Independent Auditors' Report

To the Trustees and Plan Administrator
The Pension Plan for Hourly Employees of True Temper Sports, Inc.
Represented by the United Steelworkers of America

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed the audits of the financial statements of The Pension Plan for Hourly Employees of True Temper Sports, Inc. Represented by the United Steelworkers of America (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in note 3 to the financial statements, is complete and accurate.

Basis for Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on these financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2024 and Schedule of Reportable Transactions for the year ended December 31, 2024, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including its form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note 1 - Description of Plan

The following description of The Pension Plan for Hourly Employees of True Temper Sports, Inc. Represented by the United Steelworkers of America (the "Plan") provides only general information. Participants should refer to the plan document or the summary plan description for a more complete description of the Plan's provisions, which are available from the plan administrator.

General

The Plan is a defined benefit plan sponsored by True Temper Sports, Inc. (the "Company"). Participants in the Plan include substantially all hourly employees located at the Amory plant of the Company covered by a collective bargaining agreement. Participation in the Plan began automatically on the first day of employment with the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Plan is administered by the trustee, who has overall responsibility for the operation and administration of the Plan. The trustee determines the appropriateness of the Plan's investment offerings and monitors investment performance.

The Company executed an amendment in 2015 to freeze accrued benefits of all employees under the Plan effective January 1, 2016. For purposes of computing a participant's retirement benefit, years of credited service were frozen as of January 1, 2016. However, a participant continues to accrue additional years of service beyond January 1, 2016 for vesting purposes only. Employees hired after January 1, 2016 are not eligible to participate in the Plan.

Pension benefits

The amount of a participant's benefit is computed based upon date of retirement or termination and years of credited service, as defined. The Plan permits reduced benefits for certain participants electing early retirement as defined in the plan document. Benefits become vested after a participant has five years of service. Distributions are paid in the form of a lump-sum payment or monthly annuity payments as defined in the plan document.

The normal retirement date is the first day of the month, which coincides with or follows a participant attaining the age of 65. For participants terminating, the amount of annual benefit to be paid on normal retirement equals a base amount of \$348 per year multiplied by the number of years of continuous service, as defined, reduced by benefit payments received from public pension plans other than those related to Type II Social Security payments, other True Temper pension plans and workers compensation disability payments. Early retirement benefits are available as early as age 50 if participants have obtained fifteen years of continuous service whose combined age and years of continuous service equal 70 or more. Normal or early retirement benefits, as defined, are available for participants upon death or permanent disability, as defined. As of January 18, 2013, the Plan's definition of "Gross Pay" was amended, the definition now includes any amounts paid within two and a half months after severance from employment or the end of the

limitation year that includes severance from employment provided that (a) such payment would have been paid to the employee if the employee had remained employed with the employer and (b) the amounts are paid for regular compensation for services during the employee's regular working hours, compensation for services outside the employee's regular working hours, commission, bonuses, or other similar compensation.

Death and disability benefits

If an active participant dies, the participant's surviving spouse or designated beneficiary is entitled to a death benefit as defined in the plan document. Active participants who become totally and permanently disabled and who have attained five years of credited service are entitled to receive monthly disability benefits as defined in the plan document.

Note 2 - Summary of significant accounting policies

Basis of accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, disclosures of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Accordingly, actual results may differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The trustee determines the Plan's valuation policies utilizing information provided by the investment custodians. See note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits

Benefits are recorded when paid.

Notes to Financial Statements (Continued)
December 31, 2024 and 2023

Note 2 - Summary of significant accounting policies (continued)

Administrative expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation of fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

Note 3 - Information prepared and certified by the trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Truist Bank, the trustee for the Plan, has certified that the following data included in the accompanying financial statements and the supplemental schedules is complete and accurate.

- Investments at fair value
- Accrued interest and dividends
- Net appreciation in fair value of investments
- Interest and dividend income
- Schedule of assets (held at end of year)
- Schedule of reportable transactions

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and the supplemental schedules.

