Independent Auditor's Report

To the Plan Administrator and Those Charged with Governance of
Highlands Bankshares, Inc. Employee Stock Ownership Plan
Petersburg, West Virginia

Opinion

We have audited the accompanying financial statements of Highlands Bankshares, Inc. Employee Stock Ownership Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024, and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Highlands Bankshares, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining

sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor’s Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Highlands Bankshares, Inc. Employee Stock Ownership Plan’s internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Highlands Bankshares, Inc. Employee Stock Ownership Plan’s ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial

statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Highlands Bankshares, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2024

Note 1 – Plan Description

The following description of Highlands Bankshares, Inc. Employee Stock Ownership Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General

Highlands Bankshares, Inc. (the “Company”) is a bank holding company whose primary assets are its 100% interest in its two subsidiary banks, Grant County Bank and Capon Valley Bank. The Company established the Plan as an employee stock ownership plan covering substantially all full-time employees of the Company who have completed one year of service (at least 1,000 hours) and are age twenty-one or older. The Plan is designed to comply with Section 4975(e)(7) and the regulations thereunder of the *Internal Revenue Code (IRC)* and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan held 44,214 and 42,507 shares of 1,336,873 shares outstanding at December 31, 2024 and 2023, respectively. The cost basis of the Company stock was \$1,035,028 and \$979,552 at December 31, 2024 and 2023, respectively.

Administration

American Pension Benefits Retirement Services (APB) provides certain administrative services to the Plan.

ESOP

Using non-participant directed funds of the Plan, the Plan purchases the Company common stock from shareholders as the trustees deem necessary to meet the upcoming obligations of the Plan. The stock is allocated to eligible employees’ accounts upon purchase.

Contributions

The Company may make discretionary contributions to the Plan at the option of the Company’s Board of Directors and shall not exceed amounts allowable under the *IRC*. Contributions may be made in cash or in shares of the Company stock.

Participant Accounts

Each participant’s account is credited with an allocation of the Company contributions, forfeitures, and Plan earnings. The Company contributions and forfeiture allocations are based on a participant’s eligible compensation as it relates to the total eligible compensation for all participants for the Plan year. Plan earnings allocations are based on a participant’s eligible stock balance as it relates to the total stock balance for all participants for the Plan year. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s account.

Voting Rights

Each participant is entitled to direct the Trustee as to the manner in which the Company stock which is entitled to vote and which is allocated to the Company stock account of such participant is to be voted. If the Trustee does not timely receive voting directions from a participant, the Trustee shall vote such Company stock.

Notes to Financial Statements

Vesting

Vesting in the Company's discretionary contributions plus actual earnings thereon, is based on years of continuous service as defined by the Plan. Participants vest 20% per year of service after two years of service and are 100% vested after six years of credited service. Participants also vest upon death or total and permanent disability prior to retirement.

Put Option

Under Federal income tax regulations, employer stock held by the Plan and its participants that is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of up to five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify their account each year in increments of 25% of the total number of shares of Company common stock in the participant's account. As of December 31, 2024, there were no participants who elected this option.

Forfeitures

Forfeitures of terminated nonvested account balances may be used to pay administrative expenses or to reduce future employer contributions. Forfeitures may also be allocated each year among eligible participants in the same proportion that the participant shares in the employer contribution. Forfeitures of terminated nonvested account balances were \$2,338 and \$205 at December 31, 2024 and 2023, respectively. Forfeitures were completely allocated among eligible participants for the years December 31, 2024 and 2023. No forfeitures were used to pay administrative expenses or to reduce future employer contributions.

Administrative Costs

Plan administrative expenses are paid by the Company, although the Company is not required to do so.

Payment of Benefits

Upon termination of employment, a participant can elect, subject to Plan limitations and approval by the employer, to receive benefits as cash payments paid in equal installments over a period of up to five years or receive benefits in a lump-sum payment either in cash or Company common stock.

