Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Independent Auditors' Report

To the Participants and Plan Administrator of
Retirement Plan for Employees of Durand Glass Manufacturing Company, Inc.

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Retirement Plan for Employees of Durand Glass Manufacturing Company, Inc. (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years ended December 31, 2024 and 2023, and the statements of accumulated plan benefits as of December 31, 2024 and 2023, and the related statements of changes in accumulated plan benefits for the years ended December 31, 2024 and 2023, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the years ended December 31, 2024 and 2023, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for at least one year following the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental schedules, Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year), and Schedule H, Line 4(j) - Schedule of Reportable Transactions as of or for the year ended December 31, 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

December 31, 2024 and 2023

1. Description of Plan

The following description of the Retirement Plan for Employees of Durand Glass Manufacturing Company, Inc. (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions. The Plan is administered by Durand Glass Manufacturing Company, Inc. (Plan Sponsor or the Company).

General

The Plan is a noncontributory defined benefit pension plan established for the employees of the Company. The Plan was frozen to participation and the accumulation of additional benefits effective December 31, 2005. Prior to the plan being frozen, to participate, an employee must have reached the age of 21 and completed 12 months of continuous employment with the Company, measured from an employee's date of hire by the Company to the anniversary date. No new employees were able to become a participant in the Plan as of December 31, 2005. In September 2024, the Plan was amended to offer a one-time lump sum option to eligible terminated vested and retired participants who are receiving monthly pension payments, in lieu of receiving any future monthly pension payments.

The Plan is covered under the Pension Benefit Guaranty Corporation (PBGC) termination insurance program and is subject to the provisions of the Employee Retirement Income Securities Act of 1974 (ERISA). The plan administrator is responsible for oversight of the Plan and determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Plan's Investment Committee.

Funding Policy

The Plan's funding policy is for the Company to make annual contributions to the Plan as determined by the Plan's independent actuary in amounts necessary to provide the Plan with assets sufficient to fund participant's benefits by the time they retire. No employee contributions are permitted. The minimum funding requirements of ERISA were met for 2024 and 2023.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Pension Benefits

Employees with five or more years of service are entitled to monthly pension benefits beginning at normal retirement age (65) equal to 1/12th of 1% of average compensation up to covered compensation plus .5% of average compensation in excess of covered compensation, multiplied by the number of years of credited service, but not to exceed 35 years of service.

Average compensation is defined as the average of compensation over the three consecutive years prior to attainment of age 65 which produces the highest such average. Covered compensation is defined as the average annual amount of compensation with respect to which old age and survivors' insurance benefits would be provided for a participant under the pre-1977 Social Security Act computed as though a participant's annual compensation until they reach age 65 is at least equal to the maximum amount of earnings which may be considered wages for each year under Section 3121(a)(1) of the Internal Revenue Code (IRC).

The Plan permits early retirement for participants after completion of ten years of service and within ten years of a participant's normal retirement age. Benefits under early retirement are paid at reduced rates depending upon age and length of service.

Retirement Plan for Employees of Durand Glass Manufacturing Company, Inc.

Notes to Financial Statements

December 31, 2024 and 2023

Upon retirement, a participant is entitled to an annuity payable monthly during their remaining lifetime, terminating with the monthly payment preceding the date of their death. The normal form of benefit for a married participant is a qualified joint survivor annuity.

Death and Disability Benefits

In the event of the death of a vested active or vested terminated participant, a death benefit equal to the value of one-half the amount the eligible participant would have received had they retired on the day of their death, is paid to the participant's beneficiary. An eligible participant who becomes disabled, meaning they are entitled to and is receiving disability benefits under the Company's long-term disability benefit program, shall continue to accrue benefits until the earlier of their recovery or attainment of age 65 based on their compensation as of the date of their disability. Disability benefits are paid until retirement age, at which time the disabled participant begins receiving normal retirement benefits computed as though the participant had been employed to the normal retirement age.

Contributions

Each year, the Company contributes to the Plan an amount determined by the Plan's actuary to meet the short and long-term needs of the Plan and the minimum funding requirements of ERISA.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company, as applicable. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefit Payments

Benefit payments are recorded when paid.

Notes to Financial Statements

December 31, 2024 and 2023

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation in fair value of investments in the statements of changes in net assets available for benefits.

Subsequent Events

Subsequent events were evaluated through October 13, 2025, the date the financial statements were available to be issued.

3. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died and (c) present employees or their beneficiaries. Benefits for retired or terminated employees or their beneficiaries are based on the calculation of the employee's "final average pay" or "earnings", as defined in the plan document. Such calculation to determine accumulated plan benefits for active employees is made assuming the valuation date is the normal retirement date. Benefits payable under all circumstances such as retirement, death, disability and termination of employment are included to the extent they are attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits was determined by the Plan's actuary as of December 31, 2024 and 2023. The actuarial present value of accumulated plan benefits is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuations were:

- Mortality - 2024 Static Annuitant and Non Annuitant Mortality Tables were used in 2024 and 2023 (which included Sex Distinct 2012 private sector dataset Blue Collar Employee and Healthy Annuitant Mortality Tables with generational improvements using scale MP-2021)
- Retirement age - age 65
- Investment return - 6.00% in 2024 and 6.65% in 2023, net of investment expenses
- Discount rate - 5.40% in 2024 and 6.25% in 2023

The change in the mortality tables resulted in an increase of \$2,086,884 and \$1,402,561 in the actuarial present value of accumulated plan benefits in 2024 and 2023, respectively. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observables and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Money market fund: Valued at the quoted net asset value (NAV) of shares held by the Plan at year-end.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Total investments at fair value	\$ 36,861,379	\$ -	\$ -	\$ 36,861,379

5. Information Certified by Trustee

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2024 and 2023. Accordingly, SEI Private Trust Company, the Trustee of the Plan, has certified to the completeness and accuracy of all investments reported in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2024 and 2023, and the supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2024, and the related investment activity reported in the Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2024 and 2023 and the information reported in the supplemental Schedule H, Line 4(j) - Schedule of Reportable Transactions for the year ended December 31, 2024. Such information was obtained by management and agreed to or derived from information certified as complete and accurate by a qualified institution.

6. Related-Party and Party in Interest Transactions

The Plan's investments are administered under a contract with SEI Private Trust Company, the Trustee of the Plan. Contributions are held and managed by SEI Private Trust Company, who invests cash received, interest and dividend income and makes distributions to participants. These transactions are party in interest transactions under ERISA.

As described in Note 2, the Plan paid certain expenses related to plan operations and investment activity to various service providers. Additionally, certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. These transactions are party in interest transactions under ERISA.

Notes to Financial Statements

December 31, 2024 and 2023

7. Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.
2. Other vested benefits insured by the PBGC (a U.S. government agency) up to the applicable limitations.
3. All other vested benefits (that is, vested benefits not insured by the PBGC).

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, a statutory ceiling exists, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For annuitants under 65 or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

8. Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated December 8, 2011, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

As of December 31, 2024 and 2023, the Plan had investments of \$17,141,203 and \$23,391,045, respectively, that were concentrated in two funds.

2024 SCHEDULE SB ATTACHMENT, PART V – SUMMARY OF PLAN PROVISIONS

(1) Eligibility for Participation

Employees of Durand Glass Manufacturing Company, Inc. enter the plan on the January 1 or July 1 coincident with or next following the attainment of age 21 and the completion of one year of service. No new participants will be permitted after December 31, 2005.

(2) Definitions

Benefit accruals were frozen as of December 31, 2005.

Compensation: W-2 earnings.

Service: Total months of employment with at least one day worked in each month, divided by 12 and rounded up to the next highest tenth of a year.

Average Compensation: Annual average of the highest three consecutive complete years of Compensation.

Covered Compensation: The average of the maximum Social Security taxable wage bases for the 35-year period ending with the calendar year in which a participant attains his Social Security retirement age (age 65 if born before 1938, age 66 if born after 1937 and before 1955, and age 67 if born after 1954), rounded to the next lowest \$12, assuming that there are no increases in the Social Security taxable wage base after the calendar year of termination of active participation.

(3) Normal Retirement Benefit

(a) Eligibility: Age 65.

(b) Benefit: 1% of Average Compensation, plus .5% of Average Compensation in excess of Covered Compensation, multiplied by Service to a maximum of 35 years.

(4) Early Retirement Benefit

(a) Eligibility: Age 55 and 10 years of Service.

(b) Benefit: Same as 3(b), reduced by $\frac{1}{2}$ of 1% for each month by which commencement of payments precedes age 65.

2024 SCHEDULE SB ATTACHMENT, PART V – STATEMENT OF ACTUARIAL
ASSUMPTIONS/METHODS**

Actuarial Methods

Actuarial Cost Method

The actuarial cost method used to determine the Plan's funding requirements is the Unit Credit method. Under this method, the funding target is the actuarial present value of accrued benefits as of the valuation date for all participants. The target normal cost is the actuarial present value of benefits expected to accrue in the current Plan year for each active participant under the assumed retirement age.

Asset Valuation Method

Plan assets used to determine the Plan's funding requirements are equal to a 3-year averaged fair market value of assets. Under this asset valuation method, Plan assets are equal to the average of (1) the adjusted fair market value of assets based on the December 31, 2021 market value of assets modified to reflect 2022 and 2023 distributions, contributions and expected investment income, (2) the adjusted fair market value of assets based on the December 31, 2022 market value of assets modified to reflect 2023 distributions, contributions and expected investment income and (3) the fair market value of assets as of the current Plan year. Expected investment income for the 2024 Plan year is based on a 6.25% return, net of investment expenses, limited to 5.59%, and for the 2023 Plan year was based on a 6.65% return, net of investment expenses, limited to 5.74%, and for the 2022 Plan year was based on a 5.25% return, net of investment expenses, limited to 5.92%. The resulting value cannot be less than 90%, nor greater than 110%, of the fair market value of assets.
