Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) Unmodified (2) Qualified (3) Disclaimer (4) Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) DOL Regulation 2520.103-8 (2) DOL Regulation 2520.103-12(d) (3) neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: HOOD & STRONG LLP

(2) EIN: 94-1254756

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) This form is filed for a CCT, PSA, DCG or MTIA. (2) It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		X	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		X	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		X	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		X	
e Was this plan covered by a fidelity bond?	X		1000000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		X	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		X	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		X	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)	X		
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)		X	
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		X	
l Has the plan failed to provide any benefit when due under the plan?		X	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)		X	
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.

THE RETIREMENT PLAN ADMINISTRATIVE COMMITTEE
MARIN COUNTRY DAY SCHOOL DEFINED
CONTRIBUTION 403(b) RETIREMENT PLAN
Corte Madera, California

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of **MARIN COUNTRY DAY SCHOOL DEFINED CONTRIBUTION 403(b) RETIREMENT PLAN (the Plan)**, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year from the date of this report.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental schedule of Schedule of Assets (Held at End of Year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Marin Country Day School Defined Contribution 403(b) Retirement Plan

Notes to the Financial Statements

Note 1 - Plan Description:

The following brief description of the Marin Country Day School Defined Contribution 403(b) Retirement Plan (the Plan), formerly known as the Marin Country Day School DC Retirement Plan, provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan that operates under Section 403(b) of the Internal Revenue Code (IRC). The Plan is sponsored by Marin Country Day School (the School), a private, nonprofit educational institution. The Plan was established to provide benefits to eligible employees as defined in the Plan document. The Plan Administrator believes the Plan is currently designed and operated in compliance with the applicable requirements of the IRC and the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Plan adopted the distribution provision of the Coronavirus Aid, Relief, and Economic Security (CARES) Act that was signed into law on March 27, 2020. A CARES Act distribution allowed the Plan's participants to take a COVID-19 related distribution of up to \$100,000 from the Plan beginning on or after January 1, 2020 and before December 31, 2020. The Plan also adopted the provision that raised the limits for qualified plan loans from the lesser of \$50,000 or 50% of the present value of the participant's vested account balance to the lesser of \$100,000 or 100% of the present value of the participant's vested account balance for 180 days for loans issued beginning March 27, 2020. After 180 days, all existing loan provisions were restored based on previous regulation and plan rules. The Plan has also implemented certain other requirements of the CARES Act whose laws change the Plan to, among other provisions, allow certain eligible individuals to receive coronavirus-related relief from loan repayment, suspend required minimum distributions, and delay the commencement date for required minimum distributions. Written amendments to the Plan to reflect these operational changes will be adopted not later than the last day of the plan year beginning January 1, 2022, in accordance with applicable law and IRS guidance. The Plan was amended July 12, 2022 for the above provision changes.

The Plan was amended to adopt TIAA's new Retirement Plan Loan program for participants. Loans are offered with a fixed rate of interest and funded directly from the participant's retirement account. The loan amount is deducted from the participant's account balance, and subsequent loan payments, including interest, are credited to the participant's account. There is a one-time origination fee and an annual maintenance fee for any participant loans. Previously loans were considered policy loans from the plan's assets and the participant's holdings were used as collateral. The restatement also included the amendment, effective January 1, 2019, to adopt the hardship distribution provisions of the Bipartisan Budget Act of 2018.

Effective August 19, 2024, the Plan has been amended to revise the definition of excluded employees.

Marin Country Day School Defined Contribution 403(b) Retirement Plan

Notes to the Financial Statements

Effective January 1, 2025 the Plan has been amended to revise the definition of excluded compensation.

Eligibility

All employees are eligible to make an elective deferral contribution into the Plan. With the exception of excluded associate teachers, tutors, substitutes and support employees, all employees must complete 1,000 hours of work during the plan year to be eligible to receive the employer match contribution.

