## **Independent Auditors' Report**

To the Plan Participants and Plan Administrator  
Columbia Forest Products, Inc. Employee Stock Ownership Plan and Trust:

### *Opinion*

We have audited the financial statements of Columbia Forest Products, Inc. Employee Stock Ownership Plan and Trust (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and December 31, 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and December 31, 2023, and the changes in its net assets available for benefits for the years then ended, in accordance with U.S. generally accepted accounting principles.

### *Basis for Opinion*

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### *Responsibilities of Management for the Financial Statements*

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. generally accepted accounting principles, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### *Auditors' Responsibilities for the Audit of the Financial Statements*

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not

a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

#### *Supplemental Schedules Required by ERISA*

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of Schedule H, line 4j - Schedule of Reportable Transactions for the year ended December 31, 2024, and Schedule H, line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

**EMPLOYEE STOCK OWNERSHIP PLAN AND TRUST**

Notes to Financial Statements and Supplemental Schedules

December 31, 2024 and 2023

**(1) Plan Description**

The following description of the Columbia Forest Products, Inc. Employee Stock Ownership Plan and Trust (the Plan or ESOP) is provided for general information purposes only. More complete information regarding the Plan's provisions may be found in the plan document.

**(a) General**

On August 5, 1985, Columbia Forest Products, Inc. (the Company) established the Plan. The Plan is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (the Code), and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The Plan is a defined contribution plan and is designed to invest primarily in common stock of the Company. Distributions are made in cash and under certain conditions common stock of the Company.

Effective January 1, 2015, the Plan document was restated to comply with applicable changes in law caused by various regulations and related guidance.

During 2015, the Plan was amended to clarify that the appointed trustees from Columbia Forest Products, Inc. are responsible for the valuation of the common stock of the Company and engaging an independent appraiser as an advisor concerning the value of the common stock, and to make other technical amendments to provide for continuing qualification of the Plan as an employee stock ownership plan.

**(b) Plan Administration**

The Company holds all Plan assets for the Plan. The Plan is administered by the Administrative Committee consisting of one or more persons appointed by the Company.

**(c) Contributions**

Contributions to the Plan are discretionary and set by the Company's board of directors and may be made in cash, common stock of the Company or other property as the Company's board of directors may from time to time determine. Company contributions are intended to qualify as tax deductions under applicable provisions of the Code. There are no employee contributions to the Plan.

During 2024 and 2023, a portion of the ESOP contribution was made from treasury shares held by the Company, which were not transferred to the ESOP until the following respective plan year and are reflected in contributions receivable at December 31, 2024 and 2023. Included in the annual contribution and the allocation of shares are approximately 315,886 and 299,369 shares of treasury stock contributed by the Company for 2024 and 2023, respectively.

**(d) Eligibility**

Non-U.S. employees and U.S. employees who are covered by a collective bargaining agreement and whose retirement benefits are subject to good faith collective bargaining are not eligible to participate in the Plan. All eligible U.S. employees of the Company become participants of the Plan on the first January 1 or July 1 subsequent to completing a year of service.

**(e) Participant Accounts**

The Plan has established separate individual accounts for each participant. Participants who are eligible for participation at the end of a plan year for which a contribution to the Plan is made, and who have completed 1,000 hours of service during the Plan year shall be entitled to an allocation of the contribution for the year. In the case of employment ending due to retirement, disability, or death during the plan year, a participant will share in the allocation of contributions even if less than 1,000 hours of service were completed during the plan year. The allocation is credited to each participant's account as of the last day of each plan year. All allocations are based on a participant's eligible compensation or hours and service, as defined in the Plan document.

**(f) Vesting**

Participant accounts do not vest until completion of three plan years with the Company in which the participant works at least 1,000 hours, at which time the account becomes 100% vested. Upon termination of service due to death, disability, or retirement (as defined by the Plan), a participant's account becomes fully vested, even if the participant has not completed three plan years of service.

**(g) Benefits**

Upon termination of service due to death, disability, or retirement, a participant may receive a distribution in the amount equal to the value of the participant's account. Benefits are payable in a lump sum distribution and can be paid in either cash or shares of stock of the Company.

**(h) Voting Rights**

Under circumstances as described in the Plan, each participant is entitled to direct the trustees how to vote the shares allocated to his or her account and is notified by the trustees prior to the time that such circumstances require a vote. The trustees are required, however, to vote any unallocated shares on behalf of the collective best interest of plan participants and beneficiaries.

**(i) Termination**

Upon notification of termination, a participant's account will be distributed according to the vested value of the account. If the participant's vested account balance is less than \$20,000, the participant is eligible for a distribution generally within six months of the date employment terminates, and in any case not later than the end of the plan year following the year in which the participant's employment terminated. However, if the participant's vested balance is greater than \$20,000, the shares in the participant's account will be distributed in five substantially equal annual installments after the fourth anniversary of the participant's termination of employment or when the participant satisfies the condition for early retirement or attains age 62. Distributions will be made according to benefits defined above.

**(j) Forfeitures**

Forfeitures are used to reduce employer contributions to the Plan. For the years ended December 31, 2024 and 2023, 373 forfeited shares, or \$16,643, and 1,705 forfeited shares, or \$72,326, respectively, were used to reduce employer contributions.

