## Report of Independent Auditor

To the Defined Benefit Pension Committee  
Sypris Technologies Marion, LLC  
Restated Pension Plan for Union Employees  
Louisville, Kentucky

### Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Sypris Technologies Marion, LLC Restated Pension Plan for Union Employees (the “Plan”), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (“ERISA”), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan’s financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor’s (“DOL”) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (“investment information”) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of DOL’s Rules and Regulations for Reporting and Disclosure under ERISA (“qualified institution”).

Management has obtained a certification from a qualified institution as of December 31, 2024 and 2023, and for the years the ended, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

### Opinion

In our opinion, based on our audits and the procedures performed as described in the *Auditor’s Responsibilities for the Audit of the Financial Statements* section:

- The amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

### Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the *Auditor’s Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

## **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments; administering the Plan; and determining the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

## **Auditor's Responsibilities for the Audit of the Financial Statements**

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

### **Supplemental Schedule Required by ERISA**

The supplemental schedule, Schedule of Assets (Held at End of Year) – Form 5500, Schedule H, Part IV, Line 4i as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

**Note 1—Description of Plan**

The following description of the Sypris Technologies Marion, LLC Restated Pension Plan for Union Employees (the “Plan”) provides only general information. Participants should refer to the Summary Plan Description, which is available from Sypris Technologies, Inc. (the “Company”) and contains information about the Plan agreement, the vesting and benefit provisions, and the Pension Benefit Guaranty Corporation’s (“PBGC”) benefit guarantee.

*General* – The Plan is a non-contributory defined benefit plan for union employees of the Marion Forge plant that provides for retirement, death, and disability benefits. Participants are 100% vested as to benefits after 5 years of vesting service, or 1,000 hours per calendar year. Employees of the Company hired or rehired on or after December 31, 2001 are not eligible to participate in the Plan. No additional credited service is earned after December 31, 2001. Credited service is based on 1,700 hours per year. During the 2009 Plan year, all union employees of the Marion Forge plant were terminated.

*Benefit Payments* – Participants are normally eligible for a monthly benefit upon reaching age 65 (normal retirement date). Benefit payments are determined by multiplying each year of credited service by a specified amount depending on the participant’s actual retirement date or normal retirement date, subject to certain maximum limitations. Participants may also elect the 55%, 75%, or 100% survivor annuity benefit option or the 55% qualified joint and survivor annuity benefit option.

The Plan permits early retirement at ages 55 through 64 providing the employee has 10 years of service. Early retirement benefits are based on benefits accrued to the early retirement date, reduced a percentage for each year from age 62.

A retiree or surviving spouse receiving normal, early, or disability (but not deferred vested) retirement benefits is entitled to \$18.50 per month after age 65, or earlier eligibility for Medicare Part B. This benefit is available only to participants who retired before February 1, 2006.

Disabled participants with 10 years of service are entitled to the accrued benefit plus a temporary supplement payable to age 65 equal to \$15 times years of credited service (maximum \$250). The supplement ceases if the participant is eligible for Social Security disability benefits. This benefit is available only to participants who were determined to be disabled before February 1, 2006.

*Contributions* – The Company has agreed to make quarterly contributions to the Plan as are necessary to provide assets sufficient to meet the benefits to be paid to Plan members. The Plan met the minimum funding requirements of the Employee Retirement Income Security Act of 1974 (“ERISA”) for the 2024 and 2023 Plan years.

*Expenses* – Administrative expenses are paid by the Company or Plan assets, as defined in the Plan agreement. The Plan is not charged for administrative services performed on its behalf by the Company.

**Note 2—Summary of significant accounting policies**

*Basis of Presentation* – The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”).

