Pension Plan for Employees of G.A.L. Manufacturing Corporation and  
Hollister-Whitney Elevator Corporation

### **Scope and Nature of the ERISA Section 103(a)(3)(C) Audit**

We have performed audits of the financial statements of the Pension Plan for Employees of G.A.L. Manufacturing Corporation and Hollister-Whitney Elevator Corporation (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Pension Plan for Employees of G.A.L. Manufacturing Corporation and Hollister-Whitney Elevator Corporation's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2024 and 2023, stating that the certified investment information, as described in Note 10 to the financial statements, is complete and accurate.

### **Opinion**

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

### **Basis for Opinion**

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Pension Plan for Employees of G.A.L. Manufacturing Corporation and Hollister-Whitney Elevator Corporation and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

**Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Pension Plan for Employees of G.A.L. Manufacturing Corporation and Hollister-Whitney Elevator Corporation's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

**Auditor's Responsibilities for the Audit of the Financial Statements**

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2024 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Pension Plan for Employees of G.A.L. Manufacturing Corporation and Hollister-Whitney Elevator Corporation's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Pension Plan for Employees of G.A.L. Manufacturing Corporation and Hollister-Whitney Elevator Corporation's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2024 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

**Other Matters – Supplemental Schedules Required by ERISA**

The supplemental schedule of assets (held at end of year) of December 31, 2024 and the supplemental schedule of reportable transactions for the year ended 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

**Note 1. Description of Plan**

The following brief description of the Pension Plan for Employees of G.A.L. Manufacturing Corporation and Hollister-Whitney Elevator Corporation (the “Plan”) is provided for general information purposes only. Participants should refer to the plan document for a more complete description of the Plan’s provisions.

Effective January 31, 2020, participation in the plan was frozen and the accrual of additional benefits ceased. The plan was amended on June 1, 2020 to grant additional years of credited service as of the plan freeze date for a select group of long-service participants.

*A. General*

The Plan is a defined benefit pension plan covering non-union employees of G.A.L. Manufacturing Corporation and Hollister-Whitney Elevator Corporation (the “Company”), who have a minimum of six months of service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”) as amended. The effective date of the Plan was January 1, 1972 and was restated as of January 1, 2011. The above entities are related entities under common control and ownership; Accordingly, the Form 5500 is for a single employer plan.

The Plan is administered by the Company’s Benefits Committee (Committee). The Committee has overall responsibility for the operation and administration of the Plan. The Committee determines the appropriateness of the Plan’s investment offerings, monitors investment performance and reports to the Plan’s Board of Trustees.

*B. Funding Policy*

The Plan’s funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. The Company’s contributions for the years ended December 31, 2024 and 2023 were \$516,000 and \$224,000 respectively, both which exceeded the minimum funding requirements of ERISA.

Although it has not expressed any intention to do so, the Company has the right under the plan to discontinue its contributions at any time and to terminate the plan subject to the provisions set forth in ERISA.

*C. Pension Benefits*

Employees are entitled to annual pension benefits beginning at normal retirement age of 65 with at least five years of service. Vesting service is a year during which a participant has at least 1,000 hours of service. The benefit is based on the average of total compensation (excluding the cost of taxable group term life insurance) during the 15, or lesser-completed, consecutive years of employment in which the member is most highly paid. For participants who terminate employment prior to reaching “Normal Retirement Age”, the average of the last ten years of compensation is projected to Normal Retirement Age when calculating the 15-year average.

The Normal Retirement Benefit is 41% of average compensation plus 22.75% of average compensation in excess of the Social Security Covered Compensation Table as of the first day of the Plan year, the result prorated for less than 35 years of Plan participants.

*D. Death and Disability Benefits*

If the participant is not vested, no death benefits are payable. If the participant is vested, then the death benefit is 50% of the amount that would have been payable to the participant under the 50% joint and survivor option.

Upon retirement due to Total and Permanent Disability, the Actuarial Equivalent of Accrued Benefit is payable.

