## Report of Independent Auditors

To the Plan Participants and the Plan Administrator of the  
AMETEK, Inc. Defined Benefit Pension Plans

### **Scope and Nature of the ERISA Section 103(a)(3)(C) Audit**

We have performed audits of the financial statements of each of the AMETEK, Inc. Defined Benefit Pension Plans (the Plans), employee benefit plans subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits, listed on pages 4 and 5, as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits, as listed on pages 6 and 7, for the years then ended, the statements of accumulated plan benefits, listed on page 8, as of December 31, 2023, and the related statements of changes in accumulated plan benefits, as listed on page 9, for the year then ended, and the related notes (collectively referred to as the “financial statements”).

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plans (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

### **Opinion**

In our opinion, based on our audits and on the procedures performed as described in the Auditor’s Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

### **Basis for Opinion**

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plans and to meet our other ethical responsibilities in accordance with the relevant ethical

## Shape the future with confidence

requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plans' ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plans, and determining that the Plans' transactions that are presented and disclosed in the financial statements are in conformity with the Plans' provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### **Auditor's Responsibilities for the Audit of the Financial Statements**

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plans' internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plans' ability to continue as a going concern for a reasonable period of time.

## Shape the future with confidence

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control related matters that we identified during the audits.

### **Other Matter**

#### *Supplemental Schedule Required by ERISA*

The supplemental schedule of nonexempt transactions for the AMETEK, Inc. Pension Plan for the year ended December 31, 2024 (referred to as the “supplemental schedule”), is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the form and content of the supplemental schedule is presented, in all material respects, in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.

**1. Description of the Plans**

**General**

The Employees' Retirement Plan of AMETEK, Inc., AMETEK, Inc. Monthly Formula Pension Plan, AMETEK, Inc. Pension Plan, and the AMETEK, Inc. Aerospace Division Pension Plan (collectively the "Plans"), are noncontributory defined benefit pension plans covering employees of AMETEK, Inc. ("AMETEK", "Plan Sponsor" or the "Company") who meet certain age and service requirements. For a more detailed description of the Plans participating in the Ametek, Inc. Employees' Master Retirement Trust ("Trust"), refer to the pension plan documents for each of the Plans.

**Eligibility**

***Employees' Retirement Plan of AMETEK, Inc.***

Participation in the Employees' Retirement Plan of AMETEK, Inc. ("Retirement") is limited to (1) employees at participating divisions who joined AMETEK prior to January 1, 1997 and (2) employees who were participants in any predecessor plan that has been merged into the Employees' Retirement Plan.

All employees of participating divisions in the Retirement Plan who are not eligible for benefits under the Retirement Plan are eligible to participate in a defined contribution plan sponsored by AMETEK.

***AMETEK, Inc. Monthly Formula Pension Plan***

Eligible hourly employees from certain divisions who previously participated in the Retirement Plan now participate in the AMETEK, Inc. Monthly Formula Pension Plan. Effective December 31, 2015, AMETEK, Inc. Monthly Formula Pension Plan was amended to close the plan to employees of Measurement and Calibration Technologies Division, Sensor Technologies Business Unit: Feasterville, PA, who are hired, or re-hired following a one-year period of severance, on or after January 1, 2016. Effective January 1, 2021, the Monthly Formula Pension Plan was amended to close the plan to employees hired or rehired after December 31, 2020 at Measurement and Calibration Technologies Division, Largo, FL, Advance Motions Solutions Division, Dynamic Fluid Solutions Business Unit, Whitsett, NC and Measurement and Power Systems Division, Binghamton, NY.

***AMETEK, Inc. Pension Plan***

Effective January 1, 2023, the following plans were merged into the Chemical Products (Wapakoneta, Ohio Plant) Plan: (1) Chemical Products (Nesquehoning, PA Plant) Division of AMETEK, Inc. Hourly Employees' Pension Plan and (2) EDAX, Inc. Pension Plan for Hourly Employees District Lodge No. 15. Effective January 1, 2023, The Chemical Products (Wapakoneta, Ohio Plant) Division of AMETEK, Inc. Hourly Employees' Pension Plan was renamed the AMETEK, Inc. Pension Plan. Effective February 1, 2023, the SoundCom Corporation Defined Benefit Plan was merged into the AMETEK, Inc. Pension Plan. At the time of the mergers, all participants who were previously eligible for the predecessor plans are now eligible for the AMETEK, Inc. Pension Plan. No future employees are eligible to participate in the plan.

