REPORT OF INDEPENDENT PUBLIC ACCOUNTANTS

To the Board of Trustees of the Johns Hopkins University and the Participants
of the Johns Hopkins University Tax Sheltered Annuity Program for
Employees of Johns Hopkins Bayview Physicians

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Johns Hopkins University Tax Sheltered Annuity Program for Former Employees of Johns Hopkins Bayview Physicians (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or Federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal controls. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal controls-related matters that we identified during the audit.

Other Matters

Supplemental Schedule Required by ERISA

The supplemental schedule of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment

information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

REPORT OF INDEPENDENT PUBLIC ACCOUNTANTS

To the Board of Trustees of the Johns Hopkins University and the Participants
of the Johns Hopkins University Tax Sheltered Annuity Program for
Employees of Johns Hopkins Bayview Physicians

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Johns Hopkins University Tax Sheltered Annuity Program for Former Employees of Johns Hopkins Bayview Physicians (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or Federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal controls. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal controls-related matters that we identified during the audit.

Other Matters

Supplemental Schedule Required by ERISA

The supplemental schedule of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment

information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Notes to Financial Statements

As of December 31, 2024 and 2023

(1) Description of the Plan

The following description of The Johns Hopkins University Tax Sheltered Annuity Program for Former Employees of Johns Hopkins Bayview Physicians (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

(a) General

The Plan was a defined-contribution retirement program established by The Johns Hopkins University (the Plan Sponsor, the Plan Administrator, or University), as part of the merger with Bayview Physicians in 2002, and was designed in accordance with Section 403(b) of the Internal Revenue Code (IRC). The Plan covered certain former employees of The Johns Hopkins Bayview Physicians LLC. The Plan was frozen as of January 1, 2002 and no new participants were allowed to enter the Plan as of this date. Each participant in the Plan as of January 1, 2002 became 100% vested. The Plan was amended and restated effective on July 1, 2020. In December of 2024, the Plan assets transferred into The Johns Hopkins University 403(b) Plan. As a result of the merger, all assets were transferred to the Johns Hopkins University 403(b) Plan and the Plan ceased to exist as a separate plan. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

(b) Contributions

Since the Plan was frozen as of January 1, 2002, no employee contributions were permitted after December 31, 2001. No further Plan Sponsor contributions to the Plan were permitted effective January 1, 2002. Effective January 1, 2019, the Plan stopped accepting rollover contributions from other qualified investment plans of vested participants.

(c) Participant Accounts

Each participant's account was credited with allocations of the Plan earnings (or losses). The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested accounts. Participants could direct their account balance into a variety of investment options.

(d) Vesting

Each participant was fully vested 100% in their account balances.

(e) Investment Options

Participants could allocate funds into various investment options under the following Fund Sponsors:

- Teachers Insurance and Annuity Association (TIAA); and
- Empower

For certain funds held at TIAA-CREF, TIAA-CREF Trust Company, FSB was the custodian.

TIAA-CREF was the master record keeper for all investments held by the trustees listed above.

Empower was a recordkeeper for certain legacy assets.

Notes to Financial Statements

As of December 31, 2024 and 2023

(f) Payment of Benefits

Participants could receive all or a portion of their vested account balance upon termination of employment, retirement, death, or permanent disability. A participant could elect to receive benefit payments in the form of a lump-sum payment, an annuity, or installment-based payment as set forth by the Plan and fund sponsors. Active participants could access their entire account balance upon attainment of age 59½ or permanent disability. The normal retirement age of the Plan is 65 years. Participants could receive hardship withdrawals from their salary reductions excluding earnings for reasons of financial hardship.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

(b) Investment Valuation and Income Recognition

The Plan's investments are stated at fair value other than investments in fully benefit-responsive investment contracts which are stated at contract value. The investment companies are valued using the net asset value (NAV) of the respective funds/accounts, as reported by the respective fund advisor. The investment companies consist of registered investment companies.

