Report of Independent Auditors

The Board of Directors
The Christ Hospital Health Network

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of The Christ Hospital Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes (collectively referred to as the “financial statements”).

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section.

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

**Shape the future
with confidence**

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

**Shape the future
with confidence**

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

The Christ Hospital Pension Plan

Notes to Financial Statements

December 31, 2024

1. Description of Plan

The following description of The Christ Hospital Pension Plan (the Plan) provides only general information. The Christ Hospital and Subsidiaries, doing business as The Christ Hospital Health Network (the Network), is the plan sponsor. Participants should refer to the Plan document and *Summary Plan Description* for a more complete description of the Plan's provisions, copies of which may be obtained from the Network.

General

Prior to March 22, 2008, substantially all participants of record participated in a defined benefit plan at the Health Alliance of Greater Cincinnati (Health Alliance). Effective March 22, 2008, and in accordance with the Pension Spin-Off Agreement with the Health Alliance, dated September 9, 2008, with an effective date of March 22, 2008, the plan assets (and related obligations) associated with Network participants were spun off to the newly formed Plan. The eligible years of service attained in the Health Alliance defined benefit plan (Health Alliance Plan) were credited to this Plan, as defined below.

As defined in the Pension Spin-Off Agreement, the assets of the Plan were managed by the Health Alliance in the Health Alliance Plan trust from March 22, 2008 through October 15, 2008, on behalf of the Plan. On October 15, 2008, the Health Alliance liquidated and transferred the assets held in the Health Alliance Plan trust on behalf of the Plan to The Christ Hospital Master Pension Trust (the Master Trust) (see Note 2).

Effective December 31, 2013, all benefits accrued by employees and retirees under the Plan were frozen, and the Plan does not and shall not provide credit for any service after that date. Effective January 1, 2016, the Plan was restated, superseding all previous amendments.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The plan administrator (the Network) is responsible for the general administration of the Plan. State Street Bank and Trust Company acts as the trustee of the Plan (the Trustee). State Street Retiree Services serves as the recordkeeper for the Plan. Mercer (US), Inc. serves as the actuary for the Plan.

The Christ Hospital Pension Plan

Notes to Financial Statements (continued)

1. Description of Plan (continued)

Eligibility

The Plan is a defined benefit pension plan maintained for eligible employees (participants) of the Network who, prior to December 31, 2013, attained age 21, completed one year of eligible service, and were not an excluded employee. Excluded employees included residents, fellows, interns, student nurses, leased or contracted employees from a third-party, collectively bargained employees, and participants in the Public Retirement System (PERS) or the State Teachers Retirement System (STRS). Additionally, employed physicians by The Christ Hospital Medical Associates and The Christ Hospital Cardiovascular Associates were considered excluded employees, as defined by the Plan.

One year of eligible service was earned by working for 12 full months and having been credited with 1,000 or more hours of service in the first 12-month period. One year of eligible service was also earned for each calendar year in which a participant has been credited with 1,000 or more hours of service. Former participants of the Health Alliance Plan were credited with the number of years of eligibility service under the Plan that was equal to the eligible years the participant had in the Health Alliance Plan on December 31, 2007. The Plan is a final average pay pension plan. Subject to satisfaction of the Plan's vesting requirements, benefits are payable when a participant retires, dies, or separates from service from the Network.

Effective with the Plan freeze on December 31, 2013, participants no longer earn any additional benefits under the Plan. Further, new participants are no longer eligible for participation in the Plan. Substantially all accumulated plan benefits have vested.

Benefits

Under the Plan's final average formula, a participant's final average earnings is the monthly average of the participant's earnings for the highest five Plan years (calendar years) out of the last ten years participating in the Plan, including the year that the participant stopped working. Earnings for each year are determined on January 15th of the subsequent Plan year. Earnings and salary designation, hourly or salaried, are determined based on what was in effect as of January 15th of the Plan year. Earnings do not include any overtime pay, incentive compensation, shift differential, disability payments, or other forms of irregular payments, including severance pay, pension payments, or other forms of deferred compensation.

1. Description of Plan (continued)

Plan Termination

Although it has not expressed an intention to do so, the Network reserves the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to provisions of ERISA.

