**Part III Accountant's Opinion**

**3** Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

**a** The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1)  Unmodified (2)  Qualified (3)  Disclaimer (4)  Adverse

**b** Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1)  DOL Regulation 2520.103-8 (2)  DOL Regulation 2520.103-12(d) (3)  neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

**c** Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: EIDE BAILLY, LLP

(2) EIN: 45-0250958

**d** The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1)  This form is filed for a CCT, PSA, DCG or MTIA. (2)  It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

**Part IV Compliance Questions**

**4** CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
<b>a</b> Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		X	
<b>b</b> Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		X	
<b>c</b> Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		X	
<b>d</b> Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		X	
<b>e</b> Was this plan covered by a fidelity bond?	X		500000
<b>f</b> Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		X	
<b>g</b> Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		X	
<b>h</b> Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		X	
<b>i</b> Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)		X	
<b>j</b> Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)		X	
<b>k</b> Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		X	
<b>l</b> Has the plan failed to provide any benefit when due under the plan?		X	
<b>m</b> If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)			
<b>n</b> If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.			

**5a** Has a resolution to terminate the plan been adopted during the plan year or any prior plan year?  Yes  No  
 If "Yes," enter the amount of any plan assets that reverted to the employer this year \_\_\_\_\_.

## Independent Auditor's Report

To the Star Tribune Benefit Plans Committee  
Star Tribune Retirement Plan G  
Minneapolis, Minnesota

### Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Star Tribune Retirement Plan G (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2024 and 2023, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

### Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

## **Basis for Opinion**

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

## **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

## **Auditor's Responsibilities for the Audit of the Financial Statements**

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

**Note 1 - Description of the Plan**

The following description of the Star Tribune Retirement Plan G (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

**General**

The Plan includes both a monthly pension benefit based on earnings and years of service, and a cash balance defined benefit pension plan that covered those employees of Star Tribune Media Company LLC (the Company) represented by the Twin Cities Newspaper Guild, Local No. 2, AFL-CIO prior to December 31, 2009. The Company is a single member LLC wholly owned, through a series of intermediate parents, by Star Tribune Media Holdings Company. The Plan is controlled and managed by Star Tribune Media Company LLC (the Plan Administrator). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan's trustee is The Bank of New York Mellon/BNY Mellon, N.A. (Trustee).

Effective December 31, 2009, the Plan was frozen. As of such date, no new participants are admitted to the Plan, and no further benefits are earned by any participant in the Plan whether they remain in the Company's employment or not.

The Plan is funded with an annual contribution within the minimum and maximum limits under ERISA, representing current cost, plus amortization of prior service costs. There were no contributions required to be made for the Plan years December 31, 2024 and 2023, after applicable funding balances applied.

**Pension Benefits**

Under the terms of the Plan, participants are eligible for monthly benefit payments upon reaching regular retirement age. Early retirement is available after either attaining age 55 with a minimum of ten years of service or completing 25 years of vesting service. The Plan provides for 100% vesting after five years of service, or after three years of service provided the participants have a cash balance account.

Monthly benefit payments are determined by application of a formula based on 1% of the final average monthly earnings up to the integration level for the Plan year in which termination of employment occurs, plus 1.5% of the final average monthly earnings in excess of the integration level for such Plan year, multiplied by years of service (not exceeding 30) prior to December 31, 2009. Participants will receive a lump-sum distribution in the event that the actuarial equivalent present value of the participant's entire vested benefit is \$5,000 or less. If the actuarial equivalent present value of a participant's entire vested benefit exceeds \$1,000, but does not exceed \$5,000, the amount shall be paid as an automatic rollover as required by regulations. Additionally, eligible participants' accounts were credited with a 2.5% cash balance contribution of annual certified earnings between January 14, 1994, and December 31, 2009. Interest is credited annually into participants' hypothetical accounts based upon the average rates of six-month treasury bills. As of January 1, 2024 and 2023, the interest rate credited was 5.81% and 1.56%, respectively. Participants are 100% vested in their cash balance at all times, regardless of their years of vesting service. The normal form of benefit payment is a qualified joint and survivor annuity for married participants, and a single life annuity for non-married participants.

