Independent Auditor's Report

The Trustee and Board of Directors
Lerch Bates Inc. Employee Stock Ownership Plan and Trust
Englewood, Colorado

Opinion

We have audited the financial statements of Lerch Bates Inc. Employee Stock Ownership Plan and Trust, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of Lerch Bates Inc. Employee Stock Ownership Plan and Trust as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Lerch Bates Inc. Employee Stock Ownership Plan and Trust and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Lerch Bates Inc. Employee Stock Ownership Plan and Trust's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Lerch Bates Inc. Employee Stock Ownership Plan and Trust's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Lerch Bates Inc. Employee Stock Ownership Plan and Trust's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule H, line 4i-schedule of assets held at end of year as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

Note 1 - Description of Plan

The following brief description of the Lerch Bates Inc. Employee Stock Ownership Plan and Trust (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

Lerch Bates Inc. (the Company) established the Plan effective as of November 6, 1986 and was amended and restated effective January 1, 2017. The Plan operates, in relevant part, as a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986 (IRC), as amended, and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The plan consists of the qualified employees of the Company, Lerch Bates Inspection Services, LLC, Building Equipment Maintenance Services, LLC and LB PIE, LLC. The Plan is administered by the ESOP committee of the Company, and an independent third-party is the Plan's Trustee.

The Plan has purchased shares of the Company's common stock using the proceeds of notes payable (Note 6) and holds the common stock in a trust established under the Plan. As the Plan makes debt payments, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the IRC.

The borrowing is collateralized by the unallocated shares of stock and is guaranteed by the Company. The lender has no rights against shares of the stock once they are allocated to participants in accordance with the terms of the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2024 and 2023, and for the year ended December 31, 2024, present separately the assets and liabilities and changes therein pertaining to:

- Accounts of employees with vested rights in allocated common stock (allocated).
- Common stock not yet allocated to employees (unallocated).

Eligibility

Employees are eligible to participate in the Plan if they have completed one year of service. A year of service for purposes of eligibility is a consecutive 12-month period during which the employee has 1,000 or more hours of service. Leased employees, independent contractors, and collective bargaining employees are not eligible to participate in the Plan.

Entry Date

Employees may enter the Plan on the first day of January coinciding with or prior to the date they satisfy the Plan's eligibility requirements.

Contributions

The Company is obligated to make contributions in cash to the Plan equal to the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loans. All other contributions to the Plan are made by the Company at the discretion of the Company. The contributions are allocated according to the pro rata share of each participant's compensation to total eligible compensation. Participants must have completed 1,000 hours of service during the Plan year, unless terminated due to retirement, death or disability, to receive an allocation of the contribution. In 2024, the Company made total contributions of \$2,955,104 of which \$356,921 were principal and interest payments on its term loans and \$2,598,183 were discretionary contributions.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is permitted to vote any allocated share for which instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of Plan participants and beneficiaries.

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' non-vested accounts. All eligible participants of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to the total eligible compensation. Plan earnings and losses are allocated to each participant's account based on the ratio of the participant's account balance.

Vesting

Vesting is based on years of credited services in the plan as set forth in the following table:

<u>Participant's Years of Service</u>	<u>Vesting Percentage</u>
Less than 3	0%
3+ years	100%

Participants are 100% vested in their account balances upon death, disability or achieving normal retirement age.

Forfeitures

At December 31, 2024 and 2023, there were forfeited non-vested accounts totaling \$1,407 in cash and approximately 186 shares, and \$1,381 in cash and approximately 36 shares of Company stock, respectively, all of which were allocated to eligible participants. Allocations are based on a participant's eligible compensation, relative to the total eligible compensation for the Plan year.

Payment of Benefits

Upon termination of employment for any reason a participant will receive a lump sum amount equal to the value of the participant's vested interest in his or her account as defined in the Plan document. The Participant's vested account balance is distributed in cash in a single lump sum payment if the lump sum payment does not exceed \$100,000, or in annual installments of \$100,000 each if the lump sum exceeds \$100,000 but does not exceed \$600,000. The Participant's vested account balance is distributable in six equal annual installments if the vested account balance exceeds \$600,000. In no event will the Plan be required to distribute more than \$400,000 in any plan year for all distributions combined. If the distribution options selected by participants cause the total distributions to exceed \$400,000 in any Plan year, the priority of distributions is as follows: 1) participants who are required to take a required minimum distribution as set forth by the Plan; 2) participants who have attained the normal retirement age and who have terminated employment; 3) participants who have become disabled and who have terminated employment; 4) distributions made to Alternate Payees under a Qualified Domestic Relations Order (QDRO); 5) participants who have died; and 6) participants who have terminated employment for any other reason. Participants may also choose to have any portion of an eligible rollover distribution paid directly to an eligible retirement plan specified by the participant in a direct rollover.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments that are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period.