If the Plan were terminated, all participants' accrued benefits would become fully vested and nonforfeitable and would be distributed to them. In the event of termination, assets will be allocated and applied in the following order: (1) to provide certain minimum benefits to each active participant, retired participant, and beneficiary; (2) to assure continuation of benefits payable to retired participants and beneficiaries of deceased participants; (3) to provide retirement benefits for active participants who reached their normal retirement date on or before the termination date; (4) to provide retirement benefits for active participants who have been credited with ten years of vesting service and who have attained age 55 on or before the date of termination; and (5) to provide for the satisfaction of all other liabilities under the Plan. Any assets remaining after satisfaction of all liabilities shall be paid to the Network.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated plan benefits and may also depend on the financial condition of the Network and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) as well as the priority of those benefits. Some benefits may be fully or partially provided for by the then-existing net assets available for benefits of the Plan and the PBGC guarantee, while other benefits may not be provided for at all.

Funding

Contributions by the Network to the Plan are irrevocable. The policy of the Network is to make contributions to the Plan each year in an amount no less than the minimum contributions required under ERISA. The Network may elect to make additional discretionary contributions to ensure the Plan is funded at certain minimum thresholds.

The Plan is subject to ERISA, and its minimum funding requirements have been met for the years ended December 31, 2024 and 2023. There was no minimum required contribution for the Network for the Plan years ended December 31, 2024 and 2023.

The Christ Hospital Pension Plan

Notes to Financial Statements (continued)

1. Description of Plan (continued)

Administrative Expenses

The Plan incurs administrative expenses directly related to the Plan that consist primarily of trustee fees for investments, PBGC fees, and actuarial fees. The Plan pays PBGC fees from Plan assets. All other administrative expenses are paid by the Network on behalf of the Plan. Expenses that are paid by the Network are excluded from these financial statements.

Expenses relating to purchases, sales, or transfers of the Plan's investments are charged to the particular investment fund to which the expenses relate.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Master Trust

All of the Plan's investments are held in the Master Trust, which was established for the investment of assets of the Plan and other Network-sponsored retirement plans. Each participating plan has an undivided interest in the Master Trust. The Master Trust assets are allocated among the participating plans by assigning to each plan those transactions (primarily contributions, benefit payments, and plan-specific expenses) that can be specifically identified and by allocating among all plans, in proportion to each plan's beneficial interest in the Master Trust, income and expenses resulting from the collective net assets of the Master Trust. At December 31, 2024 and 2023, the Plan's interest in the net assets of the Master Trust was 98.8% and 98.9%, respectively.

The Christ Hospital Pension Plan

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition

The Plan's investments, including those investments held in the Master Trust, are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 4 for further discussion and disclosures related to fair value measurements.

The plan administrator is responsible for determining the Plan's valuation policies involving the Master Trust and analyzing information provided by the investment custodians and issuers that is used to determine the fair value of the Plan's investments. Those involved include members of executive management, accounting, and human resources. These individuals report to the Finance Committee of the Network's Board of Directors.

In the statements of changes in net assets available for benefits, the Plan presents the net appreciation from plan interest in the Master Trust, which consists of the net realized gains or losses and the net change in unrealized appreciation or depreciation on those investments.

Within the Master Trust, purchases and sales of securities are reflected as of the trade date. Realized gains and losses on sales of securities are determined on the basis of average cost. Income from investments, if any, is recorded as earned on an accrual basis.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits represent the actuarial present value of estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included, to the extent they are deemed attributable to employee services rendered to the valuation date. The accumulated plan benefits for active employees are based on census data as of January 1st of the applicable Plan year.

The Christ Hospital Pension Plan

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

The Plan's actuary estimated the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

3. Investments

Certain information related to investments for both the Plan and Master Trust, disclosed in the accompanying financial statements, including investments held (Plan interest in The Christ Hospital Master Pension Trust) at December 31, 2024 and 2023, and net appreciation from plan interest in the Master Trust was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the Trustee of the Plan and Master Trust.

The following table presents the fair value of the net assets of the Master Trust and the Plan's interest in the Master Trust at December 31, 2024:

	Master Trust Balances	Plan's Interest in Master Trust Balances
Cash and cash equivalents	\$ 3,049,018	\$ 3,011,309
Collective investment funds	281,108,870	277,632,184
Total	\$ 284,157,888	\$ 280,643,493

The following table presents the fair value of the net assets of the Master Trust and the Plan's interest in the Master Trust at December 31, 2023:

3. Investments (continued)

Changes in net assets for the Master Trust are as follows for the years ended December 31:

	2024	2023
Contributions	\$ –	\$ 3,451,000
Benefit payments	(17,185,843)	(17,106,851)
Net appreciation in fair value of investments	4,138,981	33,767,647
Administrative expenses	(1,934,920)	(4,050,420)
Net (decrease) increase	(14,981,782)	16,061,376
Net assets:		
Beginning of year	299,139,670	283,078,294
End of year	\$ 284,157,888	\$ 299,139,670

4. Fair Value Measurements

The fair value framework establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below.

- Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.
- Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:
 - Quoted prices for similar assets and liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in markets that are not active;

The Christ Hospital Pension Plan

Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

- Observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals);
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity. Level 3 inputs include management’s own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measure in its entirety.

The fair value of cash and cash equivalents is valued using amortized cost, which represents fair value. Such instruments are classified within Level 1 of the fair value hierarchy.

Collective investment funds are valued at the net asset value (NAV) of participation units held by the Master Trust. The NAV is determined by the trustee based on the current market values of the underlying assets of the collective investment funds as based on information reported by the investment advisor. The daily NAV is available to participants of the Plan and the collective investment funds allow participants to make daily redemption requests at the current NAV. As a result, and based on the clarified guidance adopted in the current year, the Plan has determined that the collective investment funds have a readily determinable fair value based on similar assets (i.e., marketable debt and domestic equity securities) and, therefore, each meet the criteria to be classified as Level 1.

The Christ Hospital Pension Plan

Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

The following tables set forth by the fair value hierarchy level, the Master Trust's assets carried at fair value:

	December 31, 2024			
	Level 1	Level 2	Level 3	Total
Cash and cash equivalents	\$ 3,049,018	\$ –	\$ –	\$ 3,049,018
Collective investment funds	281,108,870	–	–	281,108,870
Total assets at fair value	\$ 284,157,888	\$ –	\$ –	\$ 284,157,888

	December 31, 2023			
	Level 1	Level 2	Level 3	Total
Cash and cash equivalents	\$ 2,379,243	\$ –	\$ –	\$ 2,379,243
Collective investment funds	296,760,427	–	–	296,760,427
Total assets at fair value	\$ 299,139,670	\$ –	\$ –	\$ 299,139,670

5. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated October 12, 2016, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (IRC) and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended. Once qualified, the Plan is required to operate in conformity with IRC to maintain its qualified status. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and therefore believes the Plan, as amended, is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

The Christ Hospital Pension Plan

Notes to Financial Statements (continued)

6. Actuarial Present Value of Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits as of December 31, 2023, is as follows:

Actuarial present value of accumulated plan benefits:	
Vested benefits:	
Participants currently receiving payments	\$ 150,593,034
Other participants	<u>133,922,283</u>
Total vested benefits	284,515,317
Non-vested benefits	<u>5,496</u>
Total actuarial present value of accumulated plan benefits	<u><u>\$ 284,520,813</u></u>

The changes in accumulated plan benefits from January 1, 2023 to December 31, 2023, are as follows:

Actuarial present value of accumulated plan benefits at January 1, 2023	\$ 302,208,393
Increase (decrease) during the year attributed to:	
Benefits accumulated and gains	(153,645)
Increase for interest due to decrease in the discount period	15,395,010
Benefits paid	(16,560,202)
Change in actuarial assumptions	<u>(16,368,743)</u>
Net decrease	<u>(17,687,580)</u>
Actuarial present value of accumulated plan benefits at December 31, 2023	<u><u>\$ 284,520,813</u></u>

The main driver of the change in actuarial assumptions was the increase in the discount rate from 5.25% as applied at January 1, 2023 to 5.75% as applied at December 31, 2023, which resulted in a decrease of approximately \$14,400,000 in the actuarial present value of accumulated plan benefits from January 1, 2023 to December 31, 2023.

The Christ Hospital Pension Plan

Notes to Financial Statements (continued)

6. Actuarial Present Value of Accumulated Plan Benefits (continued)

Significant assumptions underlying the actuarial valuation are as follows:

Assumed rate of return on investments: 5.75%

	Age	Rate
Retirement age:	55–60	6.0%
	61–63	7.5
	64	15.0
	65	40.0
	66–67	30.0
	68–70	22.5
	71+	100.0

Mortality basis: Mercer PRI-2012 no collar mortality table projected with MMP-2021 projection scale

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

7. Related-Party and Party-in-Interest Transactions

The Plan, through the Master Trust, holds units of collective investment funds managed by Mercer Collective Trust, an affiliate of the Plan’s actuary. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transaction rules under ERISA.

