Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) ☒ Unmodified (2) ☐ Qualified (3) ☐ Disclaimer (4) ☐ Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) ☒ DOL Regulation 2520.103-8 (2) ☐ DOL Regulation 2520.103-12(d) (3) ☐ neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: **ERNST & YOUNG LLP**

(2) EIN: **34-6565596**

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) ☐ This form is filed for a CCT, PSA, DCG or MTIA. (2) ☐ It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		☒	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		☒	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		☒	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		☒	
e Was this plan covered by a fidelity bond?	☒		10000000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		☒	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)		☒	
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)		☒	
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		☒	
l Has the plan failed to provide any benefit when due under the plan?		☒	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)			
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.			

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year?..... ☐ Yes ☒ No
If "Yes," enter the amount of any plan assets that reverted to the employer this year _____.

5b If, during this plan year, any assets or liabilities were transferred from this plan to another plan(s), identify the plan(s) to which assets or liabilities were transferred. (See instructions.)

5b(1) Name of plan(s)	5b(2) EIN(s)	5b(3) PN(s)

5c Was the plan a defined benefit plan covered under the PBGC insurance program at any time during this plan year? (See ERISA section 4021 and instructions.) ☒ Yes ☐ No ☐ Not determined

Report of Independent Auditors

The Benefits Administration Committee
U.S. Bancorp
Participants of U.S. Bank Legacy Pension Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of U.S. Bank Legacy Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes (collectively referred to as the “financial statements”).

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor’s Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all

**Shape the future
with confidence**

material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial

**Shape the future
with confidence**

statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

**Shape the future
with confidence**

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

U.S. Bank Legacy Pension Plan

Notes to Financial Statements

December 31, 2024

1. Description of the Plan

The following description of the U.S. Bank Legacy Pension Plan (the “Plan”) provides only general information. Participants should refer to the Plan’s Summary Plan Description (the “SPD”) for a more complete description of the Plan’s provisions. The SPD can be reviewed by visiting www.usbank.com/benefitsandrewards.

Administration and Participation

The Plan is a noncontributory, defined benefit pension plan primarily covering former employees of U.S. Bancorp (the “Company”, the “Plan Sponsor”, and the “Plan Administrator”) and its subsidiaries. The Company’s Benefits Administration Committee is responsible for the general administration of and carrying out of the provisions of the Plan in accordance with the Plan’s governing documents and applicable laws. U.S. Bank National Association (the “Trustee”) is responsible for investment information related to the Plan and Master Trust.

Effective January 1, 2024, the U.S. Bank MUFG Pension Plan (the “MUB Plan”) was split and merged into the Plan and the U.S. Bank Pension Plan. All inactive and certain active participants, primarily retirement eligible employees, were merged into the Plan. All remaining active participants were merged into the U.S. Bank Pension Plan. Approximately 65 percent and 35 percent of the MUB Plan assets were allocated to the Plan and the U.S. Bank Pension Plan, respectively. All the assets held in the 401(h) account that were part of the MUB Plan became part of the Plan.

Effective January 1, 2020, the Plan was established to receive a transfer of assets and liabilities for retirees and certain Plan participants who were not actively employed on January 1, 2020, and their respective beneficiaries and alternate payees, from the U.S. Bank Pension Plan. This resulted in increases in both Plan assets and liabilities and decreases (by the same amount) in both assets and liabilities for the U.S. Bank Pension Plan. The two plans have substantively identical terms, and the spinoff did not affect any benefit amounts accrued by Plan participants. Beginning January 1, 2020, investments for all plans are held in the Master Trust for the U.S. Bank Defined Benefit Pension Plans (the “Master Trust”). Because the Plan received accrued benefits transferred from the U.S. Bank Pension Plan, the history of the U.S. Bank Pension Plan is relevant to both plans.

Effective January 1, 2010, the U.S Bank Pension Plan was amended such that all employees who become eligible to participate in the U.S Bank Pension Plan will have their benefits calculated under the U.S. Bank 2010 Cash Balance Plan, a component of the U.S Bank Pension Plan. A hypothetical account is maintained for each participant where contributions are credited based on age and years of service along with an interest credit. Certain eligible participants were given the option of continuing to accrue benefits under the final average pay formula of the U.S Bank

U.S. Bank Legacy Pension Plan

Notes to Financial Statements (continued)

Pension Plan or have their benefits frozen as of December 31, 2009 and begin earning benefits under the cash balance formula.

Participants become 100 percent vested in the Plan after completing three years of vesting service. Participants are credited with one year of vesting service for each calendar year in which they work at least 1,000 hours. Participants who were actively employed at age 65 become vested at that time regardless of the number of years of vesting service.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”), and the Internal Revenue Code (the “Code”).