### **Death and Disability Benefits**

In the event of a death of a participant prior to retirement, the beneficiary will receive a death benefit equal to the value of the employee's accumulated pension benefits, including any Cash Balance Retirement Benefit. Active employees who become totally disabled receive annual disability benefits that are equal to the normal retirement benefits they have accumulated as of the time they become disabled, reduced for early retirement.

### **Note 2 - Plan Termination**

While the Company has not expressed any intent to terminate the Plan or to discontinue contributions, it has the right to do so at any time, subject to the provisions set forth in ERISA. Should the Plan be terminated at some future time, all participants become 100% vested in benefits earned as of the termination date.

In the event the Plan terminates, the net assets of the Plan will be allocated as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under the Plan's provisions in effect at any time during the five years preceding the Plan's termination.
2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. Government agency) up to the applicable limitations.
3. All other vested benefits (that is, vested benefits not insured by the PBGC).
4. All non-vested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect at the date of the Plan's termination.

Whether all participants receive their benefits, should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations, and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

If, however, the Plan is terminated for any reason other than the bankruptcy or near bankruptcy of the Company, and the Plan has insufficient assets, the Company will be required to pay the Plan an amount which, together with Plan assets, will satisfy all benefits accumulated to the date of the Plan's termination.

**Note 3 - Summary of Significant Accounting Policies****Basis of Accounting**

The accompanying financial statements have been prepared on the accrual basis in accordance with accounting principles generally accepted in the United States of America (GAAP).

**Investment Valuation and Income Recognition**

The Plan's investment in the Star Tribune Master Trust (the Master Trust) is stated at current fair market (see Note 7). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Benefit Plan Committee determines the Plan's valuation policies utilizing information provided by its investment advisers and custodians. See Note 7 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis, and dividends are recorded on the ex-dividend date. Net investment income (loss) from the Master Trust includes interest, dividends, net gain on sale of assets, and unrealized asset appreciation (depreciation), less investment advisory fees and management fees.

The classification of investment earnings (losses) reported in the statements of changes in net assets available for benefits may differ from the classification of earnings (losses) on Form 5500 due to different reporting requirements on Form 5500.

**Derivative Financial Information**

The Plan's investment policy allows the use of derivatives by investment managers of the Master Trust for investment portfolio strategies that include enhancing returns and facilitating shifts in asset allocation. See Note 7.

**Use of Estimates**

The preparation of the financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosures of contingent assets and liabilities, and the actuarial present value of accumulated Plan benefits at the date of the financial statements. Accordingly, actual results may differ from those estimates.

**Risks and Uncertainties**

As described in Note 7, the Plan (through the use of the Master Trust) invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated Plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

### **Expenses**

The Plan's expenses are paid by either the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment-related expenses may be included in investment income of fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

### **Payment of Benefits**

Benefit payments to participants are recorded upon distribution.

### **Federal Income Taxes**

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated May 12, 2014, that the Plan and related trust were designed in accordance with the applicable regulations of the Internal Revenue Code (IRC). Subsequent to the issuance of this determination letter, the Plan was amended. However, the Company, Plan management and the Plan's tax counsel believes that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC, and the Plan and related trust continue to be tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

### **Note 4 - Funding Policy**

Contributions by the Company that meet the funding requirements of ERISA are determined by actuarial valuations and are made to the Master Trust (see Note 7). The contributions are determined by the Plan's independent actuary and are expected to be sufficient to provide the Plan with assets to pay estimated pension benefits to Plan participants.

Contributions to the Plan are determined based upon calculations made by the actuary and are designed to annually fund current normal costs, and to amortize the unfunded liability over 30 years, as specified in the Newspaper Relief Act, or a period of time that results in annual contributions equal to, or in excess of, the minimum funding requirements. The Plan met the minimum funding standards for the years ended December 31, 2024 and 2023, and there were no contributions attributable to 2024 or 2023 after applicable funding balances were applied.