8. Risks and Uncertainties

The Master Trust invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that those changes could materially affect the amounts reported in the statements of net assets available for benefits.

The Christ Hospital Pension Plan

Notes to Financial Statements (continued)

8. Risks and Uncertainties (continued)

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

9. Subsequent Events

Management evaluated subsequent events for the Plan through October 8, 2025, the date the financial statements were available to be issued.

• All participants	Section 430(h)(3) prescribed separate static annuitant and non-annuitant mortality tables. These tables are based on the RP2014 mortality tables improvement beyond 2006 removed with static mortality improvement based on the IRS methodology and projection scale MP-2021.	
Other economic assumptions		
• Expected investment return	5.10% in 2024, 5.92% in 2023 and 4.11% in 2022	
• Expenses	PBGC premium assumed to be paid from the trust, rounded to the nearest \$100,000). For 2024, expected expenses = \$1,900,000.	

Rationale for economic assumptions

- Discount rate sponsor elections – Plan sponsor elected segment rates with a 4-month look-back. Rates are prescribed by the IRS on a monthly basis.
- Expected investment return – Estimated as the 50th percentile of the long-term expected return on assets assumption produced by Mercer’s Portfolio Return Calculator as of the valuation date.
- Expenses – Assumed to equal the current year PBGC premium payment, rounded to the nearest \$100,000. The Plan sponsor does not pay any other administrative expenses from Plan assets.

¹ Stabilized segment rates are based on American Rescue Plan Act of 2021 funding relief, signed into law on March 11, 2021

Rationale for demographic assumptions

- Withdrawal, Retirement, Benefit Commencement Age, and Form of Payment assumptions were developed based on an experience study undertaken in 2020 using data from 2015, 2016, 2017, 2018 and 2019 and the expectation that the future retirement patterns and circumstances of the employer will not differ significantly from the period studied.
- Spouse assumptions: Because the employer does not have enough credible experience to analyze spousal demographics, the assumptions regarding percent married/spouse age difference at benefit commencement are based on the actuary's experience with many plans and discussions with employer representatives.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Actuarial methods for funding

Asset methods

The asset valuation method is an average of the adjusted market value for each year during the last 25 months preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for non-vested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum funding methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V — Summary of Plan Provisions

- **Maximum benefits** Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2024, the limit is \$275,000.
-

Benefits included or excluded

Unless noted below, all benefits provided by the plan, as restated as of January 1, 2016 and amended through the First Amendment, are included in this valuation.

- **Most recent plan amendments included:** First amendment, signed February 15, 2017, effective May 1, 2017.
- **Plan amendments excluded:** None
- **Late retirement increases:**
 - *Active participants:* The plan applies late retirement actuarial increases for all participants who defer retirement beyond their normal retirement date and this valuation includes those increases.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Plan provisions specific to funding**Additional benefits included or excluded**

- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* None.
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Scheduled benefit increases:** Scheduled benefit increases effective after the end of the current plan year are excluded from minimum funding requirements.

Schedule SB, Part V — Summary of Plan Provisions

- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Plan provision changes since prior valuation

Schedule SB, Part V — Summary of Plan Provisions

- **Maximum benefits** Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2024, the limit is \$275,000.
-

Benefits included or excluded

Unless noted below, all benefits provided by the plan, as restated as of January 1, 2016 and amended through the First Amendment, are included in this valuation.

- **Most recent plan amendments included:** First amendment, signed February 15, 2017, effective May 1, 2017.
- **Plan amendments excluded:** None
- **Late retirement increases:**
 - *Active participants:* The plan applies late retirement actuarial increases for all participants who defer retirement beyond their normal retirement date and this valuation includes those increases.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Plan provisions specific to funding

Additional benefits included or excluded

- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* None.
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Scheduled benefit increases:** Scheduled benefit increases effective after the end of the current plan year are excluded from minimum funding requirements.

Schedule SB, Part V — Summary of Plan Provisions

- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Plan provision changes since prior valuation

Maximum benefit amounts under IRS rules were updated from 2023 to 2024.

Schedule SB, line 24 — Change in Actuarial Assumptions

Actuarial assumption changes since prior valuation

- Expected rate of return on plan assets has been updated to reflect the current asset allocation and investment environment.
- The expenses were updated based on the current year estimated PBGC premium amount.