In each of the first five years, a participant may diversify up to 25 percent of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify have their diversified shares liquidated and transferred to the Lerch Bates 401(k) Retirement Plan if it exists at the time of election. Otherwise, the liquidated shares are distributable in cash. The election to diversify is made subsequent to year-end based upon the shares of employer stock in the participant's account at year-end.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the ERISA. In the event of Plan termination, participants would become 100% vested in their account. Upon termination of the Plan, the ESOP committee directs the Trustee to pay all liabilities and expenses of the ESOP and to sell shares of financed common stock held as collateral to the extent it determines such sale will be necessary in order to repay the loan. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC.

Note 2 - Significant Accounting Policies and Use of Estimates

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results may differ from those estimates.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock (allocated) and (b) stock not yet allocated to employees (unallocated), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as those held during the year.

The classification of investment earnings reported above and in the statement of changes in net assets available for benefits may differ from the classification of earnings on Form 5500 due to different reporting requirements on Form 5500.

Payment of Benefits

Benefits payments to participants are recorded when paid.

Expenses

The Plan's expenses are paid by either the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements.

Note 3 - Investment

The Plan's investment as of December 31, 2024 and 2023, is as follows:

	2024		2023	
	Allocated	Unallocated	Allocated	Unallocated
Plan Sponsor Common Stock				
Number of Shares	24,302	4,767	23,691	5,378
Cost	\$ 3,904,039	\$ 2,478,239	\$ 3,599,193	\$ 2,783,085
Fair Value	\$ 51,202,062	\$ 10,043,934	\$ 46,010,987	\$ 10,444,733

Note 4 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under the FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan can access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Common Stock - The fair value of the Company common stock held in the Plan is valued at estimated fair value based upon an independent appraisal. The appraisal was based upon a combination of the market and income valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flow and net income, discount rates, return on assets, return on equity, market comparables and estimated fair value of Company assets and liabilities, including certain discounts.

Common Stock	\$ -	\$ -	\$ 56,455,720	\$ 56,455,720

Changes in Fair Value of Level 3 Assets

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2024:

	Common Stock
Transfer in	\$ -
Transfers out	-
Purchases	-
Issuance/Distribution of shares	-

Note 5 - Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated October 11, 2017, that the Plan and related trust were designed in accordance with the applicable regulations of the IRC. The Company and Plan management believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC, and therefore believe the Plan is qualified and the related trust continues to be tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6 - Notes Payable

In 2018, the Plan entered into a \$2,194,849 term loan agreement with the Company, to be repaid over a period of 20 years. The proceeds of the loan were used to purchase Company common stock. Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, times the ratio of the current year payments divided by the total of this year's payments, plus all future years' principal and interest payments. This resulted in approximately 176 shares being released and allocated for the Plan year ended December 31, 2024.

The balance due on the note payable as of December 31, 2024 and 2023, was \$1,536,395 and \$1,646,137, respectively. The loan agreement bears interest at 3.31% and provides for the loan to mature on December 19, 2038.

In 2016, the Plan entered into a \$3,300,000 term loan agreement with the Company, to be repaid over a period of 20 years. The proceeds of the loan were used to purchase Company common stock. Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, times the ratio of the current year payments divided by the total of this year's payments, plus all future years' principal and interest payments. This resulted in approximately 435 shares being released and allocated for the Plan year ended December 31, 2024.

The balance due on the note payable as of December 31, 2024 and 2023, was \$1,107,697 and \$1,272,697, respectively. The loan agreement bears interest at 2.07% and provides for the loan to mature on December 14, 2036.

The scheduled amortization of the loans for the next five years and thereafter is as follows:

<u>Years Ended December 31,</u>	<u>Amount</u>
2025	\$ 274,742
2026	274,742
2027	274,742
2028	274,742
2029	274,742
Thereafter	<u>1,270,382</u>
	<u><u>\$ 2,644,092</u></u>

Interest expense paid to the Company totaled \$81,897 for the year ended December 31, 2024.

Note 7 - Related Party and Party-In-Interest Transactions

The Plan invests in Company common stock and has indebtedness with or guaranteed by the Company. These are related party and exempt party-in-interest transactions under ERISA.

Note 8 - Risks and Uncertainties

The Plan's investment is the Company's common stock, which is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows and other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Note 9 - Right of First Refusal

Company stock that has been allocated to a participant and not immediately repurchased by the Company or trust, may be subject to a right of first refusal determined by the Company. Prior to any subsequent transfer, the shares must first be offered by written offer to the Company, and then, if refused by the Company, to the Trust at fair market value as determined by an independent appraiser appointed by the ESOP Committee.

Note 10 - Subsequent Events

Effective January 1, 2025, the Company acquired 100% of the membership interests of Building Envelope Consultants and Scientists, LLC (BECS) and the Plan was amended to include BECS as a participating employer of the Plan.

The Plan Sponsor has evaluated subsequent events through October 8, 2025, the date which the financial statements were available to be issued.