Benefits Paid to Participants

The Plan offers a variety of payment options to eligible vested participants upon termination of employment or retirement. The normal form of payment for single and married participants is a single life annuity and a qualified 50 percent joint and survivor annuity, respectively. Monthly benefits earned under the final average pay formula of the Plan are calculated based on the participant’s years of credited service multiplied by a percentage of the participant’s average compensation for the five highest consecutive calendar years out of the last ten years at the time of termination of employment or retirement, as defined by the Plan.

Monthly benefits earned under the cash balance formula of the U.S. Bank 2010 Cash Balance Plan on and after January 1, 2010, are calculated based on the participant’s account balance, including pay credits and interest credits, as defined by the Plan. Participants with benefits under the 2010 cash balance formula may also elect a lump-sum payment option based on the value of their cash balance account in lieu of a monthly benefit.

Certain participants who accrued benefits prior to January 1, 2002, continue to have a lump-sum payment option based on the value of their pre-2002 cash balance account. Participants who have a pre-2002 cash balance account no longer receive credits based on their years of service or compensation but continue to receive interest credits, as defined by the Plan.

Participants attaining the normal retirement age of 65 can begin receiving monthly benefits determined in accordance with elected payment options and plan provisions in effect at the date of retirement as defined by the Plan. Plan participants may elect payment of early retirement benefits at reduced rates after attaining age 55 and having earned five years of vesting service. Plan participants with benefits under either the pre-2002 or the 2010 cash balance formula may elect payment of early retirement benefits after earning three years of vesting service (the cash balance benefit being payable at any age).

U.S. Bank Legacy Pension Plan

Notes to Financial Statements (continued)

Death and disability benefits are available to participants and beneficiaries as defined by the Plan.

Funding Policy

The Plan uses the present value of accrued benefits method to determine its funding requirements, as determined based on information provided by its third-party actuary. The Company's funding policy is to contribute amounts to the Plan sufficient to meet the minimum funding requirements of ERISA, plus such additional amounts as the Company determines to be appropriate.

The Plan has met ERISA minimum funding requirements for 2024 and 2023.

Plan Termination

Although it has not expressed any intentions to do so, the Company has the right to terminate the Plan at any time by action of its Board of Directors. In the event of a termination of the Plan, the net assets of the Plan will be allocated among the participants of the Plan and their beneficiaries in the order specified in Section 4044 of ERISA. Pension benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (the "PBGC") in the event of a plan termination. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

2. Significant Accounting Policies

Accounting Method

The financial statements of the Plan are prepared using the accrual method of accounting under accounting principles generally accepted in the United States.

Investment Valuation and Income Recognition

Investments are stated at fair value, and beginning January 1, 2020 are held in a Master Trust. See Note 3 for a discussion of investments and Note 4 for a discussion of fair value measurements.

Dividends are recorded on the ex-dividend date.

Purchases and sales of securities are recorded on a trade-date basis. If a trade is open at the end of the year, a receivable for securities sold but not yet settled or a payable for securities purchased but not yet settled is reflected in the Statement of Net Assets Available for Benefits.

U.S. Bank Legacy Pension Plan

Notes to Financial Statements (continued)

The change from the beginning to the end of the year in the difference between fair value and the cost of investments is reflected in the Statement of Changes in Net Assets Available for Benefits as net investment gain (loss) from plan interest in the Master Trust.

The net gain (loss) on sales of investments is the difference between the proceeds received and the average cost of investments sold and is also reflected in the Statement of Changes in Net Assets Available for Benefits in net investment gain (loss) from plan interest in the Master Trust.

Administrative Expenses

Recordkeeping, investment management, trust, consulting, audit, and other administrative fees are paid by the Plan and are recorded as administrative expenses as incurred. Administrative expenses related to the Master Trust are allocated to the Plan. The Company pays other administrative fees related to the Plan.

Payment of Benefits

Benefit payments are recorded when paid.

Certain benefits due to participants are paid through annuity contracts purchased by the Plan from various insurance companies. These payments are not included in benefits paid to participants on the Statement of Changes in Net Assets Available for Benefits. In addition, certain other benefits due to participants are paid by the Plan and reimbursed to the Plan through annuity contracts purchased from various insurance companies. These payments are included in benefits paid to participants, and the reimbursements are classified as payments received from annuity contracts on the Statement of Changes in Net Assets Available for Benefits.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements, accompanying notes and supplemental schedules. Actual results could differ from those estimates and assumptions.

Risks and Uncertainties

The Plan's investments are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of investments, it is at least reasonably possible that changes in risks in the

U.S. Bank Legacy Pension Plan

Notes to Financial Statements (continued)

near term could materially affect the amounts reported in the Statement of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

The actuarial present values of accumulated plan benefits and funding obligations are reported based on certain assumptions pertaining to interest rates, employee compensation, and demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements.

3. Investments

All investment information, including the 401(h) account, disclosed in the accompanying financial statements, including investments held at December 31, 2024 and 2023, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by the Trustee.

