Independent Auditor's Report

Plan Administrator, Plan Management and Plan Trustees
Brinkman Construction, Inc. Employee Stock Ownership Plan
Fort Collins, Colorado

Opinion

We have audited the financial statements of Brinkman Construction, Inc. Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the *Employee Retirement Income Security Act of 1974* (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that these financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule listed in the table of contents is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

Plan Administrator, Plan Management and Plan Trustees
Brinkman Construction, Inc. Employee Stock Ownership Plan

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Brinkman Construction, Inc. Employee Stock Ownership Plan
Notes to Financial Statements
December 31, 2024 and 2023

Note 1. Description of the Plan

General

The following description of Brinkman Construction, Inc. Employee Stock Ownership Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

The Plan was established effective January 1, 2016. The Plan operates as a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (the "Code") of 1986, as amended (Code) and is subject to the applicable provisions of the *Employee Retirement Income Security Act of 1974*, as amended (ERISA).

In September 2016, the Plan purchased 200,000 shares of the Company's common stock using the proceeds of borrowings from the Company for a \$10,700,000 note payable, or \$53.50 per share. As the note payable to the Company is repaid, an appropriate percentage of common stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the Code.

Unallocated and Allocated Shares

The borrowing is collateralized by the unallocated shares of common stock. The Company has no rights against shares of common stock once they are allocated to participants in accordance with the terms of the Plan. Accordingly, the financial statements of the Plan as of December 31, 2024 and 2023 and for the years then ended present the assets and liabilities and changes therein pertaining to the following separately:

- a. The accounts of employees with the rights in allocated common stock (allocated)
- b. Common stock not yet allocated to employees (unallocated)

Eligibility

The Plan is a defined contribution plan covering all employees of Brinkman Construction, Inc. (the "Company") who have completed six months of service and are age 18 or older.

Employer Contributions

The Company is obligated to make cash contributions to the Plan that, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. Additional contributions may be made at the discretion of the Company. Employees are not allowed to contribute to the Plan.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' nonvested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Employer contributions are allocated to each participant's account based upon the relation of the participant's compensation to total compensation for the Plan year. Plan earnings are allocated to each participant's account based on the ratio of the participant's beginning of the year account balance to all participants' beginning of the year account balances.

Brinkman Construction, Inc. Employee Stock Ownership Plan
Notes to Financial Statements
December 31, 2024 and 2023

Vesting

Participants vest in the Company's contributions and earnings thereon based on the following schedule:

<u>Years of Service</u>	<u>Vesting Percentage</u>
Less than 1	0%
1 or more but less than 2	0%
2 or more but less than 3	0%
3 or more	100%

A participant's account becomes 100% vested upon death, attaining normal retirement age of 62, retirement due to disability, or termination of the Plan.

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market or is subject to trading limitations includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Payment of Benefits

On termination of service due to death, disability, retirement, or termination of service, a participant (or the participant's beneficiary in the case of death) with \$10,000 or less in his or her vested account may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. For vested benefits between \$10,000 and \$50,000, distributions will generally occur in annual installments of \$10,000 until the vested balance is exhausted. For vested benefits over \$50,000, distributions will generally occur over a five-year period with specific percentages for each year based on the distribution and segregation policy of the Plan. As of December 31, 2024 and 2023, vested balances for terminated participants who have not yet requested a distribution totaled \$1,362,650 and \$1,078,716, and the Company will be subject to a put option to redeem the underlying shares or cash value of this amount in future years.

Voting Rights

Each participant is entitled to direct the Plan Trustee as to how to vote the shares allocated to his or her accounts with respect to any proposed corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, or sale of substantially all of the assets of a trade or business of the Company. The Plan Trustee votes all unallocated shares. In addition, the Plan Trustee votes all shares for all other matters that may come before the Company in the best interest of the participants and beneficiaries.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investments in company common stock into investments that are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their accounts. Diversification is offered to each eligible participant in substantially equal amounts over a 5-year period plus one additional year, up to five additional years, for each \$100,000 or fraction thereof by which such account exceeds \$500,000.

Forfeitures

If a participant terminates employment for any reason other than retirement, disability, or death, the nonvested portion of the participant's account balance is forfeited and allocated to the other plan participants based upon their proportionate share of eligible compensation, subject to certain limits. There were no unallocated forfeiture balances at December 31, 2024 and 2023. During the years ended December 31, 2024 and 2023, approximately 137 and 151 shares, respectively, of forfeited common stock were reallocated to active participants.

Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or the participant's beneficiary at the time prescribed by the Plan terms and the Code. Upon termination of the Plan, the Employee Benefits Administration Committee shall direct the Trustee to pay all liabilities and expenses of the trust fund and to sell shares of financed stock held as collateral to the extent it determines such sale to be necessary in order to repay the loan. All participants would become 100% vested in their account if the Plan were to terminate.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes in net assets available for benefits and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The common shares of the Company are valued at estimated fair value. Fair value is determined by annual independent appraisals.

S Corporation dividend income is accrued on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation includes the Plan's gains on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock (allocated) and (b) stock not yet allocated to employees (unallocated), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan, at the Company's discretion. The Company has historically paid the operating expenses of the Plan. Certain administrative functions are performed by officers or employees of the Company. No such officers or employees receive compensation from the Plan. Certain administrative costs are paid by the Company.