***AMETEK, Inc. Aerospace Division Pension Plan***

Participation in the AMETEK, Inc. Aerospace Division Pension Plan is limited to employees of the Measurement and Power Systems Division of AMETEK, Inc. at the Wilmington, Massachusetts location who are members of a bargaining unit and who are hired on or before May 31, 2016.

**Contributions**

AMETEK's contributions, which are determined annually on an actuarial basis, along with the increase (decrease) in plan interests in the master trust, are designed to sufficiently fund the benefits to be paid to the Plans' participants. The Plans have met the minimum funding requirements of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Reductions in the normal form of benefit range from 6% to 6.667% per year prior to normal retirement date.	In addition to providing the statutory qualified surviving spouse annuity, certain former Nesquehoning participants are eligible for \$100 per year of credited service up to a maximum of 10 years.	Benefits for certain former Wapakoneta participants range from \$6,500 to \$9,000. Certain former Nesquehoning participants are eligible for the remainder of 60 times the pensioner's monthly pension less aggregate payments received prior to death.
Aerospace - Union	Benefits are based on the sum of percentages of career compensation up to and in excess of covered compensation not to exceed 34 years of service plus a percentage of compensation for each year of credited service in excess of 34 years of service.  Certain participants are eligible to receive supplemental pension payments.	Age 55 with 5 years of service. Benefit reduced by 8% per year prior to age 60.	In addition to providing the statutory qualified surviving spouse annuity, lump sum amount equals to the present value of employee retirement benefit for five years.	For certain participants of transferred employees or union members meeting certain requirements who retired after May 18, 2002, \$13,000 lump sum payment upon death of retiree.
Monthly Formula	Accrued monthly pension at actual retirement date generally based on varying rates, times years of service.	Accrued monthly pension at early retirement date, reduced 1/15 <sup>th</sup> per year for pre-normal retirement date commencement.	50% of accrued monthly pension as of date of death, reduced for 50% joint and survivor annuity and for payment before normal retirement date. Lifetime payments to spouse may begin at participant's earliest retirement date.	Lump sum paid to designated beneficiary as follows: Binghamton participants - \$3,000; Hunter Spring and East Moline participants - \$2,000; Feasterville, Horsham, Largo, and Whitsett participants - \$1,000.

**Pension Annuitization**

Effective November 13, 2023, the Employees' Retirement Plan of AMETEK, Inc. was amended to provide for an annuity contract buy-out purchase. AMETEK entered into a contract for a group annuity to transfer the obligation to pay the remaining retirement benefits of certain plan participants in the Retirement Plan to an insurance company. The transfer of \$17.4 million was completed in November 2023 and is included in purchase of annuity contract in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2023.

**December 31, 2024 and 2023**

**Plan Termination**

Should the Plans terminate at some future time, their net assets generally will not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation ("PBGC") at that time. Some benefits may be fully or partially provided for by the then-existing net assets and the PBGC guarantee, while other benefits may not be provided for at all.

**2. Summary of Significant Accounting Policies**

**Basis of Presentation**

The accompanying financial statements have been prepared on the accrual basis of accounting.

**Allocation of the Master Retirement Trust**

At December 31, 2024 and 2023, the assets of the Plans were held by The Bank of New York Mellon/BNY Mellon, N.A. ("Trustee") as Trustee of the Trust.

Assets attributable to the individual plans participating in the Trust are equitable shares, which are based on each plan's proportionate share of total net assets of the Trust as of the end of each month, excluding unpaid contributions. Contributions received, benefits paid and direct administrative expenses are accounted for as direct cash flows designated to the individual plans during the period. The Trustee allocates earned income, realized and unrealized gains and losses, and Trust expenses to individual plans based on each plan's pro rata share of the fair value of the Trust's net assets at the end of the reporting period.