**Note 2. Summary of Significant Accounting Policies**

The following are the significant accounting policies followed by the Plan:

*Basis of Accounting* - The accompanying financial statements are prepared on the accrual basis of accounting.

*Use of Estimates* - The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statement, and changes therein. Actual results could differ from those estimates.

*Investment Valuation and Income Recognition* - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a discussion of fair value measurements. The Plan's investment committee determines the Plan's valuation policies utilizing information provided by its investment advisers and custodians.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

*Payment of Benefits* - Benefit payments to participants are recorded upon distribution.

*Administrative Expenses* - The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are directly paid by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets available for benefits. In addition, certain investment-related expenses are included in net appreciation of fair value of investments presented in the accompanying statement of changes in net assets available for benefits.

*Subsequent Events* - Plan management has evaluated subsequent events through October 3, 2025, the date which the financial statements were available to be issued.

**Note 3. Actuarial Present Value of Accumulated Plan Benefits**

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service which participants have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present participants or their beneficiaries.

Benefits under the Plan are accumulated based on employees' compensation during each year of credited service. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances – retirement, death, disability and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

**Note 3. Actuarial Present Value of Accumulated Plan Benefits (continued)**

The significant actuarial assumptions used in the valuations as of December 31, 2024 and 2023 were as follows:

Life expectancy of participants:

Current Year: Mortality is based on the Pri-2012 Total Employee and Retiree Mortality Tables (base year 2012) and projected with Mortality Improvement Scale MP-2021, except for current and future beneficiaries of deceased participants. For current and future beneficiaries of deceased participants, mortality is based on the Pri-2012 Contingent Survivor Mortality Tables and projected with Mortality Improvement Scale MP-2021.

Prior Year: Mortality is based on the Pri-2012 Total Employee and Retiree Mortality Tables (base year 2012) and projected with Mortality Improvement Scale MP-2021, except for current and future beneficiaries of deceased participants. For current and future beneficiaries of deceased participants, mortality is based on the Pri-2012 Contingent Survivor Mortality Tables and projected with Mortality Improvement Scale MP-2021.

Retirement age assumptions: The retirement age used is 65 or the participant's current age if past 65.

Interest rates used to discount the obligation: Current Year: 7.25%; Prior Year: 8.00%

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computations of actuarial present value of accumulated plan benefits were made as of January 1, 2025 and 2024. Had the valuations been performed as of December 31, 2024 and 2023, there would be no material differences.

The present values of plan benefits, as determined by the actuary are as follows:

	Year Ended December 31,	
	2024	2023
Actuarial present value of accumulated benefits		
Vested benefits:		
Participants currently receiving benefits	\$ 3,029,488	\$ 2,754,848
Terminated vested participants	2,279,137	1,402,438
Other participants	7,684,944	8,590,756
	12,993,569	12,748,042
Non-vested benefits	-	-
Total actuarial present value of accumulated plan benefits	\$ 12,993,569	\$ 12,748,042

**Note 3. Actuarial Present Value of Accumulated Plan Benefits (continued)**

Changes in the actuarial present value of accumulated plan benefits are as follows:

	December 31, 2024
Actuarial present value of accumulated plan benefits as of beginning of year	\$ 12,748,042
Increase (decrease) during the year attributable to:	
Benefits paid	(561,977)
Interest	997,797
Change in actuarial assumption	330,078
Benefits accumulated and other plan experience	(520,371)
Net increase	245,527
Actuarial present value of accumulated plan benefits as of end of year	\$ 12,993,569

**Note 4. Plan Termination**

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA as amended and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations.
3. All other vested benefits (that is, vested benefits not insured by the PBGC).
4. All non-vested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at the time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

**Note 5. Fair Value Measurements**

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the value of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2024 and 2023.