#### Note 5 - Actuarial Present Value of Accumulated Plan Benefits (APB)

APBs are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. APBs include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are accumulated based on the employee's compensation during each year of credited service. The APB for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of APBs is determined by an independent actuary and is that amount which results from applying actuarial assumptions to adjust the APBs to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The computations of the actuarial present value of APBs were made as of January 1, 2024. Had the valuation been performed as December 31, 2023, there would be no material differences.

The actuarial present value of APBs as of December 31, 2023, and the changes in the actuarial present value of APBs for the year ended December 31, 2023, are summarized as follows:

Vested benefits	
Participants currently receiving payments	\$ 38,552,391
Other participants	18,600,828
	<u>57,153,219</u>
Non-vested benefits	<u>118,444</u>

Notes to Financial Statements

December 31, 2024 and 2023

Significant assumptions underlying the actuarial computations of the present value of APBs as of January 1, 2024, include the following:

	Age	Percentage Assumed to Retire
Retirement rates	70	100.0%
	66-69	30.0%
	65	50.0%
	62-64	10.0%
	60-61	5.0%
	55-59	2.5%
Mortality rates	Pri-2012 with generational projection using scale MP-2021	
ASC 960 discount rate		7.20%
Termination rates - 2023 assumptions	Age	Rates
Rates graded by age with sample rates as listed	55-64	5.0%
	50	5.0%
	45	8.0%
	40	10.0%
	35	12.0%
	30	16.0%
	25	20.0%
	20	24.0%
Asset value	Based on the Trustee's annual report and supplemental information supplied by the Company.	
Form of payment	Life annuity	

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of APBs.

**Note 6 - Information Certified by the Trustee**

Certain information related to investments disclosed in the accompanying financial statements, including investments held at December 31, 2024 and 2023, and net investment income from the Master Trust for the years ended December 31, 2024 and 2023, was obtained by management and agreed to or derived from information certified as complete and accurate by the Trustee.

The Trustee has provided the Plan Administrator with certifications that such information is complete and accurate as of and for the years ended December 31, 2024 and 2023, as follows:

	2024	2023
Plan's interest in the Master Trust	\$ 44,818,080	\$ 46,574,435
Net investment income from the Master Trust	3,412,941	5,351,047

Such amounts and all of the financial information in Note 7, excluding the classification of investments by level, are included in the accompanying financial statements of the Plan based on such certifications from the Trustee.

**Note 7 - Master Trust**

Assets for the Plan are held in the Master Trust under a Master Trust Agreement with the Trustee. The participating plans in the Master Trust are the Star Tribune Retirement Plan A, Plan G, and Plan O. The purpose of combining the assets of the three plans is to pool investment transactions and achieve uniform rates of return on comparable funds under all plans. Each plan owns an undivided interest in net assets of the Master Trust based on its equity in the Master Trust.

The Plan's share of net investment income or loss is determined by the Trustee based on the daily weighted-average ratio of the fair value of the Plan's equity in the Master Trust to the total net assets of the Master Trust. The fair value of the Plan's interest in the Master Trust was based on the value of the Plan's interest in the trust, plus actual contributions and allocated investment income, less actual distributions and allocated administrative expenses.

Under the terms of the trust agreement, the Trustee manages trust funds on behalf of the Plan. In accordance with the trust agreement, certain assets of the Plan are held together with assets of other plans sponsored by the Company.

### Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Equity and mutual funds (including money market mutual funds) – Valued at the daily closing price as reported by the fund. Funds held by the Plan are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The funds held by the Plan are deemed to be actively traded.