*Use of Estimates* – The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

*Investment Valuation and Income Recognition* – The majority of the Plan’s investment assets are held in the Master Trust maintained by Sypris Technologies, Inc. for its Defined Benefit Retirement Plans (the “Master Trust”), which was established for the investment of assets of the Plan and other Company sponsored retirement plans. Each participating plan holds units in pools held by the Master Trust. Investments are reported at fair value. Investment income or loss relating to the Master Trust is allocated to the individual Plans based upon each Plan’s units of participation. This income or loss consists of the realized gains or losses and the unrealized appreciation (depreciation) on investments.

**NOTES TO THE FINANCIAL STATEMENTS**

DECEMBER 31, 2024 AND 2023

**Note 2—Summary of significant accounting policies (continued)**

*Accumulated Present Value of Accumulated Plan Benefits* – Accumulated Plan benefits are those estimated future periodic payments that are attributable under the Plan’s provisions to services rendered by the employees to the valuation date. Accumulated Plan benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, (c) employees who are currently disabled or their beneficiaries, and (d) present employees or their beneficiaries upon retirement, death, or disability. Benefits for retired or terminated employees or their beneficiaries are based on employees’ average monthly compensation and years of service preceding their retirement date. Benefits payable under all circumstances –retirement, death, disability, and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

*Payments of Benefits* – Benefit payments to participants are recorded upon distribution. There were no benefit payments requested and not yet disbursed at December 31, 2024 or 2023.

**Note 3—Actuarial present value of accumulated Plan benefits**

The actuarial present value of accumulated Plan benefits is determined by the Plan actuary. This amount results from applying actuarial assumptions to adjust the accumulated Plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, or retirement) between the valuation date and the expected date of payment. The actuarial present value of accumulated Plan benefits as of December 31, 2023 and 2022 is as follows:

	<u>2023</u>	<u>2022</u>
Actuarial present value of accumulated Plan benefits:		
Vested benefits:		
Participants currently receiving benefits	\$ 11,980,210	\$ 13,167,105
Other participants	1,848,070	2,064,833
Total actuarial present value of accumulated Plan benefits	<u>\$ 13,828,280</u>	<u>\$ 15,231,938</u>

The changes in the actuarially computed present value of accumulated Plan benefits for the year ended December 31, 2023, are as follows:

Actuarial present value of accumulated Plan benefits,	
December 31, 2022	\$ 15,231,938
Increase (decrease) during the year attributable to:	
Benefits accumulated and (gains) losses	(572,284)
Increase for interest due to decrease in discount period	519,635
Benefits paid	(1,097,212)
Change in actuarial assumptions	<u>(253,797)</u>
Net decrease	<u>(1,403,658)</u>
Actuarial present value of accumulated Plan benefits,

**NOTES TO THE FINANCIAL STATEMENTS**

*DECEMBER 31, 2024 AND 2023*

---

**Note 3—Actuarial present value of accumulated Plan benefits (continued)**

Significant actuarial assumptions used for the purposes of estimating the actuarial present value of accumulated Plan benefits as of December 31, 2023 and 2022 follows:

Interest rate: 3.75% (2023), 3.55% (2022)

Mortality basis: Pri-2012 sex-distinct, tables with contingent survivor adjustments for existing survivors, no collar adjustments applied with generational projection based on scale MP-2021 (2023 and 2022)

Changes in actuarial assumptions relating to the 2023 valuation included an update of the interest rate from 3.55% to 3.75%. This change resulted in a decrease in the actuarial present value of accumulated Plan benefits of \$253,797.

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

**Note 4—Information certified by the qualified institution (unaudited)**

The Plan administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, PNC Bank, a qualified institution, has certified to the completeness and accuracy of the following data included in the accompany financial statements and supplemental schedule.

- Plan interest in the Master Trust maintained by Sypris Technologies, Inc. for its defined benefit retirement plans, money market fund at fair value, and accrued interest receivable as shown in the statements of net assets available for benefits as of December 31, 2024 and 2023.
- Plan interest in net investment income from the Master Trust maintained by Sypris Technologies, Inc. for its defined benefit retirement plans, and interest income as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2024 and 2023.
- Schedule of Assets (Held at End of Year) – Form 5500, Schedule H, Part IV, Line 4i as of December 31, 2024.