In establishing its investment policies and asset allocation strategies, the Company considers expected returns and the volatility associated with different strategies. An independent consultant performs modeling that projects numerous outcomes using a broad range of possible scenarios, including a mix of possible rates of inflation and economic growth. Starting with current economic information, the model bases its projections on past relationships between inflation, fixed income rates, and equity returns, both in the United States and in foreign countries. Estimated future returns and other actuarially determined adjustments are also considered in calculating the estimated return on assets.

Generally, based on historical performance of the various investment asset classes, investments in equities have outperformed other investment classes but are subject to higher volatility. In an effort to minimize volatility, while recognizing the long-term up-side potential of investing in equities, the Company's Compensation and Human Resources Committee has determined that a target asset allocation of 35 percent long duration bonds, 30 percent global equities, 10 percent real assets, 10 percent private equity funds, 5 percent domestic mid-small cap equities, 5 percent emerging markets equities, and 5 percent hedge funds is appropriate.

Interest in Master Trust

Effective January 1, 2020, the Master Trust was established for pension plan investments. Each participating plan has an undivided interest in the Master Trust. The Master Trust assets are allocated among the participating plans by assigning to each plan those transactions (primarily contributions, benefit payments, and plan-specific expenses) that can be specifically identified and by allocating among all plans, in proportion to each plan's beneficial interest in the Master Trust,

income and expenses resulting from the collective investment of the assets of the Master Trust. At December 31, 2024 and 2023, the Plan's interest in the net assets of the Master Trust was approximately 44.24 percent and 38.34 percent, respectively.

In addition to cash and cash equivalents, the participating pension plans invest in funds that do not have readily determinable fair values. These funds are valued based on net asset values provided by the fund trustee or administrator as a practical expedient.

The following table summarizes fair value of the net assets of the Master Trust and the Plan's interest in the Master Trust at December 31, 2024:

4. Fair Value measurements

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. A fair value measurement reflects all the assumptions that market participants would use in pricing the asset or liability, including assumptions about the risk inherent in a particular valuation technique, the effect of a restriction on the sale or use of an asset and the risk of nonperformance.

The Plan groups its assets measured at fair value into a three-level hierarchy for valuation techniques used to measure assets at fair value. This hierarchy is based on whether the valuation inputs are observable or unobservable. These levels are:

- Level 1 – Quoted prices in active markets for identical assets. Level 1 investments include cash and cash equivalents, U.S. government debt securities, and corporate stocks.
- Level 2 – Observable inputs other than Level 1 prices, such as quoted prices for similar assets, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets. Level 2 investments include corporate and municipal debt securities, mutual funds and other investments.
- Level 3 – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. Level 3 assets include financial instruments whose values are determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation. This category includes various mineral oil and gas interests and comprise an insignificant portion of the Plan's investments.

If the Plan were to change its valuation inputs for measuring financial assets at fair value, either due to changes in current market conditions or other factors, it may need to transfer those assets into or out of Level 3 of the hierarchy based on the new inputs used. During the years ended December 31, 2024 and 2023, there were no transfers of financial assets into or out of Level 3 of the hierarchy.

The following section is a description of the valuation techniques and inputs used by the Plan to measure each major class of assets at fair value. During 2024 and 2023, there were no changes to the valuation techniques used by the Plan to measure fair value. The Plan had approximately \$110

Notes to Financial Statements (continued)

million and \$117 million in unfunded commitments related to future private equity investments for the years ended December 31, 2024 and 2023, respectively.

Cash equivalents: Valued at cost, which approximate fair value.

Debt securities: Includes U.S. government securities, which are valued at the closing price reported in the active market in which the individual securities are traded, and corporate-issued and municipal-issued debt securities, which are valued by third-party pricing services using market prices for the instrument or similar instruments.

Corporate stocks: Those traded on a national securities exchange or that are actively traded in local over-the-counter markets are valued at the last reported sales price of the year; those that are actively traded in the national over-the-counter market are valued at the last reported bid price of the year.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

As required by applicable authoritative accounting guidance, the level in the fair value hierarchy within which the fair value measurement of the asset is classified is based on the lowest level of input that is significant to the fair value measurement in its entirety.

5. Accumulated Plan Benefits

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to services rendered by employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries and (b) present employees or their beneficiaries. Benefits under the Plan are based on employees' average compensation and years of credited service, as defined by the Plan. In addition, certain employees have a separate benefit based on their cash balance account. For cash balance accounts, benefits under the Plan are based on the participant's hypothetical account balance. Benefit payments under all circumstances – retirement, death, disability, or termination of employment – are included to the extent they are deemed attributable to employee service rendered up to the valuation date.

