Board of Directors and Participants
Flat Branch Mortgage, Inc. Retirement Savings Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Flat Branch Mortgage, Inc. Retirement Savings Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2024 and 2023 stating that the certified investment information, as described in Note F to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not absolute assurance, and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

The Plan is intended to qualify as a tax-exempt employee stock ownership plan and trust under Code Section 4975(e)(7) and shall be a Section 401(k) profit sharing plan with an ESOP component. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by Flat Branch Mortgage, Inc. (the Company).

Under the Plan, participants have the opportunity to defer a portion of their compensation into the Plan and the Company makes contributions to the Plan which may be invested in Company stock. The ESOP portion of the of Plan shall be comprised of ESOP accounts, which shall be invested primarily in Company stock. The Plan is a safe harbor 401(k) plan under the Internal Revenue Code.

Prior to the Effective Date, the Company sponsored and maintained the Flat Branch Mortgage Inc. 401(k) Plan (the 401(k) Plan). The 401(k) Plan was merged into the Plan effective as of March 15, 2021 (the Merger Date).

On March 31, 2021, the Plan purchased 86,295.78 shares of the Company's common stock at a price of \$.735 per share for an aggregate price of \$ 63,427.40. The purchase was funded by trust assets of \$ 46,302 and a loan of \$ 17,125.40 from the Company. The borrowing is collateralized by the unallocated shares of the common stock. Accordingly, the financial statements of the Plan as of December 31, 2024 and 2023, present separately the assets and liabilities and changes therein pertaining to the account and employees with rights in allocated common stock (allocated), and common stock not yet allocated to employees (unallocated).

2. Eligibility

The Plan has separate entry dates for elective employee contributions and for all other purposes. Eligible employees of the Company who have completed three months of service and are age 18 or older are eligible to participate in elective deferrals. Any eligible employee under the Merged Plan as of the date immediately preceding, shall be a participant as of the Merger date.

NOTE A | DESCRIPTION OF THE PLAN

2. Eligibility

For all other purposes, each eligible employee shall become a participant as of the entry date coinciding with or next following the completion of one year of service in which the participant earns at least 1,000 hours of service and attainment of age 18. Upon merger of the Merged Plan into the Plan, any eligible employee under the Merged Plan who was a participant in the Merged Plan as of the date immediately prior to the Merger Date, shall be a Participant in the Plan as of the Merger Date. Employees whose employment is governed by a collective bargaining agreement, are nonresident aliens, and leased employees are excluded from eligibility.

3. *Contributions*

The Plan includes a 401(k) provision, which allows participants to contribute all or a portion of their compensation on a pre-tax or post-tax basis to the Plan. Participants are also allowed to make rollover contributions of pre-tax accounts. Annual participant contributions are limited to amounts as specified in the Internal Revenue Code. The Company is obligated to make contributions to the Plan, which when aggregated with the Plan's earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payment of principal and interest on its term note. The Plan also makes required mandatory safe harbor employer contributions on behalf of each eligible employee in an amount equal to 3% of each participant's compensation to the participant's ESOP other investment account. The Company may also make a discretionary matching contribution which is determined annually.

4. *Participant Accounts*

Each participant's account is credited with the participant's elective deferral contributions, the Company's contribution and the Plan's earnings. Each participant's allocations are based on participant compensation, contributions or account balances, as defined. For the ESOP investments, each participant's account is credited as of the last day of the plan year with an allocation of shares of the Company common stock released by the Trustee from the unallocated account and forfeiture of terminated participant's non-vested accounts. Only those participants who are eligible employees as of the last day of the plan year will receive an allocation.

The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Forfeited balances of terminated participants' nonvested accounts are used to reinstate any forfeitures required to be reinstated for a rehired employee or otherwise to offset any employer contribution obligation and/or pay for reasonable and proper plan expenses.

