INDEPENDENT AUDITORS' REPORT

To the Plan Administrator
Rehabilitation Associates, Inc.
401(K) Plan
Fairfield, CT

Scope and Nature of the ERISA Section 103 (a) (3) (C) Audit for the 2024 and 2022 Financial Statements.

We have performed an audit of the financial statements of Rehabilitation Associates, Inc 401 (K) Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103 (a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31 2023 and 2022, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2024 and 2023 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (Investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2024 and 2023 stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion on the 2024 and 2023 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the 2024 and 2023 Financial Statements section

- the amounts and disclosures in the accompanying 2024 and 2023 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying 2024 and 2023 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Rehabilitation Associates, Inc. 401 (K) Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgement, there are conditions or events, considered in the aggregate, that raise substantial doubt about Rehabilitation Associates, Inc. 401 (K) Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2024 and 2023 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters:

2024 Supplemental Schedules Required by ERISA

The supplemental schedules of (identify the title of supplemental schedules and periods covered), are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statement and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their.

Basis for Opinion on the 2024 and 2023 financial statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2024 and 2023 Financial Statements section of our report. We are required to be independent of Rehabilitation Associates, Inc. 401(K) Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2024 and 2023 Financial Statements.

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Rehabilitation Associates, Inc. 401(K) Plan's ability to continue as a going concern for (insert the time period set by the applicable financial reporting framework).

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2024 and 2023 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2023 and 2022 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatements, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks.

form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- The form and content of the supplemental schedules, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

REHABILITATION ASSOCIATES, INC. 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024

NOTE 1 – DESCRIPTION OF PLAN

The following description of the Rehabilitation Associates, Inc. (“the Company”) 401(K) Plan (“the Plan”) is provided for general information purposes only. Participants should refer to the plan document and plan amendments for more complete information.

General

The Plan was adopted January 1, 1989, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. It is a defined contribution plan covering employees of the Company who meet the Plan’s criteria for participation, currently defined as having completed one year of service (1,000 hours in 12 consecutive months), and having attained the age of twenty-one.

Contributions

Each year, participants may contribute a portion of their pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Company may contribute a discretionary match, which is determined annually, based on a percentage of eligible compensation that a participant contributes during the plan year. Contributions are subject to certain limitations. Additional discretionary amounts may be contributed by the Company at the option of the Company’s board of directors. During the years ended December 31, 2024 and 2023, there were no contributions by the Company.

Participant Accounts

Each participant’s interest in the Plan is accounted for individually, and is credited with the participant’s contributions, and all allocations of (a) the Company’s contribution, and (b) investment earnings, and charged with an allocation of investment fees and administrative expenses. Allocations of the company contribution are based on participant earnings. Fees are allocated as a percentage of the participant’s account balance, except for one-time fees for individual services, such as loan setup and benefit payments, which are charged directly to the participant’s account when incurred. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account. Participant’s accounts are valued daily.

Vesting

Participants are immediately vested in their contributions, including rollover contributions, plus actual earnings thereon. Vesting in the Company’s contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service.

Notes Receivable from Participants

- Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant’s account and bear interest at rates based on the Plan document. The rates for various participant loans for the years ended December 31 2024 and 2023 was 8.0%. Principal and interest is paid ratably through payroll deductions.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024

NOTE 1 – DESCRIPTION OF PLAN (continued)

Payment of Benefits

Normal retirement age is 62. On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the vested interest in his or her account, or amounts in annual installment payments. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution, or leave the assets in the plan until the fifth year of their break in service with the employer, at which time the vested benefits are distributed to the participant in accordance with the plan documents.

Forfeited Accounts

Forfeitures, representing unvested portions of terminated participants' accounts, may be used to pay employer contributions or reduce administrative expenses. At December 31, 2024 and 2023, forfeited nonvested accounts totaled \$1,070 and \$997, respectively. These accounts will be used to reduce plan expenses.

Operating Expenses

The Company absorbs significant costs of Plan administration related to legal, accounting, recordkeeping, and general administration.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES AND USE OF ESTIMATES

Basis of accounting

The financial statements of the plan are prepared on the accrual basis of accounting.

Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Payment of Benefits

Benefits are recorded when paid.

