## INDEPENDENT AUDITORS' REPORT

To the Administrative Committee  
Zachary's Chicago Pizza, Inc. Employee Stock Ownership Plan  
Oakland, CA

### **Opinion**

We have audited the accompanying financial statements of Zachary's Chicago Pizza, Inc. Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Zachary's Chicago Pizza, Inc. Employee Stock Ownership Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

### **Basis for Opinion**

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Zachary's Chicago Pizza, Inc. Employee Stock Ownership Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Zachary's Chicago Pizza, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

## **Auditors' Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Zachary's Chicago Pizza, Inc. Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Zachary's Chicago Pizza, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

## **Supplemental Schedule Required by ERISA**

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Assets Held at End of Year as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including their form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

ZACHARY'S CHICAGO PIZZA, INC. EMPLOYEE STOCK OWNERSHIP PLAN  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2024 AND 2023

**Note A - Description of Plan**

The following description of the Zachary's Chicago Pizza, Inc. Employee Stock Ownership Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

**General:**

The Plan is a defined contribution plan sponsored by Zachary's Chicago Pizza, Inc. (the "Company") and was established January 1, 2003. The Plan was established for the benefit of eligible employees of the Company. The Plan covers all eligible employees, as defined, except those covered by a collective bargaining agreement. Eligible employees may enter the Plan on the first day of the Plan year on a retroactive basis for the year in which the service requirement is met. For 2020, any employee hired on or before March 1, 2020, who remains an employee on March 1, 2020, years of service shall be applied by substituting 700 hours of service for 1,000 hours of service for purposes of applying the January 1, 2020, entry date. Reduction in hours of service is only applicable for 2020. The Plan is an employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and regulations thereunder, of the Internal Revenue Code of 1986, as amended (IRC), and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan's assets, which consist principally of Company common stock, are held by the Trustee of the Plan. Company contributions are held and managed by the Trustee, which invests cash received, interest, and dividend income and makes distributions to participants. Certain administrative functions are performed by officers or employees of the Company or its subsidiaries. No such officer or employee receives compensation from the Plan. Administrative expenses for the Trustee's fees are paid directly by the Company.

**Contributions and Allocations to Participant Accounts:**

The Plan is a defined contribution plan for which the Company may contribute annually an amount in cash and/or in shares of Zachary's Chicago Pizza, Inc. stock as determined by the Company's board of directors. Available cash may then be used to purchase the Company's common stock at the fair market value as determined by an independent appraiser. Contributions to the Plan are limited to amounts deductible on the plan company's federal income tax return. For the year ended December 31, 2024, Zachary's Chicago Pizza, Inc. contributed \$1,250,004.

Each participant's account is credited with an allocation of plan company contributions, plan investment activity, forfeitures of terminated participants' non-vested account balances, and administrative expenses.

Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Participants who retire, become disabled or die during the Plan year are also eligible to receive an allocation of the Company's contributions. The Plan does not permit contributions from participants. Rollover contributions are not permitted. Participants are allocated shares based on their covered compensation for that year in proportion to all participants covered compensation for the year. Contributions are subject to certain limitations.

NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2024 AND 2023

**Note A - Description of Plan (Continued)**

Participant Accounts:

Each participant's account is credited with the allocations of the Company's discretionary contribution and investment earnings and losses, forfeitures of terminated participants nonvested accounts, and charged with an allocation of administrative expenses. Allocations of investment earnings and losses and administrative expenses are based on account balances as defined in the Plan document. Allocations of the Company's discretionary contributions and forfeitures, if any, are based on the ratio of the participant's compensation to total compensation for the Plan year. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

The Plan permits the Plan Administrator to exchange any cash held in the accounts of participants who are actively employed by the Company for shares of Company common stock held in the accounts of participants who have terminated employment with the Company.

Vesting:

Participants vest in their allocated account balances upon completion of three years of service at 20% and increase in 20% increments for the next four years fully vesting upon completion of seven years of service for benefits allocated before January 1, 2007. Participants vest in their allocated account balances upon completion of two years of service at 20% and increase in 20% increments for the next four years fully vesting upon completion of six years of service for benefits allocated after January 1, 2007.

Payment of Benefits:

The Plan provides for the distribution of the participant's stock and other investment account at retirement, disability, death, or termination of employment. For distributions other than termination of employment, a participant's account balance will be distributed no later than the allocation date of the plan year following the plan year in which his retirement, disability or death occurred. For distributions associated with termination of employment, account balances will be distributed no later than the allocation date of the sixth plan year following the plan year in which the service was terminated. Distributions are also subject to limitations related to participant's accounts which have a value greater than \$1,035,000, in which case distributions will happen for one additional year for every \$205,000 of additional value but not to exceed five additional years. Distributions shall be in the form of cash or Company common stock paid as a lump sum or in equal installments over a period not to exceed five years except as mentioned above.

Effective January 1, 2014, upon termination of employment, the Plan shall exchange any cash or other liquid assets held in the Other Investment Accounts of active Participant's accounts for shares of Company Stock held in the Plan by the terminated employee. The exchange rate used will be determined based on the most recent appraised fair market value of Company Stock.

NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2024 AND 2023

**Note A - Description of Plan (Continued)**

**Administrative Expenses:**

As provided in the Plan agreement, administrative expenses may be paid either by the Plan or by the Company. The Company has historically paid the operating expenses for the Plan. Expenses paid by the Plan relate to investment advice and other administrative expenses of the Plan.

**Diversification:**

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments that are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a 6-year period. In each of the first 5 years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution, unless eligible for floor price protection, in which case, shares are distributed. The election to diversify is made subsequent to year-end based upon the shares of employer stock in the participant's account at year-end.

**Voting Rights:**

Participants will be entitled to exercise voting rights attributable to the shares of Company stock allocated to their accounts in the Plan with respect to certain major corporate matters, such as mergers, consolidations, sale of all assets, or the liquidation of the Company. The Plan Trustees vote on all other corporate matters.

**Put Option:**

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. Participants who receive a distribution of Company stock have the right to "put" the stock to the Company at any time during two option periods. The first option period is the initial 60 days beginning on the date of distribution. The second option period is the 60 days beginning after the new determination date of fair value for the Company stock, typically the end of the plan year. The option price is the appraised value of the Company stock as of the allocation date immediately preceding the beginning of each put option period. The put option is payable in either a lump sum cash payment or annual installments with interest not to exceed five years. Partial exercise of a put option is not permitted. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

**Forfeited Accounts:**

Plan forfeitures are allocated to each participant's account based upon the relation of the participant's eligible compensation to total eligible compensation for the Plan year. Forfeitures allocated to participants during 2024, totaled \$127,867. At December 31, 2024 and 2023, forfeited nonvested accounts totaled \$0 and \$0, respectively.

ZACHARY'S CHICAGO PIZZA, INC. EMPLOYEE STOCK OWNERSHIP PLAN  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2024 AND 2023

**Note B - Significant Accounting Policies**

Basis of Accounting:

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition:

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note F for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Plan's investments include of 2,000 shares of Company stock as of December 31, 2024 and 2023.

Risk and Uncertainties:

The Plan investments consist primarily of the Company's common stock and various investment options in any one of a combination of mutual funds that invest in stocks, bonds, fixed income securities or other investment securities, which are exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the common stock and other investments to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock and other investments will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefit.

Payment of Benefits:

Benefit distributions, determined in accordance with provisions of the Plan, are recorded when paid.

Use of Estimates:

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires Plan management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

**Note C - Plan Termination**

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

ZACHARY'S CHICAGO PIZZA, INC. EMPLOYEE STOCK OWNERSHIP PLAN  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2024 AND 2023

**Note D - Income Tax Status**

The IRS has determined and informed the Plan sponsor by a letter dated July 24, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits in progress for any tax periods.

**Note E - Related Party Activity**

The Plan invests in Company common stock and pays expenses from Plan assets. These are related party and party in interest transactions. During the year ended December 31, 2024, a total of \$22,857 was paid to the Plan's advisor for services provided to the Plan.

These party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

**Note F - Fair Value Measurements**

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three Levels of the fair value hierarchy under FASB ASC 820 are described below:

- Level 1     Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has ability to access.
- Level 2     Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3     Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques are used to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2024 AND 2023

**Note F - Fair Value Measurements (Continued)**

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

*Mutual funds and exchange traded funds:* Valued at the quoted net asset value of shares traded in active markets and held by the plan at year end.

*Interest bearing cash:* Valued at cost, which approximates fair value.

*Company common stock:* The fair value of the Zachary's Chicago Pizza, Inc. common stock held by the plan is valued at estimated fair value based upon an independent appraisal. This appraisal was based upon a combination of the market and income valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparable and estimated fair value of company assets and liabilities.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