The Plan employs an independent actuary to estimate the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The more significant assumptions underlying the actuarial computations in the valuation as of December 31, 2023, used to determine the actuarial present value of accumulated plan benefits are as follows:

Actuarial method

Projected unit cost credit method

Assumed rate of return

7.00 percent (6.75 percent for 2022), both years are net to reflect administrative expenses associated with providing benefits

Mortality table	Pri-2012 Annuitants and non-annuitants table, sex distinct and without collar and MP-2021 base scale with the following two primary parameters: (1) mortality improvements of 1.35 percent for ages up to 62, grading linearly to 1.10 percent at age 80, then grading linearly to 0.40 percent at age 95, and finally grading linearly to 0.00 percent improvement at age 115+ (2) Beginning year for age/period and cohort effects convergence period of 2017, ending year of 2027 and 2037, respectively
Assumed retirement age	Rates varying by age, weighted-average age 63 (63 for 2022)

These actuarial assumptions are based on the presumption that a form of the Plan will continue. If the Plan was to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The accumulated plan benefits information as of the valuation date below is as follows:

6. 401(h) Account

In addition to the normal retirement benefits, the Plan includes a medical benefit component to fund a portion of the postretirement obligations for retirees and their beneficiaries in accordance with Section 401(h) of the Code. A separate account has been established and maintained by the Plan for the net assets related to the medical-benefit component (“401(h) account”). In accordance with the Code, Section 401(h), the Plan’s investments allocated to the 401(h) account may not be used for, or diverted to, any purpose other than providing medical benefits for retirees and their beneficiaries. The related obligations for medical benefits are not included in the Plan’s present value of accumulated plan benefits but are reflected as obligations in the U.S. Bank Comprehensive Welfare Benefit Plan (the “Comprehensive Welfare Plan”). Plan participants do not contribute to the 401(h) account.

Employer contributions or qualified transfers to the 401(h) account are determined annually and are at the discretion of the Company. There were no employer contributions or qualified transfers to the 401(h) account for the year ended December 31, 2024.

8. Transactions with Parties in Interest

The Plan allows for transactions with certain parties who may perform services or have fiduciary responsibilities to the Plan. Parties in interest include the Company and U.S. Bank National Association. Transactions involving funds administered by the Trustee are considered party-in-interest transactions. These transactions are exempt from prohibited transactions under 29 CFR 408(b) of the ERISA regulations.

The Plan invests in a First American Funds, Inc. money market mutual fund, which is managed by the Company.

9. Tax Status

The Plan received a determination letter from the Internal Revenue Service (the “IRS”) dated July 30, 2025, stating the Plan is qualified under Section 401(a) of the Code and therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and therefore, believes that the Plan, is qualified and the related Master Trust is tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan and has concluded there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

10. Subsequent Events

Management has evaluated the impact of events that have occurred subsequent to December 31, 2024, through October 9, 2025, the date the financial statements were available for issuance. Based on this evaluation, there were no events or transactions that occurred during the period that materially impacted the amounts or disclosures in the financial statements of the Plan.

Explanation of Discrepancy in Prior Year Funding Standard Carryover Balance or Prefunding Balance as of January 1, 2024

The prior year Carryover Balance was \$0 on line 13 of the prior-year Schedule SB and is \$35,171,889 on line 7 of the current year Schedule SB. The balance has been adjusted due to the U.S. Bank MUFG Pension Plan merging into the U.S. Bank Legacy Pension Plan immediately following a spin-off of a portion of the U.S. Bank MUFG Pension Plan, effective December 31, 2023. In addition, the interest shown on the Carryover Balance (line 10) is based on a prior year actual return of 8.39% for the U.S. Bank MUFG Pension Plan.

Change in Method

The U.S. Bank MUFG Pension Plan merged into the U.S. Bank Legacy Pension Plan effective December 31, 2023. The allocation of funding balance and actuarial value of assets history for the U.S. Bank MUFG Pension Plan was as outlined in the IRS method change application approved by the IRS on July 2, 2025 (control number 911755961). Though the merger otherwise met automatic approval criteria from Revenue Procedure 2017-56, the IRS did not agree, and a funding method change application was filed on August 27, 2025 illustrating the combination of funding balance and actuarial value of assets history for the two plans.

Explanation of Discrepancy in Prior Year Funding Standard Carryover Balance or Prefunding Balance as of January 1, 2024

The prior year Carryover Balance was \$0 on line 13 of the prior-year Schedule SB and is \$35,171,889 on line 7 of the current year Schedule SB. The balance has been adjusted due to the U.S. Bank MUFG Pension Plan merging into the U.S. Bank Legacy Pension Plan immediately following a spin-off of a portion of the U.S. Bank MUFG Pension Plan, effective December 31, 2023. In addition, the interest shown on the Carryover Balance (line 10) is based on a prior year actual return of 8.39% for the U.S. Bank MUFG Pension Plan.