**Investment Valuation and Income Recognition**

The Plans' investments are stated at fair value. Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. See Note 5 for further discussion and disclosures related to fair value measurements.

Portfolio managers of the Trust may enter into certain types of foreign currency futures, option, and forward contracts in order to enhance liquidity or protect the total return of the Trust's portfolio from market volatility or manage foreign currency exposure. Realized and unrealized gains and losses from these contracts are included in investment income.

Purchases and sales of securities are reflected on the trade dates. Gains and losses on sales of securities are based on the average cost of securities. Dividend income is recorded on the ex-dividend date. Income from other investments is recorded as earned. Net appreciation (depreciation) includes the Plans' realized and unrealized gains and losses as well as investments held at year-end.

**Actuarial Plan Benefits Valuation**

Accumulated plan benefits represent the actuarial present value of estimated future periodic payments, including lump-sum distributions that are attributable under the Plans' provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances - retirement, death, disability, and termination of employment - are included, to the extent they are deemed attributable to employee services rendered to the valuation date.

The actuarial present value of accumulated plan benefits under the Plans was calculated by the consulting actuaries, based on the latest available data as of December 31, 2023. The actuarial present value of accumulated plan benefits is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

**Defined Benefit Pension Plans**  
**Notes to Financial Statements**  
**December 31, 2024 and 2023**

**Administrative Expenses**

Specific expenses incurred by the Plans are reported on the statements of changes in net assets available for benefits as administrative expenses. Administrative expenses related to the Trust are allocated to the Plans and are reflected in the change in value of plan interest in net assets of the Trust.

**Payments of Benefits**

Benefits are recorded when paid.

**Use of Estimates**

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect amounts reported in the financial statements and accompanying notes and supplemental schedule. Actual results could differ from those estimates and assumptions.

**Risks and Uncertainties**

The Trust invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market fluctuation and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that those changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

**3. Accumulated Plan Benefits**

Significant assumptions underlying the actuarial valuation at December 31, 2023 are as follows:

Assumed Rate of Return on Investments	7.46% at December 31, 2023, compounded annually, net of investment expenses. 7.59% at December 31, 2022, compounded annually, net of investment expenses.
Mortality Basis	At December 31, 2023 and 2022, mortality reflects the Pri-2012 gender-specific mortality table with generational projection using Scale MP-2021, no collar (Retirement Plan) and blue collar (all other plans) adjustments.
Retirement Rates	Average retirement ages of 61 to 65.

These actuarial assumptions are based on the presumption that the Plans will continue. Were the Plans to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The \$1.2M Pension Plan amendment reported in the Statements of Changes in Accumulated Plan Benefits for the year ended December 31, 2023 reflects the merger of the SoundCom plan into the Pension Plan. The decrease in the assumed rate of return on investments is reflected as assumption change in the accompanying statements of changes in accumulated plan benefits for the year ended December 31, 2023.

**4. Investment and Master Trust Information**

## 5. Fair Value Measurements

The Plans utilize a valuation hierarchy for disclosure of the inputs to the valuation used to measure fair value. This hierarchy prioritizes the inputs into three broad levels as follows. Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 2 inputs are quoted prices for similar assets and liabilities in active markets or inputs that are observable for the asset or liability, either directly or indirectly through market corroboration, for substantially the full term of the financial instrument. Level 3 inputs are unobservable inputs based on the Plans' own assumptions used to measure assets and liabilities at fair value. A financial asset or liability's classification within the hierarchy is determined based on the lowest level input that is significant to the fair value measurement.

The following is a description of the valuation methodologies used for assets at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Level 1 investments are unadjusted, observable inputs from active markets. Common stocks are valued at the closing price reported on the active market on which the individual securities are traded. Registered investment companies are valued at quoted market prices which represent the net asset values of shares held by the Trust at year-end.