Effective August 19, 2024, associate teachers have been removed from the definition of excluded employees.

Contributions

Eligible employees who complete 1,000 hours of work during the plan year are required, as a condition of employment, to contribute a mandatory 5% of pretax annual compensation, as defined by the Plan, not to exceed the amount allowable under current income tax regulations.

The School makes nondiscretionary matching contributions equal to 5% of eligible employee compensation as defined by the Plan. Unless otherwise directed by the participant, nondiscretionary contributions will be invested in the CREF money market fund.

Participant Accounts

Each participant's account is credited with the participant's elective and, if applicable, rollover contributions and allocations of (a) the Employer nondiscretionary matching contribution and (b) Plan earnings or losses thereon and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the plan agreement.

Vesting

Participants are immediately vested in their contributions, rollover contributions, and School matching contributions plus actual earnings thereon.

Participant Investment Options

Upon enrollment in the Plan, a participant may direct their account balance in a variety of investment choices as more fully described in the Plan's literature. Participants may change their investment options as allowed by their contracts throughout the year.

Marin Country Day School Defined Contribution 403(b) Retirement Plan

Notes to the Financial Statements

Policy Loans

Policy loans are issued directly from funds owned by TIAA and not from participant accounts and are therefore not reflected in these financial statements. TIAA requires adequate security for the loans issued and a portion of the participant's accounts is reserved, or held in collateral, to cover 110% of the outstanding loan in case of default. Interest rates charged on these loans may be fixed or variable and were determined by the terms of the controlling contract. Repayments on these loans, including principal and interest, are made directly by the participant to TIAA and CREF and do not flow through the Plan.

As of December 31, 2024 and 2023, the outstanding policy loan balances were \$27,294 and \$73,288, respectively. The loans bear per annual interest at rates that range from 4.00% to 5.73% at December 31, 2024.

Notes Receivable from Participants

The Plan allows active participants to borrow from their participant accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of the vested portion of their account balance. Loan terms range from one to five years. The loans are secured by the balance in the participant's account and the interest rate is set at prime plus 1% per annum. Principal and interest are paid directly to TIAA. A participant may have up to three loans outstanding at a time. As of December 31, 2024, the interest rates on outstanding loans were between 4.25% and 9.50% per annum.

Payment of Benefits

Upon termination of service due to death, hardship, disability, or retirement, upon reaching age 59½ or deemed severance from employment while performing military service, a participant may elect to receive a lump-sum amount, installment payments or an annuity equal to the value of the participant's vested interest in his or her account. Traditional annuity accounts with balances exceeding \$2,000 must be distributed over a ten-year period. Effective January 1, 2018, if a terminated participant's account is less than \$5,000 and the Plan does not receive distribution instructions, the account will be rolled into an Individual Retirement Account with Millennium Trust Company. There were no participant requests to withdraw from the Plan as of December 31, 2024 and 2023 that had not been paid out as of those dates.

Plan Administration and Custodian

TIAA and CREF serve as the custodian of the Plan assets. TIAA serves as the record keeper for the Plan. TIAA, FSB, a federal savings association, may also serve as a directed Trustee or Custodian of the Plan assets record kept by TIAA.

Marin Country Day School Defined Contribution 403(b) Retirement Plan

Notes to the Financial Statements

Note 2 - Significant Accounting Policies:

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Investment Valuation and Income Recognition

Investments of the Plan are held by the Custodian and invested based solely upon instructions received from participants. The Plan's investments are valued at fair value as of the last day of the Plan year, except for fully benefit-responsive investment contracts (Note 5) which are reported at contract value. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The School's management determines the Plan's valuation policies utilizing information provided by the issuer and/or Custodian of the Plan. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividend are recorded on the ex-dividend date.

The net appreciation (depreciation) of investments in the Statement of Changes in Net Assets Available for Benefits includes both the unrealized appreciation (depreciation) in the aggregate fair value of investments and realized gains and losses on sale of investments purchased and sold as well as held during the year.

