Report of Independent Auditors

To the Administrator of the
Savings Plan of Cravath, Swaine & Moore LLP:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the accompanying financial statements of the Savings Plan of Cravath, Swaine & Moore LLP (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, including the related notes (collectively referred to as the "financial statements").

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023 and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental Schedule H, line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2024 ("supplemental schedule"), is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with US GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. In our opinion

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Savings Plan of Cravath, Swaine & Moore LLP

Notes to Financial Statements

December 31, 2024 and 2023

1. Description of the Plan

The following description of the Savings Plan of Cravath, Swaine & Moore LLP (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended. The Plan is sponsored by Cravath, Swaine & Moore LLP (the “Firm”) and is administered by an Administrative Committee (the “Committee”) consisting of no less than three partners appointed by the Firm. Assets are held and administered by Fidelity Management Trust Company (the “Trustee”).

Participation

Under the provisions of the Plan, administrative employees are eligible to make deferred (pre-tax), Roth (after-tax) and voluntary (after-tax) contributions as of their initial date of employment. After two years of service, administrative employees are eligible to have non-elective Firm contributions made on their behalf as described below.

On October 1, 2007, the Firm voted to amend the Plan and close it to future participants. No administrative employees hired or rehired on or after January 1, 2008, are eligible for participation in the Plan. This amendment had no effect on benefits for administrative employees hired prior to January 1, 2008.

Administrative employees hired or rehired on or after January 1, 2008, are eligible to participate in a separate defined contribution plan.

Master Trust

The assets of the Plan are maintained, for investment purposes only, on a commingled basis with the assets of the Savings Plan for Senior Attorneys and Associates of Cravath, Swaine & Moore LLP; the Retirement Plan of Cravath, Swaine & Moore LLP; and the Savings Plan 2 for Administrative Staff of Cravath, Swaine & Moore LLP in the Cravath, Swaine & Moore LLP Savings Plan Master Trust (the “Master Trust”). The plans do not own specific Master Trust assets but rather maintain individual beneficial interests in such assets. The portion of fund assets allocable to each plan is based upon the participants’ account balances within each plan. Investment income for each fund, and administrative expenses relating to the Master Trust, are allocated to each plan based on the relationship of each plan’s beneficial interest in the fund to the total beneficial interest of all plans in the fund.

Contributions

Subject to eligibility requirements, the Plan provides for a non-elective Firm contribution equal to the greater of 8% of each administrative employee’s salary for the year (excluding overtime and bonuses) and to provide for a 50% matching contribution of participant contributions up to 5% of their salary (up to \$345,000 in 2024). A participant’s aggregate deferred and Roth contributions are generally limited to the lesser of \$23,000 for 2024, or 100% of their total compensation. Additional after-tax contributions can be made to the extent that the total contributions for the year do not exceed the lesser of \$69,000 for 2024, or 100% of total annual compensation. In addition to the foregoing, participants who will attain age 50 by the end of the plan year may be able to make additional catch-up contributions in excess of the above limits. At the participant’s discretion, the contributions made on behalf of or by the participant may be invested in any of the Plan’s investment options.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Firm contribution and an allocation of Plan earnings. The allocation is based on participants' account balances, as defined in the Plan document.

Vesting

A participant's interest in his or her account balance is at all times fully vested.

Transfers

Transfers to other plans participating in the Master Trust may occur due to a change in employee status.

Investment Options

Upon enrollment in the Plan, a participant may direct contributions to any of the following investment options within the Master Trust.

Privately Managed Funds

The Plan provides privately managed funds as investment options. These funds invest primarily in common stocks and short-term securities and are privately managed for the Master Trust.

Mutual Funds

The Plan provides various mutual fund options including a money market mutual fund, a balanced fund, bond funds, target date funds and common stock funds.

BrokerageLink Funds

The Plan allows participants to invest in mutual funds and exchange-traded funds (ETFs) available on the Trustee's investment platform ("BrokerageLink funds").