If the participant separates from service by reason of retirement, death, or total or permanent disability, a participant's account balance must be distributed no later than the close of the Plan year following the Plan year in which the participant terminates employment.

Highlands Bankshares, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2024

If the participant separates from service by reason other than retirement, death, or total or permanent disability, the distribution of the participant's account balance must be distributed no later than the close of the sixth Plan year following the Plan year in which the participant terminates employment.

Participants' Investment Options

All participant account balances, employer contributions and earnings thereon are invested in the Company common stock. The investment of employer discretionary contributions is non-participant directed.

Note 2 – Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Cash and Cash Equivalents

The Plan's cash consists of a non-interest-bearing checking account. Generally, accounts are insured by the Federal Deposit Insurance Corporation (FDIC) up to \$250,000.

Valuation of Investments and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion on fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains or losses on the Company common stock bought and sold as well as held during the year.

The Plan invests in the Company common stock. The investment may be exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with this investment, it is at least reasonably possible that changes in the values of this investment will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Payment of Benefits

Benefit payments are recorded when paid.

Notes to Financial Statements

Subsequent Events

Subsequent events have been evaluated through October 6, 2025, the date the financial statements were available to be issued.

Note 3 – Fair Value Measurements

The Plan’s investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with those of other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority; Level 2 inputs consist of observable inputs other than quoted prices for identical assets; and Level 3 consist of unobservable inputs and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investment. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were used only when Level 1 or Level 2 inputs were not available.

	Fair Value Measurements at Reporting Date Using:	
	Fair Value	Significant Unobservable Inputs (Level 3)
<u>December 31, 2024</u>		
Highlands Bankshares, Inc. common stock	<u>\$ 2,061,257</u>	<u>\$ 2,061,257</u>
<u>December 31, 2023</u>		
Highlands Bankshares, Inc. common stock	<u>\$ 1,827,376</u>	<u>\$ 1,827,376</u>

Level 3 Fair Value Measurements

The fair value of the Company common stock held by the Plan is valued at an estimated fair value based upon an independent appraisal using available financial data. This appraisal was based upon a combination of market and income valuation techniques, consistent with the prior year. The significant unobservable inputs used by the appraiser to measure fair value include historical and projected cash flow and net income, return on assets, return on equity, market comparable and estimated fair value of the Company assets and liabilities. Significant changes to these inputs could result in a significantly higher or lower fair value measurement for the Company’s common stock. The valuation process involves Plan management’s selection of an independent appraiser. Plan management accumulates the data for the appraiser from financial statements of the Company. The appraiser prepares a preliminary report which Plan management, along with the Board of Directors, reviews in detail, discusses, and approves.

Highlands Bankshares, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2024

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the years ended December 31:

	2024
Balance, beginning of year	\$ 1,827,376
Realized and unrealized gains	178,397
Purchases	55,484
Balance, end of year	<u>\$ 2,061,257</u>
Total gains for the year included in changes in net assets available for benefits attributable to the change in unrealized gains relating to investments still held at the reporting date.	<u>\$ 178,397</u>

Gains (realized and unrealized) included in changes in net assets available for benefits are reported in net appreciation/depreciation in fair value of investments.

Note 4 – Related Party Transactions

Certain administrative functions are performed by officers or employees of the Company. These employees are also Plan participants. No such officer or employee receives compensation from the Plan.

Participant accounts are invested in the common stock of the plan sponsor.

Note 5 – Plan Termination

Although it has not expressed any intention to do so, the Company reserves the right to discontinue the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the participants shall become fully vested in the balance in their accounts and the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time as prescribed by the Plan terms and the *IRC*. In the event of termination of the Plan, the Committee shall value the Fund as of the date of such termination. The accounts affected by the termination may be distributed in accordance with the provisions of the Plan document.

Note 6 – Tax Status

The IRS has determined and informed the plan sponsor by a letter dated December 1, 2016, that the Plan is designed in accordance with applicable sections of the *IRC*.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements.