Note 4 - Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under the FASB ASC 820 are described below.

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

**THE PENSION PLAN FOR HOURLY EMPLOYEES OF TRUE TEMPER SPORTS, INC.
REPRESENTED BY THE UNITED STEELWORKERS OF AMERICA**

Notes to Financial Statements (Continued)
December 31, 2024 and 2023

Note 4 - Fair value measurements (continued)

Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used as of December 31, 2024 and 2023.

Exchange traded funds: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the daily closing price as reported by the funds. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Money market fund: Valued at cost which approximates fair value.

Limited partnership: The limited partnership consists of an investment in Pointer, Offshore III Limited Class AR Series 1 Class A. The Plan's investment in the limited partnership is valued at the net asset value (NAV) of the Plan's proportional interest in the limited partnership's capital. The NAV, as provided by the limited partnership, is used as a practical expedient to estimating fair value. The estimated fair value of the limited partnership is determined by the investment managers. In determining fair value, the investment managers of the limited partnership utilize the estimated net asset valuations of the underlying investment entities. The underlying investment entities value securities and other financial instruments on a mark-to-market or estimated fair value basis. The estimated fair value is determined by the investment managers based upon, among other things, the type of investments, purchase price, marketability, current financial condition, operating results, and other information.

The following tables summarize investments for which fair value is based on NAV per share practical expedient as of December 31, 2024 and 2023, respectively. Other than disclosed below, there are no participant redemption restrictions for these investments; the redemption notice period is applicable to the Plan.

Note 5 - Actuarial present value of accumulated plan benefits

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service rendered by employees to the freeze date. Accumulated plan benefits include benefits expected to be paid to retired or terminated employees or their beneficiaries, beneficiaries of employees who have died, and present employees or their beneficiaries. The accumulated plan benefits are based upon the date of retirement or termination and credited service, as defined in the plan document. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included, to the extent they are deemed attributable to employee service rendered to the freeze date.

The actuarial present value of the accumulated plan benefits is determined by the Plan's independent actuary, and is the amount that results from applying actuarial assumptions to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment. The computation of the actuarial present value of accumulated plan benefits was made as of January 1, 2024. Had the valuation been performed as of December 31, 2023, there would be no material difference.

**THE PENSION PLAN FOR HOURLY EMPLOYEES OF TRUE TEMPER SPORTS, INC.
REPRESENTED BY THE UNITED STEELWORKERS OF AMERICA**

Notes to Financial Statements (Continued)
December 31, 2024 and 2023

Note 5 - Actuarial present value of accumulated plan benefits (continued)

The actuarial present value of accumulated plan benefits as of January 1, 2024 is as follows:

Vested benefits	
Participants and beneficiaries currently receiving payments	\$ 24,758,518
Participants entitled to deferred benefits	3,002,498
Active participants	<u>7,712,981</u>
	35,473,997
Non-vested accumulated benefits	<u>854,134</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 36,328,131</u>

The changes in the actuarial present value of accumulated plan benefits are as follows:

Actuarial present value of accumulated plan benefits as of beginning of prior year	\$ 35,131,574
Benefits accumulated (including actuarial gains and losses)	533,486
Interest due to decrease in discount period	1,992,879
Benefits paid	(2,499,625)
Changes in assumptions	<u>1,169,817</u>
Actuarial present value of accumulated plan benefits as of beginning of current year	<u>\$ 36,328,131</u>

The more significant assumptions used by the actuaries in their valuation are as follows:

- Funding method - as prescribed in IRC Section 430
- Actuarial cost method - projected unit credit method
- Asset valuation - fair market value of assets
- Interest rate - 5.55%; previously 5.90%
- Normal retirement age - 65
- Basis of accumulated plan benefits - credit years of service, benefit formula
- Mortality rates - PRI 2012 blue collar, retiree, current beneficiary and employee generational table with MP-2021 generational projection scale.