*Registered investment companies (mutual funds):* Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

**Note 5. Fair Value Measurements (continued)**

The following table sets forth by level, within the fair value hierarchy, the Plan’s assets at fair value as of December 31, 2024 and 2023:

	<i>December 31, 2024</i>			
	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Registered investment companies	<u>\$ 11,119,092</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 11,119,092</u>
	<i>December 31, 2023</i>			
	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Registered investment companies	<u>\$ 10,076,545</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 10,076,545</u>

**Note 6. Risks and Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonable possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonable possible that changes in these estimates in the near-term would be material to the financial statements.

**Note 7. Plan Amendments**

There were no plan amendments during the 2024 and 2023 plan year that had an effect on the actuarial present value of accumulated plan benefits.

**Note 8. Tax Status**

The Plan obtained its latest determination letter on March 27, 2012, in which the Internal Revenue Service states that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (“IRC”). The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the appropriate taxing authority. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

**Note 9. Related-Party and Parties-In-Interest Transactions**

Certain fees incurred by the Plan may be paid directly by the Plan Sponsor or by the Plan including accounting, legal and investment management. Internal fees charged by US Bank are deducted directly from investment assets.

The Plan administrator believes all these transactions qualify for either statutory or administrative exemption from prohibited transaction rules under ERISA.

**Note 10. Information Prepared and Certified by Trustee**

## **Schedule SB, Part V – Statement of Actuarial Assumptions/Methods**

### **Funding assumptions selection and rationale**

The following assumptions were selected by the plan's enrolled actuary. The asset valuation method was selected by the plan sponsor with the actuary's advice.

The demographic assumptions – including rates of retirement and withdrawal, frequency of optional payment form election, and marital percentage – are based on an experience study conducted in 2022 covering plan experience from January 1, 2015 through December 31, 2021, as well as the plan sponsor's future expectations. The asset valuation method was selected by the plan sponsor and is an acceptable method under PPA.

The actuary's expected rate of return is based on a review of the investment mix of the plan's assets (approximately 64% Equity, 26% Fixed Income, and 10% Other), the historical returns on the various asset classes in which the plan's assets will be invested, and input from the plan's investment advisors.

### **Use of Models**

Actuarial Standard of Practice No. 56 ("ASOP 56") provides guidance to actuaries when performing actuarial services with respect to designing, developing, selecting, modifying, using, reviewing, or evaluating models. Gallagher uses third-party software in the performance of annual actuarial valuations and projections. The model is intended to calculate the liabilities associated with the provisions of the plan using data and assumptions as of the measurement date under the funding rules and standards specified in this report. Further, the model applies those funding rules and standards to the liabilities derived and other inputs, such as plan assets and contributions, to generate many of the exhibits found in this report. Gallagher has an extensive review process whereby the results of the liability calculations are checked using detailed sample output, changes from year to year are summarized by source, and significant deviations from expectations are investigated. Other funding outputs are similarly reviewed in detail and at a high level for accuracy, reasonability and consistency with prior results. Gallagher also reviews the model when significant changes are made to the software. The review is performed by experts within the company who are familiar with applicable funding rules as well as the manner in which the model generates its output.

The signing actuary has used economic information and tools provided by Buck's Financial Risk Management ("FRM") practice to review the reasonableness of this expected return on assets assumption. A spreadsheet tool created by the FRM team converts averages, standard deviations, and correlations from Buck's Capital Markets Assumptions ("CMA") that are used for stochastic forecasting into approximate percentile ranges for the arithmetic and geometric average returns. Percentiles are based on standard matrix multiplication and normal approximations. This simplified model (disclosed here under ASOP 56) ignores inter-period dependence and the skewed nature of single year returns. As such it is intended to suggest possible reasonable ranges for EROA without attempting to predict or select a specific best estimate rate of return. However, it does take into account the duration (horizon) of investment and the approximate allocation of assets in the portfolio to various asset classes with different expected returns, standard deviations, and correlations to other asset classes. Under current calibrations, the EROA tool will tend to show a greater divergence between arithmetic and geometric average returns the higher the standard deviation of portfolio return.