NOTE A | DESCRIPTION OF THE PLAN

7. Payment of Benefits

Distribution from the ESOP account shall be made in cash or entirely in the form of Company stock. Participants shall not be entitled to demand distribution of their ESOP accounts in the form of Company stock. If a distribution is made in the form of Company stock, such distribution shall be made in the form of whole shares of Company stock with the value of any fractional shares paid in cash. Company stock distributed by the Trustee shall be subject to the requirement that the Company stock be sold to the Company (or the Trust) immediately upon distribution.

Plan benefits, other than the ESOP accounts and the nonelective account, shall be distributed in a single lump sum payment.

The plan permits hardship distributions under specified circumstances from participant's elective deferrals, qualified nonelective contributions and qualified matching contributions accounts. Participants shall not be permitted to receive a hardship distribution related to any amount invested in Company stock.

8. Administrative Expenses

As provided in the plan agreement, administrative expenses may be paid by either the Plan or by the Company.

9. Voting Rights

The Trustees will vote the shares of Company stock which are unallocated or allocated shares of Company stock for which no directions are received. A participant is notified by the Trustees prior to the time that such rights are to be exercised.

NOTE A | DESCRIPTION OF THE PLAN

10. Put Option

Under federal income tax regulations, the Company stock that is held by the Plan and its participants and is not readily tradable on an established market or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current value of the stock. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

11. Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments that are more diversified. Participants who are at least age 55 with at least 10 years of service in the Plan, beginning on the earlier of January 1, 2021 or the date the participant commenced participation in the Merged Plan, may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number shares allocated to his or her account, less any shares previously diversified. The election to diversify is made subsequent to year-end based upon the shares of Company stock in the participant's account at year-end. In the sixth year, the percentage changes to 50%. Due to the January 1, 2021 Plan inception date, no participant met diversification requirements as of 2023. Select participants first became eligible for diversification in 2024.

12. Forfeitures

Forfeitures will be used to reduce employer contributions. As of the years ended December 31, 2024 and 2023, there were forfeited non-vested balances of \$4,972 and \$2,521, respectively. No forfeitures were used to reduce employer contributions during 2024 and 2023.

NOTE B | SUMMARY OF ACCOUNTING POLICIES

1. Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

NOTE B | SUMMARY OF ACCOUNTING POLICIES

2. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

3. Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock and (b) stock not yet allocated to employees, including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

4. Investment Valuation and Income Recognition

The Plan's investments are reported at fair value (except for fully benefit-responsive investment contracts). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Investments in fully benefit-responsive investment contracts are stated at contract value. Contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. See Note E for discussion of the Plan's investments in fully benefit-responsive investment contracts.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE B | SUMMARY OF ACCOUNTING POLICIES

5. *Payment of Benefits*

Benefits are recorded when paid.

6. *Subsequent Events*

Management has evaluated subsequent events for recognition and disclosure in the financial statements through October 10, 2025, which is the date the financial statements were available to be issued. Through October 10, 2025, no subsequent events required recognition or disclosure in the financial statements.

NOTE C | INVESTMENT IN PLAN SPONSOR COMMON STOCK

The Plan's investment in Plan Sponsor common stock at December 31, 2024 and 2023 is presented below:

	<u>2024</u>		<u>2023</u>	
Flat Branch Holding Company				
Common stock	<u>Allocated</u>	<u>Unallocated</u>	Allocated	Unallocated

Estimated fair value	\$ 35,958,401	\$ 10,660,305	\$ 29,133,316	\$ 9,151,807

NOTE D | FAIR VALUE MEASUREMENTS

The Plan follows the fair value measurement guidance for financial assets and financial liabilities. This guidance defines fair value, establishes a framework for measuring fair value and expands disclosure about fair value measurements. In addition, the guidance permits an entity to measure eligible financial instruments and other items at fair value. The Plan has not made any fair value elections.