**THE PENSION PLAN FOR HOURLY EMPLOYEES OF TRUE TEMPER SPORTS, INC.
REPRESENTED BY THE UNITED STEELWORKERS OF AMERICA**

Notes to Financial Statements (Continued)
December 31, 2024 and 2023

Note 5 - Actuarial present value of accumulated plan benefits (continued)

Changes in actuarial assumptions include the following:

Interest discounts and mortality rates were updated from 2023 to 2024 in accordance with PPA, reflecting relief provided by the American Rescue Plan Act (ARPA)
A change in the discount rate from 5.21% to 4.96%

The foregoing actuarial assumptions are based upon the presumption that the Plan will continue. If the Plan were terminated, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Note 6 - Funding policy

The Plan's funding policy is to make contributions to the Plan in the amounts that are estimated to fully provide all accrued benefits by the time each participant retires and to meet the minimum funding requirements of ERISA. The Company's contributions are to be made in cash no later than the earlier of the date permitted by law for meeting the minimum funding standards or the date for making tax deductible contributions. Company contributions to the Plan are based upon actuarially determined amounts necessary to provide benefits earned during the year and to amortize prior service liability in accordance with the minimum funding requirements of ERISA. The Company made contributions of \$1,351,561 for 2024 and \$1,270,439 for 2023. The Company's contributions for 2024 and 2023 exceeded or met the minimum funding requirements of ERISA.

Note 7 - Related party transactions and party-in-interest transactions

Truist Bank is the trustee as defined by the Plan and provides certain recordkeeping and administrative services. These services qualify as party-in-interest transactions. Fees paid directly by the Plan to parties-in-interest or other service providers for administrative expenses totaled \$215,344 in 2024 and \$289,951 in 2023. The plan sponsor pays directly any other fees related to the Plan's operations.

Note 8 - Plan termination

Although the Company has not expressed the intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA and the plan document.

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

**THE PENSION PLAN FOR HOURLY EMPLOYEES OF TRUE TEMPER SPORTS, INC.
REPRESENTED BY THE UNITED STEELWORKERS OF AMERICA**

Notes to Financial Statements (Continued)
December 31, 2024 and 2023

Note 8 - Plan termination (continued)

- a. Vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations discussed below
- b. Vested benefits not insured by the PBGC
- c. All nonvested benefits

Certain benefits under the Plan are insured by the PBGC if the plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor pensions. However, the PBGC does not guarantee all types of benefits and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

Note 9 - Tax status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated January 29, 2016, stating that the Plan is qualified under the applicable sections of the Internal Revenue Code (IRC) and is therefore, not subject to tax under present income tax law. Plan management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress for any tax periods.

Note 10 - Risks, uncertainties, and concentrations

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

**THE PENSION PLAN FOR HOURLY EMPLOYEES OF TRUE TEMPER SPORTS, INC.
REPRESENTED BY THE UNITED STEELWORKERS OF AMERICA**

Notes to Financial Statements (Continued)
December 31, 2024 and 2023

Note 10 - Risks and uncertainties (continued)

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based upon certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

As of December 31, 2024 and 2023, the Vanguard Institutional Index Fund was approximately 40% and 28% of total net assets available for benefits, respectively. As of December 31, 2024, the Dodge & Cox Income Fund was approximately 17% of total net assets available for benefits.