### **Future actuarial measurements**

Future actuarial measurements may differ significantly from current measurements due to plan experience differing from that anticipated by the actuarial assumptions, changes expected as part of the natural operation of the methodology used for these measurements, and changes in plan provisions, applicable law or regulations. An analysis of the potential range of such future differences is beyond the scope of this report. However, in accordance with ASOP 51, an assessment of risks for the plan was performed.

## Schedule SB, Part V – Statement of Actuarial Assumptions/Methods (continued)

### Prescribed Funding/PBGC Assumptions and Methods

The following assumptions and methods are prescribed by ERISA, as currently amended.

#### Interest rates

	2024 Plan Year	2023 Plan Year
<b>Funding Rates – Constrained*</b>		
First Segment Rate	4.75%	4.75%
Second Segment Rate	4.96%	5.00%
Third Segment Rate	5.59%	5.74%
Effective Interest Rate	5.23%	5.34%
<b>Funding Rates – Unconstrained**</b>		
First Segment Rate	4.37%	2.13%
Second Segment Rate	4.96%	3.62%
Third Segment Rate	4.95%	3.93%
Effective Interest Rate	4.93%	3.75%
<b>PBGC Premium Funding Target Rates</b>		
First Segment Rate	5.01%	4.84%
Second Segment Rate	5.13%	5.15%
Third Segment Rate	5.15%	4.85%
Effective Interest Rate	5.13%	4.99%

\* Used for minimum funding and benefit restriction purposes.

\*\*Used for maximum tax-deduction and ERISA 4010 reporting purposes.

The interest rates used for funding purposes are the Segment Rates with no-month lookback, constrained in accordance with relevant legislation.

#### Mortality

Mortality tables mandated by applicable law and regulation as specified in IRS Regulation 1.430(h)(3)-1, in the Federal Register on October 20, 2023, in TD 9983, 88 FR 72357, applied on a static basis, using the blended annuitant/non-annuitant table applicable to small plans.

#### Lump Sum interest and mortality:

Interest Rate: Forward rates implied by the funding interest rates (annuity substitution rule)

Mortality: 2024 IRC 417(e) Applicable Mortality table, as amended by IRS Notice 2023-73

#### Actuarial cost method

The Funding Target is the present value of accrued benefits based on compensation and service to date. The Target Normal Cost is the present value of benefits expected to be accrued during the current plan year, reflecting the effect of expected compensation increases during the year and including expected plan administrative related expenses to be paid from plan assets during the year.

## Schedule SB, Part V – Statement of Actuarial Assumptions/Methods (continued)

### Non-Prescribed Funding Assumptions and Methods

#### Frequency of optional payment forms

For active participants, it is assumed that 40% will elect an immediate cash out of their vested benefits upon withdrawal prior to age 65. The remaining 60% are assumed to defer payment until their normal retirement date.

Similarly, for deferred vested participants who terminated within one year of the valuation date it is assumed that 40% will elect an immediate cash out of their vested benefits upon withdrawal prior to age 65. The remaining 60% of those who terminated within one year of the valuation date and all other deferred vested participants are assumed to defer payment until their normal retirement date.

For participants assumed to commence at their normal or deferred retirement date, it is assumed they will elect the following forms of payment:

Payment Form	Assumption
Lump Sum	60.00%
Life Annuity	20.00%
100% Joint & Survivor Annuity	20.00%

#### Marital percentage

80% of participants are assumed to be married and all spouses are assumed to be the same age as the participant.

#### Withdrawal rates for active participants prior to age 65

Active participants with 0-4 years of vesting service:	20.00%
Active participants with 5 or more years of vesting service:	8.00%

#### Retirement rates

For participants in active status, retirement rates are assumed as follows:

Age	Rate
65 - 69	33.33%
70	100.00%

Participants in deferred vested status are assumed to retire at their normal retirement date at age 65.

In addition, for purposes of determining At-Risk Funding Target and At-Risk Target Normal Cost, employees eligible to retire and receive a benefit in the next 11 years are assumed to retire when first eligible (but not before the end of the current plan year) and will elect to receive the form of benefit producing the highest present value.