Form of payment:

FAE annuity benefits:

Single	Part B: Single life annuity Part A: 10-year certain and life annuity Former MUFG: Single life annuity
Married	Part B: 33% assumed to elect a single life annuity, 67% assumed to elect a contingent annuity Part A: 10-year certain and life annuity Former MUFG: Single life annuity

Cash balance benefits (USB pre-2002 and 2010 formulas; Former MUFG balances):

Retirement benefit	67% are assumed to elect a lump sum, 33% are assumed to elect a single life annuity Annuities are calculated from projected account balances using 2023 IRS 417(e)(3) mortality and the effective interest rate for the plan. This is effectively the same as an "annuity substitution" approach as described in IRS Regulation 1.430(d)-1(f)(5). The former MUFG formula annuity conversion rate is the plan prescribed fixed 5%.
Deferred vested benefit	60% are assumed to elect a deferred-to-65 lump sum, 40% are assumed to elect an immediate lump sum
Disability benefit	100% elect a deferred-to-65 lump sum

Percent married

70%. This assumption is used to value pre-retirement surviving spouse benefits and in determining the optional form expected to be elected at commencement.

Spouse age

Wife three years younger than husband

Covered pay

Annualized total pay as of valuation date. For bonus eligible participants, total pay equals projected base pay plus 90% of projected target bonus. No pay is assumed to be deferred in the nonqualified deferred compensation plan.

At-risk assumptions Not calculated for 2024 valuation. For at-risk calculations, all participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the plan, but not before the end of the current plan year, except in accordance with the regular valuation assumptions. In addition, all participants (not just those eligible to begin benefits within the next 11 years) are assumed to elect the most valuable form of benefit under the plan.

Timing of benefit payments Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement (unless otherwise noted).

Methods

Valuation date First day of plan year

Funding target Present value of accrued benefits as required by regulations under IRC §430.

The Traditional Unit Credit Method is used to determine the Funding Target. Under this method, the accrued benefit is calculated based upon service, compensation and Social Security levels as of the valuation date. The Funding Target is the present value of the benefit. The disability accrued benefit is calculated by projecting future cash balance amounts using hypothetical interest and pay credits to Normal Retirement Date (with pay frozen at the valuation date) and then prorating by a factor, with a numerator of current service and denominator of projected service at decrement. Service for prorate purposes is accrued from January 1, 2010, the effective date of the 2010 Cash Balance Benefit or plan/formula entry, if later.

The plan sponsor has purchased irrevocable annuity contracts that have not been distributed to participants and are owned by the Plan; the annuity contract and its covered benefits are excluded for valuation purposes from both the assets and the obligations.

Target normal cost Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during the plan year.

Actuarial value of assets Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable discounted using the effective interest rate for the prior plan year.

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years.

However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued All benefits described in the Plan Provisions section of this report were valued. WTW has reviewed the plan provisions with U.S. Bank and, based on that review, is not aware of any significant benefits required to be valued that were not.

Assumptions Rationale - Significant Economic Assumptions

Cash balance account interest crediting rates	The plan credits interest to cash balance accounts using the 10-year Treasury rate, with a minimum interest credit rate of 3.00%. The assumption for the long-term level of the 10-year Treasury rate is determined based on current rates, as well as historical spreads between high-quality corporate bond rates and Treasury rates. Market conditions at the measurement date and future expectations consistent with other economic assumptions used, including the discount rate, are also considered. The same considerations are also applied to the former MUFG formula balances.
Annuity conversion rate	The cash balance account is valued for employees expected to select annuities. The effective interest rate is used as the long-term assumption for the IRC 417(e)(3) rates, under the principal of annuity substitution.
Lump sum conversion rate	Not applicable – lump sums are only available for the cash balance accounts.
Rates of increase in compensation, National Average Wages (NAW), CPI	Assumed increases were chosen by the plan sponsor and, represent an estimate of future experience. The merit based component of the compensation increase is based on an experience study conducted in 2016, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.
Administrative expenses	Administrative and investment expenses are determined by averaging prior-year expenses for three years, net of PBGC premiums, plus expected PBGC premiums for current year to next \$10,000.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).

Changes in Assumptions and Methods

Change in assumptions since prior valuation

The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of September 2022 to September 2023.

The mortality table used to calculate the funding target and target normal cost was changed from using a static projection of mortality improvement to a generational projection as permitted by guidance issued by IRS under IRC §430

The assumed plan-related expenses added to the target normal cost were changed from \$7,060,000 for the prior valuation to \$7,470,000 for the current valuation.

The interest crediting rate was updated to 4.8% for 2024 and 3.07% thereafter for USB.

The interest crediting rate was updated to 4.66% for 2024 and 3.57% thereafter for MUB

The allocation of funding balance and actuarial value of assets history for the U.S. Bank MUFG Pension Plan was as outlined in the IRS method change application submitted to the IRS on March 15, 2024.