At the request of the Plan administrator, the Plan's independent auditor did not perform auditing procedures with respect to this certified information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

**Note 6—Fair value measurements**

U.S. GAAP provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

*Level 1* – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

*Level 2* – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

*Level 3* – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following are descriptions of the valuation methodologies used for investments measured at fair value, including the general classification of such assets pursuant to the valuation hierarchy. There have been no changes in the methodologies used at December 31, 2024 or 2023:

*Money Market and Mutual Funds* – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded and are, therefore, classified within Level 1 of the valuation hierarchy.

*Common Stocks and Certain U.S. Government Securities* – Valued at the closing price reported on the active market on which the individual securities are traded and therefore classified within Level 1 of the valuation hierarchy.

*Corporate Bonds, Certain U.S. Government Securities, and Bonds* – Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing values on yields currently available on comparable securities of issuers with similar credit ratings and are therefore classified within Level 2 of the valuation hierarchy.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan also maintains a separate account from the Master Trust, held by the trustee, comprised of a money market fund totaling \$169,812 and \$182,352 at December 31, 2024 and 2023, respectively, and is considered a Level 1 investment.

**Note 7—Related party and party-in-interest transactions**

Certain administrative services are provided by the Company at no cost to the Plan and certain administrative costs incurred by the Plan are paid by the Company. The Plan has entered into various service agreements with parties-in-interest.

**Note 8—Income tax status**

The Plan received a determination letter from the Internal Revenue Service ("IRS") dated December 19, 2016, stating the Plan is qualified under Section 401(a) of the Internal Revenue Code ("IRC") and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024 and 2023, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

**Note 9—Plan termination**

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. Should the Plan terminate, the net assets of the Plan shall be distributed to participants in accordance with Section 4044 of ERISA. Any residual assets remaining after all liabilities are satisfied are returned to the Company. If the Plan's net assets are inadequate, the PBGC guarantees the payment of vested benefits subject to certain limitations prescribed by ERISA. Whether a particular participant's accumulated Plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty, while other benefits may not be provided.

**Note 10—Risks and uncertainties**

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect amounts reported in the financial statements.

Contributions to the Plan and the actuarial present value of accumulated Plan benefits are reported based on certain actuarial assumptions which are subject to change. Due to uncertainties inherent in the estimates and assumptions, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would-be material to the financial statements.

**Note 11—Subsequent events**

The Plan has evaluated all subsequent events through October 6, 2025, which is the date these financial statements were available to be issued and has determined there are no subsequent events that require disclosure.

**Mortality sponsor elections**

- All participants Section 430(h)(3) prescribed static combined annuitant and non-annuitant mortality tables. These tables are based on the Pri-2012 mortality tables projected with mortality improvement using Scale MP-2021 adjusted in accordance with IRS regulations.

**Other economic assumptions**

- Expected investment return 3.50% per year for 2022, 4.60% per year for 2023, 4.85% per year for 2024
- Expenses Expected administrative and investment expenses for current year. \$205,000 added to current year normal cost.

**Rationale for Assumptions - Funding**

- The expected rate of return on plan assets for funding purposes is based on the median simulated investment return using capital market assumptions published in Mercer Investment Consulting's Capital Markets outlook for the plan's target asset mix, net of an adjustment of 12 bps for expenses assumed to be paid from plan assets.

## **Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**

- Expected administrative and investment expenses to be paid from plan assets are based on prior year actual expenses adjusted to reflect expected changes for the current year.

## **Actuarial Methods for Funding**

### **Asset Methods**

The asset valuation method is an average of the adjusted market value for each year during the last 2 years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

### **Participant Methods**

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all participants as of the valuation date.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date.
- **Insurance contracts:** The plan does not have any insurance contracts.

