Independent Auditors' Report

**The Plan Administrator
InfoWorks Employee Stock Ownership Plan and Trust**

Opinion

We have audited the financial statements of the InfoWorks Employee Stock Ownership Plan and Trust, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the financial statements present fairly, in all material respects, the net assets available for benefits of the InfoWorks Employee Stock Ownership Plan and Trust as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the InfoWorks Employee Stock Ownership Plan and Trust and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the InfoWorks Employee Stock Ownership Plan and Trust's ability to continue as a going concern for one year after the date the financial statements are issued or are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or that may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audits.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2024 and the schedule of reportable transactions for the year then ended are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

INFOWORKS EMPLOYEE STOCK OWNERSHIP PLAN AND TRUST

Notes to the Financial Statements

December 31, 2024 and 2023

(1) Description of plan

The following description of the InfoWorks Employee Stock Ownership Plan and Trust (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

(a) General

The Plan was established by InfoWorks, Inc. (the "Plan Sponsor"), effective as of January 1, 2010, and was amended and restated effective January 1, 2015. The Plan operates as a leveraged employee stock ownership plan ("ESOP"). It is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended ("Code"), and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

In December 2012, the Plan purchased 5,055 shares of the Plan Sponsor's common stock with cash of \$269,179, and 69,029 shares of the Plan Sponsor's common stock with a loan of \$3,725,743 from the Plan Sponsor (see Note 6).

In December 2023, the Plan borrowed an additional \$5,950,772 from the Plan Sponsor. The funds were used by the Plan to make distributions to terminated employees for 15,645 shares of common stock. The loan was settled with Company stock in 2024. In September 2024, the Plan repurchased 15,645 shares of the Plan Sponsor's common stock with a loan of \$3,739,393 from the Plan Sponsor (see Note 6).

In December 2024, the Plan borrowed an additional \$445,856 from the Plan Sponsor. The funds were used to make distributions to terminated employees in exchange for 1,399 shares of common stock. The loan is to be repaid in 2025.

(b) Allocated and unallocated shares

As the Plan makes principal and interest payments on the loans from the Plan Sponsor, an appropriate percentage of stock is allocated to eligible employees' accounts in accordance with applicable regulations under the Code. Plan borrowings are collateralized by the unallocated shares of the Plan Sponsor's common stock. The Plan Sponsor, in its role as a lender, has no rights against shares once they are allocated under the Plan. Accordingly, the accompanying financial statements present separately the assets and liabilities and changes therein pertaining to:

- The accounts of employees with vested rights in allocated stock (Allocated); and
- Stock not yet allocated to employees (Unallocated).

INFOWORKS EMPLOYEE STOCK OWNERSHIP PLAN AND TRUST

Notes to the Financial Statements

December 31, 2024 and 2023

(c) Eligibility

The Plan covers all employees of the Plan Sponsor who have reached the age of 21 years, have completed three consecutive months of service, and who are not leased employees, nonresident aliens, employees classified as interns, or employees covered under a collective bargaining arrangement ("participant"). Employees that have 1,000 hours of service during a 12 month period from date of hire are eligible to participate in the Plan. Additionally, participants who do not have at least 500 hours of service during a Plan year or are not employed on the last day of the Plan year are generally not eligible for an allocation of Plan Sponsor contributions for such year.

(d) Contributions

The Plan Sponsor is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, will be sufficient for the Plan to make its regularly scheduled payments of principal and interest due on the term loans (Note 6). Participant contributions to the Plan are not permitted.

(e) Vesting and forfeitures

Participants are 20% vested after two years of service and vest ratably in 20% increments until they become 100% vested after six years of continuous service, or if the participant (a) is employed by the Plan Sponsor on or after satisfying the age requirement for normal retirement; (b) suffers a disability while employed by the Plan Sponsor; or (c) dies while employed by the Plan Sponsor. A year of service is any year that a participant completes 500 hours of service. Years of service shall include service prior to the effective date of the Plan. Forfeitures of terminated participants are reallocated to the accounts of remaining ESOP participants after the employee incurs five consecutive one-year breaks in service. There were 43 (\$13,799 fair value) shares forfeited and allocated to participant accounts at December 31, 2024.

(f) Payment of benefits

Effective January 1, 2023, the Plan was amended to allow the Plan to purchase shares of participants who have terminated employment with the Plan Sponsor. The Plan will exchange cash for the vested shares held by inactive participants based on the most recent appraised fair market value of the shares.