**AMETEK, Inc.**  
**Defined Benefit Pension Plans**  
**Notes to Financial Statements**  
**December 31, 2024 and 2023**

Level 2 investments are equity funds and fixed income funds that are valued by the vendor using observable market inputs. Fixed income securities such as certain government, municipal, and corporate obligations are primarily measured using a market approach pricing methodology, where observable prices are obtained by market transactions involving identical or comparable securities of issuers with similar credit ratings. Corporate obligations are all investment grade quality.

Alternative investments are considered level 3 investments as their values are determined by the sponsor using unobservable market data. The Plans' investment policy, developed by the Pension Investment Committee, limits the amount the Plans may invest in investments that are difficult to value. As of December 31, 2024 and 2023, the Plans hold no alternative investments.

Common collective trusts, which include temporary cash investments, are valued based on the Trust's unit of ownership and net asset value of the investment entity's underlying investments. These investments have no unfunded commitments and no limits as to the frequency of redemptions. However, the investments have various redemption terms and notice periods.

A summary of the fair value of the Trust assets at December 31, 2024 and 2023 was as follows (in thousands):

**December 31, 2024 and 2023**

The objectives of the Plans' investment strategies are to maximize the Plans' funded status and minimize Company contributions and plan expenses. Because the goal is to optimize returns over the long-term, an investment policy that favors equity holdings has been established. Since there may be periods of time where both equity and fixed-income markets provide poor returns, allocations to alternative assets may be made to improve the overall portfolio's diversification and return potential. The Pension Investment Committee periodically reviews the Trust's asset allocation, taking into consideration plan liabilities, plan benefit payment streams and the investment strategy of the pension plans. The actual asset allocation is monitored frequently relative to the established targets and ranges and is re-balanced when necessary.

The equity portfolio is diversified by market capitalization and style. The equity portfolio also includes an international component.

The objective of the fixed-income portion of the pension assets is to provide interest rate sensitivity for a portion of the assets and to provide diversification. The fixed-income portfolio is diversified within certain quality and maturity guidelines in an attempt to minimize the adverse effects of interest rate fluctuations.

Other than investments in certain collective trusts and pooled investments funds, certain investments are prohibited. Prohibited investments include venture capital, private placements, unregistered or restricted stock, margin trading, commodities, short selling and rights and warrants. Foreign currency futures, options and forward contracts may be used to enhance liquidity or protect the total return of the Trust's portfolio from market volatility or manage foreign currency exposure.

## **6. Income Tax Status**

The Plans have received determination letters from the Internal Revenue Service ("IRS") dated as follows:

Employees' Retirement Plan of AMETEK, Inc. (001)	January 21, 2016
AMETEK, Inc. Pension Plan (012)	October 19, 2015
AMETEK, Inc. Aerospace Division Pension Plan (043)	October 27, 2015
AMETEK, Inc. Monthly Formula Pension Plan (035)	January 21, 2016

The determination letters state that each of the Plans qualifies under Section 401(a) of the Internal Revenue Code ("IRC") and, therefore, the related trust is exempt from taxation. Subsequent to the issuance of the determination letters, all of the Plans were amended and/or restated. Once qualified, the Plans are required to operate in conformity with the IRC to maintain their qualification. The Plan Sponsor believes the Plans are being operated in compliance with the applicable requirements of the IRC and therefore believes these Plans, as amended and/or restated, are qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plans. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan Sponsor has analyzed the tax positions taken by the Plans, and has concluded that as of December 31, 2024, there are no uncertain positions taken or expected to be taken. The Plans have recognized no interest or penalties related to uncertain tax positions. The Plans are subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

## **7. Related Party and Party-in-Interest Transactions**

At December 31, 2024 and 2023, the Trust held an investment in AMETEK common stock, consisting of 200,057 and 232,710 shares with a cost of \$99,177 and \$115,365, respectively. At December 31, 2024 and 2023, the market value was \$36,062,275 and \$38,371,552, respectively. For the years 2024 and 2023, the Trust received \$233,207 and \$295,516, respectively, in related dividends.