Notes receivable, participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Per the loan policy agreement with the custodians, the interest rate is the prime rate per the Wall Street Journal, plus 1% for the years ended December 31 2024 and 2023 was 6.5%. Loan management fees are recorded as administrative expenses when they incurred, and are deducted directly from the individual participants' accounts. Delinquent participant loans are reclassified as distributions based on the terms of the plan document, and a benefit payment is recorded. The plan administrator has determined that no loans were in default or deemed uncollectible for the years ended December 2024 or 2023. No allowance for credit losses has been recorded as of December 31, 2024 or 2023. Loan balances of separated employees are deemed distributed upon termination. There were no deemed distributions of participant loans for the years ended December 31, 2024 and 2023.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2024

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES AND USE OF ESTIMATES (continued)

Excess Contributions Payable

Amounts payable to participants for salary deferral contributions in excess of amounts allowed by the IRS are recorded in the financial statements as a liability with a corresponding reduction to contributions. The minimal excise tax was paid by plan fiduciaries, not the Plan.

Expenses

Maintenance fees related to the administration of individual participant accounts, notes receivable from participants and benefit payments, are charged directly to each participant's account. These are reported collectively as administrative expenses in the Statement of Net Assets Available for Benefits. Investment expenses are netted out of investment gains and losses prior to allocation of gains and losses to participant accounts, and usually meet the threshold for reporting on Schedule C of the form 5500. Therefore, these expenses are not separately reported in the Plan's financial statements. Plan-level expenses for maintenance of the Plan are usually paid by the Company. Expenses that are paid by the Company are excluded from these financial statements.

Investment Valuation and Income Recognition

The Plan's investments (except for the fully-benefit-responsive investment contract, which is reported at contract value) are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The underlying asset platforms are valued, and participant accounts are updated, daily. Contributions received, benefit payments made, account management fees, and market gains and losses are allocated pro-rata to participant accounts based on the performance of the investments bought and sold as well as held during the year, and are shown net of investment related fees of the particular funds. Investment performance is summarized in the Statements of Changes in Net Assets Available for Benefits. Purchases and sales of securities are recorded on a trade-date basis. Dividends on underlying investments are recorded on the ex-dividend date and reinvested. Fair value measurements are presented in Note 4. Additional information on the investment contract is presented in Note 6.

NOTE 3 – TAX STATUS

The IRS has determined and informed the Company by a letter dated November 19, 2001, that the prototype Plan was designed in accordance with applicable sections of the Internal Revenue Code (IRC). In order to comply with changes in authoritative regulations, the Plan has been amended periodically since receiving the determination letter. The Pension Protection Act (PPA) of 2006 required a restatement of defined contribution retirement plans by April 20, 2016. The IRS approved a restated Prototype Plan in a letter dated March 31, 2014. In September, 2015, the Plan executed a restated Adoption Agreement for the approved Prototype Plan Document. As a result of the required restatement, the Plan administrator believes there are no significant effects on the benefits and net assets either individually or in the aggregate. The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code and, therefore, believes that the Plan is qualified and tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Department of Labor and Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 4 – INVESTMENTS (ALL PARTICIPANT-DIRECTED) AND FAIR VALUE MEASUREMENT

Investments consist of units of various mutual funds held by the plan, mutual funds held in pooled separated accounts, common collective trusts, and an unallocated guaranteed insurance investment contract.

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board Accounting Standards Codification 820 are described as follows:

Level 1	Inputs to valuation are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 2024 and 2023.

Registered investment fund shares held in the plan: The various publicly traded mutual funds are valued based on daily closing prices reported for the fund in open markets (Level 1). Funds available to participants include fixed income, balanced, equity/growth, and international equity.

Pooled separate accounts: The Plan has units of participation in separate accounts that invest in a variety of mutual funds with underlying investments such as equities, preferred stock, bonds, and mutual funds. Funds are valued at net asset value (NAV) based on the underlying investments using dealer market prices for comparable investments as of the valuation date, computed daily (Level 2). The separate accounts are credited with the income, gains, or losses resulting from the assets allocated to that specific account only.

Common collective trusts: The Plan offers units of participation in various target date funds. Each fund includes a variety of underlying investments such as equities, bonds, mutual funds, and funds of funds. Each fund is managed toward an anticipated retirement date. Funds are valued at net asset value (NAV), calculated daily, based on the underlying investments using dealer market prices for comparable investments as of the valuation date, with expenses calculated on the weighted average of component fund expenses (Level 2).

Benefit-responsive investment contract: The contract is a single group annuity contract with a fixed rate of interest using a composite crediting rate that is never less than the guaranteed minimum interest rate to adjust the contract value to the fair value. Due to the complexity in calculating the

crediting rates and restrictions on marketing the contract, the investment is considered Level 3 (unobservable inputs). Contract value is the relevant approximation for fair value for this investment option, as detailed in Note 6.