Schedule SB, Part V Summary of Plan Provisions

General

The U.S. Bank Pension Plan was amended to spinoff certain participants as of January 1, 2020 to the U.S. Bank Legacy Pension Plan. The plan provisions remain unchanged following the spinoff, other than a participating employers clarification amendment made in 2022.

Effective at the end of December 31, 2023, the U.S. Bank MUFG Pension Plan was split into component parts that were merged into the U.S. Bank Pension and Legacy Plans. In addition, the U.S. Bank MUFG Pension Plan formula was frozen December 31, 2023 and future accruals for former U.S. Bank MUFG Pension Plan participants are the same as the U.S. Bank Pension Plan formula effective January 1, 2024.

Covered Employees	All employees not covered by the U.S. Bank Legacy Pension Plan
Participation Date	January 1 or July 1 after the date the covered employee attains age 21 and completes one year of service with 1,000 hours.

Definitions

Vesting service	One year of vesting service for each plan year that an employee completes 1,000 hours of service (credited as of the date the employee completes the hours).
Pension service	One year of pension service for each calendar year beginning on or after January 1, 2002 (January 1, 2003, if a prior participant in the Mercantile Plan), during which an employee completes 1,000 hours of service. Service is credited prior to January 1, 2002, if the employee did not participate in a predecessor plan. For participants accruing benefits in the U.S. Bank 2010 Cash Balance Plan, no additional years of pension service are credited after January 1, 2010.
Points service	One year of points service for each plan year that an employee completes 1,000 hours of service (credited as of the date the employee completes the hours).
Base pay	Base pay, including shift differentials, premium pay, vacation and holiday pay, short-term disability pay and elective deferrals. Base pay excludes bonuses, overtime and commissions.
Total pay	Wages within the meaning of Section 3401(a) of the Internal Revenue Code.
Average earnings	The average of the highest five consecutive years of pay out of the final ten calendar year period ending with the last full calendar year prior to termination. Calendar years prior to 2001 and calendar years in which a

Normal retirement date (NRD) The date a participant attains age 65.

Annual pay credits The sum of pay credits from the following table based on the sum of the employee's attained age and Points Service at December 31 of the year:

<i>Age + Service</i>	<i>Pay Credits on Total Pension Pay up to the Social Security Wage Base</i>	<i>Pay Credits on Total Pension Pay Above the Social Security Wage Base</i>
Up to 34	2.0%	4.0%

50 to 64	3.0%	6.0%
65 to 79	4.0%	8.0%
80 and over	5.0%	10.0%

Pension benefit The benefit payable is the sum of the U.S. Bank 2010 Cash Balance Plan benefit and the Parts A and B benefits. For participants who chose the U.S. Bank 2010 Cash Balance Plan in 2009, the Part B benefits are frozen as of January 1, 2010.

A. Benefit based on the participant's plan prior to the January 1, 2002, merger:

Former participant of the U.S. Bank Cash Balance Plan

Account balance as of December 31, 2001, increased with future interest credits based on participant elections subject to a minimum benefit equal to the product of the following five components:

1. The appropriate age factor at date of termination of employment (ranging from 0.28% at age 21 to 10% at age 65 and over).
2. The sum of average total pay for the final five complete plan years of service (final average total pay) ending December 31, 2001, plus the excess of this final average total pay over the Social Security wage base in effect at December 31, 2001.
3. Pension service projected to the later of age 65 or the current age, to a maximum of 20 years.
4. The ratio of pension service at December 31, 2001, to projected pension service at the later of age 65 or the current age.
5. The ratio of final average total pay at date of termination to final average total pay as of December 31, 2001.

For participants from the former U.S. Bank Retirement Plan or West One Bancorp Employee Retirement Plan as of December 31, 1998, who were both at least age 50 and had age plus pension service at least equal to 65 on that date, age is increased by three years to determine the appropriate age factor under 1 above, and the maximum projected pension service under 3 above is 35 years.

Former Participants of the Firststar Employees' Pension Plan:

Accrued benefit on December 31, 2001, multiplied by final average base pay at date of termination divided by final average base pay on December 31, 2001. Final average base pay is the average of base pay for the five consecutive calendar years that produce the highest average. There is a minimum benefit for former participants in the Firststar Plan on December 31, 1998.

Former Participants of the Mercantile Bancorporation, Inc. Retirement Plan:

Account balance as of December 31, 2002, increased with future interest credits.

- B. Benefit under the U.S. Bank Pension Plan beginning January 1, 2002: the greater of 1 or 2:
1. 0.9% of average earnings plus 0.5% of average earnings (total pay) in excess of Covered Compensation, multiplied by pension service earned for periods after December 31, 2001.
 2. 1.2% of average earnings (base pay) multiplied by pension service earned for periods after December 31, 2001.

