Report on the Audit of the Financial Statements

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Richardson Oilseed Products (US) Limited Pension Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Richardson Oilseed Products (US) Limited Pension Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2024 and 2023, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Richardson Oilseed Products (US) Limited Pension Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Richardson Oilseed Products (US) Limited Pension Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

Governance Committee
Richardson Oilseed Products (US) Limited Pension Plan

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Richardson Oilseed Products (US) Limited Pension Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Richardson Oilseed Products (US) Limited Pension Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Other Matter — Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Governance Committee
Richardson Oilseed Products (US) Limited Pension Plan

In our opinion

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023

NOTE 1 DESCRIPTION OF THE PLAN

The following description of Richardson Oilseed Products (US) Limited Pension Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit pension plan established September 1, 1963. The Plan was last restated effective August 1, 2019 and last amended effective June 15, 2023. The Plan provides retirement benefits for eligible hourly employees at the Hunt-Wesson Memphis Refinery and Container facilities who are covered by a collective bargaining agreement with United Food and Commercial Workers, Local 1529, AFL-CIO or its successor organization (the Union). Richardson Oilseed Products (US) Limited (the Company) contributes such amounts as are necessary on an actuarial basis to provide the Plan with assets sufficient to provide the specified benefits to covered employees and meet the funding provisions of ERISA.

Eligibility

All hourly employees at Hunt-Wesson Memphis Refinery and Container represented by a collective bargaining agreement with the Union who have attained age 21 and completed 1,000 hours of service are eligible for participation in the Plan. The Plan excludes any employee who is not covered by the agreement between the Company and the United Food and Commercial Workers, Local No 1529, AFL-CIO or its successor organization and any other employee hired after December 31, 2020. A participant is eligible to receive a future pension benefit after completing five years of vesting service. A full year of credited service is earned for any Plan year in which the participant completes 1,600 hours of service. A pro rata share of a year of credited service is given to a participant for any Plan year in which the participant completes at least 1,000 hours but less than 1,600 hours of service. After five years of continuous service, full vesting occurs.

Pension Benefits

Benefits are based on a participant's years of credited service (maximum 40 years for container employees and maximum 45 years for refinery employees) and the benefit accrual rate, as provided in the Plan in effect at the date of retirement or termination. For a participant who is married at the date pension benefits are to commence, a reduction will be made to provide 50% of the reduced benefit to the surviving spouse unless both parties have agreed, in writing, to waive the spousal benefit. The Plan also provides for certain disability benefits (as defined).

All terminated participants with a deferred vested accrued benefit less than \$5,000 automatically receive a lump-sum distribution to an individual retirement account designated by the participant or the Richardson Oilseed Products (US) Limited Administrative Committee (the Committee).

Effective June 15, 2023, the Plan was amended to allow lump-sum distributions for participants who have terminated employment prior to May 1, 2023. However, if a participant is rehired on or after May 1, 2023, the lump-sum distribution option is not permitted on benefits accrued after May 1, 2023.

NOTE 1 DESCRIPTION OF THE PLAN (CONTINUED)

Pension Benefits (Continued)

During 2023, the Plan purchased an annuity contract through American United Life Insurance Company, a OneAmerica Company, in the amount of \$7,634,602 to assume the benefit obligations for existing retirees as of May 1, 2023. This is deemed an allocated contract and excluded from the financial statements as American United Life Insurance Company has assumed the related benefit obligations.

Vesting

Every participant who attains age 62 is entitled to a monthly pension benefit upon retirement. A participant who has attained age 55 and completed at least 10 years of credited service may elect early retirement with a reduced pension benefit. If a participant leaves before retirement and has at least five years of credited service, a deferred vested pension is payable at age 62.

Death Payments

Normal retirement age under the Plan is 65. Early retirement benefit payments may begin at retirement as early as age 55. If a participant dies before the normal retirement age and before actual retirement, a benefit is payable to the surviving spouse of a participant meeting eligibility requirements. If a participant dies before retiring, the amount of such participant's contribution, plus credited interest and the vested portion in the account balance pension plan, will be paid to his designated beneficiary, unless a surviving spouse benefit is to be paid. The surviving spouse of a married participant is eligible to receive survivor benefits immediately.

Funding Policy

The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. The Company did not make any contributions in 2024 and 2023. The minimum funding requirements of ERISA have been met by the Company. There are no employee contributions.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

RICHARDSON OILSEED PRODUCTS (US) LIMITED PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation (depreciation) in the value of investments includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan include actuarial fees, investment management fees, and PBGC premiums and are recorded as deductions in the accompanying statements of changes in net assets available for benefits.

Subsequent Events

The Plan has evaluated subsequent events through October 8, 2025, the date the financial statements were available to be issued.

NOTE 3 ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to:

- a) retired or terminated employees or their beneficiaries,
- b) beneficiaries of employees who have died, and
- c) present employees or their beneficiaries.

Benefits under the Plan are accumulated based on the Plan provisions detailed in Note 1. Benefits payable under all circumstances—retirement, death, and termination of employment—are included, to the extent they are deemed attributable to employee services rendered to the valuation date. Benefits to be provided through annuity contracts are excluded from Plan assets and are also excluded from accumulated plan benefits.