NOTE 5 – INFORMATION CERTIFIED BY THE PLAN’S CUSTODIANS (UNAUDITED)

At December 31, 2024 and 2023, Principal Trust Company, and Principal Life Insurance Company, as custodians, held the Plan’s investments. The following information included in the accompanying financial statements and supplemental schedule was obtained or derived from data that has been prepared and certified to as complete and accurate by the Principal Trust Company and Principal Life Insurance Company, in accordance with 29 CFR 2520. 103-5(c) of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, as of December 31, 2024 and 2023, and for the year ended December 2024.

NOTE 6 – INVESTMENT CONTRACT WITH PRINCIPAL LIFE INSURANCE COMPANY

The Plan offers a benefit-responsive guaranteed investment contract issued by Principal Life Insurance Company (‘Principal Life’) as one of the investment options available to participants. Principal Life maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Principal Life is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. Benefits payments are made at book value (i.e., no market value adjustments or surrender charge adjustments) for plan benefit events. Since the guaranteed investment contract generally cannot be sold, transferred, or assigned externally, there is limited market data to support valuation. Because participant transactions are executed using contract value without adjustment, the contract value is considered the best representation of fair value. For the years ended 2024 and 2023, there was no difference between the contract value and estimated fair value; hence, no adjustment from fair value to contract is recorded on the Statement of Net Assets Available for Benefits. The methodology for calculating the interest is a ‘composite crediting rate’, currently reset on a semiannual basis, but never less than the guaranteed minimum interest rate. Changes in future interest crediting rates do not affect the amount reported as an adjustment from fair value to contract value on the statement of net assets available for benefits for this insurance contract. Fair value is considered book value, less early withdrawal charges. The insurance contract, Principal Fixed Income Guaranteed Option, is a single group annuity contract with a fixed rate of interest. The average yield earned by the Plan is the yield earned (i.e. interest credited) on the group annuity contract. The composite crediting rate history for the contract is shown below. The underlying term at present is 9.6 years.

The interest rate history as summarized is prior to any plan-level recordkeeping expenses being deducted. Differences between the interest rates as summarized and the actual earned crediting rates for each Plan participant are due to a 'rate level service fee' as described in the contract. The rate level service fee for 2023 was 0.71%. Certain events limit the Plan's ability to transact at contract value with Principal Life Insurance Company. Such events include the following: (a) termination of the Plan (including merger, partial plan termination); (b) bankruptcy of the Plan sponsor; (c) failure of the Plan to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with the Plan participants are probable of occurring.

NOTE 7 – REVENUE SHARING AGREEMENT

In August, 2015, the plan sponsor entered into a revenue sharing service and expense agreement ('ERISA fee recapture account') with Principal Life Insurance Company ('Principal'), the custodians that processes fee transactions. Under the agreement, Principal may allocate a percentage of service fees it receives from various investments, for the Plan sponsor's payment of allowable Plan operating expenses. Based on the terms of the agreement, management does not believe the amounts constitute Plan assets. Accordingly, they are not recorded in the Plan's financial statements.

For the year ended December 31, 2024, Principal reimbursed \$10,000 of plan operating expenses paid by the Plan sponsor. The anticipated allocation available to the Plan sponsor for the first six months of calendar year 2024, is \$10,000.

NOTE 8 – RELATED-PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS

Certain Plan investments (various pooled separate accounts and common collective trust accounts) are owned and managed by Principal Life Insurance Company and Principal Trust Company, custodians of the Plan. The fixed income guaranteed option is backed by the general assets of Principal Life Insurance Company. Therefore, these transactions qualify as party-in-interest transactions are denoted as such on the supplemental schedule of assets (held at the end of year). The Plan's investment advisor and third party administrator are paid in part by indirect fees from the investments owned/managed by the custodians and are reported on the Plan's Form 5500, Schedule C. The Plan sponsor and Principal Life Insurance Company have a revenue-sharing agreement for the payment of a portion of the sponsor's operating expenses for the Plan.

Certain employees and officers of the Company, who may also be participants in the Plan, perform administrative services to the Plan at no cost to the Plan. The Plan allows participants to take loans against their account balances, which are also considered party-in-interest transactions.

NOTE 9 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, Market, complex valuation, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 10 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their employer contributions.

NOTE 11- SUBSEQUENT EVENT

The plan administrator has evaluated subsequent events through July 12, 2025, the date the financial Statements were available to be issued. Although it has not expressed any intent to do so, the Company Has the right under the Plan to terminate the plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their employer contributions.