2010 Cash Balance Benefit:

Benefit under Appendix I of the U.S. Bank Pension Plan beginning January 1, 2010, the sum of 1 and 2 added to any accumulated account balance:

1. Annual pay credit effective as of December 31 of that plan year.
2. Interest credit equal to the greater of 3% or the 10-year Treasury bond rate as of October for the prior calendar year, based on the preceding end-of-year account balance, credited January 1 of the following plan year.

Other Plan Provisions

Forms of payment	Preretirement death benefits are payable only as described above. If the participant has no spouse as of the date payments begin, monthly pension benefits, as described above, are paid in the following forms: ▶ Part B benefits: Life annuity ▶ Firststar Part A benefits: 10-year certain and life annuity ▶ U.S. Bank Cash Balance and Mercantile Part A benefits: Lump sum ▶ U.S. Bank 2010 Cash Balance Plan: Life annuity Otherwise, benefits are paid in the form of a 50% joint and survivor annuity option or, if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the plan. Optional forms for Part B benefits are a 50% joint and survivor annuity, a 75% joint and survivor annuity, a 100% joint and survivor annuity, an estate protection survivor annuity, an estate protection life annuity or (for married participants) a life annuity. Additionally, the U.S. Bank 2010 Cash Balance Plan offers a lump sum option. During 2014 a limited time lump sum “window” was offered to select terminated vested participants.
Maximum on benefits and pay	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are assumed for determining pension cost but not for determining contributions.

Explanation of Discrepancy in Prior Year Funding Standard Carryover Balance or Prefunding Balance as of January 1, 2024

The prior year Carryover Balance was \$0 on line 13 of the prior-year Schedule SB and is \$35,171,889 on line 7 of the current year Schedule SB. The balance has been adjusted due to the U.S. Bank MUFG Pension Plan merging into the U.S. Bank Legacy Pension Plan immediately following a spin-off of a portion of the U.S. Bank MUFG Pension Plan, effective December 31, 2023. In addition, the interest shown on the Carryover Balance (line 10) is based on a prior year actual return of 8.39% for the U.S. Bank MUFG Pension Plan.

Schedule SB, Part V Summary of Plan Provisions

General

The U.S. Bank Pension Plan was amended to spinoff certain participants as of January 1, 2020 to the U.S. Bank Legacy Pension Plan. The plan provisions remain unchanged following the spinoff, other than a participating employers clarification amendment made in 2022.

Effective at the end of December 31, 2023, the U.S. Bank MUFG Pension Plan was split into component parts that were merged into the U.S. Bank Pension and Legacy Plans. In addition, the U.S. Bank MUFG Pension Plan formula was frozen December 31, 2023 and future accruals for former U.S. Bank MUFG Pension Plan participants are the same as the U.S. Bank Pension Plan formula effective January 1, 2024.

Covered Employees	All employees not covered by the U.S. Bank Legacy Pension Plan
Participation Date	January 1 or July 1 after the date the covered employee attains age 21 and completes one year of service with 1,000 hours.

Definitions

Vesting service	One year of vesting service for each plan year that an employee completes 1,000 hours of service (credited as of the date the employee completes the hours).
Pension service	One year of pension service for each calendar year beginning on or after January 1, 2002 (January 1, 2003, if a prior participant in the Mercantile Plan), during which an employee completes 1,000 hours of service. Service is credited prior to January 1, 2002, if the employee did not participate in a predecessor plan. For participants accruing benefits in the U.S. Bank 2010 Cash Balance Plan, no additional years of pension service are credited after January 1, 2010.
Points service	One year of points service for each plan year that an employee completes 1,000 hours of service (credited as of the date the employee completes the hours).
Base pay	Base pay, including shift differentials, premium pay, vacation and holiday pay, short-term disability pay and elective deferrals. Base pay excludes bonuses, overtime and commissions.
Total pay	Wages within the meaning of Section 3401(a) of the Internal Revenue Code.
Average earnings	The average of the highest five consecutive years of pay out of the final ten calendar year period ending with the last full calendar year prior to termination. Calendar years prior to 2001 and calendar years in which a

participant works fewer than 1,000 hours are disregarded. Pay in the calendar year of termination is included, regardless of the length of time or number of hours worked, if it results in a higher average.

Normal retirement date (NRD) The date a participant attains age 65.

Annual pay credits The sum of pay credits from the following table based on the sum of the employee's attained age and Points Service at December 31 of the year:

Age + Service	<i>Pay Credits on Total Pension Pay up to the Social Security Wage Base</i>		<i>Pay Credits on Total Pension Pay Above the Social Security Wage Base</i>	
Up to 34		2.0%		4.0%
35 to 49		2.5%		5.0%
50 to 64		3.0%		6.0%
65 to 79		4.0%		8.0%
80 and over		5.0%		10.0%

Pension benefit The benefit payable is the sum of the U.S. Bank 2010 Cash Balance Plan benefit and the Parts A and B benefits. For participants who chose the U.S. Bank 2010 Cash Balance Plan in 2009, the Part B benefits are frozen as of January 1, 2010.