Note 11 - Subsequent events

Plan management has evaluated subsequent events through October 8, 2025, which is the date that the financial statements were available to be issued. No significant matters were identified for disclosure.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Actuarial assumptions for January 1, 2024**

Discount rate sponsor elections		
• Segment rates or full yield curve	Segment	
• Look-back months	4	
	<u>Stabilized</u>	<u>Nonstabilized</u>
• First 5 years	4.75%	3.62%
• Next 15 years	4.87%	4.46%
• Over 20 years	5.59%	4.52%
Mortality sponsor elections		
• Healthy participants	Section 430(h)(3) prescribed generational annuitant and nonannuitant mortality tables for 2024 plan year funding valuations, in accordance with IRS regulation 1.430(h)(3)-1.	
• Pre-1995 disabilities	Revenue Ruling 96-7 table for participants who became disabled before 1995.	
• Post-1994 disabilities	Revenue Ruling 96-7 table for participants who became disabled after 1994 and are eligible for Social Security disability benefits.	
Other economic assumptions		
• Salary increases	3.00% per year	
• Expected investment return	6.50% per year for 2022, 7.25% per year for 2023, 7.00% per year for 2024	
• Expenses	\$570,000 added to current year normal cost	

Rationale for economic assumptions

- **Expected investment return** – The expected investment return on plan assets is based on a blend of the hypothetical past performance of the plan’s 70% equities/ 20% fixed income/ 10% alternatives asset mix, adjusted for current market conditions, and the median simulated investment return using capital market assumptions published in Mercer Investment Consulting’s Capital Markets Outlook for the plan’s 70% equities/ 20% fixed income/ 10% alternatives asset mix. The expected return on assets assumption is net of an adjustment of 11 bps for investment expenses assumed to be paid from plan assets.
- **Expenses** – Administrative expenses are assumed to be the same as the administrative expenses paid from the trust during the prior year net of prior year PBGC premium but inclusive of estimated current year PBGC premium, rounded up to the next higher \$1,000.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Demographic assumptions

- **Withdrawal** See table of sample rates for those not eligible for unreduced retirement benefits who are assumed to begin payment at age 65

- **Disability incidence** 1985 Pension Disability Table Class 1. See table of sample rates. 50% of active participants becoming disabled are assumed to become eligible for an old age benefit under the provisions of Title II of the Social Security Act.

- **Retirement age** After eligibility for 30-Year Retirement, 62/15 Retirement, or Normal Retirement:

Attained age	Percentage Retirement
54 and younger	0%
55-58	5
59-61	10
62-69	40
70 and older	100

- **Benefit commencement age for**
 - Future vested deferred 65
 - Current vested deferred 65

Spouse assumptions	Male participants	Female participants
— Percentage married	85%	50%
— Spouse age difference	3 years younger	3 years older

Form of payment	Single life	50% J&S	100% J&S
• Active retirements	33.33%	33.33%	33.33%
• Future vested deferred	33.33%	33.33%	33.33%
• Future disabilities	100%	0%	0%
• Future deaths	0%	0%	100%
• Current vested deferred	33.33%	33.33%	33.33%

Unpredictable contingent event assumptions The valuation does not value the plan’s unpredictable contingent event benefits because the likelihood of the event is de minimus.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Table of sample rates**

70	7.33%	5.13%	0.00%	0.00%	0.80%

Rationale for Demographic Assumptions

- **Withdrawal** – Withdrawal rates were developed based on an experience study undertaken in 2014 using data from 2009-2013. The plan sponsor believes that this period will be representative of anticipated future experience. The assumption is reviewed periodically for reasonability.
- **Retirement age** – The retirement rates are based on an experience study undertaken in 2014 using data from 2009-2013 and the expectation that the future retirement patterns and circumstances of the employer will not differ significantly from the period studied. The assumption is reviewed periodically for reasonability.
- **Spouse assumptions** – Because the employer does not have enough credible experience to analyze spousal demographics, the assumptions regarding percent married/spouse age difference at benefit commencement are based on the actuary's experience with many plans and discussions with employer representatives.
- **Form of payment** – The form of payment assumption was based on an evaluation of the plan's experience using all current in payment participants as of January 1, 2016.