Participants may generally make daily transfers between funds based on the value of the participants' accounts.

Notes Receivable from Participants

A participant may borrow from his or her account a minimum of \$1,000 up to the lesser of one-half of the participant's account balance or \$50,000. The term of the loan may not exceed five years, unless the proceeds are used to purchase the principal residence of the participant whereby the term of the loan may not exceed ten years. Loans are secured by a participant's vested interest in the Plan. A participant may provide a mortgage on a personal residence as additional security for a loan. Loans bear interest at one percentage point above the U.S. prime interest rate as published by Reuters on the first business day of the month preceding the calendar quarter during which the loan is made and the rate remains fixed for the term of the loan. For loans outstanding at December 31, 2024 and 2023, the interest rates ranged from 4.25% to 9.50%.

Payment of Benefits

Following retirement, death or termination of employment, the entire vested amount of a participant's account balance may be distributed at the election of the participant (or beneficiary). A participant (or in the event of a participant's death, his or her beneficiary) may elect to receive distributions in: (i) installments over a stated period of time; (ii) a single lump-sum payment; or (iii) any combination of a lump-sum and installment payments.

Notes to Financial Statements

December 31, 2024 and 2023

Withdrawals

In-service withdrawals may be made in the event of hardship prior to termination in accordance with the standards set forth in the Plan, and, under certain circumstances, at the election of the participant during employment. Such withdrawals are based upon the value of each participant's account balance as of the valuation date immediately preceding such withdrawals.

Merger

Effective October 1, 2025, Savings Plan 2 for Administrative Staff of Cravath, Swaine & Moore LLP ("Savings Plan 2") was merged into the Plan. The merger was executed to consolidate retirement plan administration and enhance operational efficiency. As a result of the merger, all assets and liabilities of Savings Plan 2 were transferred into the Plan at fair value. Participants in Savings Plan 2 became participants of the Plan with no interruption in benefits or account balances. The merger did not result in any loss of participant rights or benefits, and all transferred assets remain subject to the same vesting and distribution provisions as under Savings Plan 2.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are presented on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the Plan administrator to make significant estimates and assumptions that affect the reported amounts of net assets available for plan benefits at the date of the financial statements and the changes in net assets available for plan benefits during the reporting period and, when applicable, disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for various investment options that are exposed to an assortment of risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Investment Valuation and Income Recognition

Valuation of investments of the Plan represents the Plan's allocable portion of the Master Trust. The Master Trust's investments are valued at the fair value of shares held by the Master Trust. Notes receivable from participants are measured at their unpaid balance including accrued, but unpaid, interest. Based on the terms of the Plan, delinquent notes receivable from participants are reclassified as deemed distributions and are included as benefits paid in the statement of changes in net assets available for benefits.

Purchases and sales of securities in the Master Trust are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The net appreciation/depreciation in market value of investments in the Master Trust is based on the beginning of the year market value or value at the time of purchase during the year compared to the market value at the end of the year, and is included in the statement of changes in net assets available for benefits.

Savings Plan of Cravath, Swaine & Moore LLP

Notes to Financial Statements

December 31, 2024 and 2023

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses are paid by the Plan and charged to participant accounts unless voluntarily paid by the Firm.

3. Party-In-Interest Transactions

Master Trust investments include certain mutual fund shares that are managed by the Trustee, and therefore, qualify as party-in-interest transactions.

4. Tax Status

The Plan received an updated favorable tax determination letter dated August 9, 2017, in which the Internal Revenue Service (“IRS”) stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code of 1986 (“IRC”). The Plan administrator and the Plan’s legal counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan’s financial statements. The IRS reserves the right to perform a review of the Plan’s tax status.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or the Department of Labor. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024 and 2023, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to tax examinations for years prior to 2021.