Note 3. Administration of Plan Assets

The Company is the sponsor of the Plan. GreatBanc Trust Company (the "Plan Trustee") is the custodian of the Plan's assets, and Principal Financial Group maintains the Plan's records. The Company's contributions are held and managed by the Plan Trustee, which invests cash received and interest and dividend income and makes distributions to participants. The Trustee also administers the payment of interest and principal on the loan, which is reimbursed to the Trustee through contributions as determined by the Company.

Note 4. S Corporation Dividends

To the extent S Corporation dividends are not used by the Plan for debt service, the S Corporation dividends will be held in participant accounts. There were no dividends paid by the Company to the ESOP for the years ended December 31, 2024 and 2023.

Note 5. Investment in Common Stock

The Plan's only investment in company stock at December 31, 2024 and 2023, which is nonparticipant-directed, is presented in the following table:

Note 6. Disclosure About Fair Values of Plan Assets and Liabilities

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. The hierarchy comprises three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3** Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities

Recurring Measurements

The following table presents the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2024 and 2023:

	Fair Value Measurements Using			
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
December 31, 2024				
Brinkman Construction, Inc. common stock	<u>\$ 16,095,464</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 16,095,464</u>
December 31, 2023				
Brinkman Construction, Inc. common stock	<u>\$ 18,570,157</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 18,570,157</u>

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the years ended December 31, 2024 and 2023. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis. For assets classified within Level 3 of the fair value hierarchy, the process used to develop the reported fair value is described below.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy. See the table below for inputs and valuation techniques used for Level 3 securities.

Level 3 Activity

There were no purchases, sales, transfers into or transfers out of Level 3 securities during the years ended December 31, 2024 and 2023.

Unobservable (Level 3) Inputs

The following table presents qualitative information about unobservable inputs used in recurring Level 3 fair value measurements at December 31, 2024 and 2023.

	<u>Fair Value</u>	<u>Valuation Technique</u>	<u>Unobservable Inputs</u>
December 31, 2024			
Brinkman Construction, Inc. common stock	<u>\$ 16,095,464</u>	Income	EBITDA, net income, weighted average cost of capital, long-term revenue growth rate, discount rate, and discount for lack of marketability
December 31, 2023			
Brinkman Construction, Inc. common stock	<u>\$ 18,570,157</u>	Income	EBITDA, net income, weighted average cost of capital, long-term revenue growth rate, discount rate, and discount for lack of marketability

The valuation process involves plan management's selection of an independent appraiser under contract with the right to cancel such contract at any time. Plan management accumulates the data for the appraiser from the financial statements of the Company. The appraiser prepares a preliminary report, which plan management, along with the ESOP trustee, reviews in detail, discusses and approves.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Uncertainty of Fair Value Measurements

The following is a description of the sensitivity of significant unobservable inputs uncertainty of the fair value measurement at the reporting date from the use of significant unobservable inputs, if those inputs reasonably could not have been different at the reporting date, the interrelationships between those inputs and other unobservable inputs used in recurring fair value measurement and how those inputs might magnify or mitigate the effect of changes in the unobservable inputs on the fair value measurement.

Brinkman Construction, Inc. Common Shares

The significant unobservable inputs used in the fair value measurement of the Company common shares are the weighted average cost of capital, long-term revenue growth rate, long-term pretax operating margin, discount for lack of marketability and the control premium. Isolated significant increases (decreases) in the weighted average cost of capital or the discount for lack of marketability would result in a significantly lower (higher) fair value measurement while significant increases (decreases) in any of the other inputs in isolation would result in a significantly higher (lower) fair value measurement.

Note 7. Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated August 18, 2017, indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Notes Payable

The Plan has a note payable to the Company. The proceeds of the loan were used to purchase 200,000 shares of company common stock. The note is to be paid in equal annual installments of principal plus interest at 1.90% until September 2045. A total of 138,890, and 145,712 shares of unallocated company common stock are collateral for the note payable as of December 31, 2024 and 2023, respectively.

The scheduled amortization of the loan for the next five years and thereafter is as follows:

2025	\$	321,269
2026		327,374
2027		333,594
2028		339,932
2029		346,391
Thereafter		<u>6,223,055</u>
	<u>\$</u>	<u>7,891,615</u>

Note 9. Related-Party and Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association, or relatives of such persons.

The Plan invests in Company common stock and has indebtedness to the Company. The Plan also has a number of service providers. Such providers are parties in interest under ERISA. Additionally, the Plan incurs expenses related to certain appraisal, accounting and auditing fees. The Company pays these expenses and provides certain administrative services at no cost to the Plan.

Note 10. Risks and Uncertainties

The Plan primarily invests in Company common stock, which is exposed to various risks, such as interest rate, market and credit risks as well as valuation assumptions based on earnings, cash flows and/or other such techniques. Due to the level of risk associated with such investment securities and the level of uncertainty related to changes in the value of such investments, it is at least reasonably possible that changes in risk in the near term could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Note 11. Subsequent Events

Subsequent events have been evaluated through October 9, 2025, which is the date the financial statements were available to be issued.
