## INDEPENDENT AUDITORS' REPORT

To the Plan Administrator of the  
MOI, Inc. Employee Stock Ownership Plan

### OPINION

---

We audited the accompanying financial statements of the MOI, Inc. Employee Stock Ownership Plan (Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the Statements of Net Assets Available for Benefits as of December 31, 2024 and 2023, the related Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023 and the changes in its net assets available for benefits for the year ended December 31, 2024 in accordance with accounting principles generally accepted in the United States of America.

### BASIS FOR OPINION

---

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audits of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we obtained is sufficient and appropriate to provide a basis for our audit opinion.

### RESPONSIBILITIES OF MANAGEMENT FOR THE FINANCIAL STATEMENTS

---

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments and administration of the Plan, and for determining that the Plan's transactions presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants to determine the benefits due or which may become due to such participants.

## **AUDITORS' RESPONSIBILITIES FOR THE AUDITS OF THE FINANCIAL STATEMENTS**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

## **SUPPLEMENTAL SCHEDULE REQUIRED BY ERISA**

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The Supplemental Schedule of Assets (Held at End of Year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The

information was subjected to auditing procedures applied in the audits of the financial statements and to certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

**NOTE 1**    **DESCRIPTION OF PLAN**

The following description of the MOI, Inc. Employee Stock Ownership Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

The Plan purchased MOI, Inc. common stock using proceeds from a term loan (see Note 5). As the Plan makes debt payments, an appropriate percentage of stock will be allocated to eligible participants' accounts.

The borrowing is collateralized by the unallocated shares of common stock. Accordingly, the financial statements of the Plan as of December 31, 2024 and 2023 and for the year ended December 31, 2024 present separately the assets and liabilities and changes therein pertaining to the accounts of participants with vested rights in allocated common stock (allocated) and common stock not yet allocated to participants (unallocated).

***General***

The Plan was adopted effective January 1, 2001 for the benefit of eligible employees of MOI, Inc. (Company). The Company elected to be taxed as an S corporation under the provisions of the Internal Revenue Code. The Plan is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

***Eligibility***

Each person who was an employee of the Company on the effective date of the Plan became a participant as of the effective date. New employees who are at least 21 years old may become participants upon completion of an eligibility measurement period as mandated by the Company. New participants receive allocations of employer contributions upon completion of the eligibility measurement period.

***Voting Rights***

Each participant is entitled to exercise voting rights attributable to the shares allocated to the participant's account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is required to vote for any share for which instructions were not given by a participant.

***Participant Accounts***

Contributions made by the Company are discretionary and may be made for each Plan year in cash or Company stock. The Company's contribution is allocated to participants based on the ratio of each participant's compensation to total compensation of all eligible participants,

*(See Independent Auditors' Report)*

as defined by the Plan. No participant shall be required or permitted to make contributions to the Plan.

***Vesting***

If a participant's employment with the Company ends for any reason other than retirement, permanent disability, or death, the participant will vest in the participant's account balance based on the total years of service with the Company. All participants become 100% vested after completion of six years of service.

***Termination***

The Company may amend or terminate the Plan by majority vote of the Company's board of directors. If the Plan is terminated, participation of all participants will end, and the accounts of each participant shall become 100% vested and would be distributed in accordance with provisions of the Plan.

***Payment of Benefits***

A distribution of shares allocated to a participant's account following the termination of services will be computed in accordance with the Plan agreement.

***Put Option***

Under federal income tax regulations, the Company stock held by the Plan and its participants and not readily tradable on an established market or subject of trading limitations includes a put option. The put option is a right to demand the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure the participant has the ability to ultimately obtain cash.

***Forfeitures***

Plan forfeitures are allocated to participants based on the ratio of each participant's compensation to total compensation of all eligible participants, as defined by the Plan. Forfeitures of terminated non-vested account balances allocated to remaining participants totaled 30.3576 shares and \$34,642.01 for the year ended December 31, 2024.

***Administrative Expenses***

Certain administrative expenses of the Plan are paid by the Company. In addition, the Company provides services to the Plan without charge.