Fair value is defined to be the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Flat Branch Mortgage, Inc. Retirement Savings Plan
NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

NOTE D | FAIR VALUE MEASUREMENTS

A three-level hierarchy has been established for fair value measurements based upon the inputs to the valuation of an asset or liability as follows:

Level 1 - Valuation is based on quoted prices for identical assets and liabilities in active markets.

Level 2 - Valuation is derived from inputs, other than quoted prices included in Level 1, which are observable for the asset or liability either directly or indirectly. Investments classified as Level 2 are generally valued by benchmarking model-derived prices to quoted market prices and trade data for identical or comparable securities. The significant inputs used in this approach include interest rates, prepayment timing, yield spreads, maturities, credit losses and credit ratings of the securities.

Level 3 - Valuation is derived from unobservable inputs that are not corroborated by market data.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Sponsor Company common stock is valued at estimated fair value determined by an independent appraisal using externally developed models that consider unobservable inputs.

Interest-bearing cash is valued at cost which approximates fair value.

Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

NOTE D | FAIR VALUE MEASUREMENTS

Fair value of the Sponsor Company’s common stock held by the Plan is valued at fair value based upon an independent appraisal. This appraisal was based upon an income valuation technique. The Sponsor Company was valued as a going-concern based on business, economic, market and other conditions as they exist and can be evaluated as of the valuation date. Such valuation techniques are illustrated in the following table:

<i>Instrument</i>	<i>Fair Value</i>	<i>Principal Valuation Technique</i>	<i>Unobservable Inputs</i>
Sponsor Company common stock	2024 \$ 46,618,706 2023 \$ 38,285,123	Income	EBITDA EBTDA Discount rate Capitalization rate Terminal multiple Discount for lack of marketability

The valuation process involves Plan management’s selection of an independent appraiser under contract for a term of one year with the right to cancel that contract at any time. Plan management accumulates the data for the appraiser from the audited financial statements of the Company. The appraiser prepares a preliminary report and Plan management, along with the ESOP trustee, reviews in detail, discusses and approves the valuation.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE E | GUARANTEED INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan allows participants to invest in a fully benefit-responsive guaranteed investment contract with Principal Life Insurance Company (Principal) totaling \$ 3,419,201 and \$ 2,862,393 at December 31, 2024 and 2023, respectively. Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal at a specified interest rate that is guaranteed to the Plan. The crediting interest rate is based on a formula agreed upon by the issuer and may not be less than 0.0%. Such interest rates are reviewed on a semi-annual basis for resetting. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. Certain events could potentially limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (such as complete or partial termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, (4) the failure to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, or (5) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's investment guidelines, (2) a breach of a material obligation under the contract, (3) a material misrepresentation, and (4) a material amendment to the agreement without consent of the issuer.

NOTE G | LOAN PAYABLE

On March 31, 2021, the ESOP entered into a \$ 17,125 term note from the Company. The proceeds of this note were used to purchase Company common stock. Unallocated shares are collateral for this note. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, times the ratio of the current year principal and interest paid divided by the current year payment plus all of future years’ principal and interest payments. This resulted in 895.1745 and 905.2658 shares being released and allocated for the plan years ended December 31, 2024 and 2023, respectively. The note bears interest at 1.62% and is to be repaid in thirty equal annual payments of \$ 571 plus interest. Final payment is due December 31, 2050.

Maturities of the notes payable for the five years following December 31, 2024, are as follows:

2025	\$	571

NOTE H | PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE I | TAX STATUS

The Plan is intended to be qualified under Section 401(a) and tax exempt under Section 501(a) of the Internal Revenue Code. The Plan has obtained its approved determination letter, dated September 15, 2021, in which the Internal Revenue Service stated that the Plan was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter; however, company management believes the Plan is designed, and is currently being operated, in compliance with applicable requirements of the Internal Revenue Code, and that the related trust is tax-exempt at the financial statement date.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress.

NOTE J | RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. The Plan also invests in the Company's common stock, which is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows and/or other techniques. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits. As of the date of this report, the current economic environment has increased the degree of uncertainty.