**AMETEK, Inc.**  
**Defined Benefit Pension Plans**  
**Notes to Financial Statements**  
**December 31, 2024 and 2023**

Certain of the Trust's assets are invested in funds managed by the Trustee of the Plans. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transaction rules under ERISA.

**8. Subsequent Events**

The Plans have evaluated, for consideration of recognition or disclosure, subsequent events through September 26, 2025, the date the financial statements were available to be issued and have determined that no significant events occurred after December 31, 2024, that would have a material impact on the financial statements.

## Schedule SB, Part V Statement of Actuarial Assumptions/Methods

### Actuarial Assumptions and Methods

#### Economic Assumptions

##### Interest rate basis:

Applicable month	January 2024
Interest rate basis	Segment Rates from one month preceding valuation date

Interest rates:	Reflecting corridors	Not reflecting corridors
First segment rate	4.75%	4.37%
Second segment rate	4.96%	4.96%
Third segment rate	5.59%	4.95%
Effective interest rate	5.08%	4.90%

##### Annual rates of increase

Salaries	3.75%
Future Social Security wage bases	3.25%
Statutory limits on compensation	3.00%

**Plan-related expenses** Plan-related expenses are assumed to be the actual plan-related expenses paid for the prior rounded up to the nearest ten-thousand dollars. The amount included this year for plan-related expenses for the plan is \$160,000.

As permitted by law, rates reflecting stabilization are used to determine the funding target and target normal cost, and thus the minimum required contribution under IRC §430 for the plan. Because these assumptions are subject to a corridor based on average interest rates over a 25-year period, they may differ from (and generally currently are higher than) current market interest rates, and may be inconsistent with other economic assumptions used in the valuation.

## Demographic Assumptions

**Inclusion Date** The valuation date coincident with or next following the date on which the employee is hired.

**New or rehired employees** It was assumed there will be no new or rehired employees.

### Mortality

**Healthy** Separate rates for non-annuitants (based on Pri-2012 “Employees” and “Healthy Annuitants” (participants and beneficiaries combined) tables, respectively, without collar or amount adjustments and then projected forward with a generational projection as specified in the regulations under §1.430(h)(3)-1 using the IRS adjusted Scale MP-2021 (i.e., MP-2021 with no mortality improvement for 2020-2023 and future mortality improvement capped at 0.78% for years after 2024).

**Disabled** Same as Healthy Mortality

**Termination** Rates varying by age and, for certain plans, by service during a select period.

Sample rates:

Plan	Age			
	25	35	45	50
<b>Aerospace Union</b> (after the 8-year select period)	.085	.064	.044	.030

### Disability

## Benefit

### Commencement Date

Retirement benefit      Immediately upon retirement

Deferred vested benefit      Age 62

### Form of payment

Assumption

10% Single Life Annuity

30% Certain and Life

60% Joint and Survivor

### Percentage married

80%

### Spouse age

Wife two years younger than husband

### Valuation pay

Base pay for the year preceding the valuation date plus the average of the bonuses accrued for the two years preceding the valuation date, adjusted to the valuation year using the assumed salary increase rate.

### Covered pay

Base pay for the year preceding the valuation date plus the average of the bonuses accrued for the two years preceding the valuation date, adjusted to the valuation year using the assumed salary increase rate.

### Timing of benefit payments

Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

## Methods

### Valuation date

First day of plan year.

### Funding target

Present value of accrued benefits as required by regulations under IRC §430.

### Target normal cost

Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year as required by regulations under IRC §430.

### Decrement timing

Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year as required by regulations under IRC §430.

## **Actuarial value of assets**

Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings of 7.59% and 6.75% (with such expected earnings limited by the prior year's third segment rate as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2023 plan year.)

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA).

These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years.

However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

## **Benefits not valued**

Certain plans pay small benefits with a present value up to \$5,000 in a single lump sum payment. Such lumps sums are not explicitly valued as such; rather such participants benefits are valued using the benefit choice assumptions described above.

All benefits described in the Plan Provisions section of this report were valued except for the Special Supplement. Due to the small window of eligibility, and de minimis value of the benefit, the Special Supplement benefit is not reflected for current active participants in the valuation (only reflected for retirees upon commencement).