Except as noted in the paragraph above, no distributions from the Plan will be made until a participant retires, dies (in which case payment shall be made to his or her beneficiary or, if none, his or her legal representatives), or otherwise terminates employment with the Plan Sponsor. Distributions may be made either in cash or stock, as the Administration Committee elects. However, if stock is distributed it must be sold back to the Plan Sponsor immediately upon such distribution.

INFOWORKS EMPLOYEE STOCK OWNERSHIP PLAN AND TRUST

Notes to the Financial Statements

December 31, 2024 and 2023

For participants who terminate for reasons other than death, disability, or retirement at age 60 and the participant's 5th anniversary of joining the plan, account balances will remain in the participant's account until the later of five years after termination or the year following the Plan year in which the note payable (Note 6) is repaid. At that time, the account will be distributed in five annual installments, except for those account balances less than or equal to \$5,000, which will be distributed in a single lump sum. However, the accounts of employees in plan years commencing after the earlier of the complete repayment of the original note payable, will vest at the rate of 20% each year after two years of service, with 100% vesting after the completion of six years of service.

(g) Voting rights

In matters involving major Plan Sponsor transactions, each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustees prior to the time such rights are to be exercised. The shares of unallocated Plan Sponsor stock are voted by the Trustees.

(h) Participant accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Plan Sponsor's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' nonvested accounts. Eligible employees of the Plan Sponsor receive an allocation based on the ratio of each participant's eligible compensation for the year to the total eligible compensation of all participants. Investment earnings and dividends are allocated to each participant's account based on the ratio of the participant's beginning of the year account balance to the total beginning of the year account balances of all participants.

(i) Put option

Under Federal income tax regulations, Plan Sponsor stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is the right for a participant to demand that the Plan Sponsor buy any shares of its stock distributed to the participant for which there is no market. The put price is representative of the fair market value of the stock. The Plan Sponsor can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash. In addition, the Plan Sponsor has the first right of refusal if the distributed shares are to be sold.

INFOWORKS EMPLOYEE STOCK OWNERSHIP PLAN AND TRUST

Notes to the Financial Statements

December 31, 2024 and 2023

(j) Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Plan Sponsor stock into investments that are more diversified. Prior to January 1, 2024, participants at age 55 with at least 10 years of participation in the Plan may elect to diversify up to 25% of his or her stock account balance for 5 years, then increases to 50% after 6 years and thereafter until termination of employment. Effective January 1, 2024, participants at age 55 with at least 10 years of participation in the Plan may elect to diversify up to 35% of his or her stock account balance for 5 years, then increases to 50% after 6 years and thereafter until termination of employment.

(2) Summary of significant accounting policies

(a) Basis of accounting

The financial statements of the Plan are prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

(b) Investment valuation and income recognition

The investment in common stock of the Plan Sponsor is valued at its fair value. See Note 5 for a discussion of fair value measurements. Interest income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(c) Payment of benefits

Benefits are recorded when paid.

(d) Operating expenses

All administrative expenses of the Plan are paid by the Plan Sponsor.

(e) Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administration to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates. Significant estimates used in preparing these financial statements include the valuation of common stock of InfoWorks, Inc., as determined by an independent appraiser. Appraisals are prepared annually and can be expected to fluctuate from one year to the next.

Notes to the Financial Statements

December 31, 2024 and 2023

(f) Events occurring after reporting date

The Plan Sponsor has evaluated events and transactions that occurred between December 31, 2024 and October 13, 2025 which is the date that the financial statements were available to be issued, for possible recognition or disclosure in the financial statements.

(3) Administration of Plan assets

The Plan's assets, which consist principally of Plan Sponsor common shares, are held by the Plan's Trustee.

Plan Sponsor contributions are managed by the Trustee, who also administers the payment of principal and interest on the loans (Note 6), which are funded by Plan Sponsor contributions.

Certain administrative functions are performed by officers or employees of the Plan Sponsor. No such officer or employee receives compensation from the Plan.

(4) Investments

The Plan's investments at December 31, 2024 and 2023, are as follows:

	<u>2024</u>		
	<u>Allocated</u>	<u>Unallocated</u>	<u>Total</u>
Number of shares of Plan Sponsor common stock	<u>50,981</u>	<u>43,193</u>	<u>94,174</u>

INFOWORKS EMPLOYEE STOCK OWNERSHIP PLAN AND TRUST

Notes to the Financial Statements

December 31, 2024 and 2023

In December 2023, the Plan repurchased 15,645 shares of stock from inactive participants. These shares became unallocated upon repurchase.

