## INDEPENDENT AUDITORS' REPORT

To the Plan Administrator of  
**The Tri-M Group Employee Stock Ownership Plan**

### Opinion

We have audited the financial statements of The Tri-M Group Employee Stock Ownership Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

### Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audits of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

## **Auditors' Responsibilities for the Audits of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on these financial statements.

In performing audits in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

## **Other Matter - Supplemental Schedule Required by ERISA**

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

# THE TRI-M GROUP EMPLOYEE STOCK OWNERSHIP PLAN

## NOTES TO FINANCIAL STATEMENTS

### ( 1 ) Description of plan

The following description of The Tri-M Group Employee Stock Ownership Plan (the “Plan”) provides only general information. Participants should refer to the Plan document or Summary Plan Description for a more complete description of the Plan’s provisions, which are available from the plan administrator.

**General** - The Plan is a leveraged employee stock ownership plan (“ESOP”) sponsored by The Tri-M Group LLC (the “Company”) for the benefit of its full-time nonunion employees who have completed 1,000 hours of service and are age eighteen or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

The Plan is administered by the Plan’s Trustee. The Trustee has overall responsibility for the operation and administration of the Plan. The Trustee determines the appropriateness of the Plan’s investment offerings and monitors investment performance.

The Plan purchased all 600,000 outstanding shares of common stock of the Company using the proceeds of secured borrowings with the Company on December 29, 2021. Unallocated shares are collateral for the Company’s borrowings from lenders. Shares are released from collateral and allocated to participants as payments of principal and interest are made. There were 30,000 shares released and allocated to participants for the year ended December 31, 2024.

On December 31, 2024, the Plan amended the loan agreement to include a performance adjustment of \$204,706 related to the transfer of equity interests between Tri-M Group, LLC and EnerG. The amendment increased the loan balance as of December 31, 2024, from \$31,280,365 to \$31,485,071.

**Contributions** - The Company may make contributions each plan year in amounts sufficient for the Plan to make payments of principal and interest on the Plan’s loan from the Company and to fund benefit payments. As the Company contributes funds to the Plan, the Plan repays its loan from the Company. The Board and Trustee may elect to have additional contributions made to the Plan at their discretion. Contributions are subject to certain Internal Revenue Code (“IRC”) limitations.

**Participant accounts** - Once contributions are made to the Plan, each participant’s account will be credited with allocations of the Company’s contributions and forfeitures of terminated participants’ nonvested accounts. Allocations are based on participant compensation, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

**Vesting** - Company contributions are subject to the following vesting schedule:

<u>Years of Service</u>	<u>Vested Percentage</u>
0-1	0
2	20
3	40
4	60
5	80
6 or more	100

### ( 1 ) Description of plan (continued)

**Payment of benefits** - Vested amounts are generally payable to the participant on the later of the fifth anniversary of the participant's termination of service or attainment of age 65. Participant accounts under \$7,000 will be paid in the plan year following the participant's termination of service.

**Administrative expenses** - Administrative expenses may be paid by the Plan or by the Company.

**Voting rights** - Each participant is entitled to exercise voting rights attributable to the shares allocated to their account on certain issues specified in the IRC requiring stockholders' approval. Subject to compliance with ERISA, the Trustee will exercise the voting rights of the participants as directed by the Plan's participants. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of Plan participants and beneficiaries.

**Put option** - Under the IRC and Federal income tax regulations, the common stock that is held by the Plan and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company is required to pay for the purchase in a single payment. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

**Forfeitures** - Plan forfeitures are allocated to each participant's account based upon the relation of the participant's eligible compensation to total eligible compensation for the Plan year. Forfeitures allocated to participants during the year ended December 31, 2024, totaled \$1,066.

### ( 2 ) Summary of significant accounting policies

**Basis of accounting** - The financial statements of the Plan are prepared on the accrual method of accounting.

**Use of estimates** - The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

**Allocations** - The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to: (a) the accounts of employees with rights in allocated stock ("allocated") and (b) stock not yet allocated to employees ("unallocated"), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

**Investment valuation and income recognition** - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

**Payment of benefits** - Benefits are recorded when paid.

**Administrative expenses** - Certain expenses of the Plan are paid by the Company and are not included in the statement of changes in net assets available for benefits. Investment-related expenses are included in net appreciation in fair value of investments.

