**REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS**

Trustees  
TerraPower, LLC 401(k) Plan

**Scope and nature of the ERISA Section 103(a)(3)(C) audit**

We have performed audits of the financial statements of TerraPower, LLC 401(k) Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note X to the financial statements, is complete and accurate.

**Opinion**

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

**Basis for opinion**

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

**Responsibilities of management for the financial statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

**Auditor's responsibilities for the audit of the financial statements**

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

**Other matter – supplemental schedules required by ERISA**

The supplemental schedule of assets (held at year end) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures. These additional procedures included comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with US GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

**TerraPower, LLC 401(k) Plan**

**NOTES TO FINANCIAL STATEMENTS**

**December 31, 2024 and 2023**

**NOTE A - PLAN DESCRIPTION**

The following description of the TerraPower, LLC 401(k) Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

***General***

The Plan is a defined contribution plan, established by TerraPower, LLC (the "Company" and "Sponsor"), covering all eligible employees of the Company. The Plan provides for contributions pursuant to Section 401(a) of the Internal Revenue Code ("IRC") and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

***Eligibility***

Employees are eligible to participate in the Plan if they are full time employees. Union employees, nonresident aliens, leased employees, and independent contractors are not eligible.

***Plan Administration***

The Plan is administered by the Sponsor. The custodian and record keeper of the Plan is Voya Institutional Trust Company ("VOYA").

***Contributions***

Plan participants may contribute up to 100% of eligible compensation, as defined by the Plan, subject to certain limitations under the IRC regulations. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

The Plan elected a Safe Harbor Match. Through the end of Plan year 2024, the employer match formula was 100% of the first 3% of participant elective deferrals and 50% of the amount of participant elective deferrals that exceed 3% but do not exceed 5% of participant's compensation. The Company contributed \$4,140,351 for the year ended December 31, 2024.

The Company may, at its sole discretion, make non-elective employer contributions. Participants must complete one year of service during the Plan year and remain employed by the Company on the last day of the Plan year to be eligible to receive a non-elective employer contribution, which is allocated to participants based on the ratio of each participant's compensation to the compensation of all eligible participants. There were no non-elective employer contributions for the year ended December 31, 2024.

***Vesting***

Participants are immediately vested into their entire account, including all employer contributions. As such, forfeitures are not applicable to the Plan.

***Participant Accounts***

Participant accounts are maintained for each of the Plan's participants to reflect the participant's contributions, the related employer match contributions, and the participant's share of the Plan's income. Participant's accounts are valued on a daily basis based on quoted market prices.

**TerraPower, LLC 401(k) Plan**

**NOTES TO FINANCIAL STATEMENTS - CONTINUED**

**December 31, 2024 and 2023**

***Benefits***

On termination of service due to death, disability, or retirement, a participant or beneficiary may elect to receive a lump-sum distribution equal to the value of the participant's vested interest in his or her account. Distributions can also be made to participants during their employment with the Company if they meet certain requirements (including certain hardship provisions) as defined within the Plan document.

On termination of service not due to death, disability, or retirement, participants with vested benefits of \$5,000 or less, a participant will automatically receive the value of the vested interest in his or her account as a lump-sum distribution. For vested benefits greater than \$5,000, participants may either elect to rollover their account, take a lump sum distribution, or leave their vested funds in the Plan until age 73, at which time a minimum distribution is required. If VOYA is not contacted by a terminated employee with an account balance greater than \$5,000 the company assumes the employee has elected to keep their vested portion in the Plan and does not process any distributions.

***Hardship Withdrawals***

Under certain conditions, participants, while still employed by the Company, are permitted to withdraw, in a single sum, the employee contribution portion of their account balance. These conditions include unreimbursed medical expenses, the purchase of the participant's principal residence, the payment of postsecondary education tuition, or to prevent eviction or foreclosure from the participant's principal residence.

***Notes Receivable from Participants***

A participant may borrow 50% of his or her vested account balance up to a maximum of \$50,000. Each participant may have a maximum of two outstanding loans. The minimum loan amount is \$1,000. Loans are repayable through payroll deductions over periods ranging up to five years, unless the loan is used to acquire a principal residence, in which case the administrator may permit longer repayment terms. Loans are secured by the balance of the participant's account and must be repaid upon termination of employment. The interest rate is determined by the Plan Administrator based on Moody's Corporate Bond yield Average-Monthly Corporate rate and is fixed over the life of the note. The interest rates on outstanding loans were between 2.91% and 5.88% and the total outstanding loan balance was \$605,870 as of December 31, 2024, with various maturity dates through November 2054.