WTW has reviewed the plan provisions with AMETEK, Inc. and, based on that review, is not aware of any significant benefits required to be valued that were not.

## **Data Sources**

The plan sponsor furnished participant data as of January 1, 2024. Data were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

## Assumptions Rationale - Significant Economic Assumptions

**Discount rate** The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.

### Rates of increase in:

**Compensation** Assumed compensation increases are based on plan sponsor expectations for near-term years and the effect that the assumed long-term CPI and NAW will have on compensation increases over the longer term.

**National average wages (NAW) (e.g., Social Security wage bases)** The assumed NAW is based on assumed CPI as shown below, plus assumed increases in real wages (the portion of GDP increases that becomes part of wages). Such assumed future increases in real wages based on a combination of recent rates and an expectation that the future rates will be lower (higher) than current conditions.

**Increases in statutory limits (CPI)** The assumed CPI is based on a combination of current conditions, and future forecasts by economists. The final assumption represents a composite of current rates and long term expected rates.

**Assumed return for asset smoothing** The assumed return used for asset smoothing is the lesser of the 3<sup>rd</sup> segment rate and the expected return on assets assumption chosen by the client for the current plan year under U.S. GAAP. Although determining the expected rate of return on plan assets was not within the scope of our work, it is the client's best estimate and we determined that it does not significantly conflict with what would be reasonable based on their asset allocation.

**Plan-related expenses** Plan-related expenses are assumed to be the actual plan-related expenses paid for the prior rounded up to the nearest ten-thousand dollars. As required by regulations, plan-related expenses should estimate the expenses to be paid from the trust during the coming year (including, for example, expected PBGC premiums and actuarial, accounting, legal, administration and trustee fees to be paid from the trust).

## Assumptions Rationale - Significant Demographic Assumptions

<b>Healthy Mortality</b>	Assumptions used for funding purposes are as prescribed by IRC §430(h).
<b>Disabled Mortality</b>	Assumptions used for funding purposes are as prescribed by IRC §430(h).
<b>Termination</b>	Termination rates are based on plan sponsor expectations for the future with periodic monitoring of observed gains and losses caused by termination patterns different than assumed and as evaluated in the 2020 experience study.
<b>Disability</b>	Disability rates are based on plan sponsor expectations for the future with periodic monitoring of observed gains and losses caused by disability patterns different than assumed.
<b>Retirement</b>	Retirement rates are based on plan sponsor expectations for the future with periodic monitoring of observed gains and losses caused by retirement patterns different than assumed and as evaluated in the 2020 experience study.
<b>Benefit commencement date for deferred benefits:</b>	
Preretirement death benefit	Surviving spouses are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start then unless the spouse elects to defer. If the spouse elects to defer, actuarial increases from the earliest commencement date must be given, so that a later commencement date is expected to be of approximately equal value, and experience indicates that most spouses do take the benefit as soon as it is available.
Deferred vested benefit	Deferred vested participants' assumed commencement age is a single age intended to capture the average age at commencement.
<b>Form of Payment</b>	The percentage of retiring participants assumed to take plan specific forms of payment is based on the plan sponsor's expectations for the future with periodic monitoring of changes caused by patterns different than assumed and as evaluated in the 2020 experience study.
<b>Percentage married</b>	The assumed percentage married is based on plan experience, as well as general population statistics on the marital status of individuals of

retirement age and as evaluated in the 2020 experience study.

## **Spouse age**

The assumed age difference for spouses is based on plan experience, as well as general population statistics of the age difference for married individuals of retirement age assumed and as evaluated in the 2020 experience study.

## **Change in Assumptions and Methods**

### **Change in assumptions and methods since prior valuation**

The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430.

The mortality table used to calculate the funding target and target normal cost was changed from using a static projection of mortality improvement to a generational projection as required by guidance issued by IRS under IRC §430.

Plan-related expenses were updated to reflect the most recent experience.

## **Source of Prescribed Methods**

### **Funding methods**

The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.