**NOTES TO FINANCIAL STATEMENTS**

**( 3 ) Investments**

The Plan's investments in common stock as of December 31, 2024 and 2023, are presented in the following table:

	<u>December 31, 2024</u>		<u>December 31, 2023</u>	
	<u>Allocated</u>	<u>Unallocated</u>	<u>Allocated</u>	<u>Unallocated</u>
Company common stock:				
Number of shares	<u>90,000</u>	<u>510,000</u>	<u>60,000</u>	<u>540,000</u>
Cost	<u>\$ 5,405,886</u>	<u>\$ 30,633,352</u>	<u>\$ 3,583,453</u>	<u>\$ 32,251,079</u>
Estimated fair value	<u>\$ 1,710,000</u>	<u>\$ 9,690,000</u>	<u>\$ 694,200</u>	<u>\$ 6,247,800</u>

**( 4 ) Fair value measurements**

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board Accounting Standards Codification 820 are described below:

- Level 1           Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
  
- Level 2           Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
  
- Level 3           Inputs to the valuation methodology are unobservable and significant to measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2024 and 2023.

*Company common stock:* Valued at the appraised value of the Company as determined by an independent third-party valuation company. The common stock held by the Plan is not actively traded, and significant other inputs are not available. The Plan's provisions specify that the Company's common stock will be valued annually on the last day of the plan year. The appraisal was based on a combination of commonly-used valuation techniques for similar private businesses. The independent third-party valuation company weighted the income approach and market approach 50% each for valuing the Company.

**NOTES TO FINANCIAL STATEMENTS**

**( 4 ) Fair value measurements (continued)**

The Plan's investment at fair value consists of Level 3 Company common stock as of December 31, 2024 and 2023. The following table sets forth a summary of changes in the fair value of the Plan's Level 3 investment for the year ended December 31, 2024:

	<b>Year Ended December 31, 2024</b>
Balance, beginning of year	\$ 6,942,000
Unrealized gains (losses) relating to instruments still held at the reporting date	4,458,000
Balance, end of year	\$ 11,400,000

The valuation process involves plan management's selection of an independent third-party appraiser. Plan management accumulates the data for the appraiser from the financial statements of the Company and projected financial results prepared by the Company's management.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

**( 5 ) Loan payable**

On December 29, 2021, the Plan obtained a loan in the amount of \$35,834,532 from the Company to purchase shares of Company stock. The note payable is collateralized by unallocated shares of Company stock.

The Company is obligated to make contributions to the Plan sufficient for the Plan to make its annual payments of principal and interest due under this loan payable. The loan agreement provides for the loan to be repaid in annual installments of principal and interest at 1.9%, totaling \$2,170,431 commencing on December 29, 2022, and for the succeeding nineteen years thereafter. On December 31, 2024, the loan was amended to increase the loan balance as described in Note 1, also increasing the annual payments to \$2,184,634.

Aggregate annual maturities of the loan payable as of December 31, 2024, are as follows:

<u>Years Ending December 31,</u>	
2025	\$ 1,586,418
2026	1,616,560
2027	1,647,275
2028	1,678,573
2029	1,710,466
Thereafter	23,245,779
	\$ 31,485,071

## THE TRI-M GROUP EMPLOYEE STOCK OWNERSHIP PLAN

### NOTES TO FINANCIAL STATEMENTS

**( 6 ) Related-party transactions and party-in-interest transactions**

The Plan invests in shares of common stock of the Company. As discussed in Note 1, the Company also may pay administrative expenses of the Plan. The Company is the plan sponsor of the Plan and, therefore, these transactions qualify as party-in-interest transactions.

**( 7 ) Plan termination**

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their Company contributions.

**( 8 ) Tax status**

The Internal Revenue Service ("IRS") has determined that the basic plan document adopted by the Plan is designed in accordance with applicable sections of the IRC and informed the Plan's attorney of such in a letter dated June 30, 2020. The Committee and Trustee believe that the Plan is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that, more likely than not, would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

**( 9 ) Risks and uncertainties**

The Plan invests in the Company's common stock, which is exposed to various risks such as interest rates, market, and credit, as well as valuation assumptions based on earnings, cash flows, and/or other such techniques. Due to the level of risk associated with investing in the Company's common stock, it is at least reasonably possible that changes in the value of the Company's common stock will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

**( 10 ) Subsequent events**

The Plan has evaluated subsequent events through October 8, 2025, which is the date the financial statements were available to be issued.
