403 (b) Thrift Plan of the Arc of the Ozarks

Independent Auditors' Report, Financial
Statements, and Supplemental Schedule
Years Ended December 31, 2024 and 2023

Independent Auditors' Report

To the Plan Administrator and Participants
403(b) Thrift Plan of the Arc of the Ozarks
Springfield, Missouri

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of 403(b) Thrift Plan of the Arc of the Ozarks, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits - modified cash basis as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits - modified cash basis for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2024 and 2023, stating that the certified investment information, as described in Note 8 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with the modified cash basis of accounting.
- The information in the financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information

prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of 403(b) Thrift Plan of the Arc of the Ozarks and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Basis of Accounting

We draw attention to Note 2 of the financial statements, which describes the basis of accounting. The financial statements and supplemental schedule are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to that matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note 2, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about 403(b) Thrift Plan of the Arc of the Ozarks' ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always

detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of 403(b) Thrift Plan of the Arc of the Ozarks' internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about 403(b) Thrift Plan of the Arc of the Ozarks' ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of the modified cash basis of accounting.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with the modified cash basis of accounting.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental schedule, Schedule of Assets (Held at End of Year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial

statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

403(b) Thrift Plan of the Arc of the Ozarks

Notes to the Financial Statements

Years Ended December 31, 2024 and 2023

1. Description of Plan

The following description of the 403(b) Thrift Plan of the Arc of the Ozarks (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a 403(b) plan covering substantially all employees of Arc of the Ozarks (the plan sponsor). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Employees are eligible to begin making elective deferrals to the Plan upon the date employment begins. Participants who have completed one year of service and are age eighteen or older are eligible to receive an employer contribution.

Predecessor service: For purposes of satisfying the service requirements for vesting and eligibility, hours of service shall include service with Barry-Lawrence County Association of Retarded Citizens and Community Alternatives of Missouri as predecessor employers.

Contributions: Participants may contribute up to 100% of their annual wages through pre-tax contributions or after-tax ROTH contributions. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants who have completed at least 15 years of service are also eligible for a special catch-up contribution. Participants may also contribute amounts representing distributions from other qualified plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The plan sponsor matches 100% of the participant's salary reductions up to a maximum of 4% of the participant's eligible compensation. The plan sponsor may make a discretionary contribution to the Plan, allocated to each participant as a uniform percentage of compensation. The plan sponsor did not make discretionary contributions to the Plan during 2024 or 2023. Contributions are subject to certain IRS limitations.

Participant accounts: Each participant's account is credited with (a) the participant's contribution, (b) the plan sponsor's discretionary and matching contributions (if any) and (c) Plan earnings. Net income and asset revaluations are allocated to each participant based upon the earnings of the investments selected by the participant. These are allocated based upon the participant's account balance. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately 100% vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of credited service. A participant is fully vested after five years of credited service.

Payment of benefits: Participants who terminate service and have account balances of \$1,000 or less will receive an automatic distribution of that balance. Participants with account balances that exceed \$1,000 may elect to receive a lump-sum amount equal to the value of the vested interest in their account or installments for a fixed period not to exceed their assumed life expectancy.

Notes receivable from participants: Participants may borrow from their employee elective deferrals a minimum of \$1,000, and up to a maximum equal to the lesser of \$50,000 or 50% of their vested account

balance. The loans are secured by the balance in the participant's account and bear a reasonable interest rate as determined by the plan sponsor. Principal and interest is paid ratably through payroll deductions.

Forfeitures: Forfeitures of employer contributions will be used to pay plan expenses and to reduce future employer contributions to the Plan. At December 31, 2024 and 2023 there were \$432 and \$369 of available forfeited, non-vested accounts, respectively. Employer matching contributions were reduced by forfeitures totaling \$35,724 and \$28,176 during 2024 and 2023, respectively.

2. Summary of Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the modified cash basis method of accounting. Consequently certain revenue and the related assets are recognized when received rather than when earned and certain expenses are recognized when paid rather than when the obligation is incurred. This basis has been modified to record investments at fair value.

Estimates: The preparation of financial statements in accordance with the modified cash basis of accounting requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 7 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance. Interest income is recorded when received. Related fees are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2024 and 2023. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of benefits: Benefits are recorded when paid.

Expenses: Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Investment related expenses are included in net appreciation in fair value of investments.

Subsequent events: Management has evaluated subsequent events between the end of the most recent fiscal year end and October 7, 2025, the date the financial statements were available to be issued.

Notes to the Financial Statements

Years Ended December 31, 2024 and 2023

3. Plan Termination

Although it has not expressed any intent to do so, the plan sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their account balances.

4. Related Party Transactions and Party In Interest Transactions

Substantially all of the administrative costs of the Plan are paid by the plan sponsor. Certain employees serve as the Plan's administrators. The administrators do not receive any compensation for services rendered to the Plan.

The Plan holds investments in funds managed by the Plan's asset custodian, Mutual of America. Investments in these funds totaled \$9,385,121 and \$6,761,917 at December 31, 2024 and 2023, respectively.

5. Tax Status

The Company has adopted a pre-approved plan document that has obtained an opinion letter from the Internal Revenue Service dated March 31, 2017, stating that the form of the pre-approved plan document, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). Although, the Plan has been amended since adopting the pre-approved plan document, the plan administrator believes that the Plan is designed, and currently being operated, in compliance with the applicable requirements of the IRC, and therefore, believes that the Plan is qualified.

The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024 and 2023, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. A tax liability would be recognized if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Years Ended December 31, 2024 and 2023

7. Fair Value Measurement

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 – inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets
- quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability
- and inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Group annuity contract separate account investments: Valued by the annuity provider using the quoted net asset value of the shares of the underlying mutual fund adjusted for any dividends or distributions received by Mutual of America and the daily equivalent of any fee charged by Mutual of America pursuant to the contract. The underlying mutual funds are registered with the Securities and Exchange Commission and are carried at the net asset value at which the mutual fund shares are actively traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