Common collective trust – Valued at fair value based on the NAV of units held of the collective trust. The NAV is based on the observable market prices of the underlying investments within the fund less liabilities. The NAV for the underlying assets of the fund is a readily determinable measure of their fair value and is the basis used by the fund for current transactions. Investment managers may use hedging or derivative strategies to generate income yield and to hedge against adverse changes in the market

Alternative investments (including investment partnership) – Valued at fair value based on the NAV of units held of the fund. The NAV, as provided by the custodian is used as a practical expedient to estimate fair value. The NAV is based on the observable market prices of the underlying investments within the fund less liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Other alternative investments are valued on other unobservable inputs of fund holdings in real estate and alternative investments (including, but not limited to, long/short equity/credit investment partnerships). Investment partnership funds may use hedging or derivative strategies to generate income yield and to hedge against adverse changes in the market.

Notes to Financial Statements  
December 31, 2024 and 2023

The following table does not include the Plan's interest in the Master Trust because that information is presented in a separate table. The fair value of the assets in the Master Trust by asset category and level, as defined by ASC Topic 820, as of December 31, 2024 and 2023 are as follows:

	2024			Total
	Level 1	Level 2	Level 3	
Equity and mutual funds	\$ 148,329,499	\$ -	\$ -	\$ 148,329,499

Investments at NAV (a)				115,992
<b>Total investments at fair value</b>				<b>\$ 168,826,972</b>

(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) need not be classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the net assets listing previously presented in this Note

The following table sets forth the disclosure for the fair value measurement of investments that are measured at NAV per share (or its equivalent) as a practical expedient as of December 31, 2024 and 2023:

	December 31, 2024	December 31, 2023	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Investment partnerships					
Debt securities					
Marathon Emerging Markets					
Debt Fund	\$ -	\$ 115,992	\$ -	Monthly	Monthly

### Changes in Fair Value of Level 3 Assets

The table below sets forth a summary of certain changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2024:

	Alternative Investments
Transfers in	\$ -
Transfers out	(3,789,811)
Purchases	6,603,640
Issuances	-

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another.

We evaluate the significant transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits.

### Qualitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following tables represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments as of December 31, 2024 and 2023, and the significant unobservable inputs and the ranges of values for those inputs:

2024					
Instrument	Fair Value	Principal Valuation Technique	Significant Unobservable Inputs	Range of Significant Input Values	Weighted Average
Alternative investments (Real Estate Funds)	\$ 11,403,190	Discounted cash flow	Discount rate Capitalization rate	6.75% - 10.75% 5.50% - 8.75%	7.43% 5.93%
2023					
Instrument	Fair Value	Principal Valuation Technique	Significant Unobservable Inputs	Range of Significant Input Values	Weighted Average
Alternative investments (Real Estate Funds)	\$ 10,602,182	Discounted cash flow	Discount rate Capitalization rate	6.30% - 11.50% 4.60% - 8.75%	7.27% 5.68%

In estimating fair value of the investments in level 3, the Benefit Plans Committee may use third-party pricing sources or appraisers.

**Note 8 - Related Party-and Party in-Interest Transactions**

Certain investments of the Master Trust are in a commingled fund held by the Trustee. As described in Note 3, the Plan paid certain expenses related to Plan operations and investment activity to various service providers. These transactions are exempt party-in-interest transactions under ERISA.

**Note 9 - Subsequent Events**

Effective January 1, 2025, the Plan was amended for the following:

- Pension payments will begin on the date elected by the participant, but no later than the participant's Normal Retirement Date. If a participant has not had a termination of employment and the Normal Retirement Date has been reached, pension payments will begin on the first of the month after the participant's termination.
- If a participant fails to complete the application to begin pension payments before the dates mentioned above, Star Tribune will make reasonable assumptions to compute the participant's pension payments and shall pay the participant as a normal pension or Qualified Joint and Survivor Annuity as applicable.
- A participant or beneficiary must maintain his or her current address on file with Star Tribune. If Star Tribune is unable to locate a participant or beneficiary his or her benefit will be forfeited. If the participant or beneficiary is later located, his or her benefits will be reinstated (without adjustment for investment gains or losses) and any missed payments owed will be made without interest. Unclaimed benefits no longer have a five-year limitation period and no longer are to be used solely to defray Plan expenses.

The Plan Sponsor has evaluated subsequent events through October 7, 2025, the date which the financial statements were available to be issued.