The market volatility of equity-based investments may substantially impact the value of such investments at any given time. It is likely that the value of the Plan's investments, both in total and in individual participant accounts, has fluctuated since December 31, 2024.

Management fees and operating expenses charged to the Plan for investments are deducted from income earned on a daily basis and are not separately reported in these financial statements. Consequently, management fees and operating expenses are reflected as a reduction to net appreciation (depreciation) in fair value of investments.

Marin Country Day School Defined Contribution 403(b) Retirement Plan

Notes to the Financial Statements

Use of Estimates

The preparation of financial statements in accordance with U.S GAAP requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Notes Receivable from Participants

Notes receivable from participants are measured at the unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. Delinquent participant loans are recorded as distributions on the basis of the terms of the Plan document.

Contributions

Contributions from Plan participants and the nondiscretionary matching contributions from the employer are recorded in the year in which the employee contributions are withheld from compensation.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the School. Expenses that are paid by the School are excluded from these financial statements. Investment related expenses are included in net appreciation in fair value of investments.

Revenue Sharing

The Plan recognizes the income from revenue sharing agreements when received. During 2024, the Plan received \$49,571 of revenue sharing income utilized for plan expenses and was applied as an offset to administrative expenses in the Statement of Changes in Net Assets Available for Benefits.

Subsequent Events

The Plan Administrator has evaluated subsequent events from December 31, 2024, through October 6, 2025 the date the financial statements were available to be issued, and has determined that, except as disclosed in Note 1, there were no material subsequent events that required recognition or disclosure.

Marin Country Day School Defined Contribution 403(b) Retirement Plan

Notes to the Financial Statements

Note 3 - Certified Information:

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and ERISA-required supplemental schedule, including investments and notes receivable from participants held at December 31, 2024 and 2023, and net appreciation in fair value of investments, interest and dividend income, and interest income on notes receivable from participants for the year ended December 31, 2024, was obtained by management and agreed to or derived from information certified as complete and accurate by TIAA and CREF (the Custodian of the Plan).

Note 4 - Fair Value Measurements:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Marin Country Day School

Defined Contribution 403(b) Retirement Plan

Notes to the Financial Statements

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value on a recurring basis and recognized in accompanying Statement of Net Assets Available for Benefits. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Mutual funds: valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Variable annuity contracts: valued based on the NAV of underlying securities held by the contract at year end, which are generally valued using market quotations or prices obtained from independent pricing sources that may employ various pricing methods to value the investments including matrix pricing.

The CREF Accounts are valued at the daily unit value published on NASDAQ. The funds are not traded on this exchange. The value of the unit holder's investment rises and falls with the return on the underlying assets in the account. The CREF variable annuity accounts consist of eight investment portfolios: the Stock, Global Equities, Growth, Equity Index, Bond Market, Inflation-Linked Bond, Social Choice, and Money Market accounts.

The Plan may redeem units at fair value on any day the New York Stock Exchange is open for business. Participants cannot redeem units from the CREF portfolios (with the exception of the Money Market account) for 90 days if a purchase, sale, and/or repurchase is made within that account within a 60-day period.

The TIAA Access variable annuity accounts are funded through a separate investment account of TIAA registered under the Investment Company Act of 1940, which invests in proprietary and non-proprietary mutual funds through various sub-accounts. Sub-account unit values are calculated daily. The TIAA Access variable annuity accounts are valued based on the net asset values of underlying securities held by the contract at year end, which are generally valued using market quotations or prices obtained from independent pricing sources that may employ various pricing methods to value the investments including matrix pricing.

Pooled separate account: the TIAA Real Estate account is a pooled separate account in which daily unit values are published on NASDAQ. The fund is not traded on this exchange. The value of the unit holder's investment rises and falls with the return on the underlying assets in the account. Redemptions are permitted daily except participant transfers out of the fund, which are limited to one per calendar quarter.