### **Minimum Funding Methods**

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's target normal cost is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual are the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

**Schedule SB, part V — Summary of Plan Provisions****Summary of Major Plan Provisions**

Effective date and plan year	Original plan: January 1, 1998 Restated plan: January 1, 2016 Plan year: January 1 – December 31
Most recent amendment	None
Status of the plan	This plan was frozen to new hires and benefits were frozen as of December 31, 2001.
Significant events that occurred during the year	None
<b>Definitions</b>	
• Covered employees	All union employees are eligible for the plan. However, no employee shall become a member of the plan after December 31, 2001.
• Employee contributions	None.
• Service	Vesting service is based on 1,000 hours per calendar year. Credited service is prorated credit based on 1,700 hours per year measured to the nearest 1/10th. No additional credited service accrues after December 31, 2001.
• Accrued benefit	The amount of normal retirement income earned by a participant and calculated on the basis of the participant's service and benefit multiplier at the date of calculation.
<b>Normal retirement</b>	
• Eligibility	The last day of the month on or immediately after a member attains age 65.
• Benefit	Monthly benefit of: \$27.50 times years of credited service if termination of employment is between January 1, 1999 and September 19, 2001, or \$30.00 times years of credited service if termination of employment is on or after September 20, 2001. No additional benefits shall accrue after December 31, 2001.
<b>Early retirement</b>	
• Eligibility	Age 55 with 10 years of credited service.
• Benefit	An immediate monthly income equal to the accrued benefit at date of retirement reduced 0.5% for each month by which commencement of payment precedes age 62.
<b>Late retirement</b>	
• Eligibility	Employment past normal retirement.

**Schedule SB, part V — Summary of Plan Provisions**

• Benefit	An immediate monthly income equal to the accrued benefit at date of retirement based on credited service at the late retirement date.
<b>Deferred vested</b>	
• Eligibility	If a member terminates his employment after completing at least 5 years of vesting service, he is entitled to a deferred benefit, payable at normal retirement.
• Benefit	The deferred benefit is equal to the accrued benefit calculated at date of termination. A member may elect immediate benefits upon becoming eligible for early retirement.
<b>Disability</b>	
• Eligibility	If a member is disabled and has completed at least 10 years of credited service, he is entitled to a disability benefit. This benefit is available only to participants who were determined to be disabled before February 1, 2006.
• Benefit	The disability benefit is equal to the accrued benefit plus a temporary supplement payable to age 65 equal to \$15.00 times years of credited service (maximum \$250). The supplement ceases if the participant is eligible for Social Security disability benefits.
<b>Pre-retirement death</b>	
• Eligibility	A married member who is vested is entitled to a death benefit.
• Benefit	This death benefit is equal to the joint and spousal survivor annuity payable at earliest retirement age.
<b>Form of benefits</b>	
• Automatic form for unmarried participants	Life annuity
• Automatic form for married participants	Joint and 55% survivor annuity
• Optional forms	Life annuity; Joint and 55%, 75% or 100% survivor annuity.
• Actuarial equivalence	GATT2003 mortality table and a 7.00% interest rate.
<b>Miscellaneous</b>	
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2024, the limit is \$275,000.

**Benefits Included or Excluded**

Unless noted below, all benefits provided by the plan, as restated and amended through the valuation date, are included in this valuation.

## Schedule SB, part V — Summary of Plan Provisions

- **Most recent plan amendments included:** No amendments to current restatement. Amendments adopted after the valuation date or effective after the current plan year are excluded from the valuation.
- **Plan amendments excluded:** None.
- **Late retirement increases:** The plan provides benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases only apply to participants who defer retirement beyond age 70½. This valuation includes increases for any deferred participants over age 70½.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

## Plan Provisions Specific to Funding

### Additional Benefits Included or Excluded

- **IRC Section 436 benefit restrictions:**
  - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
  - *Plan amendments:* See above.
  - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
  - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.