In December 2024, the Plan repurchased 1,399 shares of stock from inactive participants. These shares became unallocated upon repurchase.

(5) Fair value measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The fair value of the Plan Sponsor common stock held by the Plan is based on an independent appraisal utilizing Level 3 inputs. The appraisals as of December 31, 2024 and 2023 used a combination of the liquidation value method and discounted cash flow method, as the premise for establishing fair value. The appraiser uses as many methods as are meaningful, and then averages or takes a weighted-average based on their opinion as to which methods are the most appropriate. The appraiser took into account historical and projected cash flow and net income, as well as market comparables.

INFOWORKS EMPLOYEE STOCK OWNERSHIP PLAN AND TRUST

Notes to the Financial Statements

December 31, 2024 and 2023

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan Sponsor believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. The actual fair value of the common stock can only be determined based on the ultimate sale of the Plan Sponsor, which could result in a value significantly different from the appraised value.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023:

	<u>Fair Value</u>	Significant Unobservable Inputs (Level 3)
<u>December 31, 2024</u>

(6) Notes payable

On December 14, 2012, the Plan entered into a loan agreement with the Plan Sponsor with an expected maturity on December 31, 2032 and a fixed interest rate of 2.89%. During December 2023, the loan agreement was amended to extend the expected maturity to December 31, 2042. The note requires annual payments of \$117,721 of principal and accrued interest. The note is secured by the unallocated shares (Note 4).

On September 30, 2024, the Plan entered into an additional loan agreement with the Plan Sponsor with an expected maturity on December 31, 2054 and a fixed interest rate of 4.37%. The note requires annual payments of \$215,700 of principal and accrued interest. The note is secured by the unallocated shares (Note 4).

Interest expense incurred during 2024 totaled \$85,904.

In December 2023, the Plan borrowed \$5,950,772 from the Plan Sponsor. The loan is interest free and unsecured. The loan will be repaid as soon as administratively feasible after December 31, 2023 by tendering the number of shares required to satisfy the loan amount using the annual valuation amount for the period ending December 31, 2023. The loan was settled in 2024 by an accrued contribution of \$569,000 and surrendering 15,645 shares of common stock to the Company. The Plan purchased the shares back at a discounted price.

In December 2024, the Plan borrowed \$445,856 from the Plan Sponsor. The loan is interest free and unsecured. The loan will be repaid as soon as administratively feasible after December 31, 2024 by tendering the number of shares required to satisfy the loan amount using the annual valuation amount for the period ending December 31, 2024. The loan was settled in 2025 by surrendering 1,399 shares of common stock to the Company. The Plan purchased the shares back at a discounted price (Note 12).

(7) Income tax status

The Plan has received a determination letter from the Internal Revenue Service dated April 13, 2015, stating that the Plan is qualified under the Internal Revenue Code ("IRC") and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed, and being operated, in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by various federal and state taxing authorities. Management has concluded that as of December 31, 2024 and 2023, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the accompanying financial statements.

(8) Related party and party-in-interest transactions

Parties-in-interest are defined under the United States Department of Labor Regulations as any party providing fiduciary or other services to the Plan, the Plan Sponsor, and certain others.

The Plan's assets, which consist of Plan Sponsor common stock, are considered to be party-in-interest investments. Plan Sponsor borrowings, Plan Sponsor contributions, as well as the loan's principal and interest payments (Note 6) made to the Plan Sponsor, are considered party-in-interest transactions. All of these transactions are exempt from the prohibited transaction provisions of ERISA and the Code.

(9) Plan termination

The Plan Sponsor reserves the right to terminate the Plan at any time, subject to the Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be considered non-forfeitable, and distributed to such participant or a designated beneficiary at the time and in a manner prescribed by Plan terms and the Code. Upon termination of the Plan, the Plan administrator shall direct the Trustees to pay all liabilities and expenses of the Plan and to sell the shares of the Plan Sponsor's stock held in the unallocated account to the extent necessary to repay the remaining balance of the loans owed to the Plan Sponsor.

(10) Risks and uncertainties

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

(11) Reconciliation of financial statements to Form 5500