Marin Country Day School Defined Contribution 403(b) Retirement Plan

Notes to the Financial Statements

Fixed annuity contracts: the Plan has investments in non benefit-responsive TIAA Traditional Annuity (RA and RC) contracts, which are presented at contract value which approximates fair value, on the Statement of Net Assets Available for Benefits. Transactions involving the purchases and sales of individual RA and RC contracts are not observable in a public marketplace, but contract value is a good approximation of fair value as supported by the fact that new contributions represent current transactions between willing buyers and sellers as prescribed in the relevant U.S. GAAP guidance. As these transactions continue to occur with continued participant contributions at current stated contract values, the market-observable presumption is that the contract value of current funding represents a good approximation of fair value based on the willingness of the participant to continue to contribute. For each contribution, TIAA continues to record a contractual liability for the current contribution and does not consider such liability to have any embedded gain or loss. Further, TIAA has concluded that contract value approximates fair value using a quantitative model based on assumptions of future interest rates and related discounted cash flows. The contract value equals the accumulated cash contributions and interest credited to the Plan's contract, less withdrawals.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at measured fair value as of December 31, 2024 and 2023. Classification with the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

Quantitative Information about Significant Unobservable Inputs in Level 3 Fair Value Measurements

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs.

Calculation of a weighted average was not feasible. Additionally, a Plan level weighted average would not be a meaningful measurement with respect to any individual contract.

Defined Contribution 403(b) Retirement Plan

Notes to the Financial Statements

The TIAA Access Nuveen Lifecycle funds seek high total return over time through a combination of capital appreciation and income. Each of the funds is designed to provide a single diversified portfolio managed with a target retirement date in mind. The target date is the approximate date when investors expect to begin withdrawing money from the fund. Each portfolio invests in certain underlying equity and fixed-income funds offered by the TIAA and CREF Funds.

The TIAA Access Nuveen Large-Cap Value fund seeks a favorable long-term total return, mainly through capital appreciation, primarily from equity securities of large domestic companies. The fund normally invests at least 80% of its assets in large-cap equity securities that the fund's management team believes are undervalued based on an evaluation of their potential worth. These funds may invest up to 20% of its assets in foreign issuers.

The TIAA Access Nuveen International Equity fund seeks a favorable long-term total return, mainly through capital appreciation, primarily from equity securities of foreign issuers. It normally invests at least 80% of its assets in equity securities of foreign issuers. The fund maintains investments of equity securities of foreign issuers in at least three countries other than the United States. The fund's management team looks for companies of any capitalization size that demonstrate an ability to generate free cash flow and strong market share. Particular emphasis is placed on companies with performance-oriented management teams that focus on growth through innovation, sustainable earnings growth and shareholder returns. The fund may invest in stocks of smaller companies and in emerging market securities depending on the prevalence of opportunities.

TIAA Access Nuveen Real Estate Securities Select Fund seeks to obtain a favorable long-term total return through both capital appreciation and current income, by investing primarily in equity securities of companies principally engaged in or related to the real estate industry. The Fund invests at least 80% of its assets in the securities of companies that are principally engaged in or related to the real estate industry ("real estate securities"), including those that own significant real estate assets, such as real estate investment trusts. The Fund also may invest up to 15% of its assets in real estate securities of foreign issuers and up to 20% of its assets in equity (including preferred stock) and debt securities of issuers that are not engaged in or related to the real estate industry.

TIAA Access Nuveen Quant Small Cap Equity Fund seeks a favorable long-term total return, mainly through capital appreciation, primarily from equity securities of smaller domestic companies. The Fund invests at least 80% of its assets in small-cap equity securities. For these purposes, "equity securities" include equity securities of any type, including common stocks; preferred securities; warrants to purchase common stocks and preferred securities; convertible debt securities that are either in the money or immediately convertible into common stocks or preferred securities; common and preferred securities issued by master limited partnerships and real estate investment trusts; depositary receipts; and other securities with equity characteristics.

