Independent Auditor's Report

To the Plan Administrator
Bay Ship & Yacht Co. Employee Stock Ownership Plan

Opinion

We have audited the financial statements of Bay Ship & Yacht Co. Employee Stock Ownership Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets (deficit) available for benefits as of December 31, 2024 and 2023 and the related statement of changes in net assets (deficit) available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the net assets (deficit) available for benefits of the Plan as of December 31, 2024 and 2023 and the changes in net assets (deficit) available for benefits for the year ended December 31, 2024 in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audits of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter

As explained in Note 4, the financial statements include investments valued at approximately \$920,000 and \$1,564,000 at December 31, 2024 and 2023, respectively, whose fair values have been estimated by management in the absence of readily determinable market values. Management's estimates are based on information provided by an independent appraisal. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or that may become due to such participants.

To the Plan Administrator
Bay Ship & Yacht Co. Employee Stock Ownership Plan

Auditor's Responsibilities for the Audits of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that audits conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing audits in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets held at end of year as of December 31, 2024 is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplemental information required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1 - Plan Description

Bay Ship & Yacht Co. Employee Stock Ownership Plan (the "Plan") is a defined contribution plan covering most employees of Bay Ship & Yacht Co. (the "Company") who have completed one year of employment, with 1,000 or more hours of service within the initial employment year or any plan year that begins after such date, and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan operates as a leveraged employee stock ownership plan and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (the "Code") of 1986, as amended.

In 2023, the Plan purchased Bay Ship & Yacht Co. common shares using the proceeds of a note totaling \$3,864,000. The note was guaranteed by the Company and the shares held in trust established under the Plan. In 2024, the note was amended, and the total value of the note was reduced to \$3,667,340. See Note 6 for further details on the impact of this amendment.

The borrowings are collateralized by the unallocated shares of common stock. The lender has no rights against shares of common stock once they are allocated under the Plan. As the Plan repays the notes, a percentage of stock is allocated to eligible employees' accounts in accordance with applicable regulations under the Code. Accordingly, the financial statements of the Plan for the year ended December 31, 2024 present separately the assets and liabilities and changes therein pertaining to the accounts of employees in allocated common stock (allocated) and common stock not yet allocated to employees (unallocated).

Contributions

The Company is obligated to make contributions in cash to the Plan, which, when aggregated with the Plan's interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest on its loans.

The Company may make annual discretionary contributions to the Plan, as approved by the Company's board of directors. No discretionary contributions were made to the Plan during 2024 and 2023.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's common stock released by the trustee from the unallocated account, discretionary contributions, and forfeitures of terminated participants' nonvested accounts. Only those participants who are eligible employees of the Company as of the last day of the plan year will receive an allocation. Allocations are based on a participant's eligible compensation relative to total eligible compensation.

Voting Rights

The trustee shall exercise voting rights with respect to any common stock held in the Plan, regardless of whether such stock has been allocated to participants or remains unallocated. Each participant is entitled to direct the trustee as to the exercise of any voting rights attributable to the shares allocated to his or her account, with respect to certain corporate events.

December 31, 2024 and 2023

Note 1 - Plan Description (Continued)

Vesting

Vesting in the Company's contribution portion of participant accounts, plus actual earnings thereon, is based on years of service and vest according to the following schedule:

<u>Years of Service</u>	<u>Vesting Percentage</u>
1	- %
2	20
3	40
4	60
5	80
6	100

Forfeitures

If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. The Plan allocates forfeitures to participants based on compensation, as defined. Allocations of forfeitures are considered additional company contributions and are subject to the vesting provisions of company contributions. At December 31, 2024 and 2023, there were no unallocated forfeited account balances.

Benefit Payments

Distributions are payable upon retirement, death, disability, termination of employment, or attainment of 59½ years of age in the form of five equal annual installments in a total amount equal to the vested balance of a participant's account. There were no benefit payments paid or requested but not paid for the years ended December 31, 2024 and 2023.

Party-in-interest Transactions

Certain plan assets are in investment in the Company's stock. The Company is the sponsor of the Plan; therefore, these transactions qualify as permissible party-in-interest transactions, as defined under ERISA guidelines.

Diversification

Participants who have attained the age of 55 and have completed at least 10 years of participation in the Plan are eligible to receive up to 25 percent of the value of the participant's account, less any prior diversification distributions for a 5-year period. At the end of the sixth year after the participant becomes eligible for diversification distributions, participants are eligible to receive up to 50 percent of the value of the participant's account, less any prior diversification distributions.