**(k) Diversification**

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into the Employee 401 (k) Retirement Savings Plan or other eligible retirement plans. Participants who are at least age 55 with at least 10 years of participation in the plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a 6-year- period. In each of the first 5 years, a participant may diversify up to 25% of the number of post -1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Amounts subject to diversification by participants is classified as participant directed in the statement of net assets available for benefits.

Total diversifications to Columbia Forest Products, Inc. Employee 401 (k) Retirement Savings Plan during 2024 and 2023 were \$979,020 and \$302,081 respectively, and are included within transfers to qualified plans in the statements of changes in net assets available for benefits.

The amount that is subject to diversification in a year is adjusted by distributions. Amounts distributed are treated as diversified and include rollovers to other eligible retirement plans and taxable distributions to participants. Total rollovers to other eligible retirement plans for eligible participants during 2024 and 2023 were \$1,742,820 and \$2,569,411, respectively, and are included within transfers to qualified plans in the statements of changes in net assets available for benefits.

**(l) Put Option**

Under Federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market or is subject to trading limitations includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

**(m) Nonparticipant Directed Investments**

Nonparticipant directed investments represent ESOP shares allocated to participants of the Plan, which cannot be participant directed, as discussed under the plan description.

**(2) Significant Accounting Policies**

**(a) Basis of Presentation**

The accompanying financial statements of the Plan have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

**(b) Use of Estimates**

The preparation of these financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the

**COLUMBIA FOREST PRODUCTS, INC.**  
**EMPLOYEE STOCK OWNERSHIP PLAN AND TRUST**

Notes to Financial Statements and Supplemental Schedules

December 31, 2024 and 2023

reported amounts of additions and deductions during the reporting year. Actual results may differ from these estimates.

**(c) Risks and Uncertainties**

The Plan's investments consist of the Company's common stock, which is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows and/or other such techniques. Due to the level of risk associated with the investment in common stock and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

**(d) Valuation of Investments**

The shares of Company common stock are valued at estimated fair value. See note 5 for discussion of fair value measurements. The common stock of the Company is not publicly traded. An appraisal was performed by an independent firm to determine the fair value of common stock of the Company, which was \$44.62 and \$42.42 per share at December 31, 2024 and 2023, respectively. Purchases and sales of securities are reflected on the settlement date, which approximates the trade date. No significant unsettled trades occurred at year-end.

**(e) Net Appreciation (Depreciation) in Fair Value of Investments**

Net appreciation (depreciation) in the fair value of investments consist of the net change in unrealized appreciation (depreciation) during the year on investments held at the end of the year and the realized gains or losses on the sale of investments during the year.

**(f) Income Recognition**

Interest is recognized as it is earned.

**(g) Payment of Benefits**

Benefit payments to participants are recorded upon distribution.

**(h) Administrative Expenses**

All plan administrative expenses are paid directly by the Company except custodial fees, which are paid by the Plan. No custodial fees were incurred during 2024 or 2023, as the Company held all assets of the Plan for the year ended December 31, 2024 and 2023.

**(3) Tax Status**

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated June 17, 2015, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe the Plan is designed, and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

**EMPLOYEE STOCK OWNERSHIP PLAN AND TRUST**

Notes to Financial Statements and Supplemental Schedules

December 31, 2024 and 2023

Accounting principals generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

**(4) Plan Termination**

Although the Company has not expressed any intent to do so, the Company may wholly or partially terminate the Plan subject to the provisions of ERISA or direct the discontinuance of contributions at any time. If terminated, the trust will continue until the plan benefit of each participant has been distributed. Upon termination of the Plan, participants shall be fully vested.

**(5) Investment and Fair Value Measurements**

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

The fair value of assets and liabilities is determined by using a fair value hierarchy that distinguishes between market participant assumptions developed based on market data obtained from sources independent of the reporting entity, and the reporting entity's own assumptions about market participant assumptions developed based on the best information available in the circumstances.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, essentially an exit price.

The levels of the fair value hierarchy are:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

**COLUMBIA FOREST PRODUCTS, INC.  
EMPLOYEE STOCK OWNERSHIP PLAN AND TRUST**

Notes to Financial Statements and Supplemental Schedules

December 31, 2024 and 2023

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The Plan's investment in the common stock of Columbia Forest Products, Inc. is classified as a Level 3 investment. At December 31, 2024, the Plan held approximately 3,808,439 shares of common stock at fair value of \$44.62 per share for a total value of \$169,932,533. At December 31, 2023, the Plan held approximately 3,984,118 shares of common stock at fair value of \$42.42 per share for a total value of \$169,006,262. The fair value is determined by an independent appraiser using a weighted income approach and market approach.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The roll forward of the Plan's Level 3 investment in the common stock of Columbia Forest Products, Inc. is as follows:

	<u>2024</u>	<u>2023</u>
Balance at beginning of year	\$ 169,006,262	171,508,362
Receipt of shares from contributions	12,699,215	12,158,753

**(6) Related Party and Party-in-Interest Transactions**

The Plan holds shares of Columbia Forest Products, Inc. common stock. Columbia Forest Products, Inc. is the plan sponsor as defined by the Plan and, therefore, this investment and investment transactions qualify as party-in-interest.

**(7) Subsequent Events**

The Plan administrator has evaluated subsequent events from December 31, 2024 through October 13, 2025, the date at which the financial statements were available to be issued, and determined there are no other items to disclose.