Notes to the Financial Statements

Note 5 - Fully Benefit-Responsive Contracts:

The Plan has traditional investment contracts and a Stable Value fund with TIAA. The traditional investment contracts are sub-contracts, representing both fully benefit-responsive and non-benefit-responsive contracts. For investment contracts that are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the traditional investment contract because it is the amount participants normally would receive if they were to initiate permitted transaction under the terms of the Plan. These contracts are included in the financial statements at contract value. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Fully benefit-responsive investment contracts totaled \$1,671,566 at December 31, 2024, which consisted of \$1,454,695 in TIAA Traditional fully benefit-responsive investment contracts and \$216,871 of TIAA Stable Value fully benefit-responsive investment contracts. At December 31, 2023, fully benefit-responsive investment contracts that totaled \$1,749,238, which consisted of \$1,486,926 in TIAA Traditional fully benefit-responsive investment contracts and \$262,312 of TIAA Stable Value fully benefit-responsive investment contracts.

These investment contracts held by the Plan are guaranteed investment contracts held in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Each premium allocated to the fixed annuity investment contract buys a guaranteed minimum amount of lifetime income based on the rate schedule in effect at the time the premium is credited. The average yield earned by the Plan is adjusted to reflect the actual interest rate credited to participants calculated by dividing the annualized earnings credited to participants for all fully benefit-responsive investment contracts by the fair value of all fully benefit-responsive investment contracts.

The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 3%. Such interest rates are reviewed and re-set by TIAA on an annual basis. The TIAA contract also offers the opportunity for additional amounts in excess of the guaranteed rate. When declared, additional amounts remain in effect for the 12-month period that begins each March 1.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

The contracts do not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Marin Country Day School Defined Contribution 403(b) Retirement Plan

Notes to the Financial Statements

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events may be different under each contract and include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, and (5) premature termination of the contract.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following: (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, and (4) a material amendment to the agreements without the consent of the issuer.

Participants are permitted to transfer funds between their CREF accounts and into their TIAA Retirement Annuity at any time. However, transfers out of the TIAA annuity into any CREF account by an active participant can only be made through a Transfer Payout Annuity (TPA), which provides for the transfer of funds in substantially equal installments over a period of ten years.

Note 6 - Related Party and Party-in-Interest Transactions:

Plan investments are managed by TIAA and CREF or affiliate of TIAA and CREF. Such an arrangement, while considered a party-in-interest transaction under ERISA regulations, is permitted under the provisions of the Plan and is specifically exempt from the prohibition of party-in-interest transactions under ERISA.

Certain administrative functions are performed by officers or employees of the School. No such officer or employee receives compensation from the Plan. Certain other administrative expenses are paid directly by the School.

Note 7 - Plan Termination:

Although the School has not expressed any intent to do so, the School has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. All participants are currently 100% vested in their entire account.

Notes to the Financial Statements

Note 8 - Income Tax Status:

The Plan has been designed to qualify under Section 403(b) of the IRC. The Plan is required to operate in conformity with the IRC to maintain the tax-exempt status for Plan participants under Section 403(b). The Plan Administrator believes that the Plan, as amended, is currently designed and operating in accordance with the applicable requirements of Section 403(b) of the IRC and, therefore, believes that the Plan is qualified and the related accounts are tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that is more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require recognition or disclosure in the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements.

Note 9 - Risks and Uncertainties:

Investment securities are exposed to various risks, such as interest rate, market fluctuations and credit risks. Due to the nature of risks associated with investment securities, it is at least reasonably possible that changes in the level of risk in the near term would materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

As of December 31, 2024 and 2023, 18% and 20% of the Plan's investments are held with TIAA and CREF as noted below, respectively. This is considered to be a concentration of credit risk.
