INDEPENDENT AUDITORS' REPORT

Plan Administrator
Good Shepherd Food Bank 403(b) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Good Shepherd Food Bank 403(b) Plan (the Plan), an employee benefit plan subject to the *Employee Retirement Income Security Act of 1974* (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Plan Administrator
Good Shepherd Food Bank 403(b) Plan

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

GOOD SHEPHERD FOOD BANK 403(b) PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2024 and 2023

1. Description of Plan

The following brief description of Good Shepherd Food Bank 403(b) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution 403(b) plan which covers substantially all employees of Good Shepherd Food Bank of Maine (GSFB). The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA).

On December 29, 2022, the *Setting Every Community Up for Retirement Enhancement Act of 2022* (SECURE 2.0 Act) was signed into law. It includes mandatory and optional provisions impacting defined contribution plans. Applicable provisions outlined in the SECURE 2.0 Act will be adopted if elected and/or required. Plan amendments for these changes are not yet required.

Eligibility

Employees become eligible to make salary deferrals on the first day of employment. Employees become eligible to receive employer match contribution upon making elective deferrals.

Contributions

Contributions are made to participants' accounts as follows:

- Participants may elect to make pre-tax deferrals up to the maximum percentage of compensation and dollar amount permissible under Section 402(g) of the Internal Revenue Code (IRC) not to exceed the limits of IRC Sections 401(k), 404 and 415.
- Participants may elect to make Roth contributions into the Plan.
- Rollover contributions are subject to conditions stated in the Plan and in appropriate sections of the IRC.

Participants are automatically enrolled and 2% of Plan compensation will be deferred unless the participant signs a salary reduction agreement specifically electing another amount or opting out. The automatic deferral will increase 1% each year up to a maximum of 10% unless the participant signs a salary reduction agreement or opts out.

Participants elect to have their employee deferral and their respective employer matching contributions invested in various managed funds included in the Plan which have different investment objectives. For the year ended December 31, 2024, GSFB's discretionary matching contribution was 100% up to 6% of the employee's salary.

GOOD SHEPHERD FOOD BANK 403(b) PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2024 and 2023

1. Description of Plan (Continued)

Participant Accounts

Each participant's account is credited with the participant's contributions, GSFb's contributions and allocations of Plan earnings or losses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions, all employer contributions, plus actual earnings or losses thereon.

Benefit Payments

Upon separation from service with GSFb due to death, disability, retirement or termination, a participant whose vested account balance exceeds \$5,000 may elect to receive either a lump sum or may elect installment payments on a monthly basis. A participant whose vested account is \$5,000 or less and has not commenced receiving payments may automatically receive a distribution in an amount equal to the participant's vested account balance in the form of an automatic rollover into an individual retirement account.

In-service withdrawals are available in certain circumstances, as defined in the Plan.

Notes Receivable From Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The notes are secured by the balance in the participant's account and bear interest at rates that are commensurate with local prevailing rates as determined by the Plan Administrator. Interest rates on notes outstanding at December 31, 2024 ranged from 4.25% - 9.50% with maturities through 2029.

Interest income on notes receivable from participants is recorded when it is earned on an accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2024. If a participant ceases to make loan repayments and the Plan Administrator deems the loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Plan Termination

While GSFb intends to continue this Plan, GSFb reserves the right to amend or terminate at any time any provision of the Plan or the Plan in its entirety subject to the provisions of ERISA. Upon termination of the Plan, the custodians, once notified by GSFb of the termination date, will distribute to each participant the entire account balance on that date in accordance with the terms of the Plan.

NOTES TO FINANCIAL STATEMENTS

December 31, 2024 and 2023

2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes and supplemental schedule. Actual results could differ from those estimates.

Contributions

Contributions from employees are recorded during the period in which payroll deductions are made. Employer contributions are recorded in the same period as the corresponding employee contributions.

Investment Valuation and Income Recognition

Investments are stated at fair value. See Note 4 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on an accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded at December 31, 2024. Delinquent participant notes receivable are recorded as benefit payments on the basis of the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by GSFB. Expenses that are paid by GSFB are excluded from these financial statements. Investment-related expenses are allocated proportionately to Plan participants based on their respective account balances and are included in net investment income.

NOTES TO FINANCIAL STATEMENTS

December 31, 2024 and 2023

2. **Summary of Significant Accounting Policies (Continued)**

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events

Events occurring after the statement of net assets available for benefits date are evaluated by management to determine whether such events should be recognized or disclosed in the financial statements. Management has evaluated subsequent events through October 10, 2025 which is the date the financial statements were available to be issued.

3. **Information Certified by the Custodian**

The Plan Administrator has elected the method of compliance as allowed under 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's auditors not to perform any auditing procedures with respect to information certified by Capital Bank and Trust Company, the custodian of the Plan, except for comparing the information certified by the custodian with the related information included in the financial statements and supplemental schedule. The Plan Administrator has obtained certifications from the custodian stating that the information provided to the Plan Administrator by the custodian is complete and accurate. Such information includes noninterest bearing cash, investments and loan transactions, participant notes receivable, interest and dividends, net appreciation in fair value of investments and interest income on participant notes receivable. The Plan Administrator has determined that the custodian meets the requirements of qualified institutions defined by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

4. **Fair Value Measurements**

Fair value is the price that would be received upon sale of an asset or paid upon transfer of a liability in an orderly transaction between market participants at the measurement date and in the principal or most advantageous market for that asset or liability. The fair value should be calculated based on assumptions that market participants would use in pricing the asset or liability, not on assumptions specific to the entity.

The fair value hierarchy for valuation inputs prioritizes the inputs into three levels based on the extent to which inputs used in measuring fair value are observable in the market. Each fair value measurement is reported in one of the three levels which is determined by the lowest level input that is significant to the fair value measurement in its entirety. These levels are:

4. Fair Value Measurements (Continued)

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation method include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize use of unobservable inputs.

Following are descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024.

Mutual funds: Valued at the net asset value of shares (based upon quoted market price) held by the Plan at year end.

The Plan's assets carried at fair value at December 31, 2024 consist exclusively of level 1 mutual funds totaling \$6,656,423.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Tax Status

GSFB has adopted a standardized Volume Submitter 403(b) plan sponsored by Downeast Pension Services, Inc. and has received an opinion letter from the Internal Revenue Service (IRS), dated March 31, 2017, stating that the form of the Plan document was in compliance with applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since adopting the approved Plan document. However, the Plan Administrator believes the Plan is designed, and is being operated, in conformity with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified.

5. Tax Status (Continued)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. Reconciliation of Financial Statements to Form 5500

Notes receivable from participants are reflected as a receivable on the financial statements which is different from the Form 5500 presentation. On the Form 5500, loans receivable are classified as investments under the caption "participant loans."

7. Party-in-Interest Transactions

The Plan invests in mutual funds with Capital Bank and Trust, the custodian, and therefore, these transactions qualify as party-in-interest transactions. These transactions are exempt from the prohibited transactions rules under ERISA.