Actuarial methods for funding**Asset methods**

The asset valuation method is an average of the adjusted market value for each year during the last 2 years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant Methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum Funding Methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual are the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- This plan provides disability/death benefits that are only partially based on a participant's accrued benefit or years of service. This benefit is allocated to funding target based on the accrued benefit on the valuation date plus a portion of the excess of the benefit over the accrued benefit multiplied by the ratio of the participant's service at the beginning of the plan year to their service at each decrement age. This benefit is allocated to target normal cost based on the proportionate benefit attributable to the increase in the participant's service and compensation during the plan year.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Schedule SB, Part V — Summary of Plan Provisions

Summary of major plan provisions

Effective date and plan year	Original plan: January 1, 1999 Restated plan: January 1, 2002 Plan year: January 1 through December 31
Status of the plan	The plan has ongoing benefit accruals. Employees hired after January 1, 2016 are not eligible to participate in the plan.
Significant events that occurred during the year	None

Definitions

• Type of plan	Self-administered defined benefit pension plan.
• Employees included	True Temper Sports, Inc.
• Covered employees	Any employee accruing, or having accrued, continuous service.
• Participation	All hourly rated employees of True Temper Sports at the Amory Plant.
• Employee contributions	Amount and timing of contributions is determined by the Pension Committee.
• Vesting service	The period, measured in years and months, beginning on hire date or reemployment date and continuing until break in employment.
• Credited service	The period, measured in years and months, beginning on hire date or reemployment date and continuing until break in employment.
• Accrued benefit	The Regular Monthly Pension defined under Normal retirement.

Normal retirement

• Eligibility	A participant is eligible for normal retirement on the first of the month following the date he attains age 65.
• Benefit	Special Payment followed by the Regular Monthly Pension.

Regular Monthly Pension

The amount of annual benefit to be paid at Normal Retirement Date in monthly installments for life commencing 3 months after Normal Retirement Date, based on benefit service to Normal Retirement Date, is \$30 per month multiplied by the number of years, including fractional years, of Continuous Service, reduced for the following:

- Public pension payments other than those related to Title II of the Social Security Act,
- Other pensions paid by True Temper Sports, Inc., or other related employers, for the period of service as covered by the Plan, and
- Disability payments from Workers' Compensation or Occupation Disease laws.

Special Payment

A lump sum payment in an amount equal to 13 weeks of vacation pay (14 weeks of vacation pay in the case of a participant eligible for more than 4 weeks of regular vacation in the year of retirement) reduced by the amount of vacation pay received for the year, payable the first full month after

Schedule SB, Part V — Summary of Plan Provisions

	retirement or application for retirement and representing the first 3 months of pension payments.
Early retirement	
• Eligibility	A participant is eligible for early retirement upon completion of 15 years of continuous service and attainment of age 60.
• Benefit	The monthly benefit, payable at age 65, is the Accrued Benefit. If payment commences prior to age 65, benefits are reduced by ½ of 1% for each month by which payments commence prior to age 62. The accrued benefit will not be reduced for benefit commencement prior to the participant’s 62nd birthday if the participant has attained eligibility for: 30-Year Retirement, or 70/80 Retirement.
Special retirement	
• Eligibility	<p><u>30-Year Retirement</u> Any Participant who has not attained age 62 and who has had at least 30 years Continuous Service will be eligible to retire under this Plan.</p> <p><u>70/80 Retirement</u> Any Participant who has not attained age 65 years and who has at least 15 years of Continuous Service and (i) who has attained age 50 and whose combined age and years of Continuous Service equals 70 or more, or (ii) whose combined age and years of Continuous Service equals 80 or more, and whose Continuous Service is broken by reason of a permanent shutdown of a plant, department or subdivision thereof or by reason of a layoff or physical disability, or whose Continuous Service is not broken and who is absent from work by reason of</p> <ol style="list-style-type: none"> 1) a layoff resulting from his election to be placed on layoff status pursuant to the provisions of the Basic Agreement applicable in the event of a permanent shutdown, or 2) a physical disability or a layoff resulting from an election referred to in paragraph 1) above and whose return to active employment is declared unlikely by the Company, <p>shall be eligible to retire under the plan.</p>
Late retirement	
• Eligibility	A participant may continue in the employment of the Employer after his Normal Retirement Date.
• Benefit	Participant will receive at actual retirement the Normal Retirement Benefit calculated using service and compensation to the actual retirement date.
Deferred vested	
• Eligibility	Upon the termination of employment after five or more years of vesting service.