**NOTE 2** SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

***Accounting Standards Codification***

All references in the financial statements to the Codification refer to the Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles (GAAP) issued by the Financial Accounting Standards Board. The Codification is the single source of authoritative GAAP in the United States.

***Basis of Accounting***

The financial statements of the Plan are prepared on the accrual basis of accounting.

***Use of Estimates***

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

***Investment Valuation***

Investments are stated at fair value. The fair value of common shares of the Company is determined by an annual independent appraisal. The appraised value per share used to record the Company's common stock in the financial statements was \$1,694.43 and \$1,188.70 as of December 31, 2024 and 2023, respectively. The latest appraisal was as of December 31, 2024. See Note 4 for a discussion of fair value measurements.

***Subsequent Events***

The Plan evaluated subsequent events and transactions for potential recognition or disclosure in the financial statements through October 10, 2025, the date the financial statements were available to be issued.

***Risk and Uncertainties***

The Plan provides for investments in various investment securities, which are exposed to various risks, such as interest rate, credit, and overall volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term, and such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Fair Value	\$ 10,672,226	\$ 2,077,847	\$ 12,750,073

**NOTE 4 VALUATION OF INVESTMENTS**

Investments are recorded at fair value in accordance with the provisions of the Fair Value Measurements and Disclosures Topic of the Codification, which establishes a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

Quoted prices for similar assets or liabilities in active markets;

Quoted prices for identical or similar assets or liabilities in inactive markets;

Inputs other than quoted prices that are observable for the asset or liability;

Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

*(See Independent Auditors' Report)*

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Below is a description of the valuation methodology used for assets measured at fair value. There were no changes in the methodology used at December 31, 2024 and 2023.

Investments in Employer Stock: The fair value of the common stock is based upon an independent appraisal. This appraisal was based upon a combination of the market and income valuation techniques consistent with prior years. The significant unobservable inputs used in the valuation included projected net cash flows, long-term growth rate, discount rate, weighted average cost of capital, and discount for lack of marketability.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The table below sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023:

	<b>Level 3 and Total</b>	
	<b>2024</b>	<b>2023</b>
Investment in Employer Stock	\$ 18,174,566	\$ 12,750,073

The table below sets forth a summary of changes in fair value of the Plan's Level 3 assets for the year ended December 31, 2024:

	<b><u>Investment in Employer Stock</u></b>
Balance, Beginning of Year	\$ 12,750,073
Net Change in Appraised Value	5,424,493
Balance, End of Year	\$ 18,174,566

*(See Independent Auditors' Report)*

**NOTE 5**      **NOTE PAYABLE – MOI, INC.**

On December 31, 2011, the Plan purchased 3,836 shares of common stock from existing stockholders for \$2,193,678 in cash. In addition, the Plan borrowed \$2,500,000 from the Company and acquired an additional 4,370 shares of common stock from existing stockholders. The unallocated shares of common stock are collateral for a bank term loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, times the ratio of current year payments, divided by the total of all payments. This resulted in 218 shares being released and allocated for the Plan year ended December 31, 2024. The note bears interest at 2.8% and requires annual principal and interest payments of \$164,947 through December 31, 2031.

The note matures as follows:

Year Ending December 31, 2025	\$	135,947
2026		139,753
2027		143,666
2028		147,689
2029		151,824
Thereafter		<u>316,581</u>
		<u>\$ 1,035,460</u>

**NOTE 6**      **INCOME TAX STATUS**

The Plan is a defined contribution plan designed to qualify under Section 401(a) of the Internal Revenue Code (IRC) and, therefore, is not subject to tax under present income tax law. The Plan received a favorable determination of the Plan's tax-qualified status from the Internal Revenue Service. The Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan Administrator is not aware of any course of action or series of events that occurred which might adversely affect the Plan's qualified status.

GAAP requires Plan management to evaluate uncertain tax positions for recognition in the financial statements. The Plan Administrator concluded there were no uncertain tax positions taken as of December 31, 2024.