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market or is subject to trading limitations includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

December 31, 2024 and 2023

Note 1 - Plan Description (Continued)

Termination

While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, the trustees shall distribute all assets remaining in the Plan, after payment of any expenses properly chargeable against the Plan, to the participants in accordance with the value of the units credited to such participants as of the date of such termination. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Administration

The Plan's assets, which consist principally of the company common shares, are held by the trustee of the Plan.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

Various administrative costs are paid by the Company.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. The most significant assumptions and estimates relate to the valuation of company common stock. Application of these assumptions requires the exercise of judgment as to future uncertainties, and, as a result, actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in company stock. This investment is exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with this investment, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including October 9, 2025, which is the date the financial statements were available to be issued.

Bay Ship & Yacht Co. Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2024 and 2023

Note 2 - Summary of Significant Accounting Policies (Continued)

Subsequent to year end, the plan sponsor executed a \$5,000,000 reduction in the Company's subordinated note payable. As of December 31, 2024, the forgiveness of the subordinated note payable increased the share price from \$0.20 to \$1.11 per share. The \$0.20 per share price was used to compile the 2024 financial statements, but the trustee and plan sponsor elected to use the \$1.11 per share price for all participant transactions beginning on December 31, 2024 and through the date of this report.

Note 3 - Tax Status

The plan administrator believes that the Plan is designed and is currently being operated in compliance with applicable requirements of the Internal Revenue Code and is, therefore, qualified for tax-exempt treatment. Therefore, no provision for income taxes has been included in the Plan's financial statements. The Plan has requested but has yet to receive a determination letter.

Note 4 - Investments in Company Stock

The Plan's investments in company stock at December 31, 2024 and 2023 are presented in the following table:

	2024		2023	
	Allocated	Unallocated	Allocated	Unallocated
Number of shares	306,296	4,293,704	153,333	4,446,667
Cost	\$ 257,289	\$ 3,606,711	\$ 128,800	\$ 3,735,200
Fair value	\$ 61,259	\$ 858,741	\$ 52,133	\$ 1,511,867

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset as further described below.

In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

Bay Ship & Yacht Co. Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2024 and 2023

Note 5 - Fair Value Measurements (Continued)

The following valuation methodology has been used to value the Plan's investments:

Company Stock

The Plan measures common stock at fair value on a recurring basis. The fair value of company stock is based primarily on Level 3 inputs. Fair value is determined by annual independent appraisals. The appraisal was based upon a combined income and market approach, including the discounted cash flow method and guideline transaction method. The appraiser has concluded that a market participant would also recognize a discount for lack of marketability. The unobservable inputs for the discounted cash flow method are earnings, capital growth, and the discount for the lack of marketability. The unobservable input for the guideline transactions method was earnings growth.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2024 and 2023, respectively:

	Assets Measured at Fair Value on a Recurring Basis at December 31, 2024	
	Investments (at Fair Value)	Level 3
Company stock	\$ 920,000	\$ 920,000

	Assets Measured at Fair Value on a Recurring Basis at December 31, 2023	
	Investments (at Fair Value)	Level 3
Company stock	\$ 1,564,000	\$ 1,564,000

There were no transfers, purchases, or issuances of company stock for the year ended December 31, 2024.

Note 6 - Note Payable - Company

In November 2023, the Plan borrowed \$3,864,000 from the Company to purchase 100 percent of the Company's 4,600,000 outstanding shares. In December 2024, the Plan amended its original note payable agreement dated November 17, 2023. This amendment resulted in the Plan's principal obligation changing from \$3,864,000 to \$3,667,340. The note matures on December 31, 2052, bears interest at 4.83 percent, and is due in annual installments of principal and interest of \$224,482 beginning in 2026. Because the 2023 payment of \$236,520 was made under the original principal obligation amount, the 2024 payment was \$211,863 to compensate for previous overpayment. Additionally, the \$197,805 decrease in the outstanding principal obligation from \$3,649,978 at December 31, 2023 as result of the amendment has been recognized in the statement of changes in net assets (deficit) available for benefits as an other addition. The result of this decrease in the principal obligation also resulted in an additional release of 8,236 shares in 2024 outside of the shares released via the 2024 debt payment, bringing the total number of released shares to 306,296. The loan is collateralized by the respective company stock for which the loan was used to purchase.

Note 6 - Note Payable - Company (Continued)

Minimum principal payments on this loan to maturity are as follows:

<u>Years Ending</u>	<u>Amount</u>
2025	\$ 59,921
2026	62,816
2027	65,850
2028	69,031