5. Plan Termination

Although it has not expressed an intent to do so, the Firm has the right under the Plan document to discontinue its contributions and to amend or terminate the Plan at any time, subject to the provisions of ERISA. In the event of termination, to the extent permitted by law, participants or their beneficiaries shall receive lump-sum payments in amounts equal to the value of their accounts in the Plan.

8. Fair Value Measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, "Fair Value Measurements and Disclosures," ("FASB ASC 820") establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of assurance of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

There were no transfers in or out of Level 1, Level 2, or Level 3 fair value measurement categories during the periods presented.

Savings Plan of Cravath, Swaine & Moore LLP

Notes to Financial Statements

December 31, 2024 and 2023

Following is a description of the valuation methodologies used for assets measured at fair value, including the general classification of such assets pursuant to the valuation hierarchy.

Privately managed funds: Valued at the closing price reported on the active market on which the underlying individual securities are traded. If quoted market prices are not available for the underlying assets, then the fair values are estimates based on an evaluation of observable inputs. Each privately managed fund's net asset value is calculated as of the close of business each trading day.

Mutual funds: A registered investment company's Net Asset Value (NAV) is based on the value of underlying assets owned by the fund minus its liabilities and then divided by the number of shares outstanding calculated as of the close of business of the New York Stock Exchange. The fund's assets normally are valued as of this time for the purpose of computing the fund's NAV. Since the NAV is a quoted price in a market that is active, they are classified within Level 1 of the valuation hierarchy.

BrokerageLink funds: Mutual funds are valued at the NAV of shares held by the plan at year end. ETFs are valued at the closing price reported on the active market on which the ETFs are traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Master Trust's investments at fair value as of December 31, 2024:

	Level 1	Level 2	Level 3	Total

Report of Independent Auditors

To the Administrator of the
Savings Plan of Cravath, Swaine & Moore LLP:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the accompanying financial statements of the Savings Plan of Cravath, Swaine & Moore LLP (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, including the related notes (collectively referred to as the "financial statements").

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023 and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental Schedule H, line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2024 ("supplemental schedule"), is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with US GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. In our opinion

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Savings Plan of Cravath, Swaine & Moore LLP

Notes to Financial Statements

December 31, 2024 and 2023

1. Description of the Plan

The following description of the Savings Plan of Cravath, Swaine & Moore LLP (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended. The Plan is sponsored by Cravath, Swaine & Moore LLP (the “Firm”) and is administered by an Administrative Committee (the “Committee”) consisting of no less than three partners appointed by the Firm. Assets are held and administered by Fidelity Management Trust Company (the “Trustee”).

Participation

Under the provisions of the Plan, administrative employees are eligible to make deferred (pre-tax), Roth (after-tax) and voluntary (after-tax) contributions as of their initial date of employment. After two years of service, administrative employees are eligible to have non-elective Firm contributions made on their behalf as described below.

On October 1, 2007, the Firm voted to amend the Plan and close it to future participants. No administrative employees hired or rehired on or after January 1, 2008, are eligible for participation in the Plan. This amendment had no effect on benefits for administrative employees hired prior to January 1, 2008.

Administrative employees hired or rehired on or after January 1, 2008, are eligible to participate in a separate defined contribution plan.

Master Trust

The assets of the Plan are maintained, for investment purposes only, on a commingled basis with the assets of the Savings Plan for Senior Attorneys and Associates of Cravath, Swaine & Moore LLP; the Retirement Plan of Cravath, Swaine & Moore LLP; and the Savings Plan 2 for Administrative Staff of Cravath, Swaine & Moore LLP in the Cravath, Swaine & Moore LLP Savings Plan Master Trust (the “Master Trust”). The plans do not own specific Master Trust assets but rather maintain individual beneficial interests in such assets. The portion of fund assets allocable to each plan is based upon the participants’ account balances within each plan. Investment income for each fund, and administrative expenses relating to the Master Trust, are allocated to each plan based on the relationship of each plan’s beneficial interest in the fund to the total beneficial interest of all plans in the fund.