A. Benefit based on the participant's plan prior to the January 1, 2002, merger:

Former participant of the U.S. Bank Cash Balance Plan

Account balance as of December 31, 2001, increased with future interest credits based on participant elections subject to a minimum benefit equal to the product of the following five components:

1. The appropriate age factor at date of termination of employment (ranging from 0.28% at age 21 to 10% at age 65 and over).
2. The sum of average total pay for the final five complete plan years of service (final average total pay) ending December 31, 2001, plus the excess of this final average total pay over the Social Security wage base in effect at December 31, 2001.
3. Pension service projected to the later of age 65 or the current age, to a maximum of 20 years.
4. The ratio of pension service at December 31, 2001, to projected pension service at the later of age 65 or the current age.
5. The ratio of final average total pay at date of termination to final average total pay as of December 31, 2001.

For participants from the former U.S. Bank Retirement Plan or West One Bancorp Employee Retirement Plan as of December 31, 1998, who were both at least age 50 and had age plus pension service at least equal to 65 on that date, age is increased by three years to determine the appropriate age factor under 1 above, and the maximum projected pension service under 3 above is 35 years.

Former Participants of the Firststar Employees' Pension Plan:

Accrued benefit on December 31, 2001, multiplied by final average base pay at date of termination divided by final average base pay on December 31, 2001. Final average base pay is the average of base pay for the five consecutive calendar years that produce the highest average. There is a minimum benefit for former participants in the Firststar Plan on December 31, 1998.

Former Participants of the Mercantile Bancorporation, Inc. Retirement Plan:

Account balance as of December 31, 2002, increased with future interest credits.

- B. Benefit under the U.S. Bank Pension Plan beginning January 1, 2002: the greater of 1 or 2:
1. 0.9% of average earnings plus 0.5% of average earnings (total pay) in excess of Covered Compensation, multiplied by pension service earned for periods after December 31, 2001.
 2. 1.2% of average earnings (base pay) multiplied by pension service earned for periods after December 31, 2001.

2010 Cash Balance Benefit:

Benefit under Appendix I of the U.S. Bank Pension Plan beginning January 1, 2010, the sum of 1 and 2 added to any accumulated account balance:

1. Annual pay credit effective as of December 31 of that plan year.
2. Interest credit equal to the greater of 3% or the 10-year Treasury bond rate as of October for the prior calendar year, based on the preceding end-of-year account balance, credited January 1 of the following plan year.

Preretirement death	Single participant: Lump sum payment of the present value of the pension benefit at time of death. Married participant: Monthly survivor benefit, plus a lump sum payment equal to the difference between the present value of the pension benefit at the time of death and the present value of the survivor benefit. If the present value of the pension benefit is less than the present value of the survivor benefit, the survivor benefit will be reduced so that the values are equal, and no lump sum will be paid.

Other Plan Provisions

Forms of payment	Preretirement death benefits are payable only as described above. If the participant has no spouse as of the date payments begin, monthly pension benefits, as described above, are paid in the following forms: ▶ Part B benefits: Life annuity ▶ Firststar Part A benefits: 10-year certain and life annuity ▶ U.S. Bank Cash Balance and Mercantile Part A benefits: Lump sum ▶ U.S. Bank 2010 Cash Balance Plan: Life annuity Otherwise, benefits are paid in the form of a 50% joint and survivor annuity option or, if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the plan. Optional forms for Part B benefits are a 50% joint and survivor annuity, a 75% joint and survivor annuity, a 100% joint and survivor annuity, an estate protection survivor annuity, an estate protection life annuity or (for married participants) a life annuity. Additionally, the U.S. Bank 2010 Cash Balance Plan offers a lump sum option. During 2014 a limited time lump sum "window" was offered to select terminated vested participants.
Maximum on benefits and pay	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are assumed for determining pension cost but not for determining contributions.

Future Plan Changes

WTW is not aware of any future plan changes which are required to be reflected.

Changes in Benefits Valued Since Prior Year

There have been no changes in benefits valued since the prior year other than the addition of the former MUFG participants into this plan.

Change in Method

The U.S. Bank MUFG Pension Plan merged into the U.S. Bank Legacy Pension Plan effective December 31, 2023. The allocation of funding balance and actuarial value of assets history for the U.S. Bank MUFG Pension Plan was as outlined in the IRS method change application approved by the IRS on July 2, 2025 (control number 911755961). Though the merger otherwise met automatic approval criteria from Revenue Procedure 2017-56, the IRS did not agree, and a funding method change application was filed on August 27, 2025 illustrating the combination of funding balance and actuarial value of assets history for the two plans.