Schedule SB, Part V — Summary of Plan Provisions

- **Benefit** A participant shall have a vested interest in his accrued benefit which will be payable at normal retirement date. If participant has attained age 60 and has at least 10 years of Continuous Service, then benefits are reduced by ½ of 1% for each month by which payments commence prior to age 65.

The percentage vested shall be:

Years of Service	Vested Percent
Less than 5	0%
5 or more	100%

Disability

- **Eligibility** All participants with 15 years of Continuous Service who become totally and permanently incapacitated before their normal retirement date.
- **Benefit** The monthly benefit will be calculated as the immediate, unreduced accrued benefit plus \$230, and will be paid in the form of a life annuity. The \$230 increase shall not be applicable for a month in which the participant is eligible for either the disability insurance benefit or an old age benefit under the provisions of Title II of the Social Security Act.

Pre-retirement death

- **Death benefit** In the event of an active married participant’s death after the attainment of age 60 and the completion of 10 years of service or attainment of age 55 and the completion of 15 years of service, it will be assumed the participant had retired on the day prior to death and elected the 50% Contingent Form of Annuity that is the Actuarial equivalent of a decreased participant’s Accrued Benefit payable as a Straight Life Annuity.

In the event of an active or inactive married vested participant’s death before reaching eligibility for early retirement, his surviving spouse shall receive a benefit based on the participant’s vested accrued benefit as of the date of death, but payable as if the participant separated from service on the date of death, began receiving benefits in the form of an immediate Qualified 50% Joint and Survivor Annuity at the earliest eligible commencement date, and dies on the day after the earliest eligible commencement date.

Form of benefits

- Automatic form for unmarried participants Straight Life Annuity
- Automatic form for married participants 50% Joint and Survivor
- Optional forms
 - Straight Life Annuity
 - 50% Joint and Survivor Annuity
 - 75% Joint and Survivor Annuity
 - 100% Joint and Survivor Annuity
- Optional form conversion factors Conversion factors specified in Tables 1 and 2 of the plan document for the 50% Joint and Survivor and 100% Joint and Survivor Annuities. The 75% Joint and Survivor Annuity factors are interpolated between these two tables.

Schedule SB, Part V — Summary of Plan Provisions**Miscellaneous**

- | | |
|------------------------|--|
| • Maximum compensation | Compensation for any 12-month period used to determine accrued benefits may not exceed the limits in IRC Section 401(a) (17) for the calendar year in which the 12-month period begins. This limit is indexed annually. For 2024 the limit is \$345,000. |
| • Maximum benefits | Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2024, the limit is \$275,000 |

Benefits included or excluded

Unless noted below, all benefits provided by the plan, as restated and amended through Amendment #3, are included in this valuation:

- **Most recent plan amendments included:** Amendment #3
- **Plan amendments excluded:** None.
- **Late retirement increases:**
 - *Active participants:* The plan provides benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases only apply to participants who defer retirement beyond age 70½. This valuation includes increases for current participants over age 70.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a) (17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Additional Benefits Included or Excluded

- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits for events that occurred before the valuation date but includes contingent event benefits for events that are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.

Schedule SB, Part V — Summary of Plan Provisions

- ***Benefit accruals:*** The plan’s funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Scheduled benefit increases:** Scheduled benefit increases effective after the end of the current plan year are excluded from minimum funding requirements.
- **Unpredictable contingent event benefits:** The valuation does not value the plan’s unpredictable contingent event benefits because the likelihood of an event is de minimis.

Plan provision changes since prior valuation

Maximum compensation amounts and maximum benefit amounts under IRS rules were updated from 2023 to 2024.