<b>Timing of benefit payments</b>	Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

## Methods

<b>Valuation date</b>	First day of plan year
<b>Funding target</b>	Present value of accrued benefits as required by regulations under IRC §430.
<b>Target normal cost</b>	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
<b>Decrement timing</b>	The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.

The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year).</p> <p>The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the</p>

## Sources of Data and Other Information

The plan sponsor furnished participant data and claims data as of 1/1/2024. Information on assets, contributions and plan provisions was supplied by the plan sponsor.

Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

## Assumptions Rationale - Significant Economic Assumptions

**Discount rate**

The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.

**Cash balance interest crediting rate**

The plan credits interest to cash balance accounts using the one-month arithmetic average of the 6-Month Treasury Bills for the month of October prior to the Plan Year, plus 150 basis points. The plan sponsor has selected an expected future crediting rate of 7.07% in 2024, grading up to 4.00% in 2028. After examining historical variability in this rate, we believe that the selected assumption does not significantly conflict with what would be reasonable based on a combination of market conditions at the measurement date and future expectations consistent with other economic assumptions used.

**Plan-related expenses**

As required by regulations, plan-related expenses are calculated by estimating the expenses to be paid from the trust during the coming year (including, for example, expected PBGC premiums and actuarial, accounting, legal, administration and trustee fees to be paid from the trust).

## Assumptions Rationale - Significant Demographic Assumptions

<b>Healthy Mortality</b>	Assumptions used for funding purposes are as prescribed by IRC §430(h).
<b>Termination</b>	Termination rates were selected based on future expected decrements, with annual consideration of whether observed gains and losses are caused by termination patterns different than assumed.
<b>Retirement</b>	Retirement rates were selected based on future expected decrements, with annual consideration of whether observed gains and losses are caused by termination patterns different than assumed.
<b>Benefit commencement date for deferred benefits</b>	Deferred vested participants' assumed commencement age is 65 or current age if later. Deferred vested early commencement factors are not subsidized so that the difference between this approach and using assumed commencement rates at multiple ages is not expected to be significant.

## Changes in Assumptions and Methods

DRAFT

## Pensionable pay

Aggregate amount paid each plan year as regular salary or straight-time base pay.

## Final earnings

The average of the highest four consecutive plan years of pensionable pay during the 15-year period ending on the earlier of the participant's termination date or retirement date.

## Integration level

An amount equal to \$1,400 multiplied by a fraction, the numerator of which is the Social Security taxable wage base in effect in year of termination and the denominator of which is \$48,000.

## Cash balance account

The sum of benefit credits and interest credits.

## Benefit credits

Benefit credits equal 2.5% of Pensionable Pay during each year as a participant until December 31, 2009. Annual allocations are credited as of August 1 to participants who are active employees on that date. Participants terminating prior to August 1 with 1,000 or more hours of service receive an allocation for the year.

## Interest credits

The interest credit for each plan year for periods on and after January 1, 2017 is the one-month average of discount rates on 6-month Treasury Bills (for the prior October) + 1.5%. Interest credits are credited to the participant's account on December 31, or at the date of distribution, if earlier.

## Normal retirement date (NRD)

Last month in which person attains age 65, or if over age 60 at entry, the fifth anniversary of participation or completion of five years of vesting service, if earlier.

## Regular retirement date (RRD)

The later of normal retirement date and the last day of the month following regular retirement age based on the following:

Year of Birth	Regular Retirement Age
Before 1938	65
1938-1954	66
After 1954	67

## Monthly pension benefit

The greater of (1) and (2):

1. An amount equal to years of credited service (not exceeding 30) times the sum of:
  - (a) 1% of final earnings up to the integration level
  - (b) 1.5% of final earnings in excess of the integration level
2. An amount determined as if termination of employment occurred on December 31, 1988 under the plan provisions in effect on that date.

Effective December 31, 2009, the plan is frozen and benefits will cease to accrue under the formulas described above.