RICHARDSON OILSEED PRODUCTS (US) LIMITED PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023

NOTE 3 ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (CONTINUED)

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation as of December 31, 2023 were:

- a. *Interest*: Interest is 4.75%.
- b. *Mortality*: PRI-2012 (amount-weighted) Collar male and female employee mortality tables with MP-2021 generational projections.
- c. *Retirement*: Retirement is assumed at increasing rates beginning at age 55 (3.5%) and continuing through age 75 (100%).
- d. *Spousal Benefits*: It is assumed that 60% of the male employees are married, with females three years younger than males, and 60% of the female employees are married, with males one year older than females.
- e. *Disability*: Disability is assumed at increasing rates beginning at age 25 (0.219% and 0.150% for males and females, respectively) and continuing through age 70 (5.452% and 3.331% for males and females, respectively).
- f. *Actuarial Cost Method*: Unit credit actuarial cost.

The foregoing actuarial assumptions were based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might have been applicable in determining the actuarial present value of accumulated plan benefits.

The following is a summary of actuarial present value of accumulated plan benefits as of December 31, 2023:

Vested Benefits:	
Participants Currently Receiving Payments	\$ 220,950
Other Participants	<u>6,624,782</u>
Total Vested Benefits	6,845,732
Nonvested Benefits	<u>24,946</u>

NOTE 3 ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (CONTINUED)

The changes in the actuarial present value of accumulated Plan benefits for the year ended December 31, 2023 are summarized as follows:

Accumulated Plan Benefits - December 31, 2022	\$ 13,075,554
Increase During Year Attributable to:	
Benefits Accumulated and Gains/Losses	1,796,173
Changes in Assumptions	28,454
Increase for Interest Due to Decrease in Discount Period	488,058
Benefits Paid (including annuity purchase)	<u>(8,517,561)</u>
Net Decrease	<u>(6,204,876)</u>
Accumulated Plan Benefits - December 31, 2023	<u><u>\$ 6,870,678</u></u>

The computations of the actuarial present value of accumulated plan benefits were made as of January 1. Had the valuations been performed as of December 31, there would be no material differences.

NOTE 4 CERTIFICATION OF INVESTMENT INFORMATION

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The Standard Insurance Company, the insurance company and qualified institution, has supplied the Plan administrator with a certification as to the completeness and accuracy of all the investment information presented in the accompanying statements of net assets available for benefits as of December 31, 2024, the statement of changes in net assets available for benefits for the year then ended, the supplemental schedule of assets (held at end of year) as of December 31, 2024.

Minnesota Life Insurance Company, the former insurance company and qualified institution, has supplied the Plan administrator with a certification as to the completeness and accuracy of all the investment information presented in the accompanying statement of net assets available for benefits as of December 31, 2023 and the statement of changes in net assets available for benefits for the year then ended.

NOTE 5 FAIR VALUE OF INVESTMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

RICHARDSON OILSEED PRODUCTS (US) LIMITED PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023

NOTE 5 FAIR VALUE OF INVESTMENTS (CONTINUED)

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair market value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the valuation methodologies used as of December 31, 2024 and 2023.

Pooled Separate Accounts: Valued at the net asset value (NAV) of units as determined by the insurance company. NAV is a readily determinable fair value and is the basis for current transactions.

Guaranteed Return Account: Investments in the insurance company general account are valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer. Funds under the investment contract that have been allocated and applied to purchase annuities (that is, the insurance company is obligated to pay the related pension benefits) are excluded from the Plan's assets.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31:

2024				
	Level 1	Level 2	Level 3	Total

NOTE 6 PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to terminate the Plan, subject to the provisions of ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under the Plan provisions in effect at any time during the five years preceding Plan termination.
2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. governmental agency) up to the applicable limitations.
3. All other vested benefits (that is, vested benefits not insured by the PBGC).
4. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

NOTE 7 RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

RICHARDSON OILSEED PRODUCTS (US) LIMITED PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024 AND 2023

NOTE 8 PLAN TAX STATUS

The volume submitter plan obtained an opinion letter in which the Internal Revenue Service (IRS) states that the volume submitter plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The volume submitter plan has been amended since receiving the opinion letter. However, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions.

NOTE 9 GROUP ANNUITY CONTRACT WITH INSURANCE COMPANY

In 2019, the Plan entered into a group annuity contract with Minnesota Life Insurance Company (Minnesota Life). The contract was used as a funding vehicle for the pooled separate accounts and a general account. The general account was credited with earnings on the underlying investments and charged for Plan withdrawals and administrative expenses charged by Minnesota Life. The average yield and crediting interest rate was 4.48% and 8.36% for the years ended December 31, 2024 and 2023, respectively.

NOTE 10 PARTY-IN-INTEREST TRANSACTIONS

During 2023, the Plan's investments were managed by Minnesota Life. Therefore, the 2023 investment transactions qualify as party-in-interest. During 2024, the Plan's investments were managed by The Standard Insurance Company. Therefore, the 2024 investment transactions qualify as party-in-interest.