Contributions

Subject to eligibility requirements, the Plan provides for a non-elective Firm contribution equal to the greater of 8% of each administrative employee’s salary for the year (excluding overtime and bonuses) and to provide for a 50% matching contribution of participant contributions up to 5% of their salary (up to \$345,000 in 2024). A participant’s aggregate deferred and Roth contributions are generally limited to the lesser of \$23,000 for 2024, or 100% of their total compensation. Additional after-tax contributions can be made to the extent that the total contributions for the year do not exceed the lesser of \$69,000 for 2024, or 100% of total annual compensation. In addition to the foregoing, participants who will attain age 50 by the end of the plan year may be able to make additional catch-up contributions in excess of the above limits. At the participant’s discretion, the contributions made on behalf of or by the participant may be invested in any of the Plan’s investment options.

Notes to Financial Statements

December 31, 2024 and 2023

Participant Accounts

Each participant's account is credited with the participant's contribution, the Firm contribution and an allocation of Plan earnings. The allocation is based on participants' account balances, as defined in the Plan document.

Vesting

A participant's interest in his or her account balance is at all times fully vested.

Transfers

Transfers to other plans participating in the Master Trust may occur due to a change in employee status.

Investment Options

Upon enrollment in the Plan, a participant may direct contributions to any of the following investment options within the Master Trust.

Privately Managed Funds

The Plan provides privately managed funds as investment options. These funds invest primarily in common stocks and short-term securities and are privately managed for the Master Trust.

Mutual Funds

The Plan provides various mutual fund options including a money market mutual fund, a balanced fund, bond funds, target date funds and common stock funds.

BrokerageLink Funds

The Plan allows participants to invest in mutual funds and exchange-traded funds (ETFs) available on the Trustee's investment platform ("BrokerageLink funds").

Participants may generally make daily transfers between funds based on the value of the participants' accounts.

Notes Receivable from Participants

A participant may borrow from his or her account a minimum of \$1,000 up to the lesser of one-half of the participant's account balance or \$50,000. The term of the loan may not exceed five years, unless the proceeds are used to purchase the principal residence of the participant whereby the term of the loan may not exceed ten years. Loans are secured by a participant's vested interest in the Plan. A participant may provide a mortgage on a personal residence as additional security for a loan. Loans bear interest at one percentage point above the U.S. prime interest rate as published by Reuters on the first business day of the month preceding the calendar quarter during which the loan is made and the rate remains fixed for the term of the loan. For loans outstanding at December 31, 2024 and 2023, the interest rates ranged from 4.25% to 9.50%.

Payment of Benefits

Following retirement, death or termination of employment, the entire vested amount of a participant's account balance may be distributed at the election of the participant (or beneficiary). A participant (or in the event of a participant's death, his or her beneficiary) may elect to receive distributions in: (i) installments over a stated period of time; (ii) a single lump-sum payment; or (iii) any combination of a lump-sum and installment payments.

Notes to Financial Statements

December 31, 2024 and 2023

Withdrawals

In-service withdrawals may be made in the event of hardship prior to termination in accordance with the standards set forth in the Plan, and, under certain circumstances, at the election of the participant during employment. Such withdrawals are based upon the value of each participant's account balance as of the valuation date immediately preceding such withdrawals.