The shares in registered investment companies consist of various mutual funds that invest principally in equity securities, fixed-income instruments, other mutual funds, and short-term investments in accordance with each fund's investment objectives. Fund holdings are generally valued using market quotations or prices obtained from independent pricing services, except those held by the money market funds, whose holdings are valued at amortized cost. The money market funds are managed to maintain a constant value, though not guaranteed, of \$1 per share.

The TIAA's Real Estate Account (the REA) is a pooled separate account/insurance company separate account of TIAA investing mainly in real estate and real estate – related investments. This is a variable annuity. The REA's value is principally derived from the market value of the underlying real estate holdings or other real estate – related investments. Real estate holdings are valued principally using external appraisals, which are estimates of property values based on a professional's opinion. The REA sometimes holds securities as well. These are generally priced using values obtained from independent pricing sources. Returns are not guaranteed and accumulations and returns fluctuate based on the performance of the underlying investments.

The TIAA's Traditional Annuity Account represents insurance contracts issued by TIAA, which guarantee principal and a contractually specified interest rate to account participants. The earnings on this account are included in interest and dividends in the statements of changes in net assets available for benefits. The account is invested in the TIAA general account that invests in individual bonds, commercial mortgages, real estate, stocks, and other assets that target different sectors of the marketplace. The portfolio follows specific guidelines with respect to major asset classes, sectors, industries, property types, geographic regions, individual issuers/borrowers, foreign holdings, liquidity, quality, and derivatives.

Notes to Financial Statements

As of December 31, 2024 and 2023

The guaranteed investment contract with Empower is stated at contract value. Under the group annuity insurance contract that supports this product, participants may ordinarily direct permitted withdrawal or transfers of all or a portion of their account balance at contract value within reasonable time frames. Value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees. The contract is fully benefit-responsive at contract value for all plan permitted, participant-directed transactions. These fully benefit-responsive investment contracts enable the fund to realize a specific known value for the assets if it needs to liquidate them for benefit payments.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains on investments bought and sold as well as held during the year.

(c) Payment of Benefits

Benefits are recorded when paid.

(d) Administrative Expenses

Administrative expenses related to investment management are allocated among various funds and are included as an offset to net appreciation (depreciation) in fair value of investments. Other administrative expenses of the Plan are generally paid by the Plan Sponsor. To the extent the University does not pay plan expenses with its own assets, the Plan generally will pay the expenses of plan administration using forfeitures and/or by assessing the expenses against each participant's account.

(e) Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates and assumptions.

(3) Information Certified

Certain information related to investments from participants disclosed in the accompanying financial statements and ERISA-required supplemental schedule, including investments from participants held as of December 31, 2024 and 2023, and net appreciation (depreciation) in fair value of investments, interest and dividends, and interest on notes receivable from participants for the years ended December 31, 2024 and 2023 were obtained or derived from information supplied to the plan administrator and certified as complete and accurate by TIAA, as agent for TIAA Trust Company FSB, and Empower.

(4) Guaranteed Investment Contract

The Plan had entered into a fully benefit-responsive guaranteed investment contract with Empower. Empower maintains the investments in a general account.

The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay principal and interest and a specified interest rate guaranteed to the Plan.

Interest is credited on contract balances using a single “portfolio rate” approach. Under this methodology, a single interest crediting rate is applied to all contributions made to the product regardless of the timing of those contributions. Interest crediting rates are determined using a formula. Factors utilized in the determination of interest crediting rates include the timing and amount of the Plan’s cash flow as well as the expected and actual investment experience if securities held in a commingled reference portfolio within the issuer’s general account. The minimum crediting rate under the contract is 3.00%. Interest crediting rates are reviewed on an annual basis for resetting.

A Plan Sponsor initiated contract termination is an event that could limit the ability of the Plan to transact at contract value if payment is required within 90 days. The Plan Sponsor does not believe that an event that would limit the Plan’s ability to transact at contract value is probable of occurring. There are no events that allow the issuer to terminate the contract and that require the Plan Sponsor to settle at an amount different than contract value paid either within 90 days or over time.

(5) Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means; if the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

**THE JOHNS HOPKINS UNIVERSITY TAX SHELTERED ANNUITY
PROGRAM FOR FORMER EMPLOYEES OF JOHNS HOPKINS
BAYVIEW PHYSICIANS**

Notes to Financial Statements

As of December 31, 2024 and 2023

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

When observable prices are not available, investments are valued using one or more of the following valuation techniques:

- Market approach – this approach uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities.
- Income approach – this approach determines a valuation by discounting future cash flows.
- Cost approach – this approach is based on the principle of substitution and the concept that a market participant would not pay more than the amount that would currently be required to replace the asset.

These valuation techniques may include inputs, such as price information, volatility statistics, operating statistics, specific and broad credit data, recent transactions, earnings forecasts, discount rates, reserve reports, futures pricing, and other factors.

The following is a description of the valuation methodologies used for assets measured at fair value as of December 31, 2024 and 2023. There were no changes in methodologies used as of December 31, 2024 or 2023.

Registered investment companies: The shares in registered investment companies consist of various mutual funds that invest principally in equity securities, fixed-income instruments, other mutual funds, and short-term investments in accordance with each fund's investment objectives. Fund holdings are generally valued using market quotations or prices obtained from independent pricing services, except those held by the money market funds, whose holdings are valued at amortized cost. The money market funds are managed to maintain a constant value, not guaranteed, of \$1 per share. Shares in registered investment companies are valued using the NAV held by the Plan at year-end. The fair values of accumulation units held by the Plan in TIAA-CREF accounts (registered investment companies) are based on each account's daily NAV. TIAA-CREF accounts are not exchange traded but are classified within Level 1 of the fair value hierarchy because they are redeemable daily at the NAV quoted by TIAA-CREF. Data for NAVs are available daily to the Plan Administrator and Plan's participants on NASDAQ's website and provide sufficient corroborative evidence to ascertain the relationship between each fund's NAV and the values of individual underlying holdings. Underlying holdings are primarily valued using market quotations or prices obtained from independent pricing sources. There are no unfunded commitments from participants in the Plan who invest in these accounts, and there are no restrictions on redemptions and no notice period for redemption.

Pooled separate accounts: Valued at the NAV of shares held by the Plan at year-end, as determined by the issuer. Participants can redeem on a quarterly basis. The fair value of the Plan's interest in the REA (a pooled separate account) is based on the fund's published NAV. The unit value of the fund is calculated daily and available to the Plan Administrator and plan participants on NASDAQ's website. Underlying holdings are primarily valued using independent appraisals or independent pricing sources. There are no unfunded commitments from participants in the Plan who invest in this account.

Notes to Financial Statements

As of December 31, 2024 and 2023

TIAA Traditional Annuity Accounts: Valued at contract value, which approximates fair value. The contract value of the TIAA Traditional Annuity Accounts equals the accumulated cash contributions and interest credited to the Plan's contracts less any withdrawals. The annuity accounts are not available for sale or transfer on any securities exchange. Transfers from the annuity accounts are also restricted. Participants may only transfer between investment options in substantially equal amounts over a 10-year period. Accordingly, transactions in similar investment instruments are not observable.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables present the Plan's fair value hierarchy for those investments measured at fair value as of December 31, 2024 and 2023:

(6) TIAA Traditional Annuity Accounts

The TIAA Traditional Annuity accounts are one of the investment options that represent insurance contracts issued by TIAA-CREF, which guarantees principal and a contractually specified interest rate to plan participants. The accounts are backed by Teachers Insurance and Annuity Association's general account portfolio invested in a combination of individual bonds, commercial mortgages, real estate, stocks, and other assets that target different sectors of the marketplace. The portfolio follows specified guidelines required by NY State Insurance regulations with respect to major asset classes, sectors, industries, property types, geographic regions, individual issues/borrowers, foreign holdings, liquidity, quality, and derivatives.