## Monthly cash balance annuity

A monthly annuity payable for life commencing on the participant's elected distribution date equal to the immediate annuity equivalent to the participant's cash balance account.

Effective December 31, 2009, the plan is frozen and benefits will cease to accrue under the formulas described above.

## Monthly preretirement spouse benefit

50% of the monthly pension benefit as of the date of death, reduced for the 50% joint and survivor election and reduced for payment as early as the participant's 55th birthday. If eligible for early, regular or late retirement, benefit is based on joint and 100% survivor election.

## Cash balance survivor benefit

An amount equal to participant's cash balance account on the first day of the month following death.

## Eligibility for Benefits

<b>Normal retirement</b>	Retirement on RRD.
<b>Early retirement</b>	Retirement before RRD and on or after both attaining age 55 and completing 10 years of vesting service, or 25 years of vesting service with no age requirement.
<b>Late retirement</b>	Retirement after RRD.
<b>Disability retirement</b>	Termination upon total and permanent disability after 10 years of vesting service.

**Deferred vested** Termination for reasons other than death or retirement after completing three years of vesting service. Participants are 100% vested in cash balance benefit at all times, regardless of the number of years of vesting service.

**Preretirement spouse benefit** Death while eligible for normal, early, late, or deferred vested

**Cash balance survivor benefit** Death after accrual of a benefit credit.

## Monthly Benefit Paid Upon the Following Events

**Normal retirement** Monthly pension benefit determined as of RRD plus cash balance account or equivalent monthly cash balance annuity.

**Early retirement** Monthly pension benefit determined as of early retirement date, reduced for payment at or after age 55 according to a table graded by age and years of service, plus cash balance account or equivalent monthly cash balance annuity.

**Late retirement** Monthly pension benefit determined as of actual retirement date plus cash balance account or equivalent monthly cash balance annuity.

**Disability retirement** Monthly pension benefit determined as of termination date, without reduction for payment before RRD and reduced by payments from Workers Compensation, salary continuance & insurance by employer, plus cash balance account or equivalent monthly cash balance annuity.

**Termination with deferred vested benefit** Monthly pension benefit determined as of termination date, reduced 6.667% for each of the first five years of payment before the participant's RRD, then 3.333% for each year to age 55. For termination on or after age 55, reduction is 5% for each year of payment before RRD. Participants may elect an immediate distribution of cash balance account or equivalent monthly annuity.

**Death with preretirement spouse benefit** Monthly preretirement spouse benefit is payable. In-service death is company-paid; death after termination or retirement is paid by employee's beneficiary through actuarial reduction of benefit. Supplemental spouse's benefit is payable if retiree elects life annuity and dies within 24 months with a surviving spouse. Spouse receives balance of 24 months payments.

## **Death with cash balance survivor benefit**

Surviving spouse may elect a lump sum equal to cash balance account or an equivalent immediate or deferred annuity. If no surviving spouse, benefit paid in lump sum to beneficiary.

## **Other Plan Provisions**

### **Forms of payment**

Preretirement spouse benefits are payable only as described above. Monthly pension benefits are paid as described above, if the participant has no spouse as of the date payments begin, or if the participant so elects. Otherwise, benefits are paid in the form of the 50% joint and survivor annuity option or, if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the plan. Optional forms are a 100% joint and survivor annuity, a 75% joint and survivor annuity, a ten-year certain and life annuity, or (for married participants) a life annuity. Participants may elect a reduced pension in any of the available forms to provide an additional \$1,000 death benefit. Cash balance account may be distributed in a lump sum or as an equivalent life annuity or another optional annuity form.

For purposes of determining optional forms of payment, actuarial equivalents shall be based on the 1971 Group Annuity Mortality Table, male rates, with ages set back one year for participants and five years for joint or contingent annuitants, and interest at 8%.

### **Maximum on benefits and pay**

All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective.

## **Future Plan Changes**

WTW is not aware of any future plan changes that are required to be reflected.

## **Changes in Benefits Valued Since Prior Year**

There have been no changes in benefits valued since the prior year.