#### Disability rates

None.

## Schedule SB, Part V – Statement of Actuarial Assumptions/Methods (continued)

### Non-Prescribed Funding Assumptions and Methods (continued)

#### Asset valuation method

The Actuarial Value of Assets is market value as of the valuation date, including the discounted value of accrued contributions, reduced by 2/3 of the gain/(loss) for the immediately preceding plan year and reduced by 1/3 of the gain/(loss) for the plan year before that. The gain/(loss) for each period is determined as the actual return on market value during the period less the expected return on market value based on an assumed earnings rate chosen by the actuary but required by current law and regulation to be not greater than the applicable third Segment Rate. The resulting value is constrained to be within a corridor of 90% to 110% of market value, including discounted receivable contributions.

	Actuary's Assumption	Third Segment Rate	Reflecting Limit
2024 Expected Return	8.00%	5.59%	5.59%
2023 Expected Return	8.00%	5.74%	5.74%
2022 Expected Return	6.50%	5.92%	5.92%

#### Summary of Changes from the January 1, 2023 Valuation

- The interest rates and mortality tables were updated to those applicable to the current year in accordance with the requirements of the Internal Revenue Code and associated regulations.

The combined effect of the changes in the interest rates and mortality increased the plan's liability by approximately \$0.1M.

**Plan Freeze**

Effective January 31, 2020, participation in the plan was frozen and the accrual of additional benefits ceased. Accruals through that date were earned as designated below. The plan was amended on June 1, 2020 to provide additional years of credited service to select long-service employees as of the freeze date.

**Plan Year**

January 1 through December 31

**Eligibility**

All non-union employees are eligible on their date of hire if they were hired on or after January 1, 2018. For those eligible employees not already participating in the plan, the entry date will be January 1, 2018.

**Normal Retirement Date**

First of the month following the attainment of age 65 or the fifth anniversary of Plan Participation, if later.

**Average Compensation**

Average of total compensation (excluding the cost of taxable group term life insurance) during the 15, or lesser-completed, consecutive years of employment in which the member is most highly paid. For participants who terminate employment prior to reaching Normal Retirement Age, the average of the last ten years of compensation is projected to Normal Retirement Age when calculating the 15-year average.

**Normal Retirement Benefit**

41% of Average Compensation plus 22.75% of Average Compensation in excess of the Social Security Covered Compensation Table as of the first day of the Plan Year, the result prorated for less than 35 years of plan participation.

**Early Retirement Benefit**

The plan does not provide an early retirement benefit.

**Accrued Benefit**

Projected benefit at Normal Retirement Date multiplied by a fraction equal to (a) years of plan participation as of the date of determination, divided by (b) total years of plan participation at Normal Retirement Date.

**Standard Form of Retirement Benefit**

Life Annuity. If the Participant is married, the benefit must be converted to an actuarially equivalent Joint & Survivor Annuity, unless elected otherwise with spousal consent.

**Disability Benefits**

Upon retirement due to Total and Permanent Disability, the Actuarial Equivalent of Accrued Benefit is payable.

**Pre-Retirement Death Benefits**

If the Participant is not vested or is single, no death benefit is payable. If the Participant is vested, a death benefit equal to 50% of the Accrued Benefit is payable (in the form of a Pre-Retirement Survivor Annuity unless elected otherwise with Spousal Consent).

**Termination Benefits**

Upon termination of employment prior to retirement, death, or disability, the vested Accrued Benefit is payable at Normal Retirement Date.

**Vesting**

Vested in the accrued benefit based on years of service. 100% after five years of vesting service. A year of vesting service is credited for each Plan Year in which an employee completes at least 1,000 hours of service.

**Actuarial Equivalence**

Mortality: 1983 Male Group Annuity Mortality Tables

Interest Rate: 8.00%

**Summary of Changes from the January 1, 2023 Valuation**

None.