Interest credited to TIAA's Traditional Annuity accumulations includes a guaranteed rate, plus additional amounts that are not guaranteed but may be established on a year-by-year basis. These additional amounts, when declared, remain in effect through the end of the "declaration year," which begins each March 1. The guaranteed annual interest rate was 3% for all premiums remitted since 1979 through the summer of 2023 under TIAA's Traditional Retirement Annuity accumulating contracts. During the summer of 2023, JHU converted to new contracts where the guaranteed minimum crediting rate is 1%. Both the one-year total returns and the yield credited to participants for 2024 and 2023 are out of annual fees. The crediting interest rate is calculated daily.

Notes to Financial Statements

As of December 31, 2024 and 2023

The TIAA's Traditional Annuity accounts consist of various contract types, such as Retirement Annuity (RA), Group Retirement Annuity (GRA), Retirement Choice Plus (RCP), Group Supplemental Retirement Annuity (GSRA), and Supplemental Retirement Annuity (SRA) contracts. Each type has various restrictions on withdrawals. For the GRA, lump-sum withdrawals are available only within 120 days after termination of employment and are subject to a surrender charge. All other withdrawals and transfers from the RA and GRA must be spread over a period of 10 annual installments, or 5 annual installments for withdrawals after terminations of employment close. The GSRA, RCP, and SRA are fully benefit-responsive contracts and do not have restrictions on withdrawals except that transfers cannot be made to competing funds. For the GSRA, RCP, and SRA, there are no events that limit the ability of the Plan to transact at contract value.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuers. These events may be different under each contract. Examples of such events include the following:

1. Amendments to the Plan documents (including complete or partial Plan termination or merger with another Plan);
2. Changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions;
3. Bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan;
4. The failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA; and/or
5. Premature termination of the contract.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

1. An uncured violation of the Plan's investment guidelines;
2. A breach of material obligation under the contract;
3. A material misrepresentation; and/or
4. A material amendment to the agreements without the consent of the issuer.

(7) Tax Status

The Plan has been designed to qualify under Section 403(b) of the Internal Revenue Code (IRC). The Plan Administrator intends to apply for a determination letter on the Plan once the Internal Revenue Service opens such a program. The Plan Administrator and its legal counsel believe that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC and as such is exempt from federal income taxes.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for all Plan years three or more years prior to the 2024 Plan year.

(8) Risks and Uncertainties

The Plan provides for various investment options consisting of a variety of investment funds, some of which are registered investment companies, and pooled separate accounts. The investment funds include U.S. equities, international equities, and fixed income securities. Investment securities, in general, are exposed to various risks, such as significant world events, interest rate, credit, and overall market volatility risk. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and participant account balances.

The Plan invests directly or indirectly in securities with contractual cash flows, such as asset-backed securities, collateralized mortgage obligations, and commercial mortgage-backed securities, including securities backed by subprime mortgage loans. The value, liquidity, and related income of these securities are sensitive to changes in economic conditions, including real estate values, delinquencies, or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

The Empower Guaranteed Investment Contract represents approximately 0% and 19% of the Plan's net assets as of December 31, 2024 and 2023, respectively, and represents an obligation from Empower to repay as amounts come due. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The Plan Administrator does not believe that any events would limit the Plan's ability to transact at contract value.

(9) Plan Termination

In December of 2024 the Plan was merged into The Johns Hopkins University 403(b) Plan. As a result of the merger, all assets were transferred to the Johns Hopkins University 403(b) Plan and The Plan ceased to exist as a separate plan. All participants became entitled to benefits under the Johns Hopkins University 403(b) Plan in accordance with terms and applicable regulations.