Merger

Effective October 1, 2025, Savings Plan 2 for Administrative Staff of Cravath, Swaine & Moore LLP ("Savings Plan 2") was merged into the Plan. The merger was executed to consolidate retirement plan administration and enhance operational efficiency. As a result of the merger, all assets and liabilities of Savings Plan 2 were transferred into the Plan at fair value. Participants in Savings Plan 2 became participants of the Plan with no interruption in benefits or account balances. The merger did not result in any loss of participant rights or benefits, and all transferred assets remain subject to the same vesting and distribution provisions as under Savings Plan 2.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are presented on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the Plan administrator to make significant estimates and assumptions that affect the reported amounts of net assets available for plan benefits at the date of the financial statements and the changes in net assets available for plan benefits during the reporting period and, when applicable, disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for various investment options that are exposed to an assortment of risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Investment Valuation and Income Recognition

Valuation of investments of the Plan represents the Plan's allocable portion of the Master Trust. The Master Trust's investments are valued at the fair value of shares held by the Master Trust. Notes receivable from participants are measured at their unpaid balance including accrued, but unpaid, interest. Based on the terms of the Plan, delinquent notes receivable from participants are reclassified as deemed distributions and are included as benefits paid in the statement of changes in net assets available for benefits.

Purchases and sales of securities in the Master Trust are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The net appreciation/depreciation in market value of investments in the Master Trust is based on the beginning of the year market value or value at the time of purchase during the year compared to the market value at the end of the year, and is included in the statement of changes in net assets available for benefits.

Savings Plan of Cravath, Swaine & Moore LLP

Notes to Financial Statements

December 31, 2024 and 2023

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses are paid by the Plan and charged to participant accounts unless voluntarily paid by the Firm.

3. Party-In-Interest Transactions

Master Trust investments include certain mutual fund shares that are managed by the Trustee, and therefore, qualify as party-in-interest transactions.

4. Tax Status

The Plan received an updated favorable tax determination letter dated August 9, 2017, in which the Internal Revenue Service (“IRS”) stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code of 1986 (“IRC”). The Plan administrator and the Plan’s legal counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan’s financial statements. The IRS reserves the right to perform a review of the Plan’s tax status.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or the Department of Labor. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024 and 2023, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to tax examinations for years prior to 2021.

5. Plan Termination

Although it has not expressed an intent to do so, the Firm has the right under the Plan document to discontinue its contributions and to amend or terminate the Plan at any time, subject to the provisions of ERISA. In the event of termination, to the extent permitted by law, participants or their beneficiaries shall receive lump-sum payments in amounts equal to the value of their accounts in the Plan.

6. Certification by the Trustee

In accordance with 29 CFR 2520.103-5 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA, the Trustee has certified that the schedule of assets (held at end of year), investment information, related investment income and the allocation for the Plan thereof, which has been used to prepare the Plan’s financial statements and notes, is complete and accurate. The following is a summary of the Plan’s certified financial information included in the Plan’s financial statements and supplemental schedule as of December 31, 2024 and 2023, respectively, and for the year ended December 31, 2024.

8. Fair Value Measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, "Fair Value Measurements and Disclosures," ("FASB ASC 820") establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of assurance of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

There were no transfers in or out of Level 1, Level 2, or Level 3 fair value measurement categories during the periods presented.

Savings Plan of Cravath, Swaine & Moore LLP

Notes to Financial Statements

December 31, 2024 and 2023

Following is a description of the valuation methodologies used for assets measured at fair value, including the general classification of such assets pursuant to the valuation hierarchy.

Privately managed funds: Valued at the closing price reported on the active market on which the underlying individual securities are traded. If quoted market prices are not available for the underlying assets, then the fair values are estimates based on an evaluation of observable inputs. Each privately managed fund's net asset value is calculated as of the close of business each trading day.

Mutual funds: A registered investment company's Net Asset Value (NAV) is based on the value of underlying assets owned by the fund minus its liabilities and then divided by the number of shares outstanding calculated as of the close of business of the New York Stock Exchange. The fund's assets normally are valued as of this time for the purpose of computing the fund's NAV. Since the NAV is a quoted price in a market that is active, they are classified within Level 1 of the valuation hierarchy.

BrokerageLink funds: Mutual funds are valued at the NAV of shares held by the plan at year end. ETFs are valued at the closing price reported on the active market on which the ETFs are traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Master Trust's investments at fair value as of December 31, 2024:
