making internal transfers into their account if, after giving effect to such transfer, the total value of such participant's account (under all contracts issued to such participant) would exceed \$150,000. A participant is not required to reduce his or her contract balance to a level at or below \$150,000 if the participant's account totals more than \$150,000.

Registered investments:

Mutual funds: Mutual funds represent investments with various investment managers. The mutual funds are valued at the daily closing net asset value as reported by the fund. Mutual funds held by the Plan are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Other registered investments: Plan investment options include registered investments that invest principally in equity securities, fixed-income instruments, and short-term investments in accordance with each portfolio's investment objectives. Units held in the other registered investments are valued at their respective NAV. The NAV, as provided by TIAA and CREF, is used as a practical expedient to estimate fair value. The NAV of the other registered investments is published on NASDAQ; however, the other registered investments are not publicly traded. The NAV is measured based on the fair value of the underlying investments held by the fund less its liabilities.

The fair value of the underlying investments are determined using market quotations or prices obtained from independent pricing sources that may employ various pricing methods to value the investments, including matrix pricing. Money market account holdings are generally valued at cost.

On a daily basis, units in the registered investments are revalued to reflect performance of the underlying investments minus any fees and charges.

Fair value of investments using NAV as practical expedient are as follows as of December 31, 2024:

	<u>Fair Value</u>	<u>Redemption</u>	<u>Notice Period</u>
Money market	\$ 78,626	Daily	None
Fixed income	571,113	Daily	None
U.S. equities	5,612,941	Daily	None
International equities	1,225,361	Daily	None
Balanced/Target date	312,318	Daily	None
Real estate	90,319	Daily	None
Real estate variable annuity separate account	647,769	Quarterly	Restrictions apply
Total	<u>\$8,538,447</u>		

Fair value of investments using NAV as practical expedient are as follows as of December 31, 2023:

	<u>Fair Value</u>	<u>Redemption</u>	<u>Notice Period</u>
Money market	\$ 70,033	Daily	None
Fixed income	446,997	Daily	None
U.S. equities	5,127,779	Daily	None
International equities	1,022,940	Daily	None
Balanced/Target date	290,651	Daily	None
Real estate	84,647	Daily	None
Real estate variable annuity separate account	616,085	Quarterly	Restrictions apply
Total	<u>\$7,659,132</u>		

The investment objectives for the registered investments measured using the NAV are as follows:

Money market: To invest in short-term securities or instruments that present minimal credit risk to provide liquidity and preserve capital.

Fixed income: To invest in a broad range of fixed income securities with high income yields, returns that outpace inflation, or returns that are designed to track a specified inflation index.

U.S. equities: To invest in a broad range of domestic common stocks to meet a specified favorable long-term rate of return using index and managed portfolios.

International equities: To invest in a broad range of international common stocks to meet a specified favorable long-term rate of return using index and managed portfolios.

Balanced/Target date: To invest in domestic and international common stocks, fixed income securities to create blended portfolios or portfolios designed to track asset allocation strategies customized to specific target retirement dates.

Real estate: To invest in rental income and other real estate to seek long-term returns and appreciation.

The fair value of investments measured on a recurring basis at December 31, 2024 is presented below:

	NAV Practical Expedient	Level 1	Level 3	Total
Registered investments	\$7,890,678	\$4,073,555	\$ -	\$11,964,233
Fixed rate annuity contracts, NFBR	-	-	4,494,862	4,494,862

	<u>\$7,659,132</u>	<u>\$3,906,043</u>	<u>\$4,425,095</u>	<u>\$15,990,270</u>

Changes in the fair value of the Plan's Level 3 investments for the year ended December 31, 2024 is presented below:

Balance, December 31, 2023	\$4,425,095
Contributions	29,944
Withdrawals	(163,343)
Investment income	203,166
Balance, December 31, 2024	<u>\$4,494,862</u>

5. FIXED ANNUITY CONTRACTS

As discussed in Note 4, fixed annuity contracts consist of investment options available to participants known as TIAA Traditional Annuity Contracts ("Annuity Contracts"). Annuity Contracts are established between the participants and TIAA, an insurance company registered in the State of New York. This investment option is offered in a variety of formats, including Retirement Annuities ("RA"), Supplemental Retirement Annuities ("SRA"), and Group Supplemental Retirement Annuities ("GSRA"). The return of Annuity Contracts contributions plus interest to participants is subject to TIAA's claims-paying ability.

Annuity Contracts are credited with a guaranteed minimum rate of interest that is determined annually. Participants may also earn interest in addition to the guaranteed rate at the discretion of TIAA. Such discretionary interest, if any, is declared by TIAA on a year-by-year basis and remains in effect for the subsequent twelve-month declaration year.

Contributions to the Annuity Contracts are grouped by TIAA into vintages comprised of premiums received over defined time periods of one or more contiguous calendar months. The interest crediting rate for each vintage is determined, in part, by the net investment earnings rate of the TIAA assets supporting that vintage, minus a charge for administrative expenses and an amount set aside for contingency reserves. Crediting rates are also determined by the performance of investments contained in TIAA's general account.

RA account balances may only be withdrawn over 10 annual payments. RAs are not considered to be fully benefit-responsive investment contracts as defined by GAAP, because this provision is considered to restrict participants' reasonable access to their contract balances.

SRAs and GSRA are considered fully benefit-responsive investment contracts, because they are fully liquid and are immediately redeemable once a participant terminates employment with the Museum (unless they are pledged as collateral on loans (see Note 1)).

During the year ended December 31, 2024, the crediting rates of the Annuity Contracts range as follows:

RA	3.65% to 6.50%
GSRA	3.00% to 5.75%
SRA	3.00% to 5.75%

6. TAX STATUS

The Museum has adopted a prototype Plan document sponsored by TIAA and CREF. The Internal Revenue Service has provided an opinion letter dated August 7, 2017 that the Plan document is designed in accordance with applicable sections of the Code. Although the Plan has been amended since receiving the opinion letter, the Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements for the year ended December 31, 2024.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. PARTY-IN-INTEREST TRANSACTIONS

Certain investments are managed by the TIAA and CREF. The related investment fees are included in net appreciation in fair value of investments in the accompanying statement of changes in net assets available for benefits. These investments and fees qualify as exempt party-in-interest transactions.

8. PLAN TERMINATION

Although it has not expressed any intent to do so, the Museum has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become fully vested in the Museum's discretionary nonelective contribution account balance as of the date of the termination.

9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect participant account balances and the amounts reported in the accompanying statements of net assets available for benefits.