***Administrative Expenses***

The Plan permits the payment of Plan expenses to be made from the Plan or Plan Sponsor's assets. If expenses are paid using the Plan's assets, then the expenses will generally be allocated among the accounts of all participants in the Plan. These expenses will be allocated either proportionately based on the value of the account balances or as an equal dollar amount based on the number of participants in the Plan. The method of allocating the expenses depends on the nature of the expense itself. Administrative expenses for 2024 totaled \$4,209 and were paid by individual participants as the fees related to distribution processing fees.

***Investment Options***

Participants may direct their account balance into the investment options in 1% increments. Participants may select one or more predetermined investment options. Participants may change their investment elections and make transfers between investment options daily.

The Plan provides for various investment fund options, which, in turn, invest in a combination of stocks, bonds, and other investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain

**TerraPower, LLC 401(k) Plan**

**NOTES TO FINANCIAL STATEMENTS - CONTINUED**

**December 31, 2024 and 2023**

investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Contributions may be temporarily held as cash balances prior to the execution of the investment according to the participant's direction.

**NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

***Basis of Accounting***

The financial statements of the Plan are prepared on the accrual basis in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

***Use of Estimates***

The preparation of financial statements in conformity with ("U.S. GAAP") requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

***Investment Valuation and Income Recognition***

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note G for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis.

Interest and dividend income are accrued as earned. Net appreciation or depreciation in fair value is the net gain or loss on disposition of investments plus the net unrealized increase or decrease in fair value during the year of investments held at year end.

***Risks and Uncertainties***

The Plan invests in various investment securities that are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits and changes therein.

***Payment of Benefits***

Benefits are recorded when paid.

***Notes Receivable from Participants***

Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and expensed when they are incurred to participant requesting the loan. Delinquent loans are reclassified as distributions based upon the terms of the Plan document.

**TerraPower, LLC 401(k) Plan**

**NOTES TO FINANCIAL STATEMENTS - CONTINUED**

**December 31, 2024 and 2023**

**NOTE C - PARTY-IN-INTEREST TRANSACTIONS**

At December 31, 2024 and 2023, certain Plan investments were invested in shares of funds managed by an entity affiliated with VOYA, the custodian of the Plan. These transactions qualify as party-in-interest transactions. Notes receivable from participants also qualify as party-in-interest transactions and are denoted as such on the supplemental schedule of assets (held at end of year).

**NOTE D - CERTIFIED INVESTMENT INFORMATION**

The Plan Administrator elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, VOYA, the custodian of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule are complete and accurate:

- Investments, at fair value, and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2024 and 2023.
- Investment income and interest income on notes receivable from participants, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2024.
- Information included on Schedule H, part IV, line 4i, schedule of assets (held at end of year) as of December 31, 2024.

**NOTE E - TAX STATUS**

The Plan adopted a non-standardized pre-approved plan sponsored by VOYA, effective January 1, 2022. The Internal Revenue Service ("IRS") has determined and informed VOYA, by an opinion letter dated June 30, 2020, that the pre-approved Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes the Plan is designed and is currently being operated in compliance with applicable requirements of the IRC.

("U.S. GAAP") require the Plan Administrator to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024 and 2023, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

**NOTE F - PLAN TERMINATION**

Although it has not expressed any intent to do so, the Company has the right, under the Plan, to discontinue its contributions at any time, and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, assets of the Plan will be used to provide benefits according to the priority described in the Plan Document.

**TerraPower, LLC 401(k) Plan**

**NOTES TO FINANCIAL STATEMENTS - CONTINUED**

**December 31, 2024 and 2023**

**NOTE G - FAIR VALUE MEASUREMENTS**

In accordance with fair value accounting, the following fair value hierarchy is used for determining inputs for the Plan assets:

- Level 1 - Valuation is based upon quoted prices for identical instruments traded in active markets.
- Level 2 - Valuation is based upon quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market.
- Level 3 - Valuation is generated from model-based techniques that use significant assumptions not observable in the market. These unobservable assumptions reflect our own estimates of assumptions that market participants would use in valuing the asset or liability.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 or 2023. There were no transfers between fair value levels during 2024 and 2023.

*Money market fund: Valued at the quoted market price as of the reporting date.*

*Mutual funds: Valued based on the daily quoted market value of the fund, which represents the net asset value ("NAV") of shares held by the Plan at year end. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.*

*Common collective trust: Valued at the NAV provided by the administrators of the fund. The NAV is used as the practical expedient to estimate fair value. The NAV is based on the value of the underlying assets of the fund, less liabilities, and then divided by the number of units outstanding. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant-directed redemptions have no restrictions; however a liquidation initiated by the Plan Sponsor of the fund may require up to 12 months advance notice. There are no unfunded commitments.*

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
